Item 1.01 Entry into a Material Definitive Agreement.

On December 7, 2004, Roper Industries, Inc. (the Company) entered into an agreement (the Purchase Agreement) with Merrill Lynch & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated (Merrill Lynch), J.P. Morgan Securities Inc., Wachovia Capital Markets, LLC, Robert W. Baird & Co. Incorporated, Friedman, Billings, Ramsey & Co., Inc., KeyBanc Capital Markets, A Division of McDonald Investments Inc. and other underwriters (collectively, the Underwriters) whereby the Company agreed to sell and the Underwriters agreed to purchase from the Company, subject to and upon the terms and conditions set forth in the Purchase Agreement, 5,000,000 shares of the Company's common stock, plus up to an additional 750,000 shares of the Company's common stock issuable upon the exercise of an option granted by the Company to the underwriters to cover overallocments. The Purchase Agreement contains customary representations, warranties and agreements of the Company and customary conditions to closing, indemnification rights and obligations of the parties and termination provisions. On December 13, 2004, the Company completed the sale of shares provided for in the Purchase Agreement, through the issuance and sale of 5,000,000 shares of common stock to the Underwriters for gross proceeds of approximately \$300.5 million (the Offering).

A copy of the Purchase Agreement is attached hereto as Exhibit 1.1 and is incorporated by reference. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the Purchase Agreement.

On December 13, 2004, the Company entered into an amended and restated senior credit facility with JPMorgan Chase Bank, N.A., as administrative agent and certain other lenders (the New Credit Facility). The New Credit Facility consists of (i) a five year \$655.0 million term loan A, which will include a euro term loan sub-facility of \$50.0 million to be made available to one of the Company's foreign subsidiaries, and (ii) a five year \$400.0 million revolving loan, which will include availability of up to \$100.0 million for letters of credit and \$20.0 million for swingline loans and of which \$50.0 million will be available under a multicurrency subfacility in dollars and certain other currencies.

The Company and certain of its foreign subsidiaries are borrowers under the New Credit Facility. The facility is guaranteed by all the Company's present and future domestic subsidiaries (other than domestic subsidiaries that remain subsidiaries of the Company's foreign subsidiaries) and is secured by a first priority lien on substantially all of the Company's assets and the assets of the Company's direct and indirect domestic subsidiaries including, without limitation, all of the Company's and their respective cash, cash equivalents, accounts receivable, contract rights (including under partnership agreements, management agreements, operating agreements, affiliation agreements and similar agreements), inventory, intellectual property, trade names, equipment and proceeds, but excluding real property interests, and by a pledge of substantially all of the capital stock or other equity interests certain of the Company's foreign subsidiaries and the Company hold in their respective domestic subsidiaries and at least 65% of the capital stock or other equity interests of certain of the Company's foreign subsidiaries.

Amounts outstanding under the term loan A and the revolving loans will bear interest, at the Company's option, at a rate based on either:

the higher of (1) the federal funds rate plus 0.50% and (2) the publicly announced prime lending rate of JPMorgan Chase Bank from time to time, in either case plus a per annum spread which adjusts six months after closing and ranges from 0.25% to 0.00% depending on the Company's consolidated total leverage ratio; provided, however, that during the first six month period immediately following the closing of such facility the spread will be fixed at 0.25%; or

the eurocurrency rate plus a per annum spread which adjusts six months after closing and ranges from 1.25% to 0.75% depending on the Company's consolidated total leverage ratio; provided, however, that during the first six month period immediately following the closing of such facility the spread will be fixed at 1.25%.

The Company has entered into an arrangement that will fix the interest rate on \$100.0 million of borrowings under the term loans at 4.108% through the first quarter of 2006. Outstanding letters of credit issued under the facility will be charged a quarterly fee (based on a per annum

spread which adjusts six months after closing and ranges from 1.25% to 0.75% depending on the Company's consolidated total leverage ratio; provided, however, that during the first six month period immediately following the closing of such facility the spread will be fixed at 1.25%) in addition to a fronting fee of 0.125% per annum on the outstanding amount of all such letters of credit.

Additionally, the Company will pay a quarterly commitment fee on the unused portion of the revolving loans of 0.375% per annum for a period of six months following the closing of the facility. Subsequently, the commitment fee will be based on a spread ranging from 0.375% to 0.20% depending on the Company's consolidated total leverage ratio. The Company's foreign subsidiary borrower shall also pay to each lender under the new facility that provides a euro term loan a quarterly fronting fee equal to 0.125% per annum on the dollar equivalent of such euro term loan made by such lender.

Subject to customary exceptions and limitations, the facility will require the Company to prepay its term loan and, in certain cases, reduce its commitments under the revolving loan, with the net cash proceeds of certain asset sales by the Company or any of its subsidiaries, from the issuance or incurrence of certain debt, from equity issuances, from certain casualty and condemnation events, and, up to 75% of the Company's excess cash flows, unless it meets a consolidated total leverage ratio test.

The Company is to make principal payments on the U.S. term loan in 20 consecutive quarterly installments each in an amount equal to:

\$8,187,500, for each quarter ending on or prior to the second anniversary of the closing date;

\$16,375,000, for each quarter ending after the second anniversary of the closing date and on or prior to the third anniversary of the closing date;

\$24,562,500, for each quarter ending after the third anniversary of the closing date and on or prior to the fourth anniversary of the closing date; and

\$106,437,500, for each quarter ending after the fourth anniversary of the closing date and prior to the fifth anniversary of the closing date, with the remaining principal balance of the U.S. term loan due on the fifth anniversary of the closing date.

The euro term loan will mature in a single installment due on the fifth anniversary of the closing date.

The New Credit Facility contains various affirmative and negative covenants which will, among other things, limit the Company's ability to incur new debt, prepay subordinated debt, make certain investments and acquisitions, sell assets and grant liens, make restricted payments (including the payment of dividends on our common stock) and capital expenditures. The covenants include:

We will also be subject to financial covenants, which will require the Company to limit its consolidated total leverage ratio and consolidated senior leverage ratio and to maintain a consolidated interest coverage ratio as follows:

*Consolidated Total Leverage Ratio.* The Company may not permit the consolidated total leverage ratio as at the last day of any period of its four consecutive fiscal quarters ending with any fiscal quarter set forth below to exceed the ratio set forth below opposite such fiscal quarter:
