## Hanson PLC Annual General Meeting

Speaking today at the AGM of Hanson PLC, Alan Murray, Chief Executive, made the following comments regarding the group's trading outlook:

"The trading outlook for 2005 is in line with indications provided at the time of our February preliminary

results announcements. It is still early in the construction season in most of our markets. We continue to expect our operations in our major markets of North America, UK and Australia to experience stable underlying demand in 2005 and benefit from ongoing management initiatives. Price increases are expected to recover input cost pressures and we will benefit from cost savings in both our US and UK Aggregates divisions. As a result, therefore, margin improvement should occur. Overall, we are looking forward to progress in 2005."

The following update on asbestos was also provided:

"The gross cost of asbestos for the first quarter was in line with expectation. Federal Reform for asbestos remains a difficult political process and, whilst we are supportive, we still believe the likelihood of success is 50:50 at best."

Slides, speeches and proxy votes will be available on Hanson's website [www.hanson.biz](http://www.hanson.biz) from 2.30pm (BST).
