<b>UK</b>	<b>down 3.5 %</b>

Terry Burman, Group Chief Executive, commented: "Profits for the full year are expected to be within the range of market forecasts despite an extremely challenging environment on both sides of the Atlantic. While Group same store sales were very disappointing, being down 15.2% over the nine week period, gross merchandise margin was substantially ahead of last year and costs were very tightly controlled. Income before income tax for 2008/09 is currently anticipated to be between \$180 million and \$195 million, after charging \$10.5 million of costs related to the change in domicile of the Company. We believe the Group's strategy of maximizing gross merchandise margin dollars, rather than sales, proved beneficial.

In the forthcoming fiscal year, both of the Group's divisions will continue to seek to optimize sales by implementing further product initiatives, improved customer service and best in class marketing that leverages our leading share of voice. However, against a background of extremely difficult trading conditions, the prime focus of management will be on reducing debt by maximizing gross merchandise margin dollars, achieving meaningful expense reductions, executing inventory efficiencies and reducing capital expenditure. Working capital will also be improved as a result of a small reduction in US space, with some 17 store openings (including 9 Jared) offset by about 60 mall brand closures as leases expire.

In the light of economic prospects and financial market conditions, as well as the focus on debt reduction, the Board has concluded that it is not currently appropriate to pay dividends.

The Group anticipates that net debt will be meaningfully reduced during the 2009/10 fiscal year as a result of these actions. Against the background of a continuing difficult economic environment, the Group's strong balance sheet, superior operating metrics and sector leading execution remain critical competitive advantages."

*Signet operated 1,979 specialty retail jewelry stores at January 3, 2009; these included 1,418 stores in the US, where the Group trades as “Kay Jewelers”, “Jared The Galleria Of Jewelry” and under a number of regional names. At the same date Signet also operated 561 stores in the UK, where the Group trades as “H.Samuel”, “Ernest Jones” and “Leslie Davis”. Further information on Signet is available at [www.signetjewelers.com](http://www.signetjewelers.com) . ## **GROUP**

In the nine week period to January 3, 2009 same store sales were down by 15.2%. Total sales fell by 19.4% on a reported basis and by 13.1% at constant exchange rates (see note 1).

In the 48 weeks to January 3, 2009 same store sales declined by 8.1%. Total sales decreased by 8.3% on a reported basis and by 5.5% at constant exchange rates (see note 1). Income before income tax for 2008/09 is currently expected to be between \$180 million and \$195 million after charging \$10.5 million of costs related to the change in domicile of the Company.

The Group's anticipated cash outflow (after dividends) of about \$30 million before foreign exchange adjustments in 2008/09 is also within the range of expectations. The reported year end net debt figure is forecast to be between \$470 million and \$490 million (February 2, 2008: \$374.6 million), reflecting an adverse foreign exchange movement of around \$75 million, arising principally from the impact of devaluation on sterling swaps relating to intercompany balances.

The balance sheet remains strong and the Group is trading within the requirements of its borrowing agreements. However, the Group is currently in advanced negotiations with its lenders to amend the fixed charge covenant. It is expected that an amendment will also make adjustments to the interest rate and fees paid, place restrictions on distributions to shareholders, as well as reduce the size of facilities available to more appropriately reflect the Group's current and prospective requirements.

### **UNITED STATES (circa 75% of Group annual sales)**

In the nine week period to January 3, 2009, US same store sales declined by 16.4% and total sales fell by 14.0%. The average selling price decreased in both Jared and the mall brand stores. In a highly promotional environment pricing discipline was maintained and the gross merchandise margin increased by about 250 basis points over the comparable period last year.

In the 48 weeks to January 3, 2009, same store sales decreased by 9.5%, with total sales down by 5.9%. Net new store space is expected to have increased by 4% during 2008/09. The net bad debt charge as a percentage of total sales for the year is forecast to be about 4.8%, which is in line with the 9 months to November 1, 2008. Although the divisional operating income for 2008/09 will be below that of last year, the operating margin at about 7% is anticipated to be well above the typical level of the US jewelry sector.

### **UNITED KINGDOM (circa 25% of Group annual sales)**

In the nine week period to January 3, 2009, UK same store sales declined by 10.9%, with total sales down by 33.4% on a reported basis and by 9.7% at constant exchange rates (see note 1). The average selling price was up in both H.Samuel and Ernest Jones. Watch participation increased in H.Samuel and the merchandise mix in Ernest Jones was little changed. In a retail marketplace that was extremely promotional, the gross merchandise margin is anticipated to be about 110 basis points below last year's level as a result of limited additional discounting and mix changes. For the year as a whole gross merchandise margin is in line with last year.

In the 48 weeks to January 3, 2009, same store sales declined by 3.5%. Total sales decreased by 15.2% on a reported basis and by 4.2% at constant exchange rates (see note 1). Divisional operating income is forecast to be below last year's level at constant exchange rates. However, the business continues to achieve a healthy operating margin of about 9%, a good return on capital and strong cash flow.

The breakdown of UK same store sales performance is shown below:

<b>Period</b>	<b>Ernest Jones (c. 12% of Group)</b>	<b>H.Samuel (c. 13% of Group)</b>	<b>UK (c. 25% of Group)</b>
9 weeks to January 3, 2009	-13.2%	-9.2%	-10.9%
48 weeks to January 3, 2009	-4.2%	-2.8%	-3.5%

**Note 1 - Impact of constant exchange rates**

*The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as 'at constant exchange rates' throughout this release. The Group considers this to be a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales growth at constant exchange rates is shown below:*

<b>9 weeks to January 3, 2009</b>	Growth at actual exchange rates	Impact of exchange rate movement	Growth at constant exchange rates (non-GAAP)
