NOTE 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION

(A) Basis of presentation and accounting policies

The unaudited interim consolidated financial statements have been prepared in conformity with United States generally accepted accounting principles. They include the accounts of Dragon Pharmaceutical Inc., which is incorporated under the laws of the State of Florida, United States, and its wholly owned or controlled subsidiaries (collectively, the Company). Certain information and footnote disclosures required by United States generally accepted accounting principles for complete annual financial statements have been omitted and, therefore, these interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2007. In the opinion of management, these financial statements reflect all adjustments, of a normal recurring nature, necessary to present fairly, in all material respects, the Company's consolidated financial position, results of operations, and cash flows for the interim periods presented. The results of operations for the three months ended March 31, 2008 are not necessarily indicative of those for a full fiscal year.

The accompanying unaudited interim consolidated financial statements contemplate continuation of the Company as a going concern. The Company has a working capital deficiency of \$19.94 million as at March 31, 2008, however, the Company has developed and is implementing a plan to decrease its debt and increase its working capital which will allow the Company to continue operations as discussed below.

The Company plans to seek additional equity through the conversion of some of its liabilities and expects to raise funds through private placements in order to support existing operations and expand the range and scope of its business. The Company has also significantly increased production levels to generate additional cash flow under contracted supply agreements. In addition, the Company intends to continue to renegotiate and extend loans, as required, when they become due, as has been done in the past. There is no assurance that such additional funds will be available for the Company on acceptable terms, if at all, or that the Company will be able to negotiate and extend the loans. If adequate funds are not available or not available on acceptable terms or the Company is unable to negotiate or extend its loans, the Company may be required to scale back or abandon some activities. Management believes that

actions presently taken provide the opportunity for the Company to continue as a going concern. The Company's ability to achieve these objectives cannot be determined at this time. These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from this uncertainty.

(B) Recent Accounting Pronouncements

Effective January 1, 2008, the Company adopted, on a prospective basis, SFAS No. 157, Fair Value Measurements (SFAS 157) as amended by FASB Staff Position SFAS 157-1, Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13 (FSP FAS 157-1) and FASB Staff Position SFAS 157-2,

Effective Date of FASB Statement No. 157 (FSP FAS 157-2). SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and provides for expanded disclosure about fair value measurements. SFAS 157 applies prospectively to all other accounting pronouncements that require or permit fair value measurements. FSP FAS 157-1 amends SFAS 157 to exclude from the scope of SFAS 157 certain leasing transactions accounted for under SFAS No. 13, Accounting for Leases. FSP FAS 157-2 amends SFAS 157 to defer the effective date of SFAS 157 for all non-financial assets and non-financial liabilities except those that are recognized or disclosed at fair value in the financial statements on a recurring basis to fiscal years beginning after November 15, 2008.

DRAGON PHARMACEUTICAL INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007 (UNAUDITED)****Expressed in US Dollars**

The adoption of SFAS 157 did not have a material impact on the Company's interim consolidated financial statements. Management is evaluating the impact that SFAS 157 will have on its non-financial assets and non-financial liabilities since the application of SFAS 157 for such items was deferred to January 1, 2009. The Company believes that the impact of these items will not be material to its consolidated financial statements.

Effective January 1, 2008, the Company adopted, on a prospective basis, SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to provide entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Company did not elect to apply the fair value option for any of its eligible financial instruments or other items on the January 1, 2008 effective date.

NOTE 2**ACCOUNTS RECEIVABLE**

During the three months ended March 31, 2008, the Company paid deposits of \$578,000 (RMB 4,150,000) for land and constructions cost.

The Company is actively exploring additional business opportunities which may involve an investment in a new production campus. In this regard, the Company paid the deposits to the land bureau and various contractors for possible land and construction costs. According to the respective agreements, the Company will notify the contractors of the final decision of the project by June 2008 and such deposits are refundable.

NOTE 7 **Discontinued operations**

Edgar Filing: DRAGON PHARMACEUTICAL INC - Form 10-Q

The Company signed an agreement on November 5, 2007 with a non-affiliated third party to sell the assets of the former biotech operation excluding finished goods on hand. According to the agreement, the buyer will pay the Company before June 2008 a total of US\$ 2.14 million (or RMB 15.6 million), in exchange for certain fixed assets and certain net working capital as at October 31, 2007 of the biotech business. NOTE 10**NOTES PAYABLE**

The Company has a banking facility whereby the Company has issued several non-interest bearing notes payables to two vendors totalling \$2,848,000 (RMB 20,000,000) as at March 31, 2008. These notes are due on August 2008, and are collateralized by \$2,848,000 of bank deposits that may only be used to repay the notes.

The Company also entered into an agreement with a bank providing up to \$4,272,000 (RMB 30 million) of letters of credit which can be provided to suppliers to guarantee payment for purchases. This facility is for one year and expires on February 2, 2009. The bank will charge a fee of 0.05% on the total amount of each letter of credit provided. The facility is collateralized by equipment with a net book value of \$6,982,000. As at March 31, 2008, the Company issued several non-interest bearing notes under this facility to vendors totalling \$2,848,000. These notes are due on August 2008.

NOTE 11**SEGMENTS**

Beginning with the first quarter of 2008, the Company has changed the structure of its internal organization and realigned its business segments into two divisions: Cephalosporin and Penicillin. Cephalosporin Division operates the production and sales of 7-ACA, Active Pharmaceutical Ingredient (API) and formulation drugs. In addition to 7-ACA, an intermediate for cephalosporin antibiotics, the Company's current product offering in the Cephalosporin Division also includes ceftazidime crude powder (downstream API) and formulation products such as powder for

injection for ceftriaxone, cefazolin, cefotaxime, cefoperazone, ceftazidime and cefuroxime. Penicillin Division currently operates the production and sales of Clavulanic Acid and Cefalexin. Cefalexin was launched and included in the Company's product portfolio in January 2008. Clavulanic Acid is a drug that combines with penicillin group antibiotics to increase the effectiveness of against bacteria resistance. Cefalexin is a Penicillin G downstream product that is widely used to treat urinary tract infections, respiratory tract infections, skin and soft tissue infections.

This realignment better reflects the Company's business strategy to become a leading vertically integrated manufacturer and distributor of a broad line of high-quality antibiotic products.

The Company evaluates segment performance based on gross profit. All sales by division were to external customers (see Note 17 also). Sales relating to the Cephalosporin division's 7-ACA product represented approximately 37.8% of the total sales for the three months ended March 31, 2008 (2007: 63.84%). Substantially all of the Company's assets are located in China. The following is a summary of the Company's segment information for the three months ended March 31, 2008 and 2007 and as of March 31, 2008 and December 31, 2007.

COMMITMENTS AND CONTINGENCIES

(A) Employee Benefits

The full time employees of Shanxi Weiqida, a wholly owned subsidiary in China, are entitled to employee benefits including medical care, worker compensation, unemployment insurance and pension benefits through a Chinese government mandated multi-employer defined contribution plan. The Company is required to accrue for those benefits based on certain percentages of the employees' salaries. The total provision for such employee benefits was \$205,000 and \$109,000 for the three months ended March 31, 2008 and 2007, respectively. The Company is required to make contributions to the plans out of the amounts accrued for medical and pension benefits. The Chinese government is responsible for the medical benefits and the pension liability to be paid to these employees.

During the year ended December 31, 2007, Shanxi Weiqida received subsidies of \$1,370,000 from the government of China for mandated employee benefit contributions for the period from July 2005 to June 2008. These subsidies were deposited directly into the employee's social benefit and insurance accounts. During the year ended December 31, 2007, \$950,000 was recognized as other income, and for the three months ended March 31, 2008, \$241,000 was recognized as other income (for the three months ended March 31, 2007: nil). The remaining balance of the subsidies of \$179,000 will be recognized as other income during the contribution period from April to June 2008.

(B) Loan Guarantees

The Company has guaranteed a bank loan to a supplier in the amount of \$2,677,000 (RMB18.8 million), due on July 8, 2008. Interest on the loan is charged at 9.576% and the bank has the right to seek settlement from the Company for payment should the supplier fail to repay the loan. There is no recourse or possible recovery for the Company should the supplier default on its bank loan. The maximum potential amount of future payments (undiscounted) that the Company could be required to make is \$2,747,000 (RMB 20.65 million). The Company provided the guarantee to the supplier to maintain a good business relationship.

The Company has also issued a guarantee to a bank as collateral for loans to a third party vendor of \$2,706,000 (RMB19 million) due on September 25, 2009 and \$4,058,000 (RMB 28.5 million) due on October 26, 2009. Interest is charged at 8.715 %. The bank has the right to seek settlement from the Company for payment should the third party vendor fail to repay the loan. The maximum potential amount of future payments (undiscounted) that the Company could be required to make is \$7,672,000 (RMB 57.7 million). This vendor has pledged certain property and equipment to the Company as collateral for this guarantee.

(C) Capital Commitments

According to the approval of the Business Bureau of Shanxi province, China on December 12, 2007, the total registered capital to Shanxi Weiqida, increased from \$24,175,000 (RMB200 million) to \$51,519,000 (RMB400 million). The Company is required to contribute the additional registered capital of \$27,344,000 (RMB 200 million) by paying cash of \$14,536,000 (RMB106 million) and transferring \$12,808,000 (RMB94 million) of retained earnings of Shanxi Weiqida within 3 years from November 20, 2007. For the three months ended March 31, 2008, the Company transferred \$6,104,000 (RMB44 million) of retained earnings of Shanxi Weiqida to registered capital of Shanxi Weiqida. As at March 31, 2008, the Company has capital commitment of \$15,237,000 (RMB107 million) to Shanxi Weiqida.

NOTE 13

STOCKHOLDERS EQUITY

(A) Reserves

Pursuant to PRC regulations, Shanxi Weiqida is required to make appropriations to reserves funds, comprising the reserve fund, staff welfare fund and enterprise expansion fund, based on after-tax net income determined in accordance with generally accepted accounting principles of the People's Republic of China (the PRC GAAP).

Appropriations to the reserve fund should be at least 10% of the after tax net income determined in accordance with the PRC GAAP until the reserve is equal to 50% of Shanxi Weiqida's registered capital. The reserve fund is established for covering potential losses. Appropriations to the staff welfare fund are at a percentage, as determined by the Board of Directors, of the after tax net income determined in accordance with the PRC GAAP.

The staff welfare fund is established for the purpose of providing employee facilities and other collective benefits to the employees. Appropriations to the enterprise expansion fund are made at the discretion of the Board of Directors.

The enterprise expansion fund is established for expanding business operation. The reserve fund and enterprise expansion fund are recorded as part of shareholders' equity but are not available for distribution to shareholders other than in liquidation, while the staff welfare fund is recorded as a liability and is not for distribution to shareholders. The appropriations to reserves are made by the Board of Directors on an annual basis.

In order to fulfil Shanxi Weiqida's additional registered capital requirement (see note 12(C)), the Company transferred \$6,104,000 (RMB 44 million) of retained earnings of Shanxi Weiqida to registered capital during the three months ended March 31, 2008. As at March 31, 2008, and December 31, 2007, Shanxi Weiqida has paid-in capital of 36,843,000 (RMB293 million) and \$30,879,000 (RMB 249 million), respectively.

The Company recorded stock based compensation expense of \$75,000 and \$21,000 for the three months ended March 31, 2008 and 2007, respectively, related to stock options granted to directors and employees, which amounts are included in general and administrative expenses. The estimated fair value of stock options granted during the three months ended March 31, 2008 was determined using the Black-Scholes option pricing model with the following weighted average assumptions: expected volatility 81.51 %; risk-free rate - 4.58%; expected average life of the options 3 years; dividend yield 0%. The Company estimated a 0% forfeiture rate by considering the historical employee turnover rates and expectations about the future, and will subsequently adjust compensation cost for differences between expectations and actual experience. The estimated fair value of the options granted during the three months ended March 31, 2008 was \$0.41 per share. The fair value of the options is being expensed on a straight line basis over the vesting period of the options.

Aggregate intrinsic value of the Company's stock options is calculated as the difference between the exercise price of the options and the quoted price of the common shares that were in-the-money. The aggregate intrinsic value of the Company's outstanding stock options as at March 31, 2008 was \$1,161,000. For the three months ended March 31, 2008 and 2007, no stock options were exercised. The estimated fair value of stock options vested during the three months ended March 31, 2008 and 2007 was \$49,000 and \$21,000 respectively. There is approximately \$102,000 of unrecognized compensation expense as of March 31, 2008 that is expected to be recognized over the next 24 months.

NOTE 14

INCOME TAXES

On March 16, 2007, The National People's Congress of China passed The Law of the People's Republic of China on Enterprise Income Tax (the Enterprise Income Tax Law). The Enterprise Income Tax Law will become effective on January 1, 2008. This new law eliminated the existing preferential tax treatment that is available to the foreign invested enterprises (FIEs). Under the new law, Shanxi Weiqida and Huaxin are subject to a unified income tax rate of 25% starting from 2008.

During the three months ended March 31, 2008, Shanxi Weiqida applied for and received an income tax credit for reinvestment of \$444,000 (\$nil for the three months ended March 31, 2007) from the government of China. This credit is related to reinvestment of retained earnings of 2006 of \$6,704,000 (RMB 49 million) to paid-in capital of 2007. These credits were recorded as a reduction of income taxes for the three months ended March 31, 2008 (for the three months ended March 31, 2007: nil). As a result, the effective income tax rate for Shanxi Weiqida for the three months ended March 31, 2008 is 11%.

According to the new China Enterprise Income Tax Law effective on January 1, 2008, the tax refund for reinvestment is no longer applicable to FIEs.

The tax effect of temporary differences that give rise to significant components of the deferred tax assets are as follows:

Fair Value of Financial Instruments

The carrying amount of the Company's cash and cash equivalents, accounts receivable, investments, amounts due to related parties and short-term loans and other payables approximates their fair value. The fair value of long-term loans payables and long-term accounts payable are estimated using discounted cash flow analysis, based upon the Company's current borrowing rates, and approximate their carrying value.

NOTE 17

CONCENTRATIONS AND RISKS

84% and 64% of the Company's revenues for the three months ended March 31, 2008 and 2007, respectively, were derived from customers located in China. During the three months ended March 31, 2008 and 2007, the Company had sales of \$4,607,000 and \$5,127,000 respectively to customers in India, representing 12.8% and 30.3% respectively of the Company's revenues for the three months ended March 31, 2008 and 2007.

Sales to the Company's largest customer accounted for approximately 10% (in the Cephalosporin division) and 27.7% of the Company's sales for the three months ended March 31, 2008 and 2007, respectively. Amounts owing from one customer represented 7.5% of the Company's trade and other receivables at March 31, 2008.

Expressed in US Dollars

The Company is exposed to the risk arising from changing interest rates. A detailed analysis of the Company's Loans Payable, together with their respective interest rates and maturity dates, are included in Note 9.

The majority of the Company's assets, liabilities, revenues and expenses are denominated in Renminbi, which was tied to the US Dollar and is now tied to a basket of currencies of China's largest trading partners, is not a freely convertible currency. The appreciation of the Renminbi against the US Dollar would result in an increase in the assets, liabilities, revenues and expenses of the Company and a foreign currency gain included in comprehensive income. Conversely, the devaluation of the Renminbi against the US Dollar would result in a decrease in the assets, liabilities, revenues and expenses of the Company and a foreign currency loss included in comprehensive income. As at March 31, 2008, approximately US\$4,662,000 of cash (December 31, 2007: US\$4,633,000) is held in Renminbi.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Except for statements of historical facts, this section contains forward-looking statements involving risks and uncertainties. You can identify these statements by forward-looking words including "believes," "considers," "intends," "expects," "may," "will," "should," "forecast," or "anticipates," or the negative equivalents of those words or comparable terminology, and by discussions of strategies that involve risks and uncertainties. Forward-looking statements are not guarantees of the Company's future performance or results, and the Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Risk Factors." This section should be read in conjunction with the Company's consolidated financial statements.

The following discusses the Company's financial condition and results of operations for the quarter ended March 31, 2008 and 2007 based upon the Company's unaudited interim consolidated financial statements which have been prepared in accordance with the United States generally accepted accounting principles.

Starting January 1, 2008, the Company has reclassified its business into 2 segments, Cephalosporin Division and Penicillin Division.

Cephalosporin Division operates the production and sales of 7-ACA, Active Pharmaceutical Ingredient (API) and formulation drugs. In addition to 7-ACA, an intermediate for cephalosporin antibiotics, the Company's current product offering in the Cephalosporin Division also includes ceftazidime crude powder (downstream API) and formulation products such as powder for injection for ceftriaxone, cefazolin, cefotaxime, cefoperazone, ceftazidime, cefuroxime, cefonicid and cefminox.

Penicillin Division currently operates the production and sales of Clavulanic Acid and Cefalexin. Cefalexin was launched and included in the Company's product portfolio in January 2008. Clavulanic Acid is a drug that combines with penicillin group antibiotics to increase the effectiveness against bacteria resistance. Cefalexin is a Penicillin G downstream product that is widely used to treat urinary tract infections, respiratory tract infections, skin and soft tissue infections.

Results of Operations for the Fiscal Quarter Ended March 31, 2008 and 2007

Sales for the quarter ended March 31, 2008 increased 112% to \$35.87 million from \$16.90 million for the same period in 2007. \$30.14 million or approximately 84% of the sales for the quarter ended March 31, 2008 were generated from the sales of products in the Chinese market, and the remaining \$5.73 million or approximately 16% were generated from the sales of products in the markets outside of China. By comparison, 64% of the sales for the quarter ended March 31, 2007 were generated from the sale of products in the Chinese market while the remaining 36% of the sales were generated in the international market outside of China.

For the quarter ended March 31, 2008, \$23.73 million or approximately 66% of the sales were from the Cephalosporin Division and \$12.14 million or 34% of sales were from the Penicillin Division. For the same period in 2007, 75% of sales were from the Cephalosporin Division and 25% of sales were from the Penicillin Division. The increase in sales for the first quarter of 2008 as compared to the prior year was primarily due to an increase of sales in all products, especially, 7-ACA and formulation drugs of the Cephalosporin Division and Clavulanic Acid and Cefalexin, a new product introduced in January, 2008, of the Penicillin Division.

Cost of sales for the quarter ended March 31, 2008 was \$29.70 million compared to \$13.15 million for the same period in 2007. The increase in the cost of sales was mainly due to the increase in production and sales of products from both Cephalosporin and Penicillin Divisions as mentioned above. Gross profit for the quarter ended March 31, 2008 increased 65% to \$6.17 million from \$3.75 million for the same period in 2007. Gross margin for the first quarter of 2008 was 17% as compared to 22% for the same period in 2007. The decrease of the gross margin was due to the increase in sales of Cephalosporin formulation drugs and the introduction of Cefalexin of the Penicillin Division, which carried a slightly lower margin initially.

Divisional Revenues and Gross Margin Analysis

The Company's businesses are currently organized under two business Divisions: the Cephalosporin and the Penicillin Division.

Cephalosporin Division

Sales for the Cephalosporin Division for the quarter ended March 31, 2008 were \$ 23.73 million, representing a 87% increase from the revenues of \$12.66 million during the same period in 2007. The increase in sales is mainly due to an increase in selling price and volume for 7-ACA and Cephalosporin formulation drugs. Sales of 7-ACA and Cephalosporin formulation products for the quarter ended March 31, 2008 increased 26% and 443% respectively year-over-year.

The Cephalosporin Division's gross margin for the quarter ended March 31, 2008 was 16% compared to 21% for the quarter ended March 31, 2007. Gross margin for both 7-ACA and Cephalosporin formulation drugs was 27% and -0.3% respectively for the first quarter of 2008, an improvement from the gross margin of 25% and -1.4% respectively for the same period in 2007. The decrease in the overall gross margin of the Cephalosporin division year-over-year mainly reflected the significant increase in sales contribution of the Cephalosporin formulation drugs during the quarter ended March 31, 2008. Contribution of the sales of Cephalosporin formulation drugs to the total sales of the Cephalosporin division increased from 15% for the first quarter of 2007 to 43% for the same period in 2008.

Penicillin Division

The Penicillin Division's sales for the quarter ended March 31, 2008 were \$12.14 million, accounting for 34% of the total sales of the Company. By comparison, Penicillin Division's sales were \$4.24 million for the same period in 2007, contributing 25% of the total sales of the Company. The 186% increase in sales of the Penicillin Division during 2008 as compared to 2007 was mainly due to the increase in both sales volume and selling prices of Clavulanic Acid as well as the introduction of Cefalexin in the market. Sales of Clavulanic Acid for the first quarter of 2008 increased 49% year-over-year from \$4.21 million to \$6.25 million.

The overall gross margin for the Penicillin Division for the quarter ended March 31, 2008 was 21% as compared to 26% for the same period of 2007. Clavulanic Acid had a gross margin of 34% for the first quarter of 2008 as compared to 26% for the same period in 2007. This reflected the increase in sales contribution of sterilized Clavulanic Acid powder which had a higher margin than other Clavulanic Acid products. The slight decrease of the overall gross margin of the Division was due to the introduction of Cefalexin, a new product introduced in January, 2008, which had a 1.3% gross margin initially during the first quarter of 2008.

Expenses. Total operating expenses were \$3.60 million for the quarter ended March 31, 2008. The major category of operating expenses was general and administration expenses of \$1.87 million, and research and development expenses of \$0.43 million, selling expense of \$1.12 million, and depreciation and amortization expenses of \$0.18 million. Total operating expenses were \$2.01 million for the quarter ended March 31, 2007 with the major expenses being general and administration expenses of \$1.28 million, research and development expenses of \$0.2 million, selling expense of \$0.4 million, and depreciation and amortization expenses of \$0.13 million.

Included in the general and administration expenses for the quarter ended March 31, 2008 was \$0.08 million non-cash stock based compensation. Comparatively, the non-cash stock based compensation for the prior year was \$0.02 million.

The increase in operating expenses of \$1.59 million for the quarter ended March 31, 2008 as compared to the same period for the prior year reflects the increase in selling expenses due to an increase in sales commission related to the increase in revenues for both the Cephalosporin and Penicillin Divisions.

Other Expense During the quarter ended March 31, 2008, the Company recognized a net other expense of \$0.57 million. This amount primarily consisted of \$0.90 million of interest expense (including \$0.88 million cash interest expense and \$0.02 million non-cash accreted interest expense on the long term payable) which was offset partly by a \$0.24 million government subsidies for mandated employee benefit contributions. Other expenses for the quarter ended March 31, 2007 were 0.73 million.

Net Income For the quarter ended March 31, 2008, the Company had a net profit of \$1.96 million representing an increase of 130% from \$0.85 million for the same period in 2007. The increase was mainly attributed to an increase in sales and gross profit of both Cephalosporin and Penicillin Divisions.

Comprehensive Income Including a gain on foreign currency translation of \$1.94 million, the Company had a comprehensive income of \$3.91 million for the first quarter of 2008, compared to a comprehensive income of \$1.22 million for the same period of 2007, which included a gain on foreign currency translation of \$ 0.37 million. The gain on foreign currency translation results from translation of the financial statements expressed in Chinese Renminbi (RMB) to United States Dollar. The increase reflects the appreciation of the RMB relative to the United States dollar.

Net Income per Share Basic Company's net income per share has been computed by dividing the net income for the period by the weighted average number of shares outstanding during the same period. The weighted average

number of shares outstanding was 66,374,507 and 62,878,004 for the first quarter of 2008 and 2007 respectively.

Net Income per share was \$0.03 for the first quarter of 2008 as compared to \$0.01 per share for the same period of 2007.

Net Income per Share Diluted During the first quarter of 2008, some of the stock options outstanding had a dilutive impact of the Company's net income. The weighted average number of shares on a diluted basis was 68,170,887 and 62,878,004 for the first quarter of 2008 and 2007 respectively. Net Income per share on a diluted basis was \$0.03 for the first quarter of 2008 as compared to \$0.01 per share for the same period of 2007.

Dividends of the PRC subsidiary may only be distributed after allowance has been made for i) recovery of losses, if any; ii) appropriations to the reserve fund; iii) appropriations to the staff welfare fund; and iv) appropriations to an enterprise expansion fund if determined by the Board of Directors. Under current regulation, appropriations to the reserve fund should be at least 10% of the after tax net income determined in accordance with the PRC GAAP until the reserve is equal to 50% of PRC subsidiary's registered capital; appropriations to the staff welfare fund are at a percentage, as determined by the Board of Directors, of the after tax net income determined in accordance with the PRC GAAP; appropriations to the enterprise expansion fund are made at the discretion of the Board of Directors. The reserve fund and enterprise expansion fund are recorded as part of stockholders' equity but are not available for distribution to shareholders other than in liquidation; while the staff welfare fund is recorded as a liability and is not for distribution to shareholders. As at March 31, 2008, Shanxi Weiqida's reserve fund was \$3.83 million, 7.6% of its registered capital.

Liquidity and Capital Resources

As of March 31, 2008, Dragon had current liabilities of \$66.48 million and current assets of \$46.54 million, including cash of \$1.93 million and accounts receivables of \$12.23 million. The deficiency in working capital is mainly due to some long-term accounts payables and bank loans becoming due within a year and therefore transferred from long-term liabilities to short-term liabilities.

The Company has developed and is implementing a plan to decrease its debt and increase its working capital which will allow the Company to continue operations. To meet these objectives, the Company plans to seek additional equity through the exchange of some of its liabilities and expects to raise funds through private placements in order to support existing operations and expand the range and scope of its business. In addition, the Company intends to continue to renegotiate and extend loans, as required, when they become due, as has been done in the past. There is no assurance that such additional funds will be available for the Company on acceptable terms, if at all, or that the Company will be able to negotiate and extend the loans. If adequate funds are not available or not available on acceptable terms or the Company is unable to negotiate or extend its loans, the Company may be required to scale back or abandon some activities. Management believes that actions presently taken provide the opportunity for the Company to continue as a going concern. The Company's ability to achieve these objectives cannot be determined at this time. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The Company's financial statements do not include any adjustments that might result from this uncertainty.

As of March 31, 2008, Dragon had current liabilities of \$66.48 million as follows:

Accounts Payable	\$11.00 million
Other Payables and Accrued Expenses	\$27.29 million

Edgar Filing: DRAGON PHARMACEUTICAL INC - Form 10-Q

Loans Payable - Short Term	\$22.29 million
Note Payable	\$5.70 million
Due to related companies	\$0.20 million
Total Current Liabilities	\$66.48 million

As of March 31, 2008, Dragon had outstanding short-term loans (less than one year term) totaling \$22.29 million. Dragon believes that it will be successful in the renegotiating loans due based on the assumption that the Company has enhanced its ability to generate additional cash flow from its operation since the loans were originally entered into, even though there is no assurance of renewing the loans.

Long-term Liabilities:

At March 31, 2008, Dragon had long-term loan payable of \$12.96 million. During the quarter ended March 31, 2008, Dragon financed its operations and increased production level at its Cephalosporin and Penicillin Divisions through operating revenues, accounts payables and short-term loans. Dragon intends to seek additional funding through equity financing to improve its financial position, which may include conversion of certain receivables by certain vendors of Shanxi Weiqida into Dragon common stock.

Item 4.

Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined by Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report pursuant to Exchange Act Rule 13a-15(b)), and concluded that Dragon's disclosure controls and procedures are effective to ensure that information required to be disclosed in Dragon's reports filed with the Securities and Exchange Commission pursuant to the Exchange Act is accumulated and communicated to management, including Dragon's Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, as of the end of the period covered by this report, the Chief Executive Officer and Chief Financial Officer concluded that Dragon's disclosure controls and procedures were effective in recording, processing, summarizing and reporting information required to be disclosed by Dragon within the time periods specified in the Securities and Exchange Commission's rules and forms.

There have been no changes in our internal control over financial reporting that occurred during such quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
