Item 8.01 Other Events.

On December 22, 2017, the president signed into law the Tax Cuts and Jobs Act (the “Act”). The Act amends the Internal Revenue Code to reduce tax rates and modify policies, credits, and deductions for individuals and businesses. For businesses, the Act reduces the corporate tax rate from a maximum of 35% to a flat 21% rate. The rate reduction will take effect on January 1, 2018.

As of September 30, 2017, Sandy Spring Bancorp, Inc. (the “Company”) had a net deferred tax asset totaling \$15.6 million. Under generally accepted accounting principles, the Company uses the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company’s net deferred tax asset of \$15.6 million was determined based on the current enacted federal tax rate of 35% prior to the passage of the Act. As a result of the reduction in the corporate income tax rate to 21% from 35% under the Act, the Company will revalue its net deferred tax asset at December 31, 2017. The Company estimates that this will result in a reduction in the value of its net deferred tax asset of approximately \$5.1 million, which will be recorded as additional income tax expense in the Company’s statement of operations for the fourth quarter of 2017.
