Item 1.01. Entry into a Material Definitive Agreement.

On April 7, 2008 (the Effective Date), Repligen Corporation (Repligen) and the University of Michigan (Michigan) entered into a settlement agreement (Settlement Agreement) with Bristol-Myers Squibb Company (Bristol) relating to the lawsuit against Bristol for infringement of U.S. Patent No. 6,685,941 (the 941 patent) based on Bristol s sale of Orencea®. The Settlement Agreement provides for Bristol to make an initial payment of \$5,000,000 and to pay royalties on the U.S. net sales of Orencea® for any clinical indication at a rate of 1.8% for the first \$500,000,000 of annual sales, 2.0% for the next \$500,000,000 of annual sales and 4% of U.S. annual sales in excess of \$1 billion for each year from January 1, 2008 until December 31, 2013. The settlement also provides for the grant by Repligen and Michigan to Bristol of an exclusive worldwide license under certain patent rights of Repligen and Michigan. The settlement serves as the basis for Repligen and Michigan to dismiss the lawsuit against Bristol.

In January 2006, Repligen and Michigan filed a complaint in the United States District Court for the Eastern District of Texas against Bristol alleging infringement of the 941 patent based on its sale of Orencea®. The claims of the 941 patent relate to the use of CTLA4-Ig (Orencea®) for the treatment of specific auto-immune diseases, including rheumatoid arthritis. The 941 patent is owned by Michigan and the United States Department of the Navy and is exclusively licensed to Repligen.

Item 7.01. Regulation FD Disclosure.

On April 8, 2008 Repligen announced in a press release that on April 7, 2008, Repligen, Michigan and Bristol executed a Settlement Agreement, which serves as the basis for Repligen and Michigan to dismiss the lawsuit against Bristol. The full text of the press release issued in connection with the announcement is attached as Exhibit 99.1 to this Current Report on Form 8-K.
