Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires our executive officers, directors and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC and the New York Stock Exchange, or the NYSE. Executive officers, directors and greater-than-10% stockholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely upon a review of the copies of such forms furnished to us in 2006 and upon written representations that no Forms 5 were required, we believe that all persons subject to these reporting requirements filed the required reports on a timely basis.

Code of Ethics for Senior Financial Professionals

Our Code of Ethics for Senior Financial Professionals, or our Code of Ethics, applies to our CEO, chief financial officer, or CFO, Controller and other designated senior financial professionals. The key principles of this Code include acting legally and ethically, promoting honest business conduct and providing timely and meaningful financial disclosures to our stockholders.

The full text of our Code of Ethics is posted in the – Corporate Governance – section of our web site at www.dynegy.com and is attached as an exhibit to the Original Filing. We intend to post amendments to and waivers of our Code of Ethics (to the extent applicable to our principal executive officer, our principal financial officer and our principal accounting officer) to our website.

Audit and Compliance Committee

The Audit and Compliance Committee currently is comprised of Messrs. Trubeck (Chairman), Grijalva, Mazanec and Oelkers. Each member of the Audit and Compliance Committee is independent as defined in the NYSE Listed Company Standards. The Audit and Compliance Committee assists the Board in its oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements and our Code of Business Conduct and Ethics, our independent auditors’ qualifications and independence, the performance of our internal audit function and the independent auditors and the performance of our risk assessment and risk management policies.

The Board has also determined that each member of the Audit and Compliance Committee meets the independence requirements applicable to those committees prescribed by the NYSE and the SEC. The Board has further determined that more than one of the members of the Audit and Compliance Committee, including its current Chairman William L. Trubeck, are – audit committee financial experts – as such term is defined in Item 407(d) of Regulation S-K promulgated by the SEC.

- Directors receive annual phantom stock grants pursuant to the Dynegy Inc. Deferred Compensation Plan for Certain Directors. Upon termination of service as a director the shares become payable, at the director's discretion, in cash or Class A common stock. The values shown under "Stock Awards" reflect the marked to market dollar value of our Class A common stock as of December 31, 2006, calculated in accordance with Statement of Financial Accounting Standards, or FAS, No. 123R, and thus includes amounts from awards granted in and prior to 2006. As of December 31, 2006, each director had the following aggregate number of shares of phantom stock outstanding: Messrs. Biegler and Trubeck and Ms. Hammick 43,370; Mr. Clark 40,394; Mr. Grijalva 6,151; Mr. Mazanec 30,844; and Mr. Oelkers 48,159. The aggregate grant date fair value of all stock awards awarded to each director in 2006 is as follows: Ms. Bynoe and Mr. Bayless \$15,000; Mr. Grijalva \$37,500; Ms. Hammick and Messrs. Biegler, Clark, Mazanec, Oelkers and Trubeck \$60,000; and Messrs. Galt and Stewart did not receive any stock awards in 2006.
- No annual stock option grants or non-equity incentive plan compensation payments were made as compensation for director services in 2006 or are contemplated under our current compensation structure. At the end of the 2006, the following directors had the following aggregate number of options to purchase Class A common stock: Messrs. Galt and Oelkers and Ms. Bynoe 6,000; Messrs. Bayless and Stewart 22,000.
- The amounts shown in "Change in Pension Value and Nonqualified Deferred Compensation Earnings" represent dividends/capital gains or unrealized gains/losses on deferrals of fees and stock awards in the Dynegy Inc. Deferred Compensation Plan for Certain Directors, which includes investments in Class A common stock and various investment funds.
- The amounts shown as "All Other Compensation" for Messrs. Bayless, Clark and Trubeck and Ms. Hammick represent a voluntary cash deferral at each director's election into Class A common stock or various investment funds which are payable upon termination in cash.
- Messrs. Bayless, Galt and Stewart and Ms. Bynoe retired from the Board after the 2006 annual meeting. The compensation information for each of them included in the table is only for the period during which they served as directors in 2006.
- Mr. Bayless and Ms. Bynoe elected to receive lump sum cash payments for their respective shares of phantom stock upon their retirement from the Board in May 2006. As a result of such election, Mr. Bayless received a lump sum of \$264,518 for both his mandatory and voluntary deferrals and Ms. Bynoe received a lump sum of \$214,566 for her mandatory deferral.
- Lead Director.

Non-employee Class A common stock directors receive annual phantom stock grants with an aggregate value of \$60,000, increased to \$70,000 per year effective April 2, 2007, awarded quarterly in arrears based on the closing price of our Class A common stock on the last trading day of the quarter. Upon termination of one's service as a director, the shares of phantom stock become payable, at the director's election, in a lump sum

Edgar Filing: DYNEGY ILLINOIS INC. - Form 10-K/A

payment or in monthly, quarterly or annual installment payments following such termination. The shares of phantom stock are payable in cash or in shares of Class A common stock, at the election of the director.

Table of Contents

In addition to the phantom stock grants, the non-employee Class A common stock directors receive the following compensation, which is payable in cash and may be deferred, in whole or in part, in one or more investment options, including phantom stock units, at a particular director's election:

An annual retainer of \$50,000 per year;

A fee of \$2,000 for each Board meeting attended;

A fee of \$1,000 for each committee meeting attended;

An additional annual retainer of \$40,000 per year for the Lead Director, decreased to \$30,000 per year effective April 2, 2007;

Fees for each committee chairperson per year: Audit and Compliance Committee \$30,000, decreased to \$20,000 per year effective April 2, 2007; Compensation and Human Resources Committee \$15,000, decreased to \$10,000 per year effective April 2, 2007; Corporate Governance and Nominating Committee \$10,000; Risk, Environment and Operations Committee \$10,000 (committee dissolved following the 2006 annual meeting);

An annual retainer of \$5,000 and \$2,500 per year for members of the Audit and Compliance Committee and the Compensation and Human Resources Committee, respectively; and

Reimbursement for reasonable out-of-pocket expenses incurred in connection with travel to and from, and attendance at, meetings of the Board or its committees and related activities, including director education courses and materials.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion should be read together with the compensation tables and disclosures for our Named Executive Officers below under Executive Compensation. The following discussion contains statements regarding future company performance targets and goals. These targets and goals are disclosed in the limited context of our compensation programs and should not be considered as statements of our expectations or estimates of results or other guidance.

Overview

Dynegy's executive compensation program is primarily designed to attract, motivate and retain a highly qualified executive management team capable of efficiently managing and opportunistically growing our power generation business. This program is administered by the Compensation and Human Resources Committee, which utilized Mercer Human Resource Consulting LLC, or Mercer, an independent compensation consultant, to assist it in discharging its responsibilities for the 2006 performance year. In the following discussion and analysis, we describe in detail our executive compensation philosophy and objectives and the 2006 compensation for each individual who served as (i) our CEO during 2006, (ii) our CFO during 2006 and (iii) our three other most highly compensated executive officers at the end of 2006 based on total compensation for 2006, or, collectively, our Named Executive Officers.

Executive Compensation Philosophy

Our executive compensation program reflects a fundamental belief that rewards should be competitive, both in structure and amount, with the broad market in which we compete for executive talent, and commensurate with corporate and individual performance. In 2006, the Compensation and Human Resources Committee utilized Mercer to assist in reviewing and updating, where appropriate, Dynegy's compensation philosophy to ensure alignment with our near-term and long-term business strategy. The resulting Compensation Guiding Principles, which are listed below, serve to formalize and document our compensation philosophy. In addition, these principles provide a foundation on which compensation decisions are made, as well as a common language for communicating those decisions to executives, employees and stockholders.

Our compensation strategy will support Dynegy's core values and business strategy.

Our compensation programs should provide reasonable upside earning potential for exceptional performance, while maintaining competitiveness during down cycles in the market.

Our compensation delivery practices should allow for differential pay levels based on performance.

Our key compensation elements—base pay, short-term incentives and long-term incentives—should complement each other.

Our variable pay programs should be designed as forward-looking incentives with clear line of sight.

Our long-term incentives should encourage share ownership and a strong link to stockholder interests.

Our compensation programs will be designed and administered to encourage sustained growth, and help support the notion that sustained growth is attainable even in a cyclical industry.

Our overall compensation strategy should recognize that attraction and retention of key talent is critical to the attainment of Dynegy's stated goals and objectives and to the creation of stockholder value.

Executive Compensation Program Objectives

Edgar Filing: DYNEGY ILLINOIS INC. - Form 10-K/A

Consistent with the stated purpose and the Compensation Guiding Principles listed above, the structure of our compensation program reflects the following key objectives: (i) Pay for Performance; (ii) Market Competitiveness; and (iii) Long-Term Stockholder Value.

Table of Contents

Pay for Performance. It is our belief that the variable components of compensation should not be viewed as entitlements, but rather should be awarded to executives for delivering results relative to pre-determined goals and objectives and for executing on Dynegy's business strategy to create long-term value for our stockholders. To this end, each year the Board approves a comprehensive set of goals and objectives for the coming year. Dynegy's progress, and the Named Executive Officers' contributions relative to these goals and objectives, is monitored and discussed on a quarterly basis by the Board and the Compensation and Human Resources Committee. At year-end, executive compensation decisions are made based on the degree to which these goals and objectives have been achieved.

The annual goals and objectives are typically segregated into two categories. The first category comprises a set of core financial metrics used by executive management and the Board in assessing Dynegy's annual performance and communicating that performance to the investment community. For 2006, there were three financial metrics included in this first category: EBITDA(1); Operating Cash Flow, or OCF, and Free Cash Flow, or FCF(2). In early 2006, the Board of Directors approved targets for each of these three measures for 2006. At each subsequent regular meeting in 2006, executive management updated the Board and the Compensation and Human Resources Committee on Dynegy's EBITDA, OCF and FCF performance compared to the original targets. Please read *Named Executive Officer Compensation* below for a discussion of 2006 compensation and the specific financial targets on which such compensation was based.

The second category of goals and objectives are operational in nature and are developed annually by each of Dynegy's executive officers for his or her respective areas of functional responsibility. These goals and objectives were also defined at the beginning of 2006 and approved by the Board. The Board and the Compensation and Human Resources Committee were updated as to the executive officers' performance relative to the approved goals and objectives at regular meetings during 2006 and, at year end, their accomplishments were heavily considered when determining their compensation awards. Please read *Named Executive Officer Compensation* below for a discussion of 2006 compensation and the functional goals and objectives underlying the applicable compensation decisions.

In addition to the above-described goals and objectives, executive compensation decisions also consider the behavioral attributes of our executive officers. In particular, Dynegy has adopted a set of core values that reflect the key leadership qualities and behavioral attributes that our executive compensation program is designed to foster and reward. These qualities and attributes include, among others: honesty and integrity; individual responsibility and accountability; engagement and development of Dynegy's employees; and doing the right things with an expectation that the right things will happen. In evaluating Dynegy's CEO from this perspective, the Board conducts an annual performance review of the CEO and evaluates his performance based on interaction with him throughout the year. Similarly, the Compensation and Human Resources Committee, which approves the compensation for Dynegy's non-CEO executive officers, consults with the CEO as to his performance review of Dynegy's other executive officers and their achievements relative to Dynegy's core values.

Note:

- (1) EBITDA can be reconciled to Net income (loss) in our financial statements using the following calculation: Net income (loss) less Income tax benefit (expense), plus Interest expense and Depreciation and amortization expense.
- (2) FCF can be reconciled to OCF, a U.S. generally accepted accounting principles measure, using the following calculation: OCF plus investing cash flow (consisting of asset sale proceeds less business acquisition costs, capital expenditures and changes in restricted cash).

Market Competitiveness. We believe that in order to attract and retain highly qualified executives, our executive compensation program must be competitive, both in structure and amount, with the broad labor market in which we compete for talent. To support our objective of paying market competitive compensation, each year the Compensation and Human Resources Committee conducts a detailed competitive evaluation (including, among other things, a review of proprietary and proxy information) with its independent compensation consultant. For 2006, the Compensation and Human Resources Committee utilized Mercer to compile, review and interpret certain data and information comparing Dynegy's executive compensation with that of companies considered to be peers for compensation and performance purposes. Mercer reported to and acted at the discretion of the Compensation and Human Resources Committee. Our management did not direct or oversee the activities of Mercer with respect to our executive compensation program.

Table of Contents

In an attempt to ensure meaningful comparisons for 2006 executive compensation purposes, the Compensation and Human Resources Committee approved Mercer's recommendation of a two-prong approach to constructing Dynegy's comparative peer group. First, Mercer compiled a general industry peer group comprised of approximately 30 companies derived from a broad group of 3,000 U.S. publicly traded companies that constitute the Russell 3000 index. From the broad group of 3,000 companies, Mercer narrowed its focus to those companies with revenues and quantitative business characteristics (scale, capital structure, profitability and asset and employee intensity) similar to those of Dynegy. The resulting 30 general industry peer group companies selected share similar qualitative characteristics with Dynegy, including an engineering/process focus, a wholesale business model and market performance.

Second, Mercer compiled a power industry peer group comprised of publicly traded, independent power producers and domestic companies that possess unregulated power generation operations. This power industry peer group includes six companies (AES Corp., Allegheny Energy Inc., Edison International, Mirant Corporation, NRG Energy Inc. and Reliant Energy Inc.) that we, the Compensation and Human Resources Committee and Mercer, believe experience industry influences similar to Dynegy and represent appropriate energy comparators for executive compensation purposes. This peer group provides an industry-based context to our executive compensation decisions. However, because of the limited number of power industry peer companies, the Compensation and Human Resources Committee uses this power industry peer group merely as a reference point for consideration. Primarily, the general industry peer group described above is relied upon in determining market competitiveness, as its larger statistical sample size should reflect less variability and volatility in the comparative data.

The Compensation and Human Resources Committee considers comparative data in structuring our compensation program elements and determining the value of each element to be awarded to our executive officers. Based upon this market review, in terms of structure, we provide three types of compensation to our executive officers: base salary, annual short-term incentives and long-term incentives. Proportionally, base salary comprised approximately 13% of the Named Executive Officers' total compensation package for 2006, with annual short-term incentives and long-term incentives comprising approximately 12% and 75%, respectively. This compensation mix is generally consistent with those of our peer group companies and reflects what we believe is a competitive balance between current and long-term compensation and cash and non-cash compensation. It also supports Dynegy's stated strategy of pursuing growth opportunities for the benefit of its stockholders. Please read Elements of Compensation below for a detailed discussion of these compensation types and the specific reasons for using them.

Long-Term Stockholder Value. We continually seek to create a total compensation strategy that includes long-term incentive awards designed to align individual executive performance with the interests of our stockholders. In furtherance of this strategy, our long-term incentive awards are targeted at the 60th percentile of the market, or higher than the market median. Please read Elements of Executive Compensation Long-Term Incentive Awards below for further discussion. Additionally, in early 2006, the Corporate Governance and Nominating Committee adopted stock ownership guidelines for members of the executive management team and other Dynegy officers.

Potential Impact of Restatements. Our Corporate Governance Guidelines provide a mechanism to address any restatements that may impact Dynegy's key financial metrics and its financial performance generally. Pursuant to this mechanism, in the event of a material restatement of Dynegy's financial statements, the Compensation and Human Resources Committee will review all bonuses and other incentive and equity compensation awarded to executive officers that were based on the achievement of specified performance targets during the period for which such financial results are or will be restated. The Compensation and Human Resources will take action, as appropriate, with respect to any such bonuses or other incentive or equity compensation awards to the extent such specified performance targets were not achieved in light of the restatement, which action could include attempts to recoup amounts paid. We believe this mechanism effectively allows for remedial action to be taken if executive compensation is awarded for achievement of financial performance that is later determined not to have been achieved, and further aligns the interests of our executive officers with those of our stockholders.

Table of Contents**Elements of Executive Compensation**

As previously described, our executives are eligible to receive three primary forms of compensation: base salary; annual short-term cash incentive awards; and long-term incentive awards. In determining the appropriate amounts to award our executive officers, we generally target the following percentiles when analyzing the amounts paid by our peer group companies:

Base Salary	50th percentile
Short-Term Incentives	50th percentile
Long-Term Incentives	60th percentile
Total Compensation	50th-60th percentile

Base Salary. Base salaries function as the fixed, recurring portion of the executive's total compensation package that provides a baseline reward in contrast to the potential variability of short-term and long-term incentive opportunities. In determining the level of base salary for each executive, the Compensation and Human Resources Committee considers the Named Executive Officer's job responsibilities, experience and performance. The Compensation and Human Resources Committee annually reviews external benchmark data, provided by its independent compensation consultant, to ensure that base salaries remain competitive. Any adjustments are made based upon the executive's position relative to competitive market data, as well as individual performance measured against pre-established goals and objectives. For base salaries, we believe that the 50th percentile of the market is the appropriate target in that it allows us to offer cash compensation awards at a competitive level of pay. Additional upside, generally up to 20% over the 50th percentile, may be provided to recognize exceptional performance. Similarly, to reflect limited experience, lack of tenure in the position or performance below expectations, base salaries generally up to 20% below the 50th percentile may be appropriate. In our estimation, to target base salaries lower than the 50th percentile of the market would restrict our ability to attract and retain key talent; to target a higher percentile would potentially result in greater compensation than is necessary to attract and retain key talent to the detriment of our stockholders. Please read **Named Executive Officer Compensation** below for further discussion on the Named Executive Officers' base salaries.

Short-Term Incentives. Short-term incentives serve as a variable, at-risk element of the executive's total compensation package that provides an incentive award based on the attainment of performance goals and objectives during the performance year. Short-term incentives are generally paid in the form of cash. Our short-term incentive compensation plan is structured to appropriately align executive interests with both investor interests and Dynegy's annual performance goals and objectives. The annual cash incentive bonus opportunity for each executive officer, typically a percentage of his or her annual base salary, is established at the beginning of the performance year and is targeted at the 50th percentile of the market for our peer companies and commensurate with each executive's job responsibilities. For the 2006 performance year, the short-term incentive target for each Named Executive Officer was 100% of annual base salary. The target amount is determined by multiplying the target award percentage by the executive's total base earnings for the performance period. There is upside potential for an executive's annual short-term incentive bonus to exceed the target level in the event of exceptional performance by Dynegy and/or the individual executive. Similarly, annual cash incentives are not guaranteed for our executives, and company performance or individual performance can result in either no annual incentive bonus or an annual incentive bonus award that is less than the target level. The determination of any award is dependent upon both Dynegy's performance and the individual executive's performance during the performance year. Our annual short-term incentive targets and any approved payments are reviewed annually with the Compensation and Human Resources Committee's independent compensation consultant. Please read **Named Executive Officer Compensation** below for further discussion of the Named Executive Officers' short-term incentive awards for the 2006 performance year.

Long-Term Incentive Awards. Long-term incentive awards serve as the most significant at-risk element of the executive's total compensation package, which focuses on creating meaningful long-term value for investors and the attainment of long-term performance goals and objectives. Long-term incentives, in the form of equity-based awards that generally do not fully vest until three years after the grant date, are structured to achieve a variety of long-term objectives, including: retaining executives; aligning executives' financial interests with the interests of investors; and rewarding the achievement of long-term specified strategic goals and/or superior stock price performance. While we target the 50th percentile of the market for base salaries and short-term incentive awards, we target the 60th percentile of the market for long-term incentive awards. It is our belief that by targeting the 60th

Table of Contents

percentile for long-term incentive awards, we drive greater alignment of the near-term and long-term interests of our executives with those of our stockholders, and further support our stated emphasis on opportunistic growth. While the Compensation and Human Resources Committee believes that the long-term incentive opportunity appropriately motivates our executive officers to implement strategies that further our ongoing efforts to position the company as a major player in the consolidating independent power producer sector, award levels above the 60th percentile may be warranted in certain instances.

The Compensation and Human Resources Committee has traditionally granted long-term incentive awards to Dynegy’s executive officers in the form of stock options and restricted stock. Restricted stock and stock options tie directly to the performance of Dynegy’s common stock and provide the executive an incentive to build long-term value for our investors. Restricted stock and stock options also provide an effective means of executive retention because the awards are focused over the longer term and vest over a period (or at the end) of three years. The market competitiveness of this mix is reviewed annually by the Compensation and Human Resources Committee with its independent compensation consultant. The number of stock options awarded is typically based on the Black Scholes valuation model, while the number of restricted shares awarded is typically based on the fair market value of Dynegy’s common stock as of the date of grant. Long-term awards for executive officers are generally made at the same time that annual cash incentive awards are made.

In the past, Dynegy’s significant self-restructuring activities made precise long-term planning difficult, particularly considering the impact that refinancings and legacy legal matter settlements had on Dynegy’s financial performance. As a result, Dynegy did not believe it prudent to adopt long-term award payouts conditioned on achievement of specified long-term performance or financial objectives. However, due in large part to the success of Dynegy’s self-restructuring efforts, for awards granted in 2006 and again in 2007, a portion of each executive’s long-term incentive award value was made in the form of performance units. Effective January 1, 2006, the Dynegy Inc. 2002 Long Term Incentive Plan and the Dynegy Inc. 2000 Long Term Incentive Plan were amended to include operating cash flow, free cash flow, any other cash flow metric or any other performance metric selected by the Compensation and Human Resources Committee as performance measures for grants of performance awards under the Plans. In 2006 (for the 2005 performance year), performance units comprised 20% of each executive’s long-term incentive award value and reflected the following terms:

Denominated in \$100 units, payable in cash or stock, at the Compensation and Human Resources Committee’s discretion;

Payable at the end of three years based on Dynegy’s cumulative three-year OCF as originally forecasted, subject to earlier vesting and payment upon specified circumstances, including a change in control; and

Payable at the following threshold, target and maximum levels:

Payout per Unit	Performance	Three-Year OCF Target
\$ 0	< 70% of OCF target	
\$ 50	70% of OCF target	\$ 671 million
\$100	100% of OCF target	\$ 959 million
\$200	130% of OCF target or more	\$ 1.247 billion

The remaining portion of each executive’s long-term incentive award value granted in 2006 consisted of 60% stock options with three-year ratable vesting and 20% restricted stock with three-year cliff vesting, with the level of each based on 2005 performance.

In 2007 (for the 2006 performance year), in an attempt to further align Dynegy’s executive officers’ performance with the long-term interests of our stockholders, and in consideration of the accelerated vesting associated with the LS Power Merger further described below, the Compensation and Human Resources Committee approved long-term incentive award grants for our executive officers as follows:

LTI Award	Percentage of LTI	
Element	Award Value	Vesting Schedule
Stock Options	40%	Ratable vesting of 1/3 each year

Edgar Filing: DYNEGY ILLINOIS INC. - Form 10-K/A

Restricted Stock	20%	Cliff vesting on the three-year anniversary of the grant date
Performance Units	40%	Award, if any, determined at the end of the three-year performance period

12

Table of Contents

As awards granted in 2007 were made after the closing of the LS Power Merger, the event has no impact on the vesting of these awards. Further discussion of the long-term incentive awards for the 2006 performance year, including the performance metrics underlying the performance units, can be found under Named Executive Officer Compensation below. It is our belief that the current long-term incentive awards mix of ratable vesting stock options, cliff vesting restricted shares and performance units provides an appropriate balance between executive performance, stockholder interests and the retentive value of equity instruments.

Equity Grant Practices. The Compensation and Human Resources Committee has the authority to administer Dynegy's equity-based compensation plans. In carrying out its duties, the Compensation and Human Resources Committee may from time to time authorize the granting of stock options or other equity-based awards pursuant to the terms and conditions of such plans. As a matter of policy, stock options and other equity-based awards are generally granted by the Compensation and Human Resources Committee in conjunction with the annual compensation cycle. All such award grants are made at a scheduled meeting of the Compensation and Human Resources Committee, and the exercise price of any stock option grant is the closing price of our Class A common stock on the date of said meeting (the grant date). These and the other terms of any stock option or other equity-based award grants are documented in the form of one or more award agreements approved by the Compensation and Human Resources Committee on or before the grant date.

From time to time, the Compensation and Human Resources Committee may determine that it is desirable or appropriate to grant stock options or other equity-based awards to an individual upon employment by or commencement of service with Dynegy. Any such stock option or other equity-based award grants must be approved by the Compensation and Human Resources Committee at a meeting, which meeting may be telephonic. The exercise price of any such stock option grants is the closing price of our Class A common stock on the date of the meeting, which will constitute the grant date.

Executive Perquisites. In reviewing the total compensation packages for our Named Executive Officers with its independent compensation consultant, the Compensation and Human Resources Committee reviews executive perquisites that may be received on an annual basis. Our internal assessment of perquisites provided to Named Executive Officers during 2006 revealed that no material perquisites were awarded. In fact, the perquisites awarded generally were limited to cell phones and personal digital assistants, primarily used for business purposes. While the Compensation and Human Resources Committee will continue to assess the competitiveness of executive perquisites offered, we believe the current limited use of this element of total compensation is appropriate.

Other Compensation and Benefit Plans. Qualified benefit plans comprise additional elements of the total compensation packages for our Named Executive Officers. Each Named Executive Officer is eligible, as are all Dynegy corporate employees, to participate in our 401(k) Plan, which provides for a dollar-for-dollar match of up to 5% of contributed salary payable in the form of Class A common stock (capped at \$15,000 for 2006). The Named Executive Officers are also eligible for qualified pension benefits under the Dynegy Inc. Retirement Plan, or the Retirement Plan. This pension benefit is based on the Portable Retirement Benefit, or PRB, portion of the Retirement Plan and provides a defined benefit that grows each year at a variable rate (30-year Treasury rate). This benefit, introduced in 2001, provides an annual contribution of 6% of the Named Executive Officer's salary (capped at \$200,000 for 2006). Dynegy's contributions to both the 401(k) Plan and the PRB of the Retirement Plan vest at a rate of 25% per year. All of our Named Executive Officers are fully vested in all past and future Dynegy contributions based on their years of service.

Dynegy also has a legacy non-qualified executive deferred compensation plan, the Dynegy Inc. Deferred Compensation Plan, or the Deferred Compensation Plan. The Deferred Compensation Plan was suspended in 2003 and no contributions have been made under the Plan since that time. Only one Named Executive Officer, Mr. Lednicky, has a remaining balance in the Deferred Compensation Plan. No other deferred compensation non-qualified plans are currently provided to our Named Executive Officers.

Change in Control Arrangements. We have entered into certain arrangements and maintain certain plans that require us to provide certain payments and benefits to some or all of our Named Executive Officers in connection with a change in control. These plans and payments are described below under Executive Compensation Potential Payments Upon Termination or a Change in Control. In particular, a Change in Control supplement to our Amended and Restated Executive Severance Pay Plan, both as amended, or our Change in Control Plan, provides for the vesting of outstanding equity-based awards and the payment of certain severance benefits to our executives in connection with a change in control, as defined in the Change in Control Plan. The Change in Control Plan, approved by the Compensation and Human Resources Committee in 2003 after consultation with an independent compensation consultant, was adopted to enable Dynegy to attract and retain critical talent in a marketplace with a potential for industry consolidation and significant shortfalls in the talent pool projected over the following five years.

Before April 2, 2007, our Change in Control Plan defined change in control to include:

a merger, consolidation or the sale of assets or equity interests that results in (i) the equity securities holders immediately prior to such event no longer being entitled to 60% or more of the votes eligible to be cast in the election of directors in the resulting entity or (ii) the Board members immediately prior to such event no longer constitute at least a majority of the Board of the resulting entity;

a dissolution or liquidation of Dynegy (under Illinois statutes);

any person or group gains ownership or control of more than 20% (40% in the case of ownership or control by Chevron Corporation) of the combined voting power of the outstanding securities of (i) Dynegy, if Dynegy has not engaged in a merger or consolidation, or (ii) the resulting entity, if Dynegy has engaged in a merger or consolidation;

a contested election of directors which results in members of the Board immediately before such election ceasing to constitute a majority of the Board;

the adoption by the Board or the Compensation and Human Resources Committee of a resolution declaring that a change in control has occurred; or

a consolidation, merger or sale of the assets of a principal business unit to another entity not affiliated with Dynegy, or the Board or the Compensation and Human Resources Committee adopts a resolution declaring that a change in control has occurred with respect to the principal business unit (in both cases only executives employed by the principal business unit are entitled to severance benefits in connection with such change in control).

On April 2, 2007, the Compensation and Human Resources Committee approved an amendment to the Change in Control Plan to modify the definition of change in control. The references to Illinois statutes were deleted to reflect our incorporation in Delaware. In addition, the clause of the change in control definition applicable to principal business units was removed because it no longer applies to our corporate structure. This amendment was approved to provide a more precise definition of a change in control.

The Compensation and Human Resources Committee further modified the change in control definition included in all long-term incentive award agreements for such awards granted on April 2, 2007 to include:

a merger, consolidation or the sale of assets or equity interests that results in (i) the equity securities holders immediately prior to such event no longer being entitled to 51% or more of the votes eligible to be cast in the election of directors in the resulting entity, or (ii) the Board members immediately prior to such event no longer constituting at least a majority of the Board of the resulting entity; or

Table of Contents

any person or group gains ownership or control of 50% or more of the combined voting power of the outstanding securities of (i) Dynegy, if Dynegy has not engaged in a merger or consolidation, or (ii) the resulting entity, if Dynegy has engaged in a merger or consolidation.

This modification will continue to allow vesting of outstanding equity awards upon consummation of a change in control, with the resulting types of change in control events that will trigger vesting being more limited than under the prior definition.

The Compensation and Human Resources Committee, together with its independent compensation consultant, reviewed its change in control arrangements in connection with the above-described modification and will do so periodically to ensure alignment with competitive practices and shareholder interests. It is our belief that given the likelihood of further power industry consolidation, the continued provision of change in control benefits will be necessary to enable Dynegy to attract and retain highly qualified executive talent.

Determination of Named Executive Officer Compensation

The Board has delegated to the Compensation and Human Resources Committee, through its committee charter, the following responsibilities with respect to Named Executive Officer compensation:

Review and approve Dynegy's goals and objectives relevant to compensation of its CEO, evaluate the CEO's performance in light of these goals and objectives and, either as a committee or together with the other independent directors (as directed by the Board), determine and approve the CEO's compensation based on this evaluation; and

Review and approve the compensation for Dynegy's other Named Executive Officers.

The CEO, with the assistance of our Human Resources Department, presents a number of compensation alternatives for the executives that report to him consistent with his views of their contributions during the performance year. These alternatives are reviewed and considered by the Compensation and Human Resources Committee, with input from its independent compensation consultant, when approving the compensation for Dynegy's non-CEO executive officers.

The Board's practice is for the independent directors to determine the CEO's annual compensation after considering recommendations from the Compensation and Human Resources Committee and the Board's annual evaluation of the CEO's performance.

LS Power Merger. The recently completed LS Power Merger represents a critical milestone in our efforts to both run and grow our business. The closing of the merger also constituted a change in control under our Executive Severance Pay Plan as it existed at that time. This resulted in the accelerated vesting of all previously issued, and unvested, equity awards upon closing, as was disclosed in the proxy solicitation materials for the LS Power Merger. As all equity awards granted prior to 2005 had otherwise vested by the time of the expected closing, this accelerated vesting impacted the unvested portions of long-term incentives granted in 2005 and 2006.

The following provides additional information as to the impact of the accelerated vesting for each Named Executive Officer.

Stock Options. Stock option awards for our Named Executive Officers have been granted under a three-year ratable vesting schedule with 1/3 of the awards vesting each year. The closing of the LS Power Merger resulted in the accelerated vesting of the remaining 1/3 unvested portion for the 2005 awards and the remaining 2/3 unvested portion of the 2006 awards. The vested awards generally will be exercisable for the remaining option term (10 years from the date of the initial award).

Restricted Stock Awards. Restricted stock awards, or RSAs, have been granted under a three-year cliff vesting schedule for our Named Executive Officers. As a result of the closing of the LS Power Merger, the restrictions lapsed on all outstanding RSAs granted in 2005 and 2006. Each restricted share is equal to the value of a share of Class A common stock.

Table of Contents

Performance Unit Awards. The use of Performance Unit awards was adopted by the Compensation and Human Resources Committee in 2006, the level of which was determined based on 2005 performance and represented 20% of the total long-term incentive award value for the Named Executive Officers. These units, valued at \$100 per unit, were based upon the attainment of certain OCF targets at threshold, target or maximum levels over a three-year performance period. Under the Performance Unit award agreements, the closing of the LS Power Merger triggered the vesting of these units and a cash payment to each Named Executive Officer as if the OCF performance goals were achieved at the target level, or 100%.

The unvested long-term incentives for each Named Executive Officer subject to this accelerated vesting are as follows:

Named Officer	Unvested Stock Options	Restricted Stock	Performance Units
Bruce A. Williamson	1,877,248	360,261	8,000
Stephen A. Furbacher	843,597	68,251	2,000
Holli C. Nichols	223,124	28,672	1,000
J. Kevin Blodgett	181,090	30,854	1,000
Lynn A. Lednicky	355,486	30,854	1,000

Named Executive Officer Compensation

For the 2006 performance measurement year for short-term incentive awards, the following overarching goals and objectives were recommended by management and approved by the Board at the beginning of the year. These goals and objectives, as supplemented by approximately 100 more detailed supporting goals and objectives put forth by our Named Executive Officers, provided a framework for the Compensation and Human Resources Committee to assess Dynegy's 2006 performance and to determine the Named Executive Officers' compensation. Relative weights were not expressly assigned to any or all of these goals and objectives. Additionally, the financial performance goals were established based on various assumptions, including assumptions with respect to commodity prices, with the understanding that Dynegy's actual financial performance would be assessed taking into account the impact of events or activities that were not anticipated or were different than the assumptions made when the goals were set.

2006 Performance Assessment. The Compensation and Human Resources Committee assessed Dynegy’s performance for 2006 based on its attainment of the foregoing goals and objectives and the other performance-related factors that it deemed relevant. In assessing Dynegy’s financial performance for 2006, the Compensation and Human Resources Committee considered Dynegy’s EBITDA, OCF and FCF as reported in its year-end financial results and Original Filing. It also considered the effect of several unusual events and impairments that could not have been anticipated and were not contemplated when Dynegy’s EBITDA, OCF and FCF targets were established, including payments made to settle certain legacy contract and litigation matters, which payments were believed to be in the best interests of Dynegy’s stockholders. Finally, the Compensation and Human Resources Committee considered the impact of commodity prices, which were significantly lower than those reflected in Dynegy’s 2006 business plan on which its financial targets were based, and Dynegy’s commercial strategy of maintaining commodity price exposure for a sizeable portion of its generation capacity. For example, the actual average on-peak price for power in the Midwest region, the region that accounts for most of our power sales, was 66% of that reflected in Dynegy’s 2006 business plan.

In addition to Dynegy’s 2006 financial performance, the Compensation and Human Resources Committee also considered management’s attainment of the other goals and objectives described above for purposes of assessing Dynegy’s corporate performance and the performance of the Named Executive Officers individually. Among other things, the Compensation and Human Resources Committee considered the following:

the execution of the Merger Agreement (as defined in Item 13) with the LS Entities;

Table of Contents

the successful disposition of Dynegy's West Coast Power, Rockingham and Panama facilities and the termination of its Sterlington Power tolling arrangement;

the operating performance of Dynegy's power generation fleet;

the successful execution of multiple liability management activities culminating Dynegy's multi-year self-restructuring program; and

Dynegy's transition to a power generation company focused on efficiently running and opportunistically growing its business. The Compensation and Human Resources Committee concluded that Dynegy and the Named Executive Officers met or exceeded their performance goals for 2006.

Base Salary Determinations. In determining the level of base salary for each Named Executive Officer, in addition to their contributions during the 2006 performance year and the overall nature and responsibility of each position, relative comparability to the median base salary paid to those in similar roles within the peer group was considered. Given his acceptable position relative to peer group CEOs, it was determined that Mr. Williamson would not receive an increase above his current base salary of \$1,000,000. It was determined that Messrs. Furbacher and Lednicky, while positioned favorably compared to the market median, warranted increases that recognized their contributions and deep experience in their respective leadership positions. Mr. Blodgett and Ms. Nichols, who had not received base salary increases since their promotions to their current positions in November 2005, both received salary adjustments consistent with their significant contributions and the Compensation and Human Resources Committee's desire to attain increased alignment of their salaries with those in comparable positions as identified in the peer group benchmark data. The chart below illustrates the new base salary for each Named Executive Officer (effective February 26, 2007).

Named Executive Officer	2006 Base Salary	2007 Base Salary
Bruce A. Williamson	\$ 1,000,000	\$ 1,000,000
Stephen A. Furbacher	\$ 500,000	\$ 525,000
Holli C. Nichols	\$ 290,000	\$ 370,000
J. Kevin Blodgett	\$ 290,000	\$ 370,000
Lynn A. Lednicky	\$ 290,000	\$ 325,000

Short-Term Incentive Determinations. In determining short-term incentive awards for 2006, Dynegy's performance and the contributions of each Named Executive Officer during the 2006 performance year were considered. Having reviewed the contribution that Mr. Williamson made to Dynegy's performance in 2006, the Compensation and Human Resources Committee recommended, and the Board approved, an annual short-term incentive award at 100% of his stated target, payable in cash. Mr. Williamson produced significant results in 2006 and has demonstrated the integrity, vision, planning and leadership qualities that the executive compensation program was designed to foster and reward. Similarly, based on 2006 results and their respective contributions, Ms. Nichols and Messrs. Furbacher, Lednicky and Blodgett received awards at a level commensurate to approximately 100% of their stated short-term incentive targets. While each of the Named Executive Officer's contributions to Dynegy's significant accomplishments in 2006 may have otherwise resulted in short-term incentive awards above the target award level, given the value associated with the vesting of previously granted equity awards upon closing of the LS Power Merger and the Compensation and Human Resources Committee's desire to provide an increased percentage of their total compensation for 2006 in the form of long-term incentive awards as further described below, short term incentive awards made at 100% of target were deemed to be appropriate. The chart below illustrates the short-term incentive award for each Named Executive Officer and the amount earned as a percent of his or her 2006 base salary.

Table of Contents

Named Executive Officer	Short-Term		Award Earned as a
	Incentive Target	Award Amount	Percent of 2006 Earnings
Bruce A. Williamson	100%	\$ 1,000,000	100%
Stephen A. Furbacher	100%	\$ 490,385	100%
Holli C. Nichols	100%	\$ 290,000	100%
J. Kevin Blodgett	100%	\$ 290,000	100%
Lynn A. Lednicky	100%	\$ 290,000	100%

Long-Term Incentive Determinations. In determining the long-term incentive awards for each Named Executive Officer, the Compensation and Human Resources Committee also considered:

the vesting of all previously issued equity awards upon closing of the LS Power Merger, which reduced the retentive value associated with those previously issued equity awards; and

the value created as a result of the LS Power Merger closing, which it believes positions Dynegy to be a leader in the consolidating power generation industry.

As a means of maintaining continued alignment of the Named Executive Officers' long-term incentives with the interests of investors, the Compensation and Human Resources Committee, with input from Mercer, considered various alternatives for the long-term incentive awards. The Compensation and Human Resources Committee's objective is to incentivize the achievement of long-term specified strategic goals and superior stock price performance, while ensuring an appropriate level of equity holdings to aid in the retention of our Named Executive Officers. Taking all these factors into account, the Compensation and Human Resources Committee determined that this year's long-term incentive awards should be significantly increased above the prior year's target of the 60th percentile. As a result, long-term incentive awards were granted to each Named Executive Officer as shown in the table below.

Named Executive Officer	2007 Equity Award Value	Stock Options (40%)	Restricted Stock (20%)	Performance Units (40%)
Bruce A. Williamson	\$ 8,000,000	651,732	165,461	32,000
Stephen A. Furbacher	\$ 2,100,000	171,080	43,434	8,400
Holli C. Nichols	\$ 1,750,000	142,567	36,195	7,000
J. Kevin Blodgett	\$ 1,500,000	122,200	31,024	6,000
Lynn A. Lednicky	\$ 1,400,000	114,053	28,956	5,600

The above-described stock options and restricted shares were granted to the Named Executive Officers on April 2, 2007 at a meeting of the Compensation and Human Resources Committee following the closing of the LS Power Merger. The stock options vest equally in three annual installments and have an exercise price equal to \$9.67, the market price of Dynegy's Class A common stock on the grant date. The restricted stock awards vest in full on the three-year anniversary of the grant date.

The above-described performance units were granted to the Named Executive Officers on April 24, 2007 at a meeting of the Compensation and Human Resources Committee. The performance units are intended to further motivate the Named Executive Officers to create long-term value for Dynegy's stockholders by extending the opportunity to vest in the units based upon performance as reflected in the trading price of its Class A common stock. The Compensation and Human Resources Committee chose to base the vesting of performance units on long-term stock price performance because it believes it provides a simple, transparent and meaningful measure of Dynegy's performance relative to its long-term goal of creating value for stockholders. The material terms of the performance units are summarized below:

Denominated in \$100 units, which are payable in the form of cash or stock, at the Compensation and Human Resources Committee's discretion;

Payment (if any) to be made in April 2010 based on Dynegy's three-year stock price performance;

Table of Contents

Ending share price will be the average closing price of Dynegy's Class A common stock during March 2010;

Awards are payable at threshold, target, stretch and maximum levels as illustrated in the table below;

The Compensation and Human Resources Committee determined the performance goal share price after reviewing and taking into account various factors, including: (i) Dynegy's share price history and the share price history of its power generation industry peers; (ii) the underlying value of Dynegy's power generation portfolio based on various valuation methodologies; and (iii) potential growth opportunities that may be available to Dynegy;

The threshold, target, stretch and maximum share price performance goals represent compound annual growth rates above the average March 2007 share price (\$8.79) over the three-year performance period of approximately 10%, 13%, 16% and 20%, respectively, and, in the judgment of the Compensation and Human Resources Committee, represent appropriate performance goals for share price growth; and

In the event a change in control occurs during the performance period, provided the ending share price would entitle participants to receive a performance award, the payment will be determined by using either, as applicable (a) the agreed price per share received by the stockholders of Dynegy as a result of the change in control, or if there is no agreed price per share, then (b) the average closing share price for the 20 consecutive trading days immediately preceding the effective date of the change in control, as the ending share price for the performance period.

	Threshold	Target	Stretch	Maximum
Performance Goal Achieved Share Price	\$ 11.75	\$ 12.75	\$ 13.75	\$ 15.25
Award Level (% of each \$100 performance unit) (1)	0%	100%	200%	300%

(1) Resulting payment levels between Achieved Share Prices will be interpolated.

Tax Implications

As part of its role, the Compensation and Human Resources Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended. Section 162(m) generally affects Dynegy's federal income tax deduction for compensation paid to Dynegy's CEO and four other highest paid executive officers in excess of \$1 million each. To the extent compensation is performance-based within the meaning of Section 162(m), the Section's limitations will not apply. Dynegy's 2000 and 2002 Long-Term Incentive Plans, pursuant to which long-term incentive awards are granted to the Named Executive Officers, were approved by the Board and its stockholders and generally were structured to qualify as performance-based compensation plans under Section 162(m). A majority of the long-term incentive awards granted under these plans are designed to meet the requirements of Section 162(m). The Compensation and Human Resources Committee generally strives to make awards under Dynegy plans that are intended to qualify as performance-based compensation under Section 162(m); however, in certain situations, compensation paid to Dynegy's CEO and other executive officers that may not meet the standards of deductibility under Section 162(m) may be approved if deemed appropriate. We believe that all short-term incentive and long-term incentive awards to the Named Executive Officers for 2006 performance are deductible for tax purposes.

- (1) The amounts shown under Non-Equity Incentive Plan Compensation reflect cash bonuses awarded under the Dynegy Inc. Incentive Compensation Plan. The bonuses were earned in 2006 and paid in March 2007.
- (2) The amounts shown under Stock Awards and Options Awards reflect the dollar amount recognized for financial statement reporting purposes for restricted stock awards and performance unit awards, in the case of Stock Awards, and option awards, in the case of Option Awards, during the fiscal year ended December 31, 2006, calculated in accordance with FAS No. 123R. Please see the discussion of the assumptions used in such valuation in Note 19 of the Notes to Consolidated Financial Statements in our Original Filing. In general, FAS 123R requires the amounts for all equity-based awards to employees to be recognized in the income statement based on their fair values. The compensation costs associated with our equity-based awards are generally recognized in the income statement over the vesting period based on the grant date fair value of the award. Amounts for performance unit awards are accrued based on the expected payout of the awards and are re-evaluated at the end of each reporting period. Because these awards are expected to be settled in cash or stock, they will be expensed over the vesting period, with the corresponding liability recognized on the balance sheet. The table does not include information regarding equity-based awards related to 2006 performance that were granted to the Named Executive Officers in March 2007. For a discussion of these equity-based awards, please read Compensation Discussion and Analysis Named Executive Officer Compensation above.
- (3) The amount shown for Mr. Lednický includes a change in pension value of \$18,895 under the Dynegy Inc. Retirement Plan and a change in Nonqualified Deferred Compensation Earnings of \$24,874 under the Deferred Compensation Plan. The amounts shown for each other Named Executive Officer reflect only a change in pension value under the Dynegy Inc. Retirement Plan, as no such other Named Executive Officer participates in the Deferred Compensation Plan.
- (4) The amounts shown as All Other Compensation for 2006 include the following matching contributions under our 401(k) Plan, defined contributions under our portable retirement plan, and life insurance premiums paid by Dynegy for each of the Named Executive Officers as part of our standard employee health and welfare benefit plans:

- (1) The amounts shown represent the awards that could be earned by the Named Executive Officers under the Dynegy Inc. Incentive Compensation Plan for 2006. The Incentive Compensation Plan only provides for a target payout and does not include threshold or maximum amounts payable. The actual payouts under the Incentive Compensation Plan were determined in March 2007 and are shown in the Summary Compensation Table under Non-Equity Incentive Plan Compensation.
- (2) In March 2006, performance units were granted to our Named Executive Officers under the 2000 Long-Term Incentive Plan. The performance units are denominated in \$100 units, payable in cash or Class A common stock at the discretion of the Compensation and Human Resources Committee at the end of a three-year performance period based on the achievement of certain performance goals. In connection with the LS Power Merger, the performance units were paid out in cash based on the assumption that the performance goals had been achieved at target level.
- (3) The amounts shown under All Other Stock Awards reflect restricted stock awards granted to the Named Executive Officers in 2006. Restricted stock awards vest three years from date of grant. In connection with the LS Power Merger, the restrictions lapsed on all of the restricted stock awards held by the Named Executive Officers.
- (4) The amounts shown under All Other Option Awards reflect the number of shares of Class A common stock underlying stock option awards granted to the Named Executive Officers in 2006. Stock options have a three-year ratable vesting schedule, with 1/3 of each award vesting each year. In connection with the LS Power Merger, all of the option awards held by the Named Executive Officers vested.
- (5) In March 2006, Mr. Williamson received an additional stock option award under the Dynegy Inc. 2002 Long-Term Incentive Plan in an exchange transaction approved by our Board. To address uncertainties created by regulations proposed in late 2005 pursuant to Section 409A of the Internal Revenue Code, we cancelled all of the 2,378,605 stock options held by Mr. Williamson as of March 16, 2006. As partial consideration for the cancellation of these stock options, we granted Mr. Williamson 967,707 stock options at an exercise price of \$4.88, which equaled the closing price per share of our Class A common stock on March 16, 2006.
- (6)

Edgar Filing: DYNEGY ILLINOIS INC. - Form 10-K/A

The amounts shown under Grant Date Fair Value of Stock and Option Awards reflect the grant date fair value computed in accordance with FAS 123R. Please see the discussion of the assumptions used in such valuation in Note 19 of the Notes to Consolidated Financial Statements in our Original Filing.

On March 16, 2006, our Board approved an exchange transaction with Mr. Williamson to address uncertainties created by proposed regulations issued in late 2005 pursuant to Section 409A of the Internal Revenue Code. Under the terms of the transaction, we cancelled all of the 2,378,605 stock options held by Mr. Williamson as of March 16, 2006. Of these cancelled options, 1,333,333 were granted in October 2002 with an exercise price of \$0.88 per share, 405,928 were granted in February 2004 with an exercise price of \$4.48 per share, and 639,344 were granted in January 2005 with an exercise price of \$4.30 per share. Each of these exercise prices equaled the closing price per share of our Class A common stock on the grant date, and the associated options had a ten-year term. As consideration for the cancellation of these stock options, we granted Mr. Williamson 967,707 stock options under our 2002 Long Term Incentive Plan at an exercise price of \$4.88, which equaled the closing price per share of our Class A common stock on March 16, 2006. These stock options have a term of ten years, vest in three equal annual installments beginning on the first anniversary of the grant date and are subject to earlier vesting upon a constructive termination, a termination without cause or a termination resulting from a change in control.

Table of Contents

We also agreed to pay Mr. Williamson \$5,565,187 in cash based on the in-the-money value of Mr. Williamson's vested stock options as of March 16, 2006. This cash payment, which included interest accrued annually at 7.5%, was made on January 15, 2007. Under the terms of the transaction, it was determined that the cash payment together with the value of the stock options that were granted on March 16, 2006, using a Black-Scholes valuation model, equaled the Black-Scholes value of the stock options that were cancelled. The terms of the transaction are set forth in an Agreement Concerning Employment Agreement and Stock Options dated as of March 16, 2006 between Dynegy and Mr. Williamson.

The proposed regulations provided that some modifications of stock options may subject such stock options to a 20% excise tax as well as retroactive recognition of income, penalties and interest. By undertaking the transaction, we and Mr. Williamson believed that the adverse tax consequences that might have resulted under the proposed regulations would be avoided. The potential tax issue arose because of the terms of an amendment to Mr. Williamson's employment agreement that was executed on September 15, 2005, some two weeks before the proposed regulations were released. Mr. Williamson's original employment agreement, executed on October 23, 2002, provided that his stock options would expire following specified terminations of his employment at the end of the term of his employment agreement. In recognition of the original intent of the parties in consummating the employment agreement, Mr. Williamson's stock options were modified in the second amendment so as to expire three years and five years, respectively, following the occurrence of a constructive termination or a termination resulting from a change in control. The transaction was designed to provide Mr. Williamson with the previously agreed upon three- and five-year exercise periods following the above-mentioned contingencies.

Please see the narrative discussion accompanying Executive Compensation Summary Compensation Table for 2006 above for information regarding the vesting of all outstanding equity-based awards in connection with the LS Power Merger.

- (1) Stock options have a three-year ratable vesting schedule, with 1/3 of each award vesting each year.
- (2) Restricted stock awards vest three years from the date of grant.
- (3) The market value of the restricted stock awards is based on the closing market price of our Class A common stock on December 31, 2006 of \$7.24.
- (4) Performance unit awards generally are determined at the end of a three-year performance period, except in special circumstances, including a change in control.
- (5) The market value of the performance units is based on achieving the target level for such awards.

Table of Contents

Please see the narrative discussion accompanying Executive Compensation Summary Compensation Table for 2006 above for information regarding the vesting of all outstanding equity-based awards in connection with the LS Power Merger.

Option Exercises and Stock Vested in 2006

In 2006, no option awards were exercised by our Named Executive Officers and no stock awards vested.

Pension Benefits

The following table sets forth certain information with respect to the Retirement Plan as it provides for payment at, following, or in connection with retirement for the Named Executive Officers as of December 31, 2006.

Name	Plan Name	Number of Years Credited Service(1)	Present Value of Accumulated Benefit	Payments During Last Fiscal Year
Bruce A. Williamson	Dynegy Inc. Retirement Plan	4.17	\$ 57,339	
Stephen A. Furbacher	Dynegy Inc. Retirement Plan	6.00	\$ 57,144	
Holli C. Nichols	Dynegy Inc. Retirement Plan	6.00	\$ 76,350	
J. Kevin Blodgett	Dynegy Inc. Retirement Plan	6.00	\$ 68,282	
Lynn A. Lednický	Dynegy Inc. Retirement Plan	6.00	\$ 52,027	

(1) Dynegy's contributions to the Retirement Plan vest at a rate of 25% per year. All of our Named Executive Officers are fully vested in all past and future Dynegy contributions based on their years of credited service.

Our Named Executive Officers are eligible for qualified pension benefits only under the Retirement Plan. The pension benefit is based on the portable retirement benefit portion of the Retirement Plan, which provides a defined benefit that grows each year at a variable rate (30-year Treasury rate). This benefit, which was introduced in 2001, provides an annual contribution of 6% of each Named Executive Officer's salary, capped at \$200,000 for 2006.

The present value of accumulated benefits payable to each of the Named Executive Officers under the Retirement Plan was determined using assumptions consistent with those used in Note 20 of the Notes to Consolidated Financial Statements in our Original Filing.

Nonqualified Deferred Compensation

The Deferred Compensation Plan, a legacy nonqualified executive compensation deferral program, was suspended in 2003. Only one of our Named Executive Officers, Mr. Lednický, has a remaining balance in the Deferred Compensation Plan. No contributions under the Deferred Compensation Plan were made by any of the Named Executive Officers or by Dynegy during fiscal year 2006.

The following table sets forth information with respect to the Deferred Compensation Plan in 2006.

Name	Executive Contributions in Last FY	Registrant Contributions in Last FY	Aggregate Earnings in Last FY(1)	Aggregate Withdrawals / Distributions	Aggregate Balance at Last FYE
Bruce A. Williamson	\$	\$	\$	\$	\$
Stephen A. Furbacher	\$	\$	\$	\$	\$

J. Kevin Blodgett	\$	\$	\$	\$	\$
Lynn A. Lednický	\$	\$	\$ 24,874	\$	\$ 180,468

(1) The amount shown for Mr. Lednický under Aggregate Earnings in Last FY is also included in the amount shown for him in the Change in Pension Value and Nonqualified Deferred Compensation Earnings in the Summary Compensation Table.

Potential Payments Upon Termination or Change in Control

Edgar Filing: DYNEGY ILLINOIS INC. - Form 10-K/A

We have entered into certain agreements and maintain certain plans, as described below, that require us to provide certain payments and benefits to some or all of our Named Executive Officers as a result of voluntary

Table of Contents

resignation, for cause and without cause termination, constructive termination, a change in control, retirement, death, and disability. We generally seek to minimize the number of employment agreements we have with our senior executives. At present, Mr. Williamson is our only executive officer with an employment agreement.

Bruce A. Williamson Employment Agreement. Mr. Williamson entered into an employment agreement with Dynegy Illinois upon becoming its CEO and President effective October 23, 2002. Dynegy Illinois amended Mr. Williamson's employment agreement on August 17, 2005, September 15, 2005 and March 16, 2006. These amendments, among other things, renewed and extended Mr. Williamson's employment agreement through October 23, 2007. In connection with the transactions described in Item 13. Certain Relationships and Related Transactions and Director Independence Transactions with Related Persons, Promoters and Certain Control Persons The LS Power Merger, we assumed the employment agreement.

The employment agreement entitles Mr. Williamson to a base salary of \$1,000,000 annually, subject to increase at the discretion of the Board, and the annual opportunity to earn additional bonus amounts, dependent upon specified financial or performance objectives, as a participant in our incentive compensation plan at the discretion of the Board. Mr. Williamson's annual base salary has not increased above \$1,000,000.

The employment agreement provides that Mr. Williamson is eligible to receive stock option grants each year during the term of the employment agreement at the discretion of the Board. Please read Compensation Discussion and Analysis above for a discussion of the annual cash bonus and long-term incentives awarded to Mr. Williamson for 2006. The employment agreement also contains non-compete provisions if Mr. Williamson's employment is terminated. Under the non-compete provisions, Mr. Williamson would be prohibited from directly or indirectly engaging in any business defined as our competitor within a 50 mile radius of our principal office for a period of 12 months following the termination of his employment for any reason.

Under the employment agreement, in the event of Mr. Williamson's death or disability, his employment would be terminated and he or his estate would receive his base salary for 12 months following the month in which his employment was terminated. He or his estate would also receive all medical, dental and vision benefits Dynegy maintained for him and his family for 12 months following the date his employment was terminated. In addition, stock options previously granted to Mr. Williamson would vest and would be exercisable for a period of 12 months following the date his employment was terminated. If Mr. Williamson's employment is terminated for cause or he voluntarily resigns, other than a voluntary resignation in connection with a constructive termination or a change in control as described below, we do not have any further obligations to Mr. Williamson other than payment of amounts due before such termination.

The employment agreement includes provisions governing the payment of severance benefits if Mr. Williamson's employment is terminated by Dynegy without cause or due to resignation following a constructive termination, as defined in the employment agreement. Generally, the term constructive termination includes a reduction in base salary, a material breach of the employment agreement by Dynegy or relocation outside of the Houston metropolitan area. Upon termination without cause or due to resignation following a constructive termination, Mr. Williamson would receive (i) the severance benefits for which he would be eligible under our Amended and Restated Executive Severance Pay Plan, as described below in Severance-Eligible Terminations, and (ii) a lump sum payment equal to the value of the 401(k) Plan matching contribution and the Retirement Plan benefit he otherwise would have received through the end of the applicable term of the employment agreement. In addition, any stock options, restricted stock awards, phantom stock and other equity-based awards granted to Mr. Williamson during his term of employment would vest immediately.

Further, if Mr. Williamson's employment is terminated without cause or due to a resignation following either a constructive termination or a significant diminution of Mr. Williamson's responsibilities, and such termination occurs within 60 days before or one year following specified change of control events, Mr. Williamson would be entitled to change in control severance payments as described below in Change in Control, with the following exception: Mr. Williamson would be entitled to receive a lump sum cash payment equal to 2.99 times the greater of (i) the sum of his (A) annual base salary and (B) target annual cash bonus under our incentive plans for the year in which employment is terminated or (ii) the sum of his (A) average annual base salary and (B) average annual cash bonus under our incentive plans for the three calendar years immediately prior to the calendar year in which his employment is terminated.

Table of Contents

Voluntary Resignation and Termination for Cause. Our Named Executive Officers are not entitled to payments or benefits in connection with a voluntary resignation or termination for cause, other than payments for amounts due before such termination. Under our company policy applicable to all employees, a Named Executive Officer terminated under such circumstances would be entitled to vacation pay accrued up to the month of termination. A Named Executive Officer would be able to exercise any vested options on or before the date of termination upon termination for cause and for a 90-day period after the date of termination upon a voluntary resignation. Vested options that were not exercised on or before the date of termination, in the case of termination for cause, or before the end of the 90-day period, in the case of voluntary resignation, unvested options, restricted stock and performance units would all be forfeited upon termination in accordance with the applicable award agreement.

Severance-Eligible Terminations. Pursuant to our Amended and Restated Executive Severance Pay Plan, as amended, or our Executive Severance Pay Plan, our executives are entitled to payment of severance benefits if their employment is terminated due to a reduction in work force, a position elimination, an office closing, or a mutually satisfactory resignation. Severance benefits under the Executive Severance Pay Plan, which are payable in a lump sum or as a salary continuation at our sole discretion (unless otherwise specified), include:

severance pay equal to one month of base pay for each full, completed year of continuous service with Dynegy and a pro-rated amount for each partial year of continuous service, subject to the following requirements:

for the Chief Executive Officer and Chief Operating Officer, 24 months of base pay;

for any Executive Vice President, 12 months of base pay;

for any Senior Vice President, minimum nine months of base pay; and

for any Vice President or Managing Director, minimum six months of base pay;

continued participation in our group health care plan that provides medical and dental coverage for a period of time equal to the number of months of base pay such executive receives under the Executive Severance Pay Plan, provided the executive continues to pay premiums at active employee rates, with such coverage ending immediately upon the executive obtaining new employment and eligibility for similar coverage; and

outplacement assistance benefits, as determined by the plan administrator, for a period of time equal to the minimum number of months of base pay such executive is entitled to receive under the Executive Severance Pay Plan, with such benefits paid directly to the outplacement assistance provider and not to the executive in a lump sum.

Change in Control. Our Executive Change in Control Plan provides for the vesting of outstanding equity-based awards and the payment of certain severance benefits to our executives in connection with a change in control, as defined in the Change in Control Plan.

Under the Change in Control Plan, any outstanding stock options, restricted stock awards, phantom stock and other equity-based awards previously granted to our executives will immediately vest upon the occurrence of a change in control and will be exercisable from such date for the lesser of (i) five years from the date of the change in control, (ii) the remaining period of time for exercise of the award under the applicable award agreement, or (iii) such period of time as the Board may determine in connection with the change in control in the exercise of its discretion under the applicable plan.

In addition, each of our executives is entitled to severance benefits if, no earlier than 60 days before or within one year of a change in control, such executive is subject to an involuntary termination, as defined in the Change in Control Plan. In general, an executive experiences an involuntary termination if such executive is:

terminated without cause; or

suffers a material reduction in authority or duties, a reduction in base salary or relocation to a location 50 miles or more from the previous principal employment location.

Severance benefits under the Change in Control Plan include:

a lump sum cash payment equal to

for the Chief Executive Officer or Chief Operating Officer, 2.99 times such executive's annual compensation, which is defined in the agreement as the sum of any covered executive's (i) annual base salary and (ii) target cash bonus under our short-term incentive plans, for the period in which employment is terminated;

for any Executive Vice President, 2.50 times such executive's annual compensation;

for any Senior Vice President or Vice President, 1.50 times such executive's annual compensation;

for any Managing Director, 1.00 times such executive's annual compensation;

a lump sum cash payment equal to the aggregate target annual incentive compensation under any applicable short-term incentive compensation plan for the fiscal year during which such termination of employment occurs (determined as if all applicable goals and targets had been satisfied in full), pro-rated to the date of such executive's termination;

all medical, dental and vision benefits maintained for such executive as of the termination date, contingent upon continued payment of premiums by such executive at active employee rates for a period equal to (i) 36 months from termination for the Chief Executive Officer and Chief Operating Officer, (ii) 30 months from termination for any Executive Vice President, (iii) 18 months for any a Senior Vice President or Vice President, and (iv) 12 months for any Managing Director; and

outplacement assistance benefits at least equivalent to those that would have been provided to the Named Executive Officer before the change in control.

The Change in Control Plan also provides Section 280G gross-up protection for any severance benefits that might be paid upon a termination as a result of a change in control, entitling the executive to gross-up payments equal to any excise taxes that would be owed on such severance benefits, including any excise taxes that would be owed on any gross-up payments.

Please read Compensation Discussion and Analysis Elements of Executive Compensation Change in Control Arrangements above for a discussion of amendments to our Change in Control Plan in April 2007.

Retirement. Mr. Furbacher is our only Named Executive Officer who has reached eligibility age for payments upon retirement in addition to the payments described in Pension Benefits above.

Death or Disability. All of our employees may elect to participate in our disability policy, and any participating employee would be entitled to long-term disability benefits under such disability policy if he or she paid the required premiums. All of our Named Executive Officers have elected to participate in our disability policy. Under such policy, (i) Mr. Williamson would be entitled to \$300,000 per year in long-term disability benefits for the duration of his disability or until he reached 65 years of age and (ii) the other Named Executive Officers would be entitled to 60% per year of their respective base salaries in effect at the time they became disabled for the duration of their disability or until they reached 65 years of age.

Edgar Filing: DYNEGY ILLINOIS INC. - Form 10-K/A

In the event of death, the medical, dental and vision benefits Dynegy maintained for the deceased Named Executive Officer (other than Mr. Williamson, whose health benefits in the event of death or disability are discussed above under Bruce A. Williamson Employment Agreement) and his or her family would be maintained for three months after the date of termination, provided that such Named Executive Officer's heirs continue to pay the required premiums. Health benefits in the event of disability vary depending on the type of disability. The Named Executive Officer's 401(k) Plan contributions and Retirement Plan benefits would be paid to their estate upon death and would be paid out in accordance with their original terms upon disability.

Table of Contents

In addition, each Named Executive Officer's equity-based awards would vest upon death or disability in accordance with the applicable award agreement.

Potential Payments and Benefits. The following tables describe the estimated potential payments we would be required to make to our Named Executive Officers under the agreements and plans described above upon termination of their employment under various circumstances. The following assumptions and general principles apply with respect to these tables:

The amounts shown assume the applicable termination event took place on December 29, 2006, the last business day of the year;

The price per share used to calculate the value of the equity-based payments is the closing price of our Class A common stock on December 29, 2006 of \$7.24;

The amounts shown as **Base Salary** under the **Change in Control** column are the lump sum cash payments described as annual compensation under **Change in Control**;

In the event of a termination in connection with retirement, death, or disability, performance unit awards would be paid out in accordance with their original schedule and performance criteria. For purposes of the tables, the payout amounts for performance units in connection with such terminations are calculated at the target level, although the actual payout at the end of the applicable three-year performance period could be at the threshold or maximum depending on the achievement of the performance goals;

In the event of a termination in connection with a change in control, performance unit awards would be paid out at the target level;

In the event of a constructive termination, termination without cause, or a severance-eligible termination, performance unit awards would be paid out at the target level, but the payment would be prorated by multiplying the payment by a fraction, the numerator of which would be the number of calendar days that elapsed between the date of termination and the effective date of the award and the denominator of which would be 1,080;

The amounts shown for **Medical, Dental and Vision Benefits** under the **Severance-Eligible Terminations** column assume that the applicable Named Executive Officer continued to participate in our group health care for the maximum period of time permitted for such Named Executive Officer under the Executive Severance Pay Plan; and

The amounts shown for **Accidental Death & Dismemberment Insurance Proceeds** under the **Disability** column is the maximum payment available under the applicable accidental death and disability policy. The actual value could be lower depending on the type of disability.

The amounts shown for **280G Gross-Up** incorporate items included in such calculations that are not reflected in the tables because they do not discriminate in favor of the Named Executive Officers and are available generally to all employees.

- (1) Mr. Williamson did not have any vested options as of December 29, 2006.
- (2) As described above under Bruce A. Williamson Employment Agreement, Mr. Williamson is entitled to receive a lump sum cash payment equal to 2.99 times the greater of (i) the sum of his (A) annual base salary and (B) target annual cash bonus under our incentive plans, for the year in which employment is terminated or (ii) the sum of his (A) average annual base salary and (B) average annual cash bonus under our incentive plans, for the three calendar years immediately prior to the calendar year in which his employment is terminated. The second option was used to calculate Base Salary under the Change in Control column.
- (3) Mr. Williamson would not receive long-term disability benefits until approximately year four of his continued disability as the disability payments to which he would be entitled under his employment agreement would offset the long-term disability benefits to which he would be entitled under our disability policy until that time.

Item 13. *Certain Relationships and Related Transactions and Director Independence*

TRANSACTIONS WITH RELATED PERSONS, PROMOTERS AND CERTAIN CONTROL PERSONS

The LS Power Merger. On September 14, 2006, Dynegy Illinois entered into a Plan of Merger, Contribution and Sale Agreement, or the Merger Agreement, by and among Dynegy, Falcon Merger Sub Co., an Illinois corporation and our wholly owned subsidiary, or Merger Sub, LSP Gen Investors, LP, LS Power Partners, LP, LS Power Equity Partners PIE I, L.P., LS Power Associates, L.P., and LS Power Equity Partners, L.P., all Delaware limited partnerships or, collectively, the LS Entities. The following transactions, collectively referred to as the LS Power Merger, occurred in connection with the completion of the Merger Agreement:

Merger Sub was merged with and into Dynegy Illinois, as a result of which Dynegy Illinois and its wholly owned subsidiary, Dynegy Holdings Inc., became our wholly owned subsidiaries;

Each share of the Dynegy Illinois Class A common stock and Class B common stock was converted into the right to receive one share of our Class A common stock; and

The LS Entities transferred all of the interests owned by them in entities that own 11 power generation projects to Dynegy in exchange for (i) 340 million shares of our Class B common stock, (ii) \$100 million in cash and (iii) \$275 million in aggregate principal amount of junior unsecured subordinated notes issued by Dynegy (which have been repaid in full).

As part of the LS Power Merger, we adopted our Bylaws, which give the Class B common stock directors certain blocking rights for so long as the outstanding shares of our Class B common stock represent at least 15% of the total combined voting power of our voting securities. Subject to certain thresholds and exceptions, the Class B common stock directors may block certain major transactions proposed at meetings of our Board, including: (i) amending our Certificate of Incorporation or Bylaws, (ii) merging or consolidating, (iii) paying dividends or similar distributions, (iv) entering into new lines of businesses, (v) liquidating or dissolving, (vi) issuing equity securities above a specified amount, (vii) incurring debt above a specified amount, (viii) hiring or terminating the chief executive officer and (ix) entering into any business that would limit the activities of any holder of our Class B common stock or any of its affiliates. To exercise such rights, all Class B common stock directors present at the meeting of the Board at which such major transaction is proposed must vote against such proposal.

In connection with the LS Power Merger, we entered into various related party transactions described below.

Corporate Opportunity Agreement. In connection with the LS Power Merger, on September 14, 2006, we entered into a Corporate Opportunity Agreement with the LS Entities. In general, the Corporate Opportunity Agreement provides that we must inform the LS Entities of opportunities to acquire operating electrical power generating assets. Each affiliate of the LS Entities, as stockholders, officers or directors of Dynegy, will have no duty to refrain from competing with us in any business opportunity in which we also have an interest, but the LS Entities' access to further information developed by us with respect to any such opportunity will be limited. The rights granted to the LS Entities under the Corporate Opportunity Agreement will be suspended at any time when the outstanding shares of Class B common stock represent less than 15% of our total voting power. Furthermore, the Corporate Opportunity Agreement will terminate when there are no shares of Class B common stock outstanding or upon a change of control of the LS Entities.

Shareholder Agreement. We also entered into a Shareholder Agreement dated as of September 14, 2006 with the LS Entities that, among other things, limits the LS Entities' ownership of our common stock and restricts the manner in which the LS Entities may transfer their shares of Class B common stock. The LS Entities and their permitted transferees, affiliates and associates, or the LS Control Group, together with Luminus Management LLC and its affiliates, or Luminus, may not acquire any of our equity securities if, after giving effect to such acquisition, they would own more than approximately 40% of the total outstanding shares of our common stock. If the LS Control Group owns less than 30% of the total outstanding shares of our common stock, Luminus may acquire our equity securities if, after such acquisition, Luminus would not own more than 5% of the total outstanding shares of our common stock.

Table of Contents

In addition, after the expiration of the earlier of (i) two years from the LS Power Merger, (ii) the date the LS Entities cease to collectively own 15% of our outstanding voting securities and (iii) the occurrence of certain third party offers to acquire more than 25% of Dynegy, such period referred to as the Lock-Up Period, the LS Entities may make an offer to purchase all of the outstanding shares of our common stock. Upon such offer, we may either accept the offer or conduct an auction in which the LS Entities may elect, at their option, whether or not to participate. The LS Entities have the right to top the winning offer at 105% of the offer price in any auction in which they elect not to participate.

The Shareholder Agreement also (i) provides that if the LS Entities or the Class B common stock directors block certain sale transactions with respect to Dynegy more than twice in any 18 month period, the Board can cause an auction for the sale of Dynegy, (ii) prohibits us from issuing Class B common stock to any person other than the LS Entities and (iii) provides the LS Entities with certain preemptive rights to acquire shares of our common stock in proportion to their then-existing ownership of our common stock whenever we issue shares of stock or securities convertible into our common stock.

Generally, until the expiration of the Lock-Up Period, the LS Control Group may not transfer their shares, provided that, (i) beginning 180 days after the LS Power Merger, the LS Control Group may distribute their shares to their permitted transferees; provided that we may block such distribution for up to 60 days per calendar year in connection with a proposed underwritten public offering; (ii) beginning 180 days after the LS Power Merger to the date that is 360 days after the LS Power Merger, 21,250,000 shares of Class B common stock may be transferred in widely dispersed sales, provided that to the extent such number of shares is not transferred during any such 180-day period, any unused amount may be carried forward to the next succeeding 180-day period (but in no event may more than 42,500,000 share of Class B common stock be transferred during any 180-day period), and (iii) after the expiration of the Lock-Up Period, the LS Control Group may freely transfer their shares of Class B common stock to any person so long as such transfer would not result in such person, together with such person's affiliates and associates, owning more than 15% of shares of our common stock. All shares of Class B common stock transferred to any person that is a member of the LS Control Group will automatically be converted into shares of Class A common stock.

LS Registration Rights Agreement. In connection with the LS Power Merger, we entered into a Registration Rights Agreement dated September 14, 2006, or the LS Registration Rights Agreement, with the LS Entities pursuant to which we agreed to prepare and file with the SEC a shelf registration statement covering the resale of shares of Class A common stock issuable upon the conversion of (i) shares of Class B common stock that were issued to the LS Entities in the LS Power Merger and (ii) any shares of Class B common stock that may be transferred by the LS Entities to their respective limited partner investors. We filed this shelf registration statement with the SEC on April 5, 2007.

Under the LS Registration Rights Agreement, the LS Entities and their permitted transferees have the right to cause Dynegy to effect up to two underwritten offerings during the first 24 months following the LS Power Merger, provided that no more than one underwritten offering may be consummated during each of the first and second 12-month periods. The LS Entities and their permitted transferees may demand to effect up to two underwritten offerings during each 12-month period following the first 24 months after the LS Power Merger. We may defer the commencement of any underwritten offering demanded by the LS Entities and their permitted transferees for up to 60 days one time in any calendar year.

JV Development Agreement. Dynegy and the LS Entities also entered into two joint ventures involving a Development Company and a Project Holding Company, each of which is 50%-owned by the respective parties. The primary purpose of the joint ventures is to pursue certain power development projects between Dynegy and certain of the LS Entities. The Project Holding Company owns development projects directly or through subsidiaries, while the Development Company owns no material assets, but will (i) provide development and other operational services to the Project Holding Company and (ii) evaluate opportunities presented by Dynegy and the LS Entities for potential contribution to the Project Holding Company.

Chevron Registration Rights Agreements. In connection with the LS Power Merger, we entered into a Registration Rights Agreement dated September 14, 2006, or the Dynegy-Chevron Registration Rights Agreement, with Chevron U.S.A. Inc., or Chevron, pursuant to which we agreed to prepare and file with the SEC a shelf registration statement covering the resale of shares of Class A common stock that Chevron received in exchange for

its Dynegy Illinois Class B common stock in the LS Power Merger, referred to as the Dynegy-Chevron Registration Statement. We filed the Dynegy-Chevron Registration Statement with the SEC on April 16, 2007. We agreed to use our commercially reasonable efforts to keep the Dynegy-Chevron Registration Statement effective until all of our common stock registrable thereunder has either been sold or is no longer restricted.

Chevron also has the right to cause us to effect (i) up to two underwritten offerings during the period following the effective time of the LS Power Merger and ending December 31, 2007 and (ii) one underwritten offering per calendar year thereafter. We may defer the commencement of any underwritten offering demanded by Chevron for up to 60 days; provided that we may not exercise such deferral right during the first 90-day period following the closing of the LS Power Merger, nor may such deferral right be exercised more than once per calendar year thereafter. After the end of the first 90-day period following the closing of the LS Power Merger, we have the right once per calendar year to lock-up Chevron for up to 60 days in connection with an underwritten offering of our equity securities or debt convertible into equity securities.

Chevron-LS Entities Lock-Up Agreement. Chevron and the LS Entities also entered into a Lock-Up Agreement. Under the terms of the Lock-Up Agreement, each of the LS Entities agreed to certain transfer restrictions on our common stock for a period of time consistent with the transfer restrictions in the Shareholder Agreement.

In addition, the Lock-Up Agreement provides that if any of the LS Entities or Chevron makes an underwritten offering of our common stock at any time after 180 days from the closing date of the LS Power Merger when a Form S-3 shelf registration statement is not available, referred to as the No-Shelf Period, the party to the Lock-Up Agreement not making the underwritten offering will be locked-up for up to 60 days. During the No-Shelf Period, the LS Entities and Chevron also gave each other the right to participate in any underwritten offerings of our common stock made by the other party to the Lock-Up Agreement.

REVIEW AND APPROVAL OF TRANSACTIONS WITH RELATED PERSONS

Our Board adopted a written policy relating to the approval of transactions with related parties. In general, for purposes of this policy, a related party transaction is a transaction, or a material amendment to any such transaction, involving a related party and Dynegy. Our policy requires the Audit and Compliance Committee or, at the Board's discretion, a majority of directors disinterested from the transaction, to review and approve related party transactions. In reviewing and approving any related party transactions or material amendments to any such transaction, the Audit and Compliance Committee must satisfy itself that it has been fully informed as to the related party's relationship and interest and as to the material facts of the transaction and must determine that the related party transaction is fair to Dynegy. Generally, transactions between Dynegy and the two joint ventures described above under Transactions with Related Persons, Promoters and Certain Control Persons JV Development Agreement are reviewed and approved under our related party policy, with the exception of certain specified transactions involving less than \$50 million that are excluded from the policy's approval procedures. A copy of our related party transaction policy is available on our website at www.dynegy.com.

Item 14. Principal Accounting Fees and Services

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

Principal Accounting Fees and Services

The firm of PricewaterhouseCoopers LLP, or PwC, was our independent registered public accountant from 2002 through the review of our unaudited financial statements for the first quarter ending March 31, 2007, which we expect to be complete in May 2007. Our Audit and Compliance Committee has approved the selection of Ernst & Young LLP as the independent registered public accountant to examine our accounts and the accounts of our consolidated subsidiaries for the year ending December 31, 2007 commencing with the review of our unaudited financial statements for the second quarter ending June 30, 2007. Set forth below is a summary of the fees we paid PwC for professional services rendered for the years ended December 31, 2006 and 2005.

Audit Fees. As of April 6, 2007, audit fees billed by PwC for professional services provided in the years ended December 31, 2006 and 2005 approximated \$4.4 million and \$6.3 million, respectively. Of the \$4.4 million billed for 2006, approximately \$3.8 million relates to the integrated audit of our 2006 consolidated financial statements and the audit of the 2006 consolidated financial statements of Dynegy Holdings Inc., or DHI, our wholly owned subsidiary and an SEC filer, approximately \$0.5 million relates to the audit of our 2005 consolidated financial statements and the 2005 consolidated financial statements of DHI, and \$0.1 million relates to statutory audits of various of our consolidated subsidiaries.

Of the \$6.3 million billed for 2005, approximately \$4.8 million relates to the integrated audit of our 2005 consolidated financial statements and the audit of the 2005 consolidated financial statements of DHI, approximately \$0.7 million relates to statutory audits of various of our consolidated subsidiaries, and approximately \$0.2 million relates to the audit of our 2004 consolidated financial statements and the 2004 consolidated financial statements of DHI. In addition, \$0.4 million relates to audit fees associated with our sale of our midstream natural gas business, which were reimbursed to us by the buyer, Targa Resources.

Audit-Related Fees. There were no audit-related fees billed by PwC for professional services provided in the years ended December 31, 2006 and 2005.

Tax Fees. As of April 6, 2007, tax fees billed by PwC for professional services provided in the years ended December 31, 2006 and 2005 approximated \$0 and \$2,200, respectively, related to state tax compliance work.

All Other Fees. As of April 6, 2007, all other fees billed by PwC for professional services provided in the years ended December 31, 2006 and 2005 approximated \$31,000 and \$5,000, respectively, related to software and reference materials.

Audit and Compliance Committee Pre-Approval Policy

The Audit and Compliance Committee is responsible for appointing, setting compensation for and overseeing the work of our independent registered public accountants. The Audit and Compliance Committee has established a policy requiring its pre-approval of all audit and permissible non-audit services to be provided by our independent registered public accountants in order to assure that the provision of such services does not impair the auditors' independence. The policy, as amended, provides for the general pre-approval of specific types of services, gives detailed guidance to management as to the specific audit, audit-related and tax services that are eligible for general pre-approval and provides specific cost limits for each such service on an annual basis. The policy requires specific pre-approval of the annual audit engagement, most statutory or subsidiary audits and all permissible non-audit services for which no general pre-approval exists. For both audit and non-audit pre-approvals, the Audit and Compliance Committee considers whether such services are consistent with applicable law and SEC rules and regulations concerning auditor independence.

The policy delegates to the chairman of the Audit and Compliance Committee the authority to grant certain specific pre-approvals within the specified limits approved by the Audit and Compliance Committee; provided, however, that between regularly scheduled meetings the chairman may grant pre-approval with respect to extensions of or changes to services that have previously been pre-approved by the Audit and Compliance Committee in amounts up to \$50,000. The chairman is required to report the granting of any pre-approvals to the Audit and

Table of Contents

Compliance Committee at its next regularly scheduled meeting. The policy prohibits the Audit and Compliance Committee from delegating to management such Committee's responsibility to pre-approve services performed by the independent registered public accountants. In fact, if making the determination as to whether a particular service is of the type generally pre-approved by the Audit and Compliance Committee requires our management to exercise any independent judgment or discretion, such service may not be provided by the independent registered public accountants unless such service is authorized by the chairman or specifically pre-approved by such Committee. When Dynegy engages the independent auditor to perform services based on a general pre-approval, our CFO or, in his or her absence, our Controller is required to, as soon thereafter as reasonably practicable, notify the chairman of such engagement and provide a detailed description of the type and scope of services, proposed staffing, a budget of the proposed fees for such services and a general timetable for the performance of such services.

Requests for pre-approval of services must be detailed as to the particular services proposed to be provided and are to be submitted by our CFO or, in his or her absence, our Controller. Generally, each such request must include a joint statement to the effect that neither the submitting officer nor the independent registered public accountants believe the proposed engagement would impair the auditors' independence. In addition, each such request generally must include a detailed description of the type and scope of services, proposed staffing, a budget of the proposed fees for such services and a general timetable for the performance of such services.

All of the fees and services described above under audit fees, audit-related fees, tax fees and all other fees were approved under the Audit and Compliance Committee's pre-approval policy and pursuant to Section 202 of the Sarbanes-Oxley Act of 2002. None of the services described above were provided to us pursuant to the de minimus exception provided for in applicable SEC rules and regulations.
