These forward-looking statements are subject to certain risks and uncertainties. Actual results and trends may differ materially from historical or expected results depending on a variety of factors, including but not limited to fluctuations in cost and availability of raw materials; ability of the Company to achieve and sustain targeted cost reductions; foreign

that the most
significant risk factors
that could affect its
ability to achieve its

degree to which higher
raw material costs can
be passed on to
customers through
selling price increases
(and previously
implemented selling
price increases can be
sustained), without a
significant loss of
volume; (3) the impact
of economic conditions
on underlying demand
for the Company's
