**AMERICAN COMMUNITY BANCSHARES, INC.***Notes to Consolidated Financial Statements***NOTE A BASIS OF PRESENTATION**

In management's opinion, the financial information, which is unaudited, reflects all adjustments (consisting solely of normal recurring adjustments) necessary for a fair presentation of the financial information as of and for the three and six months ended June 30, 2007 and 2006, in conformity with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of American Community Bancshares, Inc. (the Company) and its wholly owned subsidiary, American Community Bank (ACB). All significant inter-company transactions and balances are eliminated in consolidation. Operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2007.

The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the consolidated financial statements filed as part of the Company's 2006 annual report on Form 10-K. This quarterly report should be read in conjunction with such annual report.

**NOTE B COMMITMENTS**

At June 30, 2007, loan commitments are as follows:

Undisbursed lines of credit	\$ 93,059,390
Stand-by letters of credit	3,125,226
Loan commitments	19,666,502

**NOTE C PER SHARE RESULTS**

Basic earnings per share represents income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company relate solely to outstanding stock options and are determined using the treasury stock method.

	Three months ended		Six months ended	
	June 30		June 30	
	2007	2006	2007	2006
Weighted average number of common shares used in computing basic net income per share	6,978,724	6,876,336	6,993,764	6,864,852
Effect of dilutive stock options	161,956	300,000	164,191	303,261
Weighted average number of common shares and dilutive potential common shares used in computing diluted net income per share	7,140,680	7,176,336	7,157,955	7,168,113

For the three and six months ended June 30, 2007, there were 88,000 options that were antidilutive. For the three and six months ended June 30, 2006 there were 37,000 and 18,500 options, respectively, that were antidilutive.

*AMERICAN COMMUNITY BANCSHARES, INC.*

*Notes to Consolidated Financial Statements*

**NOTE D DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES**

In the normal course of business, the Company enters into derivative contracts to manage interest rate risk by modifying the characteristics of the related balance sheet instruments in order to reduce the adverse effect of changes in interest rates. All derivative financial instruments are recorded at fair value in the consolidated financial statements.

On the date a derivative contract is entered into, the Company designates the derivative as a fair value hedge, a cash flow hedge, or a trading instrument. Changes in the fair value of instruments used as fair value hedges are accounted for in the earnings of the period simultaneous with accounting for the fair value change of the item being hedged. Changes in the fair value of the effective portion of cash flow hedges are accounted for in other comprehensive income rather than earnings. Changes in fair value of instruments that are not intended as a hedge are accounted for in the earnings of the period of the change.

If a derivative instrument designated as a fair value hedge is terminated or the hedge designation removed, the difference between a hedged item's then carrying amount and its face amount is recognized into income over the original hedge period. Likewise, if a derivative instrument designated as a cash flow hedge is terminated or the hedge designation removed, related amounts accumulated in other accumulated comprehensive income are reclassified into earnings over the original hedge period during which the hedged item affects income.

As of June 30, 2007, the Company had two cash flow hedges with notional amounts of \$30.0 million and \$15.0 million, respectively. Both derivative instruments consist of an interest rate floor contract that is used to protect certain designated variable rate loans from the downward effects of their repricing in the event of a decreasing rate environment for a period of three years ending in February 2009 and June 2009, respectively. If the prime rate falls below 7.25% during the term of the first contract, the Company will receive payments based on the \$30.0 million notional amount times the difference between 7.25% and the daily weighted average prime rate for the quarter. No payments will be received by the Company if the weighted average prime rate is 7.25% or higher. The Company paid a premium of \$228,000 on this contract, which is being amortized over the three-year term of the contract. On the second floor, if the prime rate falls below 7.75% during the term of this contract, the Company will receive payments based on the \$15.0 million notional amount times the difference between 7.75% and the weighted average prime rate for the quarter. No payments will be received by the Company if the weighted average prime rate is 7.75% or higher. The Company paid a premium of \$95,250 on this contract which is being amortized over the three-year term of the contract. The interest rate floors are carried at a fair market value of \$53,767 and are included in other assets as of June 30, 2007.

As of March 31, 2007 the \$15.0 million, 7.75% interest rate floor contract no longer qualified as a cash flow hedge and the hedge designation was removed. As a result, amounts accumulated in the other accumulated comprehensive income of approximately \$6,000 at the beginning of the quarter were reclassified into earnings during the first quarter of 2007. Changes in fair value of the 7.75% interest rate floor are now accounted for in earnings for the period of the change. Changes in fair value of the remaining hedged instrument on the 7.25% floor that are deemed effective are still offset in other comprehensive income net of tax while the ineffective portion of the hedge is recorded to other income. The company recorded a \$67,000 loss in other income during the quarter ended June 30, 2007 for the change in fair value of the 7.75% interest rate floor. There was no material ineffective portion of the 7.25% hedged instrument as of June 30, 2007.

---

*AMERICAN COMMUNITY BANCSHARES, INC.*

*Notes to Consolidated Financial Statements*

**NOTE E STOCK DIVIDEND**

On January 25, 2006, the Company declared a three-for-two stock split in the form of a 50% stock dividend to shareholders of record on February 7, 2006 and payable on February 21, 2006. As a result of the stock dividend, 2,284,567 additional shares of common stock were issued and retained earnings was reduced by \$2,284,567. All references to net income per share and weighted average shares outstanding have been adjusted for the effect of this stock split.

**NOTE F SHARE REPURCHASE AND DIVIDEND REINVESTMENT PROGRAMS**

On February 1, 2006, the Company's Board of Directors authorized a share repurchase program for up to 225,000 shares of the Company's outstanding common stock. The Board's authorization permits the Company to repurchase shares in the open market or through privately negotiated transactions during the next twelve months when, in the opinion of management, market conditions warrant such action. On March 27, 2007, the Company's Board of Directors extended the 225,000 share repurchase program for another twelve months. When shares are repurchased, the shares are cancelled. Since February 1, 2006, the Company has repurchased 91,813 shares, of which 8,013 shares were repurchased in the first quarter of 2007 and 60,100 shares were repurchased in the second quarter of 2007. The Board of Directors also voted to establish a dividend reinvestment and stock purchase plan under which shares of the Company's common stock are available for sale to the registered shareholders of the Company. The Plan provides shareholders with an alternative way to increase their holdings of our common stock by reinvesting dividends or making optional cash payments to purchase additional shares.

**NOTE G OTHER THAN TEMPORARY IMPAIRMENT OF NON-MARKETABLE EQUITY SECURITIES**

The Company periodically evaluates its investments for any impairment which would be deemed other than temporary. As part of its quarterly evaluation, the Company determined that the fair value of an investment in a trust company, whose primary shareholders are ten community banks located throughout North Carolina, was less than the original cost of the investment and that the decline in fair value was not temporary in nature. As a result, the Company wrote down its original investment in the trust company of \$277,738 by \$75,747, to an estimated fair value of \$201,991 as of March 31, 2007. This write down was recorded directly to earnings in the first quarter. This trust company has two common directors with the Company.

**NOTE H RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENT**

The Company adopted the Financial Accounting Standards Board's Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 (FIN 48), effective January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements and requires the impact of a tax position to be recognized in the financial statements if that position is more likely than not of being sustained by the taxing authority. The adoption of FIN 48 did not have a material effect on its consolidated financial position or results of operations.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This Quarterly Report on Form 10-Q may contain certain forward-looking statements consisting of estimates with respect to the financial condition, results of operations and business of the Company that are subject to various factors which could cause actual results to differ materially from these estimates. These factors include, but are not limited to, general economic conditions, changes in interest rates, deposit flows, loan demand, real estate values, and competition; changes in accounting principles, policies, or guidelines; changes in legislation or regulation; and other economic, competitive, governmental, regulatory, and technological factors affecting the Company's operations, pricing, products, and services. There are no pending legal proceedings other than those incurred in the normal course of business to which the Company or subsidiaries are a party, or of which any of their property is the subject.

***COMPARISON OF FINANCIAL CONDITION AT JUNE 30, 2007 AND DECEMBER 31, 2006***

Total assets at June 30, 2007 increased by \$11.0 million or 2.2% to \$505.7 million compared to \$494.7 million at December 31, 2006. The Company had earning assets of \$463.5 million at June 30, 2007. Gross loans increased by \$11.0 million or 3.0% to \$381.4 million from \$370.4 million at December 31, 2006. Investment securities and other non-marketable equity securities increased by \$9.0 million or 13.4% to \$76.1 million from \$67.1 million at December 31, 2006. Overnight investments decreased by \$5.8 million or 33.6% from \$17.3 million at December 31, 2006 to \$11.5 million. Total deposits as of June 30, 2007 increased by \$6.3 million or 1.6% to \$407.4 million compared to \$401.1 million at December 31, 2006. Total borrowed money as of June 30, 2007 increased \$3.9 million or 5.9% to \$41.0 million compared to \$37.1 million at December 31, 2006. Stockholders' equity was \$56.0 million at June 30, 2007 compared to \$55.1 million at December 31, 2006 for an increase of \$900,000 or 1.6%.

The Company recorded a \$231,000 provision for loan losses for the quarter ended June 30, 2007, representing a decrease of \$437,000 or 65.4% from the \$668,000 provision for the quarter ended June 30, 2006. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company has continued to provide provisions for loan losses principally as a result of the continued growth in the loan portfolio. The allowance for loan losses decreased by \$85,000 or 1.5% to \$5.5 million at June 30, 2007 as compared to \$5.6 million at December 31, 2006, primarily due to a decrease in non-performing loans during the first half of 2007. The allowance for loan losses equaled 1.45% of total loans outstanding at June 30, 2007 as compared to 1.52% at December 31, 2006. In addition the allowance for loan losses equaled 369% of non-performing loans and leases, which totaled \$1.5 million at June 30, 2007 and 268% of non-performing loans and leases at December 31, 2006 which totaled \$2.1 million.

The Company had investment securities available for sale of \$72.2 million at June 30, 2007. The portfolio increased by \$9.2 million or 14.6% from the \$63.0 million balance at December 31, 2006 due principally to the purchase of \$17.9 million in securities, the sale of \$4.5 million in securities and principal payments received in the amount of \$4.2 million. In addition securities held to maturity decreased by \$400,000 or 18.5% from \$2.2 million at December 31, 2006 to \$1.8 million at June 30, 2007 as a result of the call of one \$400,000 municipal bond.

Interest-earning deposits with banks at June 30, 2007 decreased by \$5.8 million or 33.6% to \$11.5 million compared to \$17.3 million at December 31, 2006. The Company holds funds in interest-earning deposits with banks to provide liquidity for future loan demand and to satisfy fluctuations in deposit levels.

Non interest-earning assets at June 30, 2007 decreased by \$3.3 million or 7.2% to \$42.2 million compared to \$45.5 million at December 31, 2006. The decrease is primarily attributable to a decrease of \$2.0 million to \$18.0 million in the cash and due from banks category. Cash and due from banks primarily represents customer deposits that are in the process of collection and not available for overnight investment combined with cash on hand in the branches. In addition, bank premises and

equipment was \$8.9 million at June 30, 2007, a decrease of \$178,000. Accrued interest receivable decreased \$323,000 to \$2.6 million at June 30, 2007 as a result of the timing in the collection of interest income. Foreclosed real estate decreased by \$170,000, from \$195,000 at December 31, 2006 to \$25,000 at June 30, 2007, as a result of the sale of six 1-4 family properties at a gain of \$27,000. Other assets decreased by \$660,000 at June 30, 2007 to \$2.8 million.

Total deposits increased \$6.4 million or 1.6% from \$401.1 million at December 31, 2006 to \$407.5 million at June 30, 2007. The composition of the deposit base, by category, at June 30, 2007 is as follows: 14% non-interest bearing demand deposits, 7% savings deposits, 19% money market and NOW accounts and 60% time deposits. Savings deposits and time deposit categories experienced increases over the six-month period. Dollar and percentage increases were as follows: savings deposits, \$12.1 million or 80.4%; and time deposits, \$18.9 million or 8.4%. The savings deposit increase was primarily attributable to the introduction of a savings account product whose rate is tied to the 90 day Treasury bill. The non-interest bearing demand deposits category experienced a decrease of \$3.3 million or 5.3% which was attributable to normal fluctuations in corporate checking accounts and the money market and NOW accounts category experienced a decrease of \$21.4 million or 21.8%. This decrease was primarily attributable to the fact that the Bank was the escrow agent for a community bank start-up. The bank broke escrow in March and withdrew escrow funds in the amount of \$19.2 million. Time deposits of \$100,000 or more totaled \$128.3 million, or 32% of total deposits at June 30, 2007. The composition of deposits at December 31, 2006 was 15% non-interest bearing demand deposits, 4% savings deposits, 25% money market and NOW accounts and 56% time deposits.

Short-term borrowings consist of securities sold under agreement to repurchase and federal funds purchased. Total securities sold under agreement to repurchase and federal funds purchased, secured by certain of the Company's investment securities, increased \$7.5 million or 48.5% from \$15.5 million at December 31, 2006 to \$23.0 million at June 30, 2007. This increase was due to a deposit from one commercial customer in the amount of \$7.5 million. Long-term borrowings consist of advances from the Federal Home Loan Bank of Atlanta, subordinated debentures, and capital lease obligations. The Company had advances from the Federal Home Loan Bank of Atlanta at June 30, 2007 and December 31, 2006 of \$6.0 million with maturity dates ranging from July 2012 through February 2013. These advances are secured by a blanket lien on 1-4 family real estate loans, certain commercial real estate loans and certain securities available for sale. The Company also maintained the capital lease for its main office. The recorded obligation under this capital lease at June 30, 2007 and December 31, 2006 was \$1.7 million. In addition, the Company carried subordinated debentures in the amount of \$10.3 million at June 30, 2007, a decrease of \$3.6 million or 25.9% from December 31, 2006. On March 9, 2007, the Company redeemed \$3,500,000 of its 9.00% Trust Preferred Securities. The redemption included interest from January 1, 2007 through the redemption date and was paid with the proceeds from the sale of investment securities available for sale. The maturity date of the remaining subordinated debentures is December 2033 and they are redeemable on or after December 2008.

Other liabilities decreased \$96,000 or 7.0% to \$1.3 million at June 30, 2007 from \$1.4 million at December 31, 2006. The increase is primarily attributable to the payment of accrued income taxes.

#### ***Comparison of Results of Operations for the Three Months Ended June 30, 2007 and 2006***

***Net Income.*** The Company generated net income for the three months ended June 30, 2007 of \$1,222,000 compared to net income for the three months ended June 30, 2006 of \$932,000. Earnings for the three months ended June 30, 2006 were negatively impacted by compensation expense related to stock options granted under SFAS 123R in the amount of \$218,000, net of income tax combined with the provision for loan losses of \$668,000. On a per share basis, basic earnings were \$.18 for the first three months of 2007 compared to \$.14 for 2006, and diluted earnings were \$.17 for 2007 compared to \$.13 for 2006. For the three months ended June 30, 2007 and 2006, respectively annualized return on average assets was 1.00% and 0.82% and annualized return on average equity was 8.81% and 7.17%.

***Net Interest Income.*** Net interest income increased \$168,000 from \$4.8 million for the three months ended June 30, 2006 to \$4.9 million for the three months ended June 30, 2007. Net interest income

benefited from growth in average earning assets which was partially offset by a compression in net interest margin.

Total average earning assets increased \$41.3 million or 9.9% from an average of \$419.3 million during the second quarter of 2006 to an average of \$460.6 million during the second quarter of 2007. The Company experienced good loan growth with average loan balances increasing by \$21.9 million. The increase in average balances for investment securities and interest-earning deposits was \$19.4 million. Average interest-bearing liabilities increased by \$32.2 million during the three months ended June 30, 2007. Average deposits increased \$34.5 million while average borrowings decreased \$2.3 million.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the quarter ended June 30, 2007 was 4.28% compared to 4.59% for the same quarter in 2006. The decrease in net interest margin resulted primarily from the increase in the Company's cost of funds. The average yield on the Company's interest bearing assets increased from 7.57% for the quarter ended June 30, 2006 to 7.75% for the same quarter in 2007. At the same time the average cost on interest earning liabilities increased from 3.61% for the quarter ended June 30, 2006 to 4.22% for the same quarter in 2007. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, decreased 43 basis points from 3.96% in the quarter ended June 30, 2006 to 3.53% for the same quarter in 2007.

**Provision for Loan Losses.** Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company's provision for loan losses for the quarter ended June 30, 2007 was \$231,000, representing a \$437,000 or 65.4% decrease from the \$668,000 recorded for the quarter ended June 30, 2006. The decrease in the provision was primarily related to a decrease in non-performing loans and leases of \$3.2 million or 68% from \$4.7 million at June 30, 2006 to \$1.5 million at June 30, 2007. Non-performing loans and leases are defined as non-accrual loans and leases plus loans and leases 90 days past due and still accruing. Non-performing loans decreased from \$2.8 million at June 30, 2006 to \$674,000 at June 30, 2007. In addition non-performing leases decreased from \$1.9 million at June 30, 2006 to \$837,000 at June 30, 2007. The Company continues to successfully liquidate the remainder of the leasing portfolio which is being serviced by a third party leasing company. As of June 30, 2007 the leasing portfolio totaled approximately \$5.9 million compared to the balance of \$11.8 million at June 30, 2006.

**Non-interest Income.** Non-interest income decreased by \$147,000 or 16.9% to \$722,000 for the three months ended June 30, 2007 compared with \$869,000 for the same period in the prior year. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 12.8% for the three months ended June 30, 2007 from 15.5% for the same period in the prior year. The largest components of non-interest income were service charges on deposit accounts of \$608,000 for the quarter ended June 30, 2007, compared to \$601,000 in 2006 and fees from mortgage banking operations of \$93,000 in 2007 as compared to \$106,000 in 2006 or a 12.3% decrease. This decrease is primarily the result of the slowdown in the housing market in 2007 as a result of the increase in long-term mortgage rates and the general slow-down in the real estate market. In addition, the value of the 7.75% interest rate floor decreased by \$67,000 due to the market's perception that the Federal Open Market Committee is not going to drop short-term rates in the near future.

**Non-interest Expense.** Total non-interest expense increased \$33,000 or 1.0% from \$3.4 million for the three months ended June 30, 2006 to \$3.5 million for the same period in 2007. The increase was primarily due to a data processing cost increase of \$82,000 as a result of higher processing volumes and an increase in FDIC insurance cost of \$54,000 as a result of higher assessment rates. These increases were partially offset by a decrease in compensation expense from \$1.9 million in 2006 to \$1.7 million in 2007. The decrease in compensation expense of \$112,000 was primarily related to expense associated with stock options granted under SFAS 123R of \$332,000 in 2006 as compared to \$13,000 in

2007 and was partially offset by an increase in compensation and benefit expense of \$220,000 related to additional employees hired.

**Provision for Income Taxes.** The Company's provision for income taxes, as a percentage of income before income taxes, was 36.7% and 38.0% for the three months ended June 30, 2007 and 2006, respectively. Increased tax exempt income in 2007 resulted in the lower effective tax rate.

***Comparison of Results of Operations for the Six Months Ended June 30, 2007 and 2006***

**Net Income.** The Company generated net income for the six months ended June 30, 2007 of \$2.5 million compared to net income for the six months ended June 30, 2006 of \$2.2 million. Earnings for the six months ended June 30, 2006 were negatively impacted by compensation expense related to stock options granted under SFAS 123R in the amount of \$232,000, net of income tax, combined with the provision for loan losses of \$940,000. On a per share basis, basic earnings were \$.36 for the first six months of 2007 compared to \$.33 for 2006, and diluted earnings were \$.35 for 2007 compared to \$.31 for 2006. For the six months ended June 30, 2007 and 2006, respectively annualized return on average assets was 1.03% and 1.00% and annualized return on average equity was 9.04% and 8.71%.

**Net Interest Income.** Net interest income increased \$436,000 from \$9.3 million for the six months ended June 30, 2006 to \$9.7 million for the six months ended June 30, 2007. Net interest income benefited from growth in average earning assets which was partially offset by a compression in net interest margin.

Total average earning assets increased \$37.8 million or 9.1% from an average of \$415.4 million during the first half of 2006 to an average of \$453.2 during the first half of 2007. The Company experienced good loan growth with average loan balances increasing by \$29.0 million. Average balances for investment securities and interest-earning deposits increased \$8.8 million. Average interest-bearing liabilities increased by \$38.7 million for the six months ended June 30, 2007. Average deposits increased \$40.0 million while average borrowings decreased by \$1.3 million.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the six months ended June 30, 2007 was 4.32% compared to 4.51% for the six months ended June 30, 2006. The decrease in net interest margin resulted primarily from the increase in the Company's cost of funds. The average yield on the Company's interest bearing assets increased from 7.35% for the six months ended June 30, 2006 to 7.78% for the same period in 2007. At the same time the average cost on interest earning liabilities increased from 3.51% for the six months ended June 30, 2006 to 4.22% for the same period in 2007. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, decreased 28 basis points from 3.84% during the six months ended June 30, 2006 to 3.56% for the same period in 2007.

**Provision for Loan Losses.** Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company's provision for loan losses for the six months ended June 30, 2007 was \$414,000, representing a \$526,000 or 56.0% decrease over the \$940,000 recorded for the six months ended June 30, 2006. The decrease in the provision was primarily related to a decrease in non-performing loans and leases of \$3.2 million or 68% from \$4.7 million at June 30, 2006 to \$1.5 million at June 30, 2007. Non-performing loans and leases are defined as non-accrual loans and leases plus loans and leases 90 days past due and still accruing. Non-performing loans decreased from \$2.8 million at June 30, 2006 to \$674,000 at June 30, 2007. In addition non-performing leases decreased from \$1.9 million at June 30, 2006 to \$837,000 at June 30, 2007. The Company continues to successfully liquidate the remainder of the leasing portfolio which is being serviced by a third party leasing company. As of June 30, 2007 the leasing portfolio totaled approximately \$5.9 million compared to the balance of \$11.8 million at June 30, 2006.

**Non-Interest Income.** Non-interest income decreased by \$167,000 or 9.8% to \$1.5 million for the six months ended June 30, 2007 compared with \$1.7 million for the same period in the prior year. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 13.6% at June 30, 2007 from 15.5% at June 30, 2006. The largest components of non-interest income were service charges on deposit accounts of \$1.2 million for the quarters ended June 30, 2007 and 2006 and fees from mortgage banking operations of \$173,000 in 2007 as compared to \$187,000 in 2006 or a 7.5% decrease. Fees from mortgage operations decreased due to rising rates. This decrease is primarily the result of the slowdown in the housing market in 2007 as a result of the increase in long-term mortgage rates and the general slow-down in the real estate market. In addition, the value of the 7.75% interest rate floor decreased by \$56,000 due to the market's perception that the Federal Open Market Committee is not going to drop short-term rates in the near future.

**Non-Interest Expenses.** Total non-interest expense increased from \$6.5 million for the six months ended June 30, 2006 to \$6.9 million for the same period in 2007. The 6.4% change was primarily due to professional fees which increased \$109,000 related to increased legal and regulatory compliance costs, data processing cost which increased \$107,000 primarily as a result of higher processing volumes and FDIC insurance cost which increased by \$112,000 as a result of higher assessment rates. Compensation expense also increased \$17,000. The increase in compensation expense was primarily related to expense associated with stock options granted under SFAS 123R of \$347,000 in 2006 as compared to \$26,000 in 2007 and was offset by an increase in compensation and benefit expense of \$361,000 related to additional employees hired.

**Income Taxes.** The Company's provision for income taxes, as a percentage of income before income taxes, was 36.5% and 37.2% for the six months ended June 30, 2007 and 2006, respectively. Increased tax exempt income in 2007 resulted in the lower effective tax rate.

#### **Liquidity and Capital Resources**

Maintaining adequate liquidity while managing interest rate risk is the primary goal of the Company's asset and liability management strategy. Liquidity is the ability to fund the needs of the Company's borrowers and depositors, pay operating expenses, and meet regulatory liquidity requirements. Maturing investments, loan and mortgage-backed security principal repayments, deposit growth, borrowings from the Federal Home Loan Bank, and federal funds lines from correspondent banks are presently the main sources of the Company's liquidity. The Company's primary uses of liquidity are to fund loans, operating expenses, deposit withdrawals, repay borrowings and to make investments.

As of June 30, 2007, liquid assets (cash and due from banks, interest-earning deposits with banks, and investment securities available for sale) were approximately \$101.7 million, which represents 20.1% of total assets and 22.7% of total deposits and borrowings. Supplementing this liquidity, the Company has available lines of credit from correspondent banks of approximately \$29.5 million and an additional line of credit with the FHLB equal to 15% of assets (subject to available qualified collateral, with borrowings of \$6.0 million outstanding from the FHLB at June 30, 2007). At June 30, 2007, outstanding commitments to extend credit were \$19.7 million and available line of credit balances totaled \$93.1 million. Management believes that the combined aggregate liquidity position of the Company is sufficient to meet the funding requirements of loan demand and deposit maturities and withdrawals in the near term.

Certificates of deposit represented 60.0% of the Company's total deposits at June 30, 2007, and 56.3% at December 31, 2006. The Company's growth strategy will include efforts focused at increasing the relative volume of transaction deposit accounts. Certificates of deposit of \$100,000 or more represented 31.5% of the Company's total deposits at June 30, 2007. These deposits are generally considered rate sensitive, but management believes most of them are relationship-oriented. While the Company will need to pay competitive rates to retain these deposits at maturity, there are other subjective factors that will determine the Company's continued retention of those deposits.

Banks and bank holding companies, as regulated institutions, must meet required levels of capital. The FDIC and the Federal Reserve, the primary regulators of the Bank and the Company, respectively, have adopted minimum capital regulations or guidelines that categorize components and the level of risk associated with various types of assets. Financial institutions are expected to maintain a level of capital commensurate with the risk profile assigned to its assets in accordance with these guidelines. At June 30, 2007, the Company maintained capital levels exceeding the minimum levels for well capitalized bank holding companies and banks.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Market risk reflects the risk of economic loss resulting from adverse changes in market price and interest rates. This risk of loss can be reflected in diminished current market values and/or reduced potential net interest income in future periods.

The Company's market risk arises primarily from interest rate risk inherent in its lending and deposit-taking activities. The structure of the Company's loan and deposit portfolios is such that a significant decline in interest rates may adversely impact net market values and net interest income. The Company does not maintain a trading account nor is the Company subject to currency exchange risk or commodity price risk. Interest rate risk is monitored as part of the Company's asset/liability management function, which is discussed above in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations under the heading Liquidity and Capital Resources.

Management does not believe there has been any significant change in the overall analysis of financial instruments considered market risk sensitive since December 31, 2006.

### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

At the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-14.

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective (1) to provide reasonable assurance that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) to provide reasonable assurance that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. The Company reviews its disclosure controls and procedures, which may include its internal control over financial reporting, on an ongoing basis, and may from time to time make changes aimed at enhancing their effectiveness and to ensure that the Company's systems evolve with its business.

**Part II. OTHER INFORMATION****Item 1A. Risk Factors**

There has been no material change in the risk factors included in the Company's most recent form annual report on form 10-K.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table sets forth information with respect to shares of common stock repurchased by the Company during the three months ended June 30, 2007.

<b>Month Purchased</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Program</b>	<b>Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans</b>
April, 2007	17,000	\$ 11.05	48,713	\$ 2,369,120
May, 2007	43,100	\$ 11.08	91,813	\$ 1,878,211
June, 2007			91,813	\$ 1,878,211
Total	60,100	\$ 11.07	91,813	\$ 1,878,211

On February 1, 2006, the Company's Board of Directors authorized a share repurchase program for up to 225,000 shares of the Company's outstanding common stock. The Board's authorization permitted the Company to repurchase shares in the open market or through privately negotiated transactions during the next twelve months when, in the opinion of management, market conditions warrant such action. On March 27, 2007, the Company's Board of Directors extended the 225,000 share repurchase program for another twelve months.

**Item 5. Submission of Matters to a Vote of Security Holders**

The Annual Meeting of Stockholders was held on May 22, 2007. Of 6,999,464 shares entitled to vote at the meeting, 5,743,392 voted. The following matters were voted on at the meeting:

Proposal 1: To elect five board members to staggered terms. Votes and terms for each nominee were as follows:

<b>3-year terms</b>	<b>Votes For</b>	<b>Votes Withheld</b>
Frank L. Gentry	5,029,252	714,139
Alison J. Smith	5,029,252	714,139
David D. Whitley	5,027,070	716,321
Gregory N. Wylie	5,024,797	718,594
<b>1-year term</b>	<b>Votes For</b>	<b>Votes Withheld</b>
V. Stephen Moss	5,103,959	639,432

Proposal 2: To ratify the appointment of Dixon Hughes PLLC as independent accountants for the year ending December 31, 2007. Votes were as follows:

<b>Votes For</b>	<b>Votes Against</b>	<b>Votes Withheld</b>
5,697,632	24,601	21,158
