SYNEX CORPORATION

PROXY STATEMENT

INFORMATION CONCERNING VOTING AND SOLICITATION

This Proxy Statement is being furnished to you in connection with the solicitation by the Board of Directors of SYNEX Corporation, a Delaware corporation, of proxies to be used at our 2017 Annual Meeting of Stockholders and any adjournments or postponements thereof (referred to herein as the Annual Meeting). Our Annual Meeting will be held at our offices at 44201 Nobel Drive, Fremont, California, at 10:00 a.m., Pacific Time, on March 21, 2017. This Proxy Statement and the accompanying form of proxy card are being mailed to stockholders on or about February 23, 2017.

Appointment of Proxy Holders

The Board asks you to appoint Kevin Murai, Dennis Polk and Simon Leung as your proxy holders to vote your shares at the Annual Meeting. You make this appointment by voting the enclosed proxy card using one of the voting methods described below.

If appointed by you, the proxy holders will vote your shares as you direct on the matters described in this Proxy Statement. In the absence of your direction, they will vote your shares as recommended by the Board.

Unless you otherwise indicate on the proxy card, you also authorize your proxy holders to vote your shares on any matters not known by the Board at the time this Proxy Statement was printed and which, under our Bylaws, may be properly presented for action at the Annual Meeting.

Who Can Vote

Only stockholders who owned shares of our common stock at the close of business on February 7, 2017, the record date for the Annual Meeting, can vote at the Annual Meeting. As of the close of business on the record date, we had 39,923,911 shares of common stock outstanding and entitled to vote. Each holder of common stock is entitled to one vote for each share held as of the record date. There is no cumulative voting in the election of directors.

How You Can Vote

You may vote your shares at the Annual Meeting either in person, by mail or, if permitted by your bank or broker, by telephone or via the Internet as described below. Stockholders holding shares through a bank or broker should follow the voting instructions on the form of proxy card received from such bank or broker. The Board recommends that you vote by proxy, as it is not practical for most stockholders to attend the Annual Meeting. Giving a proxy will not affect your right to vote your shares if you attend the Annual Meeting and want to vote in person.

Voting by Mail. You may vote by proxy by dating, signing and returning your proxy card in the enclosed postage-prepaid return envelope.

Voting by Telephone and Internet. Depending upon your bank or broker, you may vote by telephone and Internet. Your bank or broker will provide further instructions if this method of voting is available.

Voting at the Annual Meeting of Stockholders. You may vote in person at the Annual Meeting. If you hold shares through a bank or broker, you must obtain a proxy, executed in your favor, from the bank or broker to be able to vote at the Annual Meeting. Voting by mail, telephone or Internet will not limit your right to vote at the Annual Meeting, if you decide to attend in person.

If you submit your proxy, but do not mark your voting preference, the proxy holders will vote your shares FOR the election of the nominees for director, FOR the approval of our executive compensation, FOR the approval of a tri-annual advisory vote on our executive compensation, and FOR the ratification of the appointment of independent registered public accountants.

Revocation of Proxies

Stockholders can revoke their proxies at any time before they are exercised in any of three ways:

- by voting in person at the Annual Meeting;
- by submitting written notice of revocation to the Corporate Secretary prior to the Annual Meeting; or
- by submitting another properly executed proxy of a later date prior to the Annual Meeting.

Required Vote

Directors are elected by a plurality vote, which means that the eleven nominees receiving the most affirmative votes will be elected. However, the Board has adopted a majority vote standard for director elections. As a result, if a director receives less than a majority of the votes cast for such director, the Board will review the totality of circumstances to evaluate the situation and is authorized to remedy the situation as it deems appropriate, including requesting that the affected director resign from the Board. All other matters submitted for stockholder approval require the affirmative vote of the majority of shares present in person or represented by proxy and entitled to vote. A quorum, which is a majority of the outstanding shares as of the record date, must be present to hold the Annual Meeting. A quorum is calculated based on the number of shares represented by the stockholders attending in person and by their proxy holders. If you indicate an abstention as your voting preference, your shares will be counted toward a quorum but they will not be voted on the matter.

Abstentions on any matters are treated as shares present or represented and entitled to vote on that matter and have the same effect as a vote against such matter.

Brokers who hold shares of our common stock for a beneficial owner have the discretion to vote on routine proposals when they have not received voting instructions from the beneficial owner. If a broker indicates on the enclosed proxy card or its substitute that such broker does not have discretionary authority to vote on a particular matter (broker non-votes), those shares will be considered as present for purposes of determining the presence of a quorum but will not be treated as shares entitled to vote on that matter. Note that, if you are a beneficial owner and do not provide specific voting instructions to your broker, the broker that holds your shares will not be authorized to vote on the election of directors, nor will the broker be authorized to vote on the proposals other than the ratification of the appointment of KPMG LLP as the auditor for 2017. Accordingly, we encourage you to provide voting instructions to your broker, whether or not you plan to attend the Annual Meeting.

Solicitation of Proxies

We are paying the cost of printing and mailing proxy materials. In addition to the solicitation of proxies by mail, solicitation may be made by our directors, officers and other employees by personal interview, telephone or facsimile. No additional compensation will be paid to these persons for solicitation. At this time we have not engaged a proxy solicitor. If we do engage a proxy solicitor we will pay the customary costs associated with such engagement. We will reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation materials to beneficial owners of our common stock.

Important

Please promptly vote and submit your proxy by signing, dating and returning the enclosed proxy card in the postage-prepaid return envelope, or vote by telephone or via the Internet, so that your shares can be voted. This will not limit your rights to attend or vote at the Annual Meeting.

PROPOSAL 1

ELECTION OF DIRECTORS

Directors and Nominees

Our Bylaws currently provide that the number of directors which shall constitute the whole Board shall be fixed from time to time by the Board or our stockholders. We currently have authorized eleven directors. At the Annual Meeting, eleven persons will be elected as members of the Board, each for a one-year term or until their successors are duly elected and qualified. The Nominating and Corporate Governance Committee of the Board of Directors has nominated, and the Board has designated, the eleven persons set forth below for election at the Annual Meeting. With the exception of Ms. Vezina, who was appointed to the Board in February 2017, all of the nominees were elected for their current term at the SYNEX 2016 Annual Meeting of Stockholders held on March 22, 2016. The proxies given to the proxy holders will be voted as directed and, if no direction is given, will be voted FOR the eleven nominees. The Board knows of no reason why any of these nominees should be unable or unwilling to serve. However, if for any reason any nominee should be unable or unwilling to serve, the proxies will be voted for any nominee designated by the Board to fill the vacancy.

General

Pursuant to the New York Stock Exchange (NYSE) listing standards, a majority of the members serving on the Board must be independent directors. The Board has determined that Messrs. Breidenbach, Lee, Quesnel, Steffensen, Wurster and Zitzner and Ms. Vezina and Zulberti have no material relationship with us and that each of these directors is an independent director. Certain additional information with respect to each nominee appears on the following pages, including their age (as of February 23, 2017), position (if any) with SYNEX, business experience during at least the past five years and directorships of other publicly-owned corporations.

Business Experience of Nominees

Dwight Steffensen, 73, has served as a member of the Board since February 2002 and as Chairman of the Board since June 2010. He also served as Lead Director from March 2006 to June 2010. Mr. Steffensen served as the Chairman and Chief Executive Officer of Merisel, Inc. from February 1996 until August 2000. Prior to joining Merisel, Mr. Steffensen served as President and Chief Operating Officer at Bergen Brunswig Corporation, a healthcare company. Prior to the merger of Bergen Brunswig Corporation and Synergex Corporation, he served as President and Chief Executive Officer of Synergex. Mr. Steffensen was a member of the Board of Directors of OmniVision Technologies, Inc., where he chaired the Audit Committee and also served on the Compensation Committee and the Corporate Governance and Nominating Committee, until January 28, 2016 when a private investment consortium completed the acquisition of OmniVision Technologies. Mr. Steffensen received a Bachelor of Arts degree in Economics from Stanford University and is a Certified Public Accountant (inactive). As a former executive officer and member of the Board of Directors of Merisel, Inc., one of our former competitors, and having been an Audit Committee financial expert during the time he served on our Audit Committee, we believe that Mr. Steffensen contributes his leadership skills, industry knowledge, finance background, and business experience to the Board. In addition, we believe that Mr. Steffensen's membership on the Board helps to achieve the objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives, skills and other individual qualities that contribute to Board heterogeneity.

Kevin Murai, 53, our President, Chief Executive Officer and a Director, joined us in March 2008. He served as Co-Chief Executive Officer until December 2008. Prior to SYNEX, Mr. Murai was employed for 19 years at Ingram Micro Inc., during which he served in several executive management positions, including most recently as President, Chief Operating Officer and a member of the Board of Directors. Currently, he serves on the Board of Directors for StanCorp Financial Group, Inc., which on March 7, 2016 became a wholly-owned subsidiary of Meiji Yasuda Life Insurance Company and no longer publicly traded, and the Global Technology Distribution Council. He holds a Bachelor of Applied Science degree in Electrical Engineering from the University of Waterloo in Ontario, Canada. As a former executive officer and member of the Board of Directors of Ingram Micro Inc., one of our competitors, we believe that

Mr. Murai contributes his leadership skills, industry knowledge, technology background, and business experience to the Board. We believe it is also important that the Chief Executive Officer serve on the Board. In addition, we believe that Mr. Murai's membership on the Board helps to achieve the objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives, skills and other individual qualities that contribute to Board heterogeneity.

Fred Breidenbach, 70, has served as a member of the Board since February 2003. Mr. Breidenbach has had his own consulting firm of FA Breidenbach & Associates, LLC since November 1997. Prior to that, he served as the President and Chief Operating Officer of Gulfstream Aerospace Corporation, an aviation company, from 1993 to 1997. Prior to joining Gulfstream, Mr. Breidenbach spent 25 years in various positions at General Electric Company, including five years as an officer of the General Electric Company and two years as President, GE Aerospace Asia Pacific, responsible for business development and Asian operations. Mr. Breidenbach received a Bachelor of Science degree in Industrial Engineering from Pennsylvania State University and a Master of Business Administration from Xavier University. As a former executive officer of Gulfstream Aerospace Corporation and General Electric Company, we believe that Mr. Breidenbach contributes his leadership skills, GE related corporate discipline, Asia Pacific knowledge, technology background, and business experience to the Board. In addition, we believe that Mr. Breidenbach's membership on the Board helps to achieve the objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives, skills and other individual qualities that contribute to Board heterogeneity.

Hau Lee, 64, has served as a member of the Board since February 2012. Dr. Lee has been the Thoma Professor of Operations, Information and Technology at the Graduate School of Business at Stanford University since 2002, where he has been a professor since 1983. He is the Co-Director of the Stanford Value Chain Innovation Initiative. Dr. Lee was elected to the National Academy of Engineering of the U.S.; Fellow of Manufacturing and Service Operations Management; Production and Operations Management Society; and INFORMS. He is a co-founder of DemandTec, Inc. Dr. Lee received his Bachelor of Social Science degree in Economics and Statistics from the University of Hong Kong, his Master of Science degree in Operational Research from the London School of Economics, and his Master of Science and Doctor of Philosophy degrees in Operations Research from the Wharton School of the University of Pennsylvania. As a professor in supply chain management, we believe that Dr. Lee contributes his leadership skills, supply chain and technology background, and business experience to the Board. In addition, we believe that Dr. Lee's membership on the Board helps to achieve the objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives, skills and other individual qualities that contribute to Board heterogeneity.

Matthew Miao, 70, has served as a director since 1992 and served as the chairman of our Board from 1992 to 2008. Mr. Miao assumed the position of Chairman Emeritus of the Board in December 2008. He is on the Board of Directors of MiTAC Holdings Corporation, Synnex Technology International Corp., UPC Technology Corp., Lien Hwa Industrial Corp. and Getac Technology Corporation. These directorships are all MiTAC group related, and Mr. Miao has been a significant investor in each of these entities. He also serves on the boards of Winbond Electronics and Cathay Financial Holdings. Regarding board committees, he serves as a member of the audit and compensation committees of Cathay Financial Holdings, which does not trade in the US. With the exception of SYNEX, the aforementioned companies for which Mr. Miao serves as a director are all located in Taiwan, and only Synnex Technology International and Cathay Financial Holdings have an annual financial scope within the range of SYNEX. SYNEX is the only company for which Mr. Miao serves as a director that is US-publicly traded or that is subject to the periodic reporting requirements of the SEC. Our Board has reviewed Mr. Miao's past Board service and his unique position as a long-term and significant shareholder and has considered the level of time commitment required by Mr. Miao's other public company boards. The Board believes that Mr. Miao is able to make an important and full contribution to the Board notwithstanding other board commitments.

Mr. Miao received a Bachelor of Science degree in Electrical Engineering/Computer Science from the University of California, Berkeley and a Master of Business Administration degree from Santa Clara University. As the Chairman of the Board of MiTAC Holdings Corporation, we believe that Mr. Miao contributes his leadership skills, distribution, contract manufacturing and Asia Pacific knowledge, finance and technology background, and business experience to the Board. In addition, we believe that Mr. Miao's membership on the Board helps to achieve the objective that its

membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives,

5

skills and other individual qualities that contribute to Board heterogeneity. Finally, MiTAC affiliates have held approximately 20% or more of our common stock since our IPO in 2003, and we believe that Mr. Miao brings a unique ownership and shareholder representative perspective to the Board.

Dennis Polk, 50, has served as a member of the Board since February 2012. Mr. Polk joined SYNEX in 2002 as Senior Vice President of Corporate Finance and in the same year became Chief Financial Officer. In 2006, he was promoted to Chief Operating Officer. Mr. Polk serves on the Board of Directors of Terreno Realty Corporation. At Terreno, Mr. Polk serves as Chair of the Nominating and Corporate Governance Committee. Before joining SYNEX, Mr. Polk held executive positions at DoveBid Inc., a capital asset disposition services firm and Savoir Technology Group, Inc., a computer systems distributor and contract manufacturer. Mr. Polk started his career at Grant Thornton LLP, where he exited as an Audit Manager. Required Vote

The eleven nominees for director receiving the highest number of affirmative votes will be elected as directors. However, the Board has adopted a majority vote standard for director elections. As a result, if a director receives less than a majority of the votes cast for such director, the Board will evaluate the situation and is authorized to remedy the situation as it deems appropriate, including requesting that the affected director resign from the Board. Unless marked to the contrary, proxies received will be voted "FOR" the nominees.

The Board recommends a vote “FOR” the election of the nominees set forth above as directors of SYNEX.

CORPORATE GOVERNANCE

Organization of the Board of Directors

The Board held 13 meetings during the fiscal year ended November 30, 2016. Each director serving during our 2016 fiscal year attended at least 75% of the total regularly scheduled and special meetings held by the Board and the committees on which such director served during the director’s tenure in the last completed fiscal year. We do not have a policy regarding directors’ attendance at the Annual Meeting. However, all members of the Board serving at the time of our 2016 Annual Meeting of Stockholders attended the 2016 Annual Meeting of Stockholders.

Our non-management directors meet in regularly scheduled executive sessions without the presence of management. The Chairman of the Board presides over each such Executive Session. Historically, our Chief Executive Officer has not served as our Chairman of the Board and we continue to separate the two positions. Separating the two positions ensures that our Chief Executive Officer is accountable for managing our company in close alignment with the interests of stockholders, eliminates the inherent conflict of interest that arises when the roles are combined, promotes oversight of risk and can serve as a conduit for regular communication with stockholders.

The Board has established four standing committees: the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee and the Executive Committee. In addition, from time to time, the Board establishes non-standing committees to address matters that may arise during periods between regularly scheduled meetings and/or specific issues not fully applicable to one of the standing committees. The Board has determined that all members of the Audit, Compensation, and Nominating and Corporate Governance Committees meet the independence standards of the NYSE and rules and regulations of the Securities and Exchange Commission (SEC). With respect to the Executive Committee, at least one half of the members of the Executive Committee meet the independence standards of the NYSE and rules and regulations of the SEC. In addition, each member of the Audit Committee is financially literate as defined by the Board and each member of the Audit and Compensation Committees meet the heightened independence standards of the NYSE and rules and regulations of the SEC applicable to members of these committees. The Board has approved a charter for each of these standing committees, which can be found on our website at www.synnex.com. Our corporate governance guidelines and ethical business conduct, which are applicable to our principal executive, financial and accounting officers, directors and employees, are also available on or through our website at www.synnex.com and are available in print to any stockholder upon request. We intend to post any amendments to the corporate governance guidelines or code of ethics on our website. The following lists the four standing committees and their current members who are director nominees.

Functions: The Executive Committee is responsible for performing the functions of the Board when there is a critical need for prompt review and action of the Board and it is impractical to arrange a meeting of the Board within the time reasonably available; and representing the full Board between regularly scheduled meetings and other matters that the Board may delegate to the Executive Committee from time to time.

The Executive Committee did not hold any meetings during the fiscal year ended November 30, 2016 as all matters were covered at regularly scheduled Board meetings.

The Board of Directors' Role in Risk Oversight

The Board recognizes the importance of effective risk oversight in running a successful business and in fulfilling its fiduciary responsibilities to SYNEX and our stockholders. While the Chief Executive Officer and other members of our senior management team are responsible for the day-to-day management of risk, the Board is responsible for ensuring that an appropriate culture of risk management exists within our company and for setting the right "tone at the

top,” overseeing our aggregate risk profile, and assisting management in addressing specific risks, such as strategic and competitive risks, financial risks, brand and reputation risks, legal risks, regulatory risks, and operational risks.

The Board believes that the current leadership structure best facilitates this oversight of risk by combining independent leadership, through an independent Chairman of the Board, independent board committees, and majority independent board composition, with an experienced Chief Executive Officer who has intimate knowledge of our business, history, and the complex challenges that arise. The Chief Executive Officer's in-depth understanding of these matters and involvement in the day-to-day management of our company uniquely positions him to promptly identify and raise key business risks to the Board, call special meetings of the Board when necessary to address critical issues, and focus the Board's attention on areas of concern. The Chairman of the Board, independent committee chairs and other directors also are experienced professionals or executives who can and do raise issues for board consideration and review, and are not hesitant to challenge management. The Board believes there is a well-functioning and effective balance between the Chairman of the Board, non-executive board members and the Chief Executive Officer, which enhances risk oversight.

In addition, while we retain an independent Chairman of the Board, the Board believes that the Chairman of Board should not serve on the Audit Committee, Compensation Committee or the Nominating and Corporate Governance Committee. As such, our current Chairman of the Board, Mr. Steffensen, has not served on any of the independent committees since our 2011 Annual Meeting of Stockholders.

The Board exercises its oversight responsibility for risk both directly and through three of its standing committees. Throughout the year, the Board and each committee spend a portion of their time reviewing and discussing specific risk topics. The full Board is kept informed of each committee's risk oversight and related activities through regular oral reports from the committee chairs, and committee meeting minutes are available for review by all directors. Strategic, operational, financial and competitive risks also are presented and discussed at the Board's quarterly meetings, and more often as needed. On at least an annual basis, the Board conducts a review of our long-term strategic plans and members of senior management report on our top risks and the steps management has taken or will take to mitigate these risks. In addition, at each quarterly meeting, or more often as necessary, the General Counsel updates the Board on material legal and regulatory matters. On a regular basis between Board meetings, our Chief Executive Officer and/or other executive officers provide written reports to the Board on the critical issues we face and recent developments in our principal operating areas. These reports may include a discussion of business risks as well as a discussion regarding enterprise risk.

Director Orientation and Continuing Education

We provide directors with an orientation and education program to familiarize them with our business operations and plans, industry trends and corporate governance practices, as well as ongoing education on issues facing us and on subjects that would assist the directors in discharging their duties. The program includes, among other things, annual visits to different company locations to foster more director interaction with employees and familiarity with various company sites and businesses. Directors also are encouraged to attend courses provided by outside organizations covering various governance matters, best practices, and issues of concern to directors of publicly-traded companies. It is our policy that directors are to share with the Board or fellow committee members what they have learned.

Director Nominations

The Board nominates directors for election at each Annual Meeting of Stockholders and elects new directors to fill vacancies when they arise. The Nominating and Corporate Governance Committee has the responsibility to identify, evaluate, recruit and recommend qualified candidates to the Board for nomination or election.

The Nominating and Corporate Governance Committee has a policy and process regarding consideration of director candidates recommended by stockholders. The Nominating and Corporate Governance Committee reviews suggestions for director candidates recommended by stockholders and considers such candidates for recommendation based upon an appropriate balance of knowledge, experience and capability. The assessment of candidates include the candidates' relevant industry experience, general business experience, relevant financial experience, interpersonal and communication skills, as well as the candidates' roles and contributions that are valuable to the business community, personal qualities of leadership, character, judgment and whether the candidate possesses and maintains throughout service on the Board a reputation in the community at large of integrity, trust, respect, competence and adherence to the highest ethical standards. In addition to considering an appropriate balance of knowledge, experience and capability, the

Board has as an objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives, skills and other individual qualities that contribute to Board heterogeneity. The Nominating and Corporate Governance Committee selects candidates for director based on their character, judgment, diversity of experience and backgrounds, relevance of experience, business acumen, interpersonal and communication skills, and ability to act on behalf of all stockholders. The Nominating and Corporate Governance Committee believes that nominees for director should have experience, such as experience in management or accounting and finance, or industry and technology knowledge, that may be useful to SYNEX and the Board, high personal and professional ethics, and the willingness and ability to devote sufficient time to effectively carry out his or her duties as a director. The Nominating and Corporate Governance Committee believes it appropriate for at least one, and, preferably, multiple, members of the Board to meet the criteria for an “audit committee financial expert” as defined by SEC rules, and for a majority of the members of the Board of Directors to meet the definition of “independent director” under the rules of the NYSE. The Nominating and Corporate Governance Committee also believes it appropriate for certain key members of our management to participate as members of the Board.

The Nominating and Governance Committee is aware that some corporate governance groups have set a maximum on the number of public company boards on which a public company director should sit regardless of the individual circumstances of the director or nature of the companies involved. The Nominating and Governance Committee recognizes the concern of overboarding, where a director sits on an excessive number of boards, and, without setting an ad hoc limit on the number of public company boards for directors, has considered the following factors, among others, in looking at the time availability of each prospective director nominee on an individual basis: size and location of the other companies, the director’s board duties at those companies, the extent of service on large private company boards, board tenure, and board attendance. Based on these factors, the Nominating and Governance Committee determined that no director nominee should be removed from consideration due to the number of public company boards on which the director nominee serves.

Prior to each Annual Meeting of Stockholders, the Nominating and Corporate Governance Committee identifies nominees first by reviewing the current directors whose terms expire at such Annual Meeting of Stockholders and who are willing to continue in service. These candidates are evaluated based on the criteria described above, including each candidate’s demonstrated prior service as a director, and the needs of the Board with respect to the particular talents and experience of its directors. In the event that a director does not wish to continue in service, the Nominating and Corporate Governance Committee determines not to nominate the director, or a vacancy is created on the Board as a result of a resignation, an increase in the size of the Board or other event, the Nominating and Corporate Governance Committee will consider various candidates for Board membership, including those suggested by the Nominating and Corporate Governance Committee members, by other Board members, by any executive search firm engaged by the Nominating and Corporate Governance Committee and by stockholders. A stockholder who wishes to suggest a prospective nominee for the Board should notify our Corporate Secretary, any member of the Nominating and Corporate Governance Committee, or the persons referenced below in “Communications with the Board of Directors” in writing with any supporting material the stockholder considers appropriate.

In addition, our Bylaws contain provisions that address the process by which a stockholder may nominate an individual to stand for election to the Board at an Annual Meeting of Stockholders. In order to nominate a candidate for director, a stockholder must give timely notice in writing to our Corporate Secretary and otherwise comply with the provisions of our Bylaws. To be timely, our Bylaws provide that we must have received the stockholder’s notice not less than 120 days prior to the scheduled date of such meeting. However, if notice or prior public disclosure of the date of the Annual Meeting of Stockholders is given or made to stockholders less than 100 days prior to the meeting date, we must receive the stockholder’s notice by the close of business on the 7th day after the earlier of the day we mailed notice of the Annual Meeting of Stockholders date or provided such public disclosure of the meeting date. Information required by our Bylaws to be in the notice include the name and contact information for the candidate and the person making the nomination and other information about the nominee that must be disclosed in proxy solicitations under Section 14 of the Securities Exchange Act of 1934 and the related rules and regulations under that Section.

Stockholder nominations must be made in accordance with the procedures outlined in, and include the information required by, our Bylaws and must be addressed to: Corporate Secretary, SYNEX Corporation, 44201 Nobel Drive,

Fremont, California 94538. You can obtain a copy of our Bylaws by writing to the Corporate Secretary at this address.

Communications with the Board of Directors

The Board has a process for stockholders and other interested persons to send communications to directors. If you wish to communicate with the Board as a whole or to non-management directors, you may send your communication in writing to: Gregory Quesnel, Chairman of the Audit Committee, SYNEX Corporation, 44201 Nobel Drive, Fremont, California 94538 or Jorge del Calvo, Pillsbury Winthrop Shaw Pittman LLP, 2550 Hanover Street, Palo Alto, California 94304. You must include your name and address in the written communication and indicate whether you are a stockholder of SYNEX or other interested person. Messrs. Quesnel or del Calvo will review any communication received from a stockholder or other interested person, and all material communications from stockholders or other interested persons will be forwarded to the appropriate director or directors or Board committee based on the subject matter.

Narrative to Directors' Compensation Table

The compensation and benefit program for non-executive directors is designed to achieve the following goals: (1) compensation should fairly pay directors for work required of directors serving an entity of our size and scope; (2) compensation should align directors' interests with the long-term interests of stockholders; and (3) the structure of the compensation should be transparent and easy for stockholders to understand. We review director compensation every year.

For the fiscal year ended November 30, 2016, each non-executive director received an annual retainer of \$85,000 payable quarterly and an annual restricted stock grant under the 2013 Stock Incentive Plan valued at approximately \$115,000. The annual grant is prorated based upon the expected service period between the director's service commencement date and the immediately following Annual Meeting of Stockholders. The valuation of the stock price in determining the number of shares of restricted stock is based upon the closing price on the first trading day following the director's appointment or election and vests quarterly based upon our fiscal quarter. The chair of the Audit Committee received a retainer of \$20,000 payable quarterly in advance. The chair of the Compensation Committee received a retainer of \$15,000 payable quarterly in advance and the chair of the Nominating and Corporate Governance Committee received a retainer of \$10,000 payable quarterly in advance. The non-executive Chairman of the Board of Directors received an additional cash retainer of \$70,000 payable quarterly in advance. All directors are reimbursed for their reasonable out-of-pocket expenses in serving on the Board or any committee of the Board. Based on a study performed by our compensation consultant Compensia in August 2016, we have modified our director fees to reflect compensation practices among our peers, which are listed on page 33. Upon the date of the 2017 Annual Stockholders Meeting, the annual restricted stock grant under the 2013 Stock Incentive Plan is valued at approximately \$125,000. The annual grant continues to be prorated based upon the expected service period between the director's service commencement date and the immediately following Annual Meeting of Stockholders. The valuation of the stock price in determining the number of shares of restricted stock continues to be based upon the closing price on the first trading day following the director's appointment or election and continues to vest quarterly based upon our fiscal quarter. There is no change to the annual cash retainer of \$85,000.

Upon the date of the 2017 Annual Stockholders Meeting, the amounts of Board chair and committee chair fees have changed. The chair of the Audit Committee receives a retainer of \$26,000 payable quarterly in advance. The chair of the Compensation Committee receives a retainer of \$20,000 payable quarterly in advance and the chair of the Nominating and Corporate Governance Committee receives a retainer of \$12,500 payable quarterly in advance. The non-executive Chairman of the Board of Directors receives an additional cash retainer of \$100,000 payable quarterly in advance. All directors continue to be reimbursed for their reasonable out-of-pocket expenses in serving on the Board or any of its committees.

We require each current member of the Board who was elected at the 2016 Annual Meeting of Stockholders to hold an equity position in SYNEX of the equivalent value of at least three times the annual base retainer (excluding committee chair retainers) in common stock, whether vested or unvested, or vested in-the-money stock options on the date of each Annual Meeting of Stockholders, commencing on the 2017 Annual Meeting of Stockholders. For any director initially elected after the 2016 Annual Meeting of Stockholders we require that he or she hold an equity position in SYNEX of the equivalent value of at least three times the annual base retainer (excluding committee chair retainers) in common stock, whether vested or unvested, or vested in-the-money stock options on the date of each Annual Meeting of Stockholders, commencing on the fourth Annual Meeting of Stockholders held following his or her initial election. All current directors either meet this stock ownership requirement as of the record date or are still within the four-year period.

In fiscal year ended November 30, 2016, Matthew Miao received the standard retainer and equity compensation the same as other outside directors, as approved by the Nominating and Corporate Governance Committee. Any future compensation payable to Mr. Miao will be based upon the approval of the Nominating and Corporate Governance Committee, which is composed of disinterested members of the Board of Directors.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Overview

We have a business relationship with MiTAC International Corporation (MiTAC International), a publicly-traded company in Taiwan that began in 1992 when it became our primary investor through its affiliates. In September 2013, MiTAC Holdings Corporation (MiTAC Holdings) was established through a stock swap from MiTAC International and became a publicly traded company on the Taiwan Stock Exchange. MiTAC International is now a wholly owned subsidiary of MiTAC Holdings. As of February 7, 2017 and as detailed in the table below, MiTAC Holdings and its affiliates beneficially owned approximately 24.2% of our common stock. Matthew Miao, our Chairman Emeritus of the Board of Directors and a director, is the Chairman of MiTAC Holdings and a director or officer of MiTAC Holdings' affiliates. As a result, MiTAC Holdings generally has significant influence over us and over the outcome of all matters submitted to stockholders for consideration, including any of our mergers or acquisitions. Among other things, this could have the effect of delaying, deterring or preventing a change of control over us.

Until July 31, 2010, we worked with MiTAC Holdings on OEM outsourcing and jointly marketed MiTAC Holdings' design and electronic manufacturing services and our contract assembly capabilities. On July 31, 2010, MiTAC Holdings purchased certain assets related to the contract assembly business including inventory and customer contracts, primarily related to customers then being jointly serviced by MiTAC Holdings and us. During the fiscal years ended November 30, 2016 and 2015, we recorded \$0.22 million and \$0.13 million in reimbursements for rent and overhead costs.

We purchased inventories from MiTAC Holdings and their affiliates totaling \$170.1 million, \$87.1 million and \$102.8 million during fiscal years 2016, 2015 and 2014, respectively. Our sales to MiTAC Holdings, and its affiliates during fiscal years 2016, 2015 and 2014 totaled \$1.8 million, \$1.3 million and \$4.1 million respectively. Most of the purchases and sales in 2016, 2015 and 2014 were pursuant to the agreements mentioned under the heading "Agreements with MiTAC Holdings and Affiliates" below.

Our business relationship with MiTAC Holdings and its affiliates has been informal and is not governed by long-term commitments or arrangements with respect to pricing terms, revenue or capacity commitments.

We negotiate pricing and other material terms on a case-by-case basis with MiTAC Holdings and its affiliates. We have adopted a policy requiring that material transactions with MiTAC Holdings or its related parties be approved by the Audit Committee, which is composed solely of independent directors. In addition, Matthew Miao's compensation is approved by the Nominating and Corporate Governance Committee, which is also composed solely of independent directors.

Beneficial Ownership of our Common Stock by MiTAC Holdings

As noted above, MiTAC Holdings and its affiliates in the aggregate beneficially owned approximately 24.2% of our common stock as of February 7, 2017. These are owned by the following MiTAC affiliates:

MiTAC Affiliate	Shares
MiTAC Holdings ⁽¹⁾	5,448,878
Synnex Technology International Corporation ⁽²⁾	4,208,888
Total	9,657,766

Shares held via Silver Star Developments Ltd., a wholly-owned subsidiary of MiTAC International. Excludes (1) 374,420 shares directly held by Matthew Miao and 217,730 shares indirectly held by Mathew Miao through a charitable remainder trust.

Synnex Technology International Corp. (“Synnex Technology International”) is a separate entity from us and is a publicly-traded corporation in Taiwan. Shares are held via Peer Development Ltd., a wholly-owned subsidiary of Synnex Technology International. MiTAC Holdings owns a noncontrolling interest of 8.7% in MiTAC Incorporated, a privately-held Taiwanese company, which in turn holds a noncontrolling interest of 13.6% in Synnex Technology International. Neither MiTAC Holdings nor Mr. Miao is affiliated with any person(s), entity, or entities that hold a majority interest in MiTAC Incorporated.

While the ownership structure of MiTAC Holdings and its affiliates is complex, it has not had a material adverse effect on our business in the past, and we do not expect it do so in the future.

Synnex Technology International is a publicly-traded corporation in Taiwan that currently provides distribution and fulfillment services to various markets in Asia and Australia, and is also our potential competitor. Neither MiTAC Holdings nor Synnex Technology International is restricted from competing with us.

Agreements with MiTAC Holdings and Affiliates

We have entered into several additional agreements with affiliates of MiTAC Holdings. These agreements do not constitute contracts or obligations by any party to purchase products or services from the other parties, nor do they restrict our ability to conduct our business, except where so noted below. Accordingly, we do not believe that the termination of any of these agreements would have a material adverse effect on our business. Pursuant to these agreements, the terms for contracted services or purchased products are individually negotiated and, if agreed upon by the parties, such terms are included in a purchase order. We believe that the terms of each of these agreements are materially no less favorable to us than the terms we could have negotiated with unaffiliated third parties. In the fiscal year ended November 30, 2016, we paid an aggregate of approximately \$147.0 million to MiTAC Holdings and its affiliates, most of which was paid pursuant to the agreements described below.

Distribution Agreement. In April 2009, we entered into a distribution agreement with MiTAC Digital Corp. Pursuant to the agreement, we may purchase certain MiTAC Digital products for distribution in the United States. Pursuant to the agreement, we may purchase certain MiTAC International products for distribution in the United States. The agreement has an initial term of one year and automatically renews for subsequent one year terms. The agreement may be terminated without cause either by the mutual written agreement of both parties or by either party without cause upon 30 days prior written notice of termination to the other party.

Logistics Services Agreement. In November 2011, we entered into a logistics services agreement with Getac, Inc., a subsidiary of Getac Technology Corporation, where we provide integration services and pick, pack and ship services for Getac. The agreement has an initial term of two years and automatically renews for subsequent one year terms. The agreement may be terminated without cause by the mutual written agreement of both parties or by either party without cause upon 90 days prior written notice of termination to the other party.

Distribution Agreement. In February 2012, we entered into a distribution agreement with Getac, Inc. Pursuant to the agreement, we may purchase certain Getac products for distribution in the United States and Canada. The agreement

has an initial term of one year and automatically renews for subsequent one year terms. The agreement may be terminated without cause by either party upon 30 days prior written notice of termination to the other party.

Indemnification Agreements

We have entered into indemnification agreements with each of our current directors and executive officers. These agreements require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified. We also intend to enter into indemnification agreements with our future directors and executive officers.

Policies and Procedures for Approving Related Party Transactions

We have adopted a policy requiring material transactions relating to related party transactions to be approved by the Audit Committee, which is composed of disinterested members of the Board.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Compensation Committee has overall responsibility for SYNEX' executive compensation policies as provided in a written charter adopted by the Board. The Compensation Committee is empowered to review and approve the compensation and compensation procedures for the executive officers. In addition, in June 2011, the Board determined that, consistent with the stockholders' advisory vote in March 2011, it will include in our proxy materials a stockholder vote on executive compensation every year until the next required stockholder vote on the frequency of stockholder votes concerning executive compensation. Such vote will occur this year at the Annual Meeting. The "say on pay" proposal is provided in Proposal 2 and the "say on frequency" proposal is provided in Proposal 3.

At last year's Annual Meeting, our stockholders approved our executive compensation programs, as disclosed in last year's proxy statement, in an advisory "say on pay" vote, with 36,389,142 votes cast in favor of approval and approximately 127,242 votes cast against. As the Compensation Committee evaluated our compensation principles and policies during fiscal 2016, it was mindful of this favorable outcome and the stockholders' strong support of our compensation objectives and compensation programs. The Compensation Committee has maintained its general approach to executive compensation with adjustments to salaries, equity grants, bonus targets and the peer group to reflect consideration of our Concentrix business and the trajectory of our business model.

Objectives and Philosophy of Our Compensation Program

Our compensation philosophy is to pay for performance as well as to offer competitive compensation in order to attract and retain talented executive officers. With respect to "pay for performance," our program is designed to align the interests of our executive officers with those of our stockholders, for whom they work. A significant portion of an executive officer's total compensation depends on his performance relative to operational and financial objectives. In particular, in determining total compensation, we stress a compensation philosophy that is performance-driven with relatively moderate base salaries, but high variability through our Profit Sharing Plan (now our Management Incentive Plan) and equity compensation. We believe that total compensation should reflect some level of risk associated with the performance of the business. As a result, a substantial portion of an executive officer's total compensation is in the form of profit sharing and equity grants.

We believe that the compensation of our executive officers should reflect their success as a management team, as well as individuals, in attaining key operating objectives, such as growth of sales, growth of operating earnings and earnings per share, return on invested capital, growth or maintenance of market share, long-term competitive advantage, and ultimately, in attaining an increased market price for our common stock. We believe that the performance of our executive officers in managing SYNEX, considered in light of general economic conditions, our company and industry, and competitive conditions, should be the basis for determining their overall compensation.

We also believe that their compensation should not be based on the short-term performance of our stock, whether favorable or unfavorable, as we expect the price of our stock will, in the long-term, reflect our operating performance, and ultimately, the management of SYNEX by our executive officers. We seek to have the long-term performance of our stock reflected in executive compensation through our stock option, restricted stock, restricted stock unit and other equity incentive programs.

Competitive compensation is important if we are to attract and retain the talent necessary to lead SYNEX in the competitive and changing business environment in which we operate. In this regard, we are mindful of the median level of compensation of our competitors as well as of the median level of compensation in the local area in which the executive is located. We strive for internal equity among employees according to job responsibilities, experience, capability, and individual performance. Our executive compensation program impacts all employees by setting general levels of compensation and helping to create an environment of goals, rewards and expectations. As we believe the performance of every employee is important to our success, we are mindful of the effect that our executive compensation and incentive program has on all of our employees.

The differences in compensation between the various executive officers are based primarily upon individual differences in job responsibility, contribution, performance and increase in the global scope of the business and complexity and demands of understanding, managing and influencing global operations and integrated success. An executive with responsibility over a broader, more difficult or more profitable business unit or corporate division will have potential for greater compensation than an executive with responsibility over a narrower, less complex or less profitable business unit or corporate division.

Our compensation philosophy emphasizing performance permeates total compensation for both executive officers and non-executive employees. While we do not have an exact formula for allocating between cash and non-cash compensation, we try to balance long-term equity versus short-term cash compensation and variable compensation versus fixed compensation. As noted above, executive officers who have greater ability to influence the performance of SYNEX receive more long-term equity as a percentage of total compensation than non-executive employees who have less ability to influence the performance of SYNEX. Similarly, performance-related cash compensation for such executive officers as a percentage of total compensation is greater than performance-related cash compensation of non-executive employees. The goal is to create a balanced culture of high performance without undue risk assumption.

Elements of Our Compensation Program

As a result of the above assessment process and as reviewed annually by the Compensation Committee, we have implemented a compensation program for our executive officers that consists of four compensation components:

- (1) base salary;
- (2) Profit Sharing Plan or Management Incentive Plan bonus;
- (3) equity grants; and
- (4) performance-based, long-term incentives (LTI).

We and the Compensation Committee believe that the LTI program ties executive deferred compensation to business performance and also aligns total compensation closer to the market comparatives in value and in form.

The compensation elements are usually administered in three cycles. Merit raises for base salaries are generally performed in the April-May period. Annual equity grants in the form of stock options, restricted stock awards or restricted stock units (RSUs), other than LTI awards, are generally awarded in the September-October period. Profit Sharing Plan or Management Incentive Plan bonuses are generally paid in the December-January period and LTI awards in the form of performance-based RSUs are generally granted in the January-February period. However, all of the above elements are reviewed and determined on at least an annual basis by the Compensation Committee.

The components of our compensation program are described as follows:

Base Salary. Base salaries are designed to provide a consistent cash flow throughout the year as compensation for day-to-day responsibilities. In prior years, we maintained relatively low base salaries to incent executive officers to achieve the Profit Sharing Plan targets and thus create a performance-driven environment. The Compensation Committee increased base salaries and decreased Profit Sharing Plan bonuses to reduce the variability of the cash compensation component and to discourage excessive risk-taking and short-term business decisions to meet payout thresholds; however, base salaries generally remain near the 25th percentile for comparable positions in our peer group and are now considered relatively moderate.

Base salaries for our executive officers are reviewed and, if deemed appropriate, adjusted on an annual basis. Merit increases are based on, among other things, individual performance, any new responsibilities assumed and the magnitude of our merit increase budget for the year. With respect to each executive's individual performance, we assess the breadth and complexity of his area of responsibility and his individual contributions and seek to quantify the same. Determination of base salary is not made in accordance with a strict formula that measures weighted qualitative and

quantitative factors, but rather is based on objective data synthesized to competitive ranges and to internal policies and practices.

Profit Sharing Plan and Management Incentive Plan. Our Profit Sharing Plan is in place for bonuses in fiscal year 2016, however our Management Incentive Plan will replace our Profit Sharing Plan beginning in fiscal 2017. Profit Sharing Plan or Management Incentive Plan bonuses reward individuals for achieving operating and financial goals, in keeping with a performance-driven environment conducive to increasing stockholder value. Under our Profit Sharing Plan and Management Incentive Plan, we accrued a certain percentage of our pre-tax, before profit sharing accrual, profits for possible bonuses. Bonuses granted to executive officers under our Profit Sharing Plan and Management Incentive Plan are determined by the Compensation Committee based upon both qualitative and quantitative considerations. The Compensation Committee establishes in writing specific performance goals for each participant, which must be achieved in order for an award to be earned under our Profit Sharing Plan or Management Incentive Plan for that fiscal year. Performance goals under the Profit Sharing Plan may be based upon any one or more of the following: net income per share, revenue, cash flow, earnings per share, return on equity, total stockholder return, share price performance, return on capital, return on assets or net assets, income or net income, operating income or net operating income, operating profit or net operating profit, operating margin or profit margin, return on operating revenue, return on invested capital, sales productivity, sales growth, market segment share or similar financial performance measures as may be determined by the Compensation Committee. As in prior years, the Compensation Committee set reasonably stringent minimum Profit Sharing Plan hurdles and performance metrics. In addition, we amended our Profit Sharing Plan in 2012 to include a compensation recoupment provision to mitigate the potential for such undue risk assumption.

Profit Sharing Plan bonuses for fiscal year 2016 to the executive officers were based upon a combination of (1) our achievement of certain net income target performance, with adjustments based upon achievement of certain Return on Invested Capital, or ROIC, performance (the Technology Solutions target metric), and (2) the achievement of certain threshold EBITDA target performance by our Concentrix business. For all executive officers other than Mr. Larocque and Mr. Caldwell, the Technology Solutions target performance metric accounts for 67% of the officer's bonus measurement, and the Concentrix target performance metric accounts for 33%. For Mr. Larocque, as President, North American Technology Solutions, the Technology Solutions target performance metric accounts for 90% of his bonus measurement, and the Concentrix target performance metric accounts for 10%. For Mr. Caldwell, as the President of Concentrix, the Technology Solutions target performance metric accounts for 10% of his bonus measurement, and the Concentrix target performance metric accounts for 90%. For the Technology Solutions and Concentrix businesses, the net income and ROIC targets for fiscal year 2016 were increased from fiscal year 2015. Executive officers are not eligible for bonuses unless we meet or exceed the target performance percentages of the internally established net income and EBITDA goals. The minimum threshold target performance percentage is 75% and the maximum target performance percentage is 133.3% for all executive officers.

The actual bonus payable, if the applicable minimum threshold percentages are met, is paid on a sliding scale of the target performance actually achieved and dollar limits pre-established by the Compensation Committee for each individual executive officer. In the case of the Technology Solutions component of the performance bonus, this amount then is adjusted by the percentage increase or decrease corresponding with our performance as measured by the ROIC performance metric. In addition, our President and Chief Executive Officer has discretion to recommend to the Compensation Committee that it decrease bonuses for all other executive officers whose compensation is subject to Section 162(m) of the Code.

If the minimum threshold target performance percentage of the internally established net income goal or EBITDA goal is not achieved, no bonuses would be paid to the executive officers, regardless of the achievement of the ROIC performance metrics. The minimum threshold target performance percentage of the Technology Solutions component was based on the previous year's internally established net income per share goal plus a reasonable "stretch" goal taking into account the then economic environment. Alternatively, if the maximum target performance percentage of the internally established net income goal or EBITDA goal is exceeded, no incremental bonuses beyond the maximum award would be paid to the executive officers. The Profit Sharing Plan bonus for each executive officer is based upon a certain percentage of his annual base salary for the applicable fiscal year.

In the event that the minimum threshold performance target is met, then our executive officers will receive a bonus based on the following approximate percentage of his fiscal year base salary for fiscal 2016 and for fiscal 2017:

Name	Minimum Payment (if Threshold is Met) as Percentage of Base Salary(1)(%)	Target Payment as Percentage of Base Salary(1)(%)	Maximum Payment as Percentage of Base Salary(1)(%)
Kevin Murai	125	250	375
Peter Larocque	100	200	300
Dennis Polk	100	200	300
Marshall Witt	50	100	150
Christopher Caldwell ⁽²⁾	50	100	150

(1) The applicable base salary is each officer's then-current base salary at the end of the fiscal year.

(2) For fiscal 2017, Mr. Caldwell's minimum payment (if the threshold is met) as percentage of base salary is 75%, target payment as percentage of base salary is 150% and maximum payment as percentage of base salary is 225%. There is potential for actual awards under the Profit Sharing Plan or Management Incentive Plan to be less than such minimum targets depending upon corporate performance, as well as the executive officer's performance of certain individual goals that were predetermined by our President and Chief Executive Officer. In addition, the Compensation Committee has discretion to decrease the bonus for all executive officers. The Compensation Committee's discretion is exercised based upon discussions with Mr. Murai, taking into account his ability to manage and monitor the performance of the other named executive officers.

For fiscal year ended November 30, 2016, we achieved a net income of \$234.9 million, which contributed to our exceeding both the minimum threshold of the Technology Solutions component and the Concentrix EBITDA component, and as a result our executive officers received the following bonuses:

Name	Profit Sharing Plan Bonuses
Kevin Murai	\$1,751,519
Peter Larocque	\$1,040,297
Dennis Polk	\$1,015,875
Marshall Witt	\$484,157
Christopher Caldwell	\$612,967

Based on comparable peer companies, the total cash compensation targets, including both base salary and Profit Sharing Plan bonus, excluding any recommended adjustments by the Compensation Committee, for our executive officers for comparable positions in our peer group for fiscal year 2016 were as follows:

Name	Total Cash Compensation Target Percentile
Kevin Murai	Below 75 th Percentile
Peter Larocque	Above 75 th Percentile
Dennis Polk	Above 75 th Percentile
Marshall Witt	Below 50 th Percentile
Christopher Caldwell	Below 50 th Percentile

Equity Grants. Long-term incentives involve equity grants and performance retention grants, including restricted stock awards, RSUs and stock options. Restricted stock and RSUs help us to retain key personnel, whereas stock options provide incentive for creating incremental stockholder value. The value of equity grants and performance retention grants derives from stock price, which aligns executive compensation with stockholder value.

Equity grants are based on a number of considerations. The Compensation Committee's determination with respect to stock option grants, restricted stock award and RSU grants to executive officers for fiscal year ended November 30, 2016 can be viewed from two perspectives: our company and our executive officer. From our company's perspective, the Compensation Committee considered the following principal elements:

- corporate performance;
- dilution to stockholders; and
- related expense to our company.

From our executive officers' perspective, the Compensation Committee considered the following principal elements:

- job responsibilities and past performance;
- likely future contributions;
- potential reward to the executive officer if the stock price appreciates in the public market;
- management tier classification;
- equity grants made by competitors; and
- existing vested and unvested equity holdings.

Determination of equity grant amounts is not made in accordance with a strict formula that measures weighted qualitative and quantitative factors, but rather is based on objective data synthesized to competitive ranges and to internal policies and practices, including an overall review of both employee and corporate performance and the value of equity grants of comparable officers at comparable companies. We evaluate our corporate performance objective primarily by our financial performance, including growth, return on equity, ROIC, and Diluted Earnings Per Share, or EPS. Equity grants may also be made to new executive officers upon commencement of employment and, on occasion, to executive officers in connection with a significant change in job responsibility. We also distinguish between equity grants of stock options, restricted stock awards or RSUs based upon the officer's position. We believe that stock options carry more risk than restricted stock. As such, we expect certain officers with the most direct impact on our overall performance to

accept more equity risk and their grants are more heavily weighted towards stock options rather than restricted stock awards or RSUs.

To further ensure that the long-term interests of executive officers are closely aligned with those of stockholders, we request that they, except Mr. Murai, hold an equity position in SYNEX of the lesser of the following: (1) at least one times his annual total cash compensation or (2) \$1,000,000. This equity position can be satisfied by holding shares of common stock, whether vested or unvested, or vested in-the-money stock options. With respect to Mr. Murai, we request that he hold an equity position in SYNEX of the lesser of the following: at least two times the sum of his annual base salary plus target bonus as in effect from time to time or \$2,000,000. Stock ownership for Mr. Murai's purpose includes common stock owned personally or in trust for his benefit, but does not include unvested restricted stock or stock units, or unexercised stock options.

In addition, to avoid any impropriety or even the appearance of such, the Compensation Committee in most cases makes equity grants only during open trading windows. If the date of an equity grant falls within a trading black-out period, then the effective grant date is upon the expiration of the third trading day after the trading black-out period ends. The exception to this standard procedure is the granting of Long-Term Incentive RSUs, as discussed below, which are valued as of the first business day of the fiscal year. The exercise price for all stock option grants is the market closing price of our common stock on the effective grant date. In addition, annual equity grants to executive officers are generally awarded each year in the September-October period. We believe that the automatic and consistent nature of our equity grant process avoids the possibility of timing deviations.

Performance-Based, Long-Term Equity Incentives. Our LTI program, currently implemented through our 2013 Stock Incentive Plan, is designed to provide long-term retention incentives for our executive officers, and also to create an alignment between the interests of our executive officers and those of our stockholders because appreciation in the stock price of our shares will benefit both our executive officers and our stockholders. Under the 2013 Stock Incentive Plan, the Compensation Committee may grant LTI awards that require, as a condition to vesting, the attainment of one or more performance targets specified by the Compensation Committee from the list of possible financial and operational performance metrics specified in the 2013 Stock Incentive Plan.

We and the Compensation Committee believe that the LTI program ties executive deferred compensation to business performance and also aligns total compensation closer to the market comparatives in value and in form.

The LTI award is comprised of performance-based RSU grants. For fiscal years ending November 30, 2016 and November 30, 2017, the performance-based RSUs granted executive officers cliff vest based upon (1) the achievement of certain threshold EPS target performance percentages and (2) the achievement of certain ROIC performance percentages, with both performance metrics measured over a 3-year period. In determining the EPS target performance metrics, we focused upon our growth, return on equity, ROIC, and EPS. The minimum threshold EPS target performance percentage is 75% and the maximum target performance percentage is 166.7% for all executive officers. If the minimum threshold target performance percentage of the internally established EPS goal is not achieved, no performance-based RSUs vest for the executive officers, regardless of the achievement of the ROIC performance metrics. The minimum threshold target performance percentage is based on the previous year's EPS plus a reasonable, 3-year "stretch" goal taking into account the then economic environment. Alternatively, if the maximum target performance percentage of the internally established EPS goal is exceeded, no incremental performance-based RSU vesting beyond the maximum award benefit the executive officers.

The dollar value of the LTI awards is based upon one-third of each executive officer's 100% target Profit Sharing Plan award for the 2016 or 2017 fiscal year, as applicable. The actual number of performance-based RSUs, if the applicable minimum threshold percentage is met, vest on a sliding scale of the target EPS performance percentage actually achieved and the dollar limits pre-established by the Compensation Committee for each individual executive officer. This amount is then adjusted by the percentage increase or decrease corresponding with our performance as measured by the ROIC performance metric. To the extent that we fail to meet our performance targets for the applicable 3-year period, then that portion of the shares underlying the performance-based RSUs are canceled and do not vest. If, for example, we achieve an EPS equal to 75% of the EPS target our executive officers would receive 50% of the targeted shares. Similarly, if we achieve an EPS equal to 166.67% of EPS target, then our executive officers would receive 200%

of the targeted shares.

In order to allow for vesting of 200% of the target performance-based RSUs (pursuant to the vesting criteria discussed above), each executive officer is granted a number of performance-based RSUs equal to two times the target grant. For fiscal year 2016, based upon the per share price, adjusted for the exclusion of dividend equivalents, on the first business day of fiscal 2016 (December 1, 2015) of \$91.33, the executive officers were granted performance-based RSUs as follows:

	Number of RSUs granted (represents maximum award of 200% of target award)	Value of LTIs at maximum award of 200% of target award	Number of RSUs vesting at 100% target performance	Value of LTIs at 100% target performance (represents 100% of target award)	Number of RSUs vesting at 75% of target performance	Value of LTIs at 75% target performance (represents 50% of target award)
Kevin Murai	11,802	\$1,077,877	5,901	\$538,938	2,950	\$269,424
Peter Larocque	6,845	\$625,154	3,422	\$312,531	1,711	\$156,266

For fiscal year 2017, based upon the per share price, adjusted for the exclusion of dividend equivalents, on the first business day of fiscal 2017 (December 1, 2016) of \$114.57, the executive officers were granted performance-based RSUs as follows:

	Number of RSUs granted (represents maximum award of 200% of target award)	Value of LTIs at maximum award of 200% of target award	Number of RSUs vesting at 100% target performance	Value of LTIs at 100% target performance (represents 100% of target award)	Number of RSUs vesting at 75% of target performance	Value of LTIs at 75% target performance (represents 50% of target award)

Christopher Caldwell	4,022	\$460,801	2,011	\$230,400	1,005	\$115,143

In addition, the vesting of the LTI awards is contingent upon the executive officer still being employed by us on the date of vesting.

In considering the appropriate performance metric for the LTI awards for fiscal year 2015, the Compensation Committee, with the assistance of senior management, concluded that applicable EPS and ROIC performance metrics be the same for all executive officers. The Compensation Committee also considered the aggregate projected cost of the equity grants to the executive officers under FASB ASC Topic 718.

With respect to both our equity grants and the LTI program, the Compensation Committee considers at least annually whether to approve specific long-term equity awards based on the recommendations of our President and Chief Executive Officer (except with respect to his own awards). When determining awards, the Compensation Committee considers factors such as the individual's position with us, his prior and expected future performance and responsibilities, our retention and succession needs, and the long-term incentive award levels for comparable executives and key employees at companies that compete with us for executive and managerial talent. The Compensation Committee also considers the total value of equity awards previously granted and the existing equity

ownership of each executive officer when determining restricted stock award levels, with particular attention paid to the value of unvested awards. In addition, the Compensation Committee considers the potential dilution and accounting costs of long-term equity awards as compared to those granted at other publicly traded companies that compete with us for business and executive talent.

The 2013 Stock Incentive Plan does not state a formulaic method for weighing these factors, nor does the Compensation Committee employ one.

In general, we believe that the rebalancing of annual, variable compensation modified compensation program for our executive officers meets the objectives of rewarding executive officers for measurable results in meeting and exceeding goals and mitigates the potential for undue risk assumption.

Deferred Compensation Plan. Our deferred compensation plan permits designated employees to accumulate income for retirement and other personal financial goals by deferring present income through a nonqualified plan. Our deferred compensation plan became effective on January 1, 1994 and was amended on January 7, 2008 to conform with changes required by Section 409A of the Internal Revenue Code of 1986, as amended (Code). Currently, none of our executive officers participate in this plan.

Benefits, Perquisites and Other. Other benefits to our executive officers include medical, dental and life insurance, as well as 401(k) plan participation. These benefits are generally available to all our employees.

Executive Compensation Discussion for the Named Executive Officers

Mr. Murai's annual base salary was \$633,794 in fiscal year 2016. Mr. Murai also received a bonus of \$1,751,519 under our Profit Sharing Plan, a stock option grant of 45,927 shares, a restricted stock award of 6,691 shares, and a grant of 11,802 performance-based RSUs. Some of the primary factors affecting Mr. Murai's compensation include, among other things, our performance toward our pre-established financial goals, comparative compensation of competitor companies and his overall leadership of our company. In addition, Mr. Murai was responsible for the strategy of our company resulting in strong operational execution within the core Technology Solutions segment; continued expansion into adjacent, higher margin service and solution businesses; strong revenue growth within the Concentrix segment; and our overall performance, including 118 consecutive quarters of profitability. Mr. Murai has been a member of the Executive Committee of the Global Technology Distribution Council (GTDC) and served as the Chairman of the GTDC until September 2016, and, while under Mr. Murai's leadership in fiscal year 2016, we earned notable recognition, including rising to No. 212 on the Fortune 500 list and certain customer and vendor awards. Also, Mr. Murai is instrumental in the development of other executives and instills his vision of the company across the spectrum of all employees.

President, North American Technology Solutions. Peter Larocque has served as our President, North American Technology Solutions since November 2013 and previously served as President, U.S. Distribution from July 2006 through November 2013, as Executive Vice President of Distribution from June 2001 to July 2006, and as Senior Vice President of Sales and Marketing from September 1997 until June 2001. In addition, Mr. Larocque contributed substantially to the continued development of our service offerings; expansion of our product line card, especially in the communications, consumer, and networking markets; leadership of several significant sales divisions, including audio-visual, consumer electronics, enterprise, integrated communications, and technology solutions; organic growth of the U.S. Technology Solutions business, including Enterprise Solutions, Government and Healthcare Solutions, and Hyve Solutions; key customer initiatives; expansion of the VARNEX reseller community; and leadership of Share the Magic, our charitable fundraising efforts.

Chief Operating Officer. Dennis Polk is our Chief Operating Officer and has served in this capacity since July 2006. Mr. Polk is also a Director and has served in this capacity since February 2012. Sharing Plan, a stock option grant of 13,778 shares, a restricted stock award of 3,345 shares, and a grant of 6,845 performance-based RSUs. Some of the primary factors affecting Mr. Polk's compensation include, among other things, our performance toward our pre-established financial goals, his contribution to the overall leadership and strategic direction of our company, his leadership of the operations function of our company; his responsibility for our Technology Solutions operations, including Hyve Solutions and his responsibility for our support departments, including Information Technology, financial operations, legal, and mergers and acquisitions.

Chief Financial Officer. Marshall Witt has served as our Chief Financial Officer since April 2013. Mr. Witt's annual base salary was \$437,986 in fiscal year 2016. Mr. Witt also received a bonus of \$484,157 under our Profit Sharing Plan, a stock option grant of 10,333 shares, a restricted stock award of 2,342 shares, and a grant of 3,262 performance-based RSUs. Some of the primary factors affecting Mr. Witt's compensation include, among other things, our performance toward our pre-established financial goals, his contribution to the overall leadership of our company, his leadership of the finance organization and coordination of worldwide finance resources, effective navigation through a volatile global foreign currency market and establishment of consistent and enhanced controls within our Concentrix business.

Executive Vice President and President of Concentrix Corporation. Christopher Caldwell is our Executive Vice President and President of Concentrix Corporation, our global business process outsourcing division, and has served in this capacity since February 2014. He previously served as President of Concentrix Corporation from June 2012 to February 2014, Senior Vice President and General Manager of Concentrix Corporation from March 2007 until June 2012, and Senior Vice President, Global Business Development from March 2007 until June 2012. Risk Assessment of Our Compensation Program

Consistent with SEC disclosure requirements, we have assessed our compensation programs and have concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on our company. The risk assessment process included a review of program policies and practices; program analysis to identify risk and risk control related to the programs; and determinations as to the sufficiency of risk identification, the balance of potential risk to potential reward, risk control and the support of the program and their risks to our company strategy. Although we reviewed all compensation programs, we focused primarily on the programs with variability of payout, with the ability of an executive officer to directly affect payout and the controls on executive officer action and payout. By way of examples, we reviewed our compensation programs for certain design features that have been identified by experts as having the potential to encourage excessive risk-taking, including:

- too much focus on equity;
- compensation mix overly weighted toward annual incentives;
- highly leveraged payout curve and uncapped payouts;
- unreasonable goals or thresholds; and
- steep payout cliffs at certain performance level that may encourage short-term business decisions to meet payout thresholds.

We are satisfied that these potential pitfalls have been avoided or mitigated. We continue to monitor our compensation programs and reserve the right to adjust them as we judge necessary to avoid creating undue risk.

In addition, we have internal controls over financial reporting and the measurement and calculation of compensation goals, and other financial, operational, and compliance policies and practices that are designed to keep our compensation programs from being susceptible to manipulation by any employee, including our executive officers. Other risk-mitigating factors considered by the Compensation Committee include the following:

- the use of different types of compensation that provide a balance of short-term and long-term incentives with fixed and variable components;
- our minimum equity holding guidelines;
- our clawback policy which, in the event of a restatement of our financial results allows the Compensation Committee to seek to recover or cancel Profit Sharing Plan bonuses;
- caps on performance-based awards to limit windfalls;
- every executive officer must obtain permission from our Legal Department before the sale of any shares of our common stock, even during an open trading window;
- our policy to limit our involvement in cashless stock option exercises by our directors and officers;
- our prohibition of trading in our securities on a short-term basis, on margin, or in a short sale transaction;
- our policy against buying or selling puts or calls on our common stock;
- our Code of Ethical and Business Conduct; and
- the Compensation Committee's consideration of ethical behavior as integral in assessing the performance of all executive officers.

Ultimately, our incentive compensation is designed to reward executive officers for committing to and delivering goals that are intended to be challenging yet provide them a reasonable opportunity to reach the threshold amount, while requiring meaningful growth to reach the target level and substantial growth to reach the maximum level. The amount of growth required to reach the maximum level of compensation is developed within the context of the normal business planning cycle and, while difficult to achieve, is not viewed to be at such an aggressive level that it would induce our executive officers to take inappropriate risks that could threaten our financial and operating stability.

Tax Deductibility Considerations

Section 162(m) of the Code generally disallows a deduction for federal income tax purposes to any publicly-traded corporation for any remuneration in excess of \$1,000,000 paid in any taxable year to its chief executive officer and each of the three other most highly-compensated executive officers (other than its chief financial officer). Qualifying "performance-based compensation" is not subject to the deduction limitation if specified requirements are met. We maintain incentive compensation arrangements that are intended to qualify for this performance-based compensation exception. However, we also reserve the Compensation Committee's flexibility to provide one or more covered executive officers with the opportunity to earn compensation that does not comply with an exemption from the deduction limitation of Section 162(m) when the Compensation Committee believes that such compensation is appropriate to attract and retain executive talent.

Compensation Committee

The Compensation Committee has overall responsibility for our executive compensation policies as provided in a written charter adopted by the Board. The Compensation Committee is empowered to review and approve the annual compensation and compensation procedures for our executive officers. The Compensation Committee does not delegate any of its functions to others in setting compensation.

Compensation Consultant and Peer Group Analysis. To assist in this process, the Compensation Committee retained the services of Compensia, Inc. as its compensation consultant during fiscal year 2016. Compensia reported directly to the Compensation Committee and the Compensation Committee directly approved the Compensia fees. Management had no role in the selection of the compensation consultant. The Compensation Committee retained the services of Compensia to outline executive compensation trends and developments, review and analyze SYNEX' executive compensation philosophy and programs, and provide summary of findings and considerations for use in fiscal years 2016 and 2017. Neither SYNEX nor the Compensation Committee engaged any compensation consultants during fiscal year 2016 whose fees exceeded \$120,000. The Compensation Committee believes that the Compensia advice was independent of management, and Compensia has certified the same in writing, and benefited our company and stockholders. In reaching this conclusion, the Compensation Committee considered all factors relevant to Compensia's independence from management, including factors suggested by the New York Stock Exchange in its rules related to compensation advisor independence.

Compensia provided the Compensation Committee with a review of the overall compensation climate in the United States, best practices, and trends specific to our industry. Compensia provided analyses of base salaries, bonuses, long-term incentives and benefit practices of comparable peer companies. Compensia's work did not raise any conflict of interest.

The following comparable technology distribution, electronic manufacturing services, data processing and outsourced services, and IT consulting and other services peer companies were used in our competitive benchmarking:

Anixter International, Inc.

Arrow Electronics, Inc.

Avnet, Inc.

CDW Corporation

Convergys Corporation

Ingram Micro, Inc.

Insight Enterprises, Inc.

Sanmina Corporation

ScanSource, Inc.

Sykes Enterprises, Incorporated

Tech Data Corporation

TeleTech Holdings, Inc.

In addition to talking to members of the Compensation Committee, Compensia also contacted certain of our executive officers and other employees in our human resources department to obtain historical data and insight into previous compensation practices. The Compensation Committee took information provided by Compensia into consideration when setting executive compensation for fiscal years 2016 and 2017 and used them as a basis for making changes to executive compensation for fiscal years 2016 and 2017.

Tally Sheets and the Role of President and Chief Executive Officer. In fiscal year 2016, the Compensation Committee continued the practice of reviewing the total remuneration of the executive officers using summary tables, or tally sheets. These tally sheets allowed the Compensation Committee to undertake a comprehensive review across all forms of compensation, and to understand the effect that changing profit and stock price scenarios could have on such remuneration forms.

Mr. Murai also made recommendations to the Compensation Committee as to the compensation of the other named executive officers. The Compensation Committee may accept or adjust such recommendations for these officers.

However, in general, the Compensation Committee considered the recommendations of our President and Chief Executive Officer, the named executive officer's role, responsibilities and performance during the past year, and the amount of compensation paid to named executive officers in similar positions at comparable companies. These recommendations were considered in relation to annual performance reviews and played an important role in the compensation determinations by the Compensation Committee. For Mr. Murai, the Compensation Committee solely determines the compensation of the President and Chief Executive Officer based on a performance review and competitive benchmarking provided by Compensia.

In general, we believe that the current executive compensation program meets the objectives of rewarding executive officers for measurable results in meeting and exceeding goals.

Based on this review and these discussions, the Compensation Committee recommended to the Board of Directors of SYNEX that the Compensation Discussion and Analysis be included in SYNEX' proxy statement on Schedule 14A and incorporated by reference into its Annual Report on Form 10-K for the fiscal year ended November 30, 2016.

Amounts listed in these columns represent the grant date fair value of stock awards and option awards recognized by us under FASB ASC Topic 718, disregarding estimated forfeitures, rather than amounts realized by the named (1) individuals. For valuation assumptions used to calculate the fair value of our stock and option awards, see Note 5 “Share-Based Compensation” included in our Annual Report on Form 10-K for fiscal year ended November 30, 2016.

(2) For fiscal 2016, represents performance-based bonus awards under the Profit Sharing Plan earned in fiscal 2016, but paid in fiscal 2017 as described in the Compensation Discussion and Analysis beginning on page 23.

(3) Performance-based RSUs granted under our LTI program provide an opportunity for employees to receive common stock if a performance measure is met for the three-year performance period. If the minimum performance measure is not met, no award is earned. If at least the minimum performance measure is attained, awards can range from 50% of the target number of shares to 200% of the target number of shares underlying the performance-based RSUs. The amounts in the table above reflect the aggregate grant date fair values at the Target number of the performance-based RSUs granted under our LTI program described in the 2016 Summary Compensation Table Narrative, calculated in accordance with accounting guidance. If our performance results in a future payout of the performance-based RSUs at the maximum level, the aggregate grant date fair value of the

stock awards granted would have been as follows: Mr. Murai, for fiscal 2016 \$1,704,473, for fiscal 2015 \$1,643,353, and for fiscal 2014 \$4,434,860; Mr. Larocque, for fiscal 2016 \$928,532, for fiscal 2015 \$913,150,

and for fiscal 2014 \$792,264; Mr. Polk for fiscal 2016 \$928,532, for fiscal 2015 \$913,150, and for fiscal 2014 \$792,264; Mr. Witt for fiscal 2016 \$526,322, for fiscal 2015 \$490,990, and for fiscal 2014 \$433,390; and Mr. Caldwell for fiscal 2016 \$603,487, for fiscal 2015 \$518,605, and for fiscal 2014 \$1,460,500. For additional information on grant date fair value and estimated future payouts of stock awards, see the 2016 Grants of Plan-Based Awards table on page 37, and to see the value of stock awards actually realized by the named executive officers in fiscal 2016, see the 2016 Option Exercises and Stock Vested table on page 40.

(4) The amount in this column with respect to Mr. Murai includes the grant date fair value of the equity grant of restricted stock, the annual LTI RSU grant, and in fiscal 2014 a performance retention grant of 49,452 RSUs, a portion of which will vest upon the fourth and fifth anniversaries of October 7, 2014, provided that Mr. Murai remains in continuous employment by SYNEX through the vesting dates. An additional portion of the RSUs will vest on the fourth and fifth anniversary of the grant date provided that (i) Mr. Murai remains in continuous employment by SYNEX through the vesting dates and (ii) SYNEX achieves on a cumulative basis certain EBITDA performance targets established by the Compensation Committee for each of the fiscal years ended November 30, 2014 through 2018.

(1) The target incentive amounts shown in this column reflect our annual bonus awards originally provided under our Profit Sharing Plan and represents pre-established target awards as a percentage of base salary for fiscal year ended November 30, 2016, with the potential for actual awards under the plan to either exceed or be less than such funding target depending upon corporate performance. Actual award amounts are not guaranteed and are determined at the discretion of the Compensation Committee, which may consider an individual's performance during the period. For additional information, please refer to the Compensation Discussion and Analysis section. Actual Profit Sharing Plan payouts are reflected in the Non-Equity Incentive Plan Compensation column of the 2016 Summary Compensation Table.

(2) The threshold illustrates the smallest payout that can be made if all of the pre-established performance objectives are achieved at the minimum achievement level. The target is the payout that can be made if the pre-established performance objectives have been achieved at the target achievement level. The maximum is the greatest payout that can be made if the pre-established maximum performance objectives are achieved or exceeded at the outperform achievement levels. Actual payouts may be more or less than these amounts and are at the discretion of the Compensation Committee.

These shares represent the range of shares that may be released at the end of the performance period for the LTI (3) awards, December 1, 2015 to November 30, 2018. If the minimum threshold target performance percentage of the internally established EPS goal is not achieved, no performance-based RSUs will vest for the executive officers.

(4) The restricted stock awards vest as to 20% of the shares on the first five anniversaries of the grant date.

(5) The option awards vest and become exercisable as to 20% of the shares on the first anniversary of the grant date and the remaining vest monthly thereafter over the remaining four-year period.

Fair value of performance-based RSU grants are calculated using the closing stock price on the date of the grant, based on the probable outcome of the performance conditions, adjusted for the exclusion of dividend equivalents.

(6) We pay dividends on restricted stock awards, and, accordingly, no adjustment is required to the stock price of the restricted stock awards.

Narrative to 2016 Summary Compensation Table and 2016 Grants Plan-Based Awards Table

The Compensation Discussion and Analysis also describes the options, restricted stock awards and RSU grants.

Except as otherwise noted, all stock awards and option awards vest over five years beginning on the grant date, with the first vesting occurring on the first anniversary of the grant date.
