Basis for Revision of Forecasts for Financial Results of the Fiscal Year Ending March 31, 2009

The business environment surrounding the Company has further deteriorated since the middle of September due mainly to the financial crisis associated with the credit crisis and the rapid economic slowdown spreading through the countries of the world. In a reflection of the severe economic environment, demand for automobiles is particularly shrinking rapidly worldwide. Also, with regard to exchange rates, the yen is appreciating more than the Company estimated.

In light of these facts, the Company has reviewed its sales plan for motorcycles, automobiles and power products and other businesses as well as its assumption of average exchange rates for the second half period and has revised its consolidated and unconsolidated financial forecasts which were announced on October 28, 2008.

The assumption of the average exchange rates for the fiscal year ending March 31, 2009 at which these forecasts are based on was changed to ¥ 101 = U.S.\$1 from ¥ 103 = U.S.\$1 and to ¥ 136 = Euro 1 from ¥ 145 = Euro 1.

* For more detail, please refer to the consolidated financial forecasts for the fiscal year ending March 31, 2009 and the unconsolidated financial forecasts for the fiscal year ending March 31, 2009 (Parent company only) (URL <http://world.honda.com/investors/>) announced by the Company on the same date hereof.

* These forward-looking statements of Honda are based on management's assumptions and beliefs taking into account information currently available to it. Therefore, please be advised that Honda's actual results could materially differ from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda's principal markets and foreign exchange rates between the Japanese yen and the U.S. dollar, the Euro and other major currencies, as well as other factors detailed from time to time.
