EXHIBIT INDEX

Exhibit

EXHIBIT NO.1 Press release of British Sky Broadcasting Group plc announcing Results for the half year ended 31 December 2008 released on 28 January 2009

BRITISH SKY BROADCASTING GROUP PLC Results for the half year ended 31 December 2008

Strong Performance in a Tough Environment

Continued growth in home entertainment and communications

- Net customer growth of 171,000 in the second quarter, (prior year 167,000), taking the total customer base to 9.24 million
- Churn reduced to 9.9%, benefiting from strong take-up of additional products
- Over 50% of customers now take Sky+ or Sky+HD; sales of both products accelerated sharply during the quarter
- Strengthened on-screen offering, with 17 new HD channels and important rights renewals in sports, movies and entertainment
- The UK's fastest growing broadband provider with 1.96 million Sky Broadband customers
- Fastest growing home telephony service in the UK with 1.50 million Sky Talk customers

Delivered a strong financial performance for the first six months

- Increased rate of customer growth and record ARPU, delivering 6% increase in revenue to £2.6 billion
- Good cost control helped to increase adjusted operating margin by 2.4 percentage points to

14.9% of sales

- Adjusted operating profit up by 26% to £388 million¹
; reported operating profit up by 31% to £385 million
- Adjusted basic EPS growth of 34% to 13.0 pence¹
; basic EPS of 9.5 pence, up by 15.9 pence
- Interim dividend increased by 5% to 7.5 pence per share

¹See page 3 for financial highlights and reconciliation of non-GAAP measures and page 16 for definition of terms.

2009: Investing through the economic downturn to take advantage of growth opportunities

- Extend leadership in TV through focused additional investment in HD growth

- Sky+HD set-top box price reduced to £49 from 28 January 2009

- Creating around 1,000 jobs to support growth

- Continue to grow in broadband and telephony
- Maintain focus on efficiency and cost reduction to enhance returns

Jeremy Darroch, Chief Executive,
said:

"In a very challenging economic environment, we have delivered a great set of results by focusing on quality, value and service for our customers. Overall customer growth is up year on year and we are selling more products across the board, including record growth in Sky+HD.

"Good cost control has allowed us to turn our operational performance into very strong financial results, with 6% growth in revenue, 26% growth in operating profit and 34% growth in earnings per share.

"These results are only possible because of the hard work and dedication of the great team of people we have right across Sky.

"We enter 2009 in a strong position. Against a very difficult and uncertain economic backdrop, we will continue to focus our efforts on providing customers with more of what they want: the very best of entertainment and home communications at great value, backed up by great service.

"Today we are announcing plans to make high definition more accessible to everyone. We will continue to build our broadband and home telephony businesses, helping even more Sky customers to save money on their household bills.

"We will build on our Bigger Picture commitment to make the arts more accessible, encourage participation in sport and help tackle climate change. And we will continue to focus on the efficiency of our operations.

"Delivering on these plans will create a stronger and more profitable business for the benefit of customers, shareholders and colleagues alike."

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

There will be a presentation to analysts and investors at 09:30 a.m.(GMT) today. Participants must register by contacting Yim Wong or Emily Dimmock on +44 20 7251 3801 or at bskyb@finsbury.com.

In addition, a live webcast of this presentation to UK/European analysts and investors will be available via the <http://www.sky.com/investors> and subsequently available for replay.

There will be a separate conference call for US analysts and investors at

10.00 a.m. (EST). To register for this please contact Dana Johnston at Taylor Rafferty on +1 212 889 4350. Alternatively you may register online at http://invite.taylor-rafferty.com/_bskyb/cc

.
A live webcast of this presentation will be available today on Sky's corporate website, which can be found at www.sky.com/corporate

.
An interview with Jeremy Darroch, CEO, and Andrew Griffith, CFO, in audio / video and transcript will be available from 7:00 a.m. GMT today at www.sky.com/corporate and www.cantos.com

OVERVIEW

The business has performed well in a very challenging economic environment and we enter calendar 2009 in a strong position. Net customer additions of 171,000 in the quarter were up 2% year on year, taking total customers to 9.238 million.

At the same time, we are selling a wider range of products to our existing customers and, in doing so, we are starting to generate greater value from our subscription base. As a result, ARPU grew by 5% year on year to reach a new high of £444 and churn reduced by one percentage point from the previous quarter to 9.9%.

Total product sales increased by 7% year on year in the second quarter with more than half of all customers now taking Sky+. Building on this success, sales of Sky+HD reached unprecedented levels in the second quarter, with net additions of 188,000, double the rate of first quarter additions and five times the rate seen in the fourth quarter of last year. We now offer access to 31 quality high definition (HD) channels covering a broad range of content, making Sky the clear leader in HD in the

UK
and
Ireland
. Total Sky+HD customers have now reached 779,000, or 8% of our customers, generating incremental annualised revenue of around £80 million through additional subscriptions.

At the same time we have focused on improving the efficiency of our operations and reducing our cost base. Consequently, despite the higher cost of servicing a growing customer base and meeting

increased demand for our products, we have delivered a very strong financial performance. Revenue for the six months to 31 December 2008 increased by 6% to £2,601 million on the six months to 31 December 2007 ("the comparable period", "2008"), generating operating profit of £385 million. Adjusted operating profit was up 26% to £388 million and adjusted earnings per share increased by 34% to 13.0 pence per share. Net debt fell by £331 million year on year to £1.6 billion and our liquidity position is strong. We are proposing an increase in the interim dividend of 5% on the comparable period, which is supported by healthy free cash flow and a strong financial position.

PRIORITIES FOR 2009 AND BEYOND

The economic climate is tougher than it has been for many years and like all companies we face uncertainty. Whilst no consumer business is immune to a downturn, our focus on quality, value and service for customers positions us well. In addition, we have taken early action on reducing costs and we retain a good degree of flexibility in our cost base.

In the coming year we intend to build on the momentum of 2008. We continue to see significant opportunity ahead, both by attracting new customers and by selling more products to our existing customers.

In this context, our priorities are:

- Accelerating the take-up of Sky+HD
- Growing our broadband and telephony business further
- Further improving the efficiency of our operations and reducing costs

Sky+HD

We see a significant opportunity emerging in HD. More than seven million households already have HD Ready TV screens and this is expected to almost double by the end of the decade

¹
; there is growing penetration of HD enabled devices entering the home (BluRay, game consoles); and content producers are embracing HD at a faster rate than ever before. As a result, we are seeing a dramatic shift in awareness of HD and more and more people are starting to regard HD quality video as standard.

We have been positioning our business to take advantage of this long-term trend and have assembled the best HD service in the

UK
by far. At the heart of this is an outstanding range of content from high quality brands. Today we offer access to 31 HD channels

²
allowing customers to enjoy over 11,000 hours of content per month from key channel brands spanning sports, movies, arts, entertainment and factual programming. All of this is combined with the benefits of Sky+ technology to put maximum flexibility and control into the hands of our customers allowing them to get the most value from their subscription package.

Following the sharp increase in demand during 2008, we now see an attractive opportunity to invest in further accelerating the take-up of Sky+HD. We will be setting a new everyday low purchase price of £49

³
for a Sky+HD box from 28 January 2009 for all our customers, reduced from an average price of £150 in the six months to 31 December 2008.

As a result of our actions on efficiency and costs, and to support the anticipated acceleration in demand for Sky+HD, we are creating around 1,000 new jobs in our customer service and installation teams. Recruitment has begun for the new roles and is expected to be completed by June 2009. We estimate this will result in incremental fixed costs of around £15 million (£30 million per annum) in the second half of our 2009 financial year.

We have structured our investment so that the majority of costs are geared to demand; Sky+HD customer acquisition costs will only be incurred in proportion to take-up of the product. At a headline box price of £49, we estimate an incremental cost of adding a Sky+HD customer (either new to Sky or existing customer upgrades) of £100. This cost is fully recovered within 12 months through the ongoing monthly revenue from the HD pack subscription.

As a result, we believe Sky+HD is an attractive opportunity for our business to invest at low risk to generate a significant and recurring revenue stream. In addition, the growth of Sky+HD will create a larger installed base of our most advanced boxes, providing us with a platform for further innovation and the launch of new services for customers over time.

1
GfK

and Sky estimates

2
As at 28 January 2009

3
Available with HD content mix for £9.75 per month. Minimum contract term of 12 months. Installation fee of £30 for existing customers.

Broadband and telephony

We will continue to grow our broadband and telephony businesses and at the same time focus on improving returns in these areas. In a short period we have grown our broadband customer base from zero to almost two million, helped by the value and quality of our products. Today only 13% of customers take all three of TV, broadband and telephony from us, leaving significant headroom for growth. This year we will focus on driving attachment of our Sky Talk product to Sky Broadband through bundled pricing, meaning that every new broadband customer will generate positive contribution. In the second half of our 2009 financial year we will move to full unbundling, which, after initial migration fees, directly reduces third party network costs. These initiatives will deliver improved profitability in our broadband and telephony business whilst at the same time continuing to save our customers money.

Operational efficiency and reducing costs

Finally, as we invest in customer-facing areas to grow our scale, we will continue to seek out operational efficiencies. We will build on the strong progress made in the first half of our 2009 financial year to drive further rate savings in the cost of set-top boxes, maximise productivity in our call centres, optimise our network capacity and hold the rate of growth in overhead costs below that of revenue. This focus on efficiency allows us to continue to invest sensibly in customer-facing activities and to prioritise growth opportunities that deliver attractive returns, such as Sky+HD.

OPERATIONAL REVIEW

DTH customer net additions were 171,000 in the three months to 31 December 2008 ("the quarter"), 2% higher year on year, taking our total base to 9.238 million customers. Gross customer additions of 398,000 were 3% higher year on year and churn fell to 9.9%, one percentage point lower than the previous quarter and 0.1 percentage points lower year on year.

Strong demand for our products across the board led to a 7% increase year on year in gross product sales to 1.8 million. Not only is our broader product-set giving customers more reasons to join Sky for the first time, there is also a strong appetite from our existing customers to take more products from us. 62% of customers now take at least one

additional product, up significantly from 46% in the previous year. The benefits of this include deepening our relationship with the household, increased customer loyalty and higher ARPU as customers reward us with more of their business. ARPU was up 5% year on year to a record £444 in part the reflection of strong take-up of Sky+HD, broadband and telephony.

The combination of a lower promotional price for the Sky+HD box in October and our substantially increased HD content offering drove unprecedented demand. We added 188,000 Sky+HD customers in the second quarter, more than double the previous quarter and almost three times the previous year, to reach 779,000 customers, or 8% of the base. Today, Sky provides the leading HD service in the

UK

by some way. We have progressively extended our content line-up to 31 high quality HD channels, broadcasting over 11,000 hours of HD programming per month, including key channel brands and spanning a wide range of sports, movies, arts, factual and general entertainment. All of this is backed up with the benefits of Sky+ technology to put maximum flexibility and control into the hands of our customers and allows them to get the most value from their subscription package.

Sky Broadband reached 1.955 million subscribers, with 163,000 net additions in the quarter. Sky Talk customers increased by a further 139,000, to 1.5 million, reaching our 2010 target more than two years ahead of plan. More TV customers are saving money by switching to Sky for broadband and telephony, with the largest savings available to those who take all three products. As a result, we expect continued growth in customers taking a combined TV, broadband and telephony service, which currently stands at 13%. Increasingly, we are widening our communications services to include line rental and provide a new telephone line, including to former cable customers. As at 31 December 2008, 403,000 Sky Talk customers also subscribe to our wholesale line rental product.

Average TV viewing per individual in the

UK

increased by 3% to 3.7 hours per day in calendar 2008. We continue to invest in high quality content for our customers and successfully strengthened our offering during the period. Sky1, our flagship entertainment channel, continues to expand its breadth and depth of content. The first half saw the return of 'Noel's Christmas Presents', 'Prison Break', continuing all-new 'Gladiators', and the launch of new family entertainment shows 'Hairspray: The School Musical' and 'Guinness World Records Smashed!'. In the last quarter, 'Bones' achieved record audiences, exceeding one million viewers for the first time. Sky1 also premiered the brand new

US

drama 'Fringe', from the award-winning creator of 'Lost', JJ Abrams. Sky Movies had a strong response to its 'Come home to Sky Movies this Christmas' campaign. More customers are accessing our Sky Anytime video on demand service than ever before, and it is now reaching over a million customers a week. We also launched Sky Player TV, an online TV subscription service offering a broad range of live channels and on demand content from leading pay TV channel brands.

We doubled our output of arts programming to 36 hours a day from October 2008 and added more content to our HD channel. This compares to around 22 hours of arts output during the month of December 2008 across the five analogue terrestrial channels combined. As a result we have brought a million new viewers to our Sky Arts channel portfolio. For these customers we have added more value to their subscription, and we have also given new customers another reason to join Sky for the first time.

In December, Sky Sports announced an agreement to show the Heineken Cup live for a further four seasons. This was the third Rugby Union agreement secured in the month following a five-year agreement with the RFU for all England

's autumn and summer internationals and a new three-year agreement for the Guinness Premiership to follow our current contract. During 2008, Sky Sports showed over 40,000 hours of sports programming in standard definition across its five core channels and a further 5,500 hours to HD. In 2009, Sky Sports viewers can look forward to live

sport including the summer Ashes series, more matches and match nights under the new UEFA Champions League agreement and an exciting conclusion to the Premier League season. Rugby Union also features strongly in the year ahead with exclusive live coverage of the British & Irish Lions tour to South Africa in June.

During the quarter, we continued to focus on developing our brand and reputation, including important developments in our Bigger Picture commitments to make the arts more accessible, encourage participation in sport and to help create a healthy environment.

In addition to doubling our output of Sky Arts content we also launched a new strategy for supporting the arts beyond the screen, including a major two year sponsorship of Artichoke, the groundbreaking company that specialises in bringing major arts projects to the streets of the UK, from the 'Sultan's Elephant' in London in 2006 to 'La Machine' in Liverpool last year. In addition, we committed to link up with 24 arts organisations across the country every year in on-screen and online partnerships, which will see Sky Arts produce and air a special 'behind the scenes' documentary. This builds on our support of major arts organisations and events including the English National Ballet and Hay Festival, where Sky Arts is broadcast partner.

In November, Sky Sports extended for a further two years its sponsorship of the ECB's Coach Education Programme, which has trained nearly 13,000 grassroots cricket coaches in the past two years. We also extended our Sky Sports Living for Sport initiative, which we run in conjunction with the Youth Sports Trust, so that it is now available in every secondary school across the UK

, with an aim to reach 30,000 young people by 2012. Finally, as part of our partnership with British Cycling to support and develop cycling at all levels from grassroots to the elite, a new Sky+HD Trade Team competed for the first time at the UCI Track Cycling World Cup in Manchester at the end of October.

To help create a healthy environment, we committed to making our new broadcast facility, which will be the home of Sky Sports from 2011, the most sustainable in Europe

. The building will include environmental features such as natural ventilation systems to expel waste heat and simultaneously draw in fresh air to cool the studios and reduce the building's overall energy use by 7.5%. Subject to further planning consent, two wind turbines will provide 90% of the energy required for office lighting and the building will be supported by an onsite renewable energy plant, which alone will reduce the building's carbon footprint by at least 20%.

FINANCIAL SUMMARY

We delivered a strong set of results for the six months to 31 December 2008, with 6% increase in revenue, 26% growth in adjusted operating profit, 2.4 percentage point increase in adjusted operating margin to 14.9%, and 34% growth in adjusted basic earnings per share.

Reported operating profit increased by 31% to £385 million generating basic earnings of 9.5 pence per share. We are today proposing an interim dividend of 7.5 pence per share, an increase of 5% on the prior year, which is supported by healthy free cashflow and a strong financial position. Net debt fell by £331 million year on year to £1.6 billion and our liquidity position is strong.

Group revenue includes £166 million related to Sky Broadband and Sky Talk and £98 million related to Easynet. Operating profit of £385 million included exceptional items of £3 million and losses attributable to Sky Broadband and Talk of £72 million, an improvement of £19 million on the comparable period, and a £14 million loss from Easynet.

Revenue

Total Group revenue increased by 6% year on year to £2,601 million, with strong customer growth and increased paid-for product penetration helping to offset lower advertising and installation, service and hardware revenue.

Retail subscription revenue increased by 7% on the comparable period to £1,987 million (2008: £1,853 million). This reflected a 5% increase in the average number of DTH customers and 5% growth in ARPU, partially offset by flat commercial revenues.

Installation, hardware and service (IHS) revenues decreased by 4% to £142 million (2008: £148 million), with higher volumes partially compensating for lower hardware prices.

Wholesale subscription revenue increased by £5 million to £93 million (2008: £88 million) benefiting from the return of our basic channels to the Virgin Media cable platform in November 2008.

Advertising revenue was 1% lower year on year at £165 million (2008: £167 million). This represents a good outperformance of the overall TV advertising sector, which we estimate declined by 10% in the six months to 31 December 2008. Our performance was largely due to phasing in the prior year comparative.

Sky Bet revenue fell by £1 million to £23 million (2008: £24 million) with growth in the online business helping to offset declines in TV betting.

Other revenue increased by £13 million to £191 million (2008: £178 million), with a good performance from Easynet reflecting continued growth in new business and recent contract wins.

Costs and Operating Profit

We continue to make good progress on costs with total costs (excluding exceptional items) as a percentage of revenue falling by 2.4 percentage points year on year.

Programming costs were £15 million lower at £843 million (2008: £858 million) and benefited primarily from phasing, with a higher proportion of entertainment costs than usual expected to fall in the second half of this financial year as a consequence of the 2008 US writers' strike. Sports costs increased by 1% to £472 million (2008: £466 million) with the inclusion of the biennial Ryder Cup and other new agreements spanning boxing, rugby, tennis and motor sport, partially offset by lower football costs. Movies costs decreased year on year to £135 million (2008: £143 million) due to an overall reduction in the volume of titles delivered and savings achieved in recent contract renewals. There was minimal impact from foreign exchange, with our hedging policies delivering stable US dollar rates year on year. Third party channel costs increased by 5% to £155 million (2008: £148 million) largely reflecting our expanded channel line up and the new carriage agreement with Virgin Media.

Subscriber management and supply chain costs fell by £43 million year on year to £336 million. The majority of this saving was achieved through efficiencies in our costs to serve customers, with lower resource levels combined with higher productivity helping to maintain grade of service, despite a growing subscriber base and strong product sales. In addition we also benefited from supply chain savings, with an overall reduction in the cost of set-top boxes achieved through our acquisition of Amstrad (in September 2007).

Marketing costs increased by £39 million year on year to £444 million, with the higher cost of strong demand for premium products (Sky+ and Sky+ HD) partially offset by lower above the line spend. Our decision to push harder with Sky+ and Sky+HD led to higher SAC of £290. Excluding this impact SAC was up only marginally year on year. Above the line marketing costs fell slightly year on year, with our product-focused approach to marketing in the first half, improved integration through all routes to market and deflation in the cost of media.

Transmission, technology and networks costs increased by £85 million to £339 million. Over half of this increase was attributable to our directly variable network costs associated with the additional 756,000 new broadband customers and 585,000 new telephony customers year on year. The remaining increase was driven by a combination of growth in Easynet network costs and higher transponder costs as a result of more than doubling the number of high definition channels on our platform year on year, and some foreign exchange impact.

Administration costs (excluding exceptional costs) were £4 million lower than the prior year at £251 million (2008: £255 million). We have made good progress on reducing our central costs by making a total of around 300 permanent roles redundant, targeting cost categories such as consultancy and travel and being vigilant on other overhead costs. This performance is in line with our goal of holding the rate of growth in administration costs substantially below that of revenue growth.

Exceptional items

In accordance with IAS 39 "Financial Instruments: Recognition and Measurement" ("IAS 39"), following a review of the carrying value of the Group's investment in ITV plc at the end of the period, we have recognised an impairment loss of £59 million. This was determined with reference to ITV's equity share price of 39 pence at 24 December 2008 (the last trading day of the Group's reporting period) compared with 47.5 pence on 27 June 2008 and 44.0 pence at 26 September 2008.

The Group reported an exceptional charge of £3 million within administration expenses (2008: £12 million) relating to costs from the Group's claim against EDS, which provided services to the Group as part of the Group's investment in CRM systems software and infrastructure. The case was heard between October 2007 and July 2008 and judgment is expected in the first quarter of calendar 2009.

Earnings

After the Group's share of operating results from joint ventures of £10 million (2008: £8 million) a net interest charge of £60 million (2008: £63 million) and an impairment charge of £59 million (2008: £343 million), the Group reported a profit before tax in the period of £276 million (2008: loss of £36 million).

The tax charge for the period is £110 million (2008: £76 million). The UK Government, in the 2008 Finance Act, abolished Industrial Buildings Allowances which the Group had previously been entitled to claim in respect of its investments in

UK based studio and technical facilities. As a result of this action, the tax charge for the period includes the write-off of a deferred tax balance of £6 million. The full year adjusted effective tax rate is expected to be around 31%.

Adjusted profit for the period was £226 million (2008: £170 million), generating an adjusted basic earnings per share of 13.0 pence (2008: 9.7 pence). Including all exceptional items, profit after tax for the period was £166 million (2008: loss of £112 million), generating basic earnings per share of 9.5 pence (2008: basic loss per share of 6.4 pence).

The issued share capital at the start and end of the period was 1,753 million shares of 50 pence. Over the entire period the weighted average number of shares excluding those held by the Employee Share Ownership Plan for the settlement of employee share awards was 1,740 million.

Financial position and Balance Sheet

We are in a strong financial position with low leverage, sufficient cash to comfortably cover all 2009 debt maturities and access to further liquidity via our undrawn bank facility if required.

Net debt at 31 December 2008 was £1,642 million, a reduction of £331 million on the prior year. As a result, net debt to annualised EBITDA

¹

fell to its lowest point for more than two years of 1.6 times.

During calendar 2009 a total of £847 million of bonds fall due for repayment by the Company. This amount is after accounting for approximately £32 million of bonds repurchased in the period and is comfortably exceeded by cash, cash equivalents and short-term deposits of £1.3 billion as at 31 December 2008.

Beyond 2009 the Group will have no further bond maturities until 2015, an estimated pre-tax average cost of debt of approximately 6.6%

²

and an average bond maturity of 12 years.

Our low gearing, combined with good liquidity and stable cash flows means that we expect to maintain our "BBB" credit rating, which has now been stable since 2005. The Group has never operated a defined benefit pension scheme and therefore has no exposure to any pension deficit.

Cash flow

Operating profit for the period, including exceptional costs, was £385 million generating EBITDA of £522 million (2008: £415 million). Cash generated from operations of £588 million (2008: £429 million), included a working capital inflow of £43 million (2008: outflow of £3 million). Free cash flow more than doubled to £276 million (2008: £135 million) and included net interest payments of £71 million (2008: £64 million) and tax payments of £56 million (2008: £80 million). Capital expenditure of £194 million (2008: £153 million) included £53 million relating to continued development of our new broadcast media centre and the purchase of the freehold of one of our offices in Osterley, Middlesex. On an underlying basis capital expenditure declined slightly on the comparable period.

Dividend

The Directors are declaring an interim dividend of 7.5 pence per Ordinary Share, an increase of 5% on the comparable period, which is supported by healthy free cash flow and a strong financial position.

The ex-dividend date will be 25 March 2009 and the dividend will be paid on 21 April 2009 to shareholders of record on 27 March 2009.

¹ EBITDA for the period of £522 million annualised

² Based on LIBOR rates as at 28 January 2009

Corporate

Following the Competition Appeal Tribunal's (CAT's) rejection of Sky's application for judicial review of the decisions of the Competition Commission and Secretary of State (SoS) requiring Sky to reduce its stake in ITV to below 7.5%, Sky has applied to the Court of Appeal for leave to appeal the CAT's judgment.

On 2 January 2009 the Department for Business,
Enterprise

and Regulatory Reform (BERR) opened a public consultation on draft undertakings implementing the divestment remedy required by the SoS' decision of 29 January 2008, the form of which the Group had previously agreed with BERR. BERR has confirmed that the SoS will not require the Group to enter into the undertakings (or comply with an order imposing the divestment remedy) until the final outcome of the application for permission to appeal the CAT's judgment is known.

Use of measures not defined under IFRS

This press release contains certain information on the Group's financial position, results and cash flows that have been derived from measures calculated in accordance with IFRS. This information should not be read in isolation of the related IFRS measures.

Forward-looking statements

This document contains certain forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 with respect to the Group's financial condition, results of operations and business, and management's strategy, plans and objectives for the Group. These statements include, without limitation, those that express forecasts, expectations and projections with respect to the potential for growth of free-to-air and pay-TV, fixed line telephony, broadband and bandwidth requirements, advertising growth, DTH subscriber growth, Multiroom, Sky + Sky+HD and other services penetration, churn, DTH and other revenue, profitability and margin growth, cash flow generation, programming and other costs, subscriber acquisition costs and marketing expenditure, capital expenditure programmes and proposals for returning capital to shareholders

These statements (and all other forward-looking statements contained in this document) are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond the Group's control, are difficult to predict and could cause actual results to differ materially from those expressed or implied or forecast in the forward-looking statements. These factors include, but are not limited to, the fact that the Group operates in a highly competitive environment, the effects of laws and government regulation upon the Group's activities, its reliance on technology, which is subject to risk, change and development, failure of key suppliers, its ability to continue to obtain exclusive rights to movies, sports events and other programming content, risks inherent in the implementation of large-scale capital expenditure projects, the Group's ability to continue to communicate and market its services effectively, and the risks associated with the Group's operation of digital television transmission in the U.K. and Ireland.

Information on some risks and uncertainties are described in the "Risk Factors" section of Sky's Annual Report for the year ended 30 June 2008. Copies of the Annual Report are available on request from British Sky Broadcasting Group plc,

Grant Way

,
Isleworth

TW7 5QD

or from the British Sky Broadcasting web page at
www.sky.com/corporate

. All forward-looking statements in this document are based on information known to the Group on the date hereof. The Group undertakes no obligation publicly to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Appendix 1 - Glossary

Useful definitions	Description
Adjusted earnings per share (EPS)	Adjusted profit for the period divided by the weighted average number of ordinary shares during the year.
Adjusted operating profit and margin	Operating profit before taking account of exceptional items. Adjusted operating margin is stated as a percentage of Group sales
Adjusted profit for the period	Profit for the period adjusted to remove mark-to-market movements in derivative financial instruments that do not qualify for hedge accounting, exceptional items and related tax effects
ARPU	Average Revenue Per User: the amount spent by the Group's residential subscribers in the quarter, divided by the average number of residential subscribers in the quarter, annualised.
Churn	The number of DTH customers over a given period that terminate their subscription in its entirety, net of former customers who reinstated their subscription in that period (where such reinstatement is within a 12 month period of the termination of their original subscription), expressed as a percentage of total average subscribers.
Customer	A subscriber to a DTH service.
DTH	Direct-to-home: the transmission of satellite services with a reception through a mini-dish.
EBITDA	Earnings before joint ventures, interest, taxation, depreciation and amortisation is calculated as operating profit before depreciation and amortisation or impairment of goodwill and intangible assets.
Free cash flow	The amount of cash generated by Sky after meeting obligations for interest and tax, after all capital expenditure and net cash flows relating to joint ventures and associates
Gross margin	Revenue less programming expenses as a proportion of revenue.
Gross profit	Revenue less programming expense.
HD	High Definition.
Multiroom	Installation of one or more additional set-top-boxes in the household of an existing DTH customer.
Net debt	Cash, cash-equivalents, short-term deposits, borrowings and borrowings related derivative financial instruments.
On-net	Customers subscribing to our unbundled broadband product.
Product	Any service chosen by a Sky customer. These include DTH, Sky + , Multiroom, Sky+ HD, Sky Broadband and Sky Talk.
Sky Broadband and Talk	

Residential Sky Broadband and Sky Talk customers. UK Online customers excluded from quoted subscriber figures.

Sale	A sale is a gross addition of any product.
Sky	Sky's fully-integrated Personal Video Recorder (PVR) and satellite decoder.
+	
Viewing share	Number of people viewing a channel as a percentage of total viewing audience.

Notes to the condensed consolidated interim financial statements

1 Basis of preparation

The financial information set out in this press release does not constitute statutory financial statements for the half years ended 31 December 2008 or 2007, for the purpose of the Companies Act 2006, and is unaudited. Statutory financial statements for the year ended 30 June 2008 have been filed with the Registrar of Companies. The financial information below for the year ended 30 June 2008 is derived from our audited financial statements. The Group's auditors have reported on those accounts; their reports were unqualified and did not contain statements under s. 237(2) or (3) Companies Act 1985.

Whilst the financial information included in this press release has been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and as adopted by the European Union ("EU"), this announcement does not itself contain sufficient information to comply with IFRS.

Subscriber management and supply chain	336	379	700
Administration	254	267	530
	2,216	2,163	4,228

Included within administration for the half year ended 31 December 2008 is £3 million (2008: half year £12 million; 2008: full year £21 million) of expense relating to legal costs incurred on the Group's ongoing claim against EDS (the information and technology solutions provider (see note 10a)).

In addition, included within administration for the full year ended 30 June 2008 is £7 million of expense relating to a restructuring exercise undertaken following a review of operating costs. No further costs have been incurred in the

half year ended 31 December 2008.

4

Profit on disposal of joint venture

The Group made no disposals in the period ended 31 December 2008 and no profit or loss on disposal was realised. In the period ended 31 December 2007, the Group sold its 100% stake in BSKyB Nature Limited. This realised a profit on disposal of £67 million.

5

Impairment of available-for-sale investment

The Group's investment in ITV is carried at fair value. The fair value of ITV is determined with reference to its equity share price at the balance sheet date. An impairment was first recorded following a review of the carrying value of the investment in ITV at 31 December 2007, due to the significant and prolonged decline in the equity share price. In accordance with IFRS, the Group has continued to review that carrying value throughout fiscal 2008 and fiscal 2009 and during the period has recognised an impairment loss of £59 million (2008: half year £343 million; full year £616 million).

The impairment loss was determined with reference to ITV's closing equity share price of 39 pence at 24 December 2008, the last trading day of the Group's fiscal half year.

In accordance with IAS 39, the effect of any further decline in the value of the equity share price of ITV will be recognised in the income statement at the relevant future balance sheet date. On 26th January 2009, the closing equity share price of ITV was 30 pence.

6

Earnings per share

	2008/09	2007/08	
	Half	Half	2007/08
	year	year	Full year
	Millions	Millions	Millions
	of shares	of shares	of shares
The weighted average number of shares for the period was			
Ordinary shares	1,753	1,753	1,753
ESOP trust ordinary shares	(13)	(5)	(5)

Basic shares	1,740	1,748	1,748
Dilutive ordinary shares from share options	6	-	-
Diluted shares	1,746	1,748	1,748

The calculation of diluted earnings (loss) per share excludes 23 million share options (2008: half year 33 million; full year 32 million), which could potentially dilute earnings per share in the future.

Basic and diluted earnings (loss) per share is calculated by dividing loss or profit for the period into the weighted average number of shares for the period. In order to provide a measure of underlying performance, management have chosen to present an adjusted profit for the period which excludes items that may distort comparability. Such items arise from events or transactions that fall within the ordinary activities of the Group but which management believes should be separately identified to help explain underlying performance.

The calculation of diluted adjusted earnings per share includes 6 million dilutive ordinary shares from share options (2008: half year 8 million; full year 9 million) and excludes 23 million share options (2008: half year 15 million; full year 15 million), which could potentially dilute adjusted earnings per share in the future.

10**Other matters****a)****Contingent assets**

The Group has served a claim for a material amount against EDS (an information and technology solutions provider) which provided services to the Group as part of the Group's investment in customer management systems software and infrastructure. The amount which may be recovered by the Group will not be finally determined until resolution of the claim.

b)**Contingent liabilities**

On 7 May 2008 the Nomenclature Committee of the European Commission issued an Explanatory Note "EN" (0590/2007) to the Combined Nomenclature setting out their view that set-top boxes with a hard drive should be classified under Customs Tariff heading 8521 90 00 and so subject to a 13.9% ad valorem duty on importation to the European Union. As a consequence the Group is exposed to potential retrospective Customs Duty liability in respect of such set-top boxes imported by Amstrad Plc (acquired in September 2007) and for the reimbursement of certain suppliers in line with the terms of contractual supply agreements.

Management's opinion is that the retrospective application of the Explanatory Note would be wrong as a matter of law. In addition management considers that the adoption of the EN puts the EU in breach of the Information Technology Agreement of 1996, a view which is shared by the

US

and

Japan

who

have instigated WTO proceedings against the EU on this matter. The Group therefore is, in common with other affected importers, defending its position on this matter and consequently has lodged an appeal to the VAT & Duties Tribunal regarding classification of these products.

As a result of the potential remedies available under the Community Customs Code, the Group considers that in the event that an assessment is made for import duty relating to imports prior to 7 May 2008, it is probable that no outflow of economic benefit would be required to discharge this obligation, and that as such at 31 December 2008 any liability should be considered contingent.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
