ITEM 1. DESCRIPTION OF BUSINESS

General Development of Business

Founded in 1901, we are a Delaware corporation with our registered office in Wilmington, Delaware. As of December 31, 2003, we had manufacturing operations at 32 facilities in 14 countries. Our products are sold in over 200 countries and territories.

We manufacture and sell a wide variety of consumer products throughout the world. We have five business segments: Blades and Razors, Duracell, Oral Care, Braun and Personal Care. In 2000, we sold our Stationery Products business.

Blades and Razors

We are the world leader in blades and razors. We sell male shaving systems under such brands as Mach3Turbo, Mach3, SensorExcel, Sensor, Atra, and Trac II, and disposable razors under the Sensor3, Custom Plus, and Good News brands. In January 2004, we announced M3Power, a battery-powered wet shaving system for men, which is scheduled to be available to consumers in North America in May 2004. In August 2003, we announced the Sensor3 shaving system for men, which will be available to consumers in North America in March 2004. Our female shaving systems are sold under the Gillette for Women Venus, SensorExcel for Women, and Sensor for Women brands, and our disposable razors are sold under the Agility and Daisy brands. In July 2003, we introduced the Venus Divine shaving system for women, which is scheduled to be available to consumers in North America in April 2004.

Duracell

We are the world leader in alkaline batteries for consumers. Our products include Duracell CopperTop and Duracell Ultra alkaline batteries and Duracell primary lithium, zinc air, and rechargeable nickel-metal hydride batteries.

Oral Care

We are the world leader in manual and power toothbrushes, all sold under the Oral-B brand.

Edgar Filing: GILLETTE CO - Form 10-K

Braun

We sell electric shavers under the Braun brand and hair epilators under the Silk-Epil brand. These products include the number one foil electric shaver for men and the number one hair epilator for women. We also sell small household and personal diagnostic appliances under the Braun brand.

Personal Care

We sell shaving preparations, skin care products, and antiperspirants/deodorants under brands such as Gillette Series, Satin Care, Right Guard, Soft & Dri, and Dry Idea.

Business Segments

"Operating Segments and Related Information," which contains information on net sales, profit from operations, identifiable assets, capital expenditures, and depreciation for each of the last three years, is incorporated by reference from page 64 of the 2003 Annual Report.

Distribution

In major geographic markets, our products are sold directly to retailers and to wholesalers for resale through retail stores. Oral Care products and Braun personal diagnostic appliances are also sold to health care professionals. In some small geographic markets, our products are distributed by local distributors and through sales agents. The Company's largest customer, Wal-Mart Stores, Inc. and its affiliates, accounted for 13% of net sales in 2003, compared with 12% of net sales in both 2002 and 2001. These sales were made primarily in the United States and were across all product segments.

1

Patents

Some of our patents and licenses in the Blades and Razors segment are of substantial value and importance when considered in the aggregate. Additionally, we hold significant patents in our Duracell, Oral Care, Braun, and Personal Care businesses. No single patent or license held by us is material to our total business. We have licensed many of our blade and razor patents to other manufacturers. In all of our business segments, our competitors also have significant patent positions. The patents and licenses held by us are of varying remaining durations.

Trademarks

In general, our principal trademarks have been registered in the United States and throughout the world where our products are sold. Our products are marketed outside the United States under various trademarks, many of which are the same as those used in the United States. The trademark "Gillette" is of principal importance to us. In addition, a number of other trademarks owned by us and our subsidiaries have significant importance within their industries. Our rights in these trademarks endure for as long as they are used or registered.

Competition

All of our markets are highly competitive. Some of our competitors are larger and have greater resources than we do. The Blades and Razors segment is highly competitive in terms of new technology, as well as product performance, price, marketing, advertising, and promotion. Our major competitors worldwide in blades

Edgar Filing: GILLETTE CO - Form 10-K

and razors include Energizer Holdings, Inc., with its Schick product line, and, in certain countries, its Wilkinson Sword product line, and Societe Bic S.A. The Duracell segment is highly competitive in terms of price, marketing, advertising, and promotion. Competition in the Oral Care segment is focused on product performance, price, and professional endorsement. Competition in the electric shaver and epilator product lines is based primarily on product performance, innovation, and price. The Personal Care segment is highly competitive in terms of price, product innovation, and market positioning, with frequent introductions of new brands and marketing concepts and with product life cycles typically shorter than in our other businesses.

Employees

At year-end, we employed approximately 29,400 persons, over 70% of them outside the United States.

Research and Development

Our research and development efforts are significant to our product innovation, particularly in Blades and Razors. In 2003, research and development expenditures were \$202 million, compared with \$185 million in 2002 and \$187 million in 2001.

Raw Materials

The raw materials we use to manufacture our products are purchased from a number of suppliers, and substantially all such materials are readily available.

Operations by Geographic Area

Net sales and net property, plant, and equipment by geographic area for each of the last three years is incorporated by reference from page 65 of the 2003 Annual Report.

Availability of Reports and Other Information

Our web site is www.gillette.com. On this web site, the public can access our annual, quarterly, and current reports, changes in the stock ownership of our Directors and Executive Officers, and other documents filed with the Securities and Exchange Commission as soon as reasonably practicable after the filing date.

In addition, under the section entitled, "Corporate Governance," we post the latest versions of our Certificate of Incorporation, Bylaws, Corporate Governance Principles, Committee Charters, Committee Assignments, Code of Conduct, and Code of Ethics for Financial Managers and the Chief Executive Officer, including any waivers from or amendments to the Code of Ethics. We also post the procedure for contacting our Board of Directors.

The Corporate Governance Principles, Committee Charters, Code of Conduct and Code of Ethics, are each available in print to any shareholder upon request by writing to the Office of the Secretary, The Gillette Company, Prudential Tower Building, Boston, Massachusetts, 02199.

ITEM 2. DESCRIPTION OF PROPERTY

Management, after review and consultation with counsel, considers that any liability from all of these legal proceedings and claims would not materially affect our consolidated financial condition, results of operations, or liquidity.

ITEM 6. SELECTED FINANCIAL DATA

The information required by this item is incorporated by reference from page 67 of the 2003 Annual Report under the caption, "Historical Financial Summary".

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information required by this item is incorporated by reference from pages 22 through 35 of the 2003 Annual Report under the caption, "Management's Discussion and Analysis of Financial Condition and Results of Operations".

CAUTIONARY STATEMENT

Certain statements that we may make from time to time, including statements contained in this report, constitute "forward-looking statements" under the federal securities laws. Forward-looking statements may be identified by words such as "plans," "expects," "believes," "anticipates," "estimates," "projects," "will" and other words of similar meaning used in conjunction with, among other things, discussions of future operations, acquisitions and divestitures, financial performance, our strategy for growth, product development and new product launches, market position, and expenditures.

Forward-looking statements are based on current expectations of future events, but actual results could vary materially from our expectations and projections. Investors are cautioned not to place undue reliance

7

on any forward-looking statements. We assume no obligation to update any forward-looking statements. We caution that historical results should not be relied upon as indications of future performance.

Factors that could cause actual results to differ materially from those expressed in any forward-looking statement include the following, some of which are described in greater detail below:

- the pattern of our sales, including variations in sales volume within periods;
- consumer demands and preferences, including the acceptance by our customers and consumers of new products and line extensions;
- the mix of products sold;
- our ability to control and reduce our internal costs and the cost of raw materials;
- competitive factors, including prices, promotional incentives, and trade terms for our products, and our response, as well as those of our customers and competitors, to changes in these terms;
- product introductions and innovations by us and our competitors;
- technological advances by us and our competitors;
- new patents granted to us and our competitors;
- changes in exchange rates in one or more of our geographic markets;

Edgar Filing: GILLETTE CO - Form 10-K

- changes in laws and regulations, including trade regulations, accounting standards and tax laws, governmental actions affecting the manufacturing and sale of our products, unstable governments and legal systems, and nationalization of industries;
- changes in accounting policies;
- acquisition, divestiture, and collaborative activities by us, our competitors, or customers; and
- the impact of general political and economic conditions or hostilities in the United States and in other parts of the world.

COMPETITIVE ENVIRONMENT

We experience intense competition for sales of our products in most markets. Our products compete with widely advertised, well-known, branded products, as well as private label products, which typically are sold at lower prices. In most of our markets, we have major competitors, some of which are larger and more diversified than we are. In March 2003, Energizer Holdings, Inc. acquired the Schick blade and razor business and, in certain countries, the Wilkinson Sword blade and razor business, from Pfizer Inc. We anticipate increased competition in our Blades and Razors segment as a result of this change in business ownership. Aggressive competition within our markets to preserve, gain, or regain market share can affect our results in any given period.

CHANGES IN TECHNOLOGY AND NEW PRODUCT INTRODUCTIONS

In most product categories in which we compete, there are continuous technological changes and frequent introductions of new products and line extensions. Our ability to introduce new products and/or extend lines of established products successfully will depend on, among other things, our ability to identify changing consumer tastes and needs, develop new technologies, differentiate our products, and gain market acceptance of new products. We cannot be certain that we will successfully achieve these goals.

With respect specifically to primary alkaline batteries, category growth could be adversely affected by the following additional factors:

- technological or design changes in portable electronic and other devices that use batteries as a power source;
- continued improvement in the service life of primary batteries;
- improvements in rechargeable battery technology; or
- the development of new battery technologies.

INTELLECTUAL PROPERTY

We rely upon patent, copyright, trademark, and trade secret laws in the United States and in other countries to establish and maintain our proprietary rights in technology, products, and our brands. Our intellectual property rights, however, could be challenged, invalidated, or circumvented. We do not believe that our products infringe the intellectual property rights of others, but any such claims, if they were successful, could result in material liabilities or loss of business.

8

COST-SAVINGS STRATEGY

We have implemented and approved a number of programs designed to reduce costs. Such programs will require, among other things, the consolidation and integration of facilities, functions, systems, and procedures, all of which present significant management challenges. There can be no assurance that such

Edgar Filing: GILLETTE CO - Form 10-K

actions will be accomplished as rapidly as anticipated or that the full extent of expected cost reductions will be achieved.

SALES AND OPERATIONS OUTSIDE OF THE UNITED STATES

Sales outside of the United States represent a substantial portion of our business. In addition, we have a number of manufacturing facilities and suppliers located outside of the United States. Accordingly, the following factors could adversely affect operating results in any reporting period:

- changes in political or economic conditions;
- trade protection measures;
- import or export licensing requirements;
- changes in the mix of earnings taxed at varying rates;
- changes in regulatory requirements or tax laws; and
- longer payment cycles in certain countries.

We are also exposed to foreign currency exchange rate risk with respect to our sales, profits, and assets and liabilities denominated in currencies other than the U.S. dollar. Although we use instruments to hedge certain foreign currency risks (through foreign currency forward, swap, and option contracts and non-U.S. dollar denominated financings) and we are partially hedged through our foreign manufacturing operations, there can be no assurance that we will be fully protected against foreign currency fluctuations and our reported earnings will be affected by changes in exchange rates.

RETAIL ENVIRONMENT

With the growing trend toward retail trade consolidation, especially in developed markets such as the United States and Europe, we are increasingly dependent upon key retailers whose bargaining strength is growing. Accordingly, we face greater pressure from significant retail trade customers to provide more favorable trade terms.

We can be negatively affected by changes in the policies of our retail trade customers, such as trade inventory levels, access to shelf space, and other conditions. Many of our customers, particularly our high-volume retail trade customers, have engaged in accelerated efforts to reduce inventory levels and shrinkage and to change inventory delivery systems. While we expect the level of trade inventory of our products to decline over time, the speed and magnitude of such reductions and/or our inability to develop satisfactory inventory delivery systems could adversely affect operating results in any reporting period.

EFFECT OF POTENTIAL MILITARY ACTION OR WAR

Recent military hostilities and the threat of future hostilities, as well as attendant political activity, have created an atmosphere of economic uncertainty throughout the world. A disruption in our supply chain, an increase in import or export costs, and/or other macroeconomic events resulting from military or political events could adversely affect operating results in any reporting period.
