CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING INFORMATION

This Report, by Culp, Inc (the "company"), and the exhibits attached hereto contain statements that may be deemed "forward-looking statements" within the meaning of the federal securities laws, including the Private Securities Litigation Reform Act of 1995 (Section 27A of the Securities Act of 1933 and Section 27A of the Securities and Exchange Act of 1934). Such statements are inherently subject to risks and uncertainties. Further, forward-looking

statements are intended to speak only as of the date on which they are made. Forward-looking statements are statements that include projections, expectations or beliefs about future events or results or otherwise are not statements of historical fact. Such statements are often but not always characterized by qualifying words such as "expect," "believe," "estimate," "plan" and "project" and their derivatives, and include but are not limited to statements about the company's future operations, production levels, sales, SG&A or other expenses, margins, gross profit, operating income, earnings or other performance measures. Factors that could influence the matters discussed in such statements include the level of housing starts and sales of existing homes, consumer confidence, trends in disposable income, and general economic conditions. Decreases in these economic indicators could have a negative effect on the company's business and prospects. Likewise, increases in interest rates, particularly home mortgage rates, and increases in consumer debt or the general rate of inflation, could affect the company adversely. In addition, strengthening of the U. S. dollar against other currencies could make the company's products less competitive on the basis of price in markets outside the United States. Also, economic and political instability in international areas could affect the company's operations or sources of goods in those areas, as well as demand for the company's products in international markets. Finally, unanticipated delays or costs in executing restructuring actions could cause the cumulative effect of restructuring actions to fail to meet the objectives set forth by management. Other factors that could affect the matters discussed in forward looking statements are included in the company's periodic reports filed with the Securities and Exchange Commission.
