- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01 Regulation FD Disclosure.

As clarification to slide 26, Kuvan Patient Starts by Month, in the webcast presentation at the J.P. Morgan Healthcare Conference on January 14, 2009, starting in October 2008, some patients indicated in the commercial patient starts continued from the starter program. The graph was intended to indicate the number of patients entering each program and some patients first entered the starter program and subsequently became commercial patients. Specifically, 13 of the 39 commercial patient starts in October, 20 of the 47 commercial patient starts in November and 39 of the 43 commercial patient starts in December previously started taking Kuvan through the starter program and were included as such in prior months.

Net of patients initiating commercial therapy as rollovers from the starter program, there were 106 new patient starts in October, 144 in November and 147 in December, showing notable acceleration from previous months and confirming that a significant portion of starter program patients do convert to commercial drug.

SIGNATURE
