HARMONY DISPOSES OF ITS REMAINING INTEREST IN GOLD FIELDS LIMITED (the disposal)

Harmony (NYSE: HMY; JSE: HAR) today announced that it had disposed of its remaining 26,5 million Gold Fields Limited (Gold Fields) shares at an average price of R93.228 per share. The process was concluded through market disposals which commenced on 10 November 2005 and an open market offering on 15 and 16 November 2005.

The disposal of our remaining shares in Gold Fields has significantly strengthened our balance sheet. In addition, with Harmony's re-structuring process being concluded during the previous quarter, the company is well-positioned to fully exploit the current higher gold price in Rand/kg terms. This bodes well for Harmony which, through the development of our range of growth projects in South Africa and Papua New Guinea, will be transformed from a high cost marginal producer to producing high margin quality ounces, commented Harmony CEO, Bernard Swanepoel.

The proceeds of the disposal will be utilised to continue to invest in Harmony's pipeline of long life high-quality new mines and expansion projects, to retire short-term liability and as working capital within the Harmony operations.

The table below shows the pro forma per share effects of the sale of the Gold Fields shares on Harmony for the financial year ended 30 June 2005. The pro forma financial effects have been prepared for illustrative purposes only and, because of their nature, may not fairly present Harmony's financial position, changes in equity, results of operation or cash flows at and for the financial year ended 30 June 2005, or the effect on future earnings. The financial effects are determined in accordance with the Listings Requirements of the JSE Limited.
