James E. Rohr, Chairman of The PNC Financial Services Group, Inc. (PNC), gave a presentation to investors on November 13, 2007 at the PNC Banking & Financial Services Conference in New York. This presentation was accompanied by a series of electronic slides that pertain to the financial results and business strategies of PNC. The following slides and related material were posted on PNC's website on November 13, 2007.

This presentation contains forward-looking statements regarding our outlook or expectations relating to PNC's future business operations, financial condition, financial performance and

asset
quality.
Forward-looking
statements

necessarily
subject
to
numerous assumptions, risks and uncertainties, which change over
time.

posted on our corporate website at www.pnc.com/investorevents. We provide greater detail regarding these factors in our 2006 Form 10-K, including in the Risk Factors and Risk Management sections, and in our current quarter 2007 Form 10-Q and other reports (accessible on the SEC's website at www.sec.gov and on or through our corporate website).

Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation sp

only as of the date of this presentation. We do not assume any duty and do not undertake to update those statements.

In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock near the end of third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following

types

of

adjustments:

(1)

2006

periods

reflect

the

impact

of

the

deconsolidation

of

BlackRock

by

adjusting

as

if

we

had

recorded

our BlackRock investment on the equity method prior to its deconsolidation; (2) adjusting the 2006 periods to exclude the impact

of the

third

quarter

2006

gain

on

the

BlackRock/MLIM

transaction

and

losses

on

the

repositioning

of

PNC's

securities

and

mortgage

loan portfolios; (3) adjusting fourth quarter 2006 and the 2007 periods to exclude the net mark-to-market adjustments on PNC

remaining BlackRock LTIP shares obligation and, as applicable, the gain PNC recognized in first quarter 2007 in connection with

company's transfer of BlackRock shares to satisfy a portion of its BlackRock LTIP shares obligation; (4) adjusting all 2007 and

2006 periods to exclude, as applicable, integration costs related to acquisitions and to the BlackRock/MLIM transaction; and (5)

adjusting, as appropriate, for the tax impact of these adjustments. We have provided these adjusted amounts and reconciliations

so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for the

periods presented, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of deconsolidation on various components of our income statement and balance sheet.

We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations. While we have not provided other adjustments for the periods discussed, this is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown. In certain discussions, we may also provide revenue information on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets.

This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified there or in the Appendix, is qualified by GAAP reconciliation information available on our corporate website at www.pnc.com under

Cautionary Statement Regarding
Forward-Looking Information

Appendix

We make statements in this presentation, and we may from time to time make other statements, regarding our outlook or expectations for earnings, revenues, expenses and/or other matters regarding or affecting PNC that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking

statements

and other similar words and expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements are made as of the date they are made. We do not assume any duty and do not undertake to update our forward-looking statements. Because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those that we anticipate in our forward-looking statements, and future results could differ materially from our historical performance.

Our forward-looking statements are subject to the following principal risks and uncertainties. We provide greater detail regarding our forward-looking statements in our Form 10-K for the year ended December 31, 2006, including in the Risk Factors and Risk Management sections of that report, our Form 10-Q and other SEC reports. A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both
and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund certain BlackRock

programs, as our LTIP liability is adjusted quarterly (marked-to-market) based on changes in BlackRock s common stock price and committed shares, and we recognize gain or loss on such shares at such times as shares are transferred for payouts under the LTIP.

Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product pricing, share, deposits and revenues.

Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention management, liquidity, and funding. These legal and regulatory developments could include: (a) the unfavorable resolution of and other governmental inquiries; (b) increased litigation risk from recent regulatory and other governmental developments; (c) the results of the regulatory examination process, our failure to satisfy the requirements of agreements with governmental agencies, and regulators

of confidential customer information; and (e) changes in accounting policies and principles.

Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our business
through the effective use of third-party insurance, derivatives, and capital management techniques.

Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs
demands.

The adequacy of our intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual
impact our business and operating results.

Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities
impact on the economy and capital and other financial markets generally or on us or on our customers, suppliers or other countries.

Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance
