CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This annual report, documents incorporated herein by reference, and other reports and filings made by the Registrant contain forward-looking statements. These forward-looking statements relate to the Registrant's plans for drilling, exploration and development, business strategy and plans and objectives of management for future operations, and the Registrant's future financial position, estimated amounts and timing of capital expenditures, royalty rates and exchange fees relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects", "is expected", "anticipates", "plans", "projects", "estimates", "intends", "strategy", "goals", "objectives", "potential" or variations thereof or stating that certain actions, events or results "could", "would", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements.

Statements concerning oil and gas reserves contained in this annual report may be deemed to be forward-looking statements as they involve the implied assessment that the resources described can be profitably produced in the future, based on certain estimates and assumptions.

Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors that could cause actual events or results to differ from those reflected in the forward-looking statements, including, without limitation:

- The risks of the oil and gas industry, such as operational risks in exploring for, developing and producing crude oil and natural gas;
- market demand;
- risks and uncertainties involving geology of oil and gas deposits;
- uncertainty of capital costs, operating costs, production and economic returns;
- the uncertainty of reserve estimates and reserves life;
- the uncertainty of estimates and projections relating to production, costs and expenses;
- potential delays or changes in plans with respect to exploration or development projects or capital expenditures;
- fluctuations in oil and gas prices, foreign currency exchange rates and interest rates;
- health, safety and environmental risks;
- uncertainties as to the availability and cost of financing;
- the possibility that government policies or laws may change or governmental approvals may be delayed or withheld;

- the Registrant's ability to attract and retain qualified management; and
- commodity price fluctuations.

Other sections of this annual report may include additional factors that could adversely affect the Registrant's business and financial performance. Moreover, the Registrant operates in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all risk factors, or assess the impact of all factors on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

The Registrant's forward-looking statements are based on the beliefs, expectations and opinions of management on the date the statements are made, and the Registrant does not assume any obligation to update forward-looking statements if circumstances or management's beliefs, expectations or opinions should change. For the reasons set forth above, investors should not place undue reliance on forward-looking statements.

Unless otherwise indicated, all dollar amounts in this annual report are expressed in Canadian dollars. The exchange rate of Canadian dollars into United States dollars, based upon the noon rate of exchange as reported by the Bank of Canada, was U.S.\$1.00 = CDN\$1.1698 on March 28, 2006 and was U.S.\$1.00 = CDN\$1.1580 on March 28, 2007.

DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this annual report, the Registrant carried out an evaluation, under the supervision of the Chief Executive Officer (**CEO**) and Chief Financial Officer (**CFO**), of the effectiveness of the Registrant's disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, the CEO and CFO have concluded that, as of the end of the period covered by this annual report, the Registrant's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Registrant in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (ii) accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, to allow timely decision regarding required disclosure.

It should be noted that while the CEO and CFO believe that the Registrant's disclosure controls and procedures provide a reasonable level of assurance that they are effective, they do not expect that the Registrant's disclosure controls and procedures or internal control over financial reporting will prevent all errors and fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

INTERNAL CONTROL OVER FINANCIAL REPORTING

Management's Report on Internal Control over Financial Reporting is included herein as Exhibit 4.

AUDIT COMMITTEE FINANCIAL EXPERT

The board of directors of the administrator of the Registrant (the **Board**) has determined that it has at least one audit committee financial expert serving on its Audit Committee. Mr. R.H. Joe Vidal has been designated an audit committee financial expert and is independent, as that term is defined by the New York Stock Exchange's listing standards applicable to the Registrant. The Securities and Exchange Commission has indicated that the designation of a person as an audit committee financial expert does not make that person an expert for any purpose, impose any duties, obligations or liability on that person that are greater than those imposed on members of an audit committee and board of directors who do not carry this designation or affect the duties, obligations or liability of any other member of the audit committee.

CODE OF ETHICS

The Registrant has adopted a code of ethics entitled Code of Business Conduct which applies to all directors, officers, employees and consultants. It is available on the Registrant's web site at www.enterraenergy.com and in print to any unitholder who requests it. All amendments to the code, and all waivers of the code with respect to any of the individuals covered by it, will be posted on the Registrant's web site, submitted on Form 6-K and provided in print to any unitholder who requests them.

CORPORATE GOVERNANCE LISTING STANDARDS

The Registrant's corporate governance practices are subject to guidelines for effective corporate governance established by National Instrument 58-101 and National Policy 58-201 (collectively, the "CSA Rules"). The Registrant satisfies all of the NYSE corporate governance listing standards applicable to non-U.S. companies.

According to Section 303A.11 of the Listed Company Manual, listed foreign private issuers must disclose any significant ways in which their governance practices differ from those followed by domestic companies under NYSE listing standards.

Approval of Equity Compensation Plans

Section 303A.08 of the NYSE Listed Company Manual requires shareholder approval of all equity compensation plans and material revisions to such plans. The definition of equity compensation plans covers plans that provide for the delivery of newly issued and treasury securities as well as plans that rely on securities re-acquired in the open market by the issuing company for the purpose of redistribution to employees and directors. The TSX rules provide that only the creation of or material amendments to equity compensation plans, which provide for new issuances of securities are subject to shareholder approval. The Registrant follows the TSX rules with respect to the requirements for unitholder approval of equity compensation plans and material revisions to such plans.

Corporate Governance Guidelines

According to Section 303A.09 of the NYSE Listed Company Manual, a listed company must adopt and disclose a set of corporate governance guidelines and make these and the charters of its most important committees available on its website. The Registrant has adopted corporate governance guidelines that comply in many respects with those set out in Section 303A.09, however the guidelines and charters of its most important committees are not yet available on the Registrant's website. Any unitholder may request a copy of these documents by contacting the Registrant at info@enterraenergy.com.

Internal Audit Function

Section 303A.07(d) of the NYSE's Listed Company Manual requires a listed company to have an internal audit. The Registrant does not currently have such a function.

INDEPENDENCE STANDARDS

The Board is responsible for determining whether or not each director is independent. In making this determination, the Board has adopted the definition of independence as set out in Section 1.4 of Multilateral Instrument 52-110 Audit Committees (**MI-51-110**). In applying this definition, the Board considers all relationships of the directors with Enterra, including business, family and other relationships. The Board also determines whether each member of the Audit Committee is independent pursuant to Sections 1.4 and 1.5 of MI 52-110 and Rule 10A-3 of the Exchange Act. The Board has not formally adopted the director independence standards contained in Section 303A.02 of the NYSE's Listed Company Manual.

DISCLOSURE OF RESERVES DATA

As a Canadian issuer, the Registrant is required under Canadian law to comply with National Instrument 51-101 "Standards of Disclosure for Oil and Gas Activities" ("**NI 51-101**") issued by the Canadian Securities Administrators, in all of its reserves related disclosures.

In the United States however, registrants, including foreign private issuers like the Registrant, are generally required to disclose proved reserves using the standards contained in the Securities and Exchange Commission Regulation S-X. Under certain circumstances, applicable U.S. law permits the Registrant to comply with Canadian law if the requirements vary. The primary difference between the two standards is the additional requirement under NI 51-101 to disclose both proved and proved plus probable reserves as well as related future net revenues using forecast prices and costs. Another difference lies in the definition of proved reserves. As discussed in the Canadian Oil and Gas Evaluation Handbook ("**COGE Handbook**"), the standards which NI 51-101 employs, the difference in estimated proved reserves based on constant pricing and costs between the two standards is not material.
