Business Report

(April 1, 2007 - March 31, 2008)

1. Current Conditions of the Komatsu Group**(1) Operations and Business Results**

For the business year ended March 31, 2008, the Komatsu Group (hereinafter "Komatsu") renewed record-high sales and profits, marking the sixth consecutive business year of growth in both sales and profits.

Consolidated Results for the Year

	139th Business Year		Changes (2008/2007)
	(April 2007	March 2008)	
Net sales	JPY	2,243.0 billion	+18.5%
Operating income	JPY	332.8 billion	+36.0%
Income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies* ¹	JPY	322.2 billion	+36.2%
Income from discontinued operations* ²	JPY	4.9 billion	-56.3%
Net income	JPY	208.7 billion	+26.8%

* The Consolidated Statutory Report of Komatsu is prepared in accordance with the stipulations of Article 148, Paragraph 1 of the Corporate Accounting Regulations and the method of preparation conforms to the standard of U.S. GAAP.

Notes:

- In April 2007, Komatsu Zenoah Co. (hereinafter "Komatsu Zenoah") had its subsidiary Zenoah Co. take over its OPE business through the absorption-type company split. In the same month, Komatsu Utility Co., Ltd. (hereinafter "Komatsu Utility"), merged with Komatsu Zenoah and transferred all shares of Zenoah Co. to HUSQVARNA JAPAN LTD. (currently Husqvarna Zenoah Co., Ltd.). In accordance with the Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," the entire operation of Komatsu, except for the OPE business, remains as a continuing operation, and income from this continuing operation before income taxes is presented as one line, "income from continuing operations," in the consolidated statement of income.
- In accordance with the above-mentioned Standards No. 144, income and expenses from the sale of the OPE business of Komatsu Zenoah are presented as one line, "income from discontinued operation," in the consolidated statement of income. Consolidated net sales reached JPY2,243 billion. In the construction and mining equipment segment, Komatsu boosted sales by steadily capitalizing on expanded demand against the backdrop of thriving resource development around the world and infrastructure development particularly in emerging powers. Komatsu also expanded sales of forklift trucks and industrial machinery, reflecting buoyant capital investments in Japan and overseas.

Operating income for the year increased to JPY332.8 billion, and operating income ratio improved 1.9 percentage points over the previous business year, to 14.8%. Operating income improved 36.0% due not only to expanded sales, centering on construction and mining equipment, but also to the successful realization of prices for construction and mining equipment in Japan and overseas. Income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies reached JPY322.2 billion. Net income for the year, the sum of income from continuing and discontinued operations, advanced to JPY208.7 billion.

Table of Contents

Results by operation are summarized below.

Sales by Operation

Division	139th Business Year		Changes (2008/2007)
Construction and Mining Equipment	JPY	1,897.6 billion	+21.0%
Industrial Machinery, Vehicles and Others*	JPY	345.4 billion	+6.1%
Total	JPY	2,243.0 billion	+18.5%

Note: While Komatsu had disclosed the three segments of Construction and Mining Equipment, Industrial Machinery, Vehicles and Others, and Electronics through the previous business year, Komatsu has included Electronics in the Industrial Machinery, Vehicles and Others segment in line with a structural change of its operations, starting in the business year ended March 31, 2008. As a result, Komatsu discloses the two segments of Construction and Mining Equipment and Industrial Machinery, Vehicles and Others.

1) Construction and Mining Equipment

Consolidated net sales of construction and mining equipment for the business year under review increased by 21.0% over the previous year, to JPY1,897.6 billion. As demand for our equipment continued to expand, we not only introduced and stepped up sales of DANTOTSU models, which feature unrivaled performance in fuel consumption and other areas, but also worked to realize higher prices and strengthened our product support capability. In response to thriving demand for our equipment, we further expanded our production capacities, including new facilities for key components in Japan and assembly plants in various areas, particularly in Asia, in concert with supplier partners.

In preparation for further growth in demand, we began construction of new plants: one to produce super-large hydraulic excavators adjacent to the Port of Kanazawa in Ishikawa Prefecture, Japan; one for medium-sized hydraulic excavators, forklift trucks and other equipment in Yaroslavl, northeast of Moscow, Russia; and one for crawlers for construction equipment in Jining, Shandong, China.

<Japan>

While public-sector investments remained slack, demand for equipment renewal supported the Japanese market, reflecting strong exports of used equipment from Japan. However, demand for new equipment declined around the middle of the business year resulting from a drop in housing starts as Building Standard Law of Japan was amended. We worked to expand sales of new equipments, centering on DANTOTSU models, realize higher prices, and reinforce the rental and used equipment business. As a result, sales increased by 2.1% from the previous year. As a measure to further build up the rental and used equipment business, we decided to merger the business of Komatsu Rental Japan Ltd. and that of BIGRENTAL Co., Ltd. (hereinafter BIGRENTAL) in December, 2007.

<The Americas>

North American demand, which had begun declining since the second half period of 2006, reflecting a drop in U.S. housing starts, remained slack as affected by the economic slowdown which was triggered by the subprime mortgage problem. Meanwhile, Latin American demand continued to increase, particularly on mining equipment. In this environment, we continued our efforts to normalize our distributors' inventories in North America. In both regions, we worked to reinforce our sales and product support capabilities for the mining industry. We also worked to expand sales of DANTOTSU models such as the D51 medium-sized model bulldozer, which offers unrivaled front visibility for operators, and to strengthen our competitiveness through such measures as price realization. As a result, sales in the Americas remained flat (up 0.2%) from the previous business year.

Table of Contents

<Europe & CIS>

European demand expanded, reflecting good market conditions in Germany, the largest market in Europe, and Central and Eastern Europe. In addition to shortening our production lead-time, we focused efforts to accelerate sales of DANTOTSU models and realize higher prices through our distributors who are getting better in number and stronger. In CIS, demand sharply expanded for use in infrastructure development in urban areas in addition to use in natural resource and energy developments. Under the leadership of Komatsu CIS LLC, our regional headquarters, we worked to increase the number of distributors and strengthen their capabilities and reinforce our sales and product support capabilities for the mining industry. As a result, sales in Europe & CIS increased by 32.9% over the previous business year.

<China>

In addition to expanded demand for use in infrastructure development nationwide, demand continued to climb supported mainly by exploration of new mines and progress in mechanization. While launching the PC200 renewed model, which offers better fuel economy, we concerted efforts to sharpen our competitiveness by expanding sales of new equipment based on IT-capitalized information concerning business negotiations and equipment operations, improving operational efficiency of sales and production and reinforcing our capability to manage customers' equipment. As a result, sales in China advanced by 62.3% over the previous business year.

<Asia & Oceania>

In Indonesia, the largest market of Southeast Asia, demand continued to expand in civil engineering, agricultural and forestry sectors, in addition to surging demand for mining equipment. In India, demand for equipment advanced steadily for uses in infrastructure development and mining, driven by its powerful economic growth. In Oceania, demand was strong, particularly on mining equipment. In this environment, we focused our efforts on expanding production capacity and sales and product support capabilities for the mining industry. As a result, sales in Asia & Oceania increased by 37.8% over the previous business year.

<Middle East & Africa>

Against the backdrop of skyrocketing prices of crude oil and other commodities, demand remained strong in infrastructure development in the Middle East and resource and infrastructure developments in Africa. In this environment, we concerted efforts to strengthen our aggressive sales and product support capabilities by teaming up with our distributors. As a result, sales in the Middle East & Africa increased by 42.6% over the previous business year.

2) Industrial Machinery, Vehicles and Others

Consolidated net sales of industrial machinery, vehicles and other operations increased by 6.1% over the previous business year, to JPY345.4 billion for the business year under review. Reflecting strong capital investments in Japan and overseas, the forklift truck business of Komatsu Utility and the industrial machinery business continued to improve sales.

In the forklift truck business, Komatsu Utility worked to expand sales of new models and strengthen its sales and service capabilities, mainly in Greater Asia market, which includes that of Asia, CIS and the Middle East. Komatsu Utility also concerted efforts to step up sales of electric forklift trucks in Japan, including the market introduction of the industry's first hybrid electric forklift truck.

Our industrial machinery business effectively took advantage of capital investments particularly on the automobile industry in Japan and overseas, enjoying good sales of large presses, sheet metal and press machines of Komatsu Industries Corporation, and machine tools of Komatsu Machinery Corporation.

To further reinforce the industrial machinery sector, the Company had acquired 29.3% of the shares of NIPPEI TOYAMA Corporation (hereinafter "NIPPEI TOYAMA") back in December, 2006. In January, 2008, to generate more synergy, the Company launched the takeover bid to obtain all issued shares of NIPPEI TOYAMA, resulting in an equity-holding ratio of 93.7%. The Company plans to make NIPPEI TOYAMA a wholly-owned subsidiary through share exchange in August, 2008.

Table of Contents**[Operations and Business Results of the Company]**

On a non-consolidated basis, export sales of construction and mining equipment continued to grow and sales of large presses expanded, marking the fifth consecutive business year of growth in both sales and profits and record-high sales and profits. Non-consolidated results are as follows.

	139th Business Year	Changes (2008/2007)

(3) Fund Procurement

Edgar Filing: KOMATSU LTD - Form 6-K

To appropriate funds to redeem a bond, the Company issued its fourth unsecured bond for JPY20 billion. To appropriate working capital as well as funds for investment and loans, Komatsu also issued Euro Medium-Term Notes and obtained long-term loans. Furthermore, Komatsu increased borrowings, reflecting new additions to its consolidated accounting, including NIPPEI TOYAMA. As a result, the balance of debt totaled JPY452.0 billion (increase of JPY103.0 billion from the previous business year-end) and net debt-to-equity ratio* was 0.39 at the end of this business year.

* Net debt-to-equity ratio = (interest-bearing debt - cash and cash equivalents - time deposits) / shareholders' equity

(4) Tasks Facing Komatsu

In the construction and mining equipment business, there are some factors of concern such as an increase in prices of raw materials in addition to slack demand for construction equipment in the United States. However, we anticipate that thriving demand for construction and mining equipment should remain at a high note, particularly in emerging powers. In the industrial machinery, vehicles and others business, we also anticipate that demand should continue to expand against the backdrop of buoyant capital investments, especially in emerging powers.

We, Komatsu define our corporate value as the total sum of trust given to us by society and all stakeholders. To increase this corporate value, we have set the following two management goals:

- To maintain our top-level profitability and financial position in the industry and enhance our position in the global marketplace, especially in Greater Asia.

- To continue management, while keeping market value in mind, which reflects the amount of trust given to us by society and shareholders. To achieve these goals above, we will promote the following three matters as Komatsu's permanent ongoing tasks: (i) thorough measures for compliance, safety and environmental conservation, (ii) dissemination of the KOMATSU Way and global human resource development, and (iii) brand management activities (brand equity enhancement), which we are introducing for the first time starting in the current business year.

Furthermore, we are continuing our efforts on the following seven activities of importance for Global Teamwork for 15, our mid-range management plan, the goal of which is set for the year ending March 31, 2010. We are determined to produce achievements as follows:

(i) Development of DANTOTSU Products

We are promoting the development of DANTOTSU products by taking advantage of the Komatsu group-wide strengths, such as in-house capabilities to develop and produce key components including engines and hydraulic units which enable a substantial reduction of fuel consumption, IT applications as represented by KOMTRAX (Komatsu Machine Tracking System), and an autonomous haulage system for super-large dump trucks.

(ii) Further Enhancement of Market Position in Greater Asia

We are going to further enhance Komatsu's market position in Greater Asia especially by leading our competitors in product launchings, expanding local production, and further reinforcing sales and product support capabilities.

(iii) Business Expansion in the Entire Value Chain*

In addition to expanding our parts business, we are working to expand businesses in the entire value chain. Specifically, we are also going to expand peripheral businesses in relation to construction and mining equipment, such as the businesses regarding (a) services and Reman (component remanufacturing), (b) retail finance, (c) rental and used equipment, (d) working gears (attachments) and forest machines by capitalizing on the Komatsu group-wide areas of original technological edge and facilitating collaboration among different business operations.

* Values generated by business activities of Komatsu with its partners, i.e., distributors and suppliers, and customers.

Edgar Filing: KOMATSU LTD - Form 6-K

(iv) Establishment of Flexible Manufacturing Operations

By taking effective advantage of global sales, production, procurement and other operations, we are going to further enhance production flexibility in tune with demand changes and foreign exchange fluctuations. We are also going to share market information among distributors, plants and suppliers. In the short term, we are going to accurately incorporate such information into production, sales and inventory planning. In the medium term, we will accurately incorporate useful information into capital investment planning in order to ensure appropriate production capacity.

(v) Expansion of the Utility Equipment Business

We are working further to generate synergy in production and development of forklift trucks and compact-construction equipment in order to enhance product competitiveness. We are also working to improve our position in the utility equipment industry and improve earnings by doubling our efforts in Greater Asia.

(vi) Reinforcement of Industrial Machinery Business

We are working to further expand our industrial machinery business by generating more synergy with NIPPEI TOYAMA as a new member of Komatsu and by strengthening business, particularly in Greater Asia.

(vii) Reduction of Fixed Costs

We have been working to reduce fixed costs since the commencement of the first-stage Reform of Business Structure project. We are working to further cut down our fixed costs by applying IT to improve operations.

Komatsu is strengthening its corporate governance to ensure sound and transparent management, while working to improve management efficiency. In addition to ensuring thorough compliance, all employees of Komatsu will share the **KOMATSU Way**. In addition to improving our business performance, we will facilitate the development of both corporate strength and social responsibility in a well balanced manner.

Centered on the **Spirit of Manufacturers** dedication, direction of Komatsu remains crystal clear. We provide the products (both hardware and software), that customers are happy to own, and we will make profits and grow. In addition to top management officers, of course, all employees of Komatsu in Japan and abroad are determined to fulfill this commitment with self confidence and a sense of mission by converging their talents and knowledge.

6. Systems for Ensuring That the Execution of Duties by Directors Complies With Laws and Regulations, and the Company's Articles of Incorporation, and Other Systems for Ensuring the Properness of Operation

The Company resolved in April 2008 to add the basic policy pertaining to the elimination of antisocial forces to the development of systems for ensuring that the execution of duties by Directors complies with laws and regulations and the Company's Articles of Incorporation, and other systems necessary for ensuring the properness of operations of a Stock Company (basic policies on Internal Control Systems), which were resolved at the meeting of the Board of Directors in May 2006.

(1) Basic Policy on Internal Control

The Company defines its corporate value as the total sum of trust given to us by society and all stakeholders.

To increase this corporate value, the Company recognizes the importance of strengthening corporate governance. The Company strives to maintain transparency and soundness of management by appointing Outside Directors and Outside Corporate Auditors, while limiting the number of the Board members small so that discussions at the Board of Directors are more substantial. The Company also does its utmost to improve the operation of the Board of Directors, aiming at more effective governance by the Board, ample discussions and quick decision making.

(2) Systems for Retention and Management of Information Related to Directors Execution of Duties

The Company shall safeguard and manage important information related to Directors execution of duties, including the record of Board meetings and other consensus-based, approved documents, as stipulated by laws and regulations, and Company's regulations and rules.

(3) Rules and Other Systems for Risk Management

While continuing to make efforts to raise its corporate value, the Company recognizes the problems related to compliance, in particular, environment, product quality, accidents, information security and other matters, as major risks for continuous growth and is thus implementing the following countermeasures.

- i) The Company shall establish Risk Management Rules to correctly recognize and manage risks, for which the Company has appointed personnel in charge of individual risks, further promoting the build-up of a solid foundation for risk management.
- ii) The Company shall establish Risk Management Committee to devise risk management policies of Komatsu, evaluate risk measures in place, and take control of risks when they surface. The Risk Management Committee regularly reports its reviews and activities to the Board of Directors.
- iii) The Company shall establish an emergency headquarters when serious risks surface, and work to minimize damage(s) and implement appropriate measures.

Table of Contents

(4) Systems for Ensuring Efficient Execution of Duties by Directors

To ensure the efficient execution of duties by Directors, the Company shall implement the following:

- i) The Board of Directors shall meet every month and more often as needed. It shall strive to maintain transparency and soundness of management through the participation of Outside Directors. It shall also establish the Regulations of the Board of Directors and the Standards for Agenda of Board Meetings, thereby clarifying the matters on which the Board of Directors should make decisions.
- ii) Together with the introduction of the Executive Officer System, The Company shall define the separation of duties for Directors, Executive Officers and senior managers, and set up internal rules including the Regulations of Decision-Making Authority, to ensure appropriate and effective execution of duties by Directors, Executive Officers and other senior managers.
- iii) To promote efficient management of the Board of Directors, the Company shall establish a Strategy Review Committee consisting of Senior Executive Officers and senior managers. Based on the reviews of the Committee, each Executive Officer and each senior manager executes his or her duties within the authority delegated by the Board of Directors.

(5) Systems for Ensuring That the Execution of Duties by Directors and Employees Complies With Laws and Regulations, and the Company's Articles of Incorporation

The Board of Directors makes decisions on important management matters in accordance with the law and the Regulations of the Board of Directors. Based on the decisions made by the Board of Directors, each Director not only executes his or her own duties but also supervises employees for the execution of their duties, and reports the conditions thereof to the Board of Directors.

The Company shall establish the Compliance Committee as Komatsu to oversee compliance, and the Committee regularly reports its reviews and activities to the Board of Directors. The Company shall also establish a framework to ensure thorough compliance to business rules as well as laws and regulations through a variety of measures, including the provision of *Komatsu Code of Worldwide Business Conduct*, appointment of the Executive Officer in charge of compliance, and establishment of the Compliance Department. Through all of these, we work to supervise, educate and train Directors and employees.

In addition, the Company has established the internal reporting system where those who are discretely reporting questionable actions in light of the law and business rules will not be penalized.

(6) Systems for Ensuring the Proper Operation of Komatsu Comprising the Company and Its Subsidiaries

- i) The Company shall establish the Affiliated Company Regulations and relevant rules to contribute to proper and efficient operation of Group management while respecting the independence of the management of affiliated companies. Each affiliated company receives prescribed management and support of the department or division of the Company in charge. It shall also position the Komatsu Code of Worldwide Business Conduct, as the code to be applied by all companies affiliated with Komatsu. Each company in Komatsu shall stipulate various regulations for the proper promotion of duties.
- ii) The Company shall assign and dispatch Directors and Corporate Auditors from the Company to major affiliated companies as needed, in order to strengthen corporate governance on a group-wide basis and monitor their management.
- iii) Important committees of the Company, including the Compliance Committee, Risk Management Committee and Export Control Committee, shall take actions with the entire Group in view, and allow representatives of affiliated companies to take part in their meetings on occasion.
- iv) The Company shall make particularly important affiliated companies regularly report to the Board of Directors of the Company on the status of business, including risks and compliance.
- v) The Internal Audit Department of the Company shall audit each division of the Company, and implement or supervise auditing of major affiliated companies that belong to Komatsu. It shall also monitor and instruct each affiliated company so that it will build its structure in conformity with the Company's internal control and operate it correctly. The Internal Audit Department regularly reports the internal control and auditing conditions to the Board of Directors, and also reports to the Board of Corporate Auditors as needed.

(7) Employees Assisting Corporate Auditors for Execution of Their Duties, When They Ask for Such Employees

Notes to Consolidated Statutory Report

Basis of preparation of Consolidated Statutory Report

Significant Accounting Policies

(1) Basis of preparation of Consolidated Statutory Report

The Consolidated Statutory Report of Komatsu is prepared in accordance with the stipulations of Article 148, Paragraph 1 of the Corporate Accounting Regulations, and the method of preparation conforms to the standards of accounting generally accepted in the United States in terms of terminology and format (hereinafter "U.S. GAAP"). However, some description and notes under the mandatory requirements of U.S. GAAP are omitted within the scope of stipulations in the said clause.

(2) Method and basis of valuation of inventories

Inventories are stated at the lower of cost or market. The cost of finished products and work in process are valued by the specific identification method and cost of consumable supplies are mainly stated using the first-in first-out method with certain immaterial amounts using the last-in first-out method. Cost of materials and supplies is stated at average cost.

(3) Method and basis of valuation of investment securities

Komatsu has applied SFAS No. 115 "Accounting for Certain Investments in Debt and Equity Securities" for the valuation of investment securities.

Available-for-sale securities:

Stated at fair market value based on market prices at the balance sheet date (Unrealized gains and losses are charged, net of applicable income taxes, to shareholders' equity, and the cost of securities sold is determined using the moving-average method.).

(4) Depreciation and amortization of fixed assets

Depreciation of property, plant and equipment:

Computed principally using the declining-balance method.

Amortization of intangible assets:

Computed using the straight-line method

Komatsu has applied SFAS No. 142 "Goodwill and Other Intangible Assets." Goodwill and intangible assets whose useful lives cannot be determined are reviewed for impairment at least annually.

(5) Allowances

Allowance for doubtful receivables:

To cover possible credit losses on accounts receivables or loans, an allowance for doubtful receivables is provided in the amount deemed uncollectible, which is calculated on the basis of historical default rates for normal claims, or on the basis of individual assessments for specific claims on obligors threatened with bankruptcy.

Edgar Filing: KOMATSU LTD - Form 6-K

Liability for pension and retirement benefits:

In accordance with SFAS No. 87, *Employers' Accounting for Pensions* and SFAS No. 158, *Employer's Accounting for Defined Benefit Pension and Postretirement Plans*, to prepare for the payment of retirement benefits to employees, a provision is made in the amount deemed necessary as of the balance sheet date based on retirement benefit obligations and fair value of the plan assets. Komatsu recognized the funded status (i.e., the difference between the fair value of plan assets and the projected benefit obligations) of its pension plans in the consolidated balance sheet, with a corresponding adjustment to accumulated other comprehensive income (loss), net of tax. Additional provision is made in the amount of the shortfall of liability for pension and retirement benefit to accumulated benefit obligations deducted by fair value of plan assets.

Unrecognized prior service cost is charged to income on a straight-line basis over the average remaining service period of employees.

Regarding unrecognized net actuarial loss, an excessive amount of the corridor (10% of projected benefit obligations, or fair value of plan assets, whichever is the larger) to income on a straight-line basis over the average remaining service period of employees.

(6) Adoption of new accounting standards

Starting from the business year ended March 31, 2008, Komatsu adopted FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109, Accounting for Income Taxes. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109. The adoption of FIN 48 did not have a material impact on our consolidated results of operations and financial condition.

(7) Accounting for consumption taxes

Consumption taxes are separately accounted for by excluding it from each transaction amounts.

Notes to Consolidated Balance Sheet

(1) Accumulated depreciation for property, plant and equipment: JPY 579,203 million

(2) Accumulated other comprehensive income (loss) consists of changes in foreign currency translation adjustments, net unrealized holding gains (losses) on securities available for sale, pension liability adjustments and net unrealized holding gains (losses) on certain derivative.

(3) Assets pledged as collateral:

Cash and cash equivalents	JPY 1,296 million
Trade notes and accounts receivable	JPY 50 million

Notes to Non-Consolidated Statutory Report

Significant Accounting Policies

(1) Method and basis of valuation of securities

Held-to-maturity debt securities: Stated at amortized cost (on a straight-line basis).

Investments in subsidiaries and affiliated companies: Stated at cost determined by the moving-average method.

Available-for-sale securities:

Securities whose market value is readily determinable:

Stated at market value, based on market quotation. Unrealized gains and losses are reported, with net of applicable taxes, as a separate component of net assets. The cost of securities sold is determined based on the moving-average method.

Securities whose market value is not readily determinable:

Stated at cost determined by the moving-average method.

(2) Method and basis of valuation of inventories

Finished products (excluding spare parts), work in process and parts: Stated at lower of cost (specific identification method) or market.

Spare parts: Stated at lower of cost (last-in first-out method) or market.

Materials and supplies: Stated at lower of cost (periodic average method).

(3) Depreciation of fixed assets

Depreciation of tangible fixed assets and amortization of intangible assets are computed according to the declining-balance method and the straight-line method, respectively.

(4) Allowances

1) Allowance for doubtful receivables

To cover possible credit losses on accounts receivables or loans, an allowance for doubtful receivables is provided in the amount deemed uncollectible, which is calculated on the basis of historical default rates for normal claims, or on the basis of individual assessments for specific claims on obligors threatened with bankruptcy.

2) Allowance for loss on valuation of investments in affiliated companies

Allowance for loss on valuation of investments in affiliated companies is accounted for by taking into consideration the financial position of the issuer and fluctuation of the foreign exchange of the country of the issuer in order to prepare for losses from investing in domestic and overseas affiliated companies.

3) Accrued bonuses

Accrued bonuses are provided for payment prospect of bonuses to employees at an amount considered to be recorded for the business year.

4) Accrued bonuses for Directors

Accrued bonuses are provided for payment prospect of bonuses to Directors at an amount considered to be recorded for the business year.

5) Warranty reserve

Warranty reserve is provided for product after-sales service expenses based on the historical performance.

6) Liability for pension and retirement benefits

In order to provide for the employee retirement benefits, the Company accrues liabilities for severance payments and pension at the amount calculated based on the projected benefit obligations and plan assets at the balance sheet date.

Prior service obligations are charged to income when incurred. Actuarial loss is charged to income in an amount proportionally appropriated on a straight-line basis over a 10-year period, which is shorter than the averaged remaining service period of employees, beginning with the following term when the loss is recognized.

Table of Contents

(5) Accounting standard for income and expenses

For both general sales and installment sales, in principle, the total amount of the sale price is accounted at the time of delivery to the customer for domestic sales, and at the time of lading for exports. For large machinery and other items necessitating installation work, the sale is accounted when the installation is completed.

(6) Accounting method of lease transactions

Finance leases that do not transfer ownership of leased property to the lessee are accounted in the same manner as operating leases.

(7) Accounting for consumption taxes

Consumption taxes are separately accounted for by excluding it from each transaction amounts.

(8) Changes in accounting policies

Method of depreciation of tangible fixed assets

Upon the revision of the Corporation Tax Law effectuated during this business year (the Law revising a portion of the Income Tax Law, March 30, 2007, Law No. 6 and the Ordinance revising a portion of the Corporation Tax Law, March 30, 2007, Ordinance No. 83), the method for depreciating any asset acquired on April 1, 2007 or thereafter has been changed to the method pursuant to the provisions of the revised law.

In response to this, operating income, ordinary profit and income before income taxes have each decreased by JPY 1,516 million respectively.

(Additional information)

Following the revision of the Corporation Tax Law in 2007, we have adopted the following method of depreciation for tangible fixed assets acquired on or before March 31, 2007. For those assets that have been depreciated and reached 5% of their acquisition value using the method of calculating depreciation based on the Corporation Tax Law before the revision, the difference between the remaining 5% of the acquisition value and a memorandum price will be written off in equal amounts over the five-year period beginning with the year following the year when the book value is depreciated to 5% of the acquisition value. This amount is included in depreciation.

This change has only a minimal impact on operating income, ordinary profit and income before income taxes.

(9) Additional information

Termination of the Retirement Benefit System for Directors and Corporate Auditors

At the Ordinary General Meeting of Shareholders held on June 22, 2007, a resolution was passed to abolish the Retirement Benefit System for Directors and Corporate Auditors and to pay each Director and Corporate Auditor the amount of retirement benefits representing the period of service up to June 22, 2007 at the time of retirement. The amount of liability for Directors and Corporate Auditors retirement benefits representing the period up to the abolishment of the system is included in the Other accounts payable item of current liabilities.

Notes concerning significant subsequent events

The Company and NIPPEI TOYAMA have executed a share exchange agreement based on a resolution passed at a Meeting of the Board of Directors of each company held on April 30, 2008 calling for the complete subsidiarization of NIPPEI TOYAMA by share exchange (Share Exchange) effective August 1, 2008.

1. Purpose of the Share Exchange

The Industrial Machinery Business division of the Company and NIPPEI TOYAMA both have their main customers in the automotive and semiconductor industries, both highly complement each other in commodity composition and both have production hubs in the Hokuriku Region. Two companies have been aiming to realize cooperative effects in the purchasing and production fields, with respect to manufacturing, as well as the sales and service fields.

The cooperative relationship between the Company and NIPPEI TOYAMA is strong and many concrete effects have been realized. With the fostering of mutual trust through this cooperative relationship, the complete subsidiarization of NIPPEI TOYAMA has resulted in substantial advantages of the flexible and speedy handling of mid- to long-term managerial issues such as cooperation in R&D and the joint development of new business fields that surpass existing boundaries for either entity. Because of this, the Company and NIPPEI TOYAMA have concluded a Basic Agreement dated January 16, 2008 and the Company implemented a public tender offer for shares of NIPPEI TOYAMA (Public Tender Offer) with the aim of making NIPPEI TOYAMA a wholly-owned subsidiary of the Company. In the event the Company is unable to acquire all the outstanding shares of NIPPEI TOYAMA through the Public Tender Offer, a Share Exchange is to be effectuated where shareholders (excluding the Company) of NIPPEI TOYAMA that did not subscribe to the Public Tender Offer are to be delivered stock of the Company in exchange for the shares NIPPEI TOYAMA held by the shareholders.

2. Share Exchange requirements

(1) Schedule of the Share Exchange

Execution of Share Exchange agreement: April 30, 2008

Effective date: August 1, 2008 (scheduled)

(2) Share Exchange ratio

0.43 shares of ordinary shares of the Company will be allocated per one (1) share of NIPPEI TOYAMA stock.

3. Items concerning the other party in the Share Exchange

Name:	NIPPEI TOYAMA Corporation
Main office location:	26-2 Minami Ohi 6-chome, Shinagawa-ku, Tokyo
Representative:	Hiroyuki Horii, President and Representative Director
Capital:	JPY6,014 million
Main line of business:	Manufacture and sales of machine tools and industrial machinery and sales of real estate etc.

Notes concerning business combination

1. Overview of the name and line of business of the combining companies or target businesses, legal format of the business combination and the name of the company after the combination and transactions including their purpose

(1) Name and line of business of the combining companies or target businesses

Name: Komatsu Zenoah Co., Hydraulic Equipment Division

Line of business: Partial development and production of key components used in Komatsu products

(2) Legal format of the business combination

Common control transaction (absorption-type company split where the Company is the surviving company and Komatsu Zenoah is the absorbed company)

(3) Name of the company after combination

Komatsu Ltd.

(4) Overview of transactions including their purpose

On April 1, 2007, the Company absorbed the Hydraulic Equipment Division of Komatsu Zenoah, which is a wholly-owned subsidiary of the Company, into the Company's Engines and Hydraulics Business Division. The Hydraulic Equipment Division of Komatsu Zenoah was partially responsible for the development and production of key components used in various products of Komatsu. However, these operations have now been absorbed and integrated to strengthen competitive advantage through centralizing management resources on a consolidated group level and gain greater efficiency.

2. Overview of accounting treatments

The absorption-type company split was treated as a common control transaction based on the Accounting Standards for Business Combination (Business Accounting Council, October 31, 2003) and the Application Guidelines for Business Combination Accounting Standards and Business Division Accounting Standards (Business Combination Standards Application Guidelines No. 10, Final Revision, November 15, 2007). In the Statement of Income, a JPY2,657 million gain from elimination of shares of merged companies is accounted as an extraordinary gain.

Notes concerning other matters

Amounts less than 1 million yen are rounded off.

Board of Corporate Auditors Report

Regarding the performance of duties by the Directors for the 139th Business Year from April 1, 2007 to March 31, 2008, we have prepared this Audit Report upon deliberation based on the audit reports prepared by each Corporate Auditor and hereby report as follows.

1. Auditing Methods Employed by the Corporate Auditors and Board of Corporate Auditors and Details of Such Methods

We established auditing policies, allocation of duties and other relevant matters, and received reports from each Corporate Auditor regarding their execution of audits and results thereof, as well as reports from the Directors, other relevant personnel, and the Accounting Auditor regarding execution of their duties, and sought explanations as necessary.

Each Corporate Auditor complied with the auditing standards of Corporate Auditors established by the Board of Corporate Auditors, followed the auditing policies, allocation of duties, and other relevant matters, communicated with such as the Directors, the Internal Auditing Department and other employees, and made efforts to establish the environment for collecting department information and auditing, and participated in the meetings of the Board of Directors and other important meetings, received reports from such as the Directors and employees regarding execution of their duties, sought explanations as necessary, examined important authorized documents and associated information, and studied the operations and status of assets at the head office and principal offices. In addition, we monitored and verified the content of the resolution of the Board of Directors concerning the maintenance of the systems for ensuring that the execution of duties by the Directors complies with laws and regulations and the articles of incorporation, and other systems for ensuring the properness of operations of a Stock Company stipulated in Item 1 and Item 3, Article 100, of the Enforcement Regulations of the Corporation Act and the status of the system based on such Resolution (Internal Control Systems). With respect to subsidiaries, we communicated and exchanged information with Directors and Corporate Auditors of subsidiaries, and received reports with respect to their business from subsidiaries as necessary. Based on the above methods, we examined the business reports and the accompanying detailed statements for this business term.

Furthermore, we monitored and verified whether the Accounting Auditor maintained its independence and implemented appropriate audits, and we received reports from the Accounting Auditor regarding the execution of its duties and sought explanations as necessary. In addition, we received notice from the Accounting Auditor that the System for ensuring that duties are executed properly (matters set forth in each item of Article 159 of the Corporate Accounting Regulations) is organized in accordance with the Quality Management Standards Regarding Audits (Business Accounting Council, October 28, 2005) and other relevant standards, and sought explanations as necessary. Based on the above methods, we examined the non-consolidated statutory report (non-consolidated balance sheet, non-consolidated statement of income, non-consolidated statement of changes in net assets, and notes to non-consolidated statutory report), the accompanying statements, and consolidated statutory report (consolidated balance sheet, consolidated statement of income, consolidated statement of shareholders equity and retained earnings, and notes to consolidated statutory report) for this business year.

Reference Materials for the General Meeting of Shareholders

Proposed Resolution and Reference Information:

Item 1: Appropriation of Surplus

We propose that surplus be appropriated in the manner described below:

1. Year-end Dividends

The Company is building a sound financial position and flexible and agile corporate strength to increase its corporate value. Concerning cash dividends to shareholders, the Company maintains the policy of redistributing profits by first striving to continue stable dividends and then considering consolidated business results, while working for the goal of a consolidated payout ratio of 20% or higher.

For the 139th business year, the Company proposes to pay a year-end dividend from surplus as follows, in consideration of the Company's business performance for the business year and future business development.

- (1) Type of dividend assets
Cash

- (2) Matters concerning allotment and total amount of dividend assets
JPY 22 per one (1) ordinary share of the Company (an increase of JPY 4 over the previous business year)
Total amount of dividend: JPY 21,904,055,338

Accordingly, combined with the interim dividend of JPY 20 per one (1) ordinary share of the Company, the annual dividend will be JPY 42 per one (1) ordinary share of the Company for this business year, an increase of JPY 11 per ordinary share of the Company over the previous business year.

- (3) Effective date of when the dividends from surplus take effect
Wednesday, June 25, 2008

2. Appropriation of other surpluses

The Company proposes to fund a general reserve for the purpose of reinforcing the Company's management base in the future.

- (1) Surplus which is to increase and its amount

General reserve	JPY30,000,000,000
-----------------	-------------------

- (2) Surplus which is to decrease and its amount

Retained earnings brought forward	JPY30,000,000,000
-----------------------------------	-------------------

3. Matters regarding candidates for Outside Directors

(1) Reason for nomination as candidates for Outside Directors

Name	Reason for nomination as candidates
Morio Ikeda	Having served as Representative Director of Shiseido Company, Limited, Mr. Morio Ikeda has considerable insight and rich experience in business world and has been dedicating activities related to CSR (Corporate Social Responsibility).

Using this insight and experience, his proposals concerning the overall management of the Company are expected to contribute to sustaining and improving transparency and soundness of operations and enhancing corporate governance. Therefore, the Company nominates him as a candidate for Outside Director.

Kensuke Hotta	Having served as Representative Director of the Sumitomo Bank Ltd. (now Sumitomo Mitsui Banking Corporation) and as Representative Director of Morgan Stanley Japan Securities Co., Ltd., Mr. Kensuke Hotta has been active internationally in the financial field and has considerable insight and rich experience in the business world.
---------------	--

Using this insight and experience, his proposals concerning the overall management of the Company are expected to enhance corporate governance. Therefore, the Company nominates him as a candidate for Outside Director.

Noriaki Kano	Having served as President of the Japanese Society for Quality Control, Dr. Noriaki Kano has been active internationally as a specialist of quality Control and has considerable insight and rich experience.
--------------	---

Using this accomplishments, his proposals concerning the overall management of the Company are expected to pursue higher Quality and Reliability, the Company's fundamentals, and enhance corporate value. Therefore we nominate him as candidate for Outside Director.

The Company judged that although Dr. Noriaki Kano has no experience in participating in the management of the other companies directly, he would be able to execute the duties of Outside Director adequately because of above reasons.

(2) Outline of facts in violation of laws and regulations or the Articles of Incorporation or facts of any other unreasonable execution of business at the other corporations, and measures to prevent the occurrence of such facts and deal with them after their occurrence, while candidates for Outside Directors have served as Outside Director or Corporate Auditor of other companies in the past five (5) years

The management of the Company asks the shareholders' approval to give the Company's Board of Directors the authority to issue Stock Acquisition Rights as stock options to employees of the Company and Directors of Major Subsidiaries of the Company in accordance with the provisions of Articles 236, 238, and 239 of the Corporation Act.

1. Reasons for Necessity of Issuing the Stock Acquisition Rights on Preferential Terms and Conditions

The Company would like to grant Stock Acquisition Rights to employees of the Company and to the Directors of major subsidiaries of the Company, for the purpose of raising their morale and their motivation to contribute to the improvement of the consolidated performance of the Company.

2. Details of the Stock Acquisition Rights and the Maximum Number of Such Rights that the Board of Directors Can Decide to Issue within the Scope of Authority Granted by a Resolution at this Ordinary General Meeting of Shareholders

(1) The maximum number of the Stock Acquisition Rights for which the terms and conditions of the issue can be determined based on the authority granted by this Ordinary General Meeting of Shareholders

The maximum number of Stock Acquisition Rights to be issued under the conditions described in 2. (3) below shall be 271 units.

The maximum number of ordinary shares to be issued upon the exercise of the Stock Acquisition Rights shall be 271,000 shares, and if the Number of Shares Granted (defined below) subject to Stock Acquisition Rights is adjusted as provided for in 2. (3) below, the maximum number of ordinary shares to be issued shall be the number obtained by multiplying the above mentioned maximum number of the Stock Acquisition Rights by the adjusted number of shares in connection with the Stock Acquisition Rights.

(2) The Company may issue Stock Acquisition Rights in question without consideration.

(3) Details of the Stock Acquisition Rights to be issued on the basis of the authority granted by this Ordinary General Meeting of Shareholders

1) Type and number of shares to be issued upon the exercise of Stock Acquisition Rights

The shares to be issued for the Stock Acquisition Rights shall be ordinary shares, and the number of shares subject to one (1) Stock Acquisition Right (hereinafter "Number of Shares Granted") shall be 1,000 shares. However, after the resolution date of this item of Agenda (hereinafter "Resolution Date"), if the Company effects a stock split of its ordinary shares (including allotment of ordinary shares to shareholders without consideration; the same applies hereinafter) or effects a stock consolidation, the Number of Shares subject to one (1) Stock Acquisition Right shall be adjusted proportionately, in accordance with the ratio of the stock split or the stock consolidation in question. Also, if it is necessary to adjust the Number of Shares Granted after the Resolution Date for other than the aforementioned reasons, the Company shall adjust the Number of Shares Granted in connection with the aforementioned Stock Acquisition Rights to the extent reasonable.

Fractions of less than one (1) share resulting from the foregoing adjustment shall be rounded down.

2) Amount of assets paid upon exercise of the Stock Acquisition Rights

The amount of assets paid upon exercise of the Stock Acquisition Rights shall be the amount calculated by multiplying the paid-in amount per share to be transferred upon exercise of the Stock Acquisition Rights (hereinafter "Exercise Price") by the Number of Shares subject to one (1) Stock Acquisition Right.

The Exercise Price shall be the amount calculated by multiplying 1.05 by the average of the closing price of the Company's ordinary shares of each day in regular trading during the month (excluding days when there was no transaction of the Company's ordinary shares) (hereinafter "Closing Price") at the Tokyo Stock Exchange, immediately preceding the month in which the date of allotment of the Stock Acquisition Rights falls (hereinafter "Allotment Date"), with fractions of less than one (1) yen rounded up to a whole yen. However, if the Exercise Price is lower than the Closing Price on the Allotment Date (if there is no Closing Price on that date, the Closing Price on the immediately preceding transaction date shall be applied), the Closing Price on the Allotment Date shall be applied.

In addition, the Exercise Price shall be adjusted as follows.

- i. If the Company effects a stock split or stock consolidation after the Allotment Date of the Stock Acquisition Rights, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen resulting from the adjustment being rounded up to a whole yen.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Ratio of stock split (or stock consolidation)}}$$

- ii. After the Allotment Date of the Stock Acquisition Rights, if the Company issues new ordinary shares or disposes of treasury shares at a price below the market price, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen being rounded up to a whole yen. However, this shall not apply to the cases where issue or disposition of ordinary shares is made upon exchange of securities exchangeable for the Company's ordinary shares, or upon exercise of Stock Acquisition Rights (including corporate bonds with Stock Acquisition Rights).

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{\text{Number of currently issued shares} + \frac{\text{Number of newly issued shares} \times \text{Paid-in amount per share}}{\text{Market Price}}}{\text{Number of currently issued shares} + \text{Number of newly issued shares}}$$

In addition, the "Number of currently issued shares" in the formula above shall exclude the number of treasury shares, and when disposing of treasury shares, the term "Number of newly issued shares" shall be read as "Number of treasury shares for disposal."

- iii. After the Allotment Date of the Stock Acquisition Rights, if the Company allots shares of the Company of a class other than the ordinary shares without consideration to the holders of the ordinary shares of the Company, or pays dividends in the form of shares of another company to the holders of the ordinary shares, and if, in consideration of all factors in the situation, there is a need to adjust the Exercise Price, the Company shall adjust the Exercise Price to the extent reasonable.

- 8) In the event where the Company engages in any merger (after which the Company ceases to exist), a corporate split in which a division is merged into an existing company, a corporate split in which a division is spun off to establish a new company (for both, limited to cases where the Company is split up), or an exchange or transfer of shares (for both, limited to cases where the Company becomes a fully-owned subsidiary) (hereinafter collectively **Restructuring Actions**), each person holding the remaining Stock Acquisition Rights at the time the Restructuring Actions take effect (hereinafter **Remaining Stock Acquisition Rights**) shall be granted the Stock Acquisition Rights of the relevant joint stock companies prescribed in Article 236, Paragraph 1, Item 8, (a) through (e) of the Corporation Act (hereinafter **Reorganized Company**), in accordance with the conditions set forth below. In this event, the Remaining Stock Acquisition Rights shall be extinguished and new Stock Acquisition Rights in the Reorganized Company shall be issued. However, the new Stock Acquisition Rights shall be granted only if provisions for granting them in accordance with the following conditions (i - viii) are included as conditions in a merger agreement (in which the Company is merged into a Reorganized Company or a Reorganized Company is established as the result of the merger), a corporate split agreement in which a division is merged into a Reorganized Company, a plan for a corporate split in which a division is spun off to establish a Reorganized Company or a share exchange agreement, or a plan for transfer of shares.

- i. **Number of the Stock Acquisition Rights of a Reorganized Company to be granted**

At the time the Restructuring Actions take effect, each holder of the Remaining Stock Acquisition Rights shall be granted an identical number of the Stock Acquisition Rights of the Reorganized Company.

- ii. **Type of shares of the Reorganized Company to be issued for the Stock Acquisition Rights**

Type of shares subject to the Stock Acquisition Rights shall be ordinary shares of the Reorganized Company.

- iii. **Number of shares of the Reorganized Company to be issued upon exercise of the Stock Acquisition Rights**

The number of shares shall be determined in accordance with 1) above, after taking into consideration the conditions or other factors concerning the Restructuring Actions.

- iv. **Amount of assets to be paid upon the exercise of the Stock Acquisition Rights**

The amount of assets to be paid upon the exercise of newly granted Stock Acquisition Rights shall be the amount obtainable by multiplying the Exercise Price to be adjusted after taking into consideration the conditions and other factors concerning the Restructuring Actions, by the number of shares to be issued for each acquisition right as stipulated in 8) iii. above.

- v. **Exercise period for the Stock Acquisition Rights**

The Exercise Period shall begin on either the first day of the exercise period for the Stock Acquisition Rights stipulated in 3) above, or on the day that the Restructuring Actions take effect, whichever is later, and shall continue to the final day of the exercise period for the Stock Acquisition Rights stipulated in 3) above.

- vi. **Increase in paid-in capital and capital surplus in the event of the issuance of shares upon exercise of the Stock Acquisition Rights**

Such increases shall be determined based on 4) above.

- vii. **Restriction on Transfer and Acquisition of the Stock Acquisition Rights**

Transfer and Acquisition of the Stock Acquisition Rights shall be required to be approved by the Reorganized Company.

viii. Provisions pertaining to acquisition of the Stock Acquisition Rights

The Stock Acquisition Rights do not contain the provisions pertaining to the acquisition of the Stock Acquisition Rights.
