FORWARD-LOOKING STATEMENTS

Certain statements contained in this Form 6-K may be viewed as forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual performance, financial condition or results of operations of China Telecom Corporation Limited (the Company) to be materially different from any future performance, financial condition or results of operations implied by such forward-looking statements. The forward-looking statements include, without limitation, the continued growth of the telecommunications industry in China; the development of the regulatory environment; and the Company's ability to successfully execute its business strategies.

Such forward-looking statements reflect the current views of the Company with respect to future events. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation, any changes in the regulatory policies of the Ministry of Information Industry and other relevant government authorities; any changes in telecommunications and related technology and applications based on such technology; and changes in political, economic, legal and social conditions in China, including the Chinese government's policies with respect to economic growth, foreign exchange, foreign investment and entry by foreign companies into China's telecommunications market. Please also see the Risk Factors section of the Company's latest Annual Report on Form 20-F, as filed with the Securities and Exchange Commission.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Chairman's Statement

Dear Shareholders,

Early this year, a snowstorm with its scale and duration unprecedented in the last century occurred in China. The snowstorm caused grave disturbances to people's daily lives, as well as serious challenges to our telecommunications services. During the Lunar New Year, in places where the snowstorm was most severe, I myself witnessed many of our people volunteered to sacrifice their precious family gathering opportunities to make emergency repairs on the telecommunications facilities fearlessly under the harsh weather conditions. In some circumstances, in order to ensure smooth communications, they even insisted on staying on duty under no power and water supply which lasted for several days. Their courage and strong team efforts well demonstrated the unwavering dedications spirits of our China Telecom people Exceptional strength, exceptional endurance and exceptional devotion. Their actions had written a new chapter of Customer First, Service Foremost. I am deeply impressed with the vibrancy of the Company despite its long establishment over a century. As we further drive our strategic transformation and progress our way to the upcoming full services offering, I firmly believe the Company will have a thriving future.

Looking back at the corporate development in the past three years, we are grateful to see the encouraging results achieved by our persistent efforts in strategic transformation and innovation. Strategic transformation has accelerated our corporate development and placed us at the forefront of the telecommunications industry. Strategic transformation also injected new energy into the Company's development. We have established a customer-oriented brand management system and strengthened our capabilities in integrated information application services. With further optimized business structure and enhanced financial capabilities, we have reinforced our ability to increase our shareholders' value.

2007 FINANCIAL RESULTS

In 2007, the Company grasped the opportunities brought by informatisation. We tackled various challenges to promote the scale development of transformation business, which helped to sustain overall revenue growth. We also took initiatives to alleviate the decline in our traditional voice business. As a result, we maintained solid fundamentals and achieved favorable financial results in the highly competitive market. Operating revenues reached RMB178,656 million, in which the amortisation of upfront connection fees was RMB3,294 million. Excluding the upfront connection fees, operating revenues were RMB175,362 million, a 2.8% increase from 2006. EBITDA¹ was RMB85,974 million, a 1.3% increase from 2006. EBITDA margin¹ was 49.0%, broadly at the same level as 2006. Profit attributable to equity holders of the Company² (excluding the effect of the related assets revaluation, which was carried out at least once every three years) was RMB22,517 million, an increase of 1.1% from 2006. Capital expenditure decreased by 7.2% from 2006 to RMB45,558 million. Free cash flow³ reached RMB33,964 million, a 17.2% increase from 2006.

Taking into consideration of our shareholders' return and the Company's capital requirements for future development, especially the preparation of our full services offering, the Board of Directors will recommend at the forthcoming Annual General Meeting that the dividend be an equivalent of HK\$0.085 per share, same as last year.

¹ Including the amortisation of the upfront connection fees, EBITDA was RMB89,268 million, EBITDA margin was 50.0%.

² According to the Company's accounting policy, in 2007, the Company carried out a revaluation on property, plant and equipment (which was carried out at least once every three years). The surplus on revaluation of RMB4,809 million was shown in the consolidated statement of changes in equity. The deficit on revaluation of RMB2,755 million was recognized in the consolidated income statement. Profit attributable to equity holders of the Company, including amortisation of the upfront connection fees, deficit on revaluation and respective income tax effect, was RMB23,702 million.

³ Free cash flow is calculated from EBITDA (excluding amortisation of the upfront connection fees) minus capital expenditure and income tax.

BRAND ORIENTED AND INNOVATIVE OPERATIONS

In 2007, brand operation was the main theme of the Company. We continued to put enormous efforts in developing our two major customer brands- BizNavigator and One Home , targeted at government and enterprise customers and mid-to-high-end household customers respectively. Upon converging various businesses and products according to customers' demands, values and core competitiveness of the customer brands were enhanced. Contract subscribers to BizNavigator and One Home reached 1.884 million and 10.536 million respectively in 2007. Informatisation services were the focus of our business transformation. Broadband services, value-added services and integrated information services achieved significant breakthrough. Non-voice business revenue represented 36.5% of the Company's overall operating revenues, an increase of 7.4 percentage points from 2006. Due to intensifying mobile substitution, the Company experienced negative growth in access lines in service for the first time. Voice business revenue decreased by 7.9% from 2006. Facing new challenges in our traditional voice business, we will consolidate its performance by further enriching the applications on informatisation and improving service packages.

To facilitate brand operation, we continuously optimized our organizational structure and promoted management innovation. We incorporated a subsidiary specializing in Best Tone services to rapidly strengthen our vertically-integrated operation in the information media areas. We adjusted the operational structure of our system integration business that strengthened our capabilities to provide better professional solutions and services to our government and enterprise customers, as well as other business customer groups. Our staff force was optimized by recruiting more professional personnel to IP, IT and information services operations. We also perfected our incentive schemes, focusing especially on the promotion of strategic transformation and value enhancement and stimulating the activeness and creativity of our staff in transformation business.

We endeavor to improve our operation support system and our brand recognition. The full deployment of CRM system strengthened our customer relations management. The launch of integrated multi-service billing system provided effective means for targeted precision marketing. Meanwhile, we further pushed forward the establishment of customer-oriented network maintenance system to closely link up front-line operations and back-end support. As a result, we progressively enhanced our capabilities of providing diversified services to customers.

We proactively implemented financial precision management to enhance shareholders' return. The Company continued its strict control over capital expenditure. The ratio of capital expenditure to operating revenues was further lowered by 2.8 percentage points from 2006. Resources allocation was further optimized with strict control over investments in our traditional fixed-line voice business, while ensuring the investment needs of transformation business such as broadband services, value-added services and integrated information services. Our operating efficiency was raised through optimizing capital, cost and asset structures, strengthening cost management and capital budgeting and optimizing asset resources.

We expanded our services into rural and overseas markets. The Company increased its efforts to promote broadband access services in relatively affluent rural areas so as to meet their demand for informatisation. We are delighted to achieve growths in both revenue and subscribers in rural markets. In respect of overseas markets, we successfully acquired from our parent company its subsidiaries in Hong Kong and America to benefit from the rapid growth of these two overseas markets and also enhance our capabilities of providing global one-stop shopping services for multi-national customers.

CORPORATE GOVERNANCE

In order to enhance operating efficiency and investor confidence, we are firmly committed to adopting international best practices to improve corporate governance and transparency continuously. The Company greatly emphasizes the importance of internal control and risk management. In terms of meeting regulatory requirements, we further improved our internal control and assessment systems, and progressively integrated the comprehensive risk management mechanisms into our daily operations. Thus the interests of our shareholders are safeguarded. Our continuous efforts in corporate governance were widely recognized by the capital market. We have been accredited with a number of awards, including World's Most Admired Companies for the year 2007 by *Fortune* and Asia's Best Managed Fixed Telecom Company in 2007 by *Euromoney*.

CORPORATE SOCIAL RESPONSIBILITY

We operate with integrity and offer credible services to customers. In facilitating healthy development in telecommunications industry, we endeavor to protect fair and orderly market competition, and advocate multiple-wins cooperation for all participants in the value chain. Aside from the sustainable growth of our own, we devote to contribute to the country's economic development, environmental protection and construction of a harmonious society, and to create a favorable environment for the success of our upcoming full services offering.

OUTLOOK FOR 2008

In 2008, strategic transformation of the Company will enter into a new phase. For this purpose, we have advocated the strategy of Customer-focused Innovative Informatisation, which will accelerate our transformation into a leading integrated information services provider. We will make greater efforts in management reform and innovation, and consolidate provincial subsidiaries into branches to strengthen integration of operational management systems. We will also restructure our front-line departments, which will enable us to implement better customer group management and sales. We will allocate more resources to core customer groups and strengthen our customer-oriented operation systems to raise our brand recognition.

Looking ahead, we are fully confident. Although the intensifying market competition is a serious challenge to us, the upcoming full services offering will bring enormous business opportunities. We will keep abreast of the trend of global telecommunications industry as we implement the convergence of multi-communication means and multi-products in a broader perspective. We will also strengthen our execution capabilities in providing integrated information services to customers, and thus to continually create new values for our shareholders.

Finally, on behalf of the Board of Directors, I would like to take this opportunity to express my sincere appreciation to all our shareholders and customers for their support. I would also like to thank Madam Huang Wenlin for her brilliant contributions during her term as Executive Director of our Company and welcome Mr. Zhang Chenshuang to join our management team.

Wang Xiaochu

Chairman and Chief Executive Officer

Beijing, China

31 March 2008

Business Review

The following table sets out key operating data in 2005, 2006 and 2007:

	Unit	2005	2006	2007	Rate of Change (2007 over 2006)
Local wireline access lines in service	Million	210.09	223.04	220.33	(1.2)%
Local voice usage	Million pulses	449,404	422,562	406,268	(3.9)%
Domestic long distance usage	Million minutes	93,817	95,567	98,251	2.8%
International, Hong Kong, Macau and Taiwan long distance usage	Million minutes	1,711	1,601	1,588	(0.8)%
Broadband subscribers	Million	21.02	28.32	35.65	25.9%
Volume of Inbound local calls	Million minutes	102,670	124,452	135,447	8.8%
Caller ID service subscribers	Million	131.46	145.73	146.74	0.7%
SMS usage volume	Million messages	17,254	23,277	23,346	0.3%
Colour Ring Tone subscribers	Million	18.16	36.68	63.19	72.2%

In 2007, the Company continued to implement business transformation strategy. By proactively innovating development models and vigorously promoting customer branding management, the Company gradually shifted its operation focus from voice services to integrated information services. The Company gained momentum in its business transformation.

In 2007, total operating revenues were RMB178,656 million, representing an increase of 1.7% from 2006. Excluding amortisation of the upfront connection fees, the Company's operating revenues were RMB175,362 million, representing an annual growth of 2.8%. The increase in operating revenues was mainly attributed to Internet access services and value-added and integrated information application services, which increased by 32.1% and 35.4% respectively. These increases have further optimised the income structure of the Company and raised its risk management capability.

Voice Services

In 2007, the total number of wireline telephone subscribers recorded an unprecedented negative growth. Such decrease was attributable to the reduction in domestic mobile tariffs and the popularisation of mobile voice communication. The total number of wireline telephone subscribers decreased by 2.71 million to 220.33 million while the number of wireless local access subscribers decreased by 4.68 million to 58.04 million. Due to the reduction in the number of subscribers and the consistent decline in the value of the wireline voice service, revenue from voice services continued to decrease. In 2007, the revenue from voice services¹ was RMB111,312 million, a decrease of 7.9% from 2006, accounting for 63.5% of operating revenues, representing a decrease of 7.4 percentage points from 2006.

In 2007, the Company's revenues from various voice services showed trends of decline. The revenue from local telephone services was RMB70,424 million, representing a decrease of 9.8% from 2006. The revenue from domestic long distance services amounted to RMB24,127 million, representing a decrease of 5.4% from 2006. Revenue from international, Hong Kong, Macau and Taiwan long distance telephone services totalled RMB2,882 million, representing a decrease of 10.6% from 2006. Due to significant influence from Calling-Party-Pay scheme offered by mobile operators and the increasing diversion of voice usage volume to growing mobile networks, the revenue from interconnection recorded an unprecedented negative growth, with a decrease of 1.5% to RMB13,879 million.

In 2007, to slow down the decrease in revenue from voice services, the Company adopted a number of measures and introduced tailored packaged services targeting at the three major client markets, namely the government and enterprises, households and rural areas. In respect of government and enterprises, the Company mainly introduced packaged sales for voice, broadband, and value-added and integrated information application services. In respect of household customers, the Company mainly launched the packaged sales of voice and broadband services. In respect of rural areas, the Company focused on the packaged sales of voice and value-added services. Meanwhile, to avoid simple price cutting in the highly competitive long-distance services market, the Company emphasized its packaged sales of local telephone services and broadband services so as to offer additional values, increase attractiveness of such services and improve the stickiness of customers.

Non-Voice Service

In 2007, the Company fully leveraged its first-mover advantage in business transformation. The Company retained the traditional business volume by developing transformation businesses while drove the scale development of transforming businesses by further strengthening traditional businesses. With customised service packages to meet the demands of different customers, the Company has raised the profile of these services amongst customers. In 2007, the Company's revenues from non-voice services were RMB64,050 million. The proportion of revenues from non-voice services to operating revenues increased by 7.4 percentage points to 36.5% from 2006.

In 2007, emphasizing on both scale and profitability as well as differentiation in products, applications and services for broadband business, the Company achieved revenue of RMB31,340 million from Internet access services, representing an annual growth of 32.1%. The proportion of revenues from Internet access services to operating revenues increased by 4.0 percentage points to 17.9% from 2006. In 2007, as the Company insisted on the strategy of scale development of broadband subscribers, the total number of broadband subscribers increased by 7.33 million to 35.65 million. At the same time, driven by the scale of broadband customer base, the Internet value-added services, including ChinaVNet and IDC, developed rapidly with a revenue growth rate of 56.0% from 2006. With Internet VAS, the Company increased the attractiveness of broadband services and maintained the stability of broadband subscriber ARPU. In 2007, broadband subscriber ARPU rose steadily to RMB80 per month per subscriber. To maintain the competitive edge of broadband services, the Company will continue to innovate the development approach of broadband services, while it has already started enhancement of broadband account number-based operations and standardisation of customer-end terminals.

The consistent and rapid growth of value-added and integrated information application services has become a major driver for stabilising wireline voice usage volume and revenue growth. In 2007, the Company focused on expanding three major customer markets, namely the government and enterprises, households and rural areas. Through various marketing approaches, such as customer experience, SMS and telesales, packaged sales and joint promotion, the Company promoted the scale development for value-added business. Revenues from value-added and integrated information application services were RMB19,231 million, representing an annual growth of 35.4%. The proportion of revenues from value-added and integrated information application services to operating revenues increased by 2.6 percentage points from 2006 to 11.0%.

In 2007, the Company's penetration rate of wireline value added services consistently increased. The revenue growth rate of Caller ID was 8.3% with a penetration rate of 66.6%, while the revenue growth rate of Colour Ring Tone was 79.1% with a penetration rate of 28.7%. In addition, the Company consistently enriched and expanded the variety of wireline value added services. Telephone radio services achieved breakthrough, wireline telephone payment grew steadily in 2007.

The Company continued to promote the development of integrated information application services, including Best Tone, IT services and application, enterprise informatisation applications, and video applications. In 2007, the revenue from Best Tone services increased by 155.5% from 2006. The Company launched a nationwide campaign for the promotion of whole-packaged Best Tone BizTravel services, which comprises a series of services in relation to ticket booking and hotel reservation, making Best Tone BizTravel and Communication Assistant highly-competitive products of the Best Tone services. Revenues from IT services and applications, and enterprise informatisation applications rapidly increased by 108.1% and 90.1% from 2006, respectively. In addition, the Company insisted on seeking broad cooperation, explored development approaches in respect to IT services and applications, and enterprise information application services, integrated its resources and established professional teams for planning and promoting of key products. Besides, the Company paid attention to the development of video applications, of which security monitoring services grew rapidly and commercial testing of IPTV progressed smoothly.

In 2007, resources leasing services of the Company sustained a steady growth. Revenue from resources leasing services was RMB8,334 million, representing an annual growth rate of 9.3%, in which revenue from managed data services was RMB3,013 million and revenue from leased line services was RMB5,321 million.

Customer Service and Channel Development

In 2007, in line with the shift of business focus, the Company constantly adjusted its distribution channels by covering major customer groups and products with core channels and developing e-channels in full swing. As a result, costs were reduced and efficiency was enhanced. With the assistance of sales offices and Hotline 10000, direct channel account managers provided services to government and enterprise customers in accordance with the industry and consumption characteristics of the customers while allocating adequate resources to key products. Additionally, the Company capitalised on various forms of collaboration to improve its coverage for SME clients and other business customers. With physical and electronic distribution channels, the Company provided services to the household customers. In order to reinforce the basic services for the public and the differentiated services for the brand customers through physical channels, the Company set up exclusive service zones for brand customers in both first-tier and second-tier sales offices, and offered all-in-one-form and no-form services in some of the sales offices. Moreover, electronic channels, including online customer service and Hotline 10000, are capable of dealing with subscription of brand customers services. In 2007, upon the opening of subscription of e8 and e6 over Hotline 10000, this channel accounted for 26.7% of total subscriptions, resulting in significant enhancement of channel efficiency. Constantly improved by the diversified service channels, the level of customer satisfaction remained leading in the industry.

Brand Operation

In 2007, the Company implemented a customer brand-oriented management strategy for business transformation. Through in-depth promotion, the Company has raised the recognition of BizNavigator and One Home brands and built up good brand images in the enterprises and household customers markets.

To drive the sales to enterprise customers with BizNavigator, the Company introduced three versions of BizNavigator, which are communication, information and industry versions respectively. In 2007, revenue from government and enterprises customers increased 11.2% from 2006. Incorporated with label products, such as Super Cordless, enterprise switchboard and corporate Colour Ring Tone, the Company introduced the communication version. In addition, with wireless modems and routers as customised terminals, and corporate mailbox and network hard disks as key applications, the Company introduced the information version. The total number of BizNavigator customers was 1.88 million. Aiming at the development of industry applications in relation to electronic government administration, Hotel Perfection Alliance, e-Campus, e-commercial buildings, conference and exhibition applications, Mega Eye and electronic tax filings, the Company organised and implemented the so-called Hundred Thousand Ten Thousand program, through which the number of customers in Hotel Perfection Alliance reached 5,843 while the number of Mega Eye monitoring spots reached 84 thousand.

With One Home as the core product, the Company proactively developed mid- and high-end households market. In 2007, focusing on the household customers, the Company successfully organised the promotion activities for the launch of One Home brand and optimised the e8 and e6 packaged product series. Through nationwide marketing measures, including targeted brand promotion and improvement of customised terminals, the Company has promoted the scale development of One Home. In 2007, the number of One Home customers was 10.54 million, with e8 customers accounting for 76% of One Home customers and 28% of total residential broadband subscribers, while the customised terminals of One Home were widely adopted by e8 customers. As a result, One Home has successfully strengthened its position in the households market, with revenues from household customers increasing steadily at 4.3% from 2006.

As rural areas still have increasing demands for communication information services, they have become one of the major target markets of the Company. In line with informatisation strategy, the Company expanded the rural market and strengthened the customer base in rural areas by introducing a standardised integrated service brand "Info Farm", which provides services in relation to voice, broadband and distance education. In addition, the Company put great efforts in the development of "Countryside Network". In 2007, most of the increase in number of telephone subscribers and about one-third of the increase in broadband subscribers were from the rural market.

Construction of Network and Support Systems

By adjusting the focus and structure of investment, the Company has effectively controlled total investments. In 2007, capital expenditure of the Company totalled RMB45,558 million, representing a decrease of 7.2% from 2006. The ratio of capital expenditure to operating revenues decreased by 2.8 percentage points to 26.0% from 2006. In respect of the investment structure, the Company continued to increase investments into core products and transformation businesses. As a result, in 2007, the investment in the Internet and data service equipment increased by 37.4% from 2006. Meanwhile, the investment in fixed-line network switch equipment, local telephone transmission and access, and wireless local access decreased by 31.9%, 22.2% and 63.4% from 2006, respectively. In addition, the investment in telecommunications infrastructure and others dropped by 24.8%.

The Company reinforced the support for business transformation through the promotion of network optimisation and renovation. In 2007, to ensure the service quality for key customers, the Company significantly increased IP backbone bandwidth, completed the optimisation and renovation of Metropolitan Area Network and its interconnection with CN2, and improved the support for the tailored end-to-end services over IP network as well as the network management capability. With the broad implementation of replacing the old copper wire with optical fiber, the Company promoted the deployment of optical fibre access network, which effectively increased the bandwidth for broadband access. At the end of 2007, 85% of our broadband Internet network will support 2M Broadband accesses, 65% of the network will support 8M broadband accesses, representing an increase of 7 percentage points and 12 percentage points from 2006, respectively. In 2007, the Company increased its wireless broadband (WLAN) hotspot coverage and roaming test spots. In addition, the Company actively promoted customised terminals of One Home to support its promotion. To supplement its brand value, the Company enhanced platform capacity and level of differentiated services for BizNavigator. Furthermore, to support the business development and nationwide standardised management of Best Tone, the Company standardised the search engine, data model and call centers.

To enhance the customer service level, the Company significantly upgraded and optimised its IT system. In 2007, the Company further improved the functions of Business Supporting System (BSS) to enhance the customer base management. Through the full implementation of Customer Relations Management (CRM) system, the Company has basically built a standardised customer database and profile, speeding up the implementation of all-in-one form function and further strengthening the capability of customer relationship management. Besides, the Company also established an integrated multi-service billing system and completed the development of corporate data application portals so as to provide strong support to precision marketing and sales.

Outlook for 2008

In 2008, as the Company continues to deepen its strategic transformation and prepares for the upcoming full services offering, the Company will enjoy an excellent development prospect. However, due to constant changes of the pricing policy of mobile communication and the rapid diversion of traditional services attributable to emerging telecommunication methods, the Company will encounter more challenging issues in the course of development.

In 2008, the Company will actively implement its Customer-oriented Innovative Informatisation strategy. By putting focus on core customers, concentrating resources to the core customer groups and strategically allocating resources according to the strategic customer grouping, the Company strives to explore, direct and satisfy customers' demands for information services. In addition, the Company puts more emphasis on brand management by making greater efforts in brand promotion. In this way, brand image will be rapidly raised, forming differentiated competitive edge. The Company will continue to develop in the information services arena and insist on driving business development with applications. Through the development and promotion of information service applications and emphasis on information content operation, the Company will proactively extend its services in both the upper stream and lower stream of the industry chain so as to facilitate the scale development of integrated information services. By speeding up the innovation of technology, products and services, the Company will vigorously develop services in relation to IT services and applications, Best Tone and Internet applications. Attaching great importance to the strategic transformation as well as the R&D of future core products, we will implement the convergence of multi-communication means and multi-products in a broader perspective and strengthen our execution capabilities in providing integrated information services to our customers.

Management's Discussion and Analysis of Financial Conditions and Results of Operations

Summary

On 30 June 2007, the Company completed its acquisition from China Telecommunications Corporation of the entire equity interests in China Telecom System Integration Co. Ltd., China Telecom (Hong Kong) International Limited and China Telecom (Americas) Corporation (formerly known as China Telecom (USA) Corporation) (collectively the Third Acquired Group). Since the Company and the Third Acquired Group were under the common control of China Telecommunications Corporation, our acquisition of the Third Acquired Group has been treated as a combination of entities under common control , and was accounted for in a manner similar to a pooling-of-interests (as-if-pooling-of-interests accounting). Accordingly, the assets and liabilities of the Third Acquired Group have been accounted for based on their historical amounts and our financial statements for the period prior to the acquisition have been restated to include the financial position and results of operations of the Third Acquired Group on a combined basis. Unless otherwise indicated in this section, our financial data for the period prior to the acquisition are presented based on those restated amounts.

Our operating revenues in 2007 were RMB178,656 million, representing an increase of 1.7% from 2006. Our operating expenses in 2007 were RMB141,645 million, representing an increase of 3.3% from 2006. Profit attributable to equity holders of the Company in 2007 was RMB23,702 million. In 2007, our basic earnings per share were RMB0.29, EBITDA¹ was RMB89,268 million and EBITDA margin was 50.0%.

Excluding the amortisation of upfront connection fees, deficit on revaluation of property, plant and equipment and related tax effect² (the revaluation was carried out at least once every three years), our operating revenues in 2007 were RMB175,362 million, representing an increase of 2.8% from 2006; profit attributable to equity holders of the Company in 2007 was RMB22,517 million, representing an increase of 1.1% from 2006; basic earnings per share were RMB0.28; EBITDA was RMB85,974 million and EBITDA margin was 49.0%.

Operating Revenues

Our operating revenues in 2007 were RMB178,656 million, representing an increase of 1.7% from 2006. Excluding the amortisation of upfront connection fees, our total operating revenues in 2007 were RMB175,362 million, representing an increase of RMB4,717 million or 2.8% from 2006. Revenue from Internet access services, and value-added and integrated information application services increased by RMB7,616 million and RMB5,028 million from 2006 respectively, which represented the major sources of revenue growth. Revenues from leased line services and other businesses increased by RMB773 million and RMB966 million from 2006 respectively. Revenue from managed data services remained at a similar level as 2006. Revenues from local telephone services and long distance services continued to decrease.

¹ Our EBITDA refers to profit before net finance costs, investment income, share of profits of associates, income tax, depreciation and amortisation, deficit on revaluation of property, plant and equipment and minority interests. As the telecommunications business is a capital-intensive industry, capital expenditure, the level of gearing and finance costs may have a significant impact on the net profit of companies with similar operating results. Therefore, we believe EBITDA may be helpful in analysing the operating results of a telecommunications service provider like us. Although EBITDA has been widely applied in the global telecommunications industry as a benchmark to reflect the operating performance, financial capability and liquidity, it is not regarded as a measure of operating performance and liquidity under generally accepted accounting principles. It also does not represent net cash from operating activities. In addition, our EBITDA may not be comparable to similar indicators provided by other companies.

² In accordance with the Group's accounting policy, the property, plant and equipment of the Group as at 31 December 2007 were revalued for each asset class by the Company (which was carried out at least once every three years) on a depreciated replacement cost basis. The property, plant and equipment as at 31 December 2007 was revalued at RMB326,123 million. The surplus on revaluation of certain property, plant and equipment totalling RMB4,809 million was credited to the revaluation reserve while the deficit on revaluation of certain property, plant and equipment totalling RMB2,755 million was recognised as an expense for the year ended 31 December 2007.

The following table sets forth a breakdown of our operating revenues for 2006 and 2007, together with their respective rates of change:

	For the year ended 31 December		Rates of Change
	2007	2006	
<i>(RMB in millions, except percentage data)</i>			
Wireline telephone services ³			
Local			
Installation fees	2,735	2,913	(6.1)%
Monthly fees	25,346	28,973	(12.5)%
Local usage fees	42,343	46,188	(8.3)%
Subtotal	70,424	78,074	(9.8)%
Domestic long distance	24,127	25,517	(5.4)%
International, Hong Kong, Macau and Taiwan long distance	2,882	3,225	(10.6)%
Interconnections	13,879	14,095	(1.5)%
Subtotal	40,888	42,837	(4.5)%
Internet access services	31,340	23,724	32.1%
Value-added and integrated information application services	19,231	14,203	35.4%
Managed data	3,013	3,080	(2.2)%
Leased line services and others ⁴	10,466	8,727	19.9%
Operating revenues (excluding amortisation of upfront connection fees)	175,362	170,645	2.8%
Upfront connection fees	3,294	4,971	(33.7)%
Total operating revenues	178,656	175,616	1.7%

³ Including revenue from our registered subscribers, public telephones and pre-paid calling cards services.

⁴ Including primarily revenue from business customers for the lease of wireline telecommunications network facilities, sales and repairs and maintenance of customer-end equipment and construction of telecommunications network and infrastructure for customers.

Local Telephone Services

In 2007, revenue from our local telephone services was RMB70,424 million, representing a decrease of 9.8% from RMB78,074 million in 2006 and accounting for 39.4% of our operating revenues, or 40.2% of our operating revenues after deducting amortisation of upfront connection fees. The major reason for this decrease in revenue was that mobile service has further exacerbated the diversion from wireline services due to the continued decline in tariffs for mobile services, which narrowed the gap between mobile service tariffs and wireline service tariffs.

Installation fees

Upfront installation fees are amortised over the expected customer relationship period of 10 years. Revenue from installation fees decreased by 6.1% from RMB2,913 million in 2006 to RMB2,735 million in 2007.

Monthly fees

Revenue from monthly fees in 2007 was RMB25,346 million, representing a decrease of 12.5% from RMB28,973 million in 2006. The major reason for this decrease in revenue was the reduction in monthly fees rate in response to market competition.

Local usage fees

Revenue from local usage fees in 2007 was RMB42,343 million, representing a decrease of 8.3% from RMB46,188 million in 2006. Local voice usage volume in 2007 reached 406,268 million pulses, representing a decrease of 3.9% from 2006. The decrease in revenue was mainly due to the intensifying mobile substitution, the diversification of the means of communication and the decline in average fees.

Long Distance Telephone Services

In 2007, revenue from our long distance telephone services was RMB27,009 million, representing a decrease of 6.0% from RMB28,742 million in 2006, accounting for 15.1% of our operating revenues, or 15.4% of our operating revenues excluding the amortisation of upfront connection fees.

Domestic long distance services

In 2007, revenue from our domestic long distance services was RMB24,127 million, representing a decrease of 5.4% from RMB25,517 million in 2006, while domestic long distance telephone usage volume was 98,251 million minutes, representing an increase by 2.8% from 95,567 million minutes in 2006. The decrease in revenue was attributable to a decrease in average unit price from RMB0.27 per minute in 2006 to RMB0.25 per minute in 2007.

International, Hong Kong, Macau and Taiwan long distance services

In 2007, revenue from our international, Hong Kong, Macau and Taiwan long distance services was RMB2,882 million, representing a decrease of 10.6% from RMB3,225 million in 2006. The decrease in revenue was mainly attributable to the decrease in average unit price of international, Hong Kong, Macau and Taiwan long distance services by 10.0% from RMB2.01 per minute in 2006 to RMB1.81 per minute in 2007.

Interconnection Services

In 2007, revenue from our interconnection services was RMB13,879 million, representing a decrease of 1.5% from RMB14,095 million in 2006, accounting for 7.8% of our operating revenues, or 7.9% of our operating revenues excluding the amortisation of upfront connection fees. Decrease in such revenue was mainly attributable to the Calling-Party-Pay scheme offered by mobile operators and the increasing diversion of voice usage volume to growing mobile networks.

Internet Access Services

In 2007, revenue from our Internet access services was RMB31,340 million, which grew by 32.1% from RMB23,724 million in 2006, accounting for 17.5% of our operating revenues, or 17.9% of our operating revenues excluding the amortisation of upfront connection fees. Driven by the continuous expansion of our broadband subscriber base in recent years, our Internet access services sustained a rapid growth. The number of our broadband subscribers increased by 7.33 million, or 25.9% from 2006 to 35.65 million as of the end of December 2007.

Value-Added and Integrated Information Application Services

In 2007, revenue from our value-added and integrated information application services was RMB19,231 million, representing an increase of 35.4% from RMB14,203 million in 2006, accounting for 10.8% of our operating revenues, or 11.0% of our operating revenues excluding the amortisation of upfront connection fees. The increase in revenue from our value-added and integrated information application services was mainly attributable to the rapid development of our caller ID service, Colour Ring Tone, Internet value-added services, IT services and applications.

Managed Data Services

In 2007, revenue from our managed data services was RMB3,013 million, representing a decrease of 2.2% from RMB3,080 million in 2006.

Leased Line and Other Services

In 2007, revenue from our leased line services and other services was RMB10,466 million, representing an increase of 19.9% from RMB8,727 million in 2006. Revenue from leased line services was RMB5,321 million, representing an increase of 17.0% from RMB4,548 million in 2006, which was mainly due to the increasing demand of customers for network resources.

Upfront Connection Fees

Upfront connection fees represent the amortised amount of the upfront fees received for the initial activation of wireline services, amortised over the expected customer relationship period of 10 years. Effective from July 2001, we ceased to charge new subscribers upfront connection fees. The amortised amount was RMB3,294 million in 2007, representing a decrease of 33.7% from RMB4,971 million in 2006.

The table below sets forth the amortisation of upfront connection fees from 2008 to 2011 based on an amortisation period of 10 years (with 2011 as the end of the amortisation period):

	For the year ending 31 December			
	2008	2009	2010	2011
	<i>(RMB in millions)</i>			
Amortisation of upfront connection fees	2,022	1,151	497	98

Operating Expenses

In 2007, our operating expenses were RMB141,645 million, representing an increase of 3.3% from 2006. The ratio of our operating expenses to operating revenues increased from 78.1% in 2006 to 79.3% in 2007, or 80.8% of our operating revenue excluding the amortisation of upfront connection fees, which remained at a similar level as 2006. The following table sets out a breakdown of our operating expenses in 2006 and 2007 and their respective percentage change:

	For the year ended		Percentage
	31 December		
	2007	2006	Change
	<i>(RMB in millions, except percentage data)</i>		
Depreciation and amortisation	52,257	51,301	1.9%
Network operations and support expenses	31,622	31,055	1.8%
Selling, general and administrative expenses	23,667	22,259	6.3%
Personnel expenses	27,242	26,210	3.9%
Interconnection and other operating expenses	6,857	6,255	9.6%
Total operating expenses	141,645	137,080	3.3%

Depreciation and Amortisation

Our depreciation and amortisation expenses were RMB52,257 million in 2007, representing an increase of 1.9% from 2006, accounting for 29.3% of our total operating revenues. The depreciation and amortisation expenses as a percentage of our operating revenues excluding the amortisation of upfront connection fees decreased from 30.1% in 2006 to 29.8% in 2007.

Network Operations and Support Expenses

Our network operations and support expenses were RMB31,622 million in 2007, representing an increase of 1.8% from RMB31,055 million in 2006, accounting for 17.7% of our total operating revenues, or 18.0% of our total operating revenues excluding the amortisation of upfront connection fees. Such increase was mainly attributable to the increase in electricity prices and increase in costs in transforming businesses such as IT services and applications.

Selling, General and Administrative Expenses

In 2007, our selling, general and administrative expenses amounted to RMB23,667 million, representing an increase of 6.3% from RMB22,259 million in 2006, accounting for 13.2% of our operating revenues, or 13.5% of our operating revenues excluding the amortisation of upfront connection fees. This increase was mainly attributable to additional sales and marketing expenses in relation to brand management, development of transforming businesses and retaining subscriber base.

Personnel Expenses

In 2007, our personnel expenses were RMB27,242 million, representing an increase of 3.9% from RMB26,210 million in 2006. Such increase was mainly attributable to the maintenance of the Company's effective incentive scheme and the recruitment of more talented professional personnel to IP, IT and information services operations in line with strategic transformation needs, among other considerations. Our personnel expenses in 2007 account for 15.2% of our operating revenues, and 15.5% of our operating revenues excluding the amortisation of upfront connection fees, which was similar to that in 2006.

Interconnection and Other Operating Expenses

The Company's interconnection and other expenses increased by 9.6% from RMB6,255 million in 2006 to RMB6,857 million in 2007. Increase in long distance voice interconnections driven by Calling-Party-Pay scheme of mobile services was the major reason for the increase in interconnection expenses. Our net revenue from interconnections (interconnection revenue less interconnection expenses) in 2007 amounted to RMB7,119 million, representing a decrease of 9.7% from 2006.

Net Finance Costs

In 2007, the Company's net finance costs were RMB4,300 million, representing a decrease of 4.2% from RMB4,489 million in 2006, in which net exchange gain was RMB105 million, which was similar to 2006. Our interest expenses decreased by RMB594 million. Such decrease was mainly attributable to our repayment of matured interest-bearing debts.

Revaluation of Property, Plant and Equipment

In accordance with the Group's accounting policy, the property, plant and equipment of the Group as at 31 December 2007 were revalued for each asset class by the Company (which was carried out at least once every three years) on a depreciated replacement cost basis. The property, plant and equipment as at 31 December 2007 was revalued at RMB326,123 million. The surplus on revaluation of certain property, plant and equipment totalling RMB4,809 million was credited to the revaluation reserve while the deficit on revaluation of certain property, plant and equipment totalling RMB2,755 million was recognised as an expense for the year ended 31 December 2007. The surplus was mainly attributable to an increase in the prices of properties. The deficit was mainly due to a decrease in the prices of equipment resulting from the technological advancement.

Income Tax

The Company's statutory income tax rate is 33%. In 2007, the Company's income tax expenses were RMB6,452 million, and effective income tax rate was 21.3%, whereas the effective income tax rate for the Company's income tax expenses excluding the upfront connection fees was 23.9%. The difference between the effective income tax rate and the statutory income tax rate was mainly attributable to the exclusion of upfront connection fees from taxable revenue, and the preferential income tax rate of 15% enjoyed by our operating subsidiaries located in special economic zones and in the western part of China. Another reason for our effective tax rate being lower than the statutory tax rate was that some of our operating subsidiaries received tax credits of RMB1,319 million on the purchases of domestic equipment in 2007. Under the new taxation law, the previous tax rate of 33% applicable on the Company and a number of subsidiaries has been reduced to 25% effective from 1 January 2008. The tax authorities will no longer assess and approve any tax credit for domestic equipment purchases from 2008 onwards.

Profit Attributable to Equity Holders of the Company

In 2007, the profit attributable to equity holders of the Company reached RMB23,702 million, representing a decrease of 13.0% from RMB27,241 million in 2006. Excluding the amortisation of upfront connection fees, deficit on revaluation of property, plant and equipment and related tax effect (which was carried out at least once every three years), the profit attributable to equity holders of the Company was RMB22,517 million, representing an increase of 1.1% from RMB22,270 million in 2006. The Company has continued to maintain a good level of operating efficiency and profitability.

Capital Expenditure

In 2007, the Company continued with its prudent policy on capital expenditure. Capital expenditure was RMB45,558 million, representing a decrease of 7.2% from RMB49,116 million in 2006. In order to implement changes in the Company's strategic transformation, we have effectively controlled the scale of our capital expenditure and optimised our investment structure. We have significantly reduced our capital expenditure in connection with traditional fixed line voice businesses and telecommunications infrastructure, and increased our investment in broadband access and data network.

In 2008, our estimated capital expenditure is approximately RMB45,000 million. The main sources of our capital are cash generated from operating activities, bank borrowings and other indebtedness. We expect that we will have sufficient funding sources to meet our capital expenditure requirements in the future.

Cash Flows and Capital Resources

Cash Flows

In 2007, net cash outflow of the Company was RMB1,838 million, while its net cash inflow was RMB4,053 million in 2006.

The following table sets out our cash flow information in 2006 and 2007:

	For the year ended 31 December	
	2007	2006
	<i>(RMB in millions)</i>	
Net cash flow from operating activities	74,876	74,802
Net cash used in investing activities	(46,209)	(50,039)
Net cash used in financing activities	(30,505)	(20,710)
Net (decrease)/increase in cash and cash equivalents	(1,838)	4,053

In 2007, the net cash flow from our operating activities was RMB74,876 million, which was similar to 2006.

In 2007, we reduced our capital expenditure. Cash used in our investing activities was RMB46,209 million, representing a decrease of RMB3,830 million from 2006.

In 2007, the net cash used in our financing activities was RMB30,505 million while the net cash used in such activities was RMB20,710 million in 2006. The increase in net cash used in our financing activities was mainly due to decreased cash inflow from borrowings as compared to 2006.

Working Capital

By the end of 2007, the Company's working capital (total current assets minus total current liabilities) deficit was RMB95,857 million, representing a decrease of RMB17,566 million from the deficit of RMB113,423 million in 2006. The decrease in deficit was mainly attributable to the repayment of certain short-term debts, long-term debts maturing within one year and accounts payable with the cash flow from operating activities. By the end of 2007, the Company's cash and cash equivalents amounted to RMB20,384 million, of which 92.6% was denominated in RMB.

Indebtedness

Our indebtedness analysis as of the end of 2006 and 2007 was as follows:

	As at 31 December	
	2007	2006
	(RMB in millions)	
Short-term debt	67,166	79,576
Long-term debt maturing within one year	3,811	8,242
Finance lease obligations	29	48
Long-term debt (excluding current portion)	34,148	37,257
Total debt	105,154	125,123

By the end of 2007, total indebtedness of the Company was RMB105,154 million, representing a decrease of RMB19,969 million from 2006. The main reason for the decrease was our repayment of certain borrowings with the cash flow from operating activities.

Therefore, the ratio of the Company's total indebtedness to total assets decreased from 29.9% in 2006 to 25.8% in 2007. The Company believes that it has continued to maintain a solid capital structure.

Most of the Company's revenue receipts and payments made are denominated in Renminbi, and Renminbi is not a freely convertible currency. The Company's loans in Renminbi, US Dollar, Japanese Yen and Euro accounted for 96.5%, 1.0%, 1.7% and 0.8% of the Company's total indebtedness, respectively. 70.6% of our indebtedness was loans with fixed interest rates.

Contractual Obligations

	Total	Payable in				
		2008	2009	2010	2011	After 2011
	(RMB in millions)					
Short-term debt	68,644	68,644				
Long-term debt	48,524	5,539	2,407	2,600	1,786	36,192
Finance lease obligations	29	24	5			
Operating lease commitments	2,021	552	369	302	231	567
Capital commitments	3,573	3,573				
Total contractual obligations	122,791	78,332	2,781	2,902	2,017	36,759

Note: Amounts of short-term debt and long term debt include recognized and unrecognized interest payable, and are not discounted.

Pursuant to an Acquisition Agreement entered into by the Company with China Telecom on 31 March 2008, the Company will acquire the entire equity interest in China Telecom Group Beijing Corporation from China Telecom for a total purchase price of RMB5,557 million (hereinafter, referred to as the Proposed Acquisition), subject to approvals by independent shareholders of the Company and relevant government and regulatory authorities. Management believes that the Proposed Acquisition will enhance the Group's market position and competitiveness in mainland PRC. As the Company and China Telecom Group Beijing Corporation are under the common control of China Telecom prior to and after the acquisition, the Proposed Acquisition will be accounted for as a combination of entities under common control in a manner similar to a pooling-of-interests upon completion.

EFFECT OF SNOWSTORM

In January and February 2008, certain provinces in China were adversely affected by snowstorm and severe weather conditions, which had impacted the operation of the Company and caused a loss of approximately RMB572 million on assets written-off. In addition, it is expected that an extra capital expenditure of RMB960 million will be required.

The snowstorm had imposed some impact on the Company's revenue and cash expenses. However, we are implementing various measures to further enhance business development and strengthen cost control with a view to mitigating and minimizing the adverse effect.

Directors, Supervisors and Senior Management

Mr. Wang Xiaochu

Age 50, is Chairman of the board of directors and Chief Executive Officer of the Company. Mr. Wang served as Director General and Deputy Director General of the Hangzhou Telecommunications Bureau in Zhejiang province, Director General of the Tianjin Posts and Telecommunications Administration, Chairman and Chief Executive Officer of China Mobile (Hong Kong) Limited, Vice President of China Mobile Communications Corporation. He is also President of China Telecommunications Corporation and Chairman of the board of directors and a Non-Executive Director of China Communications Services Corporation Limited. He was responsible for the development of China Telecom's telephone network management systems and various other information technology projects and as a result, received the Third-Class Award from the State Scientific and Technological Progress Award and the First-Class Award from the former Ministry of Posts and Telecommunications Scientific and Technological Progress Award. He graduated from Beijing Institute of Posts and Telecommunications in 1989 and received a doctorate degree in business administration from The Hong Kong Polytechnic University in 2005. Mr. Wang has over 27 years of management experience in the telecommunications industry.

Mr. Leng Rongquan

Age 59, is Executive Director, President and Chief Operating Officer of the Company. Mr. Leng is a professor-level senior engineer. He graduated from the Beijing University of Posts and Telecommunications with a master degree in engineering science. Mr. Leng served as Chief Engineer of the Beijing Long-Distance Telephone Office, Deputy Chief Engineer of the Directorate General of Telecommunications (DGT) of the Ministry of Posts and Telecommunications (MPT), Deputy Director General of the DGT of the MPT, Deputy General Manager of China Telecommunications Corporation, Deputy General Manager of China Network Communications Group Corporation, Vice Chairman of China Netcom Group Corporation (Hong Kong) Limited. He is also Vice President of China Telecommunications Corporation. Mr. Leng has 32 years of operational management experience in the telecommunications industry in China.

Madam Wu Andi

Age 53, is Executive Director, Executive Vice President and Chief Financial Officer of the Company. She is responsible for the financial management of the Company. Madam Wu is a senior accountant. She graduated from the Beijing Institute of Economics with a bachelor degree in finance and trading in 1983, and studied in a postgraduate program in business economics management at the Chinese Academy of Social Sciences from 1996 to 1998. Mr. Ma is a senior Engineer and has over 30 years of telecommunications construction and operational management experience in the telecommunications industry.

Report of the Directors

The Board of Directors (the Board) of China Telecom Corporation Limited (the Company) hereby presents its report together with the audited financial statements of the Company and its subsidiaries (the Group) prepared in accordance with International Financial Reporting Standards for the year ended 31 December 2007.

PRINCIPAL BUSINESSES

The principal businesses of the Group are provision of comprehensive wireline telecommunications and related services, including local telephone, domestic long distance telephone, international long distance telephone, Internet access and managed data, leased line and other related services to its subscribers within the service area of the Group.

The principal business of the Company used to be investment holding. Pursuant to the Company's strategic transformation and its consolidated management requirements, the Company's shareholders approved at the general meeting on 25 February 2008 the merger by way of absorption with the Company's twenty wholly-owned subsidiaries (provincial subsidiaries), including Shanghai Telecom Company Limited. The Company has established twenty provincial branches to take over the management and operation of the Company's former provincial subsidiaries. The resulting organisation structure and management system will be more suitable for the requirements of the Group's development strategies. In addition, the integration and allocation of the Group's internal resources were enhanced with improvement of the Group's management standard and overall efficiency, which are in the interests of the Company and its shareholders as a whole.

RESULTS

Results of the Group for the year ended 31 December 2007 and the financial position of the Company and the Group as at that date are set out in the audited financial statements on pages 115 to 194 in this annual report.

DIVIDEND

The Board proposes a final dividend in the amount equivalent to HK\$0.085 per share, totalling approximately RMB6,279 million for the year ended 31 December 2007. The dividend proposal will be submitted for consideration at the Annual General Meeting to be held on 30 May 2008. Dividends will be denominated and declared in Renminbi. Dividends on domestic shares will be paid in Renminbi, whereas dividends on H shares will be paid in Hong Kong dollars. The relevant exchange rate will be the average offer rate of Renminbi to Hong Kong dollars as announced by the People's Bank of China for the week prior to the date of declaration of dividends at the Annual General Meeting. The final dividends are expected to be paid on around 16 June 2008 upon approval at the Annual General Meeting.

DIRECTORS AND SENIOR MANAGEMENT OF THE COMPANY

The following table sets out certain information concerning the directors and senior management of the Company as at the date of this Report:

Save as stated above, as at 31 December 2007, in the register required to be maintained under Section 336 of the SFO, no other persons were recorded to hold any interests or short positions in the shares or underlying shares of the equity derivatives of the Company.

DIRECTORS AND SUPERVISORS INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 31 December 2007, none of the directors and supervisors of the Company had any interests or short positions in the shares, underlying shares of equity derivatives or debentures of the Company or its associated corporations (as defined in Part XV of the SFO) as recorded in the register required to be maintained under section 352 of the SFO or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers.

As at 31 December 2007, the Company had not granted its directors or supervisors, or their respective spouses or children below the age of 18 any rights to subscribe for the shares or debentures of the Company or any of its associated corporations and none of them has ever exercised any such right.

DIRECTORS AND SUPERVISORS INTERESTS IN CONTRACTS

For the year ended 31 December 2007, none of the directors or supervisors of the Company had any material interest, whether directly or indirectly, in any significant contracts entered into by the Company, any of its holding companies or subsidiaries or subsidiaries of the Company's holding company, apart from their service contracts.

EMOLUMENTS OF THE DIRECTORS AND SUPERVISORS

Please refer to note 26 of the audited financial statements for details of the emoluments of all Directors and Supervisors of the Company in 2007.

PURCHASE, SALE AND REDEMPTION OF SHARES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any securities of the Company during the reporting period.

PUBLIC FLOAT

As at the date of this Report, based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained the prescribed public float under the Listing Rules and as agreed with The Stock Exchange of Hong Kong Limited.

SUMMARY OF FINANCIAL INFORMATION

Please refer to pages 195 to 196 of this annual report for a summary of the operating results, assets and liabilities of the Group for each of the years in the five-year period ended 31 December 2007.

BANK LOANS AND OTHER BORROWINGS

Please refer to note 14 of the audited financial statements for details of bank loans and other borrowings of the Company.

CAPITALISED INTEREST

Please refer to note 24 of the audited financial statements for details of the Group's capitalised interest for the year ended 31 December 2007.

FIXED ASSETS

Please refer to note 3 of the audited financial statements for movements in the fixed assets of the Group for the year ended 31 December 2007.

RESERVES

Pursuant to Article 147 of the Company's articles of association (the "Articles of Association"), where the financial statements prepared in accordance with PRC accounting standards and regulations materially differ from those prepared in accordance with either International Financial Reporting Standards or those of the place outside the PRC where the Company's shares are listed, the distributable profit for the relevant accounting period shall be deemed to be the lesser of the amounts shown in those respective financial statements. Distributable reserves of the Company as at 31 December 2007, calculated on the above basis and before deducting the proposed final dividends for 2007, amounted to approximately RMB24,414 million.

In addition to the allocation to the statutory reserve funds, the Board proposes to make an allocation to a discretionary surplus reserve. The allocation proposal shall be submitted for consideration at the Annual General Meeting to be held on 30 May 2008.

Please refer to note 19 of the audited financial statements for details of the movements in the reserves of the Company and the Group for the year ended 31 December 2007.

DONATIONS

For the year ended 31 December 2007, the Group made charitable and other donations to a total amount of RMB 54 million.

SUBSIDIARIES AND ASSOCIATED COMPANIES

Please refer to note 6 and note 7 of the audited financial statements for details of the Company's subsidiaries and the Group's interests in associated companies as at 31 December 2007.

CHANGES IN EQUITY

Please refer to the consolidated statement of changes in equity contained in the audited financial statements (page 119 of this annual report).

RETIREMENT BENEFITS

Please refer to note 35 of the audited financial statements for details of the retirement benefits provided by the Group.

STOCK APPRECIATION RIGHTS

Please refer to note 36 of the audited financial statements for details of the stock appreciation rights offered by the Company.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights in the Articles of Association requiring the Company to offer new shares to the existing shareholders in proportion to their shareholdings.

MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 31 December 2007, sales to the five largest customers of the Group accounted for an amount no more than 30% of the operating revenue of the Group.

For the year ended 31 December 2007, purchases from the five largest suppliers of the Group accounted for approximately 31.4% of the total annual purchases of the Group.

For the year ended 31 December 2007, purchases from the Group's largest equipment supplier accounted for approximately 15.5% of the total annual purchases of the Group. The amount of the Group's annual purchases includes equipment purchases, investments in infrastructure and pipelines.

To the knowledge of the Board, no director of the Company, their associates, or any person holding more than 5% of the issued share capital in the Company has any interests in such suppliers.

CONTINUING CONNECTED TRANSACTIONS

The following table sets out the amounts of continuing connected transactions of the Group for the year ended 31 December 2007:

Transaction	Group (RMB million)	Annual monetary cap for continuing connected transactions (RMB million)
Portion of expenses for centralised services	250	560
Net expenses for interconnection settlement	681	N/A ¹
Provision of comprehensive services by China Telecommunications Corporation and its subsidiaries (the China Telecom Group)	1,304	1,440
Mutual leasing of properties	398	590
Provision of IT services by China Telecom Group	364	490
Provision of equipment procurement services by China Telecom Group	120	310
Provision of engineering services by China Telecom Group	7,815	8,327
Provision of community services by China Telecom Group	2,266	3,110
Provision of ancillary telecommunications services by China Telecom Group	3,574	3,900

¹ According to a waiver letter issued by The Stock Exchange of Hong Kong Limited on 12 September 2006, the Company is not required to set an annual monetary cap for the total amount under interconnection settlement agreements.

Centralised Services Agreement

Centralised services include the provision of management and operational services by the Company to China Telecommunications Corporation in relation to big corporate customers, its network management centre and business support centre, and also the provision of certain premises by the China Telecommunications Corporation to the Group. In addition, centralised services also include the common use of international telecommunications facilities between both parties. The aggregate costs incurred by the Company and China Telecommunications Corporation for the provision of management and operation services and use of premises under the Centralised Services Agreement are apportioned between the Company and China Telecommunications Corporation on a pro rata basis according to the revenues generated by each party. In relation to the common use of international telecommunications facilities, the Company and China Telecommunications Corporation have agreed to apportion the costs associated with operating such assets on a pro rata basis according to the aggregate volume of the inbound international calls terminated by, and outbound international calls originating from, the Company and China Telecommunications Corporation, respectively.

On 26 December 2007, the Company and China Telecommunications Corporation signed a Supplemental Agreement in relation to the Centralised Services Agreement. Pursuant to the Supplemental Agreement, in the situation where the Company uses the premises provided by China Telecommunications Corporation, the Company shall pay premises usage fees to China Telecommunications Corporation on a pro rata basis according to the actual apportioned used areas on the venues. The premises usage fees shall be determined through negotiation between the two parties based on comparable market rates.

The Centralised Services Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008, and may be renewed for further periods of one year upon expiration with no limit in the number of renewals, unless the Company provides a notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the end of the relevant term.

Interconnection Settlement Agreement

Pursuant to the Interconnection Settlement Agreement, the telephone operator terminating a telephone call made to its local access network shall be entitled to receive from the operator from which the telephone call originated, a fee of RMB0.06 per minute currently prescribed by the Ministry of Information Industry.

The Agreement was renewed on 30 August 2006 for a further term of two years expiring on 31 December 2008 and will be automatically renewed for a period of three years upon expiration, unless the Company provides notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the end of the relevant term.

Comprehensive Services Framework Agreement

The Comprehensive Services Framework Agreement relates to the comprehensive services provided by China Telecommunications Corporation to the Company. Such comprehensive services include the procurement of telecommunications equipment (such as optic fibres), network designs, software upgrade, system integration, manufacture of calling cards and so on. The comprehensive services under such agreement are provided at: (1) government-prescribed prices; (2) in the absence of government-prescribed prices, the government-guided prices shall apply; (3) in the absence of both government-prescribed prices and government-guided prices, the market prices shall apply, that is, the prices at which the same types of services are provided by independent third parties in the ordinary course of business; (4) if none of the above prices is applicable, the prices shall be determined through negotiation between the two parties based on reasonable costs plus reasonable profit. For this purpose, reasonable costs shall mean the costs determined by the two parties after negotiations.

The Comprehensive Services Framework Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008, and may be renewed for further periods of one year upon expiration without limit in the number of renewals, unless the Company provides notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the expiration of the relevant term.

Property Leasing Framework Agreement

The Property Leasing Framework Agreement relates to the lease of properties between the Company (including its subsidiaries) and China Telecommunications Corporation (including its subsidiaries), and vice versa.

The rental charges in respect of the properties which are subject to the Property Leasing Framework Agreement are determined based on market rates, with reference to amounts stipulated by local price bureaus, taking into consideration the specific needs of each party. The rental charges are subject to review every three years.

The Property Leasing Framework Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008 and may be renewed for further periods of one year upon expiration without limit in the number of renewals, unless the Company provides notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the end of the relevant term.

IT Services Framework Agreement

The IT Services Framework Agreement relates to the provisions of information technology services by China Telecommunications Corporation and/or its associates to certain subsidiaries of the Company. Such services include office automation and software testing.

China Telecommunications Corporation and/or its associates are entitled to participate in the bidding for the right to provide services under such agreement. The charges payable for such services shall be determined by reference to market rates as reflected by prices obtained through the tender process. If China Telecommunications Corporation and/or its associates offer terms and conditions that are at least the same as those offered by an independent third-party provider, the Company may give priority to using the services provided by China Telecommunications Corporation and/or its associates.

The IT Services Framework Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008 and may be renewed for further periods of one year upon expiration without limit in the number of renewals, unless the Company provides notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the expiry of the relevant term.

Equipment Procurement Services Framework Agreement

The Equipment Procurement Services Framework Agreement relates to the provision of comprehensive procurement services, including the management of tenders, verification of technical specifications and installation services by China Telecommunications Corporation and/or its associates to the Group. The maximum commission for such procurement services shall be calculated based on the followings: (1) not more than 1% of the contract value for the procurement of imported telecommunications equipment; or (2) not more than 3% of the contract value for the procurement of domestic telecommunications equipment and other domestic non-telecommunications materials.

The Equipment Procurement Services Framework Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008 and may be renewed for further periods of one year upon expiration without limit in the number of renewals, unless the Company provides notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the expiry of the relevant term.

Engineering Framework Agreement

The Engineering Framework Agreement sets out the terms in respect of the supervision and management of services relating to construction, design, equipment installation and tests provided to the Group through bids made by China Telecommunications Corporation and/or its associates, and/or services as the general contractors for the construction and supervision of engineering projects of the Group. The charges payable for such engineering services shall be determined by reference to the market rates. The charges payable for the design or supervision of engineering projects with a value over RMB500,000, or construction of engineering projects with a value over RMB2 million shall be determined by reference to the tender price.

The Engineering Framework Agreement will expire on 31 December 2008 and may be renewed for further periods of three years upon expiration without limit in the number of renewals, unless the Company provides notice of non-renewal in writing to the China Telecommunications Corporation three months prior to the expiry of the relevant term.

Community Services Framework Agreement

The Community Services Framework Agreement was signed in respect to the services relating to culture, education, property management, vehicle service, health and medical care, hotel and conference service, community and sanitary service provided by China Telecommunications Corporation and/or its associates to the Group. The pricing terms basis for such services are the same as those set out in the Comprehensive Services Framework Agreement.

The Community Services Framework Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008 and may be renewed for further periods of three years upon expiration without limit in the number of renewals, unless either party provides notice of non-renewal in writing to the other party three months prior to the expiry of the relevant term.

Ancillary Telecommunications Services Framework Agreement

The Ancillary Telecommunications Services Framework Agreement relates to the provision of certain repair and maintenance services, including repair of telecommunications equipment, maintenance of fire equipment and telephone booths, as well as other customer services that are provided by the China Telecommunications Corporation and/or its associates to the Company. The pricing terms basis for ancillary telecommunications services under the Ancillary Telecommunications Services Framework Agreement are the same as those set out in the Comprehensive Services Framework Agreement.

The Ancillary Telecommunications Services Framework Agreement was renewed on 26 December 2007 for a further term of one year expiring on 31 December 2008 and may be renewed for further periods of three years upon expiration without limit in the number of renewals, unless either party provides notice of non-renewal in writing to the other party three months prior to the expiry of the relevant term.

Strategic Agreement and its Supplemental Agreement

Independent shareholders of the Company approved at extraordinary general meetings the signing of a Strategic Agreement between the Company and China Communications Services Corporation Limited (China Communications Services) on 30 August 2006 and the signing of a Supplemental Agreement (Strategic Agreement and its Supplemental Agreement) on 15 June 2007.

Pursuant to the Strategic Agreement and its Supplemental Agreement, the Company agreed that, in the period between 1 January 2007 and 31 December 2009, if service terms related to the design, implementation and supervision of the communications engineering provided by China Communications Services are basically the same as those of other service providers, the subsidiaries of the Company in the service area of China Communication Services shall annually receive such services from the wholly-owned subsidiaries of China Communications Services with total value no less than 10.6% of total annual capital expenditure of the related subsidiaries of the Company in that year. Meanwhile, pursuant to the Strategic Agreement and its Supplemental Agreement, the Company pledged that, in the period between 1 January 2007 and 31 December 2009, if the terms related to certain maintenance management services provided by China Communications Services are basically the same as those of other service providers, the subsidiaries of the Company in the service area of China Communication Services shall annually receive such services from the wholly-owned subsidiaries of China Communications Services with total value no less than RMB1,780 million.

The business areas of the strategic alliance between the two parties governed by the terms and conditions in the Strategic Agreement and its Supplemental Agreement include: design, implementation and supervision of the communications engineering, maintenance management service, contents application service, sales channel service, usage of telecommunications and other new businesses arising from time to time which are appropriate for the collaboration between the two parties. China Communications Services pledges its support to the strategic transformation of the Company from a traditional basic telecommunications operator to an integrated information service provider, its active support to the Company's business development, and its active use of the Company's products and services in its own business. Such services shall comply with the related standards of China or the standards agreed by both parties, and shall be on terms no less favourable than those available to any third parties to which the same or similar services are provided by either party. Without breaching the requirements governed by PRC laws and regulations, in respect of the same services, where the terms and conditions of services provided by either party of the Strategic Agreement and its Supplemental Agreement are the same as those provided by an independent third party, the party under the Strategic Agreement and its Supplemental Agreement shall have the priority to be appointed as the service provider by the other party.

Pursuant to the Strategic Agreement and its Supplemental Agreement, effective period of such agreement is between 1 January 2007 and 31 December 2009. Both parties may negotiate the renewal of the Strategic Agreement upon expiration of the term, and the renewal is subject to the requirements of Chapter 14A of the Listing Rules (including disclosure and independent shareholders' approval requirements).

As China Telecommunications Corporation (the controlling company of China Communications Services) has signed certain framework agreements for the continuing connected transactions of the Company, and the transactions under the Strategic Agreement and its Supplemental Agreement are subsumed under these framework agreements; the Strategic Agreement and its Supplemental Agreement have not listed any annual caps of the transactions under them. These framework agreements are limited by the annual caps. In addition, the recommended annual caps of the transactions under the Strategic Agreement and its Supplemental Agreement are included in some of the abovementioned framework agreements between the Company and China Telecommunications Corporation (including Engineering Framework Agreement, Ancillary Telecommunications Services Framework Agreement and Community Services Framework Agreement).

The independent non-executive directors of the Company have confirmed that all continuing connected transactions for the year ended 31 December 2007 to which the Group was a party:

1. had been entered into, and the agreements governing those transactions were entered into, by the Group in the ordinary and usual course of business;
2. had been entered into either:
 - (i) on normal commercial terms; or
 - (ii) where there was no available comparison to judge whether they are on normal commercial terms, on terms no less favourable than those available to or (if applicable) from independent third parties; and
3. had been entered into on terms that are fair and reasonable so far as the overall interests of the shareholders of the Company are concerned. The independent non-executive directors have further confirmed that:

The values of continuing connected transactions entered into between the Group and its connected persons which are subject to annual caps have not exceeded their respective annual caps.

The auditors of the Group have reviewed the continuing connected transactions of the Group and have confirmed to the Board that the transactions:

1. have received the approval of the Board;
2. have been entered into in accordance with the pricing policies as stated in the relevant agreements;
3. have been entered into in accordance with the terms of the agreements governing such transactions; and
4. the values of continuing connected transactions entered into between the Group and its connected persons which are subject to annual caps have not exceeded their respective annual caps.

COMPLIANCE WITH CODE ON CORPORATE GOVERNANCE PRACTICES

Please see the Corporate Governance Report set out in page 72 of this 2007 annual report of the Company for details of our compliance with the Code on Corporate Governance Practices.

MATERIAL LEGAL PROCEEDINGS

As at 31 December 2007, the Company was not involved in any material litigation or arbitration, and as far as the Company is aware, no material litigation or claim was pending or threatened or made against the Company.

AUDITORS

KPMG and KPMG Huazhen were appointed respectively as the international and domestic auditors of the Company for the year ended 31 December 2007. KPMG has audited the accompanying financial statements, which have been prepared in accordance with International Financial Reporting Standards. The Company has retained KPMG and KPMG Huazhen since the date of its listing. A resolution for the reappointment of KPMG and KPMG Huazhen as the international and domestic auditors of the Company for the year ending 31 December 2008 will be proposed at the Annual General Meeting of the Company to be held on 30 May 2008.

By Order of the Board

Wang Xiaochu

Chairman and Chief Executive Officer

Beijing, PRC

31 March 2008

Report of the Supervisory Committee

Dear Shareholders,

During the reporting period, the Supervisory Committee of China Telecom Corporation Limited spared no effort in performing its supervisory duties in accordance with the Company Law of the People's Republic of China and the Articles of Association of the Company, as well as the principle of good faith to safeguard the interests of shareholders and the benefits of the Company.

During the reporting period, the Supervisory Committee held three meetings. At the fourth meeting of the Second Session of the Supervisory Committee held in March 2007, the Second Session of the Supervisory Committee reviewed and approved six agenda items, including the financial statements, profit distribution proposal, the independent auditors' report for the year ended 2006, the report of the Supervisory Committee for the year ended 2006, the working plan of the Supervisory Committee for the year 2007 and the change in personnel of the Supervisory Committee. At the fifth meeting of the Second Session of the Supervisory Committee held in July 2007, chairperson of the Supervisory Committee was elected. At the sixth meeting of the Second Session of the Supervisory Committee held in August, the interim financial statements and the independent auditors' review report of 2007 were reviewed. During the reporting period, members of the supervisory committee supervised the major decision-making processes of the Company and the performance of duties carried out by members of the Board of Directors and the senior management through their attendance of the shareholders' general meetings of the Company and the meetings of the Board of Directors.

The Supervisory Committee is of the view that during the reporting period, in face of the harsher market situations, the Company continued to promote corporate transformation and proactively changed the business model. By continuously deepening corporate reforms and improving precision management, the Company has remarkably improved its business structure and cost structure, effectively mitigated its operating risks and significantly enhanced its competitiveness. As a result, the Company has achieved satisfactory operating performance and fulfilled its commitments to its investors. The Supervisory Committee is satisfied with the achievement of the Company in 2007 and is fully confident in the prospect of the Company.

The Supervisory Committee believes that during 2007, all members of the Board of Directors and members of senior management have exercised due diligence, adhered to the principle of good faith, sincerely acted in the best interest of shareholders, spared no effort in performing their duties set out in the Articles of Association of the Company, diligently carried out the resolutions approved in shareholders' general meetings and the Board meetings, persisted in managing the operation in accordance with the standards of listed companies, and have not engaged in any behavior that violates the law, regulations, and the Articles of Association or are harmful to the interests of shareholders.

Upon the review of the unqualified financial statements of the Company for the year ended 31 December 2007 and other relevant information which were prepared in accordance with PRC accounting rules and regulations and International Financial Reporting Standards, audited by domestic and international auditors of the Company, and proposed to be submitted to the shareholders' general meeting by the Board of Directors, the Supervisory Committee is of the opinion that the financial statements were prepared in line with the principle of consistency and that they truly and fairly reflect the Company's financial position and results of operations.

In 2008, the Supervisory Committee will further develop its work plans, strengthen its supervision and inspection, and do its best to preserve the interests of all investors.

By order of the Supervisory Committee

Xiao Jinxue

Chairperson of the Supervisory Committee

Beijing, PRC

31 March 2008

Corporate Governance Report

The Company has been attaching great importance to corporate governance, inheriting an excellent and conservative management style, and insisting on practicing corporate governance with efficient management and operations of top industry standard. In 2007, the Company increasingly improved the daily operations of the Board of Directors and its professional committees, continued to deepen the internal control mechanism and the assessment system, and put the comprehensive risk management into operational practice, so as to continuously enhance the standard of corporate governance and firmly protect the interests of shareholders.

Save for the roles of Chairman and Chief Executive Officer of the Company being performed by the same individual, for the year ended 2007, the Company has been in compliance with all the code provisions as set out in Appendix 14 Code on Corporate Governance Practices of the Listing Rules. In the Company's opinion, through supervision of the Board and independent non-executive directors, and with the Company's effective internal control mechanism, the same individual performing the roles of Chairman and Chief Executive Officer can achieve the goal of improving the Company's efficiency in decision-making and executions, and effectively capture business opportunities. Many international leading corporations also have a similar arrangement.

1. OVERVIEW OF CORPORATE GOVERNANCE

As a company incorporated in the PRC, the Company adopts the PRC Company Law and other related laws and regulations as the basic guidelines for the Company's corporate governance. As a company listed both in Hong Kong and the United States, the current Articles of Association is in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Listing Rules) in Hong Kong and the regulatory requirements for listed companies in the United States, and these rules serve as guidance for the Company to improve its foundation of corporate governance. The Company has regularly published responsibility statements relating to its internal control in accordance with the US Sarbanes-Oxley Act of 2002 and the regulatory requirements of the U.S. Securities and Exchange Commission (SEC) and the New York Stock Exchange, to confirm its compliance with related financial reporting, information disclosure and corporate internal controls requirements.

The Company's continuous efforts in corporate governance have gained wide recognition from the capital market and received a number of awards. The Company was accredited once more in the list of World's Most Admired Companies for the year 2007 by *FORTUNE* and awarded Asia's Best Managed Fixed Telecom Company for the year 2007 by *Euromoney*. At the same time, the Company respectively received The Best Corporate Governance, Most Accessible Senior Management and Most Convincing and Coherent Strategy awards in the ranking of all industries in Asia. In addition, the Company was accredited with CAPITAL Outstanding China Enterprise Awards Telecommunications by *CAPITAL* for two consecutive years, received top ranking in the selection of the best company in Asia (China group) for the year 2007 by FinanceAsia and was awarded the Best Managed Company China, the Best Corporate Governance China and the Best Investor Relations China.

2. OVERALL STRUCTURE OF CORPORATE GOVERNANCE

A double-tier structure has been adopted as our overall structure of corporate governance: the Board and the Supervisory Committee are established under the Shareholders' Meeting while Audit Committee, Remuneration Committee and Nomination Committee are set up under the Board. The Board is authorised by the Articles of Association to make major decisions with regard to the Company's operations and oversees the daily operations by the senior management. The Supervisory Committee is mainly responsible for the supervision of the performance of duties by the Board and the senior management. Each of the Board of Directors and the Supervisory Committee is independently accountable to the Shareholders' Meeting.

Pursuant to the Company's strategic transformation and consolidated management requirements, in early 2008 the Company merged its twenty wholly-owned subsidiaries (provincial subsidiaries), such as Shanghai Telecom Company Limited, by way of absorption and established twenty provincial branches to take over the management and operation of the Company's former provincial subsidiaries. The resulting organisation structure and management system will be more suitable for the requirements of the Group's development strategies. They will also enhance the integration and optimal allocation of the Group's internal resources and further improve the Group's management standard and overall efficiency, which is in the interests of the Company and its shareholders as a whole.

Shareholders Meeting

At each of the shareholders' general meetings, a separate shareholders' resolution is proposed in respect of each independent item, and details of the voting procedures and the right of voting by poll at the demand of shareholders are recorded in the circulars to shareholders in accordance with the Articles of Association and listing rules of the places of listing. The circulars to shareholders also provide details of the resolutions. Voting results are published on the websites of the Company and The Stock Exchange of Hong Kong Limited. The Company attaches great importance to the shareholders' general meetings and the communication between directors and shareholders. The directors provide detailed and complete answers to the questions raised by shareholders in the shareholders' general meetings.

In 2007, the Company convened three shareholders general meetings: the Annual General Meeting (AGM) for 2006 and two Extraordinary General Meetings (EGM). The AGM held on 29 May 2007 mainly reviewed and approved the financial statements for the year ended 2006, Report of the International Auditors, proposal of annual profit distribution and final dividends, authorization to the Board for the formulation of budget for 2007, appointment and remuneration of auditors, appointment and dismissal of supervisors, revision of the Articles of Association, and confirmation and ratification of authorizing the Board to issue bonds.

The first EGM held on 7 August 2007 reviewed and resolved a proposal concerning the approval of the Supplemental Agreement in relation to strategic alliance with China Communications Services Corporation Limited and the transactions under such agreement, as well as a proposal concerning the revision of the Articles of Association. The second EGM held on 31 August 2007 reviewed and resolved a proposal concerning the resignation of Ms. Huang Wenlin and the appointment of Mr. Zhang Chenshuang as executive director of the Company.

Board of Directors

The current Board of Directors comprised of 14 directors with eight executive directors, one non-executive director, and five independent non-executive directors with a period of office ended by 9 September 2008. On 31 August 2007, Ms. Huang Wenlin resigned from the position as executive director because of a change in job responsibility. On the same day, Mr. Zhang Chenshuang, who has had more than 28 years of experience in telecommunications management, assumed the position as executive director.

The number of independent non-executive directors constitute more than one-third of the Board members. Mr. Tse Hau Yin, who is the Chairman of the Audit Committee, is an internationally renowned financial expert with expertise in accounting and financial management. The Audit Committee, Remuneration Committee and Nomination Committee under the Board, all consisting of independent non-executive directors, ensure that the Board will be able to make independent judgments effectively.

The Company strictly complies with the Code on Corporate Governance Practices of the Listing Rules and rigorously regulates the operating procedures of the Board and the committees under it, and ensures that the proceedings of Board meetings are standardised in terms of organisation, regulations and personnel. The Board is responsible for effective supervision of the preparation of accounts for each financial period, so that such accounts truly and fairly reflect the financial position, the operating results and cash flows of the Company for each period. In preparing the accounts for the year ended 31 December 2007, the directors selected appropriate accounting policies and made prudent, fair and reasonable judgments and estimates and prepared the accounts on a going concern basis.

The Articles of Association of the Company provide that the Board is accountable to the shareholders meetings, and its duties include the execution of resolutions, formulation of major decisions for operations, financial proposals and policies, the Company's management system, and the appointments of managers and other senior personnel of the Company. The Articles of Association clearly define the respective duties of the Board and the management. The management is responsible for the operation and management of the Company, the organisation and implementation of the resolutions of the Board, the annual operation plans and investment proposals of the Company, determining the establishment of the Company's internal administrative institutions and substitutions, and performs such other duties as authorised by the Articles of Association and the Board. In order to maintain the highly efficient operation, flexibility and swiftness of operational decision-making, the Board, when necessary, may delegate its managing and administrative powers to the management, and provide clear guidance regarding such delegation so as to avoid seriously impeding or undermining the overall capacities of the Board in exercising its powers.

Li Jinming	4/4	100%

In 2007, the Board played a significant role in matters such as operations, budgeting, decision-making, supervision, internal control and the corporate governance of the Company. In 2007, the Board and the committees under it convened 11 meetings. At the meetings, the Board reviewed matters including the Company's annual and interim financial statements, annual operations, financial and investment budgets, annual assets appraisal report, internal control implementation and assessment report, internal control audit report, proposal for annual profit distribution, annual and interim reports, appointment and remuneration of auditors, authorization to the Company for bond issuance, acquisition of China Telecom (Hong Kong) International Limited, China Telecom (Americas) Corporation and China Telecom System Integration Co. Ltd. from the parent company, Supplemental Agreement in relation to the strategic alliance, revision of the Articles of Association, continuing connected transactions, improvement plans for internal control, and optimization of the Company's organisational structure.

Based on the written confirmation from the directors, all of the Company's directors have strictly complied with Appendix 10 Model Code for Securities Transactions by Directors of Listed Issuers of the Listing Rules regarding the standard requirements for directors in conducting securities transactions. The Company has received annual independence confirmations from each of the independent non-executive directors, and considers them to be independent.

Audit Committee

The Audit Committee comprises four independent non-executive directors. The Charter for the Audit Committee clearly defines the status, qualifications, work procedures, duties and responsibilities, funding and remuneration, etc. of the Audit Committee. The Audit Committee's principal duties include the supervision on the truthfulness and completeness of the Company's financial statements, the effectiveness and completeness of the Company's internal control and risk management system, as well as the work of the Company's internal audit department. It is also responsible for the monitoring and review of the qualifications, selection and appointment, independence and services of external independent auditors. The Audit Committee also has the authority to set up a reporting system to receive and handle cases of complaints or complaints made on an anonymous basis regarding the Company's accounting, internal accounting control and audit. The Audit Committee will regularly report on its work to the Board.

In 2007, pursuant to the requirements of the laws and regulations of the places of listing and the Charter for the Audit Committee, and in the clear mandate of the Board, the Audit Committee fully assumed its responsibilities, improved work planning and meeting efficiency was further optimised. It also improved its capacity in reviewing and processing proposals, and progressively integrated the contents of different tasks into a uniform working platform, so that the depth and breadth of the audit of proposals were continuously optimized. The Audit Committee also proposed a number of practical and professional improvement recommendations based on the Company's actual situation, in order to continuously improve the Company's corporate management. The Audit Committee has provided important support to the Board and played a significant role in protecting the interests of independent shareholders.

In 2007, the Audit Committee convened four meetings, where it reviewed important matters related to the Company's financial statements, assessment of the qualifications, independence and performance of the external auditors and their appointments, effectiveness of internal control, internal audit, comprehensive risk management, and connected transactions. The Audit Committee received quarterly reports in relation to internal audit and connected transactions, provided guidance to the internal audit department and received comprehensive risk management reports. Additionally, the Audit Committee reviewed internal control assessment and audit reports, oversaw the implementation of the management letter issued by external auditors, reviewed the U.S. annual report, and held discussion with the auditors.

Remuneration Committee

The Remuneration Committee was formed by four independent non-executive directors. The Charter for the Remuneration Committee clearly defines the status, qualifications, work procedures, duties and responsibilities, funding and remuneration etc. of the Remuneration Committee. The Remuneration Committee assists the Company's Board to formulate overall remuneration policy and structure for the Company's directors and senior management personnel, and to establish related remuneration procedures that are standardised and transparent. The Remuneration Committee's principal duties include the supervision on the compliance of the Company's remuneration system with legal requirements, presenting the evaluation report on the Company's remuneration system to the Board, as well as giving recommendations to the Board in respect of the overall remuneration policy and structure for the Company's directors and senior management personnel. Its responsibilities comply with the requirements of the Code on Corporate Governance Practices. The Remuneration Committee regularly reports on its work to the Board.

In 2007, the Remuneration Committee convened one meeting, where it reviewed the situations in relation to the remuneration of executive directors, and the Company's performance appraisal and reward.

Nomination Committee

The Company's Nomination Committee was formed by four independent non-executive directors. The Charter for the Nomination Committee clearly defines the status, qualifications, work procedures, duties and responsibilities, funding and remuneration etc. of the Nomination Committee, and it specially requires that the Nomination Committee members have no significant connection to the Company, and comply with the regulatory requirements related to independence. The Nomination Committee assists the Board to formulate standardised, prudent and transparent procedures and succession plans for the appointment of directors, and further improve the composition of the Board. The principal duties of the Nomination Committee include: regularly reviewing the structure, number of members and composition of the Board; identifying candidates and advising the Board with the appropriate qualifications for the position of Directors; evaluating the independence of independent non-executive directors; advising the Board on matters regarding the appointment or re-appointment of directors and succession plans for the directors. The Nomination Committee is accountable to the Board and regularly reports on its work.

In 2007, the Nomination Committee has convened one meeting, where it evaluated the structure and composition of the Board and confirmed the independence of all five independent directors.

Independent Director Committee

Pursuant to the Listing Rules, the Company's Independent Director Committee convened a meeting on 15 June 2007 discussing the supplemental agreement in relation to the strategic alliance of the Company with China Communications Services Corporation Limited, reviewing and approving the letters issued by the independent financial advisor to independent shareholders, confirming that the supplemental agreement in relation to the strategic alliance is in the interests of the Company as a whole and is fair and reasonable to the independent shareholders. The committee also submits recommendations on these matters to the independent shareholders.

Supervisory Committee

The Company established the Supervisory Committee in accordance with the PRC Company Law. At present, the Supervisory Committee comprises of five supervisors, of which there is an external independent supervisor and an employee representative supervisor. In May 2007, Ms. Zhang Xiuqin resigned from the position of Supervisor and Chairperson of the Supervisory Committee due to age whilst Mr. Li Jian resigned from the position of Supervisor due to a change of job responsibility. Mr. Xiao Jinxue and Ms. Wang Haiyun were elected as the Supervisors of the Company whilst Mr. Xiao Jinxue assumed the position of Chairperson of the Supervisory Committee.

The principal duties of the Supervisory Committee consist of supervising, in accordance with the law, the Company's financials and performance of the directors, managers and other senior management of the Company so as to prevent them from abusing their powers. The Supervisory Committee is a standing supervisory organisation of the Company, which is accountable and reports to all shareholders. The Supervisory Committee holds meetings at least once or twice a year.

External Auditors

The international and domestic auditors of the Company are KPMG and KPMG Huazhen, respectively. In order to maintain their independence, the non-audit services provided by the external auditors have not contravened the requirements of the US Sarbanes-Oxley Act of 2002 and have obtained pre-approval from the Audit Committee.

Breakdown of the remuneration received by the external auditors for audit and non-audit services provided to the Company for the year ended 31 December 2007 is as follows:

Subject of the Service	Fee (RMB million)
Audit services	58.0
Non-audit services (Internal Control Advisory Service)	0.9

Supervisory Committee

The Company established the Supervisory Committee in accordance with the PRC Company Law. At present, the Supervisory Committee comprises of five supervisors, of which there is an external independent supervisor and an employee representative supervisor. In May 2007, Ms. Zhang Xiuqin resigned from the position of Supervisor and Chairperson of the Supervisory Committee due to age whilst Mr. Li Jian resigned from the position of Supervisor due to a change of job responsibility. Mr. Xiao Jinxue and Ms. Wang Haiyun were elected as the Supervisors of the Company whilst Mr. Xiao Jinxue assumed the position of Chairperson of the Supervisory Committee.

The principal duties of the Supervisory Committee consist of supervising, in accordance with the law, the Company's financials and performance of the directors, managers and other senior management of the Company so as to prevent them from abusing their powers. The Supervisory Committee is a standing supervisory organisation of the Company, which is accountable and reports to all shareholders. The Supervisory Committee holds meetings at least once or twice a year.

Attendance rate of individual members of the Supervisory Committee in 2007

The Second Session of Supervisory Committee

Number of supervisors **5**

Number of meetings in 2007 **3**

Supervisors	Number of Meetings	Attendance Rate
Xiao Jinxue (<i>Chairperson</i>)	2/2	100%
Zhang Xiuqin*	1/1	100%
Zhu Lihao (<i>Independent Supervisor</i>)	3/3	100%
Wang Haiyun	2/2	100%
Li Jian*	1/1	100%
Xu Cailiao	3/3	100%
Ma Yuzhu (<i>Employee Representative</i>)	3/3	100%

* Ms. Zhang Xiuqin and Mr. Li Jian resigned from the position of supervisor on 29 May 2007.

External Auditors

The international and domestic auditors of the Company are KPMG and KPMG Huazhen, respectively. In order to maintain their independence, the non-audit services provided by the external auditors have not contravened the requirements of the US Sarbanes-Oxley Act of 2002 and have obtained pre-approval from the Audit Committee.

Breakdown of the remuneration received by the external auditors for audit and non-audit services provided to the Company for the year ended 31 December 2007 is as follows:

Subject of the Service	Fee (RMB million)
Audit services	58.0
Non-audit services (Internal Control Advisory Service)	0.9

The Audit Committee and the Board have agreed the re-appointment of KPMG and KPMG Huazhen, respectively, as the international and domestic auditors of the Company for the year ending 31 December 2008, and the proposal will be submitted to the shareholders general meeting for approval.

3. INTERNAL CONTROL

Internal Control System

The Board is aware of its responsibility to ensure a solid, complete and effective internal control system of the Company in order to protect shareholders' investment and the Company's assets. The Board also understands its responsibility to review the effectiveness of this system. The

Company's management is responsible for the establishment and implementation of the internal control system. The internal control system of the Company is built on clear organisational structure and management duties, effective delegation and accountability system, definite targets, policies and procedures, comprehensive risk assessment and management, a sound financial accounting system, and continued analysis and supervision of operational performance. It covers all businesses and transactions of the Company. To make the internal control system more effective, the Company has formulated a code of conduct for the senior management and employees in order to ensure their ethical value and competency. The Company continued to improve its internal declaration system, which encourages anonymous reporting of situations where employees, especially directors and senior management personnel, breach the rules.

In August 2003, the Company appointed KPMG Huazhen to provide advisory services in relation to internal control. In more than four years, based on the requirements of the U.S. securities regulatory authorities and the COSO Internal Control Framework, the Company has formulated manuals, implementing rules and supporting regulations in relation to internal control. In 2007, with the authorization of the Audit Committee, the Company continued to appoint KPMG Huazhen to provide the Company with internal control advisory services in order to further improve the internal control mechanism.

Since 2006, the Company continuously strengthened its IT internal control mechanism. Implementation of IT internal control has improved the efficiency and effectiveness of internal control, and enhanced the safety of the information system so that the integrity, timeliness and reliability of data and information are maintained. The Company has built its professional internal control team through improvement of performance appraisal management and responsibility specification, forming a closed-loop management mechanism of internal control and promoting the standardisation and rationalisation of the Company's internal management.

In 2007, through internal control assessment and internal control investigation, the Company detected promptly necessary upgrades in relation to the design of internal control mechanism according to the management implementation requirements. The Company coordinated the completion of internal control mechanism revision, and summarised the important risks, processes and control points of the internal control so that the internal control management was continuously improved and operation efficiency was promoted. To ensure the completeness and effectiveness of the Company's internal control mechanism, the Company also established internal control in the newly acquired companies in a timely manner after the acquisition of China Telecom (Hong Kong) International Limited, China Telecom (Americas) Corporation and China Telecom System Integration Co. Ltd.

In accordance with requirements of the Listing Rules, the Company engaged an internationally recognised accountant who is a highly experienced professional in the auditing, company secretary and financial control of listed companies to act as the Assistant Chief Financial Officer and Company Secretary of the Company. As a qualified accountant of the Company, he also helped improve financial reporting procedures and internal control mechanism of the Company.

To ensure the truthfulness, accuracy, completeness and timeliness of the Company's information disclosure, the Company has formulated rules for the information disclosure management in order to improve the management of the Company's information disclosure. It primarily focuses on: the disclosure of important information such as share price sensitive information and annual and interim reports; standardising the Company's internal collection, organisation, summarisation and reporting system regarding the Company's important information; formulating procedures for on-going and other occasional information disclosure documents; and defining the responsibilities and code of conduct of related internal departments, branches, and subsidiaries of the Company in respect of information disclosure.

Comprehensive Risk Management

The Company views comprehensive risk management as an important task in the Company's daily operation. Pursuant to the requirements of capital markets in the United States and Hong Kong, the Company formulated its five-step risk management approach based on the risk management theory and practices, including risk identification, risk assessment, key risk analysis, risk reaction and risk management assessment. The Company has also designed a risk management template and implemented the standardised risk management process so that the risk management language was unified to all levels of the Company and effectiveness of risk management was improved.

Pursuant to the requirement of provision C2 of the Code on Corporate Governance Practices of The Stock Exchange of Hong Kong Limited, in 2007, the Company coordinated different professional departments, provincial companies and local branch companies to incorporate comprehensive risk management into its daily operation. The Company implemented level-oriented, category-oriented and centralized risk management, with resources concentrated on the prevention of four major risks, which are environmental risk, market risk, financial risk and legal risk respectively. As a result, risk incidents were effectively dealt with, and the impacts of the key risks to the Company were mitigated to the degree that is foreseeable and controllable. This has ensured the progress of the Company's strategic transformation and sustainable development, and protected the interests of the Company and its shareholders as a whole to the most extent.

Annual Evaluation

The Company has been continuously improving its internal control system. In order to meet requirements where it is listed, including the United States and Hong Kong, and strengthen its internal controls while guarding against operational risks, the Company's internal audit department is responsible for coordinating and supervising the assessment of internal control. In 2007, the Company's internal audit department initiated and coordinated the company-wide assessment of internal control, reported the related situations to the Audit Committee in a timely manner and executed the opinions and recommendations of the Audit Committee. The internal audit department placed much emphasis on risk control and worked together with the external auditors to formulate and execute different audit plans in respect of different control areas.

The Company has adopted the COSO Internal Control Framework as the standard for the internal control assessment. With the management's internal control testing guidelines and the Auditing Standard No. 5 issued by PCAOB as the directives, the Company's internal control assessment was composed of the self-assessment made by the persons responsible for internal control and the independent assessment made by the internal audit department.

Self-assessment of internal control adopted a top-down approach which reinforced assessment in respect of control points at the corporate level and control points corresponding to major items in the financial statements. The Company insists on risk guidance principles, and on the basis of comprehensive assessment, it identified key control areas and points for major assessment through risk analysis. The Company continued to improve its organisation and management, procedures and approaches of assessment, and reinforced the control assessment at the corporate level so the assessment mechanism would be well-established and adaptable. With the development and implementation of an internal control assessment supporting system, assessment tool became more advanced and effective. The Company highlighted the key control points whilst emphasizing the coverage. The Company strengthened the inspection of the key control and major areas, and promptly rectified discovered issues.

Under the guidance of the Company, internal audit departments of all provincial companies have developed independent assessment of their key internal control areas. Instead of being a mere formality, with the emphasis on risks, the independent assessment was closely tied with other audit tasks in terms of time, content, personnel and coordination. The assessment focused not only on control procedures, control policy, but also on data in the financial statements, data sources and data processing so as to ensure an effective independent assessment and improve corporate management. Meanwhile, the Company also organised independent assessment in respect of the internal control of major provincial companies. Through independent assessment, the Company not only retained the overall situation of internal control, but also developed key tests on the high-risk processes. In addition, the Company inspected the related units in respect of their rectification of internal control deficiency and focused on the key issues to ensure the depth and quality of assessment.

The Company organised the audit work of internal control over financial reporting in which the Company's internal control assessment team and the relevant departments worked closely to support the work of the external auditors. Covering all twenty provincial companies, the external auditors performed audit on the processes and control points in relation to the significant accounting items. The Company maintained regular communication with the external auditors, rectified the deficiencies in a timely manner and successfully passed the year-end audit.

Through all-dimensional and frequent internal control assessment, the Company detected the internal control issues and have them rectified in a timely manner so as to ensure the effectiveness of the Company's internal control and effectively prevented the internal control risks. In March 2008, the Board, through the Audit Committee, reviewed the internal control system of the Company and its subsidiaries for the financial year ended 31 December 2007, which covered the controls on financial reporting, operations and compliance, as well as the risk management functions. The Board is of the view that the Company's internal control system is solid, complete and effective.

4. INVESTOR RELATIONSHIP AND TRANSPARENT INFORMATION DISCLOSURE MECHANISM

The Company's Investor Relations Department is responsible for maintaining proactive communications with shareholders, investors and other capital market participants and providing them, in a timely manner, with the necessary information and services which allow them to fully understand the operations and development of the Company.

In 2006, the Company started making quarterly disclosures of EBITDA and net profit data, and monthly announcements on the number of local telephone services subscribers. Since 2007, the Company has started making monthly disclosures of the number of broadband services subscribers, which further improved its communication with capital markets and enhanced its transparency of information disclosure. The Company attaches great importance to maintaining daily communication with shareholders, investors and analysts. In 2007, the Company has participated in many investment conferences hosted by a number of major international investment banks in order to maintain active communication with institutional investors. Additionally, the Company regularly participates in "Money Show" in the United States in order to improve its proactive communication with retail investors in the United States.

In 2007, the Company attended the following investment conferences hosted by major international investment banks

Date	Name of Conference
January 2007	Deutsche Bank Access China Conference 2007
January 2007	UBS Greater China Conference 2007
March 2007	Credit Suisse Asian Investment Conference 2007
April 2007	JP Morgan China Conference 2007
May 2007	Citigroup Hong Kong/China Mini Conference 2007
May 2007	DBS Vickers Asian Corporate Conference 2007
May 2007	UBS Pan-Asian Telco Conference 2007
May 2007	CLSA China Forum 2007
July 2007	HKSE/Daiwa Investors Conference 2007
September 2007	Citigroup Telecom Day 2007
September 2007	CLSA Investors Forum 2007
November 2007	Lehman Brothers Asia Telecom Investor Tour 2007
November 2007	Daiwa Hong Kong Investment Conference 2007
November 2007	Goldman Sachs China Investment Frontier Conference 2007

In recent years, the Company's website has been continuously under reform and innovation. In accordance with the requirements of capital market and international best practices, the Company has further improved the functions, design, interactivity with investors and related information disclosure of the website. As a result, the investor relations website not only functions as the primary channel to distribute news and company information to investors and capital market, but also plays an important role in the valuation of the listed company and the compliance with rules on information disclosure, achieving excellent interactive communication with investors and shareholders. The Company has also taken initiative to issue questionnaires to shareholders seeking their suggestions for the improvement of the annual report. In addition, based on the suggestions received, the Company has already allowed shareholders to choose means of receipt and language of annual reports to enhance environmental protection and cost savings.

5. SIGNIFICANT DIFFERENCES BETWEEN THE CORPORATE GOVERNANCE PRACTICES FOLLOWED BY THE COMPANY AND THOSE FOLLOWED BY NYSE-LISTED U.S. COMPANIES

The Company was established in the PRC and is currently listed on The Stock Exchange of Hong Kong Limited (Stock Exchange) and the New York Stock Exchange (NYSE). As a foreign private issuer, the Company is not required to comply with all the corporate governance rules of Section 303A of the NYSE Listed Company Manual. However, the Company is required to disclose the significant differences between the corporate governance practices followed by itself and the listing standards followed by NYSE-listed U.S. companies.

Pursuant to the requirements of the NYSE Listed Company Manual, the Board of Directors of all NYSE-listed U.S. companies must be made up by a majority of independent directors. Under currently applicable PRC and Hong Kong laws and regulations, the Board of the Company is not required to be formed with a majority of independent directors. As a listed company on the Stock Exchange, the Company needs to comply with the Listing Rules. These rules require that at least one third of the Board of Directors of a listed company be independent directors. The Board of the Company comprises of 14 directors, of which five are independent directors, making the number of independent directors exceed one third of the total number of directors on the Board, in compliance with the number set out as a recommended best practice in the Code on Corporate Governance Practice of the Listing Rules. These independent directors also satisfy the requirements on independence under the Listing Rules; however, the related standard is different from the requirements in Section 303A.02 of the Listed Company Manual of NYSE.

Pursuant to the requirements of the Listed Company Manual of NYSE, companies shall formulate separate corporate governance rules. Under the currently applicable PRC and Hong Kong laws and regulations, the Company is not required to formulate any rules for corporate governance; therefore, the Company has not formulated any separate corporate governance rules. However, the Company has implemented the Code on Corporate Governance Practices of the Stock Exchange for the accounting year ended 31 December 2007.

Human Resources Development

SUMMARY

Being a long-established telecommunications services company, the Company has already built up rich human resources over the years. In continuation of its strategy of attaching great importance to human resources development on the basis of an innovative human resources management system, the Company persistently deepens its system reform and mechanism innovation, strengthens the precise management of human resources and optimise the human resources structure, so as to provide the human resources support and protection crucial for the reforms of the enterprise. Pursuant to the corporate culture which values the employees as the foundation of the enterprise with joint creation of values, the Company closely connects its development with that of its employees. Through the creation of a enterprise which values learning, the overall abilities and qualities of employees are enhanced. At the same time, the Company has strived to create an atmosphere which encourages its employees to make commitments, make accomplishments and to do their best at work, and provides its employees with room for development and mechanism for protection. As a result, the Company has gradually built up a team of specialized, professional and high-quality employees who are effectively motivated with strong execution ability to meet the requirements of corporate strategic transformation.

EMPLOYEES DISTRIBUTION

By the end of 2007, the Company had a total of 285,105 employees. The employees' distribution was as follows:

	No. of Employees	Percentage
Management, Finance and Administration	42,211	14.8%
Sales and Marketing	147,878	51.8%
Operation and Maintenance	93,731	32.9%
Research and Development	1,285	0.5%
Total	285,105	100.0%

CORPORATE-EMPLOYEE RELATIONSHIP

The Company attaches great importance to the communication between the management and its employees. In 2007, the Company reinforced its communication and information exchange with its employees by various means, enhancing the employees' unified recognition and understanding of the corporate transformation strategy. Through specialized discussions between the management and the entire workforce on corporate development environment and transformation strategy, the management and employees have had active interaction and communication. For young employees, the Company has organized face-to-face dialogues, in which the management and the heads of provincial subsidiaries in the eastern, central and western regions of China had comprehensive exchange with the young employees in relation to corporate management, business development and technological trends. As a result, the passion and creativity of the young employees was encouraged. Labour unions have been playing a very important role in improving the corporate-employee relationship. Insisting on the principle of covering the interests of all parties, the labour unions put emphasis on the simultaneous growth of the Company and its employees, pay attention to staff welfare and strive to promote employees' values. To help employees enhance their business skills and adapt to the requirements of corporate strategic transformation, the Company has organized training on new businesses and new technologies, and carried out on-the-job training and job-skill contests. It has also organized skill competitions on broadband maintenance services, sales of corporate information products, and innovations on Internet services and value-added products, hence establishing a platform for improvement. Based on the management concept of human resources as foundation, the Company has enhanced management standards and created a harmonious working environment for its employees. The Company cares about the physical and mental health of its employees, and has established a poverty-assistance mechanism to solve their daily life problems such as paying medical expenses.

The Company has promoted the learning of the legal regulations including the Law of the People's Republic of China on Employment Contracts (hereinafter the Law on Employment Contracts) among its employees. The Company has coordinated the participation of its employees in amending the labour management regulatory system in accordance with the Law on Employment Contracts through different means, such as employee representative conferences. This resulted in an improvement of the collective negotiation power of the Company and labour unions (employee representatives), amendments on the Collective Contract , reinforcement of supervision and inspection, implementation of employee welfare such as remuneration, training and rest, and guidance to assist employees in the signing of employment contracts.

To continuously meet the requirements for establishing a new model of corporate-employee relationship which is standardized, fair, reasonable, mutually beneficial, harmonious and stable , the Company has strengthened the coordination of labour relations and promoted corporate democratic management. With employee representative conferences as the basic framework, the Company has improved the corporate democratic management system, in which all its subsidiaries have established their employee representative meeting systems.

The Company attaches great importance to the promotion and protection of employees' health and safety. In respect of employee healthcare and welfare, the Company has implemented a regular health check program for its staff and will annually increase the examination items in the program. It has also established and interests clubs for employees' various hobbies to ensure both their physical and mental health. In addition, the Company has carried out regular inspections on production safety to ensure the safety of employees.

STRENGTHENED HUMAN RESOURCES

1. Vigorously strengthened development of senior management team and improved corporate leadership capability

In line with the requirements of scientific development views and corporate transformation, the Company has further developed the leadership on the basis of Four Excellence (excellent management skills, excellent operating performance, excellent team cooperation and excellent style image) in order to elevate the competitiveness and cohesiveness of all levels of management and promote the operational development of the enterprise. By adding the key competence indicators (KCI) and exploring the approaches for individual competence assessment in accordance with the expertise of the leading team members, the Company improved the appraisal work, appraisal indicators and assessment approach for the job execution behaviour of the leading team members. Additionally, to strengthen the management of successors, the Company has established a comprehensive database of future leaders.

2. Coordinated and optimised allocation, focused on exchange and complement, and invigorated human resources

In accordance with the new requirements of corporate transformation on human resources, the Company has reinforced the development of talent teams for IP, IT and information operation in order to further optimise the allocation of sales and marketing services staff for government and enterprise customers of the Company, and speed up the development of a professional talent team for transforming businesses. To build up an overseas talent team, the Company has organised and implemented an overseas talents scheme in 2007 for the replenishment and expansion of talent base in a timely manner, and for the support to the talent requirements arising from the rapid development of overseas businesses. As an important innovative measure for cultivating talents, the Company has initiated corresponding talent exchange amongst the branches of the five provinces in the west and the other five in the east, broadening the talent training channel and encouraging experience exchange and knowledge sharing between the enterprises in the east and the west.

3. Standardized employment, improved position segmentation, and intensified sourcing for experienced talents

The Company has standardized labour management and deepened the reform on employment systems. Pursuant to the requirements of the Law on Employment Contracts, the Company has improved the system and workflow for the management of employment, standardized and reinforced the employment management in accordance with the law, reduced the risk of employment and established a harmonious labour relationship. On the other hand, the Company has also intensified the recruitment of experienced talents, especially in the areas of IP, IT, information operation, new businesses and capital operation. In 2007, the whole group recruited more than 1,400 experienced talents from the labor markets.

4. Improved the training system, speeded up the establishment of a learning enterprise, and adopted various measures to enhance overall staff qualities and abilities

To accelerate the progress of establishing a learning enterprise, invigorate the pro-activeness of learning among employees, and enhance the overall qualities and abilities of employees, the Company has continued to carry out the acceptance work on the first phase of innovative development activities for the subsidiaries of the Company in the six provinces, namely Xinjiang, Chongqing, Gansu, Shaanxi, Guangxi and Hainan. In respect of leadership development, the Company has actively explored new training approaches to further enhance the effectiveness and suitability of the training. With the introduction of an action-oriented learning approach, the training programmes integrated theories, practical exercises and summary reporting. In the course of training, the participants have been actively guided to conduct effective discussions to address the problems in corporate transformation with the

application of the learned theoretical knowledge, tools and approaches, inspiring the participants to have a mind-provoking study on how to implement the transformation strategy of the Company. Through well-planned and customised leadership trainings, the Company has effectively elevated the leadership caliber of its middle and senior management, deepened their understanding of the corporate strategy and improved their systematic thinking, team cooperation and execution ability.

In addition, the Company has also extended the application of E-University and actively initiated pilot test for online job skills certification. In order to standardise the E-University's workflow for job skills certification and establish an online examination paper database, examination system and certificate management system, the Company has achieved successful results after its implementation and expansion of the pilot tests. Job skills certification is an important means for building up the capability of the Company's employees and enhancing the competency of employees in different positions. Meanwhile, online certification has further reduced the management cost of certification, enabling a closer linkage between certification and training workflow and increasing the customisation of trainings. At the same time, it has also facilitated the Company's consolidated and precision management.

Focusing on the corporation transformation, the Company developed and customised different trainings to improve the competency of its employees. As of 31 December 2007, there were 207,689 employees participating in training, accounting for 72.8% of total employees, with an average training duration of 8.48 work days per employee.

In 2007, the Company fully utilised the China Telecom E-University platform and actively arranged employees of all levels to participate in online learning. As of 31 December, the average cumulative online learning hours per participant of the China Telecom E-University were 98.35 hours for the year. The E-University currently has 5,580 electronic courses and 2,833 corporate case studies, which meet different learning and training needs of employees of different positions.

Customised training for the management team

To further improve the leadership and relevant professional capability of senior management of all levels, the Company has organized a series of customised trainings. For senior managers, the Company has organized three sessions of leadership development training, the second phase of training for senior finance and audit managers and training for disciplinary supervisors. To enhance the brand management capability of senior managers, the Company has organized two sessions of training for brand operation and transforming businesses. On the other hand, to improve the management capability of junior management, the Company has organized six sessions of operation management training for chief officers of the counties (districts). To improve the human resources management mindset and capacity of the managers in the headquarters, the Company has held three sessions of human resource trainings for the managers.

Trainings for professionals

To meet the demand for talents in support of the development of corporate transforming businesses, the Company held four sessions of training for information operation talents, in order to nurture a group of professionals who are familiar with the latest comprehensive media operation model and development strategy, and the management practices of comprehensive media companies. A total of 150 employees from different provinces, comprising the provincial chief officers, business divisions heads and core talents of the Best Tone business, participated in the training.

5. To ensure effective motivation and retention of talents, the Company continues to improve the remuneration and performance appraisal mechanism

The Company continues to reinforce and implement the operating performance-linked total remuneration decision mechanism to continuously enhance the effectiveness of resources allocation. It emphasizes remuneration to be determined by corporate effectiveness and staff performances, and be allocated to the employees on a strict performance appraisal basis. With scientific approach, reasonable weightings between position-salary and performance-salary for different job positions are determined. Taking into consideration their own business characteristics, business units implement different allocation incentives, such as output-based wage system, negotiated wage system and commission-based system, in eligible positions. A remuneration system framework integrating short, medium and long term incentives on the basis of position pay-scale, performance pay-scale and corporate annuity has basically taken shape over the past few years. This system plays an important role in attracting, retaining and motivating outstanding talents for the Company.

EMPLOYEE WELFARE SAFEGUARD

All business units of the Company have implemented a standardised employment, position and remuneration mechanism to all the employees. The present remuneration system of the Company is based on a position pay-scale basis. The salaries of staff are determined with reference to their positions and performances. The Company offers equal payment for equal work. The Company has no discriminative policies on employment such as gender discrimination.

Corporate Social Responsibility

The Company has always adhered to its core philosophy of all-rounded innovation, pursuance of truth and pragmatism, putting people first, and joint creation of values, which places repayment to society, services to clients, caring for employees and return to shareholders in top priority. The Company insists on scientific development and dedicates itself to provide convenient, smooth and efficient integrated information services to the society and public. While pursuing economic benefits, the Company remains responsible to all interested parties in order to achieve harmony between the corporate development, society and environment.

In face of the general public's increasing demand for widespread application of information technology, the Company has proposed a transformation strategy towards an integrated information service provider. The Company expects, through the integration and innovation of businesses and information terminals, to expand the channels for its clients to obtain and exchange information. This process, while helping promote popularisation of information technology and improve living standards, has allowed the Company to achieve sustainable and healthy development.

CHINA TELECOM AND SOCIETY

Business operations with integrity and in compliance to laws and regulations

The Company has been a model in observing laws and regulations, social morality, business ethics and industry practices, and making timely tax payments. The Company paid total tax amount of RMB13,654 million for the year ended 2007. The Company protects the interests of its shareholders and creditors, respects intellectual property rights, honours contracts performance and strictly abides by commercial credit. Additionally, the Company opposes to unfair competition and eliminates corruption in business activities. To understand and respond to the public through different channels, the Company strives to increase the corporate transparency and establish an effective and standardised communication mechanism.

Driving for economic growth

To boost the economic and social development of China and achieve great rejuvenation of the nation, speeding up the construction of informatisation infrastructure is an important strategy for China. The Company proactively promotes corporate transformation, optimises development strategies and improves corporate governance. In addition, with the enhancement in management and control capability and the optimisation in resources allocation, the Company provides services to its large customer base. As at the end of 2007, the Company's telephone and broadband subscriber numbers reached 220 million and 35.65 million respectively.

Promotion of employment

To meet the requirements of building a harmonious society in China, the Company makes great efforts in assisting the state and society to solve the problem of unemployment through placement of former servicemen, recruitment of college graduates and payment of the fees for promotion of employment to the state. The Company provides the society with a large number of outsourcing job positions in relation to business services and maintenance. In addition, to make proactive contribution to alleviate the unemployment pressure on the state, the Company plays the role of core component to drive the growth of different parts of the industry chain so that the employment is indirectly promoted.

Assistance for rural development

Over the years, the Company has made great efforts in developing communication in rural areas, improving their infrastructures, reducing and eliminating information barriers, and effectively promoting a harmoniously economic and social development among regions, cities and townships. While meeting the demands for basic voice data communication services in rural areas, the Company is committed to the continuous and overall enhancement of the standards of information technology in rural areas. Through the implementation of a model information facility project, *Serving Thousands of Townships and Villages*, the Company has been the pioneer to incorporate information technology into the rural area construction, allowing townships and villages to benefit from the development of information technology. Basing on the service branches widely located in the townships and villages, the Company introduced *Info Farm* services, which integrates related information resources to rural area construction, such as technology, education and market news, and makes use of voice, SMS, telephone radio and broadband network to build up a *Golden Bridge of Science and Technology* for the prosperity of rural areas.

Participation in public welfare activities

With strong sense of responsibility, the Company takes the lead and assumes its duties as an excellent corporate citizen whilst accelerating its pace in self-development and promoting the applications of information technology. In this regard, the Company strongly supports public welfare activities and proactively participates in poverty alleviation projects and different public welfare activities in relation to education, culture and sports.

The Company proactively participates in assisting impoverished regions. To alleviate poverty for Yanyuan and Muli, Sichuan Province, the Company deployed four poverty-alleviation teams for the building of three primary schools and one hospital, as well as establishing electronic administration web, education web and cultural activities centre in the two counties. In this way, the Company made contribution to the improvement of local communication infrastructure and public infrastructure as well as the enhancement of living standards of the people in impoverished areas. Since 2002, the Company has been providing special poverty assistance to Bianba, Tibet. To raise the production and living standards of the local people, promote economic development and social advancement, the Company deployed three Tibet-support teams for the implementation of more than 30 construction projects. The Company's contributions were greatly appreciated by both the local people and government.

In concern for the next generation and the growth of youths, the Company has assumed responsibility through its active contribution in providing information technology for education such as the Healthy Internet Surfing Project and the Distance-Learning Educational System. As a result, the Company received from the government the Most Outstanding Contribution Award in the Healthy Surfing Campaign. The China VNet service provides under-privileged students in remote mountain areas with high quality course materials and online guidance by high-grade teachers, to ensure the under-privileged students are not left behind. In 2007, the Company donated Family and Love phone cards amounted to RMB3 million to 150,000 students from migrate worker families in the poor rural areas in Sichuan in order to enable their weekly phone communication with their parents.

The Company cares for the disadvantaged and has proactively organized the campaign Care for the Physically-Challenged, Messages without Barriers, which helped the physically-challenged gain better access to the Internet and information technology. In this way, the Company enables them to adapt to the social environment of the information era and keep up with the progress of information technology, hence allowing them to better participate in social life. The Company donated to the Handicapped Welfare Foundation of Zhejiang Province 3,000 sets of specialized telephone radios for the visually-challenged people, which unveiled the nationwide Help the Visually-Challenged with Telephone Radio Campaign. The Company and the Sichuan People's Broadcasting Company jointly set up the first modern information platform specifically for the physically-challenged to gain access to the audio library, employment consulting and Best Tone services. In this way, the physically-challenged can promptly access the diversified news and information around the world at home.

Secured emergency communication

Over the years, the Company has been undertaking the responsibility of securing safe and smooth national communications. The Company provides support for the successful holding of important

political and social events, and secured communication services for important holidays, the National People's Congress of the People's Republic of China and Chinese People's Political Consultative Conferences. In 2007, the Company successfully completed its important tasks in providing secured communications for New Year's Day, the Spring Festival, the 17th National Congress of the Communist Party of China, the Annual Meeting of African Development Bank, the Women's Football World Cup, the Special Olympic World Games in Shanghai, and the launch of Satellite Chang E.

The Company has established a prompt responding mechanism for emergency protection, which provides reliable communication protection in case of outbreak of major incidents. In the event of catastrophic damage, the Company strives to ensure smooth communications and restore communication services in disaster-stricken areas in its fastest capacity.

In 2007, persistent rainstorms in southern China led to severe flooding. To restore smooth communications across the country, the Company immediately took active measures to participate in disaster rescue efforts and restored different communication services provided to the society in a timely manner.

In early 2008, the southern regions of China suffered from a snowstorm. In face of the extraordinary natural disasters, the Company's management of all levels paid high attention and proposed centralized circuits deployment and resource allocation to restore communication services with full efforts of the whole group in the shortest possible time. The Company not only significantly reduced the losses suffered by its customers and corporations, but also provided robust support to local governments' relief efforts. In the critical moments of the rescue, while saving itself from the disaster, the Company dedicated efforts to help restore electricity supply and communication services to society by arranging workforces to repair power lines and base stations for power companies and other telecommunications operators, restore telecommunications cables, and provide oil machines. In addition, fully leveraging on its business advantages, the Company actively provided integrated information services to the disaster-stricken areas. In this regard, the Company set up free family call services, and immediately produced and donated 100,000 Affection Calls, Blissful Hotlines calling cards to the people who were unable to return home because of road blocks. In this way, the Company has provided them the convenience to exchange information and communicate with their families.

Receiving wide recognition

The Company was accredited again in the list of World's Most Admired Companies for the year 2007 by *FORTUNE* and awarded Asia's Best Managed Fixed Telecom Company for the year 2007 by *Euromoney*. At the same time, the Company respectively received The Best Corporate Governance, Most Accessible Senior Management and Most Convincing and Coherent Strategy awards in the ranking of all industries in Asia. In addition, the Company was accredited with CAPITAL Outstanding China Enterprise Awards Telecommunications by *CAPITAL* for two consecutive years, received top ranking in the selection of the best company in Asia (China group) for the year 2007 by *FinanceAsia* and was awarded the Best Managed Company China, the Best Corporate Governance China and the Best Investor Relations China.

CHINA TELECOM AND CUSTOMERS

Informatisation creates value for customers

1. To benefit the people, the Company promotes informatisation for public services. As a cornerstone driver promoting government's informatisation, the Company proactively promotes office automation of the government, Three Golden Projects, e-government and establishment of electronic administration, so that people can access government information and services through various channels. At present, government departments at all levels have set up more than 200 nationwide information application systems with the use of the Company's network. The City Security Monitoring System based on the Mega Eye services of the Company has become an important measure for different regions to build safety city.
2. To assist and support development of enterprises, the Company promotes enterprise informatisation. The Company introduced two brands in relation to integrated information services, BizNavigator and Best Tone, which help a wide range of enterprises elevate their level of informatisation and improve their competitiveness and profitability.
3. To promote efficient development of industries, the Company focuses on industry informatisation. To meet the informatisation development requirements of different industries, the Company proactively customizes informatisation solutions to industries such as quality inspection, police, customs, taxation and logistics. With safe, high-quality and effective expert-level telecommunications services, the Company assists enterprises in controlling information, grasping future trends and transforming themselves into industry leaders.
4. To promote the informatisation of households, the Company provides households with informatisation services. The Company has launched the household brand One Home, provided informatisation advisory and design, and offered wireless and cable access to different residential areas and households. It also introduced various household comprehensive services so that household customers can select from multiple means of access, such as voice, broadband Internet and video, to enjoy an life information services.

High quality networks provide services for customers

The Company has been continuously strengthening its information infrastructures to meet people's infrastructure demands towards economic informatisation. To satisfy the ever-increasing demand for communication services, the Company has established a large-scale, safe and stable communication network and fully taken advantage of the existing network and data resources. In this way, the Company has contributed to providing high quality, efficient and safe communication services to its customers, improving information infrastructure of the nation and establishing a smooth information network.

Innovative technology raises service standards

The Company regards independent technological innovation capability as the essential issue in corporate development. Focusing on collective innovation and business products, the Company creates corporate values and maintains its leading position in the industry. Based on market demands and the driver of new technologies, the Company advances in technological innovation. For advancement of industry technologies, the Company established a technological innovation system with Beijing Research Center, Shanghai Research Center and Guangzhou Research Center, and actively participated in the construction and testing of important national projects of the information industry. In addition, the Company has actively carried out major strategic technology research on third-generation mobile communication, broadband connection, intelligent optical fibre network and Next Generation Internet, thus promoting the formulation of new standards and specifications, and the continuous evolution of communication technology.

Satisfactory services protect customers' welfare

The Company has been planning and implementing its quality customer service as an important part of the whole corporate strategy. Inheriting the service principle of "Customer First, Service Foremost", corporate mission of "Help Customers Fully Enjoy New Life of Information Services", and operation philosophy of "Pursuant of Corporate Values and Customers' Values to Sustain Mutual Growth", the Company dedicates itself to serving customers sincerely and enriching service connotations. In addition, from the perspective of customer experience, the Company has established a mechanism in relation to service performance appraisals and service quality issues handling. Through the adoption of third-party service quality test and peer comparison, the Company has significantly improved the services of "Customer Hotline 10000", raising the overall service quality. In 2007, the Company received top ranking in the customer satisfaction survey of the industry. In the "Annual Conference of Communications Services 2008", 32 employees, 15 teams and 4 grass-root enterprises were awarded the title "National Stars of Telecommunication Services with Customer Satisfaction (individual, team and enterprise)" for the year 2007.

CHINA TELECOM AND EMPLOYEES

Protection of welfare

The Company attaches great importance to establishing a comprehensive, scientific and effective

welfare protection mechanism, which actively develops corporate activities to promote harmonious labour relationships and accelerate the establishment of a new socialistic labour relationship that is standardized, fair, reasonable, mutually beneficial, harmonious and stable. Taking labour relations coordination as a major task, the Company encourages labour unions of all levels to establish welfare protection mechanism, in which labour unions of all levels insist on fair negotiation and collective contract systems in order to, on the basis of thorough negotiation and mutual collaboration and sharing, standardize collective contract documents of the local network and enhance the implementation rate and validity period of contracts. By means of various approaches, they provide employees with prompt and convenient legal assistance, and help answering letters and enquiries on employment conflicts of employees. Meanwhile, the Company insists on the employment policy of equal payment for equal work and strictly forbids discrimination in employment. It supports equal development opportunities to both male and female employees. To enhance the caliber of female staff, the Company has carried out the Achievement of Quality Target campaign and the Contribution of Ladies activity.

Health and safety

To build a harmonious society, promote economic development and maintain social stability, the Company strictly complies with the laws and regulations of Safe Production Law, Labour Law and Fire Prevention Law, as well as requirements of relevant government authorities. Through the development of training, promotion and education in relation to safe production, the Company consistently raises the awareness and consciousness of employees in respect to safe production. In addition, the Company has implemented a safe production accountability system, established organizations for comprehensive safe production management and a safety management system, and promoted standardized safe production facilities. In this way, the requirements of safe production are deployed to each position and each employee. In addition, to actively improve work environment, to implement labour precautionary measures and health care initiatives, the Company has also strengthened supervisory inspection on safe production, heavily invested in production safety, and rectified the hidden causes of accidents. As a result, normal operation of telecommunication production is ensured and a good and safe environment for the enterprise has been safeguarded.

Care for employees

The Company makes great efforts in promoting corporate competitiveness and creating a harmonious and stable labour relationship. For the continuous enhancement and improvement on its poverty assistance mechanism, the Company has established Care-Giving Fund and Assistance Centre for Employees with Difficulties, raising funds for poverty assistance and employees suffering from serious illness. Meanwhile, the Company has also set up a special festival caring system, employee annual medical check and leave system, and caring system for important affairs of employees and their families. For the development of young employees, in 2007, the Company held

the Face-to-Face Dialogue between Young Employees and Senior Management interview series. With such communication platform, the young employees are inspired to improve themselves and thus deepen the corporate transformation process. During the outbreak of snowstorm disasters in southern China in early 2008, the Company's employees organized the Melt the Ice with Warmth, Feel the Love in Need campaign, offering support of the whole company to help each other out. This function raised more than RMB1.7 million emergency funds which was then distributed to the affected employees who were carrying out the relief actions while their families were facing difficult situations.

Cultural life

To guide the employees' consumption in cultural life and help them cultivate a healthy leisure life style, the Company promoted a wide range of well-received amateur sports and recreational activities that have integrated ideology, knowledge and interest. Such activities included a series of Olympic Games-oriented fitness programs for the employees, basketball and table tennis tournaments for the whole company, and collections of photographs and paintings. Labor unions at all levels held more than 400 different sports events and cultural activities, and made outstanding achievements in their active participation in different cultural and sports events organized by the Sports Association of Chinese Telecommunications Industry. Two subsidiaries of the Company were accredited Model Unit of Employee Sports in China by the State Sport General Administration. China Telecom Employee Arts Troupe and Bayi China Telecom Women's Basketball Team also won reputation in the society. Through extensive development of cultural activities, the spiritual and cultural requirements of the employees were met, recreational and cultural life of the employees were invigorated, and the loyalty and cohesiveness of the employees have been further reinforced.

CHINA TELECOM AND THE ENVIRONMENT

Development of energy-saving products and cyclic economy, active use of environmental-friendly materials

The Company has paid great attention to maintaining a healthy environment for human beings. Its telecommunications projects are always constructed under the guideline and measures of environmental protection. When purchasing its telecommunications equipment, the Company carefully selects optic fibre cables and transmission systems that are noiseless and free from electromagnetic radiations and pollutants. When carrying out field surveys on communication routes, the Company always tries to avoid mines, forests, grasslands, wild animal habitats, natural heritage sites, human relic sites, nature reserves and famous scenic areas. When laying down optic fibre cables, the Company adopts directional drilling techniques which allow cables to pass directly through any obstacle without affecting the surrounding environment. In the process of fighting against the snowstorm in southern region in early 2008, the Company efficiently collected and handled all abandoned batteries in order to avoid potential environmental risks.

Innovative communication and information service products help saving resources

Focusing on environment-protecting technology, the Company integrated the features of telecommunication services and, through information technology solutions, developed modern products to facilitate energy saving for the industry and society as a whole, contributing to building an energy-saving society. The Company provides telecommunications application products like Mega Eye and Best Tone to individuals, corporations and industries in replacement of traditional information delivery methods, hence promoting energy saving in the workplace, in transportation, as well as the building of an energy saving society.

Establishing conservation-oriented enterprise, striving to achieve energy-saving and emission reduction

The Company has launched cost saving and efficiency raising work. It separately standardised the costs of different areas, including offices, marketing, maintenance, labor and investment. To create a strong atmosphere of conservation-oriented enterprise, the Company uses energy-saving lamps in production and offices, appropriately adjusts the temperature of telecommunications machine rooms and offices, and encourages the entire workforce to save paper and water.

In the future, in line with further strategic adjustment in economic structure and continuous acceleration of the process of popularisation of information technology in national economic activities in China, the Company, through its strategic transformation, will actively engage in various mutual beneficial collaborations in the industry. This will bring a range of benefits, such as combination and extension of the industry value chain, continuous expansion of areas for cooperation, improvement in operating efficiency in the whole industry, and creation and maintenance of a healthy and harmonious industrial environment, all of which will contribute to the sustainable and healthy development of the industry, and help to achieve the Company's goal of serving the national economy and promoting social development while seeking maximum return for the shareholders. The Company will sincerely provide return to the society and make its due contribution to building a more harmonious society.

Notice of Annual General Meeting

NOTICE IS HEREBY GIVEN that the annual general meeting of China Telecom Corporation Limited (the Company) for the year ended 2007 will be held at 11:00 am on 30 May 2008 in the Ballroom, Level 3, JW Marriott Hotel Hong Kong, Pacific Place, 88 Queensway, Hong Kong to consider and, if thought fit, pass the following businesses:

ORDINARY RESOLUTIONS

1. **THAT** the consolidated financial statements of the Company, the report of the Board of Directors, the report of the Supervisory Committee and the report of the international auditor for the year ended 31 December 2007 be considered and approved, and the Board of Directors (the Board) be authorised to prepare the budget of the Company for year 2008;
2. **THAT** the profit distribution proposal and the declaration and payment of a final dividend for the year ended 31 December 2007 be considered and approved;
3. **THAT** the reappointment of KPMG and KPMG Huazhen as the international auditor and domestic auditor of the Company respectively for the year ending 31 December 2008 be considered and approved, and the Board be authorised to fix the remuneration of the auditors; and to consider and approve other businesses (if any).

And as special business, to consider and, if thought fit, pass the following as special resolutions:

SPECIAL RESOLUTIONS

4. **THAT** the issue of debenture by the Board be considered, approved, confirmed and ratified.
 - (1) **THAT** the Company's issue of debentures denominated in local or foreign currencies, in one or more tranches, including, but not limited to, short-term commercial paper, company bonds, corporate debts, asset securitization products and asset-backed notes, from the date of this meeting until the date on which the annual general meeting of the Company for the year ended 2008 is held, with a maximum outstanding repayment amount of RMB60 billion be approved (the Issue).
 - (2) **THAT** the Board or any two or more directors of the Company (the Directors) duly authorised by the Board, taking into consideration the specific needs of the Company and other market conditions, be and are hereby generally and unconditionally authorised to:
 - (a) determine the specific terms, conditions and other matters of the Issue (including, but not limited to, the determination of the type, actual aggregate amount, interest rate, rating, guarantee arrangements and use of proceeds of the Issue);

(b) do all such acts which are necessary and incidental to the Issue (including, but not limited to, the securing of approvals, the determination of underwriting arrangements, preparation and dissemination of relevant application documents to the regulatory body, and the securing of approvals from the regulatory body); and

(c) take all such steps which are necessary for the purposes of executing the Issue (including, but not limited to, the execution of all requisite documentation and the disclosure of relevant information in accordance with applicable laws)

and to the extent that any of the aforementioned acts and steps that have already been undertaken by the Board or the Directors in connection with the Issue, be hereby approved, confirmed and ratified.

5. **THAT:**

(a) subject to paragraph (c) below, the exercise by the Board during the Relevant Period (as hereinafter defined) of all the powers of the Company to allot, issue and deal with additional shares of the company (Shares) and to make or grant offers, agreements and options which might require the exercise of such powers be hereby generally and unconditionally approved;

(b) the approval in paragraph (a) shall authorise the Board during the Relevant Period to make or grant offers, agreements and options which might require the exercise of such powers after the end of the Relevant Period;

(c) the amount of additional domestic Shares or overseas-listed foreign invested shares (H Shares) (as the case may be) allotted, issued and dealt with or agreed conditionally or unconditionally to be allotted, issued and dealt with either separately or concurrently by the Board pursuant to the approval in paragraph (a), otherwise than pursuant to (i) a Rights Issue (as hereinafter defined) or (ii) any scrip dividend or similar arrangement providing for the allotment of Shares in lieu of the whole or part of a dividend on Shares in accordance with the articles of association of the Company shall not exceed 20% of each of the Company's existing domestic Shares and H Shares (as the case may be) in issue at the date of passing this special resolution; and

(d) for the purpose of this special resolution 5:

Relevant Period means the period from the passing of special resolution 5 until the earliest of:

- (i) the conclusion of the next annual general meeting of the Company;
- (ii) the expiration of the 12 months period following the passing of these special resolutions; and
- (iii) the revocation or variation of the authority given to the Board under these special resolutions by a special resolution of the Company's shareholders in its general meeting.

Rights Issue means an offer of shares open for a period fixed by the Board to holders of Shares on the register of members on a fixed record date in proportion of their holdings of such Shares (subject to such exclusion or other arrangements as the Board may deem necessary or expedient in relation to fractional entitlements or having regard to any legal or practical restrictions or obligations under the laws of, or the requirement of, any recognised regulatory body or any stock exchange in any territory applicable to the Company) and an offer, allotment or issue of shares by way of rights shall be construed accordingly.

6. **THAT** the Board be authorised to increase the registered capital of the Company to reflect the issue of shares in the Company authorised under special resolution 5, and to make such appropriate and necessary amendments to the articles of association of the Company as they think fit to reflect such increases in the registered capital of the Company and to take any other action and complete any formality required to effect such increase of the registered capital of the Company.

By Order of the Board

Yung Shun Loy, Jacky

Company Secretary

Beijing, PRC

14 April 2008

Notes:

- (1) Shareholders who submit their share transfer application forms to the Company's share registrar before 4:30 p.m. on 29 April 2008 and then register as shareholders on the register of members of the Company are entitled to attend the annual general meeting.
- (2) Each shareholder entitled to attend and vote at the annual general meeting may appoint one or more proxies to attend and vote on his behalf at the annual general meeting. A proxy need not be a shareholder. Each shareholder who wishes to appoint one or more proxies should first review the annual report of the Company for the year 2007, which is expected to be dispatched to shareholders around 14 April 2008.
- (3) To be valid, the form of proxy together with the power of attorney or other authorisation document (if any) signed by the authorised person or notarially certified power of attorney must be delivered to the Office of the Board of the Company for holders of domestic shares and to the Computershare Hong Kong Investor Services Limited for holders of H shares not less than 24 hours before the designated time for the holding of the annual general meeting. Completion and return of a form of proxy will not preclude a shareholder from attending in person and voting at the annual general meeting if he so wishes. The address of the share registrar for the Company's H shares is Computershare Hong Kong Investor Services Limited Room 1806-1807, 18th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong.

(4) A proxy of a shareholder may vote by hand or vote on a poll, but a proxy of a shareholder who has appointed more than one proxy may only vote on a poll.

(5) The registration procedure for attending the annual general meeting:

(a) shareholders attending the annual general meeting in person or by proxy shall present their identity certification. If the attending shareholder is a corporation, its legal representative or person authorised by the Board or other decision making authority shall present a copy of the relevant resolution of the Board or other decision making authority in order to attend the annual general meeting.

(b) shareholders intending to attend the annual general meeting shall return the attendance slip via hand delivery, mail or fax to the Office of the Board of the Company on or before 9 May 2008.

(6) Closure of the register of members:

The register of members of the Company will be closed from 30 April 2008 to 30 May 2008 (both days inclusive).

(7) The annual general meeting is expected to last for half a day and shareholders (in person or by proxy) attending the annual general meeting shall be responsible for their own transport and accommodation expenses.

(8) The address of the Office of the Board is as follows:

31 Jinrong Street

Xicheng District, Beijing 100032

Report of the Independent International Auditor

To the Shareholders of

China Telecom Corporation Limited

(Incorporated in The People's Republic of China with limited liability)

We have audited the consolidated financial statements of China Telecom Corporation Limited (the Company) set out on pages 115 to 194, which comprise the consolidated and company balance sheets as at 31 December 2007, and the consolidated income statement, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation and the true and fair presentation of these financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of the report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2007 and of the Group's profit and cash flows for the year then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance.

The notes on pages 122 to 194 form part of these financial statements.

Notes to the Financial Statements

For the year ended 31 December 2007

1. PRINCIPAL ACTIVITIES, ORGANISATION AND BASIS OF PRESENTATION

Principal activities

China Telecom Corporation Limited (the Company) and its subsidiaries (hereinafter, collectively referred to as the Group) are engaged in the provision of wireline telecommunications and related services in Shanghai Municipality, Guangdong Province, Jiangsu Province, Zhejiang Province, Anhui Province, Fujian Province, Jiangxi Province, Guangxi Zhuang Autonomous Region, Chongqing Municipality, Sichuan Province, Hubei Province, Hunan Province, Hainan Province, Guizhou Province, Yunnan Province, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Hui Autonomous Region and Xinjiang Uygur Autonomous Region of the People's Republic of China (the PRC). The Group offers a comprehensive range of wireline telecommunications services to residential and business customers, including local, domestic long distance and international long distance telephone services, Internet and managed data, leased line, and other related services. In 2007, the Group began to offer leased line and other related services in the Asia Pacific region, and certain countries of South and North America.

The operations of the Group in the mainland PRC are subject to the supervision and regulation by the PRC government. The Ministry of Information Industry, pursuant to the authority delegated to it by the PRC's State Council, is responsible for formulating the telecommunications industry policies and regulations, including the regulation and setting of tariff levels for basic telecommunications services, such as local and long distance telephone services, managed data services, leased line and interconnection arrangements.

Organisation

China Telecommunications Corporation (China Telecom) and together with its subsidiaries other than the Company referred to as China Telecom Group) is a state-owned enterprise which is under the supervision and regulation of the Ministry of Information Industry. In November 2001, pursuant to an industry restructuring plan approved by the State Council, China Telecom's wireline telecommunications networks and related operations in 10 northern provinces, municipalities and autonomous regions of the PRC were transferred to China Netcom Group. China Telecom retained the wireline telecommunications networks and related operations of 21 provinces, municipalities and autonomous regions of the PRC, including those of the Company's subsidiaries. In accordance with this industry restructuring plan, China Telecom and China Netcom Group own 70% and 30%, respectively, of the nationwide inter-provincial optic fibers.

As part of the reorganisation (the Restructuring) of China Telecom, the Company was incorporated in the PRC on 10 September, 2002. In connection with the Restructuring, China Telecom transferred to the Company the wireline telecommunications business and related operations in Shanghai Municipality, Guangdong Province, Jiangsu Province and Zhejiang Province together with the related assets and liabilities (the Predecessor Operations) in consideration for 68,317 million ordinary domestic shares of the Company. The shares issued to China Telecom have a par value of RMB1.00 each and represented the entire registered and issued share capital of the Company at that date.

Pursuant to the resolution passed by the Company's independent shareholders at an

Extraordinary General Meeting held on 15 December 2003, the Company acquired the entire equity interests in Anhui Telecom Company Limited, Fujian Telecom Company Limited, Jiangxi Telecom Company Limited, Guangxi Telecom Company Limited, Chongqing Telecom Company Limited and Sichuan Telecom Company Limited (collectively the First Acquired Group) and certain network management and research and development facilities from China Telecom for a total purchase price of RMB46,000 million on 31 December 2003 (hereinafter, referred to as the First Acquisition). The purchase price consisted of a cash payment of RMB11,000 million and a long-term payable of RMB35,000 million (see Note 14).

Pursuant to the resolution passed by the Company's independent shareholders at an Extraordinary General Meeting held on 9 June 2004, the Company acquired the entire equity interests in Hubei Telecom Company Limited, Hunan Telecom Company Limited, Hainan Telecom Company Limited, Guizhou Telecom Company Limited, Yunnan Telecom Company Limited, Shaanxi Telecom Company Limited, Gansu Telecom Company Limited, Qinghai Telecom Company Limited, Ningxia Telecom Company Limited and Xinjiang Telecom Company Limited (collectively the Second Acquired Group) from China Telecom for a total purchase price of RMB27,800 million on 30 June 2004 (hereinafter, referred to as the Second Acquisition). The purchase price consisted of a cash payment of RMB8,340 million and a long-term payable of RMB19,460 million. On 30 June 2004, the Company repaid RMB4,310 million of this payable amount using the net proceeds from the issuance of new H shares in May 2004 (see Note 14).

Pursuant to an equity purchase agreement entered into by the Company with China Telecom on 15 June 2007, the Company acquired the entire equity interests in China Telecom System Integration Co., Ltd. (CTSI), China Telecom (Hong Kong) International Limited (CT (HK)) and China Telecom (Americas) Corporation (CT Americas) (formerly known as China Telecom (USA) Corporation) (collectively the Third Acquired Group) from China Telecom for a total purchase price of RMB1,408 million on 30 June 2007 (hereinafter, referred to as the Third Acquisition). The purchase price was fully paid in cash in July 2007.

CTSI is a limited company incorporated in mainland PRC and its principal business is the provision of system integration services, outsourcing services, application software development as well as consultancy services in the PRC. CT (HK) is a limited company incorporated in Hong Kong Special Administrative Region of China and operates in the Asia Pacific Region. CT Americas is a limited company incorporated in the United States of America and operates in certain countries of South America and North America. The principal business of CT (HK) and CT Americas is the provision of leased line and related services for corporate customers including voice wholesale, international private network, cross-border transit connection and Internet data centres.

Hereinafter, the First Acquired Group, the Second Acquired Group and the Third Acquired Group are collectively referred to as the Acquired Groups.

Basis of presentation

Since the Company and the Acquired Groups were under the common control of China Telecom, the First Acquisition, the Second Acquisition and the Third Acquisition (the Acquisitions) have been reflected in the accompanying consolidated financial statements as a combination of entities under common control in a manner similar to a pooling-of-interests. Accordingly, the assets and liabilities of the Acquired Groups have been accounted for at

historical amounts and the consolidated financial statements of the Company include the results of operations and assets and liabilities of the Acquired Groups on a combined basis as of the earliest date presented. The consideration paid by the Company for the acquisition of the Acquired Groups have been accounted for as equity transactions in the consolidated statement of changes in equity.

The results of operations for the year ended 31 December 2006 and the financial condition as at 31 December 2006 previously reported by the Group have been restated to include the results and assets and liabilities of the Third Acquired Group as set out below:

	The Group (as previously reported) RMB millions	The Third Acquired Group RMB millions	The Group (as restated) RMB millions
Result of operations for the year ended 31 December 2006:			
Operating revenues	175,093	523	175,616
Net profit	27,225	99	27,324
Financial condition as at 31 December 2006:			
Total assets	414,041	4,830	418,871
Total liabilities	210,168	1,054	211,222

For the periods presented, all significant balances and transactions between the Group and the Third Acquired Group have been eliminated on combination.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). IFRS includes International Accounting Standards (IAS) and interpretations. These financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

These financial statements are prepared on the historical cost basis as modified by the revaluation of certain property, plant and equipment (Note 2(g)) and available-for-sale equity securities (Note 2(l)). The accounting policies described below have been consistently applied by the Group.

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgement made by management in the application of IFRS that have significant effect on the financial statements and estimates with a significant risk of material adjustment in future financial periods are described in Note 37.

The IASB has issued certain new and revised IFRS which are effective for accounting periods on or after 1 January 2007. The new disclosures resulting from the initial application of these standards or developments to the extent they are relevant to the Group are summarised as follows:

- (i) IFRS 7, Financial instruments: Disclosures, requires expanded disclosures about the significance of the Group's financial instruments and the nature and extent of risks arising from those instruments, compared with the information previously required to be disclosed by IAS 32, Financial instruments: Disclosure and presentation. These additional disclosures are provided primarily in Note 32.
- (ii) The Amendment to IAS 1, Presentation of financial statements: Capital disclosures, introduces additional disclosure requirements to provide information about the level of capital and the Group's objectives, policies and processes for managing capital. These new disclosures are set out in Note 33.

Both IFRS 7 and the Amendment to IAS 1 do not have any material impact on the classification, recognition and measurement of the amounts recognised in the financial statements.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period (see Note 38).

With effect from 31 December 2007, the Group has presented the amount of Intangible assets as a separate caption on the face of the balance sheet. The related comparative figures have been reclassified to conform with the current year's presentation.

(b) Basis of consolidation

The consolidated financial statements comprise the Company and its subsidiaries and the Group's interests in associates. A subsidiary is an entity controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The financial results of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases, and the profit attributable to minority interests is separately presented on the face of the consolidated income statement as an allocation of the profit or loss for the year between the minority interests and the equity holders of the Company. Minority interests at the balance sheet date, being the portion of the net assets of subsidiaries attributable to equity interests that are not owned by the Company, whether directly or indirectly through subsidiaries, are presented in the consolidated balance sheet and consolidated statement of changes in equity within equity, separately from equity attributable to the equity holders of the Company.

An associate is an entity, not being a subsidiary, in which the Group exercises significant influence, but not control, over its management. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control over those policies.

An investment in an associate is accounted for in the consolidated financial statements under the equity method and is initially recorded at cost and adjusted thereafter for the Group's equity share of the post-acquisition results of the associate.

All significant intercompany balances and transactions and any unrealised gains arising from intercompany transactions are eliminated on consolidation. Unrealised gains arising from transactions with associates are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(c) Translation of foreign currencies

The functional and presentation currency of the Company and its subsidiaries in mainland PRC is Renminbi (RMB). The functional currency of CT (HK) and CT Americas is Hong Kong dollars (HK\$) and US dollars (US\$) respectively. Foreign currency transactions denominated in currencies other than the functional currency during the year are translated into the functional currency at the applicable rates of exchange prevailing on the transaction dates. Foreign currency monetary assets and liabilities are translated into the functional currency using the applicable exchange rates at the balance sheet date. The resulting exchange differences, other than those capitalised as construction in progress (Note 2(i)), are recognised as income or expense in the consolidated income statement. For the periods presented, no exchange differences were capitalised.

When preparing the Company's consolidated financial statements, the results of operations of CT (HK) and CT Americas are translated into Renminbi at average rate prevailing during the year. Balance sheet items of CT (HK) and CT Americas are translated into Renminbi at the foreign exchange rates ruling at the balance sheet date. The resulting exchange differences are recognised directly in exchange reserve, a component of equity.

(d) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and time deposits with original maturities of three months or less when purchased. Cash equivalents are stated at cost, which approximates fair value. None of the Group's cash and cash equivalents is restricted as to withdrawal.

(e) Trade and other receivables

Trade and other receivables are initially recognised at fair value and thereafter stated at amortised cost less allowance for impairment of doubtful debts (Note 2(m)).

(f) Inventories

Inventories consist of materials and supplies used in maintaining the wireline telecommunications network and goods for resale. Materials and supplies are valued at cost using the first in, first out method, less a provision for obsolescence.

Inventories that are held for resale are stated at the lower of cost or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(g) Property, plant and equipment

Property, plant and equipment are initially recorded at cost, less subsequent accumulated depreciation and impairment losses (Note 2(m)). The cost of an asset comprises its purchase price, any directly attributable costs of bringing the asset to working condition and location for its intended use and the cost of borrowed funds used during the periods of construction. Expenditure incurred after the asset has been put into operation, including cost of replacing part of such an item, is capitalised only when it increases the future economic benefits embodied in the item of property, plant and equipment and the cost can be measured reliably. All other expenditure, including the cost of repairs and maintenance which is substantially included in network operations and support expenses, is expensed as it is incurred.

Subsequent to the revaluation as described in Note 3, property, plant and equipment are carried at revalued amount, being the fair value at the date of the revaluation, less subsequent accumulated depreciation and impairment losses. When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount. The separate classes into which the Company groups assets for the revaluation are buildings and improvements; telecommunications network plant and transmission and switching equipment; and furniture, fixture, motor vehicles and other equipment. When an item of property, plant and equipment is revalued, the entire class of property, plant and equipment to which that asset belongs is revalued simultaneously. When an asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to equity under the component of revaluation reserve. However, a revaluation increase is recognised as income to the extent that it reverses a revaluation decrease of the same asset previously recognised as an expense. When an asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised as an expense in the consolidated income statement. However, a revaluation decrease is charged directly against any related revaluation surplus to the extent that the decrease does not exceed the amount held in the revaluation reserve in respect of that same asset. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. Revaluations are performed annually on items which experience significant and volatile movements in fair value while items which experience insignificant movements in fair value are revalued every three years.

Assets acquired under leasing agreements which effectively transfer substantially all the risks and benefits incidental to ownership from the lessor to the lessee are classified as assets under finance leases. Assets held under finance leases are initially recorded at amounts equivalent to the present value of the minimum lease payments (computed using the rate of interest implicit in the lease) which approximate the fair value at the inception of the lease. The net present value of the future minimum lease payments is recorded correspondingly as a finance lease obligation. Assets held under finance leases are amortised over their estimated useful lives on a straight-line basis. As at 31 December 2007, the carrying amount of assets held under finance leases was RMB32 million (2006: RMB197 million).

Gains or losses arising from retirement or disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the consolidated income statement on the date of disposal. On disposal of a revalued asset, the related revaluation surplus is transferred from the revaluation reserve to retained earnings.

Depreciation is provided to write off the cost/revalued amount of each asset over its estimated useful life on a straight-line basis, after taking into account its estimated residual value, as follows:

	Depreciable lives primarily range from
Buildings and improvements	8 to 30 years
Telecommunications network plant, transmission and switching equipment	6 to 10 years
Furniture, fixture, motor vehicles and other equipment	4 to 10 years

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value are reviewed annually.

(h) Lease prepayments

Lease prepayments represent land use rights paid to the PRC's land bureau. Land use rights are initially carried at cost and written off on a straight-line basis over the respective periods of the rights which range from 20 years to 70 years.

(i) Construction in progress

Construction in progress represents buildings, telecommunications network plant, transmission and switching equipment and other equipment under construction and pending installation, and is stated at cost less impairment losses (Note 2(m)). The cost of an item comprises direct costs of construction, interest charges, and foreign exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charges, during the periods of construction. Capitalisation of these costs ceases and the construction in progress is transferred to property, plant and equipment when the asset is substantially ready for its intended use.

No depreciation is provided in respect of construction in progress.

(j) Intangible assets

The Group's intangible assets, which represent acquired computer software that is not an integral part of any tangible assets, are initially recorded at cost less subsequent accumulated amortisation and impairment losses (Note 2(m)).

Amortisation of intangible assets is calculated on a straight-line basis over the estimated useful lives of the intangible assets, which range from 3 to 5 years.

(k) Investments in subsidiaries

In the Company's stand-alone balance sheet, investments in subsidiaries are stated at cost less impairment losses (Note 2(m)).

(l) Investments

Investments in available-for-sale equity securities are carried at fair value with any

change in fair value being recognised directly in equity. When these investments are derecognised or impaired, the cumulative gain or loss previously recognised directly in equity is recognised in the consolidated income statement. Investments in equity securities that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are stated at cost less impairment losses (Note 2(m)).

(m) Impairment

(i) *Impairment of investments in equity securities and impairment losses for trade and other receivables*

Investments in equity securities and trade and other receivables are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If such evidence exists, the impairment loss is measured as the difference between the asset's carrying amount and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material, and is recognised as an expense in the consolidated income statement. Impairment losses for trade and other receivables are reversed through profit and loss if in a subsequent period the amount of the impairment losses decreases. Impairment losses for equity securities are not reversed.

For the years ended 31 December 2006 and 2007, no impairment loss was made for investments in equity securities. For the year ended 31 December 2007, impairment losses for trade and other receivables of RMB1,390 million (2006: RMB1,236 million) were recognised.

(ii) *Impairment of long-lived assets*

The carrying amounts of the Group's long-lived assets, including property, plant and equipment, intangible assets and lease prepayments are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The amount of the reduction is recognised as an expense in the consolidated income statement. The recoverable amount is the greater of the net selling price and the value in use. When an asset does not generate cash flows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit). In determining the value in use, expected future cash flows generated by the assets are discounted to their present value. For the year ended 31 December 2006 and 2007, no provision for impairment loss was made against the carrying value of long-lived assets.

The Group assesses at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as an income in the consolidated income statement. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred. For the years presented, no reversal of impairment loss was recognised in the consolidated income statement.

(n) Revenue recognition

The Group's revenues are principally derived from the provision of local, domestic long distance (DLD) and international long distance (ILD) telephone services which consist of (i) usage charges for telephone services, which vary depending on the day, the time of day, distance and duration of the telephone call, (ii) a monthly telephone service fee, (iii) service activation and installation fees, and (iv) charges for value-added telecommunications services, such as caller ID services, short messaging services, telephone information services and ring tone services. The Group records wireline service revenues over the periods they are earned as follows:

- (i) Revenues derived from local, DLD and ILD telephone usage are recognised as the services are provided.
- (ii) Upfront fees received for activation of wireline services and wireline installation charges are deferred and recognised over the expected customer relationship period. The related direct incremental customer acquisition costs are deferred to the extent of the upfront fees and are amortised over the same expected customer relationship period.
- (iii) Monthly telephone service fees are recognised in the month during which the telephone services are provided to customers.
- (iv) Revenues from sale of prepaid calling cards are recognised as the cards are used by customers.
- (v) Revenues derived from value-added and integrated information application services are recognised when the services are provided to customers.

Other related telecommunications service revenues are recognised as follows:

- (i) Revenues from the provision of Internet and managed data services are recognised when the services are provided to customers.
- (ii) Interconnection fees from domestic and foreign telecommunications operators are recognised when the services are rendered as measured by the minutes of traffic processed.
- (iii) Lease income from operating leases is recognised over the term of the lease.
- (iv) Sale of customer-end equipment is recognised on delivery of the equipment to customers and when the significant risks and rewards of ownership and title have been transferred to the customers.

(o) Advertising and promotion expense

The costs for advertising and promoting the Group's wireline telecommunications services are expensed as incurred. Advertising and promotion expense, which is included in selling, general and administrative expenses, was RMB10,397 million for the year ended 31 December 2007 (2006: RMB10,520 million).

(p) Net finance costs

Net finance costs comprise interest income on bank deposits, interest expense on borrowings, and foreign exchange gains and losses. Interest income from bank deposits is recognised as it accrues using the effective interest method.

Interest costs incurred in connection with borrowings, calculated using the effective interest method, are expensed as incurred, except to the extent that they are capitalised as being directly attributable to the construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

(q) Research and development expense

Research and development expenditure is expensed as incurred. For the year ended 31 December 2007, research and development expense was RMB524 million (2006: RMB292 million).

(r) Employee benefits

The Group's contributions to defined contribution retirement plans administered by the PRC government are recognised as an expense in the consolidated income statement as incurred. Further information is set out in Note 35.

Compensation expense in respect of the stock appreciation rights granted is accrued as a charge to the income statement over the applicable vesting period based on the fair value of the stock appreciation rights. The liability of the accrued compensation expense is re-measured to fair value at each balance sheet date with the effect of changes in the fair value of the liability charged or credited to the consolidated income statement. Further details of the Group's stock appreciation rights scheme are set out in Note 36.

(s) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value recognised in the consolidated income statement over the period of the borrowings, together with any interest, using the effective interest method.

(t) Trade and other payables

Trade and other payables are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(u) Provisions and contingent liabilities

A provision is recognised in the consolidated balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(v) Income tax

Income tax comprises current and deferred tax. Income tax is recognised in the consolidated income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is calculated on the taxable income for the year by applying the applicable tax rates. Deferred tax is provided using the balance sheet liability method, providing for all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax is calculated on the basis of the enacted tax rates that are expected to apply in the period when the asset is realised or the liability is settled. The effect on deferred tax of any changes in tax rates is charged or credited to the consolidated income statement, except for the effect of a change in tax rate on the carrying amount of deferred tax assets and liabilities which were previously charged or credited directly to equity upon initial recognition, in such case the effect of a change in tax rate is also charged or credited to equity.

A deferred tax asset is recognised only to the extent that it is probable that future taxable income will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(w) Dividends

Dividends are recognised as a liability in the period in which they are declared.

(x) Segmental reporting

A business segment is a distinguishable component of the Group that is engaged in providing products or services and is subject to risks and rewards that are different from those of other segments. For the periods presented, the Group has one operating segment which is the provision of wireline telecommunications services. No geographical segment information has been presented as the Group's operating activities are substantially carried out in the PRC and less than 10 percent of the Group's operating revenues and profit before taxation were derived from activities outside the PRC. A majority of the Group's assets are located in the PRC and less than 10 percent of the Group's total assets are located outside the PRC.

Net book value at 31 December 2006		321	50	371

In accordance with the Group's accounting policy (Note 2(g)), the property, plant and equipment of the Group as at 31 December 2007 were revalued for each asset class by the Company on a depreciated replacement cost basis. The property, plant and equipment as at 31 December 2007 was revalued at RMB326,123 million. The surplus on revaluation of certain property, plant and equipment totalling RMB4,809 million was credited to the revaluation reserve while the deficit on revaluation of certain property, plant and equipment totalling RMB2,755 million was recognised as an expense for the year ended 31 December 2007.

The following is a summary of the carrying value of the Group's property, plant and equipment before the revaluation and the revalued amounts of these assets as at 31 December 2007:

	Carrying value before the revaluation RMB millions	Revaluation surplus RMB millions	Revaluation Deficit RMB millions	Revalued amounts RMB millions
Buildings and improvements	56,913	3,578		60,491

	The Company	
	2007	2006
	RMB	RMB
	millions	millions
Unquoted investments, at cost	178,642	177,132

Details of the Company's subsidiaries at 31 December 2007, which principally affected the results of operations and the financial position of the Group, are as follows:

Name of Company	Type of legal entity	Date of incorporation	Registered/ Issued capital (in RMB millions unless otherwise stated)
Shanghai Telecom Company Limited	Limited Company	11 October 2002	15,984
Guangdong Telecom Company Limited	Limited Company	10 October 2002	47,513
Jiangsu Telecom Company Limited	Limited Company	19 October 2002	19,208
Zhejiang Telecom Company Limited	Limited Company	10 October 2002	22,400
Anhui Telecom Company Limited	Limited Company	26 August 2003	3,871
Fujian Telecom Company Limited	Limited Company	28 August 2003	10,364
Jiangxi Telecom Company Limited	Limited Company	18 September 2003	4,523
Guangxi Telecom Company Limited	Limited Company	28 August 2003	4,992
Chongqing Telecom Company Limited	Limited Company	22 August 2003	4,276
Sichuan Telecom Company Limited	Limited Company	28 August 2003	8,123
Hubei Telecom Company Limited	Limited Company	9 March 2004	6,208

Name of Company	Type of legal entity	Date of incorporation	Registered/ Issued capital (in RMB millions unless otherwise stated)
Hunan Telecom Company Limited	Limited Company	12 March 2004	3,574
Hainan Telecom Company Limited	Limited Company	9 March 2004	1,233
Guizhou Telecom Company Limited	Limited Company	12 March 2004	2,801
Yunnan Telecom Company Limited	Limited Company	9 March 2004	3,747
Shaanxi Telecom Company Limited	Limited Company	8 March 2004	3,254
Gansu Telecom Company Limited	Limited Company	10 March 2004	4,515
Qinghai Telecom Company Limited	Limited Company	10 March 2004	965
Ningxia Telecom Company Limited	Limited Company	10 March 2004	795
Xinjiang Telecom Company Limited	Limited Company	11 March 2004	4,660
China Telecom System Integration Co., Limited	Limited Company	13 September 2001	142
China Telecom (Hong Kong) International Limited	Limited Company	25 February 2000	HK\$ 100,000
China Telecom (Americas) Corporation	Limited Company	22 November 2001	US\$ 23 million
China Telecom Best Tone Information Service Co., Limited	Limited Company	15 August 2007	350

All of the above subsidiaries are wholly-owned by the Company and except for CT (HK) and CT Americas, all of the subsidiaries are incorporated in mainland PRC.

7. INTERESTS IN ASSOCIATES

	The Group	
	2007	2006
	RMB	RMB
	millions	millions
Share of net assets	793	581

The Group's interests in associates are accounted for under the equity method and are individually and in aggregate not material to the Group's financial condition or results of operations for all periods presented. Details of the Group's principal associates are as follows:

Name of company	Attributable equity interest	Principal activities
Shenzhen Shekou Telecommunications Company Limited	50%	Provision of telecommunications services
Shanghai Information Investment Incorporation	24%	Provision of information technology consultancy services

The above associates are established in the PRC and are not traded on any stock exchange.

8. INVESTMENTS

	The Group	
	2007	2006
	RMB	RMB
	millions	millions
Available-for-sale equity securities	177	104
Other unlisted equity investments	97	99
	274	203

Unlisted equity investments mainly represent the Group's various interests in PRC private enterprises which are mainly engaged in the provision of information technology services and Internet contents.

9. DEFERRED TAX ASSETS AND LIABILITIES

Deferred tax assets and deferred tax liabilities are attributable to the items set out below:

The Group:

	Assets		Liabilities		Net balance	
	2007 RMB millions	2006 RMB millions	2007 RMB millions	2006 RMB millions	2007 RMB millions	2006 RMB millions
<i>Current</i>						
Provisions and impairment losses, primarily for receivables	557	540			557	540
<i>Non-current</i>						
Property, plant and equipment	1,205	589	(2,222)	(1,566)	(1,017)	(977)
Deferred revenues and installation costs	1,626	2,152	(861)	(1,123)	765	1,029
Land use rights	5,872	7,690			5,872	7,690
Available-for-sale equity securities			(36)	(22)	(36)	(22)
Deferred tax assets/(liabilities)	9,260	10,971	(3,119)	(2,711)	6,141	8,260

The Group recognises a deferred tax asset only to the extent that it is probable that future taxable income will be available against which the asset can be utilised. Based on the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes that it is probable the Group will realise the benefits of these temporary differences.

Movements in temporary differences are as follows:

	Note	Balance at 1 January 2006 RMB millions	Recognised in income statement RMB millions	Recognised in equity RMB millions	Balance at 31 December 2006 RMB millions
<i>Current</i>					
Provisions and impairment losses, primarily for receivables		369	171		540
<i>Non-current</i>					
Property, plant and equipment		(885)	(92)		(977)
Deferred revenues and installation costs		1,002	27		1,029
Land use rights	(i), (iv)	7,867	(182)	5	7,690
Available-for-sale equity securities				(22)	(22)
Net deferred tax assets		8,353	(76)	(17)	8,260
(Note 25)					

	Note	Balance at 1 January 2007 RMB millions	Recognised in income statement RMB millions	Recognised in equity RMB millions	Balance at 31 December 2007 RMB millions
<i>Current</i>					
Provisions and impairment losses, primarily for receivables		540	17		557
<i>Non-current</i>					
Property, plant and equipment	(ii), (iii)	(977)	1,024	(1,064)	(1,017)
Deferred revenues and installation costs		1,029	(264)		765
Land use rights	(i), (iii)	7,690	(169)	(1,649)	5,872
Available-for-sale equity securities		(22)		(14)	(36)
Net deferred tax assets		8,260	608	(2,727)	6,141
(Note 25)					

Note:

- (i) *In connection with the Restructuring and the Acquisitions, the land use rights of the Predecessor Operations, the First Acquired Group and the Second Acquired Group were revalued as required by the relevant PRC rules and regulations. The tax bases of the land use rights were adjusted to conform to such revalued amounts. The land use rights were not revalued for financial reporting purposes and accordingly, deferred tax assets were created with corresponding increases in shareholders' equity under the caption of other reserves.*
- (ii) *As described in Note 3, in accordance with the Group's accounting policy, the property, plant and equipment of the Group were revalued as at 31 December 2007. The tax bases of these assets were not adjusted to conform to such revalued amounts and accordingly, a deferred tax asset of RMB646 million and a deferred tax liability of RMB1,136 million in respect of the revaluation deficit and surplus respectively were recognized.*
- (iii) *On 16 March 2007, the Fifth Plenary Session of the Tenth National People's Congress passed the Corporate Income Tax Law of the People's Republic of China (new tax law), which takes effect on 1 January 2008. According to the new tax law, a unified corporate income tax rate of 25% are applied to PRC entities; however certain entities previously taxed at preferential rates are subject to a transition period during which their tax rate will gradually be increased to the unified rate of 25% over a five year period starting from 1 January 2008.*

Based on the new tax law, the income tax rate applicable to the Company and certain of its mainland PRC subsidiaries which were previously taxed at 33% is reduced to 25% from 1 January 2008. Based on a tax notice issued by the State Council on 26 December 2007, the applicable tax rates for entities operating in special economic zones, which were previously taxed at the preferential rate of 15%, are 18%, 20%, 22%, 24% and 25% for the years ending 31 December 2008, 2009, 2010, 2011 and 2012, respectively. According to the same notice, the applicable tax rate for entities operating in the western region of the PRC which were granted a preferential tax rate of 15% from 2004 to 2010, remains at 15% for the years ending 31 December 2008, 2009 and 2010 and will be increased to 25% from 1 January 2011. Accordingly, deferred tax assets that are expected to be recovered and deferred tax liabilities that are expected to be settled after 31 December 2007 were adjusted to reflect the change in tax rate. For deferred tax assets and liabilities which were previously credited or charged to profit and loss upon initial recognition, the overall effect of change in tax rate amounting to RMB112 million was charged to the consolidated income statement. For deferred tax assets and liabilities which previously credited or charged to equity, the overall effect of change in the tax rate amounting to RMB1,577 million was recognised in the consolidated statement of changes in equity.

- (iv) *The amounts recognised in equity represent the effect of change in tax rate for a subsidiary on the carrying amount of the deferred tax asset which was previously charged to equity.*

10. INVENTORIES

Inventories represent:

	The Group	
	2007	2006
	RMB	RMB
	millions	millions
Materials and supplies	1,451	1,770
Goods for resale	1,212	1,443
	2,663	3,213

11. ACCOUNTS RECEIVABLE, NET

Accounts receivable, net, are analysed as follows:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Accounts receivable				
Third parties	16,560	15,501	157	153
Amounts due from subsidiaries			46	69
China Telecom Group	207	199		
Other state-controlled telecommunications operators in the PRC	1,377	1,792	52	44
	18,144	17,492	255	266
Less: Allowance for impairment of doubtful debts	(1,434)	(1,500)		
	16,710	15,992	255	266

Amounts due from the provision of wireline telecommunications services to residential and business customers are due within 30 days from the date of billing.

The following table summarises the changes in allowance for impairment of doubtful debts:

	The Group	
	2007	2006
	RMB	RMB
	millions	millions
At beginning of year	1,500	1,507
Allowance for impairment of doubtful debts	1,361	1,224
Accounts receivable written off	(1,427)	(1,231)
At end of year	1,434	1,500

Ageing analysis of accounts receivable from telephone and Internet subscribers is as follows:

	The Group	
	2007	2006
	RMB	RMB
	millions	millions
Current, within 1 month	10,882	11,634
1 to 3 months	2,358	1,074
4 to 12 months	1,003	1,062
More than 12 months	301	314
	14,544	14,084
Less: Allowance for impairment of doubtful debts	(1,304)	(1,376)
	13,240	12,708

The Company did not have accounts receivable balance from telephone and Internet subscribers.

Ageing analysis of accounts receivable from other telecommunications operators and customers is as follows:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Current, within 1 month	1,660	1,716	73	76
1 to 3 months	996	814	95	104
4 to 12 months	468	546	47	80
More than 12 months	476	332	40	6
	3,600	3,408	255	266
Less: Allowance for impairment of doubtful debts	(130)	(124)		
	3,470	3,284	255	266

12. PREPAYMENTS AND OTHER CURRENT ASSETS

Prepayments and other current assets represent:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Amounts due from China Telecom Group	423	588		3
Amounts due from subsidiaries			69,239	64,919
Amounts due from other state-controlled telecommunications operators in the PRC	236	242		
Prepayments in connection with construction work and equipment purchases	850	742	88	
Prepaid expenses and deposits	704	587		1
Other receivables	538	397	10	12
	2,751	2,556	69,337	64,935

13. CASH AND CASH EQUIVALENTS

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Cash at bank and in hand	16,437	10,762	2,090	881
Time deposits with original maturity within three months	3,947	11,564	3,724	7,500
	20,384	22,326	5,814	8,381

14. SHORT-TERM AND LONG-TERM DEBT

Short-term debt comprises:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Loans from state-controlled banks unsecured	29,325	35,750		
Commercial paper unsecured		20,000		20,000
Loans from China Telecom Group unsecured	37,841	23,826	10,000	
Total short-term debt	67,166	79,576	10,000	20,000

The weighted average interest rate of the Group's total short-term debt as at 31 December 2007 was 4.4% (2006: 3.7%). As at 31 December 2007, the loans from state-controlled banks bear interest at rates ranging from 4.2% to 5.5% per annum and are repayable within one year; the loans from China Telecom Group bear interest at fixed rates ranging from 2.6% to 5.3% per annum and are repayable within one year.

Long-term debt comprises:

	Interest rates and final maturity	The Group		The Company	
		2007 RMB millions	2006 RMB millions	2007 RMB millions	2006 RMB millions
Bank loans unsecured					
Renminbi denominated	Interest rates ranging from 5.18% to 7.05% per annum with maturities through 2020	4,113	11,039

Other currencies denominated		71	84		
		7,803	15,347		
Other loans unsecured					
Renminbi denominated		6	2		
Amount due to China Telecom unsecured					
In connection with the First Acquisition Renminbi denominated (Note (i))		15,000	15,000	15,000	15,000
In connection with the Second Acquisition Renminbi denominated (Note (ii))		15,150	15,150	15,150	15,150
Total long-term debt		37,959	45,499	30,150	30,150
Less: current portion		(3,811)	(8,242)		
Non-current portion		34,148	37,257	30,150	30,150

Note:

- (i) Represents the deferred consideration payable to China Telecom in respect of the First Acquisition (Note 1). The amount bears interest on the outstanding balance at 5.184% per annum until 31 December 2008. Thereafter the interest rate is adjusted based on the prevailing market interest rate. This amount is repayable on 31 December 2013 and the Company may, from time to time, repay all or part of the amount at any time until 31 December 2013 without penalty. In April 2006, the Company repaid RMB10,000 million to China Telecom.
- (ii) Represents the remaining balance of the deferred consideration payable to China Telecom in respect of the Second Acquisition (Note 1). The amount bears interest on the outstanding balance at 5.184% per annum until 30 June 2009. Thereafter the interest rate is adjusted based on the prevailing market interest rate. This amount is repayable on 30 June 2014 and the Company may, from time to time, repay all or part of the amount at any time until 30 June 2014 without penalty.

The aggregate maturities of the Group's and the Company's long-term debts subsequent to 31 December 2007 are as follows:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Within 1 year	3,811	8,242		
Between 1 to 2 years	699	3,815		
Between 2 to 3 years	983	656		
Between 3 to 4 years	190	246		
Between 4 to 5 years	196	208		
Thereafter	32,080	32,332	30,150	30,150
	37,959	45,499	30,150	30,150

The Group's short-term and long-term debts do not contain any financial covenants. As at 31 December 2007, the Group had available credit facilities of RMB36,823 million (2006: RMB40,268 million) which it can draw upon.

15. ACCOUNTS PAYABLE

Accounts payable are analysed as follows:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Third parties	22,860	25,709	92	61
China Telecom Group	5,448	6,583	18	8
Other state-controlled telecommunications operators in the PRC	55	63		
	28,363	32,355	110	69

Amounts due to China Telecom Group are repayable in accordance with contractual terms which are similar to those terms offered by third parties.

Ageing analysis of accounts payable is as follows:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Due within 1 month or on demand	5,288	6,115	22	
Due after 1 month but within 3 months	8,161	8,831	11	45
Due after 3 months but within 6 months	6,343	7,181	7	9
Due after 6 months	8,571	10,228	70	15
	28,363	32,355	110	69

16. ACCRUED EXPENSES AND OTHER PAYABLES

Accrued expenses and other payables represent:

	The Group		The Company	
	2007	2006	2007	2006
	RMB	RMB	RMB	RMB
	millions	millions	millions	millions
Amounts due to China Telecom Group	915	1,984	88	175
Amounts due to subsidiaries			14,445	14,340
Amounts due to other state-controlled telecommunication operators in the PRC	199	181	75	
Accrued expenses	14,272	13,244	754	1,204
Customer deposits and receipts in advance	14,622	11,777	107	90
Dividend payable	468		468	
	30,476	27,186	15,937	15,809

17. DEFERRED REVENUES

Deferred revenues represent the unearned portion of upfront connection fees and installation fees received from customers and the unused portion of calling cards. Connection fees and installation fees are amortised over the expected customer relationship period of 10 years. Beginning 1 July 2001, connection fees were no longer collected from new customers.

	The Group	
	2007	2006
	RMB	RMB
	millions	millions
Balance at beginning of year	20,723	27,708
Additions for the year		
installation fees	793	912
calling cards	4,027	4,204
	4,820	5,116
Reduction for the year		
amortisation of connection fees	(3,294)	(4,971)
amortisation of installation fees	(2,735)	(2,913)
usage of calling cards	(4,062)	(4,217)
Balance at end of year	15,452	20,723
Representing:		
Current portion	5,629	7,098
Non-current portion	9,823	13,625
	15,452	20,723

Included in other non-current assets are capitalised direct incremental costs associated with the installation of wireline services. As at 31 December 2007, the unamortised portion of these costs was RMB6,979 million (2006: RMB8,473 million).

18. SHARE CAPITAL

	The Group and the Company	
	2007	2006
	RMB	RMB
	millions	millions
Registered, issued and fully paid 67,054,958,321 ordinary domestic shares of RMB1.00 each	67,055	67,055
13,877,410,000 overseas listed H shares of RMB1.00 each	13,877	13,877
	80,932	80,932

All ordinary domestic shares and H shares rank pari passu in all material respects.

Notes to the Financial Statements

For the year ended 31 December 2007

19. RESERVES
