HL:NYSE
Free Writing Prospectus
Filed Pursuant to Rule 433
Registration No. 333-145919
December 12, 2007

Cautionary Note
Regarding
Forward
Looking
Statements

Statements made which are not historical facts, such as anticipated payments, litigation outcome, production, sales of assets, exploration results and plans, costs, and prices or sales performance are

forward-looking statements
within the meaning of the Private Securities Litigation Reform Act of 1995,
and involve
a
number
of
risks
and
uncertainties
that
could
cause
actual
results
to
differ
materially
from
those projected, anticipated, expected or implied. These risks and uncertainties include, but are not limited
to,
metals
price
volatility,
volatility
of
metals
production
and
costs,
exploration
risks
and
results,
political
risks, project development risks, labor issues and ability to raise financing. Refer to the company's Form 10-
Q and 10-K reports for a more detailed discussion of factors that may impact expected future results. The
company undertakes no obligation and has no intention of updating forward-looking statements.

Cash Cost
Per
Ounce
Reconciliation
to
GAAP
On Hecla Mining Company's website at
www.hecla-mining.com
you
can
find
the
quantitative

reconciliation

to GAAP of cash cost per ounce. The reconciliation can be found in this presentation, or in Hecla's quarterly earnings news release in the Investor Relations section of the website, as well as in the company's Form 10-K and 10-Q reports.

A Registration
Statement

has

been

Filed

Hecla Mining Company has filed a registration statement (including a prospectus) with the SEC for the offering to

which

this

communication

relates.

Before

you

invest,

you

should

read

the

prospectus

in

that

registration statement and other documents the issuer has filed with the SEC for more complete information about the issuer and this offering. You may get these documents for free by visiting EDGAR on the SEC Web site at

www.sec.gov.

Alternatively,

copies

of

the

preliminary

prospectus

supplement

and

accompanying

prospectus relating to this offering may be obtained by contacting Merrill Lynch & Co., 4 World Financial Center, New York, New York 10080; phone 212-449-1000.

Cautionary Note

(1)
Includes all direct and indirect operating cash costs related directly to the physical activities of producing metals, including

mining, processing and other plant costs, third-party refining and marketing expense, on-site general and administrative costs, royalties and mining production taxes, net of by-product revenues earned from all metals other than the primary metal produced at each unit.

(2)
The change in product inventory for the nine months ended September 30, 2006 includes approximately \$905,000 related to Sebastian cost of sales during the first quarter of 2006 for prior period doré shipments.

(3)
Costs per ounce of gold are based on the gold produced by the La Camorra mine and our Block B concessions, including Mina Isidora, only. During the quarters and nine-month periods ended September 30, 2007 and 2006, a total of 181 and 934 ounces, and 2,882 and 3,366 ounces of gold, respectively, were produced from third-party mining operations located near the La Camorra mine and Block B concessions. The revenues from these gold ounces were treated as a by-product credit and included in the calculation of gold costs per ounce. Included in total cash costs for the three and nine months ending September 30, 2007 and 2006, were the costs to purchase the ore of approximately \$0.2 million and \$0.6 million, respectively, and \$1.9 million and \$2.0 million, respectively.

(4)
Incentives have been offered at the La Camorra mine for voluntary reduction of the workforce. During the nine months ended September 30, 2007, these costs of sales and other direct production costs of \$1.3 million were not included in the determination of total cash costs for gold operations.

(5)
Operations at the Mina Isidora mine in Venezuela were closed during a portion of the second quarter of 2007 when a small group of local residents blocked Hecla employees from accessing the mine. Costs of sales and other direct production costs and depreciation, depletion, and amortization totaling \$2.7 million were incurred during the second quarter of 2007, and were not included in the total cash costs for gold operations.
