Item 1.01 Entry Into a Material Definitive Agreement

A. CÚRAM Collaboration Agreement.

As previously disclosed in October 2014, Arch Therapeutics, Inc. (the “**Company**”) began negotiating a potential collaboration agreement with the CÚRAM Centre for Research in Medical Devices (“**CÚRAM**”), a new major national research center headquartered at the National University of Ireland Galway (“**NUIG**”) in Galway, Ireland, that was in the process of being established as part of a six-year grant from the Irish government. The Company and certain leaders of CÚRAM have previously worked closely together on other initiatives, including preclinical bench-top and animal studies that had been performed in Dublin and Cork in connection with the development of the Company’s AC5 Surgical Hemostatic Device™ (“**AC5**”).

On May 28, 2015, the Company and NUIG entered into a Project Agreement (the “**Project Agreement**”) pursuant to which NUIG will provide personnel, infrastructure support and grant funding in connection with a research program intended to facilitate the continued development of AC5 (the “**Project**”). Under the terms of the Project Agreement, which has a term that will end upon the earlier of the completion of the Project or the sixth anniversary of the execution date of the Project Agreement, the Company may contribute up to a maximum of two hundred and fifty thousand euro (€250,000) to the Project per year, and NUIG will match such funds at a 2:1 ratio using funds allocated to NUIG by Science Foundation Ireland’s (“**SFI**”) Research Centres Programme. In addition, while NUIG will initially retain ownership of all intellectual property developed in connection with the Project (collectively, “**Project IP**”), any such Project IP that was either based on or derived from the Company’s existing intellectual property (“**Derivative IP**”) will be assigned back to the Company for a nominal fee. For any Project IP that does not constitute Derivative IP (“**Non-Derivative IP**”), the Company will have a right of first negotiation to negotiate an exclusive license to such Non-Derivative IP on customary terms for agreements of that nature, subject to a grant-back to NUIG for research and academic purposes.

The foregoing description does not purport to be complete and is qualified in its entirety by reference to the Project Agreement, a copy of which the Company expects to file with the Company’s applicable Quarterly Report on Form 10-Q.

B. Series C Warrant Amendment.

On May 30, 2015 (the “**Amendment Execution Date**”), the Company entered into that certain Amendment to Series C Warrants to Purchase Common Stock, dated as of the Amendment Execution Date, with Cranshire Capital Master Fund, Ltd. (“**Cranshire**”), to amend the expiration date of the Series C Warrants (the “**Amendment**”). Under the terms and conditions of the Amendment, the expiration date of the Series C Warrants was extended from 5:00 p.m., New

York time, on June 2, 2015 to 5:00 p.m., New York time, on July 2, 2015.

The preceding description of the Amendment is qualified in its entirety by reference to the copy of the Amendment filed herewith as Exhibit 10.1 to this Current Report on Form 8-K, which is incorporated herein by reference.
