General

This Proxy Statement is being furnished to holders of common stock, par value \$0.001 per share (the **Common Stock**), of Monolithic Power Systems, Inc., a Delaware corporation (the **Company**), in connection with the solicitation of proxies by the Company's Board of Directors for use at the Annual Meeting of Stockholders (the **Annual Meeting**) to be held on Thursday, May 24, 2007 at 10:00 a.m., Pacific Daylight Time, and at any adjournment or postponement thereof for the purpose of considering and acting upon the matters set forth herein. The Annual Meeting will be held at the Company's corporate headquarters, located at 6409 Guadalupe Mines Road, San Jose, CA 95120. The telephone number at that location is (408) 826-0600.

This Proxy Statement, the accompanying form of proxy card and the Company's Annual Report to Stockholders are first being mailed on or about April 27, 2007 to all stockholders of record at the close of business on March 30, 2007 (the **Record Date**).

Record Date; Outstanding Shares

Only stockholders of record at the close of business on the Record Date are entitled to notice of and to vote at the Annual Meeting and any adjournment thereof. Such stockholders are entitled to cast one vote for each share of Common Stock held as of the Record Date on all matters properly submitted for the vote of stockholders at the Annual Meeting. On the Record Date, 31,330,801 shares of the Company's Common Stock were issued and outstanding. No shares of the Company's Preferred Stock were issued and outstanding. For information regarding security ownership by management and by the beneficial owners of more than 5% of the Common Stock, see the section of this Proxy Statement entitled **Share Ownership by Principal Stockholders and Management**.

Procedure for Submitting Stockholder Proposals

Requirements for stockholder proposals to be considered for inclusion in the Company's proxy materials. Proposals of stockholders of the Company which are to be presented by such stockholders at the Company's 2008 annual meeting of stockholders must meet the stockholder proposal requirements contained in Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the **1934 Act**) and must be received by the Company no later than December 26, 2007 in order that they may be included in the Proxy Statement and form of proxy relating to that meeting. Such stockholder proposals should be submitted to the Company's principal executive office located at 6409 Guadalupe Mines Road, San Jose, CA 95120, Attention: Corporate Secretary.

Requirements for stockholder proposals to be brought before an annual meeting. If a stockholder wishes to present a proposal at the Company's 2008 annual meeting, and the proposal is not intended to be included in the Company's proxy statement relating to that meeting, the stockholder must give advance notice to the Company prior to the deadline for such meeting determined in accordance with the Company's Bylaws (the **Notice Period**). Under the Company's Bylaws, in order to be deemed properly presented, notice of proposed business must be delivered to or mailed and received by the Secretary of the Company at the principal executive offices of the Company not fewer than 90 or more than 120 calendar days before the one year anniversary of the date on which the Company first mailed its proxy statement to stockholders in connection with the previous year's annual meeting of stockholders. As a result, the Notice Period for the Company's 2008 annual meeting will begin on December 26, 2007 and end on January 25, 2008. However, in the event the date of the 2008 annual meeting will be changed by more than 30 days, notice by the stockholder to be timely must be so received not later than the close of business on the later of (1) 90 calendar days in advance of such annual meeting or (2) 10 calendar days following the date on which public announcement of the date of the meeting is first made. A stockholder's notice to the secretary shall set forth as to each matter the stockholder proposes to bring before the annual meeting: (a) a brief description of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting, (b) the name and address, as they appear on the Company's books, of the stockholder proposing such business, (c) the class and number of shares of the Company that are

beneficially owned by the stockholder, (d) any material interest of the stockholder in such business, and (e) any other information that is required to be provided by the stockholder pursuant to Rule 14a-8 of the 1934 Act, in his or her capacity as a proponent to a stockholder proposal. If a stockholder gives notice of such a proposal after the Notice Period, the stockholder will not be permitted to present the proposal to the stockholders for a vote at the meeting.

Voting

Voting prior to the Annual Meeting. Most stockholders have three options for submitting their votes prior to the Annual Meeting: (1) via the Internet, (2) by telephone or (3) by mail. If you have Internet access, the Company encourages you to record your vote on the Internet. It is convenient, and it saves the Company significant postage and processing costs. In addition, when voting via the Internet or by telephone prior to the meeting date, your vote is recorded immediately, and there is no risk that postal delays will cause your vote to arrive late and therefore not be counted. All shares entitled to vote and represented by properly executed proxy cards received prior to the Annual Meeting, and not revoked, will be voted at the Annual Meeting in accordance with the instructions indicated on those proxy cards. If no instructions are indicated on a properly executed proxy card, the shares represented by that proxy card will be voted as recommended by the Board of Directors. If any other matters are properly presented for consideration at the Annual Meeting, including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place (including, without limitation, for the purpose of soliciting additional proxies), the persons named as proxies in the enclosed proxy card and acting thereunder will have discretion to vote on those matters in accordance with their best judgment. The Company does not currently anticipate that any other matters will be raised at the Annual Meeting.

Voting by attending the meeting. A stockholder may also vote his or her shares in person at the Annual Meeting. A stockholder planning to attend the Annual Meeting should bring proof of identification for entrance to the Annual Meeting. If a stockholder attends the Annual Meeting, he or she may also submit his or her vote in person, and any previous votes that were submitted by the stockholder, whether by Internet, telephone or mail, will be superseded by the vote that such stockholder casts at the Annual Meeting.

Changing vote; revocability of proxy. Any proxy given pursuant to the solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (1) filing a written notice of revocation bearing a later date than the proxy with the Secretary of the Company at or before the taking of the vote at the Annual Meeting, (2) duly executing a later dated proxy relating to the same shares and delivering it to the Secretary of the Company at or before the taking of the vote at the Annual Meeting or (3) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy card must be received by the Secretary of the Company prior to the taking of the vote at the Annual Meeting. Such written notice of revocation or subsequent proxy card should be hand delivered to the Secretary of the Company or should be sent so as to be delivered to Monolithic Power Systems, Inc., 6409 Guadalupe Mines Road, San Jose, CA 95120, Attention: Corporate Secretary.

Expenses of Solicitation

The Company will bear all expenses of this solicitation, including the cost of preparing and mailing this solicitation material. The Company may reimburse brokerage firms, custodians, nominees, fiduciaries and other persons representing beneficial owners of Common Stock for their reasonable expenses in forwarding solicitation material to such beneficial owners. Directors, officers and employees of the Company may also solicit proxies in person or by telephone, letter, e-mail, telegram, facsimile or other means of communication. Such directors, officers and employees will not be additionally compensated, but they may be reimbursed for reasonable out-of-pocket expenses in connection with such solicitation. The Company may engage the services of a professional proxy solicitation firm to aid in the solicitation of proxies from certain brokers, bank nominees and other institutional owners. The Company's costs for such services, if retained, will not be significant.

Table of Contents

Quorum; Required Vote; Abstentions; Broker Non-Votes

Holders of a majority of the outstanding shares entitled to vote must be present at the Annual Meeting in order to have the required quorum for the transaction of business. Stockholders are counted as present at the meeting if they (1) are present in person or (2) have properly submitted a proxy card or voted by telephone or by using the Internet. If the shares present at the meeting do not constitute the required quorum, the meeting may be adjourned to a subsequent date for the purpose of obtaining a quorum.

A plurality of the votes duly cast is required for the election of directors.

The affirmative vote of a majority of the votes duly cast is required to ratify the appointment of Deloitte & Touche LLP as the independent registered public accounting firm of the Company.

Under the General Corporation Law of the State of Delaware, an abstaining vote and a broker non-vote are counted as present and entitled to vote and are, therefore, included for purposes of determining whether a quorum is present at the Annual Meeting. An abstaining vote is deemed to be a vote cast and has the same effect as a vote cast against approval of a proposal requiring approval by a majority of the votes cast. However, broker non-votes are not deemed to be votes cast. As a result, broker non-votes are not included in the tabulation of the voting results on the election of directors or issues requiring approval of a majority of the votes cast and, therefore, do not have the effect of votes in opposition in such tabulations. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

The Nominating Committee considers the suitability of each candidate, including any candidates recommended by stockholders holding at least 5% of the outstanding shares of the Company's voting securities continuously for at least 12 months prior to the date of the submission of the recommendation for nomination. If the Nominating Committee wishes to identify new independent director candidates for Board membership, it is authorized to retain, and to approve the fees of, third party executive search firms to help identify prospective director nominees. In evaluating the suitability of each candidate, the Nominating Committee will consider issues of character, judgment, independence, age, expertise, diversity of experience, length of service, other commitments and the like. While there are no specific minimum qualifications for director nominees, the ideal candidate should (a) exhibit independence, integrity, and qualifications that will increase overall Board effectiveness and (b) meet other requirements as may be required by applicable rules, such as financial literacy or expertise for audit committee members. The Nominating Committee uses the same process for evaluating all nominees, regardless of the original source of the nomination. Attendance at Annual Meetings of Stockholders by the Board of Directors

Although we do not have a formal policy regarding attendance by members of the Board at our annual meetings of stockholders, directors are encouraged to attend our annual meetings of stockholders. Three of our directors attended our 2006 Annual Meeting of Stockholders.

Code of Business Conduct

The Company has adopted a Code of Ethics and Business Conduct, which is applicable to our directors and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions. The Code of Ethics and Business Conduct is available in the Investor Relations section of our website at <http://www.monolithicpower.com>. The Company will disclose on its website any amendment to the Code of Ethics and Business Conduct, as well as any waivers of the Code of Ethics and Business Conduct, that are required to be disclosed by the rules of the SEC or NASDAQ.

Director Compensation

Prior to 2006, our directors were primarily employees or affiliated with our venture capital investors, and following common industry practices, did not receive any cash compensation, with the exception of the Audit Committee Chairman. In 2006, with the addition of new independent directors, the Company surveyed cash compensation practices of similar sized companies and reviewed external data from Presidio Pay Advisors. This survey included semiconductor companies, of which we selected those companies with annual revenues between \$150 million to \$300 million. Based on the survey, the executive management recommended a new compensation plan for its directors, which was adopted by the Board of Directors in May 2006 and further revised by the Board in February 2007.

The change to director compensation was made as part of the Company's transition from a private company to a public company in its compensation practices. The new plan provides a common base fee for each independent director, as well as additional fees for service on the various committees and supplemental fees for the role of committee chairman, as is common industry practice.

Each year, on the date of our annual meeting, we grant each non-employee director who has been on the Board for at least six months, an option to purchase 15,000 shares of common stock, which option fully vests on the anniversary of the date of grant and is otherwise governed by the terms of our 2004 Equity Incentive Plan. Additionally, we grant each new non-employee director an option to purchase 30,000 shares of common stock when joining our Board, which option vests over a term of two years and is otherwise governed by the terms of our 2004 Equity Incentive Plan.

In 2006, Mr. Earhart received an annual cash retainer of \$40,000 for his services on the Board and as Chairman of the Audit Committee. In May 2006, the Board of Directors approved an annual retainer of \$15,000 per year for those directors whose equity interest in the Company is less than 1%. Messrs. Padval and Lee, therefore, were entitled to receive such retainer, of which Mr. Padval received \$7,500 and Mr. Lee received \$3,750, for a prorated portion of the year for which their services were rendered. None of our other independent directors received any cash compensation for 2006.

Table of Contents

The following table sets forth the total compensation paid by us to each of our non-employee directors for fiscal 2006. Mr. Hsing and Mr. Moyer, who are our employees, did not receive additional compensation for their services as a director.

- (1) Reflects the dollar amount recognized for financial statement reporting purposes (disregarding an estimate of forfeitures related to service-based vesting conditions) for fiscal 2006, in accordance with FAS 123(R), and thus may include amounts from awards granted in and prior to 2006. As incumbent members of the Board, each of Messrs. Chang, Earhart, Jones and Padval were granted an option to purchase 15,000 shares of common stock at an exercise price of \$12.16 on June 21, 2006, the date of grant. The assumptions used to calculate the value of stock awards are set forth under Note 7 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for fiscal 2006 filed with the SEC on March 16, 2007. Each of the grants had a grant date fair market value of \$92,241. The grant of options to Mr. Jones was cancelled in September 2006 due to his resignation from the Board of Directors. As a new member of the Board of Directors, Mr. Lee was granted an option to purchase 30,000 shares of common stock at an exercise price of \$9.68 on September 14, 2006, the date of grant. The Audit Committee of the Board of Directors has appointed Deloitte & Touche, LLP. (Deloitte & Touche) as the independent registered public accounting firm of the Company for the fiscal year ended December 31, 2007. Deloitte & Touche has audited the Company's financial statements since the Company's 1999 fiscal year. Representatives of Deloitte & Touche are expected to be present at the Annual Meeting with the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions. Notwithstanding its selection, the Audit Committee, in its discretion, may appoint a new independent registered public accounting firm at any time during the year if the Audit Committee believes that such a change would be in the best interest of the Company and its stockholders. If the stockholders do not ratify the appointment of Deloitte & Touche, the Audit Committee may reconsider its selection.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS THE COMPANY'S REGISTERED INDEPENDENT PUBLIC ACCOUNTING FIRM.

Based solely on its review of copies of such forms received by the Company, or on written representations from certain reporting persons that no other reports were required for such persons, the Company believes that, during 2006, all of the Section 16(a) filing requirements applicable to its executive officers, directors and 10% stockholders were complied with, except for a late Form 4 for one (1) transaction for Deming Xiao. The Form 4 was filed upon discovery that it had not been filed on time.

Certain Relationships and Related Transactions

On January 17, 2006, the Company granted to Julia Chu, employee and wife of Deming Xiao, Vice President of Operations, options to purchase 15,000 shares of common stock at an exercise price of \$16.00 that vest 50% two years after the vesting commencement date and 1/48th each month thereafter. EXECUTIVE OFFICER COMPENSATION

Compensation Discussion and Analysis

Overview

The goal of our named executive officer compensation program is the same as our goal for operating the company to create long-term value for our stockholders. Toward this goal, we have designed and implemented our compensation programs for our named executives to reward them for sustained financial and operating performance and leadership excellence, to align their interests with those of our stockholders and to encourage them to remain with the company for long and productive careers. Most of our compensation elements simultaneously fulfill one or more of our performance, alignment and retention objectives. These elements consist of salary, long-term equity and short-term non-equity incentive compensation. In deciding on the type and amount of compensation for each executive, we focus on both current pay and the opportunity for future compensation. We combine the compensation elements for each executive in a manner we believe optimizes the executive's contribution to the company.

Determining Compensation

We determine executive compensation by examining comparative market data, reviewing industry performance and applying judgment after reviewing the performance of the company and the executive during the year against established financial metrics, individual goals, leadership qualities, operational performance, scope of business responsibilities, current compensation arrangements and long-term potential to enhance shareholder value.

We generally do not adhere to rigid formulas or necessarily react to short-term changes in business performance in determining the amount and mix of compensation elements. The Company does not have a specific policy regarding the split between long term compensation and short term payouts, but relies on general semiconductor industry practices as a guideline. We consider competitive market compensation paid by other competitors, including Fairchild Semiconductor, Intersil, Linear Technology, Maxim, Micrel and Semtech, and we generally strive to set the cash compensation at approximately the midpoint of peer group data from external surveys, such as the Radford Semiconductor Compensation Survey for the Silicon Valley area. The Compensation Committee sets the base salaries, performance-based bonuses and equity-based compensation, on average, such that the Company can attract and retain executive management.

When the Company was private, the Company set the base salaries and performance-based bonuses to be well below market levels, while awarding higher equity based awards. Starting in 2005, the Company has been transitioning its executive pay structure from a private company basis to a public company basis. In 2005 and 2006, the Company adjusted the base salaries of its executive team to more closely match competitive levels of similar-sized public semiconductor companies. As of the end of 2006, the Company's short-term non-equity incentives remained below the midpoint of survey data for some executive positions and therefore, the Company increased non-equity incentive targets for certain of our executives in 2007. The specific executive positions that were compensated at less than market were the Chief Executive Officer (CEO), Chief Financial Officer (CFO), Vice President of Sales, Vice President of Operations and Chief Legal Officer. Based on a review of the Company's competitors' compensation information, and having considered the tax and accounting treatment on the various compensation components, the Compensation Committee has determined that the payments and benefits are commensurate with the executive officers of our competitors and are necessary to attract and retain certain of our named executive officers. We incorporate flexibility into our compensation programs and in our assessment process to respond to and adjust for the evolving business environment.

We strive to achieve an appropriate mix between equity incentive awards and cash payments in order to meet our objectives. Any apportionment goal is not applied rigidly and does not control our compensation decisions; we use it as another tool to assess an executive's total pay opportunity and whether we have provided

Table of Contents

the appropriate incentives to accomplish our compensation objectives. Our mix of compensation elements is designed to reward recent results and motivate long-term performance through a combination of cash and equity incentive awards. We also seek to balance compensation elements that are based on financial, operational and strategic metrics with others that are based on the performance of our stock. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our named executives to deliver superior performance and retain them to continue their career with us on a cost-effective basis.

The Role of the Compensation Committee and CEO

The Compensation Committee of our Board has primary responsibility for overseeing the design, development and implementation of the compensation program for the CEO and the other named executives. The Compensation Committee evaluates the performance of the CEO and determines CEO compensation in light of the goals and objectives of the compensation program. The CEO and the Compensation Committee together assess the performance of the other named executives and determine their compensation, based on initial recommendations from the CEO. Our CEO assists the Compensation Committee in reaching compensation decisions with respect to the named executive officers other than himself. The other named executive officers do not play a role in their own compensation determination, other than calculating achievement to discrete financial objectives, discussing individual performance objectives with the CEO and assisting with the compilation of external benchmark data for the Compensation Committee to review.

We did not engage a compensation consultant in developing the amount or form of executive officer compensation. We have, however, compensation data from reliable, well-established industry sources that we used as a benchmark in determining the compensation of our named executive officers as well as our directors.

Bonuses

Generally, we do not provide our named executive officers with discretionary bonus payouts. As a part of Ms. Chiocchi's employment agreement dated October 2, 2006, however, Ms. Chiocchi was given a bonus for the first year, whereby the minimum paid would not be less than 20% of Ms. Chiocchi's base salary, or \$45,000.

Long-term, Equity Incentive Compensation

Long-term equity awards are designed to reward and retain our valued executives, to effectively compete for executives that can strategically position the company for future growth and financial success, and to encourage our executives to focus on achieving both short-term goals as well as long term development goals for the future. In granting options and/or restricted stock and performance units to the executive officers under the Plan, the Compensation Committee bases the size of the awards on such considerations as the value of options and restricted stock awarded to individuals in comparable positions at peer group companies, the Company's and individual's performance against the Company's goals and the goals set for such individual, the number of options currently held by the executive officer and the overall percentage of shares held by executive officers. Restricted stock awards are grants in which the underlying stock is outstanding at grant, subject to repurchase by the Company based on a vesting schedule. Performance units are restricted stock units for which the stock is outstanding upon achievement of a certain performance criteria. Typically, stock option awards are granted to encourage long-term retention and performance, while restricted stock awards are designed to provide a minimum compensation level and minimize stock compensation charges. Restricted stock awards are granted in fewer quantities than stock options due to its inherent value to the employee. Performance units are granted to reward individual outstanding performance, and therefore vesting periods can vary, at the discretion of the Compensation Committee.

In 2006, we granted equity awards to purchase our common stock to our incumbent officers, based on achievement of certain performance based objectives, as follows: (1) 70,000 options to C. Richard Neely, Jr. for his guidance in completing the 2004 and 2005 restatements and strengthening the finance infrastructure to meet

Table of Contents

the needs of a public company going forward; (2) 70,000 options to Deming Xiao for his key leadership role in starting up the Chengdu test facility operations, which has already had a positive impact on our gross margins; and (3) 15,000 restricted stock awards to Maurice Sciammas for his significant role in the success of the Company in 2005, as well as 40,000 options and 25,000 performance units as recognition for his expanded role after his promotion to Vice President of Worldwide Sales and Tactical Marketing. The grants to the majority of our executives were made in October 2006 at the first meeting of the Board of Directors after which the goals of our executives were assessed.

Short-Term, Non-Equity Incentive Compensation

Short-term non-equity based performance awards in 2006 were based on our 2006 Employee Bonus Plan. This plan is designed to align the compensation of executive management to key financial drivers, provide variable pay opportunities and targeted total cash compensation that is competitive within our labor markets, increase the competitiveness of executive pay without increasing fixed costs and ensure that bonus payments are contingent upon each of our executives achieving their individual goals and objectives as well as the overall goals and objectives of the Company. Specifically, the short-term non-equity incentive plan has two major elements, corporate achievements and individual achievements.

The corporate achievement components of the short-term non-equity incentive plan are revenue targets and non-GAAP operating income targets for the relevant measurement period, which is typically six months. For purposes of this metric, non-GAAP operating income is defined as GAAP operating income less stock compensation expense and extraordinary one time charges. The individual achievement components of the bonus plan are specific goals and objectives for each executive, as agreed upon with the CEO. For the CEO, CFO, Vice President of Operations and Vice President of Sales, the total target bonus is split 50% to corporate achievements and 50% to individual goals. The reason for this split is to equally focus the key operational executives between short term results and longer term projects that are typically measured with objectives and goals. The weighting for all other executives is 25% based on corporate achievements and 75% based on the attainment of individual goals. This weighting is different from the first set of executives because the majority of these individuals are engineering or development executives who are focused on creating products and technologies that will not have any revenue or profit impact for several years. The short-term non-equity incentive plan, as implemented by the Compensation Committee, establishes a target bonus for each executive based on the market data described above. The plan has a maximum payout of 125% of target if performance significantly exceeds the financial and discretionary goals and also allows limited flexibility to increase the payout by up to 20% at the discretion of the CEO without Compensation Committee approval. Thus, the maximum payout without additional Board approval under the current structure is 145% of target. However, the total payout to all executives in the plan (which is more than the named executive officers) cannot exceed five percent of non-GAAP operating income. In 2006, the CEO exercised his 20% discretion for the second half of 2006 for all executives to partially compensate for the below market target incentives described above.

On January 19, 2007, the Compensation Committee approved the non-equity incentive plan for 2007 based on meeting certain revenue and non-GAAP financial targets and achieving certain corporate and individual goals. The maximum payout for each of our named executive officers in 2007 is as follows. Achieving the maximum bonus payout would require extraordinary performance to the criteria stated above.

Name	Maximum 2007 Performance Bonus
Michael R. Hsing	\$ 188,500
C. Richard Neely, Jr.	\$ 145,000
Deming Xiao	\$ 145,000
Jim Moyer	\$ 72,500
Maurice Sciammas	\$ 145,000
Adriana Chiocchi	\$ 116,000

Change-in-Control Arrangements

We have change-in-control arrangements with certain of our named executive officers pursuant to employment agreements, which provide for such executives to receive certain payments and benefits upon termination of their employment with the Company. These arrangements are discussed in Potential Payments Upon Termination or Change-in-Control below.

Other Compensation

The Compensation Committee does not provide compensation packages for our executives that include extravagant perquisites nor do we provide our executives with non-qualified deferred compensation plans and defined benefit plans, other than our 401(k) plan for which our Company does not make a matching contribution. The Company also offers a number of other benefits to named executive officers pursuant to benefit programs that provide for broad-based employee participation. These benefit programs include the Employee Stock Purchase Program, broad-based restricted stock unit awards, medical, dental and vision insurance, long-term and short-term disability insurance, life and accidental death and dismemberment insurance and health and dependent care flexible spending accounts.

Equity Incentive Grant Policies

On January 19, 2007, the Board of Directors adopted the Monolithic Power Systems Equity Award Grant Policy which is designed to comply with (i) the administrative provisions of the Company's 2004 Equity Incentive Plan and such other plans as the Company may adopt from time to time (collectively, the Plans), (ii) the requirements of the Delaware General Corporation Law, (iii) the corporate governance requirements of NASDAQ, (iv) applicable rules and regulations of the SEC, including those relating to Section 16 of the 1934 Act, and (v) relevant sections of the Internal Revenue Code, including Sections 422 (incentive stock options), 409A (deferred compensation) and 162(m) (performance based compensation).

Plan and Corporate Authorization

Under the Company's Plans, the authorization to administer the grant of equity incentive awards is conferred upon the Board of Directors or any committee of the Board of Directors as properly constituted under applicable laws.

The Board of Directors has delegated to the Compensation Committee of the Board of Directors the authority to serve as administrator of the Plans (including the authority to grant awards thereunder), and has approved a charter outlining the responsibilities of this committee which also includes this express authority. The delegation of authority to the Compensation Committee is not exclusive; the Board of Directors retains the right to formally approve award grants as well.

In addition, the Board has delegated limited authority for grants of equity awards under the Plans to new employees and consultants only to a committee consisting of the Chief Executive Officer (the Equity Award Committee). Grant documentation approved by the Equity Award Committee through unanimous written consent will also be verified through a second signature.

The delegation of authority to the Equity Award Committee is not exclusive; the Board and Compensation Committee retain the right to formally approve award grants as well.

Equity Grants to New Hires

It is the Company's policy to not time equity award grants in relation to the release of material non-public information, and it is the intent of this policy to specify the timing of effectiveness of equity awards granted hereunder in order to avoid such timing.

Table of Contents

Grants to new hire employees and consultants (other than Executive Officers as defined below) will be made on the first Monday and third Monday of each month. Management submits the Company's employee equity award recommendations to the Equity Award Committee and/or the Compensation Committee and, if such equity awards are approved by the Equity Award Committee or the Compensation Committee, such equity awards will be granted effective as of the date of a meeting approving such awards as evidenced by written minutes of such meeting or the date of the last verification signature or electronic verification over email in the event of a written consent in lieu of the meeting. In the event that the Compensation Committee meets on any date other than the first Monday or third Monday of the Month, the awards approved at such meeting for new hire employees who are not Executive Officers will be granted and priced effective as of the next scheduled grant date.

New hire grants made to Executive Officers (defined as the Chief Executive Officer, Chief Financial Officer, Chief Legal Officer, Chief Operations Officer, President, employees who are members of the Board of Directors and any other employee determined by the Board of Directors to be an Executive Officer) may not be granted by the Equity Award Committee and will only be granted on the date of the next regularly scheduled Board Meeting subsequent to the Executive Officer's start date and following approval of such grant by the Compensation Committee.

Equity Grants to Existing Employees or Incumbent Members of the Board

Generally, annual grants of equity awards shall be made to key performers quarterly at a regularly scheduled Board of Directors Meeting for employees who are not Executive Officers. Grants of equity awards to Executive Officers shall be made two times per year in an open trading window by the Board of Directors or the Compensation Committee at a regularly scheduled meeting following the approval of such equity awards by the Compensation Committee.

Equity awards to non-employee members of the Board of Directors shall be made by the Board of Directors or pursuant to any automatic grant provisions in the Plans.

Prior to the adoption of a formal equity incentive grant policy, we granted equity instruments in a manner similar to the process described above.
