<b>Exhibit No.</b>	<b>Description</b>
99.1	Press release dated November 20, 2003

**Item 12. Results of Operations and Financial Condition**

On November 20, 2003, Agile Software Corporation (the Company) issued a press release regarding the Company's financial results for its fiscal quarter ended October 31, 2003. The full text of the Company's press release is attached hereto as Exhibit 99.1.

The Company provides in the press release certain non-GAAP financial measures, including non-GAAP net loss and non-GAAP net loss per share. These non-GAAP financial measures exclude from the directly comparable GAAP measures, where applicable: stock and acquisition-related compensation expense; amortization of intangible assets; acquired in-process technology; restructuring and other charges; and impairment of equity investments. As required by Regulation G, the press release contains a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures. The Company believes the non-GAAP measures are useful to investors because they provide an alternative method for measuring the operating performance of the Company's business, excluding certain non-cash and non-recurring items that would normally be included in the most directly comparable GAAP financial measure. The Company's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating the Company's operating performance. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as reported by the Company may not be comparable to similarly titled items reported by other companies.

**SIGNATURES**
