NOTE 1 – THE COMPANY AND BASIS OF PRESENTATION

Asure Software, Inc., (“Asure”, the “Company”, “we” and “our”), a Delaware Corporation, is a leading provider of Human Capital Management (“HCM”) and Workplace Management, offering intuitive and innovative cloud-based solutions designed to help organizations of all sizes and complexities build companies of the future. Our cloud platforms enable more than 100,000 clients worldwide to better manage their people and space in a mobile, digital, multi-generational, and global landscape. Asure’s offerings include a fully-integrated HCM platform, flexible benefits and compliance administration, HR consulting, and time and labor management as well as a full suite of workspace management solutions for conference room scheduling, desk sharing programs, and real estate optimization. We develop, market, sell and support our offerings worldwide through our principal office in Austin, Texas and through additional offices in Florida, Massachusetts, Michigan, Nevada and the United Kingdom, and as a result of our 2017 acquisitions, office suites in Alabama, Oregon, Ohio, Vermont, and Washington. As a result of our January 2018 acquisitions, we also lease office space in California, Iowa, Tennessee, and North Carolina.

We have prepared the accompanying unaudited condensed consolidated financial statements in accordance with the rules and regulations of the Securities and Exchange Commission and accordingly, they do not include all information and footnotes required under U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, these interim financial statements contain all adjustments, consisting of normal, recurring adjustments, necessary for a fair presentation of our financial position as of March 31, 2018, the results of operations for the three months ended March 31, 2018 and March 31, 2017, and the cash flows for the three months ended March 31, 2018 and March 31, 2017.

You should read these condensed consolidated financial statements in conjunction with our audited consolidated financial statements and notes thereto filed with the Securities and Exchange Commission in our annual report on Form 10-K for the fiscal year ended December 31, 2017. The results for the interim periods are not necessarily indicative of results for a full fiscal year.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash deposits and highly liquid investments with an original maturity of three months or less when purchased.

LIQUIDITY

As of March 31, 2018, our principal sources of liquidity consisted of \$25,808 of cash and cash equivalents, cash we expect to generate in the future from our business operations, and \$2,621 available for borrowing under our revolving line of credit with Wells Fargo discussed in Note 6 – Notes Payable. We believe that we have and/or will generate sufficient cash for our short- and long-term needs, including meeting the requirements of our term loan, and the related debt covenant requirements. We continue to seek reductions in our expenses as a percentage of revenue on an annual basis and thus may utilize our cash balances in the short-term to reduce long-term costs. Based on current internal projections, we believe that we have and/or will generate sufficient cash for our operational needs, including any required debt payments, for at least the next twelve months from the issuance of the condensed consolidated

financial statements. However, we will need to raise additional capital or incur additional indebtedness to grow our existing software operations and to seek additional strategic acquisitions in the near future.

Management is focused on growing our existing product offering, as well as our customer base, to increase our recurring revenues. We have made and will continue to explore additional strategic acquisitions. We expect to fund any future acquisitions with equity, available cash, cash we expect to generate in the future from our business operations, funds under our credit facilities, and cash generated from the issuance of equity or debt securities.

(Amounts in thousands, except share and per share data unless otherwise noted)

We cannot assure that we can grow our cash balances or limit our cash consumption and thus maintain sufficient cash balances for our planned operations or future acquisitions. Future business demands may lead to cash utilization at levels greater than recently experienced. We will need to raise additional capital in the future. However, we cannot assure that we will be able to raise additional capital on acceptable terms, or at all. In our evaluation of the Company's ability to continue as a going concern in accordance with ASU 2014-15, we have considered factors such as the Company's historical and forecasted results of operations and cash flows from operations, and, subject to the foregoing, we believe that substantial doubt regarding the Company's ability to continue as a going concern is not probable. We believe that we have sufficient capital and liquidity to fund and cultivate the growth of our current and future operations for at least the next twelve months from the issuance of these condensed consolidated financial statements and to maintain compliance with the terms of our debt agreements and related covenants or to obtain compliance through debt repayments made with the available cash on hand or anticipated for receipt in the ordinary course of operations.

RECENT ACCOUNTING PRONOUNCEMENTSRecently Adopted Standards

In May 2014, the FASB issued ASU 2014-09 ("Topic 606") "Revenue from Contracts with Customers." Topic 606 supersedes the revenue recognition requirements in Topic 605 "Revenue Recognition" ("Topic 605"), and requires entities to recognize revenue when control of the promised goods or services is transferred to customers at an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. We adopted Topic 606, as well as other clarifications and technical guidance issued by the FASB related to this new revenue standard, on January 1, 2018, using the modified retrospective method. The initial application was applied to all contracts at the date of initial application. We recognized the cumulative effect of initially applying the new revenue standard as an adjustment to the opening balance of retained earnings. Results of reporting periods after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605. We do not expect the adoption of Topic 606 to have a material impact to our results of operations on an ongoing basis.

We recorded a \$1,502 cumulative effect adjustment to opening retained earnings as of January 1, 2018 related to an increase in deferred commissions. There was no impact to revenues as a result of applying Topic 606 for the three months ended March 31, 2018.

The primary impact of adopting Topic 606 is to sales commissions related to onboarding new clients that were previously expensed. Under the new standard, these costs that were previously expensed are capitalized as deferred commissions and amortized over the estimated customer life of five to ten years.

The impact from the adoption of Topic 606 to our consolidated balance sheet and income statement is as follows:

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data unless otherwise noted)

In August 2016, the FASB issued ASU 2016-15, “Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments” which eliminates the diversity in practice related to eight cash flow classification issues. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. The adoption of this accounting standard did not have a material impact on our financial position, results of operations, cash flows, or presentation thereof.

In November 2016, the FASB issued ASU 2016-18, “Statement of Cash Flows (Topic 230): Restricted Cash,” which requires the change in restricted cash or cash equivalents to be included with other changes in cash and cash equivalents in the statement of cash flows. The ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. The adoption of this accounting standard did not have a material impact on our financial position, results of operations, cash flows, or presentation thereof.

In May 2017, the FASB issued ASU 2017-09, “Compensation – Stock Compensation (Topic 718) Scope of Modification Accounting,” which clarifies when to account for a change in the terms or conditions of a share-based payment award as a modification. ASU 2017-09 requires modification accounting only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. ASU 2017-09 is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The adoption of this accounting standard did not have a material impact on our financial position, results of operations, cash flows, or presentation thereof.

Standards Yet To Be Adopted

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Topic 842)”. The core principle of the standard is that a lessee should recognize the assets and liabilities that arise from leases. A lessee should recognize in its statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. We will be required to adopt the new standard in the first quarter of 2019. We are currently evaluating the impact ASU 2016-02 will have on our consolidated financial statements.

In February 2018, the FASB issued ASU No. 2018-02, “Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income”, which provides entities the option to reclassify tax effects stranded in accumulated other comprehensive income as a result of the 2017 Tax Cuts and Jobs Act (“the Tax Act”) to retained earnings. The guidance is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. We do not expect the adoption of this accounting standard to have a material impact on our financial position, results of operations, cash flows, or presentation thereof.

REVENUE RECOGNITION

On January 1, 2018, we adopted Topic 606 using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results of reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605. There was no impact to revenues as a result of applying Topic 606 for the three months ended March 31, 2018.

Our revenues consist of software-as-a-service (“SaaS”) offerings and time-based software subscription license arrangements that also, typically include hardware, maintenance/support and professional services elements. We recognize revenue on an output basis when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. Our contracts with customers may include multiple performance obligations. For such arrangements, we allocate revenue to each performance obligation based on its relative standalone selling price (“SSP”). We determine standalone selling prices based on the amount that we believe the market is willing to pay determined through historical analysis of sales data as well as through use of the residual approach when we can estimate the SSP for one or more, but not all, of the promised goods or services.

SaaS arrangements and time-based software subscriptions typically have an initial term ranging from one to three years and are renewable on an annual basis. A typical SaaS/software subscription arrangement will also include hardware, setup and implementation services. Revenues allocated to the SaaS/software subscription performance obligations are recognized on an output basis ratably as the service is provided over the non-cancellable term of the SaaS/subscription service and are reported as Cloud revenue on the Consolidated Statement of Comprehensive Loss. Revenue allocated to other performance obligations included in the arrangement is recognized as outlined in the paragraphs below.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Amounts in thousands, except share and per share data unless otherwise noted)

Hardware devices sold to customers (typically time clocks, LCD panels, sensors and other peripheral devices) are sold as either a standard product sell arrangement where title to the hardware passes to the customer or under a hardware-as-a-service (“HaaS”) arrangement where the title to the hardware remains with Asure. Revenues allocated to hardware sold as a standard product sell is recognized on an output basis as revenue when title passes to the customer, typically the date we ship the hardware and are reported as Hardware revenue on the Income Statement. Revenues allocated to hardware under a hardware-as-a-service (“HaaS”) arrangement are recognized on an output basis as hardware usage revenue ratably as the service is provided over the non-cancellable term of the HaaS arrangement, typically one year. Revenues recognized from hardware devices sold to customers via either of the two above types of arrangements are reported as Hardware revenue on the Consolidated Statement of Comprehensive Loss.

Our professional services offerings typically include data migration, set up, training, and implementation services. Set up and implementation services typically occur at the start of the software arrangement while certain other professional services, depending on the nature of the services and customer requirements, may occur several months later. We can reasonably estimate professional services performed for a fixed fee and we recognize allocated revenue on an output basis on a proportional performance basis as the service is provided. We recognize allocated revenues on an output basis for professional services engagements billed on a time and materials basis as the service is provided. We recognize allocated revenues on an output basis on all other professional services engagements upon the earlier of the completion of the service’s deliverable or the expiration of the customer’s right to receive the service. Revenues recognized from professional services offerings are reported as Professional service revenue on the Consolidated Statement of Comprehensive Loss.

We recognize allocated revenue for maintenance/support on an output basis ratably over the non-cancellable term of the support agreement. Initial maintenance/support terms are typically one to three years and are renewable on an annual basis. Revenues recognized from maintenance/support are reported as Maintenance and support revenue on the Consolidated Statement of Comprehensive Loss.

We do not recognize revenue for agreements with rights of return, refundable fees, cancellation rights or substantive acceptance clauses until these return, refund or cancellation rights have expired or acceptance has occurred. Our arrangements with resellers do not allow for any rights of return.

Our payment terms vary by the type of customer and the customer’s payment history and the products or services offered. The term between invoicing and when payment is due is not significant and as such our contracts do not include a significant financing component. The transaction prices of our contracts do not include consideration amounts that are variable and do not include noncash consideration.

Deferred revenue includes amounts invoiced to customers in excess of revenue we recognize, and is comprised of deferred Cloud, HaaS, Maintenance and support, and Professional services revenue. We recognize deferred revenues when we complete the service and over the terms of the arrangements, primarily ranging from one to three years.

CONTINGENCIES

Although we have been, and in the future may be, the defendant or plaintiff in various actions arising in the normal course of business, as of March 31, 2018, we were not party to any pending legal proceedings.

NOTE 3 – FAIR VALUE MEASUREMENTS

Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in U.S. generally accepted accounting principles and expands disclosures about fair value measurements.

ASC 820 establishes a three-tier fair value hierarchy, which is based on the reliability of the inputs used in measuring fair values. These tiers include:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active for identical or similar assets or liabilities; and model-driven valuations whose significant inputs are observable; and

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

NOTE 4 – ACQUISITIONS

2018 Acquisitions

In January 2018, we closed three strategic acquisitions: TelePayroll Inc. (“TelePayroll”), a Southern California-based provider of HR, payroll and employee benefits services; Pay Systems of America, Inc. (“Pay Systems”), a provider of HR, payroll and employee benefits services; and Savers Administrative Services, Inc. (“Savers Admin”), a certified third-party administrator of payroll and HR services. All three companies are current resellers of our leading Human Resource Information System platform, Evolution. The total consideration for the three acquisitions was \$30,574, of which \$25,432 was paid with cash on hand and the remaining portion was paid with a combination of promissory notes and Asure common stock.

Stock Purchase Agreement

In January 2018, we closed on the acquisition of all of the outstanding shares of common stock (the “TelePayroll Shares”) of TelePayroll, Inc., a California corporation (“TelePayroll”), pursuant to a Stock Purchase Agreement (the “TelePayroll Stock Purchase Agreement”), among us, TelePayroll, the sellers identified therein, and the stockholders’ representative named therein. The aggregate consideration for the TelePayroll Shares consisted of (i) \$9,000 in cash; (ii) 91,848 shares of common stock, having a value of \$1,200 and (iii) a subordinated promissory note (the “TelePayroll Note”) in the principal amount of \$1,800 subject to adjustment as provided in the TelePayroll Stock Purchase Agreement. We funded the cash payment with cash on hand. The TelePayroll Note bears interest at an annual rate of 2.0% and matures on January 1, 2020. The entire unpaid principal and all accrued interest under the TelePayroll Note is payable at maturity.

Stock Purchase Agreement

In January 2018, we closed on the acquisition of all of the outstanding shares of common stock (the “Savers Admin Shares”) of Savers Administrative Services, Inc., a North Carolina corporation (“Savers Admin”), pursuant to a Stock Purchase Agreement (the “Savers Admin Stock Purchase Agreement”), among us, Savers Admin, the sellers identified therein, and the stockholders’ representative named therein. The aggregate consideration for the Savers Admin Shares consisted of (i) \$2,280 in cash and (ii) a subordinated promissory note (the “Savers Admin Note”) in the principal amount of \$570 subject to adjustment as provided in the Savers Admin Stock Purchase Agreement. We funded the cash payment with cash on hand. The Savers Admin Note bears interest at an annual rate of 2.0% and matures on January 1, 2020. Stock Purchase Agreement

In January 2018, we closed on the acquisition of all of the outstanding shares of common stock (the “Pay Systems Shares”) of Pay Systems of America, Inc., a Tennessee corporation (“Pay Systems”), pursuant to a Stock Purchase Agreement (the “Pay Systems Stock Purchase Agreement”), among us, Pay Systems and the sellers identified therein. The aggregate consideration for the Pay Systems Shares consisted of (i) \$14,152 in cash and (ii) a subordinated promissory note (the “Pay Systems Note”) in the principal amount of \$1,572 subject to adjustment as provided in the Pay Systems Stock Purchase Agreement. We funded the cash payment with cash on hand. The Pay Systems Note bears interest at an annual rate of 2.0% and is payable in two installments – one-half, plus accrued interest, on July 1, 2018 and the remaining principal balance and accrued interest on January 1, 2019.

Purchase Price Allocation

Following is the purchase price allocation for the 2018 acquisitions. We based the preliminary fair value estimate for the assets acquired and liabilities assumed for these acquisitions upon preliminary calculations and valuations. Our estimates and assumptions for these acquisitions are subject to change as we obtain additional information for our estimates during the respective measurement periods (up to one year from the acquisition date). The primary areas of those preliminary estimates that we have not yet finalized relate to certain tangible assets and liabilities acquired, and income and non-income based taxes.

We recorded the transactions using the acquisition method of accounting and recognized assets and liabilities assumed at their fair value as of the dates of acquisitions. The \$16,980 of intangible assets subject to amortization consist of \$15,800 allocated to Customer Relationships, \$850 for Trade Names, and \$330 for Noncompete Agreements. To value the Trade Names, we employed the relief from royalty method under the market approach. For the Noncompete Agreements, we employed a form of the income approach which analyzes the Company’s profitability with these assets in place, in contrast to the Company’s profitability without them. For the Customer Relationships, we employed a form of the excess earnings method, which is a form of the income approach. The discount rate used in valuing these assets ranged from 14.5% to 31.0%, which reflects the risk associated with the intangible assets related to the other assets and the overall business operations to us. We estimated the fair values of the Trade Names using the relief from royalty method based upon a 1.0% royalty rate.

We believe significant synergies are expected to arise from these strategic acquisitions. This factor contributed to a purchase price that was in excess of the fair value of the net assets acquired and, as a result, we recorded goodwill for each acquisition. A portion of acquired goodwill will be deductible for tax purposes.

Equity Purchase Agreement

In May 2017, we entered into an equity purchase agreement (the “Equity Purchase Agreement”) with iSystems Holdings, LLC, a Delaware limited liability company (“Seller”), and iSystems Intermediate Holdco, Inc., a Delaware corporation (“iSystems”), pursuant to which we acquired 100% of the outstanding equity interests of iSystems for an aggregate purchase price of \$55,000, subject to adjustment as provided in the Equity Purchase Agreement. The aggregate purchase price consists of (i) \$32,000 in cash, subject to adjustment, (ii) a secured subordinated promissory note (“iSystems Note”) in the principal amount of \$5,000, subject to adjustment, and (iii) 1,526,332 shares of unregistered common stock valued at \$18,000 based on a volume-weighted average of the closing prices of our common stock during a 90-day period. The iSystems Note bears interest at an annual rate of 3.5% and matures on May 25, 2019. The unpaid principal and all accrued interest under the promissory note is payable in two installments of \$2,500 on May 25, 2018 and May 25, 2019, subject to adjustment.

To finance the iSystems acquisition, we amended and restated our existing credit agreement with Wells Fargo Bank, National Association, as administrative agent (the “Restated Credit Agreement”) to add an additional term loan in the amount of approximately \$40,000, of which we borrowed approximately \$32,000 to complete the iSystems acquisition. See Note 6- Notes Payable for further detail.

Stock Purchase Agreement

In May 2017, we entered into a stock purchase agreement (the “Stock Purchase Agreement”) with Compass HRM, Inc. (“Compass”) and the sellers and seller representative named therein, pursuant to which the sellers sold 100% of the outstanding shares of capital stock of Compass to us for an aggregate purchase price of \$6,000, subject to adjustment as provided in the Stock Purchase Agreement. Compass is headquartered in Tampa, Florida, and provides cloud-based human resource management software, including payroll, benefits, time and attendance, and performance management. The Compass Note bears interest at an annual rate of 2.0% and matures on May 25, 2022. The Compass Note is payable in five annual installments of \$300 on the anniversary of the closing date, subject to adjustment. The Compass Note was adjusted in March 2018, effective as of May 2017, to a principal amount of \$1,474, to give effect to a working capital adjustment pursuant to the Stock Purchase Agreement. The revised Compass Note is now payable in five annual installments of \$295 on the anniversary of the closing date, subject to adjustment.

To finance the Compass acquisition, we incurred approximately \$4,500 of additional indebtedness pursuant to an additional term loan under our Restated Credit Agreement. See Note 6 –Notes Payable for further details.

Stock Purchase Agreement

In October 2017, we entered into a stock purchase agreement (the “ADS Stock Purchase Agreement”) with Associated Data Services (“ADS”) and the sellers and seller representative named therein, pursuant to which the sellers sold 100% of the outstanding shares of capital stock of ADS to us for an aggregate purchase price of \$3,400, subject to adjustment as provided in the ADS Stock Purchase Agreement. The aggregate purchase price consists of \$1,778 in cash; 44,624 shares of common stock in Asure Software, Inc. estimated to have a fair value of \$528,200; and a subordinated promissory note (“ADS Note”) in the principal amount of \$1,122, subject to adjustment. The ADS Note

bears interest at an annual rate of 2.0%. The ADS Note is payable in two annual installments of \$370 and \$752 plus accrued interest, on October 1, 2018 and October 1, 2019, respectively, subject to adjustment.

Purchase Price Allocation

Following is the purchase price allocation for the 2017 acquisitions. We based the preliminary fair value estimate for the assets acquired and liabilities assumed for these acquisitions upon preliminary calculations and valuations. Our estimates and assumptions for these acquisitions are subject to change as we obtain additional information for our estimates during the respective measurement periods (up to one year from the acquisition date). The primary areas of those preliminary estimates that we have not yet finalized relate to certain tangible assets and liabilities acquired, and income and non-income based taxes.

We recorded the transactions using the acquisition method of accounting and recognized assets and liabilities assumed at their fair value as of the dates of acquisitions. The \$26,408 of intangible assets subject to amortization consist of \$23,085 allocated to Customer Relationships, \$1,621 for Trade Names, \$1,010 for Developed Technology, and \$692 for Noncompete Agreements. To value the Trade Names, we employed the relief from royalty method under the market approach. For the Noncompete Agreements, we employed a form of the income approach which analyzes the Company's profitability with these assets in place, in contrast to the Company's profitability without them. For the Customer Relationships and Developed Technology, we employed a form of the excess earnings method, which is a form of the income approach. The discount rate used in valuing these assets ranged from 14.0% to 17.0%, which reflects the risk associated with the intangible assets related to the other assets and the overall business operations to us. We estimated the fair values of the Trade Names using the relief from royalty method based upon a 1.0% to 1.7% royalty rate.

NOTE 5 – GOODWILL AND OTHER INTANGIBLE ASSETS

We accounted for our historical acquisitions in accordance with ASC 805, Business Combinations. We recorded the amount exceeding the fair value of net assets acquired at the date of acquisition as goodwill. We recorded intangible assets apart from goodwill if the assets had contractual or other legal rights or if the assets could be separated and sold, transferred, licensed, rented or exchanged. Our goodwill relates to the following acquisitions: ADI and Legiant in 2011, PeopleCube in 2012, FotoPunch and Roomtag in 2014, Mangrove in 2016, PMSI, CPI and PSNW in January 2017, iSystems and Compass in May 2017, ADS in October 2017, and TelePayroll, Pay Systems, and Savers Admin in January 2018.

In accordance with ASC 350, Intangibles-Goodwill and Other, we review and evaluate our long-lived assets, including intangible assets with finite lives, for impairment whenever events or changes in circumstances indicate that we may not recover their net book value. We test goodwill for impairment on an annual basis in the fourth fiscal quarter of each year, and between annual tests, if indicators of potential impairment exist, using a fair-value-based approach. There has been no impairment of goodwill for the periods presented. We amortize intangible assets not

considered to have an indefinite useful life using the straight-line method over their estimated period of benefit, which generally ranges from one to nine years. Each reporting period, we evaluate the estimated remaining useful life of intangible assets and assess whether events or changes in circumstances warrant a revision to the remaining period of amortization or indicate that impairment exists. We have not identified any impairments of finite-lived intangible assets during any of the periods presented.

The following table summarizes the changes in our goodwill:

| Balance at December 31, 2017 | \$77,348 |
| Goodwill recognized upon acquisitions of Telepayroll, Pay Systems and Savers Admin | 13,566 |

shares issuable upon the exercise of stock options. We compute the number of common share equivalents, which includes stock options, using the treasury stock method. We have excluded stock options to acquire approximately 1,010,000 and 609,000 shares for the three months ended March 31, 2018 and March 31, 2017, respectively, from the computation of the dilutive stock options because the effect of including the stock options would have been anti-dilutive.

THREE MONTHS ENDED MARCH 31, 2018 AND 2017

Revenue

Our revenue was derived from the following sources (in thousands):

| | FOR THE THREE MONTHS ENDED March 31, | | | |
|---------------------------------|--|----------|------------------------|-----------|
| | 2018 | 2017 | Increase (Decrease) | % |
| Revenue | | | | |
| Cloud revenue | \$16,437 | \$7,836 | \$ 8,601 | 109.8 |
| Hardware revenue | 719 | 1,088 | (369 |) (33.9) |
| Maintenance and support revenue | 1,173 | 1,102 | 71 | 6.4 |
| Professional services revenue | 975 | 701 | 274 | 39.1 |
| Total revenue | \$19,304 | \$10,727 | \$ 8,577 | 79.96 |

Total revenue represents our consolidated revenues, including sales of our scheduling software, time and attendance and human resource software, as well as complementary hardware devices to enhance our software products. Most product groupings include cloud revenue, hardware revenue, maintenance and support revenue, on premise software license revenue as well as installation and services and other professional services revenue. Revenue mix varies by product.

Revenue for the three months ended March 31, 2018 was \$19,304, an increase of \$8,577, or 79.96%, from the \$10,727 reported for the three months ended March 31, 2017. The largest increase was in cloud revenue, which increased \$8,601, or 109.8% from the first quarter of 2017. Cloud revenue increased primarily due to our 2017 and 2018 acquisitions and our continued emphasis on selling integrated cloud based solutions. The January 2018 acquisitions of

TelePayroll, Savers Admin and Pay Systems recognized \$4,125 and the 2017 acquisitions of iSystems and PMSI recognized \$4,263 of cloud revenue in the three months ended March 31, 2018, representing (in the aggregate) 98% of the increase from the three months ended March 31, 2017. Maintenance and support and professional services revenue also increased as compared to the three months ended March 31, 2017, due to an increase in consulting services, installations and hardware maintenance and support offset by a reduction in software maintenance and support as on-premises customers convert to the cloud.

Although our total customer base is widely spread across industries, our sales are concentrated in certain industry sectors, including corporate education, healthcare, government, legal and non-profit. We continue to target small and medium sized businesses and divisions of larger enterprises in these same industries as prospective customers. Geographically, we sell our products worldwide, but sales are largely concentrated in the United States, Canada and Europe. Additionally, we have reseller partners in North America, UK, South Africa and Asia Pacific.

Table of Contents

In addition to continuing to develop our workforce and Agile Workplace management solutions and release of new software updates and enhancements, we continue to actively explore other opportunities to acquire additional products or technologies to complement our current software and services. Our January 2018 acquisitions of TelePayroll Inc., a Southern California-based provider of HR, payroll and employee benefits services; Pay Systems of America, Inc., a provider of HR, payroll and employee benefits services; and Savers Administrative Services, Inc., a certified third-party administrator of payroll and HR services acquisitions are consistent with our strategy to augment our organic topline growth with select accretive acquisitions of service bureaus already using our software. All three companies are current resellers of Asure's leading Human Resource Information System platform, Evolution. These acquisitions provide us with significant customer, product and financial synergies.

Gross Profit and Gross Margin

Consolidated gross profit for the three months ended March 31, 2018 was \$13,747, an increase of \$5,458, or 65.8%, from the \$8,289 reported for the three months ended March 31, 2017. Gross profit increased in line with the increase in revenue. However, due to a shift in product mix, gross margin as a percentage of revenues decreased to 71.2% from 77.3% for the three months ended March 31, 2018 and March 31, 2017, respectively. HCM revenue, which typically has lower gross margins, represents a larger portion of our revenue mix, therefore, resulting in a decrease in the gross margin as a percentage of revenue.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses for the three months ended March 31, 2018 were \$10,709, an increase of \$3,666, or 52.1%, from the \$7,043 reported for the three months ended March 31, 2017. SG&A expenses as a percentage of revenues were 55.5% and 65.7% for the three months ended March 31, 2018 and March 31, 2017, respectively.

SG&A expenses were higher in the three months ended March 31, 2018 as compared to the same period in 2017 primarily due to the acquisitions and integration expenses related to the acquisitions in 2017 and 2018. We continue to evaluate any unnecessary expenses and any increases in SG&A designed to enhance future revenue growth.

Research and Development Expenses

Research and development ("R&D") expenses for the three months ended March 31, 2018 were \$1,423, an increase of \$654, or 85.0%, from the \$769 reported for the three months ended March 31, 2017. R&D expenses as a percentage of revenues were 7.4% and 7.2% for the three months ended March 31, 2018 and March 31, 2017, respectively.

We continue to enhance our products and technologies through organic improvements as well as through acquired intellectual property. We believe that our expanded investment in SaaS hosting, mobile and hardware technologies lays the ground work for broader market opportunities, and represents a key aspect of our competitive differentiation. Native mobile applications, QR Code integration, expanded web service integration and other technologies are all part of our initiatives.

Our development efforts for future releases and enhancements are driven by feedback received from our existing and potential customers and by gauging market trends. We believe we have the appropriate development team to design and further improve our workforce management solutions.

Amortization of Intangible Assets

Amortization expenses for the three months ended March 31, 2018 were \$1,597, an increase of \$750, or 88.5%, from the \$847 reported for the three months ended March 31, 2017. Amortization expenses as a percentage of revenues were 8.3% and 7.9% for the three months ended March 31, 2018 and 2017, respectively. The increases are due to the amortization recorded on the intangibles acquired in the acquisitions during 2017 and 2018.

Other Income and Loss

Other loss for the three months ended March 31, 2018 was \$1,760, an increase of \$1,213, or 221.8%, from the \$547 reported for the three months ended March 31, 2017. Other loss as a percentage of revenues was 9.1% and 5.1% for the three months ended March 31, 2018 and March 31, 2017, respectively. Other loss for the three months ended March 31, 2018 and March 31, 2017 are composed primarily of interest expense on notes payable.

Interest expense for the three months ended March 31, 2018 increased due to the additional debt amount we incurred under our May 2017 amended and restated credit agreement and a higher interest rate payable on a portion of such debt.

Table of Contents

Income Taxes

Provision for income tax expense was \$183 and \$142 for the three months ended March 31, 2018 and 2017, respectively, an increase of \$41, or 28.9%, as a result of additional tax deductible goodwill acquired in 2017.

Net Income (Loss)

We incurred a net loss of \$1,925, or \$(0.15) per share, during the three months ended March 31, 2018, compared to net loss of \$1,059, or \$(0.12) per share, during the three months ended March 31, 2017. Net loss as a percentage of total revenues was 10.0% and 9.9% for the three months ended March 31, 2018 and 2017, respectively.

We intend to continue to implement our corporate strategy for growing our software and services business by modestly investing in areas that directly generate revenue and positive cash flows for the Company. However, uncertainties and challenges remain and there can be no assurance that we can successfully grow our revenues or achieve profitability during the remainder of fiscal year 2018.

LIQUIDITY AND CAPITAL RESOURCES (Amounts in thousands)

| | March 31, 2018 | December 31, 2017 |
|---|--|-------------------------|
| Working capital | \$13,668 | \$ 17,026 |
| Cash and cash equivalents | 25,808 | 27,792 |
| | For the Three Months Ended March 31, | |
| | 2018 | 2017 |
| Net Cash provided by (used in) operating activities | \$(896) | \$(1,185) |
| Net Cash used in investing activities | (38,071) | (6,557) |
| Net Cash provided by (used in) financing activities | 36,976 | (2,700) |

Working Capital. We had working capital of \$13,688 at March 31, 2018, a decrease of \$3,358 from working capital of \$17,026 at December 31, 2017. Working capital at March 31, 2018 and December 31, 2017 includes \$12,152 and \$13,078 of short term deferred revenue, respectively. Deferred revenue is an obligation to perform future services. We expect that deferred revenue will convert to future revenue as we perform our services, but this does not represent future payments. Deferred revenue can vary based on seasonality, expiration of initial multi-year contracts and deals that are billed after implementation rather than in advance of service delivery. We attribute the decrease in our working capital to the use of \$25,432 of cash to fund the acquisitions of TelePayroll, Pay Systems and Savers Admin in the first quarter of 2018.

Operating Activities. Net cash used in operating activities was \$896 for the three months ended March 31, 2018. The \$896 of cash used in operating activities during the first three months of 2018 was primarily driven by a net loss of \$1,925, an increase in accrued expenses and other long-term obligations of \$2,040, an increase in accounts payables of \$666 and non-cash adjustments to net loss of \$2,534. This was offset by an increase in prepaids and other assets of \$2,182, a decrease in deferred revenue of \$1,265, and an increase in accounts receivable \$535. The \$1,185 of cash used in operating activities during the first quarter of 2017 was primarily driven by an increase in prepaid expenses and other assets of \$1,004, a decrease in deferred revenue of \$516, and an increase in accounts receivable of \$366. This was offset by an increase in accounts payable of \$598.

Investing Activities. Net cash used in investing activities was \$38,071 and \$6,557 for the three months ended March 31, 2018 and 2017, respectively. Cash used in investing for the three months ended March 31, 2018 is primarily due to the acquisitions of TelePayroll, Pay Systems and Savers in January 2018 and the funding of our April 2018 acquisitions, and a decrease in funds held for clients. Cash used in investing for the three months ended March 31, 2017 is primarily due to the acquisitions of PMSI, CPI and PSNW in January 2017, offset by a decrease in funds held for clients.

Financing Activities. Net cash provided by financing activities was \$36,976 for the three months ended March 31, 2018. We incurred \$39,129 of indebtedness. This was offset by debt financing fees of \$1,577. Cash used in financing activities was \$2,700 for the three months ended March 31, 2017. We incurred \$5,000 of debt, offset by payments on debt of \$6,069 and client fund obligations of \$1,485.

Sources of Liquidity. As of March 31, 2018, Asure's principal sources of liquidity consisted of \$25,808 of cash and cash equivalents, cash we expect to generate in the future from our business operations, and \$2,621 available for borrowing under our revolving line of credit with Wells Fargo. Based on current internal projections, we believe that we have and/or will generate sufficient cash for our operational needs, including any required debt payments, for at least the next twelve months. However, we will need to raise additional capital or incur additional indebtedness to grow our existing business operations and to seek additional strategic acquisitions in the near future.

Our management team is focused on growing our existing software operations and is seeking additional strategic acquisitions for the near future. At present, we plan to fund any future acquisition with existing cash and cash equivalents, cash we expect to generate in the future from our business operations, funds under credit facilities, and cash generated from the issuance of equity or debt securities.

We cannot assure that we can grow our cash balances or limit our cash consumption and thus maintain sufficient cash balances for our planned operations or future acquisitions. Future business demands may lead to cash utilization at levels greater than recently experienced. We will need to raise additional capital in the future in order to grow our existing software operations and to seek additional strategic acquisitions in the near future. However, we cannot assure that we will be able to raise additional capital on acceptable terms, or at all. Subject to the foregoing, management believes that we have sufficient capital and liquidity to fund and cultivate the growth of our current and future operations for at least the next twelve months and to maintain compliance with the terms of our debt agreements and related covenants or to obtain compliance through debt repayments made with our available cash on hand or anticipated for receipt in the ordinary course of operations.

Capital Resources. At March 31, 2018, we had \$105,000 outstanding under our Restated Credit Agreement with Wells Fargo and Goldman Sachs. Available funds were \$2,621 under the line of credit at March 31, 2018. For further discussion regarding our Second and Restated Credit Agreement and debt financing arrangements, see Note 6 to the accompanying condensed consolidated financial statements.
