(A Pre-exploration Stage Company)
NOTES TO THE INTERIM FINANCIAL STATEMENTS
February 28, 2005
(Stated in US Dollars)
(Unaudited)

Note 1 Interim Reporting

While the information presented in the accompanying interim three month financial statement is unaudited, it includes all adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments considered necessary for a fair presentation of the results of operations and financial position have been included and all adjustments are of a normal recurring nature. It is suggested that these financial statements be read in conjunction with the company's November 30, 2004 annual financial statements.

Operating results for the quarter ended February 28, 2005 are not necessarily indicative of the results that can be expected for the year ending November 30, 2005.

Note 2 Continuance of Operations

Edgar Filing: BROOKMOUNT EXPLORATIONS INC - Form 10QSB

The financial statements have been prepared using generally accepted accounting principles in the United States of America applicable for a going concern which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. At February 28, 2005, the Company had a working capital deficiency of \$7,713, which is not sufficient to meet its planned business objectives or to fund mineral property expenditures and ongoing operations for the next twelve months. The Company has yet to achieve profitable operations and has accumulated losses of \$677,713 since its commencement. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due.

Item 2. Management's Discussion and Analysis or Plan of Operation

FORWARD LOOKING STATEMENTS

This quarterly report contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in this Risk Factors section and elsewhere in this annual report.

Item 3. Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, within the 90 days prior to the filing date of this report, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. This evaluation was conducted by the sole director of the Company, who also acts as the Company's President, the Chief Executive Officer, and the Chief Financial Officer.

Based upon that evaluation, the Company concluded that the disclosure controls and procedures are effective. There have been no significant changes in the Company's internal controls or in other factors, which could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

Plan of Operation

Our plan of operations for the twelve months following the date of this quarterly report is to complete initial exploration programs on the Brookmount and Mercedes properties. We plan to start our 2005 exploration programs in June. We anticipate that these programs will cost \$10,000 and \$449,100 respectively.

In addition, we anticipate spending \$18,000 on professional fees, \$198,000 on management fees, \$42,000 on travel costs, \$18,000 on promotional expenses and \$36,000 on other administrative expenses.

Total expenditures over the next 12 months are therefore expected to be \$771,100. We will not be able to proceed with either exploration program, or meet our administrative expense requirements, without additional financing.

We will not be able to complete the initial exploration programs on our mineral properties without additional financing. We currently do not have a specific

Edgar Filing: BROOKMOUNT EXPLORATIONS INC - Form 10QSB

plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock. We may also seek to obtain short-term loans from our directors, although no such arrangement has been made. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any future equity financing.

Results Of Operations for Three-Month Period Ended February 28, 2005

We did not earn any revenues during the period ending February 28, 2005. We do not anticipate earning revenues until such time as we have entered into commercial production of the Brookmount claims or the Mercedes property. We are presently in the pre-exploration stage of our business and we can provide no assurance that we will discover economic mineralization levels of minerals on either property, or if such minerals are discovered, that we will enter into commercial production.

We incurred operating expenses in the amount of \$1,369,692 for the three-month period ended February 28, 2005. During the quarter we issued 5,000,000 shares at \$0.25 per share for Mercedes Property pursuant to a property acquisition agreement dated for reference July 3, 2005 and amended on January 24, 2005. Operating expenses included consulting fees of \$12,960 and management fees of \$40,500.

Our net loss increased from \$74,351 in fiscal 2004 to \$1,369,692 in fiscal 2005 primarily due to \$ 1,250,000 mineral property costs recorded by the company upon issuance of 5,000,000 shares of the company's capital stock and a general increase in company's activity surrounding our change of management and the identification, negotiation and execution of an agreement to acquire an interest in the Mercedes property.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities. For these reasons our auditors stated in their report that they have substantial doubt that we will be able to continue as a going concern.

At February 28, 2005, we had assets of \$96,254 consisting of cash on hand of \$85,046 (2004: \$33,703), resource property cost advances of \$Nil (2004: \$15,130), prepaid expenses of \$9,567 (2004: \$Nil), and capital assets of \$1,641 (2004: \$Nil). At the same date, we had \$102,326 (2004: \$69,503) in liabilities consisting of accounts payable and accrued liabilities of \$42,888 (2004: \$15,575) and \$59,438 (2004: \$53,928) due to related parties.
