Item 2.02. Results of Operations and Financial Condition.

On May 6, 2009, Cisco Systems, Inc. (the Registrant) reported its results of operations for its fiscal third quarter ended April 25, 2009. A copy of the press release issued by the Registrant concerning the foregoing results is furnished herewith as Exhibit 99.1.

The information contained herein and in the accompanying exhibit shall not be incorporated by reference into any filing of the Registrant, whether made before or after the date hereof, regardless of any general incorporation language in such filing, unless expressly incorporated by specific reference to such filing. The information in this report, including the exhibit hereto, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section or Sections 11 and 12(a)(2) of the Securities Act of 1933, as amended.

The attached press release includes non-GAAP net income, non-GAAP net income per share data, non-GAAP shares used in net income per share calculation and non-GAAP inventory turns.

These non-GAAP measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. The Registrant believes that non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the Registrant's results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate the Registrant's results of operations in conjunction with the corresponding GAAP measures.

The Registrant believes that the presentation of non-GAAP net income, non-GAAP net income per share data and non-GAAP shares used in net income per share calculation, when shown in conjunction with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and results of operations. In addition, the Registrant believes that the presentation of non-GAAP inventory turns provides useful information to investors and management regarding financial and business trends relating to inventory management based on the operating activities of the period presented.

For its internal budgeting process, the Registrant's management uses financial statements that do not include employee share-based compensation expense, compensation expense related to acquisitions and investments, in-process research and development, amortization of acquisition-related intangible assets, the income tax effects of the foregoing, and significant effects of retroactive tax legislation. The Registrant's management also uses the foregoing non-GAAP measures, in addition to the corresponding GAAP measures, in reviewing the financial results of the Registrant. In prior periods, the Registrant has excluded other items that it no longer excludes for purposes of its non-GAAP financial measures; for example, effective in the third quarter of fiscal 2009, the Registrant no longer excludes payroll tax on stock option exercises. From time to time in the future, there may be other items that the Registrant may exclude for purposes of its internal budgeting process and in reviewing the financial results of the Registrant.

As described above, the Registrant excludes the following items from one or more of its non-GAAP measures when applicable:

Employee share-based compensation expense. These expenses consist primarily of expenses for employee stock options, employee stock purchase rights, employee restricted stock and employee restricted stock units under SFAS123(R). The Registrant excludes employee share-based compensation expenses from its non-GAAP measures primarily because they are non-cash expenses that the Registrant does not believe are reflective of ongoing operating results. Further, as the Registrant applies SFAS 123(R), it believes that it is useful to investors to understand the impact of the application of SFAS 123(R) to its results of operations.

Compensation expense related to acquisitions and investments. This amount arises from the Registrant's acquisitions and has no direct correlation to the operation of the Registrant's business.

In-process research and development. The Registrant incurs in-process research and development expenses when technological feasibility for acquired technology has not been established and no future alternative use for such technology exists. These amounts arise from the Registrant's prior acquisitions and have no direct correlation to the operation of the Registrant's business.

Amortization of acquisition-related intangible assets. The Registrant incurs amortization of intangible assets in connection with acquisitions. The Registrant excludes these items because these expenses are not reflective of ongoing operating results in the period incurred. These amounts arise from the Registrant's prior acquisitions and have no direct correlation to the operation of the Registrant's business.

Income tax effects of the foregoing. This amount is used to present each of the amounts described above on an after-tax basis consistent with the presentation of non-GAAP net income.

Significant effects of retroactive tax legislation. The Registrant is subject to changes in tax legislation which have retroactive effects. The Registrant excludes such significant effects of retroactive tax legislation because this item is unrelated to the Registrant's current ongoing business and operating results.

From time to time in the future, there may be other items that the Registrant may exclude if it believes that doing so is consistent with the goal of providing useful information to investors and management.

The Registrant will incur employee share-based compensation expense, amortization of acquisition-related intangible assets and compensation expense related to acquisitions and investments in future periods. In-process research and development expenses are a function of underlying transactions, and the Registrant expects to engage in transactions of this nature in future periods. The Registrant may be subject to significant effects of retroactive tax legislation to the extent that any such legislation becomes effective in future periods.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
