1. Press Release dated May 5, 2008
Textainer Group Holdings Limited Reports First Quarter 2008 Results and Declares Quarterly Dividend

HAMILTON, Bermuda, May 5, 2008 (BUSINESS WIRE) – Textainer Group Holdings Limited (NYSE:TGH) (Textainer), the world's largest lessor of intermodal containers based on fleet size, today reported results for the first quarter ended March 31, 2008.

Total revenues for the quarter increased by \$13.1 million, or 22%, to \$72.2 million compared to \$59.2 million in the prior year quarter primarily due to a \$10.6 million, or 337%, increase in trading container sales proceeds to \$13.7 million compared to \$3.1 million in the prior year quarter. EBITDA(1) for the quarter increased by \$9.5 million, or 27%, to \$44.1 million compared to \$34.7 million in the prior year quarter.

Net income excluding unrealized losses on interest rate swaps, net(1) for the quarter was \$22.5 million, a 29% increase over the \$17.5 million earned in the prior year quarter. Net income per diluted common share excluding unrealized losses on interest rate swaps, net(1) for the quarter was \$0.47 per share, a 4% increase over the \$0.45 per share in the prior year quarter. Net income for the quarter was \$17.4 million, a 4% increase over the prior year quarter, even though \$6.3 million in unrealized losses on interest rate swaps, net (a non-cash, non-operating item) was \$4.9 million higher in the current quarter compared to the prior year quarter. Textainer's net income per diluted common share decreased by \$0.07 per share, or 16%, to \$0.36 per share for the first quarter of 2008 from \$0.43 per share in the prior year quarter. The decrease in Textainer's net income per diluted common share was due to the increase in Textainer's weighted average number of shares outstanding for the first quarter of 2008 as a result of the additional shares issued in Textainer's initial public offering in the fourth quarter of 2007.

I am very pleased with our first quarter 2008 results. Overall demand for our containers through March was strong. Textainer's utilization continued to remain around 93% during the first quarter of 2008," commented John A. Maccarone, President and CEO of Textainer.

He continued, "Our container resale segment had the best quarter in its history. First quarter resale income before taxes of \$5.2 million, an increase of \$3.5 million, or 198%, over the prior year's quarter results of \$1.7 million was primarily due to an increase in the number of trading containers we were able to source and sell.

One of the highlights of the first quarter was our re-entry into the refrigerated container market segment. Currently 770 units out of the 800 refrigerated containers delivered so far in 2008 have been committed to leases with various shipping lines. We completed our first refrigerated container lease with Mitsui O.S.K. Lines (MOL), which is the world's 11th largest container vessel operator. MOL leased 300 40' High Cube refrigerated containers. As a result of this early success, Textainer ordered an additional 1,100 40' High Cube refrigerated containers for delivery through July of 2008. The refrigerated container machinery will be supplied by Carrier, Daiken and Thermo King.

In April, Textainer Limited, which is a wholly-owned subsidiary of Textainer, entered into a \$205 million, five-year revolving credit agreement with a group of financial institutions led by Bank of America, N.A. The credit agreement was a restructuring and increase of Textainer Limited's prior two-year, \$75 million revolving credit facility.

We are extremely pleased to have been able to increase both the size and the term of Textainer Limited's revolver," Mr. Maccarone noted. "Given the challenging conditions in the credit markets today, we consider this new credit agreement with both our existing and several new banks to be a clear indication of their confidence in our business model and operating philosophy.

Outlook

On April 17, 2008 the Wall Street Journal reported that China's gross domestic product (GDP) expanded 10.6% in the first quarter of 2008 compared to the first quarter of 2007. Although down slightly from China's GDP growth of 11.9% for all of 2007, the Chinese economy continues to perform strongly. However, many of our customers reported a slower growth in cargo bookings in the first quarter of this year compared to the first quarter of last year.

Some of the factors behind these trends in the first quarter were:

a slowdown in the U.S. economy resulted in reduced growth in exports to the U.S.;

a stronger Chinese yuan increased the effective cost of Chinese exports;

severe snow storms in China reduced exports;

some factories in South China closed due to new labor laws in China making them less competitive; and

reductions in Chinese export tax credits.

By the end of April, many shipping line customers indicated that cargo volumes started to increase again, and yet they had not placed orders for new containers due to the slow start to the year and higher prices for new containers. Two other factors influenced the container supply and demand balance:

Due to very high vessel fuel costs, many shipping lines reduced the speed of their ships. To maintain the same sailing schedules, they had to add vessels, thus resulting in an increase in the number of containers required.

The weak dollar has resulted in significant increases in U.S. exports, causing a shortage of containers in certain North American locations, as reported in the April 10, 2008 issue of the Wall Street Journal. An executive of Kuehne & Nagel, the world's largest freight forwarder was quoted in the April 7, 2008 issue of the Journal of Commerce, "U.S. exports will be solid for at least 12 months because there's no sign the dollar will appreciate in value.

These factors combined contributed to strong demand for our containers.

In the first quarter of 2008, Textainer originated over 41,000 twenty-foot equivalent units (TEU) of owned and managed long-term leases and 10,000 TEU of direct financing and sales-type leases. New owned and managed standard dry freight containers ordered for delivery through May 2008 totaled 52,500 TEU at a cost of \$105 million. In addition, 1,900 owned and managed 40' High Cube refrigerated containers costing \$33 million were ordered for delivery through July 2008.

We are very pleased that demand for our in-fleet containers has also been quite strong in almost all locations in Asia. This resulted in strong demand for leased containers, both new and in-service units," said Mr. Maccarone.

Textainer expects that its Resale Division will continue to experience attractive pricing and relatively high sales volumes.

Dividend

On May 2, 2008, Textainer's board of directors approved and declared a quarterly cash dividend of \$0.22 per share on Textainer's issued and outstanding common shares, payable on May 22, 2008 to shareholders of record as of May 15, 2008. This represents an increase of \$0.01 per share, or 5%, from the fourth quarter 2008 cash dividend of \$0.21 per share.

Investors Webcast

Textainer will hold a conference call and a Webcast at 2:00 p.m. EDT on Wednesday May 7, 2008 to discuss Textainer's first quarter 2008 results. An archive of the Webcast will be available one hour after the live call through May 7, 2009. The dial-in number for the conference call is 1-877-397-0235; outside the U.S. call 1-719-325-4866. To access the live Webcast or archive, please visit Textainer's website at <http://www.textainer.com>.

About Textainer Group Holdings Limited

Textainer has operated since 1979 and is the world's largest lessor of intermodal containers based on fleet size. We have a total of more than 1.3 million containers, representing over 2,000,000 TEU, in our owned and managed fleet. We lease containers to more than 400 shipping lines and other lessees. We principally lease dry freight containers, which are by far the most common of the three principal types of intermodal containers, although we also lease specialized and refrigerated containers. We have also been one of the largest purchasers of new containers among container lessors over the last 10 years. We believe we are also one of the largest sellers of used containers, having sold an average of more than 53,000 containers per year for the last five years. We provide our services worldwide via a network of 14 regional and area offices and over 350 independent depots in more than 130 locations.

Important Cautionary Information Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements regarding (i) the expectation that U.S. exports will be solid for at least 12 months and (ii) regarding Textainer's expectations that its Resale Division will continue to experience attractive pricing and relatively high sales volumes. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include, without limitation, that gains and losses associated with the disposition of equipment may fluctuate; Textainer's ability to finance continued purchase of containers; the demand for leased containers depends on many political and economic factors beyond Textainer's control; lease and freight rates may decline; the demand for leased containers is partially tied to international trade; Textainer faces extensive competition in the container leasing industry; the international nature of the container shipping industry exposes Textainer to numerous risks; and other risks and uncertainties, including those set forth in Textainer's filings with the Securities and Exchange Commission. For a discussion of such risks and uncertainties, see Item 3 *Key Information Risk Factors* in Textainer's Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 28, 2008.

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this statement. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Non-GAAP Reconciliation of Net Income to EBITDA and Net Income to Net Income Excluding

Unrealized Losses on Interest Rate Swaps, Net

Three Months Ended March 31, 2008 and 2007

(Unaudited)

(All currency expressed in United States dollars in thousands, except per share amounts)

(1) The following is a reconciliation of net income to EBITDA, a reconciliation of net income to net income excluding unrealized losses on interest rate swaps, net and a reconciliation of net income per diluted common share to net income per diluted common share excluding unrealized losses on interest rate swaps, net for the three months ended March 31, 2008 and 2007. EBITDA (defined as net income before interest income and interest expense, realized and unrealized (gains) losses on interest rate swaps, net, income tax expense, minority interest expense, depreciation and amortization expense and the related impact on minority interest expense), net income excluding unrealized losses on interest rate swaps, net (defined as net income before unrealized losses on interest rate swaps, net and the related impact on income tax expense and minority interest expense) and net income per diluted common share excluding unrealized losses on interest rate swaps, net (defined as net income per diluted common share before unrealized losses on interest rate swaps, net and the related impact on income tax expense and minority interest expense) are not financial measures calculated in accordance with U.S. generally accepted accounting principles (GAAP) and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. EBITDA, net income excluding unrealized losses on interest rate swaps, net and net income per diluted common share excluding unrealized losses on interest rate swaps, net are presented solely as supplemental disclosures. Management believes that EBITDA may be a useful performance measure that is widely used within our industry. EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison. Management also believes that net income excluding unrealized losses on interest rate swaps, net and net income per diluted common share excluding unrealized losses on interest rate swaps, net are useful in evaluating our operating performance because unrealized losses on interest rate swaps, net is a non-cash, non-operating item. We believe EBITDA, net income excluding unrealized losses on interest rate swaps, net and net income per diluted common share excluding unrealized losses on interest rate swaps, net provides useful information on our earnings from ongoing operations. We believe that EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. EBITDA, net income excluding unrealized losses on interest rate swaps, net and net income per diluted common share excluding unrealized losses on interest rate swaps, net have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

They do not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;

Although depreciation is a non-cash charge, the assets being depreciated may be replaced in the future, and neither EBITDA, net income excluding unrealized losses on interest rate swaps, net or net income per diluted common share excluding unrealized losses on interest rate swaps, net reflects any cash requirements for such replacements;

They are not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows; and

Edgar Filing: TEXTAINER GROUP HOLDINGS LTD - Form 6-K

Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
