SHENANDOAH TELECOMMUNICATIONS COMPANY
REPORTS FIRST QUARTER 2003 FINANCIAL RESULTS

EDINBURG, VA, (April 15, 2003) - Shenandoah Telecommunications Company (Shentel; NASDAQ: SHEN) announced unaudited financial results for the quarter ended March 31, 2003. Net income from continuing operations for the quarter was \$1.9 million, compared to \$0.4 million for the same period in 2002. Discontinued operations contributed an additional \$22.7 million to first quarter 2003 results, compared to \$1.8 million in first quarter 2002. Discontinued operations for this quarter include a one-time, after-tax gain of \$21.5 million on the sale of the Company's interest in the Virginia RSA 10 Limited Partnership cellular operation. With this previously announced sale, further discussed below, the Company has classified its cellular operation as discontinued and it is therefore presented separately from continuing operations in the Company's results. Consolidated net income for the quarter was \$24.5 million, compared to \$2.2 million in first quarter 2002.

Overall Highlights

For the quarter ended March 31, 2003 net income from continuing operations

Edgar Filing: SHENANDOAH TELECOMMUNICATIONS CO/VA/ - Form 8-K

was \$1.9 million or \$0.51 per diluted share, which included an after-tax loss of \$0.2 million from external investments. In first quarter 2002, net income from continuing operations was \$0.4 million or \$0.10 per diluted share, which included an after-tax loss of \$0.4 million from external

investments. On a consolidated net income basis, the first quarter net income of \$24.5 million was \$6.45 per share on a diluted basis, compared to \$2.2 million and \$0.57 per share in 2002.

From continuing operations, the Company's total revenues for the first quarter were \$24.9 million, compared to \$20.7 million in first quarter 2002, an increase of \$4.2 million or 20 percent. The Company's revenue growth was primarily driven by large increases in its PCS business. Operating income increased to \$4.2 million, an increase of \$1.8 million or 79% over 2002. The Company made capital expenditures of \$2.0 million during the quarter, while also decreasing its total debt by \$8.3 million. With the addition of the proceeds from the sale of its cellular partnership sale, the Company's temporary cash investments were \$36.3 million, an increase of \$34.1 million during the quarter. The Company's ratio of debt to total assets ended the quarter at 24%, compared to 34% at the end of the year.

President and CEO, Christopher E. French, commented, "During the quarter we successfully completed the sale of our 66% general partner interest in the Virginia 10 RSA Limited Partnership, which resulted in a large one-time gain. In addition to our one-time gain, we are again pleased with our operating financial results, given the ongoing financial challenges within the telecommunications industry. During the first quarter we were again able to increase our operating income and further reduce our debt, without using proceeds from the Virginia 10 RSA sale for debt reduction. We have seen improvement in our wireless churn and bad debt, but these levels are still unsatisfactory, and will continue to be an area of focus."

Wireless Operations

The Company experienced strong growth in wireless revenues as a PCS Affiliate of Sprint, increasing its PCS revenue by \$3.8 million to a total of \$15.0 million for first quarter

April 15, 2003

News Release

Page 4 of 9

2003. The Company's base of Sprint wireless customers increased by more than 4,600, ending the quarter at approximately 72,500 customers. PCS travel revenue, which is generated by use of the Company's network by Sprint wireless customers residing outside of our territory, was \$3.7 million, which was \$1.3 million more than the offsetting expense generated by the Company's base of Sprint wireless customers. The PCS loss in the first quarter decreased by \$0.7 million compared to first quarter 2002.

The Company also received \$0.6 million from outside parties for lease of space on its wireless towers, compared to \$0.5 million in first quarter 2002. In addition to this external revenue, the Company's towers are also used in the provision of the Company's own wireless services.

Edgar Filing: SHENANDOAH TELECOMMUNICATIONS CO/VA/ - Form 8-K

Wireline Operations

The local telephone operation experienced a \$0.2 million increase in net income to \$2.2 million. During the first quarter, increased access revenue was partially offset by a decrease in fiber facility lease revenue (further discussed below) and a slight increase in operating expense.

The Company's extensive interstate fiber optic network generated a total of \$1.3 million of lease revenue, a decrease of \$0.5 million compared to first quarter 2002, but an increase of \$0.2 million compared to the fourth quarter of 2002. Competitive pricing pressure on fiber facility lease rates and the financial difficulties of some telecommunications carrier customers were principally responsible for recent decreases. In addition to generating revenue from outside leases, the Company's fiber network is also extensively used to support its telephone, CATV, Internet and wireless operations.

Other Operations

The ShenTel Service operation had a profit of \$0.2 million, compared to a negligible profit in first quarter 2002. Revenues associated with information access services, including Internet access service revenues and contract work on the 511Virginia travel information project, increased \$0.2 million, to \$1.4 million. The Company ended the quarter with approximately 19,000 Internet customers of which 850 access the service through Digital Subscriber Line (DSL).

External Investments

First quarter results included after-tax losses of \$0.2 million on external investments. In first quarter 2002 the after-tax losses on investments was \$0.4 million, which was principally attributed to the Company's former investment in VeriSign, Inc., as discussed in previous filings. At the end of the quarter, the Company's external investments totaled \$6.0 million.

Discontinued Operations

As previously disclosed, on November 21, 2002 the Company signed an agreement to sell to Verizon Wireless, for \$37.0 million, the Company's 66% general partner interest in the Virginia 10 RSA Limited Partnership ("VA 10"), which was held by the Company's subsidiary, Shenandoah Mobile Company. The sale was completed at the close of business on February 28, 2003, resulting in the \$21.5 million gain described above. For January and February 2003, prior to the closing, after-tax net income from this discontinued operation was \$1.1 million.

Annual Meeting

The annual meeting of shareholders of Shenandoah Telecommunications Company will be held at 11:00 a.m. on April 22, 2003 in the auditorium of the Shentel Center at 500 Mill Road, Edinburg, VA.
