(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F x Form 40-F "

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): "

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): "

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes " No "

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):82-

#### **Contents**

## Exhibit 1:

On April 12, 2006, Acura unveiled an unprecedented trio of new vehicles at the New York International Auto Show, including the show stopping world debut of the MD-X Concept SUV. In addition, a production version of the all-new RDX performance luxury SUV made its debut, providing an advance preview of Acura s all-new light truck lineup. Finally, an Acura powered-race car was unveiled along with the announcement that it would campaign in the 2007 American Le Mans Series (ALMS).

## Exhibit 2:

On April 13, 2006, American Honda Motor Co., Inc. announced that the completely redesigned 2006 Honda Civic Hybrid, the most economical and environmentally responsible gasoline-powered Civic ever, won the World Car of the Year Award for greenest car. A jury of 46 international automotive journalists selected the 2006 Civic Hybrid, which achieves an EPA estimated city/highway fuel economy of 49/51 miles per gallon, as the winner of the 2006 World Green Car.

## Exhibit 3:

On April 19, 2006, Honda Motor Co., Ltd. announced that it has acquired its outstanding company shares of 7,336,871,000 yen at aggregate amount for 961,000 shares during the period from April 3, 2006 to April 14, 2006 pursuant to the provisions of Article 211-3, Paragraph 1, Item 2 of the Commercial Code.

## Exhibit 4:

On April 24, 2006 Honda Motor Co., Ltd. announced a summary of automobile production, domestic sales, and export results for the fiscal year ended March 31, 2006, (Fiscal Year 2006) as well as for the month of March. Honda set new all-time fiscal year records for production in North America, Europe, Asia, and China, resulting in the 9<sup>th</sup> consecutive all-time record for overseas and worldwide production. (Ref. #C06-033)

## Exhibit 5:

On April 26, 2006, Honda Motor Co., Ltd. announced its consolidated financial results for the fiscal fourth quarter and the fiscal year ended March 31, 2006.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

HONDA GIKEN KOGYO KABUSHIKI KAISHA (HONDA MOTOR CO., LTD.)

#### Acura Unveils Trio of Vehicles at the New York International Auto Show

#### All-New Acura Light Truck Lineup Takes Center Stage

NEW YORK, U.S.A., April 12, 2006 Acura unveiled an unprecedented trio of new vehicles at the New York International Auto Show, including the show stopping world debut of the MD-X Concept SUV. In addition, a production version of the all-new RDX performance luxury SUV made its debut, providing an advance preview of Acura s all-new light truck lineup. Finally, an Acura powered-race car was unveiled along with the announcement that it would campaign in the 2007 American Le Mans Series (ALMS).

#### Acura MD-X Concept and Turbocharged Acura RDX Debut

All three vehicles represent Acura s passion for providing the best in automotive performance and technology, said John Mendel, senior vice president, Auto Operations. From the sporty RDX, to the exciting MD-X Concept, to the world-class Acura ALMS race car, Acura is moving ahead of the competition and into the fast lane.

Acura s all-new light truck lineup took center stage with the unveiling of the MD-X Concept and RDX entry premium SUV. With bold styling, the MD-X Concept provides a glimpse of the all-new MDX luxury performance SUV, which will go on sale this fall. The Concept s aggressive design exudes performance and reflects the SUV s track-tuned development.

The all-new RDX, which features Acura s first turbocharged engine and the breakthrough Super Handling All-Wheel Drive(TM) (SH-AWD(TM)), also made its debut. Hitting dealerships this summer, the RDX boasts the exceptional handling of a sports sedan with the utility of a SUV.

Finally, Acura unveiled an Acura-powered race car the company plans to campaign in the 2007 American Le Mans Series. The ALMS draws on the heritage of long-distance endurance sports car racing in both Europe and the United States, as exemplified by the historic 24 Hours of Le Mans. The 10-race domestic series includes the 12 Hours of Sebring - a U.S. fixture since 1952 - plus events at the country s premier road circuits, including Road America, Mid-Ohio Sports Car Course, Laguna Seca, Lime Rock Park and Road Atlanta.

ALMS competition features multi-class racing of high-tech sports car prototypes and production-based Grand Touring machinery, with both factory teams and relentless privateers battling for victory. State-of-the-art technology and engineering, ranging from electronics to aerodynamics to fuel efficiency, are key to success in the ALMS. Manufacturers currently fielding teams include Audi, Porsche, BMW, Ferrari, Lexus, Aston Martin, and Chevrolet.

#### 2006 Honda Civic Hybrid Wins World Car of the Year Award for Greenest Car

NEW YORK, U.S.A., April 13, 2006 The completely redesigned 2006 Honda Civic Hybrid, the most economical and environmentally responsible gasoline-powered Civic ever, has won the World Car of the Year Award for greenest car, American Honda Motor Co., Inc., announced. A jury of 46 international automotive journalists selected the 2006 Civic Hybrid, which achieves an EPA estimated city/highway fuel economy of 49/51 miles per gallon, as the winner of the 2006 World Green Car.

#### 2006 Honda Civic Hybrid Named World Green Car

Honda continues to be a leader in producing environmentally responsible vehicles that set the standard for fuel economy and low emissions, said John Mendel, Senior Vice President, American Honda Motor Co., Inc. The award-winning 2006 Civic Hybrid is the latest embodiment of Honda s long-term commitment to the development of environmentally friendly technologies that are also fun to drive.

Characterized by advanced new styling, Honda s all-new Civic Hybrid also offers the latest in safety technology, as well an array of standard features, such as multiple audio entertainment choices, that increase content and value.

Equipped with a continuously variable transmission (CVT) as standard equipment for 2006, the Civic Hybrid can now deactivate all four of its cylinders and operate using only the electric motor in certain steady-state cruising situations. Compared to the 2006 Civic Sedan with an automatic transmission, the Civic Hybrid provides a city fuel economy increase of approximately 63 percent and a highway fuel economy increase of 27 percent.

Standard features on all 2006 Civic Hybrids include:

Advanced Compatibility Engineering(TM) (ACE(TM)) Body Structure

1.3-liter i-VTEC 4-cylinder engine with 20 horsepower electric motor (combined 110-horsepower @ 6000 rpm and 123 lb-ft. torque @1000-2500 rpm)

New lighter, more powerful and efficient Integrated Motor Assist (IMA) system with greatly enhanced energy regeneration capability and electric-only operation

Continuously Variable Transmission (CVT) as standard equipment

49/51 mpg city/highway\*

AT-PZEV emission technology in all 50 states

Exclusive interior styling includes IMA instrument panel meters, two-tone seating surfaces and new blue interior option Honda first introduced U.S. consumers to hybrid technology with the Insight in December 1999. It launched its second hybrid vehicle, the Civic Hybrid, in March 2002, followed by the first-ever V6-powered hybrid, the Accord Hybrid, in December 2004.

April 19, 2006

#### Notice Regarding the Results of Purchase of Company Shares

Tokyo, April 19, 2006 Honda Motor Co., Ltd. today announced that it has acquired its outstanding company shares pursuant to the provisions of Article 211-3, Paragraph 1, Item 2 of the Commercial Code as follows.

As a result of this acquisition, all the acquisition of the company shares that was authorized under the resolution adopted at the meeting of the Board of Directors held on January 31, 2006 have been completed.

(1) Type of shares acquired

Common stock of Honda Motor Co., Ltd.

(2) Period of acquisition

From April 3 to April 14, 2006

(3) Aggregate number of shares acquired

961,000 shares

- (4) Aggregate amount of acquisition
- 7,336,871,000 yen
- (5) Method of acquisition

Purchase on the Tokyo Stock Exchange

Reference:

Resolution at the meeting of the Board of Directors held on January 31, 2006.

(1) Type of shares to be acquired

Common stock of Honda Motor Co., Ltd.

- (2) Maximum number of shares to be acquired
- 5,800,000 shares
- (3) Maximum amount of acquisition
- 32 billion yen
- (4) Period of acquisition

From February 6, 2006 to April 14, 2006

Aggregate number and amount of company shares acquired as of April 14, 2006, since the date of the resolution at the meeting of the Board of Directors (January 31, 2006).

- (1) Aggregate number of shares acquired
- 4,507,800 shares
- (2) Aggregate amount of acquisition

31,999,535,000 yen

### Honda Sets 9th Straight All-Time Fiscal Year Record for Worldwide Production

April 24, 2006 Honda Motor Co., Ltd. today announced a summary of automobile production, domestic sales, and export results for the fiscal year ended March 31, 2006, (Fiscal Year 2006) as well as for the month of March. Honda set new all-time fiscal year records for production in North America, Europe, Asia, and China, resulting in the 9<sup>th</sup> consecutive all-time record for overseas and worldwide production.

#### <Production>

#### Fiscal Year 2006 (fiscal year ended March 31, 2006)

Total domestic production for Fiscal Year 2006 decreased 2.1% compared to the previous fiscal year, due largely to a decrease in production of domestic models. This is the first time in two years, since fiscal year 2004, that domestic production declined compared to the previous fiscal year.

Overseas production for Fiscal Year 2006 increased 10.7% compared to the previous fiscal year, due mainly to production increases in North America and Asia. This is the ninth consecutive year, since Fiscal Year 1998, that overseas production exceeded the total from the previous year.

Worldwide production for Fiscal Year 2006 increased 5.7% compared to the previous fiscal year, due to an increase in overseas production. This is the ninth consecutive year, since Fiscal Year 1998, that overseas production exceeded the total from the previous year.

Honda set all-time fiscal year records for overseas and worldwide production, as well as production in North America, the U.S., Europe, Asia, and China.

#### March 2006

Domestic production for the month of March declined 4.1% compared to the same month a year ago due to a decrease in production of domestic models. It is the fourth consecutive month, since December 2005, that domestic production declined compared to the same month a year ago.

Overseas production in March increased 11.0%, due largely to production increases in North America and Asia. It is the eighth consecutive month, since August 2005, for an increase over the same month a year ago.

Worldwide production in March increased 5.0% due to increased overseas production. It is the eighth consecutive month, since August 2005, for an increase over the same month a year ago.

Overseas and worldwide production as well as production in North America, the U.S., Asia and China achieved a new all-time monthly record for sales in any month.

#### <Japan Domestic Sales>

#### Fiscal Year 2006 (fiscal year ended March 31, 2006)

Total domestic auto sales for Fiscal Year 2006 declined 1.0% compared to the previous fiscal year. It is the fourth consecutive year, since Fiscal Year 2003, for total domestic sales to decline compared to the previous year.

Despite a drop in sales for models such as Fit and Odyssey due to stabilizing demand, overall new vehicle registrations (passenger car and light truck sales, not including mini vehicles) for Fiscal Year 2006 increased 0.5% compared to the previous fiscal year, due to increased sales of the all-new Airwave and StepWGN, which were introduced earlier in the year. It is the second consecutive year, since Fiscal Year 2005, for new vehicle registrations to exceed the total from previous year.

Sales of mini vehicles for Fiscal Year 2006 declined 3.9% compared to the previous year due to stabilizing demand for the Life and That s models. It is the fifth consecutive year, since Fiscal Year 2002, that total mini vehicle sales declined compared to the previous year.

#### March 2006

Total domestic auto sales of 99,001 units for the month of March represents a 6.8% increase compared to the same month a year ago, due to increased sales in both the mini vehicle category and new vehicle registrations (passenger car and light truck sales). This is the first time in five months, since October 2005, that domestic auto sales exceeded the total from the same month a year ago.

New vehicle registrations (passenger car and light truck sales, not including mini vehicles) for the month of March increased 6.1% compared to the same month a year ago due mainly to increased sales of models such as StepWGN and Airwave. This is the first time in four months, since November 2005, that new vehicle registration exceeded the total from the same month a year ago. Sales of mini vehicles also increased 7.9% in March compared to the same month a year ago due to increased sales of the Zest. This is the first time in five months, since October 2005, that mini vehicle sales exceeded the total from the same month a year ago.

The Life was Honda's best selling vehicle in March on sales of 15,959 units, to rank as the industry's fourth best selling mini vehicle. Fit and StepWGN ranked as Honda's second and third best selling vehicles for the month. Fit had sales of 15,541 units, the third best selling car among new vehicle registrations (not including mini vehicles), while StepWGN had sales of 13,075 units, the fifth best selling car among new vehicle registrations in the industry. The Zest was Honda's fourth best selling vehicle for the month of March on sales of 8,684 units, to rank as the 10<sup>th</sup> best selling mini vehicle in the industry.

#### <Exports>

## Fiscal Year 2006 (fiscal year ended March 31, 2006)

Total exports for Fiscal Year 2006 of 538,844 units, were up 1.5% compared to the previous year, due mainly to strong sales in North America of the Civic and the Acura TSX (known as Accord in Japan). It is the second consecutive year, since Fiscal Year 2005, for exports to increase slightly from the total from the previous year.

#### March 2006

Auto exports for the month of March totaled 52,790 units, a 22.3% increase compared to the same month a year ago, due mainly to increased export of models such as Fit and CR-V to North America. This is the first time in two months, since January 2006, that exports exceeded the total from the same month a year ago.

## HONDA MOTOR CO., LTD. REPORTS

## CONSOLIDATED FINANCIAL RESULTS

#### FOR THE FISCAL FOURTH QUARTER AND

#### THE FISCAL YEAR ENDED MARCH 31, 2006

Tokyo, April 26, 2006 Honda Motor Co., Ltd. today announced its consolidated financial results for the fiscal fourth quarter and the fiscal year ended March 31, 2006.

#### **Fourth Quarter Results**

Honda s consolidated net income for the fiscal fourth quarter ended March 31, 2006 totaled JPY 219.5 billion (USD 1,869 million), an increase of 133.4% from the same period in 2005. Basic net income per Common Share for the quarter amounted to JPY 239.78 (USD 2.04), compared to JPY 101.43 for the same period in 2005. Two of Honda s American Depository Shares represent one Common Share.

Consolidated net sales and other operating revenue (herein referred to as revenue ) for the quarter amounted to JPY 2,833.7 billion (USD 24,123 million), an increase of 20.6% over the same period in 2005. Revenue was positively affected by currency translations, which were translations of foreign-currency-denominated revenue from Honda s overseas subsidiaries into Japanese yen. Honda estimates that if the exchange rate of yen had remained unchanged from the same period in 2005, revenue for the quarter would have increased by approximately 10.5%.

Consolidated operating income for the fiscal fourth quarter totaled JPY 340.8 billion (USD 2,901 million), an increase of 142.8% compared to the same period in 2005. This increase in operating income was primarily due to the positive impact of currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue and gain on return of the substitutional portion of the Employees Pension Funds to the Japanese government (herein referred to as return), which offset the negative impact of increased selling, general and administrative (SG&A) expenses and research and development (R&D) expenses.

- 1 -

Consolidated income before income taxes for the quarter totaled JPY 334.8 billion (USD 2,850 million), an increase of 159.3% from the same period in 2005.

Equity in income of affiliates, which is mainly attributable to Asian affiliates accounted for under the equity method, amounted to JPY 22.7 billion (USD 194 million) for the quarter, an increase of 16.3% from the same period in 2005.

The gain on return of JPY 138.0 billion (USD 1,175 million) which was recorded in the fiscal fourth quarter ended March 31, 2006, was included in the result of consolidated operating income and consolidated income before income taxes. Accordingly, the result of amount of the relevant income after tax that was recorded by the return was included in the consolidated net income for the fiscal fourth quarter ended March 31, 2006.

#### **Business Segment**

With respect to Honda s sales in the fiscal fourth quarter by business category, motorcycle unit sales totaled 2,413 thousand units, a decrease of 11.2% from the same period in 2005. Motorcycle unit sales in Japan was 93 thousand units, approximately the same level as the corresponding period in 2005. Overseas unit sales was 2,320 thousand units, a decrease of 11.6% from the same period in 2005, due mainly to a decrease in unit sales of parts for local production at affiliates accounted for under the equity method in Asia\*. Revenue from sales to unaffiliated customers increased 20.2%, to JPY 391.4 billion (USD 3,332 million), due mainly to positive currency translation effects and the positive impact of the change in model mix, offsetting the negative impact of decreased unit sales. Operating income increased by 124.5% to JPY 60.5 billion (USD 516 million), due mainly to the positive currency effects caused by the depreciation of the Japanese yen, increased profits attributable to higher revenue, an decrease in unrealized profit in inventories and gain on return, offsetting negative impact of the increased SG&A expenses.

\*Of the net sales of Honda-brand motorcycle products that are manufactured and sold by overseas affiliates accounted for under the equity method, those with respect to which parts for manufacturing were not supplied from Honda or such subsidiaries are not included in net sales and other operating revenue, in conformity with U.S. generally accepted accounting principles. Accordingly, these unit sales are not included in the financial results and forecasts. Such products amounted 1,070 thousand units for the fiscal fourth quarter.

- 2 -

Honda s unit sales of automobiles was 901 thousand units, increased by 4.9% from the same period in 2005. In Japan, unit sales of automobiles decreased 2.6% to 190 thousand units. Overseas unit sales increased 7.1% to 711 thousand units, due mainly to continued strong sales in North America. Revenue from sales to unaffiliated customers increased 20.3% to JPY 2,250.1 billion (USD 19,155 million) during the quarter, due to the positive currency translation impact and increased unit sales, mainly in North America. Operating income increased 168.3% to JPY 243.0 billion (USD 2,069 million), due mainly to the positive impact of currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue, change in sales price in North America and gain on return , which offset the negative impact of the increased SG&A expenses such as increase in logistic costs caused by higher oil prices and increased R&D expenses.

Revenue from sales to unaffiliated customers in financial services business increased 28.1% to JPY 82.8 billion (USD 705 million), due mainly to positive currency translation effects and the increased revenue due to the growth of the automobile business in North America. Operating income increased 32.3% to JPY 23.9 billion (USD 204 million), due mainly to the positive impact of the currency effects caused by the depreciation of the Japanese yen, higher revenue due to an increased finance-subsidiaries receivable from growth of business and the decreased SG&A due to the reversal of the allowance for losses on lease residual values that was attributable to the increase in used-car prices, which offset negative impact of increased funding costs.

Unit sales of power products in Japan totaled 138 thousand units, an increase of 17.9% and overseas unit sales was 1,981 thousand units, increased by 18.8%. Total unit sales of power products was 2,119 thousand units, up by 18.8% from the same period in 2005. Increased unit sales of general-purpose engines in North America and Europe, and general-purpose engines and cogeneration units in Japan, were the major contributing factors to this increase. Revenue from sales to unaffiliated customers in power products and other businesses increased by 22.6% to JPY 109.3 billion (USD 930 million), due mainly to an increase in unit sales of power products. Operating income was JPY 13.2 billion (USD 112 million), an increase of 183.2% from the same period in 2005, due mainly to the positive impact of the currency effects caused by the depreciation of the Japanese yen, an increased profit attributable to higher revenue and gain on return , which offset increased SG&A expenses.

- 3 -

### Geographical Segment

With respect to Honda s sales for the fiscal fourth quarter by geographical segment, in Japan, revenue for exports and domestic sales was JPY 1,179.6 billion (USD 10,042 million), up by 7.9% compared to the same period in 2005, due primarily to increased unit sales for exports in the automobile business. Operating income in Japan was JPY 184.8 billion (USD 1,573 million), up by 265.1%, due primarily to the positive impact of the currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue and gain on return of JPY 138.0 billion (USD 1,175 million), which offset the negative impact of the increase in SG&A expenses, such as an increase in logistic costs caused by higher oil prices and R&D expenses.

In North America, revenue increased by 26.6% from the same period in 2005 to JPY 1,625.3 billion (USD 13,836 million), due mainly to the positive currency translation effects and increased unit sales in all of Honda s business segments, particularly the motorcycle, automobile, financial services and power product businesses. Operating income increased by 43.8% to JPY 105.8 billion (USD 901 million) from the same period in 2005, due primarily to the positive impact of the currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue and change in sales price in North America, which offset the negative impact of the increased sales incentives and the negative impact of increased funding.

In Europe, revenue for the quarter increased by 24.2% to JPY 353.5 billion (USD 3,010 million) compared to the same period of the previous year, due primarily to the positive currency translation effects and increased unit sales in all of Honda s business segments. Operating income in Europe decreased by 15.3% to JPY 9.8 billion (USD 84 million), due mainly to the negative impact of the increase in SG&A expenses, offsetting the positive impact of increased profit attributable to higher revenue.

In Asia, revenue increased by 19.3% to JPY 285.8 billion (USD 2,433 million) from the same period of the previous year, due primarily to the positive currency translation effects and increased unit sales in all of Honda s business segments. Operating income increased by 82.3% to JPY 12.7 billion (USD 109 million) from the same period of the previous year, due mainly to the positive impact of currency effects caused by the depreciation of the Japanese yen and increased profit attributable to higher revenue.

In Asia, in addition to subsidiaries, many affiliates accounted for under the equity method manufacture and sell Honda-brand products. Operating income does not include income from these affiliates. Income from these affiliates is recorded as equity in income of affiliates and reflected in net income.

- 4 -

In other regions, revenue for the fourth quarter increased by 21.6% to JPY 161.3 billion (USD 1,373 million) compared to the same period of the previous year, due mainly to the positive currency translation effects and the increased revenue in motorcycle business, mainly in South America. Operating income increased by 153.8% from the same period of the previous year to JPY 11.6 billion (USD 100 million), due mainly to the positive impact of currency effects caused by the depreciation of the Japanese yen and increased profit attributable to higher revenue, offsetting the negative impact of the increase in SG&A expenses.

- 5 -

## Fiscal Year Results

Honda s consolidated net income for the fiscal year ended March 31, 2006, totaled JPY 597.0 billion (USD 5,082 million), an increase of 22.8% from the same period in 2005. Basic net income per Common Share for the fiscal year amounted to JPY 648.67 (USD 5.52), compared to JPY 520.68 for the same period in 2005. Two of Honda s American Depositary Shares represent one Common Share.

Consolidated revenue for the period amounted to JPY 9,907.9 billion (USD 84,345 million), an increase of 14.5% over the same period in 2005. Revenue was positively affected by currency translations, which were translations of foreign-currency-denominated revenue from Honda s overseas subsidiaries into yen. Honda estimates that if the exchange rate of yen had remained unchanged from that in the same period in 2005, revenue for the fiscal year would have increased by approximately 9.3%.

Consolidated operating income for the fiscal year totaled JPY 868.9 billion (USD 7,397 million), an increase of 37.7% over the same period in 2005. This was primarily due to positive currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue, continuing cost reduction effects and gain on return , which offset the negative impact of increased SG&A and R&D expenses.

Consolidated income before income taxes for the fiscal year totaled JPY 814.6 billion (USD 6,935 million), an increase of 24.0% from the same period in 2005.

Equity in income of affiliates, which is mainly attributable to Asian affiliates accounted for under the equity method for the fiscal year amounted to JPY 99.6 billion (USD 848 million), which was up 3.7%.

The gain on return of JPY 138.0 billion (USD 1,175 million) which was recorded in the fiscal year ended March 31, 2006, was included in the result of consolidated operating income and consolidated income before income taxes. Accordingly, the result of amount of the relevant income after tax that was recorded by the return was included in the consolidated net income for the fiscal year ended March 31, 2006.

- 6 -

#### **Business Segment**

With respect to Honda's sales in the fiscal year by business category, motorcycle unit sales totaled 10,271 thousand units, down 2.0% from the same period in 2005. Motorcycle unit sales in Japan decreased 2.6% to 368 thousand units, and overseas unit sales was 9,903 thousand units, which was down 2.0% from the same period in 2005, mainly due to a decrease in unit sales of parts for local production at affiliates accounted for under the equity method in Asia\*. Revenue from sales to unaffiliated customers increased 11.7%, to JPY 1,225.8 billion (USD 10,435 million), due mainly to the positive impact of the currency translation effects and the change in model mix, offsetting negative impact of decreased by 64.4% to JPY 113.9 billion (USD 970 million), due mainly to the positive impact of currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue, continuing cost reduction effects and gain on return , offsetting the negative impact of the increase in SG&A and R&D expenses.

\*Of the net sales of Honda-brand motorcycle products that are manufactured and sold by overseas affiliates accounted for under the equity method, those with respect to which parts for manufacturing were not supplied from Honda or such subsidiaries are not included in net sales and other operating revenue, in conformity with U.S. generally accepted accounting principles. Accordingly, these unit sales are not included in the financial results and forecasts. Such products amounted 2,600 thousand units for the fiscal year.

Honda s unit sales of automobiles increased by 4.6% from the same period in 2005 to 3,391 thousand units. In Japan, unit sales of automobiles decreased 2.2% to 696 thousand units. Overseas unit sales increased 6.5% to 2,695 thousand units, due mainly to increased unit sales in North America. Revenue from sales to unaffiliated customers increased 14.9%, to JPY 8,004.6 billion (USD 68,142 million) during the period, due to the positive currency translation effects and increased unit sales mainly in North America and Europe. Operating income increased by 38.9% to JPY 628.3 billion (USD 5,349 million), due mainly to the positive impact of currency effects caused by the depreciation of the Japanese yen, an increase in profit attributable to higher revenue, continuing cost reduction effects and gain on return , which offset the negative impact of increase in SG&A and R&D expenses.

Revenue from sales to unaffiliated customers in the financial services business increased 20.0% to JPY 306.8 billion (USD 2,612 million), due to the growth of the automobile business in North America. Operating income increased 0.8% to JPY 90.5 billion (USD 771 million), due primarily to the positive impact of currency effects caused by the depreciation of the Japanese yen, higher revenue due to an increased finance-subsidiaries receivable from growth of business and decreased SG&A expenses which offset increased funding costs.

- 7 -

Unit sales of power products in Japan totaled 487 thousand units, an increase of 12.7%. Overseas unit sales were 5,389 thousand units, an increase of 10.7%, and total unit sales of power products was 5,876 thousand units, up by 10.9% from the same period in 2005. Increased unit sales, mainly in North America and Europe, was major contributing factor to this increase. Revenue from sales to unaffiliated customers in power product and other businesses increased by 11.3% to JPY 370.6 billion (USD 3,155 million), due mainly to increased unit sales. Operating income increased 86.3% to JPY 35.9 billion (USD 306 million), due mainly to positive currency effects caused by the depreciation of the Japanese yen, the increased profit attributable to higher revenue and gain on return , which offset the negative impact of the increase in SG&A expenses.

#### Geographical Segment

With respect to Honda s sales for the year by geographical segment, in Japan, revenue for exports and domestic sales was JPY 4,437.8 billion (USD 37,779 million), up by 7.2% compared to the same period in 2005, due primarily to the increased revenue for exports in the automobile business and increased revenue in the motorcycle, power product and other businesses, which offset the negative impact of decreased unit sales in domestic automobile business. Operating income in Japan was JPY 370.9 billion (USD 3,158 million), up by 100.6%, due primarily to the positive impact of the currency effects caused by the depreciation of the yen, increased profit attributable to higher revenue and continuing cost reduction effects and gain on return of JPY 138.0 billion (USD 1,175 million), which offset the negative impact of the increase in SG&A and R&D expenses.

In North America, revenue increased by 19.4% from the same period of the previous year to JPY 5,616.3 billion (USD 47,811 million), due mainly to positive currency translation impact and the increased revenue in all of Honda s business segments. Operating income in North America increased by 10.2% to JPY 353.9 billion (USD 3,013 million), due primarily to the positive impact of currency effects caused by the depreciation of the Japanese yen and the increased profit attributable to higher revenue, which offset the negative impact of the increase in SG&A expenses.

In Europe, revenue for the period increased by 14.0% to JPY 1,189.5 billion (USD 10,126 million) compared to the same period of the previous year, due mainly to the positive currency translation impact and the increased revenue in all of Honda s business segments. Operating income in Europe decreased by 36.2% to JPY 26.3 billion (USD 224 million), due mainly to the negative impact of the changes in model mix and increased SG&A expenses, offsetting the positive impact of the currency effects caused by the depreciation of the Japanese yen and the increased profit attributable to higher revenue.

- 8 -

In Asia, revenue increased by 15.9% to JPY 997.3 billion (USD 8,491 million) from the same period of the previous year, due mainly to positive currency translation impact and the increased revenue in all of Honda s business segments. Operating income increased by 7.1% to JPY 64.9 billion (USD 553 million) from the same period of the previous year, due mainly to the positive impact of the currency effects caused by the depreciation of the Japanese yen, increased profit attributable to higher revenue and continuing cost reduction, which offset the negative impact of the increase in SG&A expenses. In Asia, in addition to subsidiaries, many affiliates accounted for under the equity method manufacture and sell Honda-brand products. Operating income does not include income from these affiliates. Income from these affiliates is recorded as equity in income of affiliates and reflected in net income.

In other regions, revenue for the year increased by 22.7% to JPY 571.6 billion (USD 4,867 million) compared to the same period of the previous year, due mainly to positive impact of the currency translation effects and the increased revenue in all of Honda s business segments mainly in South America. Operating income increased by 72.2% from the same period of the previous year to JPY 57.1 billion (USD 487 million), due mainly to the positive currency effects caused by the depreciation of the Japanese yen, the increased profit attributable to higher revenue and continuing cost reduction effects, offsetting the negative impact of the increase in SG&A expenses.

- 9 -

## Consolidated Statements of Cash Flows for the Fiscal Year

Cash and cash equivalents on a consolidated basis at the end of the period from April 1, 2005 through March 31, 2006 decreased by JPY 26.2 billion (USD 223 million) from March 31, 2005, to JPY 747.3 billion (USD 6,362 million). The reasons for the increases or decreases for each cash flow activity are as follows.

#### Cash flows from operating activities

Net cash provided by operating activities amounted to JPY 512.5 billion (USD 4,363 million), for the year ended March 31, 2006, due mainly to net income and depreciation, which offset a increase in trade accounts and notes receivable and an increase in inventories. Cash inflows from operating activities decreased by JPY 234.1 billion (USD 1,993 million) compared with the corresponding period of the previous year.

## Cash flows from investing activities

Net cash used in investing activities amounted to JPY 608.6 billion (USD 5,181 million), which was due mainly to the capital expenditures and an increase in and the collection of finance subsidiaries-receivables. Cash outflows from investing activities decreased by JPY 199.2 billion (USD 1,696 million) compared with the corresponding period of the previous year.

## Cash flows from financing activities

Net cash provided by financing activities amounted to JPY 24.0 billion (USD 204 million), which arose due to proceeds from issuance and payment of long-term debt, cash dividends paid and Payment for purchase of treasury stock. Cash inflows from financing activities decreased by JPY 73.4 billion (USD 626 million) compared with the corresponding period of the previous year.

- 10 -

Supplemental information for cash flows

	FY05	FY06
	Year-end	Year-end
Shareholders equity ratio (%)	35.3	39.0

### Forecasts for the Fiscal Year Ending March 31, 2007

As for the global economy, the U.S. and Asian economies are expected to grow steadily, and Japan and Europe are also expected to maintain their moderate economic recovery. However, the global environment in which surrounding Honda s management is working still lacks transparency because of global political and economic uncertainty, fluctuations in oil prices, and currency movements. As a result, we expect to see continued severe situations. Under such circumstances, in regard to the forecasts of the financial results for the fiscal year ending March 31, 2007, Honda projects consolidated results to be as shown below:

## FY2007 Forecasts for Consolidated Results

#### First half ending September 30, 2006

	Yen (billions)	Changes from FY 2006
Net sales and other operating revenue	5,250	+14.1%
Operating income	375	+12.6%
Income before income taxes	365	+16.4%
Net income	275	+12.5%
Fiscal year ending March 31, 2007		

	Yen (billions)	Changes from FY 2006
Net sales and other operating revenue	10,600	+7.0%
Operating income	750	-13.7%
Income before income taxes	735	-9.8%
Net income	550	-7.9%
Basic net income per common share	301.18	

Explanatory notes:

At the board of directors meeting held on April 26, 2006, the Company resolved a matter of stock split.

A 1:2 stock split will be made for shareholders listed or recorded in the final register of shareholders and register of beneficial shareholders as at June 30, 2006. As of July 1, 2006, one share of the Company s common stock will be split into two.

The above estimated basic net income per common share was calculated based on the number of shares issued after stock split. In case of using the number of shares issued as of March 31, 2006, estimated basic net income per common share for the fiscal year ending March 31, 2007 will be JPY 602.36.

- 12 -

#### FY2007 Forecasts for Unconsolidated Results

First half ending September 30, 2006

	Yen (billions)	Changes from FY 2006
Net sales	1,910	+5.9%
Operating profit	82	-32.3%
Income before income taxes	143	-9.0%
Net income	114	-34.3%
Fiscal year ending March 31, 2007		

	Yen (billions)	Changes from FY 2006
Net sales	3,940	+4.9%
Operating profit	160	-33.3%
Income before income taxes	280	-13.0%
Net income	220	-27.1%

These forecasts are based on the assumption that the average exchange rates for the yen to the U.S. dollar and the Euro for the first half of the year ending September 30, 2006 will be JPY 113 and JPY 135 and for the full year ending March 31, 2007, JPY 112 and JPY 132. The exchange rates for the second half of the year ending March 31, 2007 will be JPY 110 and JPY 130, respectively.

- 13 -

#### Dividend per Share of Common Stock for the fiscal year ending March 31, 2007

At the board of directors meeting held on April 26, 2006, the Company resolved a matter of stock split. A 1:2 stock split will be made for shareholders listed or recorded in the final register of shareholders and register of beneficial shareholders as at June 30, 2006. As of July 1, 2006, one share of the Company s common stock will be split into two.

After the stock split, for the year ending March 31, 2007, the Company plans that the interim cash dividend of JPY 30 per share. It also projects that the year-end cash dividend will be JPY 30 per share. As a result, total cash dividends for the year ending March 31, 2007 are expected to be JPY 60 per share. Had the stock split not been carried out, the dividends would have been equal to JPY 60 per share for both interim and year-end dividends, which would have been an increase of JPY 20 per share for the interim dividend, as a result, an increase of JPY 20 per share for the year, to JPY 120.

This announcement contains forward-looking statements as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are based on management s assumptions and beliefs taking into account information currently available to it.

Therefore, please be advised that Honda s actual results could materially differ from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda s principal markets and foreign exchange rates between the Japanese yen and the U.S. dollar, the Euro and other major currencies, as well as other factors detailed from time to time. The various factors for increases and decreases in income have been classified in accordance with a method that Honda considers reasonable.

- 14 -

#### **Risk Factors**

You should carefully consider the risks described below before making an investment decision. If any of the risks described below actually occurs, Honda s business, financial condition or results of operations could be adversely affected. In that event, the trading prices of Honda s common stock and American Depositary Shares could decline, and you may lose all or part of your investment. Additional risks not currently known to Honda or that Honda now deems immaterial may also harm Honda and affect your investment.

#### Relating to Honda s Industry

#### Honda may be adversely affected by market conditions

Honda conducts its operation in Japan and throughout the world, including North America, Europe and Asia.

A continued economic slowdown, recession or sustained loss of consumer confidence in these markets, which may be caused by rising fuel prices or other factors, could trigger a decline in demand for automobiles, motorcycles and power products that may adversely affect Honda s results of operations.

#### Prices for automobiles, motorcycles and power products can be volatile

Prices for automobiles, motorcycles and power products in certain markets may experience sharp changes over short periods of time.

This volatility is caused by many factors, including fierce competition, which is increasing, short-term fluctuations in demand from underlying economic conditions, changes in import regulations, shortages of certain supplies and sales incentives by Honda or other manufacturers or dealers. There can be no assurance that such price volatility will not continue or intensify or that price volatility will not occur in markets that to date have not experienced such volatility. Overcapacity within the industry has increased and will likely continue to increase if the economic downturn continues in Honda s major markets or worldwide, leading, potentially, to further increased price pressure. Price volatility in any or all of Honda s markets could adversely affect Honda s results of operations in a particular period.

#### Risks Relating to Honda s Business Generally

#### Currency and Interest Risks

#### Honda s operations are subject to currency fluctuations

Honda has manufacturing operations throughout the world including Japan and exports products and components to various countries.

Honda purchases materials and sells its products in foreign currencies. Therefore, currency fluctuations may affect Honda s pricing of products sold and materials purchased. Accordingly, currency fluctuations have an effect on Honda s results of operations and, financial condition, as well as Honda s competitiveness, which will over time affect its results.

Since Honda exports many products and components from Japan and generates a substantial portion of its revenues in currencies other than the Yen, Honda s results of operations would be adversely affected by an appreciation of the Yen against other currencies, in particular the U.S. dollar.

- 15 -

#### Honda s hedging of currency and interest rate risk exposes Honda to other risks

Although it is impossible to hedge against all currency or interest risk, Honda uses derivative financial instruments in order to reduce the substantial effects of currency fluctuations and interest rate exposure on our cash flow and financial condition.

These instruments include foreign currency forward contracts, currency swap agreements and currency option contracts, as well as interest rate swap agreements. Honda has entered into, and expects to continue to enter into, such hedging arrangements. As with all hedging instruments, there are risks associated with the use of such instruments.

While limiting to some degree our risk fluctuations in currency exchange and interest rates by utilizing such hedging instruments, Honda potentially forgoes benefits that might result from other fluctuations in currency exchange and interest rates. Honda also is exposed to the risk that its counterparties to hedging contracts will default on their obligations.

Honda manages exposure to counterparty credit risk by limiting the counterparties to major international banks and financial institutions meeting established credit guidelines.

However, any default by such counterparties might have an adverse effect on Honda.

#### Legal and Regulatory Risks

## The automobile, motorcycle and power product industries are subject to extensive environmental and other governmental regulation

Regulations regarding vehicle emission levels, fuel economy, noise, and safety and noxious substances, as well as levels of pollutants from production plants, are extensive within the automobile, motorcycle and power product industries. These regulations are subject to change, and are often made more restrictive. The costs to comply with these regulations can be significant to Honda s operations.

#### Honda is reliant on the protection and preservation of its intellectual property

Honda owns or otherwise has rights in a number of patents and trademarks relating to the products it manufactures, which have been obtained over a period of years. These patents and trademarks have been of value in the growth of Honda s business and may continue to be of value in the future. Honda does not regard any of its businesses as being dependent upon any single patent or related group of patents. However, an inability to protect this intellectual property generally, or the illegal breach of some or a large group of Honda s intellectual property rights, would have an adverse effect on Honda s operations.

- 16 -

## Risks Relating to Honda s Operations

#### Honda s financial services business conducts business under highly competitive conditions in an industry with inherent risks

Honda s financial services business offers customers various financing plans designed to increase the opportunity for sales of its products. However, customers can also obtain financing for the lease or purchase of Honda s products through a variety of other sources that compete with our financing services, including commercial banks and finance and leasing companies. The financial services offered by us also involve risks relating to residual value, credit risk and cost of capital. Competition for customers and/or these risks may affect Honda s results of operations in the future.

#### Honda relies on various suppliers for the provision of certain raw materials and component

Honda purchases raw materials, and certain components and parts, from numerous external suppliers, and relies on some key suppliers for some items and the raw materials it uses in the manufacture of its products. Honda s ability to continue to obtain these supplies in an efficient and cost-effective manner is subject to a number of factors, some of which are not within Honda s control. These factors include the ability of its suppliers to provide a continued source of supply and Honda s ability to compete with other users in obtaining the supplies. Loss of a key supplier in particular may affect our production and increase our costs.

#### Honda conducts its operations in various regions of the world

Honda conducts its businesses worldwide, and in several countries, Honda conducts businesses through joint ventures with local entities, in part due to the legal and other requirements of those countries. These businesses are subject to various regulations, including the legal and other requirements of each country. If these regulations or the business conditions or policies of these local entities change, it may have an adverse affect on Honda s business, financial condition or results of operations.

# Honda may be adversely affected by wars, use of force by foreign countries, terrorism, multinational conflicts, natural disasters, epidemics and labor strikes

Honda conducts its businesses worldwide, and its operations may variously be subject to wars, use of force by foreign countries, terrorism, multinational conflicts, natural disasters, epidemics, labor strikes and other events beyond our control which may delay or disrupt Honda s local operations in the affected regions, including the purchase of raw materials and parts, the manufacture, sales and distribution of products and the provision of services. Delays or disruptions in one region may in turn affect our global operations. If such delay or disruption occurs and continues for a long period of time, Honda s business, financial condition or results of operations may be adversely affected.

Cautionary statement with respect to forward looking statements in this Annual Report

This Annual Report includes forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements included in this Annual Report are based on the current assumptions and beliefs of Honda in light of the information currently available to it, and involve known and unknown risks, uncertainties, and other factors. Such risks, uncertainties and other factors may cause Honda s actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by such forward-looking statements. Such risks, uncertainties and other factors are generally set forth in Item 3.D Risk Factors and include, without limitation:

the political, economic and social conditions in Japan, the United States and elsewhere, including the relevant governments specific policies with respect to economic growth, inflation, taxation, currency conversion, imports and sources of supplies and the availability of credit, particularly to the extent such current or future conditions and policies affect the automobile, motorcycle and power product industries and markets in Japan and the United States, and the demand, sales volume and sales prices for Honda s automobiles, motorcycles and power products;

the effects of competition in the automobile, motorcycle and power product markets on the demand, sales volume and sales prices for Honda s automobiles, motorcycles and power products;

Honda s ability to finance its working capital and capital expenditure requirements, including obtaining any required external debt or other financing; and

the effects of economic stagnation or recession in Honda s principal markets and exchange rate fluctuations on the Honda s results of operations.

Honda undertakes no obligation and has no intention to publicly update any forward-looking statement after the date of this Annual Report. Investors are advised to consult any further disclosures by Honda in its subsequent filings pursuant to the Securities and Exchange Act of 1934.

Explanatory notes:

- 1. Business segment is based on Honda s business organization and the similarity of the principal products included within each segment as well as the relevant markets for such products:
- 2. Principal products of each segment.

Business	Principal products
Motorcycle business	Motorcycles, all-terrain vehicles (ATVs), personal watercrafts and relevant parts
Automobile business	Automobiles and relevant parts
Financial services business	Financial and insurance services
Power product & other businesses	Power products and relevant parts, and others

- 3. Corporate assets, which are accounted for under assets, are included in Eliminations and amounted to JPY 464,504 million for the year ended March 31, 2005 and JPY 354,903 million for the year ended March 31, 2006, which consist primarily of cash and cash equivalents and marketable securities held by parent company.
- 4. Gain on transfer of the substitutional portion of the Employees Pension Funds to the government is stated separately in business segment information, same as consolidated statements of income and retained earnings.

- 30 -

Principal subsidiaries:

American Honda Motor Co., Inc., Honda of America Mfg., Inc., Honda Canada Inc., Honda R&D Co., Ltd., American Honda Finance Corp.

2. Affiliated companies Number of affiliated companies: 115

Principal affiliated companies:

Guangzhou Honda Automobile Co., Ltd., Yachiyo Industry Co., Ltd., P.T. Astra Honda Motor

3. Changes of consolidated subsidiaries and affiliated companies <u>Consolidated subsidiaries:</u>

Newly formed consolidated subsidiaries: 24 (i.e. Dongfeng Honda Auto Parts Co., Ltd)

Reduced through reorganization: 4

Affiliated companies:

Newly formed affiliated companies: 6 (i.e. NIHON PLAST CO., LTD.)

Reduced through reorganization: 9

- 4. The Company prepares its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, since the Company has listed its shares as American Depositary Receipts on the New York Stock Exchange and files reports with the U.S. Securities and Exchange Commission. All segment information, however, is prepared in accordance with the Ministerial Ordinance under the Securities and Exchange Law of Japan.
- 5. The average exchange rates for the fiscal fourth quarter ended March 31, 2006 were ¥116.94=U.S.\$1 and ¥140.70=euro 1. The average exchange rates for the same period last year were ¥104.51=U.S.\$1 and ¥136.94=euro 1. The average exchange rates for the fiscal year ended March 31, 2006 were ¥113.31=U.S.\$1 and ¥137.86=euro1, as compared with ¥107.27=U.S.\$1 and ¥134.07=euro 1 for the same period last year.
- 6. United States dollar amounts have been translated from yen solely for the convenience of the reader at the rate of ¥117.47=U.S.\$1, the mean of the telegraphic transfer selling exchange rate and the telegraphic transfer buying exchange rate prevailing on the Tokyo foreign exchange market on March 31, 2006.

7. The Company s Common Stock-to-ADR exchange rate was changed from two shares of Common Stock to one ADR to one share of Common Stock to two ADRs, effective January 10, 2002.

Also, the Company decided to change of ratio of its ADR to Honda s underlying Shares.

As a result, one American Share which currently represents one-half of one Share will represent one Share and the change of ratio of ADR will be handled by Honda s depositary, JPMorgan Chase Bank, and the first trading date with the new ratio will be Monday, July 3, 2006.

- 8. Minority interests in net assets and income are not significant and, accordingly, are not presented separately in the accompanying consolidated balance sheets and statements of income. The amount of minority interest recognized in earnings, included in Other expenses: Other, for each of the years in the two-year period ended March 31, 2006 were ¥11,559 million and ¥15,287 million, respectively.
- 9. Inventories are stated at the lower of cost, determined principally by the first-in, first-out method, or market.
- 10. Honda classifies its debt and equity securities in one of three categories: available-for-sale, trading, or held-to-maturity. Debt securities that are classified as held-to-maturity securities are reported at amortized cost. Debt and equity securities classified as trading securities are reported at fair value, with unrealized gains and losses included in earnings. Other debt and equity securities are classified as available-for-sale securities and are reported at fair value, with unrealized gains or losses, net of deferred taxes included in accumulated other comprehensive income (loss) in the stockholders equity section of the consolidated balance sheets.
- 11. Honda does not amortize goodwill but instead is tested for impairment at least annually.

- 38 -

- 12. Depreciation of property, plant and equipment is calculated principally by the declining-balance method based on estimated useful lives and salvage values of the respective assets.
- 13. Honda applies hedge accounting for some of fits forward foreign currency exchange contracts between the Company and its subsidiaries.
- 14. The allowance for credit losses for finance-subsidiaries receivables is maintained at an amount management deems adequate to cover estimated losses on finance receivables. The allowance is based on management s evaluation of many factors, including current economic trends, industry experience, inherent risks in the portfolio and the borrower s ability to pay.
- 15. The allowance for losses on lease residual values is maintained at an amount management deems adequate to cover estimated losses on the uninsured portion of the vehicles lease residual values. The allowance is also based on management s evaluation of many factors, including current economic conditions, industry experience and the finance subsidiaries historical experience with residual value losses.
- 16. Provisions for retirement benefits are provided based on the fair value of both projected benefit obligations and plan assets at the end of the fiscal year to cover for employees retirement benefits. If the provisions for retirement benefits are less than the unfunded accumulated benefit obligations, accrued pension cost is adjusted as an additional minimum pension liability that is at least equal to the unfunded accumulated benefit obligation.

Unrecognized net transition obligation has been amortized over approximately 19 years since the fiscal year ended March 31, 1990. Unrecognized prior service cost (benefit) is amortized by using the straight-line method and the estimated average remaining service years of employees.

Unrecognized actuarial loss is amortized if unrecognized net gain or loss exceeds ten percent of the greater of the projected benefit obligation or the market-related value of plan assets by using the straight-line method and the estimated average remaining service years of employees.

17. Our warranty expense accruals are costs for general warranties on product we sell, products recalls and service actions outside the general warranties. Estimated warranty expenses are provided based on historical warranty claim experience with consideration given to the expected level of future warranty costs as well as current information on repair costs.

#### **Additional Information**

 As stipulated in the Japanese Welfare Pension Insurance Law, the Honda Employees Pension Fund (a confederated welfare pension fund, the Fund ), of which the Company and a part of its domestic subsidiaries and affiliates accounted for under the equity method were members, has obtained approval from the Japanese Ministry of Health, Labor and Welfare for exemption from benefits obligations related to past employee services with respect to the substitutional portion of the Fund on July 1, 2005 and completed its transfer on March 9, 2006. Previously on April 1, 2004, the Company received approval of exemption from the obligation for benefits related to future employee services with respect to the Fund.

As a result, the company recognized a gain of \$228,688 million, which is the difference between the settled accumulated benefit obligation and the assets transferred to the government; a gain of \$56,498 million for the derecognition of previous accrued salary progression; and settlement loss of \$147,113 million for the related unrecognized loss. Collectively, the company recognized a net gain of \$138,116 million for the fiscal year ended March 31, 2006.

2. Honda adopted hedge accounting in fiscal year ended March 31, 2006, based on the assessment of the corporate risk management policies and procedures.

- 39 -

#### Notes to Consolidated balance sheets

1. The allowance for doubtful trade accounts and notes receivable, and the allowance for credit losses for finance-subsidiaries receivable are as follows: Yen (millions)

	Mar.31, 2005	Mar. 31, 2006
The allowance for doubtful trade accounts and notes receivables	9,710	10,689
The allowance for credit losses for financial-subsidiaries receivables	30,926	32,950

2. Net book value of property, plant and equipment which were subject to specific mortgages securing indebtedness are as follows; Yen (millions)

	Mar.31, 2005	Mar. 31, 2006
Property, plant and equipment	12,881	22,592
A finance subsidiary pledged as collateral finance subsidiaries-receivables	22,597	8,993

3. Honda has entered into various guarantee and indemnification agreements which are primarily for employee bank/loans to costs for their housing costs are as follows: Yen (millions)

	Mar.31, 2005	Mar. 31,2006
Bank loan of employees for their housing costs	69,574	46,737
f an employee defaults on his/her loan payments. Honda is required to perform its obligation under the	ne guarantee. The und	iscounted maximum

If an employee defaults on his/her loan payments, Honda is required to perform its obligation under the guarantee. The undiscounted maximum amount of Honda s obligation to make future payments in the event of defaults were shown as above. As of March 31, 2006, no amount has been accrued for any possible estimated losses under the guarantee obligations, as it is probable that the employees will be able to make all scheduled payments.

#### Subsequent Event

Aiming at further liquidity of the Company s shares on the stock market and encouraging more investors to hold such shares, the Company discussed and resolved a matter of a stock split, and resolving that a one to two stock split will be made for shareholders listed or recorded in the final register of shareholders and register of beneficial shareholders as at Friday, June 30, 2006, at the board of directors meeting held on April 26, 2006.

(1) Number of additional Shares to be issued in connection with the stock split:

Number of Shares issued before the stock split:	917,414,215 shares
Number of additional Shares to be issued with the stock split:	917,414,215 shares
Number of Shares issued after the stock split:	1,834,828,430 shares

(2) Dividend calculation commencement date: Saturday, April 1, 2006 If the stock split were taken as from the previous fiscal year, ended March 31, 2005, information on per Share is as follows;

Total assets of Honda	1,778.25	2,259.27
Net income of Honda	260.34	324.34

There are no shares that have the potential to dilute these values

-

Also, the Company decided the change of ratio of its American Depositary Receipt (ADR) to Honda s underlying Shares at the board of directors meeting held on April 26, 2006. As a result, one American Share which currently represents one-half of one Share will represent one Share. The effective date of the new ratio will be July 1, 2006(EST), and the first trading date with new ratio will be July 3, 2006(EST).

#### **Additional Information**

1. As stipulated in the Japanese Welfare Pension Insurance Law, the Honda Employees Pension Fund (a confederated welfare pension fund, the Fund ), of which the Company is a member, has obtained an approval from the Japanese Ministry of Health, Labor and Welfare for exemption from benefits obligations related to past employee services with respect to the substitutional portion of the Fund on July 1, 2005, and completed its transfer on March 9, 2006.

Previously on April 1, 2004, the Fund received an approval of exemption from the obligation for benefits related to future employee services with respect to the Fund.

Accordingly, the Honda Employees Pension Fund was newly changed to the Honda Corporate Pension Fund as of July 1, 2005.

Having returned the benefits obligations related to past employee services, the Company assessed pension costs, pension liabilities and related gains or losses based on Implementation guidance on accounting standards for post-employment benefits issued by Japanese Institute of Certified Public Accountant . The Company recognized a JPY 91.5 billion gain on the transfer of the benefit obligation of the substitutional portion of the Fund to the Japanese government as an extraordinary gain in the unconsolidated financial statements for the fiscal year ended March 31, 2006 in accordance with the Japanese accounting standards.

2. Honda adopted hedge accounting in fiscal year ended March 31, 2006, based on the assessment of the corporate risk management policies and procedures.

#### Subsequent Event

Aiming at further liquidity of the Company s shares on the stock market and encouraging more investors to hold such shares, the Company discussed and resolved a matter of a stock split, and resolving that a one to two stock split will be made for shareholders listed or recorded in the final register of shareholders and register of beneficial shareholders as at Friday, June 300, 2006, at the board of directors meeting held on April 26, 2006.

(1) Number of additional Shares to be issued in connection with the stock split:

Number of Shares issued before the stock split:	917,414,215 shares
Number of additional Shares to be issued with the stock split:	917,414,215 shares
Number of Shares issued after the stock split:	1,834,828,430 shares

(2) Dividend calculation commencement date: Saturday, April 1, 2006

If the stock split were taken as from the previous fiscal year, ended March 31, 2005, information on per Share is as follows;

	FY05 (reference)	FY06
Total assets of the Company	838.79	950.00
Net income of the Company	77.37	163.92

Also, the Company decided the change of ratio of its American Depositary Receipt (ADR) to Honda's underlying Shares at the board of directors meeting held on April 26, 2006. As a result, one American Share which currently represents one-half of one Share will represent one Share. The effective date of the new ratio will be July 1, 2006(EST), and the first trading date with new ratio will be July 3, 2006(EST).

- 46 -

#### **Management Policy**

Honda s business activities are based on fundamental corporate philosophies known as Respect for the Individual and The Three Joys. Respect for the Individual defines Honda s relationship with its associates, business partners and society. It is based on sharing a commitment to initiative, equality and mutual trust among people. It is Honda s belief that everyone who comes into contact with Honda s activities will gain a sense of satisfaction through the experience of buying, selling or creating Honda s products and services. This philosophy is expressed as The Three Joys. With these corporate philosophies as the foundation, Honda s business is guided by the following Company Principle:

Maintaining a global viewpoint, we are dedicated to supplying products of the highest quality at a reasonable price for worldwide customer satisfaction. Honda actively works to share a sense of satisfaction with all of its customers as well as its shareholders, and to continue improving its corporate value.

#### **Profit Redistribution Policy**

The Company strives to carry out its operations from a global perspective and increase its corporate value. With respect to redistribution, the Company considers redistribution of profits to its shareholders to be one of the most important management issues, and its basic policy for dividends is to make distributions after taking into account its long-term consolidated earnings performance. The Company will also acquire its own shares at the optimal timing with the aim of improving efficiency in capital structure. The present goal, however, is to increase the shareholders return ratio (i.e. the ratio of the total of the dividend payment and the repurchase of company shares to consolidated net income) to approximately 30%. Retained earnings will be applied toward financing R&D activities that are essential for the future growth of the Company and capital expenditures and investment programs that will expand its operations for the purpose of improving business results and strengthening the Company s financial condition.

Once the new Company Law comes into effect, there will be no limit on the number of times a company can distribute its dividends. The Company is currently looking into reviewing its articles of incorporation, aiming at a more efficient and flexible profit redistribution to our shareholders. The Company will continuously study the possibility of extra dividends in addition to the current interim and year-end dividends, while also considering the timing of the stock split, which will take effect on July 1, 2006, the following date of the record date of June 30, 2006.

The Company will continue to work hard to earn and keep the support of its shareholders.

- 47 -

#### Future Policies for Reduction of the Number of Shares Constituting One Investment Unit

On August 1, 2001, the Company changed the number of shares that constitute one investment unit from 1,000 shares to 100 shares, aiming at further liquidity of the Company s shares on the stock market and encouraging more investors to hold such shares.

Based on the trend of its stock price after that change, the Company discussed and resolved, at its board of directors meeting held on April 26, 2006, a matter of a stock split, resolving that a one to two stock split will be made for shareholders listed or recorded in the final register of shareholders and register of beneficial shareholders as at Friday, June 30, 2006.

#### **Preparing for the Future**

As for the global economy, the U.S. and Asian economies are expected to grow steadily, and Japan and Europe are also expected to maintain their moderate economic recovery. However, the global environment in which Honda s management operates still lacks transparency because of global political and economic uncertainty, fluctuations in oil prices, and currency movements. As a result, we expect to see continued severe situations.

It is under these circumstances that Honda will strengthen its corporate structure quickly and flexibly to meet the requirements of our customers and society and the changes in its business environment. Also, in order to improve the competitiveness of its products, Honda will endeavor to enhance its R&D structure and its production and sales ability. Furthermore, Honda will continue striving to earn even more trust and understanding from society through Company-wide activities. Honda recognizes that further enhancing the following specific areas is essential to its success:

R&D

Production efficiency

Sales efficiency Product quality

Safety technologies

The environment

Continuing to Increase Society s Trust in and Understanding toward Honda

R&D

Along with efforts to develop even more effective safety and environmental technologies, Honda will enhance the creativity in its advanced technology and products, and it will create and swiftly introduce new value-added products that meet specific needs in various markets around the world.

Honda will also continue efforts in the research of future technologies, including the advancement of advanced humanoid robots and compact business jets and their engines.

- 48 -

#### Production Efficiency

Honda will establish efficient and flexible production systems and expand production capacity at its global production bases, with the aim of increasing its capability of supplying high quality products.

#### Sales Efficiency

Honda will continue to make efforts to expand its product lines through the innovative use of IT and to upgrade its sales and service structure, in order to further satisfy our customers.

#### Product Quality

Responding to increasing consumer demand, Honda will upgrade its quality control through enhancing the functions of and coordination among the development, purchasing, production, sales and service departments.

#### Safety Technologies

Honda will develop safety technologies for accident prediction and prevention, technologies to reduce injuries to passengers and pedestrians from car accidents, and technologies for reducing aggressivity, as well as expand its line-up of products incorporating such technologies. Honda intends to enhance its contribution to traffic safety in motorized societies, including Asian countries. Honda also intends to remain active in a variety of traffic safety programs, including advanced driving and motorcycling training schemes provided by local dealerships.

#### The Environment

Honda will step up its efforts to create better clean, fuel-efficient engine technologies and to improve further the recyclability throughout its product lines. Honda will also advance alternative fuel technologies, including fuel cells. In addition, Honda will continue its efforts to minimize environmental impact, as measured by the \*Life Cycle Assessment, in all of its business fields, including production, logistics and sales.

\* Life Cycle Assessment: A comprehensive system for quantifying the impact Honda s products have on the environment at the different stages in their life cycles, from material procurement and energy consumption to waste disposal.

- 49 -

Continuing to Increase Society s Trust in and Understanding toward Honda

In addition to continuing to provide products incorporating Honda s advanced safety and environmental technologies, Honda will continue striving to earn even more trust and understanding from society by, among other things, undertaking activities for corporate governance, compliance, and risk management and contributing to society.

Through these Company-wide activities, we will strive to materialize Honda s visions of value creation, globalization, and commitment to the future, with the aim of sharing the joy with Honda s customers, thus becoming a company that society wants to exist.

\* Gain on the return of the substitutional portion of the Employees Pension Fund to the Japanese government (Daiko-Henjyo)

- Notes : 1. Unit sales are the total of sales of completed products of Honda and its consolidated subsidiaries, and sales of parts for local production at Honda s affiliates accounted for under the equity method.
  - 2. Of the net sales of Honda-brand motorcycle products that are manufactured and sold by overseas affiliates accounted for under the equity method, those with respect to which parts for manufacturing were not supplied from Honda or such subsidiaries are not

included in net sales and other operating revenue, in conformity with U.S. generally accepted accounting principles. Accordingly, these unit sales are not included in the financial results and forecasts.

3. Capital expenditures and Depreciation are the figures of Property, plant and equipment (including company cars) .

This announcement contains forward-looking statements of Honda. Such statements are based on management s assumptions and beliefs taking into account information currently available to it. Therefore, please be advised that Honda s actual results could materially differ from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda s principal markets and foreign exchange rates between the Japanese yen and the U.S. dollar, the Euro and other major currencies, as well as other factors detailed from time to time. The various factors for increases and decreases in income have been classified in accordance with a method that Honda considers reasonable.

Notes

\* Gain on the return of the substitutional portion of the Employees Pension Fund to the Japanese government (Daiko-Henjyo)

1) Honda s transaction rates	: rates to be used mainly for exchanging the Company s foreign currency-denominated trade amount into yen.
Market average rates for the period	: rates to be used for translating the Company s subsidiaries foreign currency-denominated statements of income into yen.
Rates for the period-end	: rates to be used for translating the Company s subsidiaries foreign currency-denominated assets and liabilities into yen.

- 2) Unit sales is the total of sales of completed products of Honda and its consolidated subsidiaries and sales of parts for affiliates of Honda.
- 3) Of the net sales of Honda-brand motorcycle products that are manufactured and sold by overseas affiliates accounted for under the equity method, those with respect to which parts for manufacturing were not supplied from Honda or such subsidiaries are not included in net sales and other operating revenue, in conformity with U.S. generally accepted accounting principles.

Accordingly, these unit sales are not included in the financial results and forecasts.

4) Capital expenditures and Depreciation are the figures of property, plant and equipment (including company cars) .

This announcement contains forward-looking statements of Honda. Such statements are based on management s assumptions and beliefs taking into account information currently available to it. Therefore, please be advised that Honda s actual results could materially differ from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda s principal markets and foreign exchange rates between the Japanese yen and the U.S. dollar, the Euro and other major currencies, as well as other factors detailed from time to time. The various factors for increases and decreases in income have been classified in accordance with a a method that Honda considers reasonable.
