\$290,000,000

HealthSouth Corporation**8.125% Senior Notes due 2020**

We are offering \$290 million aggregate principal amount of our 8.125% Senior Notes due 2020. We will pay interest on the notes semiannually in arrears on February 15 and August 15 of each year, beginning on February 15, 2010. The notes will mature on February 15, 2020.

We may redeem the notes, in whole or in part, at any time on or after February 15, 2015, at the redemption prices set forth in this prospectus supplement. Prior to February 15, 2013, we may redeem up to 35% of the aggregate principal amount of the notes with the net cash proceeds of certain equity offerings, at a redemption price equal to 108.125% of their principal amount, plus accrued and unpaid interest thereon, if any, to the redemption date, provided that at least 65% of the aggregate principal amount of the notes remains outstanding after giving effect to such redemption. In addition, at any time prior to February 15, 2015, we may at our option redeem all or a portion of the notes, at a redemption price equal to 100% of their principal amount plus a make-whole premium, plus accrued and unpaid interest thereon, if any, to the redemption date. See Description of notes Optional redemption . If we experience specific kinds of changes in control, we must offer to purchase the notes.

The notes and the guarantees will be senior unsecured obligations of HealthSouth Corporation and our subsidiary guarantors. The notes will rank equal in right of payment to our current and future senior debt and will rank senior in right of payment to any future subordinated debt. The notes will be effectively subordinated to our current and future secured debt, including borrowings under our senior secured credit facilities, to the extent of the value of the assets securing such debt. In addition, the notes and the guarantees will be effectively subordinated to any liabilities, including trade payables, of our non-guarantor subsidiaries.

The notes will not be listed on any securities exchange. We expect that delivery of the notes will be made to investors in book-entry form through the facilities of The Depository Trust Company on or about December 1, 2009.

Investing in the notes involves risks. You should carefully read and consider the risk factors beginning on page S-7 of this prospectus supplement, page 3 of the accompanying prospectus and in our periodic reports and other information that we file with the Securities and Exchange Commission before you invest in the notes.

Summary

The following summary is qualified in its entirety by the more detailed information included elsewhere or incorporated by reference in this prospectus supplement. You should read the entire prospectus supplement together with the accompanying prospectus, as well as the information incorporated by reference herein, before making an investment decision.

Company overview

We operate inpatient rehabilitation hospitals and long-term acute care hospitals, or *LTCHs*, and provide treatment on both an inpatient and outpatient basis. As of September 30, 2009, we operated 94 inpatient rehabilitation hospitals (including 3 hospitals that operate as joint ventures which we account for using the equity method of accounting), 6 freestanding LTCHs, 44 outpatient rehabilitation satellites (operated by our hospitals), and 25 licensed, hospital-based home health agencies. In addition to HealthSouth hospitals, we manage six inpatient rehabilitation units and one outpatient satellite through management contracts. Our inpatient hospitals are located in 26 states, with a concentration of hospitals in Texas, Pennsylvania, Florida, Tennessee, and Alabama. We also have two hospitals in Puerto Rico.

We are the nation's largest provider of inpatient rehabilitative healthcare services in terms of revenues, number of hospitals, and patients treated and discharged. Our inpatient rehabilitation hospitals offer specialized rehabilitative care across a wide array of diagnoses and deliver comprehensive patient care services. The majority of patients we serve experience significant physical disabilities due to medical conditions, such as strokes, hip fractures, head injury, spinal cord injury, and neurological disorders, that are non-discretionary in nature and which require rehabilitative services in an inpatient setting. Our team of highly skilled physicians, nurses, and physical, occupational, and speech therapists utilize the latest in equipment and techniques to return patients to home and work. Patient care is provided by nursing and therapy staff as directed by a physician order. Internal case managers monitor each patient's progress and provide documentation of patient status, achievement of goals, discharge planning, and functional outcomes. Our hospitals provide a comprehensive interdisciplinary clinical approach to treatment that leads to what we believe is a higher level of care and superior outcomes.

HealthSouth was incorporated under the laws of the State of Delaware. Our principal executive offices are located at 3660 Grandview Parkway, Suite 200, Birmingham, Alabama 35243, and our telephone number is (205) 967-7116. Recent developments

The tender offer and consent solicitation

On November 16, 2009, the Company commenced a cash tender offer for any and all of its outstanding Floating Rate Senior Notes due 2014 (the *2014 Notes*), and a solicitation of consents to eliminate substantially all the restrictive covenants and certain events of default contained in the indenture governing the 2014 Notes. The total consideration payable in respect

Table of Contents

of 2014 Notes that are validly tendered, and for which the related consents are delivered, is \$1,030 per \$1,000 principal amount of the 2014 Notes, plus accrued but unpaid interest up to but excluding the settlement date. To be eligible to receive the total consideration, which includes an early tender amount of \$30 per \$1,000 principal amount of 2014 Notes, holders must tender their notes, and deliver the related consents, prior to 5:00 p.m., New York City time, on November 30, 2009 (the *Early Tender Deadline*). The tender offer is scheduled to expire at 12:00 midnight, New York City time, on December 14, 2009, unless the Company chooses to extend or earlier terminate the tender offer. The closing of this offering is conditioned upon the substantially concurrent acceptance for purchase by the Company of all of the 2014 Notes and related consents validly tendered (and not validly revoked) in the tender offer prior to the Early Tender Deadline. This prospectus supplement is not an offer to purchase the 2014 Notes and the tender offer and consent solicitation is made only by and pursuant to the terms of the Offer to Purchase and Consent Solicitation Statement dated November 16, 2009, as the same may be amended or supplemented.

Senior secured credit facilities

In October 2009, we amended our senior secured credit facilities (our *Credit Agreement*) to extend the maturity date of a portion of our term loan facility from March 2013 to March 2014, subject to an automatic extension to September 10, 2015 if the 2014 Notes have been repaid or refinanced prior to March 15, 2014, and to amend certain provisions of the Credit Agreement. The amendment converted \$300 million of outstanding term loans into a new tranche of term loans that accrues interest at a rate of LIBOR plus 3.75%. The remainder of the term loan facility continues to accrue interest at LIBOR plus 2.25%. Both portions of the term loan facility continue to amortize at the per quarter rate of 0.25% of the principal outstanding. The other amendments to the Credit Agreement primarily permit future extensions of all or a portion of the term loans, revolving loans and synthetic letter of credit commitments, allowed us to issue senior secured and unsecured notes and increased amounts we can spend for acquisitions and selected debt repurchases.

For a more complete description of the notes, see [Description of notes](#). In this summary of the offering, the words [we](#), [us](#), and [our](#) refer only to HealthSouth Corporation and not to any of its subsidiaries.

Issuer	HealthSouth Corporation

Aggregate principal amount	\$290,000,000.
Date of maturity	The notes will mature on February 15, 2020.

Guarantees	The notes will be jointly and severally guaranteed on a senior unsecured basis by all of our existing and future subsidiaries that guarantee borrowings under our Credit Agreement (as defined below) or our outstanding 10.75% Senior Notes due 2016. However, certain of our subsidiaries will not guarantee the notes. For the nine months ended September 30, 2009, the non-guarantor subsidiaries represented in the aggregate approximately 29.7% of our consolidated net operating revenues and approximately 23.8% of our Adjusted Consolidated EBITDA. As of September 30, 2009, the non-guarantor subsidiaries held approximately 22.4% of our consolidated property and equipment, net. Optional redemption

We may redeem the notes, in whole or in part, at any time on or after February 15, 2015, at the redemption prices set forth in this prospectus supplement.

Prior to February 15, 2013 we may redeem up to 35% of the aggregate principal amount of the notes with the net cash proceeds of certain equity offerings, at a redemption price equal to 108.125% of their principal amount, plus accrued and unpaid interest thereon, if any, to the redemption date, if at least 65% of the aggregate principal amount of the notes remains outstanding after giving effect to such redemption.

In addition, at any time prior to February 15, 2015, we may at our option redeem all or a portion of the notes, at a redemption price equal to 100% of principal amount plus a make-whole premium, plus accrued and unpaid interest thereon, if any, to the redemption date.

See Description of notes Optional redemption.

Change of control

Upon the occurrence of a Change of Control (as defined in this prospectus supplement), each holder of the notes will have the right to require us to repurchase such holder's notes at a purchase price in cash equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of purchase. See Description of notes Change of control.

Covenants

The indenture governing the notes contains covenants that, among other things, limit our ability and the ability of certain of our subsidiaries to:

incur or guarantee indebtedness;

pay dividends on, or redeem or repurchase, our capital stock; or repay, redeem or repurchase our subordinated obligations;

issue or sell certain types of preferred stock;

make investments;

incur obligations that restrict the ability of our subsidiaries to make dividends or other payments to us;

sell assets;

engage in transactions with affiliates;

create certain liens;

enter into sale/leaseback transactions; and

merge, consolidate, or transfer all or substantially all of our assets.

These covenants are subject to important qualifications and exceptions, which are described under the heading Description of

S-5

Table of Contents

notes in this prospectus supplement. The limitations on our ability to make certain payments, including dividends on, or redemptions or repurchases of, our capital stock and repayments, redemptions or repurchases of our subordinated obligations, are based on a calculation of our net income since July 1, 2006 (rather than since the date of this offering) and equity issuances, conversion of debt to equity and return on certain investments subsequent to the date of this offering. Accordingly, as of September 30, 2009, we would have had the capacity to make certain payments of up to approximately \$393.0 million under the indenture that governs the notes. See Description of notes Certain covenants Limitation on restricted payments for additional information.

Listing The notes will not be listed on any securities exchange. Currently there is no public market for the notes.

Use of proceeds We intend to use the net proceeds from the sale of the notes, together with cash on hand, to (i) pay the consideration required in connection with our tender offer for all of our outstanding 2014 Notes, including any applicable accrued and unpaid interest on such notes, and (ii) redeem any 2014 Notes that may remain outstanding following completion of the tender offer, including the payment of any applicable accrued and unpaid interest on such notes.

Conditions to the offering The closing of this offering is conditioned upon the substantially concurrent acceptance for purchase by the Company of all of the 2014 Notes and related consents validly tendered (and not validly revoked) in the tender offer prior to the Early Tender Deadline. See Summary Recent developments The tender offer and consent solicitation for additional information.

Additional notes The indenture governing the notes does not limit the amount of notes, debentures or other evidence of indebtedness that we may issue under the indenture and provides that notes, debentures or other evidence of indebtedness may be issued from time to time in one or more series.

Risk factors You should carefully consider all information set forth or incorporated by reference in this prospectus supplement and the accompanying prospectus and, in particular, you should carefully read the section entitled Risk factors beginning on page S-7 of this prospectus supplement before purchasing any of the notes.

Trustee The Bank of Nova Scotia Trust Company of New York.

Governing law The notes will be governed by the laws of the State of New York.

Table of Contents

Risk factors

Investing in the notes involves risks. In addition to the risk factors set forth below, you should carefully consider the risks described under the caption "Risk factors" in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2008 and described under the caption "Risk factors" in the accompanying prospectus (which are incorporated by reference herein), as well as the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus before making a decision to invest in our notes. Additional risks and uncertainties not currently known to us or that we currently consider immaterial could also have a material adverse effect on our business operations.

Risks related to the notes

Our substantial indebtedness may impair our financial condition and prevent us from fulfilling our obligations under the indenture governing the notes and our other debt instruments.

As of September 30, 2009, we had approximately \$1.6 billion of long-term debt outstanding (including that portion of long-term debt classified as current and excluding \$104.9 million in capital leases).

Our substantial indebtedness could have important consequences to you, including:

making it more difficult for us to satisfy our obligations with respect to the notes;

limiting our ability to borrow additional amounts to fund working capital, capital expenditures, acquisitions, debt service requirements, execution of our business strategy and other general corporate purposes;

requiring us to dedicate a substantial portion of our cash flow from operations to pay principal and interest on our debt, which would reduce availability of our cash flow to fund working capital, capital expenditures, acquisitions, execution of our business strategy and other general corporate purposes;

making us more vulnerable to adverse changes in general economic, industry and competitive conditions, in government regulation and in our business by limiting our flexibility in planning for, and making it more difficult for us to react quickly to, changing conditions;

placing us at a competitive disadvantage compared with our competitors that have less debt; and

exposing us to risks inherent in interest rate fluctuations because some of our borrowings will be at variable rates of interest, which could result in higher interest expense in the event of increases in interest rates.

We are required to use a substantial portion of our cash flow to service our debt. Although we expect to make scheduled interest payments and principal reductions, we cannot assure you that changes in our business or other factors will not occur that may have the effect of preventing us from satisfying obligations under the indenture governing the notes and our other debt instruments. If we are unable to generate sufficient cash flow from operations in the future to service our debt and meet our other needs, we may have to refinance all or a portion of our debt, obtain additional financing or reduce expenditures or sell assets that we deem necessary to our business. We cannot assure you that any of these measures would be possible or that any

Table of Contents

additional financing could be obtained. A return to recent tight credit markets will make additional financing more expensive and difficult to obtain. The inability to obtain additional financing could have a material adverse effect on our financial condition and on our ability to meet our obligations to you under the notes.

Despite current indebtedness levels, we may still be able to incur more debt. This could further exacerbate the risks associated with our substantial indebtedness.

Subject to specified limitations, the indenture governing the notes, the indenture governing our 10.75% Senior Notes due 2016 (our *Fixed Rate Notes*) and our Credit Agreement permit us and our subsidiaries to incur material additional debt. If new debt is added to our or any of our subsidiaries' current debt levels, the risks described in the immediately preceding risk factor could intensify. See Description of notes' Certain covenants' Limitation on indebtedness' for additional information.

The restrictive covenants in our credit agreement, the indenture governing our fixed rate notes and the indenture governing the notes may affect our ability to operate our business successfully.

The indenture governing the notes, the indenture governing our Fixed Rate Notes and the terms of our Credit Agreement do, and our future debt instruments may, contain various provisions that limit our ability and the ability of certain of our subsidiaries to, among other things:

incur additional indebtedness;

make restricted payments;

create certain liens;

sell assets;

enter into sale and leaseback transactions;

issue or sell certain types of preferred stock;

in the case of our restricted subsidiaries, restrict them from making dividends or other payments to us;

in the case of our restricted subsidiaries, incur or guarantee debt;

engage in transactions with affiliates;

create unrestricted subsidiaries; and

merge, consolidate or transfer all or substantially all of our assets and the assets of our subsidiaries (if any) on a consolidated basis. These covenants could adversely affect our ability to finance our future operations or capital needs and pursue available business opportunities.

In addition, our Credit Agreement requires us to maintain specified financial ratios and satisfy certain financial condition tests. Events beyond our control, including changes in general economic and business conditions, may affect our ability to meet those financial ratios and financial condition tests. Although we were in compliance with those ratios and tests as of

S-8

Table of Contents

September 30, 2009, we cannot assure you that we will continue to meet those tests or that the lenders will waive any failure to meet those tests. A severe downturn in earnings or a rapid increase in interest rates could impair our ability to comply with the financial covenants contained in our Credit Agreement. If we anticipated a potential covenant violation, we would seek relief from our lenders, which would have some cost to us, and such relief might not be on terms favorable to those in our existing Credit Agreement. A breach of any of these covenants or any other restrictive covenants contained in our Credit Agreement or the indenture could (after giving effect to applicable grace periods, if any) result in an event of default. If an event of default under our Credit Agreement or the indenture occurs, the holders of the affected indebtedness could declare all amounts outstanding, together with accrued interest, to be immediately due and payable, which, in turn, could cause the default and acceleration of the maturity of our other indebtedness. If we were unable to pay such amounts, the lenders under our Credit Agreement could proceed against the collateral pledged to them. We have pledged substantially all of our assets to the lenders under our Credit Agreement. In such an event, we cannot assure you that we would have sufficient assets to pay amounts due on the notes. As a result, you may receive less than the full amount you would otherwise be entitled to receive on the notes. See Note 8, *Long-term Debt* to the consolidated financial statements contained in our Current Report on Form 8-K filed with the SEC on November 16, 2009, which was filed for the purpose of updating the Company's previously issued annual financial statements and certain other financial information originally reported within our Annual Report on Form 10-K for the year ended December 31, 2008 (our Recast 8-K), and Item 2, *Properties* in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and Description of notes Certain covenants in this prospectus supplement for additional information.

These restrictive covenants are subject to important exceptions and qualifications, including with respect to our ability to make restricted payments. As of September 30, 2009, the amount available for restricted payments under the indenture governing our Fixed Rate Notes was approximately \$393.0 million. See Description of notes Certain covenants Limitation on restricted payments for additional information.

The notes and the guarantees will not be secured by any of our assets. Our Credit Agreement is secured and our senior lenders have a prior claim on substantially all of our assets.

The notes and the guarantees will not be secured by any of our assets. However, our Credit Agreement is secured by substantially all of our assets, including the stock of substantially all of our domestic wholly owned subsidiaries (including future subsidiaries, if any). If we become insolvent or are liquidated, or if payment under any of the instruments governing our secured debt is accelerated, the lenders under those instruments will be entitled to exercise the remedies available to a secured lender under applicable law and pursuant to the instruments governing such debt. Accordingly, the lenders under our Credit Agreement have a prior claim on our assets securing the debt owed to them. In that event, because the notes and the guarantees will not be secured by any of our assets, it is possible that our remaining assets might be insufficient to satisfy your claims in full.

As of September 30, 2009, we had \$753.2 million of senior secured indebtedness (excluding \$104.9 million of capital lease obligations), \$400.0 million of available borrowing capacity under the revolving portion of our Credit Agreement and \$300.0 million capacity under the incremental facility of our Credit Agreement. We will be permitted to borrow substantial additional secured indebtedness in the future under the terms of the indenture. See Description of notes Certain covenants Limitation on indebtedness and Description of notes Certain covenants Limitation on liens.

Table of Contents

Not all of our subsidiaries will be guarantors under the indenture governing the notes. The notes are effectively junior to the indebtedness and other liabilities of our non-guarantor subsidiaries.

Not all of our subsidiaries will guarantee the notes. The notes will be guaranteed by all of our current and future subsidiaries that guarantee borrowings under our Credit Agreement or incur or guarantee any outstanding capital markets debt. Certain of our 100% owned subsidiaries and all of our non-wholly owned subsidiaries, which are not guarantors of our Credit Agreement and through which we conduct a significant portion of our business, will not guarantee the notes due to, among other things, restrictions in their constituent documents or other agreements. The notes are effectively subordinated to the outstanding indebtedness and other liabilities, including trade payables, of our non-guarantor subsidiaries. Assuming we had completed this offering on September 30, 2009, these notes would have been effectively subordinated to approximately \$190.2 million of indebtedness and other liabilities, including trade payables (excluding intercompany liabilities) of our non-guarantor subsidiaries.

The non-guarantor subsidiaries generated approximately 29.0% of our consolidated net operating revenues and approximately 24.2% of our Adjusted Consolidated EBITDA in 2008. For the nine months ended September 30, 2009, the non-guarantor subsidiaries represented in the aggregate approximately 29.7% of our consolidated net operating revenues and approximately 23.8% of our Adjusted Consolidated EBITDA. As of September 30, 2009, the non-guarantor subsidiaries held approximately 22.4% of our consolidated property and equipment, net. In the event of a bankruptcy, liquidation or reorganization of any of our non-guarantor subsidiaries, holders of their indebtedness and their trade creditors will generally be entitled to payment of their claims from the assets of those subsidiaries before any assets are made available for distribution to us.

The lenders under the Credit Agreement will have the discretion to release the guarantors under the senior secured credit agreement under certain circumstances, which will cause those guarantors to be released from their guarantees of the notes.

While any obligations under the Credit Agreement remain outstanding, any guarantee of the notes may be released without action by, or consent of, any holder of the notes or the trustee under the indenture governing the notes, at the discretion of lenders under the Credit Agreement, if the related guarantor is no longer a guarantor of obligations under the Credit Agreement and does not have or guarantee any outstanding capital markets indebtedness. See Description of notes. The lenders under the Credit Agreement will have the discretion to release the guarantees under the Credit Agreement under certain circumstances. Holders of the notes will not have a claim as a creditor against any subsidiary that is no longer a guarantor of the notes, and the indebtedness and other liabilities, including trade payables, of those subsidiaries will effectively be senior to claims of any holder of the notes.

We may not have the funds to purchase the notes upon the change of control offer as required by the indenture governing the notes.

Upon a change of control, as defined in the indenture, subject to certain conditions, we are required to offer to repurchase all outstanding notes at 101% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of repurchase. The source of funds for that purchase of notes will be our available cash, cash generated from our operations or the operations of our subsidiaries or other potential sources, including borrowings, sales of

Table of Contents

assets or sales of equity. We cannot assure you that sufficient funds from such sources will be available at the time of any change of control to make required repurchases of notes tendered. In addition, the terms of our Credit Agreement will limit our ability to repurchase your notes and will provide that certain change of control events will constitute an event of default thereunder. Our future debt agreements may contain similar restrictions and provisions. If the holders of the notes exercise their right to require us to repurchase all the notes upon a change of control, the financial effect of this repurchase could cause a default under our other debt, even if the change of control itself would not cause a default. Accordingly, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of the notes and our other debt or that restrictions in our Credit Agreement and the indenture will not allow such repurchases. In addition, certain corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a change of control under the indenture. See Description of notes Change of control in this prospectus supplement for additional information.

There is no established trading market for the notes.

There is no existing trading market for the notes. We cannot assure you that an active trading market will develop for the notes. We do not intend to apply for listing of the notes on any securities exchange. If a market for the notes does not develop, you may not be able to resell your notes for an extended period of time, if at all. Consequently, your lenders may be reluctant to accept the notes as collateral for loans. Moreover, if markets for the notes do develop in the future, we cannot assure you that these markets will continue indefinitely or that the notes can be sold at a price equal to or greater than their initial offering price. Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market for the notes, if any, may be subject to similar disruptions. Any such disruptions may materially adversely affect you as a holder of the notes. In addition, in response to prevailing interest rates and market conditions generally, as well as our performance, the notes could trade at a price lower than their initial offering price.

Federal and state statutes could allow courts, under specific circumstances, to void the subsidiary guarantees, subordinate claims in respect of the notes and require note holders to return payments received from subsidiary guarantors.

Under U.S. bankruptcy law and comparable provisions of state fraudulent transfer laws, a court could void a subsidiary guarantee or claims related to a guarantor or subordinate a subsidiary guarantee to all other debts of a subsidiary guarantor if, among other things, the subsidiary guarantor, at the time it incurred the indebtedness evidenced by its subsidiary guarantee:

intended to hinder, delay or defraud any present or future creditor or received less than reasonably equivalent value or fair consideration for the incurrence of such indebtedness;

was insolvent or rendered insolvent by reason of such incurrence;

was engaged in a business or transaction for which the subsidiary guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond the subsidiary guarantor's ability to pay such debts as they mature. In addition, a court could void any payment by a subsidiary guarantor pursuant to the notes or a subsidiary guarantee and require that payment to be returned to such subsidiary guarantor or to

Table of Contents

a fund for the benefit of the creditors of the subsidiary guarantor. The measures of insolvency for purposes of fraudulent transfer laws will vary depending upon the governing law in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a subsidiary guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that we will not be insolvent, will not have insufficient capital for the business in which we are engaged and will not have incurred debts beyond our ability to pay such debts as they mature. There can be no assurance, however, as to what standard a court would apply in making such determinations or that a court would agree with our or any subsidiary guarantors' conclusions in this regard.

Risks related to our business

Reductions or changes in reimbursement from government or third-party payors and other regulatory changes affecting our industry could adversely affect our operating results.

We derive a substantial portion of our net operating revenues from the Medicare and Medicaid programs. See Item 1, *Business*, Sources of Revenues, in our Annual Report on Form 10-K for the year ended December 31, 2008, incorporated by reference herein, for a table identifying the sources and relative payor mix of our revenues. Historically, Congress and some state legislatures have periodically proposed significant changes in regulations governing the healthcare system. Many of these changes have resulted in limitations on and, in some cases, significant reductions in the levels of payments to healthcare providers for services under many government reimbursement programs. For the period from April 1, 2008 through September 30, 2009, the 2007 Medicare Act reduced the Medicare reimbursement levels for inpatient rehabilitation hospitals to the levels existing in the third quarter of 2007. There can be no assurance that future governmental initiatives, including some proposals currently under consideration by Congress, would not result in pricing roll-backs or freezes. If we are not able to maintain increased case volumes to offset any future pricing roll-back or freeze, our operating results could be adversely affected. Our results could be further adversely affected by other changes in laws or regulations governing the Medicare and Medicaid programs, as well as possible changes to or expansion of the audit processes conducted by Medicare contractors or Medicare recovery audit contractors. For a discussion of the factors affecting reimbursement for our services, see Item 1, *Business*, Sources of Revenues Medicare Reimbursement in our Annual Report on Form 10-K for the year ended December 31, 2008, and the section entitled Executive Overview Key Challenges Potential Impact of Healthcare Reform in our Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2009, each of which is incorporated by reference herein.

In addition, there are increasing pressures from many third-party payors to control healthcare costs and to reduce or limit increases in reimbursement rates for medical services. Our relationships with managed care and non-governmental third-party payors, such as health

Table of Contents

maintenance organizations and preferred provider organizations, are generally governed by negotiated agreements. These agreements set forth the amounts we are entitled to receive for our services. We could be adversely affected in some of the markets where we operate if we are unable to negotiate and maintain favorable agreements with third-party payors.

Additionally, our third-party payors may, from time to time, request audits of the amounts paid to us under our agreements with them. We could be adversely affected in some of the markets where we operate if the audits uncover substantial overpayments made to us.

Uncertainty in the global credit markets could adversely affect our business and financial condition by making it more challenging for us to carry out our deleveraging and development objectives.

The global credit markets experienced significant disruptions in 2008, and economic conditions have remained volatile throughout 2009, resulting in very sensitive credit markets. Future market shocks could result in reductions in the availability of certain types of debt financing, including access to revolving lines of credit. Future business needs combined with market conditions at the time may cause us to seek alternative sources of potentially less attractive financing and may require us to adjust our business plan accordingly.

One risk related to credit market uncertainty is the possibility that a rapid increase in interest rates or a downturn in operating earnings could impair our ability to comply with the financial covenants contained within our Credit Agreement. Loans under our Credit Agreement bear interest at a rate of, at our option, 1-month, 2-month, 3-month, or 6-month LIBOR or the Prime rate, plus an applicable margin that varies depending upon our leverage ratio and corporate credit rating. Our primary covenants include a leverage ratio and an interest coverage ratio, with the interest coverage ratio being a four consecutive fiscal quarters test. A default due to violation of the covenants contained within our Credit Agreement could require us to immediately repay all amounts then outstanding under the Credit Agreement. Based on the current borrowing capacity and leverage ratio required under our Credit Agreement, we do not believe there is significant risk in our ability to make additional draws under our revolving credit facility, if needed.

As a result of credit market uncertainty, we also face potential exposure to counterparties who may be unable to adequately service our needs, including the ability of the lenders under our Credit Agreement to provide liquidity when needed. We monitor the financial strength of our depositories, creditors, derivative counterparties, and insurance carriers using publicly available information, as well as qualitative service experience inputs. We are generally confident that we will have access to our revolving credit facility.

We do not face substantial near-term refinancing risk. After giving effect to the offering of the notes and the application of the proceeds therefrom, as described in Use of proceeds, the majority of our bonds that we expect to be outstanding will not mature until 2016, and \$300.0 million of the outstanding principal amount of one tranche of our Term Loan Facility (as defined in Note 8, *Long-term Debt*, to the consolidated financial statements contained in our Recast 8-K, incorporated by reference herein) does not expire until 2015. Our revolving credit facility does not expire until 2012, and the other outstanding tranche under our Term Loan Facility, under which there is \$453.2 million principal amount outstanding, matures in 2013.

Table of Contents

While our variable interest payments increase or decrease in accordance with changes in interest rates, the vast majority of the variation in these payments will be offset by net settlement payments or receipts on our interest rate swap that is not designated as a hedge. Therefore, our cash position is generally protected from such changes. Net settlement payments or receipts on this interest rate swap are included in the line entitled Loss on interest rate swap in our consolidated statements of operations.

The adoption of more restrictive Medicare coverage policies at the national or local levels could have an adverse impact on our ability to obtain Medicare reimbursement for inpatient rehabilitation services.

Medicare providers also can be negatively affected by the adoption of coverage policies, either at the national or local levels, describing whether an item or service is covered and under what clinical circumstances it is considered to be reasonable, necessary, and appropriate. In the absence of a national coverage determination, local Medicare contractors may specify more restrictive criteria than otherwise would apply nationally. The Centers for Medicare and Medicaid Services is implementing new inpatient rehabilitation hospital coverage criteria effective January 1, 2010 that will require existing local coverage policies to be updated for each Medicare contractor. We cannot predict how the adoption of modified local coverage determinations or other policies will affect us. For a discussion of the new inpatient rehabilitation hospital coverage criteria effective January 1, 2010 see the section entitled Executive Overview Key Challenges Highly Regulated Industry in our Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2009, which is incorporated by reference herein.

Competition for staffing may increase our labor costs and reduce profitability.

Our operations are dependent on the efforts, abilities, and experience of our management and medical support personnel, such as physical therapists, nurses, and other healthcare professionals. We compete with other healthcare providers in recruiting and retaining qualified management and support personnel responsible for the daily operations of each of our hospitals. In some markets, the lack of availability of physical therapists, nurses, and other medical support personnel has become a significant operating issue to healthcare providers. This shortage may require us to continue to enhance wages and benefits to recruit and retain qualified personnel or to hire more expensive temporary personnel. We also depend on the available labor pool of semi-skilled and unskilled employees in each of the markets in which we operate. If our labor costs increase, we may not be able to raise rates to offset these increased costs. Because a significant percentage of our revenues consists of fixed, prospective payments, our ability to pass along increased labor costs is limited. Our failure to recruit and retain qualified management, physical therapists, nurses, and other medical support personnel, or to control our labor costs, could have a material adverse effect on our business, financial position, results of operations, and cash flows.

If we fail to comply with the extensive laws and government regulations applicable to healthcare providers, we could suffer penalties or be required to make significant changes to our operations.

As a healthcare provider, we are required to comply with extensive and complex laws and regulations at the federal, state, and local government levels. These laws and regulations relate to, among other things:

licensure, certification, and accreditation,

coding and billing for services,

Table of Contents

requirements of the 60% compliance threshold under the 2007 Medicare Act,

relationships with physicians and other referral sources, including physician self-referral and anti-kickback laws,

quality of medical care,

use and maintenance of medical supplies and equipment,

maintenance and security of medical records,

acquisition and dispensing of pharmaceuticals and controlled substances, and

disposal of medical and hazardous waste.

In the future, changes in these laws and regulations could subject our current or past practices to allegations of impropriety or illegality or could require us to make changes in our investment structure, hospitals, equipment, personnel, services, capital expenditure programs, operating procedures, and contractual arrangements.

Although we have invested substantial time, effort, and expense in implementing internal controls and procedures designed to ensure regulatory compliance, if we fail to comply with applicable laws and regulations, we could be subjected to liabilities, including (1) criminal penalties, (2) civil penalties, including monetary penalties and the loss of our licenses to operate one or more of our hospitals, and (3) exclusion or suspension of one or more of our hospitals from participation in the Medicare, Medicaid, and other federal and state healthcare programs. Substantial damages and other remedies assessed against us could have a material adverse effect on our business, financial position, results of operations, and cash flows.

Our hospitals face national, regional, and local competition for patients from other healthcare providers.

We operate in a highly competitive industry. Although we are the nation's largest provider of inpatient rehabilitative healthcare services, in any particular market we may encounter competition from local or national entities with longer operating histories or other competitive advantages. There can be no assurance that this competition, or other competition which we may encounter in the future, will not adversely affect our business, financial position, results of operations, or cash flows. In addition, weakening certificate of need laws in some states could potentially increase competition in those states.

We remain a defendant in a number of lawsuits, and may be subject to liability under qui tam cases, the outcome of which could have a material adverse effect on us.

Although we have settled the major litigation pending against us, we remain a defendant in a number of lawsuits and the material lawsuits are discussed in Note 21, *Contingencies and Other Commitments*, to the consolidated financial statements contained in our Recast 8-K, and Note 12, *Contingencies*, to the consolidated financial statements contained in our Quarterly Reports on Form 10-Q for the periods ended March 31, June 30, and September 30, 2009, each of which is incorporated by reference herein. Substantial damages and other remedies assessed against us could have a material adverse effect on our business, financial position, results of operations, and cash flows.

Table of Contents

If we fail to comply with our Corporate Integrity Agreement, or if the HHS-OIG determines we have violated federal laws governing kickbacks, false claims and self-referrals, we could be subject to severe sanctions, including substantial civil money penalties.

In December 2004, we entered into a Corporate Integrity Agreement (the "CIA") with the Office of Inspector General of the United States Department of Health and Human Services (the "HHS-OIG") to promote our compliance with the requirements of Medicare, Medicaid, and all other federal healthcare programs. We have also entered into two addendums to this agreement. The CIA expires at the end of 2009, subject to the HHS-OIG accepting and approving our annual report for 2009 that we will submit in the first half of 2010. Under the agreement and addendums, we are subject to certain administrative requirements and are subject to review of certain Medicare cost reports and reimbursement claims by an Independent Review Organization (see Note 20, *Settlements*, to the consolidated financial statements contained in our Recast 8-K). Our failure to comply with the material terms of the CIA could lead to suspension or exclusion from further participation in federal healthcare programs, including Medicare and Medicaid, which currently account for a substantial portion of our revenues. Further, if the HHS-OIG determines that we have violated the anti-kickback laws, the False Claims Act or the federal Stark statute's general prohibition on physician self-referrals, we may be subject to significant civil monetary penalties, and may be excluded from further participation in federal healthcare programs. Any of these sanctions would have a material adverse effect on our business, financial position, results of operations, and cash flows.

Use of proceeds

We intend to use the net proceeds from the sale of the notes, together with cash on hand, to (i) pay the consideration required in connection with our tender offer and consent solicitation for any and all of our outstanding 2014 Notes, including the payment of any applicable accrued and unpaid interest on such notes, and (ii) redeem any 2014 Notes that may remain outstanding following completion of the tender offer, including the payment of any applicable accrued and unpaid interest on such notes. As of September 30, 2009, \$329.6 million aggregate principal amount of the 2014 Notes was outstanding, bearing interest at a rate of 7.2175% per annum. While the 2014 Notes mature on June 15, 2014, we have the option to prepay the aggregate principal amount of such notes, together with any accrued and unpaid interest on such notes, at any time, in whole or in part, at a redemption price that is currently 103.00% of their principal amount.

(1) As of October 23, 2009, we reached agreement with the lenders in our Credit Agreement to extend the maturity of a portion of our term loan facility. The extension provides for a \$300.0 million tranche of the term loan facility to have its maturity extended from March 2013 to September 2015 in exchange for a higher interest rate spread on that portion of the loan. In the event we have not fully redeemed or refinanced the 2014 Notes by March 15, 2014, the extended portion of the term loan facility will mature on that date.

Description of notes

The following description of the terms of the notes supplements the description of the general terms and provisions of the debt securities contained in the accompanying prospectus. To the extent the following terms are inconsistent with the general description contained in the accompanying prospectus, the following terms replace such inconsistent terms. You should read both the accompanying prospectus and this prospectus supplement.

HealthSouth Corporation will issue the 8.125% Senior Notes due 2020 (the *Notes*) under a supplemental indenture (the *Supplemental Indenture*) to be dated December 1, 2009, to the senior indenture (together with the Supplemental Indenture, the *Indenture*) to be dated December 1, 2009, among itself, the Subsidiary Guarantors and The Bank of Nova Scotia Trust Company of New York, as Trustee. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act. References to the *Indenture* in this Description of notes include the Supplemental Indenture.

Certain terms used in this description are defined under the subheading *Certain definitions* . In this description, the word *Company* refers only to HealthSouth Corporation and not to any of its subsidiaries.

The following description is only a summary of the material provisions of the Indenture. We urge you to read the Indenture because it, not this description, defines your rights as holders of Notes. You may request copies of the Indenture at our address set forth under the heading *Where you can find more information*.

Brief description of the notes

These Notes:

are unsecured senior obligations of the Company;

are senior in right of payment to any existing and future Subordinated Obligations of the Company; and

are guaranteed by each Subsidiary Guarantor.

Principal, maturity and interest

The Company will issue the Notes with a maximum aggregate principal amount of \$290.0 million. The Notes will mature on February 15, 2020. Subject to our compliance with the covenant described under the subheading *Certain covenants Limitation on indebtedness* , we are permitted to issue more Notes from time to time under the Indenture governing the Notes (the *Additional Notes*). The Notes and the Additional Notes, if any, will be treated as a single class for all purposes of the Indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context otherwise requires, for all purposes of the Indenture and this *Description of notes* , references to the Notes include any Additional Notes actually issued.

Interest on the Notes will accrue at the rate of 8.125% per annum.

Table of Contents

Interest on the Notes will be payable semiannually in arrears on February 15 and August 15 of each year, commencing February 15, 2010. We will make each interest payment to the holders of record of the Notes on the immediately preceding February 1 and August 1. We will pay interest on overdue principal at 1% per annum in excess of the rate set forth above and will pay interest on overdue installments of interest at such higher rate to the extent lawful. Interest on the Notes will accrue from the date of original issuance. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

The Company will issue the Notes in denominations of \$2,000 and any greater integral multiple of \$1,000.

Optional redemption

On and after February 15, 2015, we will be entitled at our option to redeem all or a portion of the Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed in percentages of principal amount on the redemption date), plus accrued interest to the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on February 15 of the years set forth below:

Period	Redemption price
2015	104.063%
2016	102.708%
2017	101.354%
2018 and thereafter	100.000%

Prior to February 15, 2013 we will be entitled at our option on one or more occasions to redeem Notes (which includes Additional Notes, if any) in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the Notes (which includes Additional Notes, if any) issued at a redemption price (expressed as a percentage of principal amount) of 108.125%, plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more Equity Offerings; *provided, however*, that

- (1) at least 65% of such aggregate principal amount of the Notes (which includes Additional Notes, if any) remains outstanding immediately after the occurrence of each such redemption (other than the Notes held, directly or indirectly, by the Company or its Affiliates); and
- (2) each such redemption occurs within 90 days after the date of the related Equity Offering.

Prior to February 15, 2015, we will be entitled at our option to redeem all or a portion of the Notes at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest to, the redemption date (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date). Notice of such redemption must be mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date.

Applicable Premium means with respect to a Note at any redemption date, the greater of (1) 1.00% of the principal amount of such Note and (2) the excess of (A) the present value at such redemption date of (i) the redemption price of such Note on February 15, 2015 (such redemption prices being described in the tables above in this Optional redemption section, and exclusive

Table of Contents

of any accrued interest), plus (ii) all required remaining scheduled interest payments due on such Note through February 15, 2015 (but excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Adjusted Treasury Rate, over (B) the principal amount of such Note on such redemption date.

Adjusted Treasury Rate means, with respect to any redemption date, (1) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication that is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after February 15, 2015, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Adjusted Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date, in each case calculated on the third Business Day immediately preceding the redemption date, plus 0.50%.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the Notes from the redemption date to February 15, 2015, that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a maturity most nearly equal to February 15, 2015.

Comparable Treasury Price means, with respect to any redemption date, if clause (2) of the Adjusted Treasury Rate is applicable, the average of three, or such lesser number as is obtained by the Trustee, Reference Treasury Dealer Quotations for such redemption date.

Quotation Agent means the Reference Treasury Dealer selected by the Trustee after consultation with the Company.

Reference Treasury Dealer means each of J.P. Morgan Securities Inc., Barclays Capital Inc. and Goldman, Sachs & Co. and their respective successors and assigns.

Reference Treasury Dealer Quotations means with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Trustee, of the bid and asked prices for the Comparable Treasury Issue, expressed in each case as a percentage of its principal amount, quoted in writing to the Trustee by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third Business Day immediately preceding such redemption date.

Selection and notice of redemption

If we are redeeming less than all of the Notes at any time, the Trustee will select Notes on a *pro rata* basis to the extent practicable.

We will redeem Notes of \$2,000 or less in whole and not in part. We will cause notices of redemption to be mailed by first-class mail at least 30 but not more than 60 days before the redemption date to each holder of Notes to be redeemed at its registered address.

Table of Contents

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note will state the portion of the principal amount thereof to be redeemed. We will issue a new Note in a principal amount equal to the unredeemed portion of the original Note in the name of the holder upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption.

Mandatory redemption; offers to purchase; open market purchases

We are not required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, we may be required to offer to purchase Notes as described under the captions **Change of control** and **Certain covenants Limitation on sales of assets and subsidiary stock** . We may at any time and from time to time purchase Notes in the open market or otherwise.

Guarantees

The Subsidiary Guarantors will jointly and severally Guarantee, on a senior unsecured basis, our obligations under these Notes. The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee will be limited as necessary to prevent that Subsidiary Guarantee from constituting a fraudulent conveyance under applicable law. If, however, a Subsidiary Guarantee were rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor, and, depending on the amount of such other indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee could be reduced to zero. See **Risk factors Federal and state statutes could allow courts, under specific circumstances, to void the Subsidiary Guarantees, subordinate claims in respect of the notes and require note holders to return payments received from subsidiary guarantors** .

Initially, the Notes are guaranteed by all of our subsidiaries that guarantee borrowings under the Credit Agreement.

Each Subsidiary Guarantor that makes a payment under its Subsidiary Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Subsidiary Guarantor in an amount equal to such other Subsidiary Guarantor's *pro rata* portion of such payment based on the respective net assets of all the Subsidiary Guarantors at the time of such payment determined in accordance with GAAP.

Pursuant to the Indenture, (A) a Subsidiary Guarantor may consolidate with, merge with or into, or transfer all or substantially all its assets to any other Person and (B) the Capital Stock of a Subsidiary Guarantor may be sold or otherwise disposed of to another Person to the extent described below under **Certain covenants Limitation on sales of assets and subsidiary stock** .

The Subsidiary Guarantee of a Subsidiary Guarantor with respect to the Notes will be released:

- (1) upon the designation of such Subsidiary Guarantor as an Unrestricted Subsidiary under the Indenture;
- (2) at such time as (A) any Guarantee by such Subsidiary Guarantor of the obligations under the Credit Agreement and any other Guarantee that resulted in (or would by itself require) the creation of such Subsidiary Guarantee under the Indenture has been released and discharged,

Table of Contents

except a discharge or release by or as a result of payment under such Guarantee, and (B) such Subsidiary Guarantor does not have any Indebtedness outstanding that resulted in (or would by itself require) the creation of such Subsidiary Guarantee under the Indenture; or

(3) if we exercise our legal defeasance option or our covenant defeasance option as described under **Defeasance** or if our obligations under the Indenture are discharged in accordance with the terms of Indenture.

Ranking

Senior indebtedness versus notes

The indebtedness evidenced by the Notes and the Subsidiary Guaranties will be unsecured and will rank *pari passu* in right of payment to the Senior Indebtedness of the Company and the Subsidiary Guarantors, as the case may be.

As of September 30, 2009, after giving *pro forma* effect to this Offering (and assuming that all of the outstanding Floating Rate Notes due 2014 are tendered and accepted for purchase by the Company in the tender offer substantially concurrently with this Offering), the Senior Indebtedness of the Company and the Subsidiary Guarantors would have been approximately \$1.7 billion, including approximately \$858.1 million of secured indebtedness. Other than capital leases, substantially all of the Senior Indebtedness of the Subsidiary Guarantors consists of their respective guarantees of Senior Indebtedness of the Company under the Credit Agreement and with respect to our outstanding 10.75% Senior Notes due 2016 and the Notes.

The Notes are unsecured obligations of the Company. Secured debt and other secured obligations of the Company and the Subsidiary Guarantors (including obligations with respect to the Credit Agreement) will be effectively senior to the Notes and the Subsidiary Guaranties to the extent of the value of the assets securing such debt or other obligations.

Liabilities of subsidiaries versus notes

A substantial amount of our operations are conducted through our subsidiaries. Certain of our wholly-owned subsidiaries, and substantially all of our non-wholly-owned subsidiaries, are not guaranteeing the Notes. In addition, as described above under **Guarantees**, Subsidiary Guaranties may be released under certain circumstances. Also, our future subsidiaries may not be required to guarantee the Notes. Claims of creditors of such non-guarantor subsidiaries, including trade creditors and creditors holding indebtedness or guarantees issued by such non-guarantor subsidiaries, and claims of preferred stockholders of such non-guarantor subsidiaries generally will have priority with respect to the assets and earnings of such non-guarantor subsidiaries over the claims of our creditors, including holders of the Notes. Accordingly, the Notes will be effectively subordinated to creditors (including trade creditors) and preferred stockholders, if any, of our non-guarantor subsidiaries.

At September 30, 2009, the total liabilities of our subsidiaries (other than the Subsidiary Guarantors) were approximately \$190.2 million, including trade payables (excluding intercompany liabilities). Although the Indenture limits the incurrence of Indebtedness and preferred stock by certain of our subsidiaries, such limitation is subject to a number of significant qualifications. Moreover, the Indenture does not impose any limitation on the incurrence by such subsidiaries of liabilities that are not considered Indebtedness under the Indenture. See **Certain covenants Limitation on indebtedness**. The non-guarantor subsidiaries generated approximately 29.0% of our consolidated net operating revenues and approximately 24.2% of

our Adjusted Consolidated EBITDA for the year ended December 31, 2008, and generated approximately 29.7% of our consolidated net operating revenues and approximately 23.8% of our Adjusted Consolidated EBITDA for the nine months ended September 30, 2009.

Transfer and exchange

The Notes initially will be represented by one or more global notes in registered form without interest coupons (the *Global Notes*). The Global Notes will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company (*DTC*), in New York, New York, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for Notes in certificated form except in the limited circumstances described below. See *Exchange of global notes for certificated notes*. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of Notes in certificated form.

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

Depository procedures

The following description of the operations and procedures of DTC is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company organized under the laws of the State of New York, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participating organizations (collectively, the *participants*) and to facilitate the clearance and settlement of transactions in those securities between participants through electronic book-entry changes in accounts of its participants. The participants include securities brokers and dealers (including the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (collectively, the *indirect participants*). Persons who are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the participants and indirect participants.

DTC has also advised us that, pursuant to procedures established by it:

(1) upon deposit of the Global Notes, DTC will credit the accounts of participants designated by the underwriters with portions of the principal amount of the Global Notes; and

Table of Contents

(2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the participants) or by the participants and the indirect participants (with respect to other owners of beneficial interests in the Global Notes).

Investors in the Global Notes who are participants in DTC's system may hold their interests therein directly through DTC. Investors in the Global Notes who are not participants may hold their interests therein indirectly through organizations which are participants in such system. All interests in a Global Note may be subject to the procedures and requirements of DTC. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of participants, which in turn act on behalf of indirect participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of an interest in the Global Notes will not have Notes registered in their names, will not receive physical delivery of Notes in certificated form and will not be considered the registered owners or Holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest and premium and additional interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered Holder under the Indenture. Under the terms of the Indenture, the Company and the Trustee will treat the Persons in whose names the Notes, including the Global Notes, are registered as the owners of the Notes for the purpose of receiving payments and for all other purposes. Consequently, neither the Company, the Trustee nor any agent of the Company or the Trustee has or will have any responsibility or liability for:

(1) any aspect of DTC's records or any participant's or indirect participant's records relating to payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership interests in the Global Notes; or

(2) any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the accounts of the relevant participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the participants and the indirect participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will be the responsibility of the participants or the indirect participants and will not be the responsibility of DTC, the Trustee or the Company. Neither the Company nor the Trustee will be liable for any delay by DTC or any of its participants in identifying the beneficial owners of the Notes, and the Company and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Table of Contents

Transfers between participants and DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds.

DTC has advised the Company that it will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the Notes as to which such participant or participants has or have given such direction. However, if there is an Event of Default under the Notes, DTC reserves the right to exchange the Global Notes for legended Notes in certificated form, and to distribute such Notes to its participants.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants, it is under no obligation to perform such procedures, and such procedures may be discontinued or changed at any time. Neither the Company nor the Trustee nor any of their respective agents will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes if:

- (1) DTC (A) notifies the Company that it is unwilling or unable to continue as depository for the Global Notes or (B) has ceased to be a clearing agency registered under the Exchange Act and, in each case, a successor depository is not appointed;
- (2) the Company, at its option, notifies the Trustee in writing that it elects to cause the issuance of the Certificated Notes; or
- (3) there has occurred and is continuing an Event of Default with respect to the Notes.

In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same day settlement and payment

The Company will make payments in respect of the Notes represented by the Global Notes (including principal, premium, if any, interest and additional interest, if any) by wire transfer of immediately available funds to the accounts specified by DTC or its successor as depository. The Company will make all payments of principal, interest and premium and additional interest, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the Holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such Holder's registered address. Any permitted secondary market trading activity in such Notes will be required by DTC to be settled in immediately available funds. The Company expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Change of control

Upon the occurrence of any of the following events (each a *Change of Control*), each Holder shall have the right to require that the Company repurchase such Holder's Notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date):

- (1) the Company becomes aware that any person (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) is or has become the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act, except that for purposes of this clause (1) such person shall be deemed to have beneficial ownership of all shares that any such person has the right to acquire, whether such right is exercisable immediately or only after the passage of time), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the Company;
- (2) at any time during any period of up to 24 consecutive months, commencing on the Issue Date, individuals who at the beginning of such period constituted the Board of Directors (together with any new directors whose election by such Board of Directors or whose nomination for election by the shareholders of the Company was approved by a vote of a majority of the directors of the Company then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of the Board of Directors then in office;
- (3) the Company is liquidated or dissolved or adopts a plan of liquidation or dissolution; or
- (4) the merger or consolidation of the Company with or into another Person or the merger of another Person with or into the Company, or the sale of all or substantially all the assets of the Company (determined on a consolidated basis) to another Person, other than a transaction following which (i) in the case of a merger or consolidation transaction, holders of securities that represented 100% of the Voting Stock of the Company immediately prior to such transaction (or other securities into which such securities are converted as part of such merger or consolidation transaction) own directly or indirectly at least a majority of the voting power of the Voting Stock of the surviving Person in such merger or consolidation transaction immediately after such transaction and (ii) in the case of a sale of assets transaction, each transferee becomes an obligor in respect of the Notes and a Subsidiary of the transferor of such assets.

Within 30 days following any Change of Control, we will mail a notice to each Holder with a copy to the Trustee (the *Change of Control Offer*) stating:

- (1) that a Change of Control has occurred and that such Holder has the right to require us to purchase such Holder's Notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase, plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest on the relevant interest payment date);
- (2) the circumstances and relevant facts and financial information regarding such Change of Control;
- (3) the purchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); and

Table of Contents

(4) the instructions, as determined by us, consistent with the covenant described hereunder, that a Holder must follow in order to have its Notes purchased.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by us and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described hereunder, we will comply with the applicable securities laws and regulations and shall not be deemed to have breached our obligations under the covenant described hereunder by virtue of our compliance with such securities laws or regulations.

The Change of Control purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of the Company and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Company and the underwriters. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under Certain covenants Limitation on indebtedness , Limitation on liens and Limitation on sale/leaseback transactions . Such restrictions can only be waived under the Indenture with the consent of the holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford holders of the Notes protection in the event of a highly leveraged transaction.

Subject to certain exceptions, the Credit Agreement prohibits us from purchasing any Notes pursuant to a Change of Control Offer, and also provides that the occurrence of certain change of control events with respect to the Company would constitute a default thereunder. In the event a Change of Control occurs at a time when we are prohibited from purchasing Notes, we may seek the consent of our lenders to the purchase of Notes or may attempt to refinance the borrowings that contain such prohibition. If we do not obtain such a consent or repay such borrowings, we will remain prohibited from purchasing Notes. In such case, our failure to offer to purchase Notes would constitute a Default under the Indenture, which would, in turn, constitute a default under the Credit Agreement.

Future indebtedness that we may incur may contain prohibitions on the occurrence of certain events that would constitute a Change of Control or require the repurchase of such indebtedness upon a Change of Control. Moreover, the exercise by the holders of their right to require us to repurchase their Notes could cause a default under such indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on us. Finally, our ability to pay cash to the holders of Notes following the occurrence of a Change of Control may be limited

by our then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases.

The definition of "Change of control" includes a disposition of all or substantially all of the assets of the Company to any Person. Although there is a limited body of case law interpreting the phrase "substantially all", there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of all or substantially all of the assets of the Company. As a result, it may be unclear as to whether a Change of Control has occurred and whether a holder of Notes may require the Company to make an offer to repurchase the Notes as described above.

The provisions under the Indenture relative to our obligation to make an offer to repurchase the Notes issued thereunder as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of such Notes.

Certain covenants

The Indenture contains covenants including, among others, those summarized below.

Limitation on indebtedness

(a) The Company will not, and will not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Indebtedness; *provided, however*, that the Company and the Subsidiary Guarantors will be entitled to Incur Indebtedness if, on the date of such Incurrence and after giving effect thereto on a *pro forma* basis the Consolidated Coverage Ratio exceeds 2.0 to 1.

(b) Notwithstanding the foregoing paragraph (a), the Company and the Restricted Subsidiaries will be entitled to Incur any or all of the following Indebtedness:

(1) Indebtedness Incurred pursuant to the Credit Agreement; *provided, however*, that, immediately after giving effect to any such Incurrence, the aggregate principal amount of all Indebtedness Incurred under this clause (1) and then outstanding does not exceed \$1,551 million less the sum of all principal payments with respect to such Indebtedness made pursuant to paragraph (a)(3)(A) of, and in satisfaction of, the covenant described under "Limitation on sales of assets and subsidiary stock";

(2) Indebtedness owed to and held by the Company or a Restricted Subsidiary; *provided, however*, that (A) any subsequent issuance or transfer of any Capital Stock that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of such Indebtedness (other than to the Company or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness by the obligor thereon, (B) if the Company is the obligor on such Indebtedness, such Indebtedness is expressly subordinated to the prior payment in full in cash of all obligations with respect to the Notes, and (C) if a Subsidiary Guarantor is the obligor on such Indebtedness, such Indebtedness is expressly subordinated to the prior payment in full in cash of all obligations of such Subsidiary Guarantor with respect to its Subsidiary Guarantee;

(3) the Notes (excluding any Additional Notes);

(4) Indebtedness outstanding on the Issue Date (other than Indebtedness described in clause (1), (2) or (3) of this covenant);

- (11) (A) Purchase Money Indebtedness, (B) Capital Lease Obligations and (C) Attributable Debt, and Refinancing Indebtedness in respect thereof, in an aggregate principal amount on the date of Incurrence that, when added to all other Indebtedness Incurred pursuant to this clause (11) and then outstanding, does not exceed 10% of Consolidated Tangible Assets, as determined based on the consolidated balance sheet of the Company as of the end of the most recent fiscal quarter ending at least 45 days prior thereto;

- (15) Indebtedness of the Company or of any of its Restricted Subsidiaries in an aggregate principal amount that, when taken together with all other Indebtedness of the Company and its Restricted Subsidiaries outstanding on the date of such Incurrence (other than Indebtedness permitted by clauses (1) through (14) above or paragraph (a)) does not exceed \$125 million.

(c) Notwithstanding the foregoing, neither the Company nor any Subsidiary Guarantor will incur any Indebtedness pursuant to the foregoing paragraph (b) if the proceeds thereof are used, directly or indirectly, to Refinance any Subordinated Obligations of the Company or any Subsidiary Guarantor unless such Indebtedness shall be subordinated to the Notes or the applicable Subsidiary Guarantee to at least the same extent as such Subordinated Obligations.

(d) For purposes of determining compliance with this covenant:

(1) all Indebtedness outstanding under the Credit Agreement on the Issue Date will be treated as Incurred under clause (1) of paragraph (b) above;

(2) in the event that an item of Indebtedness (or any portion thereof) meets the criteria of more than one of the types of Indebtedness described above, the Company, in its sole discretion, will classify such item of Indebtedness (or any portion thereof) at the time of Incurrence and will only be required to include the amount and type of such Indebtedness in one of the above clauses (*provided* that any Indebtedness originally classified as Incurred pursuant to any of clauses (b)(2) through (b)(15) above may later be reclassified as having been Incurred pursuant to paragraph (a) or any other of clauses (b)(2) through (b)(15) above to the extent that such reclassified Indebtedness could be Incurred pursuant to paragraph (a) or one of clauses (b)(2) through (b)(15) above, as the case may be, if it were Incurred at the time of such reclassification); and

(3) the Company will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described above.

Limitation on restricted payments

(a) The Company will not, and will not permit any Restricted Subsidiary, directly or indirectly, to make a Restricted Payment if at the time the Company or such Restricted Subsidiary makes such Restricted Payment:

(1) a Default shall have occurred and be continuing (or would result therefrom);

(2) the Company is not entitled to Incur an additional \$1.00 of Indebtedness pursuant to paragraph (a) of the covenant described under Limitation on indebtedness ; or

(3) the aggregate amount of such Restricted Payment and all other Restricted Payments since the Issue Date would exceed the sum of (without duplication):

(A) 50% of the Consolidated Net Income accrued during the period (treated as one accounting period) from (and including) July 1, 2006 (being the beginning of the fiscal quarter immediately following the fiscal quarter during which the Company's 10.75% Senior Notes due 2016 were issued), to the end of the most recent fiscal quarter ending at least 45 days prior to the date of such Restricted Payment (or, in case such Consolidated Net Income shall be a deficit, minus 100% of such deficit); *plus*

(B) 100% of the aggregate Net Cash Proceeds received by the Company from the issuance or sale of its Capital Stock (other than Disqualified Stock) subsequent to the Issue Date (other than an issuance or sale to a Subsidiary of the Company and other than an issuance or sale to an employee stock ownership plan or to a trust established by the Company or any of its Subsidiaries for the benefit of their employees) and 100% of any cash capital contribution received by the Company from its shareholders subsequent to the Issue Date; *plus*

Table of Contents

(C) the amount by which Indebtedness of the Company is reduced on the Company's balance sheet upon the conversion or exchange subsequent to the Issue Date of any Indebtedness of the Company convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Company (less the amount of any cash, or the fair value of any other property, distributed by the Company upon such conversion or exchange); *provided, however*, that the foregoing amount shall not exceed the Net Cash Proceeds received by the Company or any Restricted Subsidiary from the sale of such Indebtedness (excluding Net Cash Proceeds from sales to a Subsidiary of the Company or to an employee stock ownership plan or to a trust established by the Company or any of its Subsidiaries for the benefit of their employees); *plus*

(D) an amount equal to the net reduction in the Investments (other than Permitted Investments) made by the Company or any Restricted Subsidiary in any Person resulting from repurchases, repayments or redemptions of such Investments by such Person, proceeds realized on the sale of such Investment and proceeds representing the return of capital (excluding dividends and distributions), in each case received by the Company or any Restricted Subsidiary; *provided, however*, that the foregoing sum shall not exceed, in the case of any such Person, the amount of Investments (excluding Permitted Investments) previously made (and treated as a Restricted Payment) by the Company or any Restricted Subsidiary in such Person; *plus*

(E) in the case of the redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary, the portion (proportionate to the Company's equity interest in such Subsidiary) of the Fair Market Value of the net assets of such Unrestricted Subsidiary at the time such Unrestricted Subsidiary is redesignated as a Restricted Subsidiary, except to the extent that the Investment in such Unrestricted Subsidiary was made by the Company or a Restricted Subsidiary pursuant to clause (10) of the next succeeding paragraph or to the extent that such Investment constituted a Permitted Investment; *plus*

(F) \$50 million.

As of September 30, 2009, the amount available for Restricted Payments pursuant to clause (a)(3) would have been approximately \$393 million.

(b) The preceding provisions will not prohibit:

(1) any Restricted Payment made out of the Net Cash Proceeds of the substantially concurrent sale of, or made by exchange for, Capital Stock of the Company (other than Disqualified Stock and other than Capital Stock issued or sold to a Subsidiary of the Company or an employee stock ownership plan or to a trust established by the Company or any of its Subsidiaries for the benefit of their employees) or a substantially concurrent cash capital contribution received by the Company from its shareholders; *provided, however*, that (A) such Restricted Payment shall be excluded in the calculation of the amount of Restricted Payments and (B) the Net Cash Proceeds from such sale or such cash capital contribution (to the extent so used for such Restricted Payment) shall be excluded in the calculation of amounts under clause (3)(B) of paragraph (a) above;

(3) dividends paid within 60 days after the date of declaration thereof if at such date of declaration such dividend would have complied with this covenant; *provided, however* that such dividend shall be included in the calculation of the amount of Restricted Payments;

(4) so long as no Default has occurred and is continuing, the purchase, redemption or other acquisition of shares of Capital Stock of the Company or any of its Subsidiaries from employees, former employees, directors or former directors of the Company or any of its Subsidiaries (or permitted transferees of such employees, former employees, directors or former directors), pursuant to the terms of the agreements (including employment agreements) or plans (or amendments thereto) approved or ratified by the Board of Directors under which such individuals purchase or sell, or are granted the option to purchase or sell, shares of such Capital Stock; *provided, however*, that the aggregate amount of such Restricted Payments (excluding amounts representing cancelation of Indebtedness) shall not exceed \$5,000,000 in any calendar year (*provided* that (A) if the Company and its Restricted Subsidiaries make less than \$5,000,000 in the aggregate of such Restricted Payments in any calendar year, the unused amount for such calendar year may be carried over to the next succeeding calendar year (but not any other calendar year thereafter) and (B) the amount payable in any calendar year may be increased by an amount up to the sum of (i) the amount of cash proceeds from the sale of Capital Stock (other than Disqualified Stock) of the Company to employees, former employees, directors or former directors of the Company or any of its Subsidiaries, to the extent that the cash proceeds from the sale of such Capital Stock have not otherwise been applied to the payment of Restricted Payments by virtue of clause (3)(B) of paragraph (a) of this covenant, plus (ii) the cash proceeds of key man life insurance policies received by the Company or its Restricted Subsidiaries after the Issue Date, less (iii) the amount of repurchases and other acquisitions previously made with the cash proceeds described in clauses (i) and (ii) above); *provided, further, however*, that (x) such repurchases and other acquisitions shall be excluded in the calculation of the amount of Restricted Payments and (y) cash proceeds referred to in clause (B)(i) above used to make Restricted Payments under this clause (4) shall be excluded in the calculation of amounts under clause (3)(B) of paragraph (a) above;

(5) (A) the declaration and payment of dividends on the Convertible Preferred Stock, and other cash payments at any time to reduce any accretion in the liquidation preference resulting from previously unpaid dividends on the Convertible Preferred Stock, in each case in accordance with the terms thereof in effect on the Issue Date and (B) the declaration and payments of dividends on Disqualified Stock issued pursuant to the covenant described under Limitation on indebtedness ; *provided, however*, in each case, that at the time of payment of such dividend or other cash payment, no Default shall have occurred and be continuing (or result therefrom); *provided, further, however*, that dividends and cash payments referred to in this clause (5) shall be excluded in the calculation of the amount of Restricted Payments;

(6) repurchases of Capital Stock deemed to occur upon exercise of stock options if such Capital Stock represents a portion of the exercise price of such options; *provided, however*, that such Restricted Payments shall be excluded in the calculation of the amount of Restricted Payments;

(7) cash payments in lieu of the issuance of fractional shares in connection with the exercise of warrants, options or other securities convertible into or exchangeable for Capital Stock of the Company; *provided, however*, that any such cash payment shall not be for the purpose of evading the limitation of the covenant described under this subheading; *provided, further, however*, that such payments shall be excluded in the calculation of the amount of Restricted Payments;

(8) in the event of a Change of Control, and if no Default shall have occurred and be continuing, the payment, purchase, redemption, defeasance or other acquisition or retirement of Subordinated Obligations of the Company or any Subsidiary Guarantor, in each case, at a purchase price not greater than 101% of the principal amount of such Subordinated Obligations, plus any accrued and unpaid interest thereon; *provided, however*, that prior to such payment, purchase, redemption, defeasance or other acquisition or retirement, the Company (or a third party to the extent permitted by the Indenture) has made a Change of Control Offer with respect to the Notes as a result of such Change of Control and has repurchased all Notes validly tendered and not withdrawn in connection with such Change of Control Offer; *provided, further, however*, that such payments, purchases, redemptions, defeasances or other acquisitions or retirements shall be excluded in the calculation of the amount of Restricted Payments;

(9) payments of intercompany subordinated Indebtedness, the Incurrence of which was permitted under clause (2) of paragraph (b) of the covenant described under Limitation on indebtedness ; *provided, however*, that no Default has occurred and is continuing or would otherwise result therefrom; *provided, further, however*, that such payments shall be excluded in the calculation of the amount of Restricted Payments; or

(10) Restricted Payments in an amount that, when taken together with all Restricted Payments made pursuant to this clause (10), does not exceed \$50 million; *provided, however*, that (A) at the time of each such Restricted Payment, no Default shall have occurred and be continuing (or result therefrom) and (B) such Restricted Payments shall be excluded in the calculation of the amount of Restricted Payments.

The amount of any Restricted Payment that is not made in cash shall be determined in a manner consistent with the determination of the amount of an Investment as set forth in the final sentence of the first paragraph of the definition of Investment .

Limitation on restrictions on distributions from restricted subsidiaries

The Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to (a) pay dividends or make any other distributions on its Capital Stock to the Company or a Restricted Subsidiary or pay any Indebtedness owed to the Company, (b) make any loans or advances to the Company or (c) transfer any of its property or assets to the Company, except:

(1) with respect to clauses (a), (b) and (c),

(A) any encumbrance or restriction pursuant to applicable law, rule, regulation or order or an agreement in effect at or entered into on the Issue Date;

(B) any encumbrance or restriction with respect to a Restricted Subsidiary pursuant to an agreement relating to any Indebtedness Incurred by such Restricted Subsidiary on or prior to

the date on which such Restricted Subsidiary was acquired by the Company (other than Indebtedness Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of related transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was acquired by the Company) and outstanding on such date;

(C) any encumbrance or restriction pursuant to any amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing of an agreement referred to in clause (A) or (B) above; *provided, however*, that such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing is no more restrictive, as reasonably determined by the Company, with respect to such encumbrances and other restrictions taken as a whole than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing;

(D) any encumbrance or restriction with respect to a Restricted Subsidiary imposed pursuant to an agreement entered into for the sale or disposition of all or substantially all the Capital Stock or assets of such Restricted Subsidiary pending the closing of such sale or disposition;

(E) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;

(F) any limitation or prohibition on the disposition or distribution of assets or property in joint venture agreements, asset sale agreements, stock sale agreements and other similar agreements, which limitation or prohibition is applicable only to the assets that are the subject of such agreements;

(G) any encumbrance or restriction existing under or by reason of contractual requirements of a Receivables Entity in connection with a Qualified Receivables Transaction, *provided* that such restrictions apply only to such Receivables Entity; and

(2) with respect to clause (c) only,

(A) any encumbrance or restriction consisting of customary nonassignment provisions in leases governing leasehold interests to the extent such provisions restrict the transfer of the lease or the property leased thereunder; and

(B) any encumbrance or restriction contained in Capital Lease Obligations, any agreement governing Purchase Money Indebtedness, security agreements or mortgages securing Indebtedness of a Restricted Subsidiary to the extent such encumbrance or restriction restricts the transfer of the property subject to such Capital Lease Obligations, Purchase Money Indebtedness, security agreements or mortgages.

Limitation on sales of assets and subsidiary stock

(a) The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Disposition unless:

(1) the Company or such Restricted Subsidiary receives consideration at the time of such Asset Disposition at least equal to the Fair Market Value (including as to the value of all non-cash consideration) of the shares and assets subject to such Asset Disposition;

Table of Contents

(2) at least 75% of the consideration thereof received by the Company or such Restricted Subsidiary is in the form of cash or cash equivalents; and

(3) an amount equal to 100% of the Net Available Cash from such Asset Disposition, other than any Asset Disposition that constitutes a Syndication or a resyndication transaction in the ordinary course of business,

(A) to the extent the Company elects (or is required by the terms of any Indebtedness), to prepay, repay, redeem or purchase Senior Indebtedness of the Company or a Subsidiary Guarantor or Indebtedness (other than any Disqualified Stock) of a Restricted Subsidiary that is not a Subsidiary Guarantor (in each case other than Indebtedness owed to the Company or an Affiliate of the Company) within one year from the later of the date of such Asset Disposition or the receipt of such Net Available Cash;

(B) to the extent the Company elects (including with respect to the balance of such Net Available Cash after application (if any) in accordance with clause (A)), to acquire Additional Assets within one year from the later of the date of such Asset Disposition or the receipt of such Net Available Cash; and

(C) to the extent of the balance of such Net Available Cash after application (if any) in accordance with clauses (A) and (B), to make an offer to the holders of the Notes (and to holders of other Senior Indebtedness of the Company designated by the Company) to purchase Notes (and such other Senior Indebtedness of the Company) pursuant to and subject to the conditions contained in the Indenture;

provided, however, that in connection with any prepayment, repayment or purchase of Indebtedness made to satisfy clause (A) or (C) above, the Company or such Restricted Subsidiary shall permanently retire such Indebtedness and shall cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased.

Notwithstanding the foregoing provisions of this covenant, the Company and the Restricted Subsidiaries will not be required to apply any Net Available Cash in accordance with this covenant except to the extent that the aggregate Net Available Cash from all Asset Dispositions which is not applied in accordance with this covenant exceeds \$50 million. Pending application of Net Available Cash pursuant to this covenant, such Net Available Cash shall be invested in Temporary Cash Investments or applied to temporarily reduce revolving credit indebtedness.

For the purposes of this covenant, the following are deemed to be cash or cash equivalents:

(1) the assumption or discharge of any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet or in the footnotes thereto) of the Company or such Restricted Subsidiary (other than liabilities that are by their terms subordinated to the Notes) that are assumed by the transferee of such assets and for which the Company and all of the Restricted Subsidiaries have been released by all creditors in writing;

(2) securities received by the Company or any Restricted Subsidiary from the transferee that are converted by the Company or such Restricted Subsidiary within 180 days into cash, to the extent of cash received in that conversion;

(3) all Temporary Cash Investments; and

Table of Contents

(4) any Designated Noncash Consideration having an aggregate Fair Market Value that, when taken together with all other Designated Noncash Consideration previously received and then outstanding, does not exceed at the time of the receipt of such Designated Noncash Consideration (with the Fair Market Value of each item of Designated Noncash Consideration being measured at the time received and without giving effect to subsequent changes in value) \$30 million.

(b) In the event of an Asset Disposition that requires the purchase of Notes (and other Senior Indebtedness of the Company) pursuant to clause (a)(3)(C) above, the Company will purchase Notes tendered pursuant to an offer by the Company for the Notes (and such other Senior Indebtedness) at a purchase price of 100% of their principal amount (or, in the event such other Senior Indebtedness of the Company was issued with a significant original issue discount, 100% of the accreted value thereof) without premium, plus accrued but unpaid interest (or, in respect of such other Senior Indebtedness of the Company, such lesser price, if any, as may be provided for by the terms of such Senior Indebtedness) in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture. If the aggregate purchase price of the securities tendered exceeds the Net Available Cash allotted to their purchase, the Company will select the securities to be purchased on a *pro rata* basis but in round denominations, which in the case of the Notes will be denominations of \$2,000 principal amount or any greater integral multiple of \$1,000. The Company shall not be required to make such an offer to purchase Notes (and other Senior Indebtedness of the Company) pursuant to this covenant if the Net Available Cash available therefor is less than \$20 million (which lesser amount shall be carried forward for purposes of determining whether such an offer is required with respect to the Net Available Cash from any subsequent Asset Disposition). Upon completion of such an offer to purchase, Net Available Cash will be deemed to be reduced by the aggregate amount of such offer.

(c) The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue of its compliance with such securities laws or regulations.

Limitation on affiliate transactions

(a) The Company will not, and will not permit any Restricted Subsidiary to, enter into or permit to exist any transaction (including the purchase, sale, lease or exchange of any property, employee compensation arrangements or the rendering of any service) with, or for the benefit of, any Affiliate of the Company (an *Affiliate Transaction*) unless:

(1) the terms of the Affiliate Transaction are no less favorable to the Company or such Restricted Subsidiary than those that could be obtained at the time of the Affiliate Transaction in arm's-length dealings with a Person who is not an Affiliate;

(2) if such Affiliate Transaction involves an amount in excess of \$10 million, the terms of the Affiliate Transaction are set forth in writing and a majority of the non-employee directors of the Company disinterested with respect to such Affiliate Transaction have determined in good

Table of Contents

faith that the criteria set forth in clause (1) are satisfied and have approved the relevant Affiliate transaction as evidenced by a resolution of the Board of Directors; and

(3) if such Affiliate Transaction involves an amount in excess of \$50 million, the Board of Directors shall also have received a written opinion from an Independent Qualified Party to the effect that such Affiliate Transaction is fair, from a financial standpoint, to the Company and its Restricted Subsidiaries or is not less favorable to the Company and its Restricted Subsidiaries than could reasonably be expected to be obtained at the time in an arm's-length transaction with a Person who was not an Affiliate.

(b) The provisions of the preceding paragraph (a) will not prohibit:

(1) any Investment (other than a Permitted Investment) or other Restricted Payment, in each case permitted to be made pursuant to the covenant described under *Limitation on restricted payments* ;

(2) any employment or consulting agreement, employee benefit plan, officer or director indemnification agreement or any similar arrangement entered into by the Company or any of its Restricted Subsidiaries in the ordinary course of business or approved by the Board of Directors, and payments pursuant thereto;

(3) loans or advances to employees in the ordinary course of business of the Company or its Restricted Subsidiaries, but in any event not to exceed \$10 million in the aggregate outstanding at any one time;

(4) the payment of reasonable fees or other reasonable compensation to, or the provision of customary benefits or indemnification arrangements to, directors of the Company and its Restricted Subsidiaries;

(5) any transaction with the Company, a Restricted Subsidiary or any Person that would constitute an Affiliate Transaction solely because the Company or a Restricted Subsidiary owns an equity interest in or otherwise controls such Restricted Subsidiary or Person;

(6) the issuance or sale of any Capital Stock (other than Disqualified Stock) of the Company;

(7) any agreement as in effect on the Issue Date and described in this Prospectus Supplement (or described in a document incorporated by reference in this Prospectus Supplement) or any renewals or extensions of any such agreement (so long as such renewals or extensions are not less favorable in any material respect to the Company or the Restricted Subsidiaries) and the transactions evidenced thereby;

(8) the provision of services to directors or officers of the Company or any of its Restricted Subsidiaries of the nature provided by the Company or any of its Restricted Subsidiaries to customers in the ordinary course of business; and

(9) transactions effected as a part of a Qualified Receivables Transaction.

Limitation on liens

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur or permit to exist any Lien (the *Initial Lien*) of any nature whatsoever on any of its properties (including Capital Stock of a Restricted Subsidiary), whether owned at the Issue Date

Table of Contents

or thereafter acquired, securing any Indebtedness, other than Permitted Liens, without effectively providing that the Notes shall be secured equally and ratably with (or prior to) the obligations so secured for so long as such obligations are so secured.

Any Lien created for the benefit of the Holders of the Notes pursuant to the preceding sentence shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon the release and discharge of the Initial Lien.

Limitation on sale/leaseback transactions

The Company will not, and will not permit any Restricted Subsidiary to, enter into any Sale/Leaseback Transaction with respect to any property unless:

(1) the Company or such Restricted Subsidiary would be entitled to (A) Incur Indebtedness in an amount equal to the Attributable Debt with respect to such Sale/Leaseback Transaction pursuant to the covenant described under *Limitation on indebtedness* and (B) create a Lien on such property securing such Attributable Debt without equally and ratably securing the Notes pursuant to the covenant described under *Limitation on liens* ;

(2) the gross proceeds received by the Company or any Restricted Subsidiary in connection with such Sale/Leaseback Transaction are at least equal to the Fair Market Value of such property; and

(3) the Company applies the proceeds of such transaction in compliance with the covenant described under *Limitation on sale of assets and subsidiary stock* .

Merger and consolidation

The Company will not consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, directly or indirectly, all or substantially all its assets to, any Person, unless:

(1) the resulting, surviving or transferee Person (the *Successor Company*) shall be a Person organized and existing under the laws of the United States of America, any State thereof or the District of Columbia and the Successor Company (if not the Company) shall expressly assume, by an indenture supplemental thereto, executed and delivered to the Trustee, in form satisfactory to the Trustee, all the obligations of the Company under the Notes and the Indenture;

(2) immediately after giving *pro forma* effect to such transaction (and treating any Indebtedness which becomes an obligation of the Successor Company or any Subsidiary as a result of such transaction as having been Incurred by such Successor Company or such Subsidiary at the time of such transaction), no Default shall have occurred and be continuing;

(3) immediately after giving *pro forma* effect to such transaction, (A) the Successor Company would be able to Incur an additional \$1.00 of Indebtedness pursuant to paragraph (a) of the covenant described under *Limitation on indebtedness* or (B) the Consolidated Coverage Ratio for the Successor Company would be greater than such ratio for the Company and its Restricted Subsidiaries immediately prior to such transaction; and

(4) the Company shall have delivered to the Trustee an Officers Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture,

Table of Contents

provided, however, that clause (3) will not be applicable to (A) a Restricted Subsidiary consolidating with, merging into or transferring all or part of its properties and assets to the Company (so long as no Capital Stock of the Company is distributed to any Person) or (B) the Company merging with an Affiliate of the Company solely for the purpose and with the sole effect of reincorporating the Company in another jurisdiction.

For purposes of this covenant, the sale, lease, conveyance, assignment, transfer or other disposition of all or substantially all of the properties and assets or one or more Subsidiaries of the Company, which properties and assets, if held by the Company instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Company on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

The Successor Company will be the successor to the Company and shall succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture, and the predecessor Company, except in the case of a lease, shall be released from the obligation to pay the principal of and interest on the Notes.

Future guarantors

The Company will cause each Restricted Subsidiary that (a) Guarantees any Indebtedness of the Company or any Subsidiary Guarantor (other than Indebtedness permitted to be Incurred pursuant to clause (2), (8) or (9) of paragraph (b) of the covenant described under Limitation on indebtedness) or (b) Incurs any Indebtedness other than Eligible Indebtedness, to, at the same time, execute and deliver to the Trustee a Guaranty Agreement pursuant to which such Restricted Subsidiary will Guarantee payment of the Notes on the same terms and conditions as those set forth in the Indenture.

SEC reports

Whether or not the Company is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will file with the SEC (subject to the next sentence) and provide the Trustee and Noteholders with such annual and other reports as are specified in Sections 13 and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such reports to be so filed and provided at the times specified for the filings of such reports under such Sections and containing all the information, audit reports and exhibits required for such reports. If at any time, the Company is not subject to the periodic reporting requirements of the Exchange Act for any reason, the Company will nevertheless continue filing the reports specified in the preceding sentence with the SEC within the time periods required unless the SEC will not accept such a filing. The Company agrees that it will not take any action for the purpose of causing the SEC not to accept any such filings. If, notwithstanding the foregoing, the SEC will not accept such filings for any reason, the Company will post the reports specified in the preceding sentence on its website within the time periods that would apply if the Company were required to file those reports with the SEC. At any time that any of the Company's Subsidiaries are Unrestricted Subsidiaries, then the quarterly and annual financial information required by the preceding paragraph will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in *Management's Discussion and Analysis of Financial Condition and Results of Operations*, of the financial condition and results of operations of the Company and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Company.

Defaults

Each of the following is an Event of Default under the Indenture governing the Notes:

- (1) a default in the payment of interest on the Notes when due, continued for 30 days;
- (2) a default in the payment of principal of any Note when due at its Stated Maturity, upon optional redemption, upon required purchase, upon declaration of acceleration or otherwise;
- (3) the failure by the Company to comply with its obligations under Certain covenants Merger and consolidation above;
- (4) the failure by the Company or any Subsidiary Guarantor to comply for 60 days after notice with its agreements contained in the Indenture;
- (5) Indebtedness of the Company, any Subsidiary Guarantor or any Significant Subsidiary is not paid within any applicable grace period after final maturity or is accelerated by the holders thereof because of a default and the total amount of such Indebtedness unpaid or accelerated exceeds \$50 million (the *cross acceleration provision*);
- (6) certain events of bankruptcy, insolvency or reorganization of the Company, a Subsidiary Guarantor or any Significant Subsidiary (the *bankruptcy provisions*);
- (7) any judgment or decree for the payment of money in excess of \$50 million is entered against the Company, a Subsidiary Guarantor or any Significant Subsidiary, remains outstanding for a period of 60 consecutive days following such judgment and is not discharged, waived or effectively stayed (the *judgment default provision*); or
- (8) a Subsidiary Guarantee ceases to be in full force and effect (other than in accordance with the terms of such Subsidiary Guarantee) or a Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee.

However, a default under clause (4) will not constitute an Event of Default until the Trustee or the holders of 25% in principal amount of the outstanding Notes notify the Company of the default and the Company does not cure such default within the time specified after receipt of such notice.

If an Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in principal amount of the outstanding Notes may declare the principal of and accrued but unpaid interest on all the Notes to be due and payable. Upon such a declaration, such principal and interest shall be due and payable immediately. If an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company occurs and is continuing, the principal of and interest on all the Notes will *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the Trustee or any holders of the Notes. Under certain circumstances, the holders of a majority in principal amount of the outstanding Notes may rescind any such acceleration with respect to the Notes and its consequences.

In the case of any Event of Default occurring by reason of any willful action (or inaction) taken (or not taken) by or on behalf of the Company with the intention of avoiding payment of the premium that the Company would have had to pay if the Company then had elected to redeem the Notes pursuant to the optional redemption provisions of the Indenture, an equivalent premium will also become and be immediately due and payable to the extent permitted by law upon the acceleration of the Notes.

Table of Contents

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the holders of the Notes unless such holders have offered to the Trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such holder has previously given the Trustee notice that an Event of Default is continuing;
- (2) holders of at least 25% in principal amount of the outstanding Notes have requested the Trustee to pursue the remedy;
- (3) such holders have offered the Trustee reasonable security or indemnity against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) holders of a majority in principal amount of the outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other holder of a Note or that would involve the Trustee in personal liability.

If a Default occurs, is continuing and is known to the Trustee, the Trustee must mail to each holder of the Notes notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal or interest on any Note, the Trustee may withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is not opposed to the interest of the holders of the Notes. In addition, we are required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. We are required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any event that would constitute certain Defaults, their status and what action we are taking or propose to take in respect thereof.

Amendments and waivers

Subject to certain exceptions, the Indenture may be amended with the consent of the holders of a majority in principal amount of the Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange for, the Notes) and any past default or compliance with any provisions may also be waived with the consent of the holders of a majority in principal amount of the Notes then outstanding. However, without the consent of each holder of an outstanding Note affected thereby, an amendment or waiver may not, among other things:

- (1) reduce the amount of Notes whose holders must consent to an amendment;
- (2) reduce the rate of or extend the time for payment of interest on any Note;

Table of Contents

- (3) reduce the principal of or change the Stated Maturity of any Note;
- (4) (i) reduce the amount payable upon the redemption of any Note or (ii) change the time at which any Note may be redeemed, in each case as described under Optional redemption above;
- (5) make any Note payable in money other than that stated in the Note;
- (6) impair the right of any holder of the Notes to receive payment of principal of and interest on such holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such holder's Notes;
- (7) make any change in the amendment provisions that require each holder's consent or in the waiver provisions;
- (8) make any change in the ranking or priority of any Note that would adversely affect the Noteholders; or
- (9) make any change in, or release other than in accordance with the Indenture, any Subsidiary Guarantee that would adversely affect the Noteholders.

Notwithstanding the preceding, without the consent of any holder of the Notes, the Company, the Subsidiary Guarantors and Trustee may amend the Indenture:

- (1) to cure any ambiguity, omission, defect or inconsistency;
- (2) to provide for the assumption by a successor corporation of the obligations of the Company or any Subsidiary Guarantor under the Indenture;
- (3) to provide for uncertificated Notes in addition to or in place of certificated Notes (provided that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated Notes are described in Section 163(f)(2)(B) of the Code);
- (4) to add Guarantees with respect to the Notes, including any Subsidiary Guaranties, or to secure the Notes;
- (5) to add to the covenants of the Company or a Subsidiary Guarantor for the benefit of the holders of the Notes or to surrender any right or power conferred upon the Company or a Subsidiary Guarantor;
- (6) to make any change that does not adversely affect the rights of any holder of the Notes;
- (7) to conform the text of the Indenture or the Notes to any provision of this Description of notes to the extent that such provision in this Description of notes was intended to be a verbatim recitation of a provision of the Indenture or the Notes;
- (8) to comply with any requirement of the SEC in connection with the qualification of the Indenture under the Trust Indenture Act; or
- (9) to make any amendment to the provisions of the Indenture relating to the transfer and legending of Notes; *provided, however*, that (a) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any other

Table of Contents

applicable securities law and (b) such amendment does not materially and adversely affect the rights of Holders to transfer Notes.

The consent of the holders of the Notes is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

After an amendment under the Indenture becomes effective, the Company shall be required to mail to holders of the Notes a notice briefly describing such amendment. However, the failure to give such notice to all holders of such Notes, or any defect therein, will not impair or affect the validity of the amendment.

Neither the Company nor any Affiliate of the Company may, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to all Holders of such Notes and is paid to all Holders of such Notes that so consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

Transfer

The Notes will be issued in registered form and will be transferable only upon the surrender of the Notes being transferred for registration of transfer. We may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection with certain transfers and exchanges.

Satisfaction and discharge

When we (1) deliver to the Trustee all outstanding Notes for cancellation or (2) all outstanding Notes have become due and payable, whether at maturity or on a redemption date as a result of the mailing of notice of redemption, and, in the case of clause (2), we irrevocably deposit with the Trustee funds sufficient to pay at maturity or upon redemption all outstanding Notes, including interest thereon to maturity or such redemption date, and if in either case we pay all other sums payable under the Indenture by us, then the Indenture shall, subject to certain exceptions, cease to be of further effect.

Defeasance

At any time, we may terminate all our obligations under the Notes and the Indenture (*legal defeasance*), except for certain obligations, including those respecting the defeasance trust and obligations to register the transfer or exchange of the Notes, to replace mutilated, destroyed, lost or stolen Notes and to maintain a registrar and paying agent in respect of the Notes.

In addition, at any time we may terminate our obligations under *Change of control* and under the covenants described under *Certain covenants* (other than the covenant described under *Merger and consolidation*), the operation of the cross acceleration provision, the bankruptcy provisions with respect to *Subsidiary Guarantors and Significant Subsidiaries* and the judgment default provision described under *Defaults* above and the limitations contained in clause (3) of the first paragraph under *Certain covenants Merger and consolidation* above (*covenant defeasance*).

Table of Contents

We may exercise our legal defeasance option notwithstanding our prior exercise of our covenant defeasance option. If we exercise our legal defeasance option with respect to the Notes, payment of the Notes may not be accelerated because of an Event of Default with respect thereto. If we exercise our covenant defeasance option with respect to the Notes, payment of the Notes may not be accelerated because of an Event of Default specified in clause (1), (5), (6) (with respect only to Significant Subsidiaries and Subsidiary Guarantors) or (7) under Defaults above or because of the failure of the Company to comply with clause (3) of the first paragraph under Certain covenants Merger and consolidation above. If we exercise our legal defeasance option or our covenant defeasance option with respect to the Notes, each Subsidiary Guarantor under the Indenture will be released from all of its obligations with respect to its Subsidiary Guarantee in respect of the Notes.

In order to exercise either of our defeasance options with respect to the Notes, we must irrevocably deposit in trust (the *defeasance trust*) with the Trustee money or U.S. Government Obligations for the payment of principal and interest on the Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of an Opinion of Counsel to the effect that holders of the Notes will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law).

Concerning the Trustee

The Bank of Nova Scotia Trust Company of New York is to be the Trustee under the Indenture and has been appointed by the Company as Registrar and Paying Agent with regard to the Notes.

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; *provided, however*, if it acquires any conflicting interest it must either eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

The Holders of a majority in principal amount of the outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. If an Event of Default occurs (and is not cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. TO ENSURE COMPLIANCE WITH TREASURY DEPARTMENT CIRCULAR 230, HOLDERS OF NOTES ARE HEREBY NOTIFIED THAT: (A) ANY DISCUSSION OF FEDERAL TAX ISSUES IN THIS PROSPECTUS SUPPLEMENT IS NOT INTENDED OR WRITTEN TO BE RELIED UPON, AND CANNOT BE RELIED UPON, BY HOLDERS OF NOTES FOR THE PURPOSE OF AVOIDING PENALTIES THAT MAY BE IMPOSED ON HOLDERS OF NOTES UNDER THE CODE (AS DEFINED BELOW); (B) SUCH DISCUSSION IS BEING USED IN CONNECTION WITH THE PROMOTION OR MARKETING (WITHIN THE MEANING OF CIRCULAR 230) OF THE NOTES DESCRIBED HEREIN; AND (C) HOLDERS OF NOTES SHOULD SEEK ADVICE BASED ON THEIR PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

The following is a summary of certain material U.S. federal income tax consequences to non-U.S. holders (as defined below) relating to the purchase, ownership, and disposition of the notes. This discussion is based upon current provisions of the Internal Revenue Code of 1986, as amended (the *Code*), existing and proposed Treasury regulations promulgated thereunder, rulings, pronouncements, judicial decisions, and administrative interpretations of the Internal Revenue Service (the *IRS*), all of which are subject to change at any time, possibly on a retroactive basis, by legislative, judicial, or administrative action. We cannot assure you that the IRS will not challenge the conclusions stated below, and no ruling from the IRS has been (or will be) sought on any of the matters discussed below. No representation with respect to the consequences to any particular purchaser of the notes is made. Prospective purchasers should consult their independent tax advisors with respect to their particular circumstances.

The following discussion does not purport to be a complete analysis of all the potential U.S. federal income tax consequences relating to the purchase, ownership, and disposition of the notes, and does not address specific tax consequences that may be relevant to particular persons in light of their individual circumstances. This discussion is limited to the U.S. federal income tax consequences to non-U.S. holders who purchase the notes in the initial offering at their issue price and who hold such notes as capital assets (generally, property held for investment) for U.S. federal income tax purposes. In addition, this discussion does not describe any tax consequences arising under U.S. federal gift or other federal tax laws or under the tax laws of any state, local or foreign jurisdiction.

You should consult your independent tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning and disposing of the notes, as well as the application of state, local and foreign income and other tax laws.

The term *non-U.S. holder* means a holder or beneficial owner of a note (other than a partnership) that is not, for U.S. federal income tax purposes, any of the following:

an individual who is a citizen or resident of the United States for U.S. federal income tax purposes;

a corporation or other entity taxable for U.S. federal income tax purposes as a corporation created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

Table of Contents

a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or if a valid election is in effect under applicable Treasury regulations for the trust to be treated as a U.S. person.

If a partnership (or an entity treated as a partnership for U.S. federal income tax purposes) holds the notes, the tax treatment of the partnership and each partner will depend on the activities of the partnership and the activities of the partner. Partnerships acquiring notes, and partners in such partnerships, should consult their independent tax advisors.

Taxation of interest

Subject to the summary of backup withholding rules below, payments of interest on a note to any non-U.S. holder generally will not be subject to U.S. federal income or withholding tax provided that we or the person otherwise responsible for withholding U.S. federal income tax from payments on the notes receives certain required certification from the non-U.S. holder and such holder is not:

an actual or constructive owner of 10% or more of the total combined voting power of all our voting stock;

a controlled foreign corporation related, directly or indirectly, to us through stock ownership; or

receiving such interest payments as income effectively connected with the conduct by the non-U.S. holder of a trade or business within the United States.

In order to satisfy the certification requirement, the non-U.S. holder generally must provide a properly completed IRS Form W-8BEN (or substitute Form W-8BEN or the appropriate successor form) under penalties of perjury that provides the non-U.S. holder's name and address and certifies that the non-U.S. holder is not a U.S. person for U.S. federal income tax purposes.

A non-U.S. holder that does not qualify for exemption from withholding under the preceding paragraphs generally will be subject to withholding of U.S. federal income tax, currently at the rate of 30%, or lower applicable treaty rate, on payments of interest on the notes that are not effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States.

If the payments of interest on a note are effectively connected with the conduct by a non-U.S. holder of a trade or business in the United States (and, if an income tax treaty applies, are attributable to a permanent establishment), such payments will be subject to U.S. federal income tax on a net basis at the rates generally applicable to U.S. persons. If the non-U.S. holder is a corporation for U.S. federal income purposes, the dividend equivalent amount attributable to such payments also may be subject to a 30% branch profits tax. If payments are subject to U.S. federal income tax on a net basis in accordance with the rules described in the preceding two sentences, such payments will not be subject to U.S. withholding tax so long as the holder provides us, or the person who otherwise would be required to withhold U.S. federal income tax, with the appropriate certification.

In order to claim a tax treaty benefit or exemption from withholding the non-U.S. holder must provide a properly executed Form W-8BEN or W-8ECI or the appropriate successor form. Under

Table of Contents

Treasury regulations, a non-U.S. holder may under certain circumstances be required to obtain a U.S. taxpayer identification number and make certain certifications.

Non-U.S. holders should consult their independent tax advisors regarding any applicable income tax treaties, which may provide for a lower rate of withholding tax, exemption from or reduction of branch profits tax, or other rules different from those described above.

Sale, exchange, or disposition

Subject to the summary of backup withholding rules below, any gain realized by a non-U.S. holder on the sale, exchange, retirement, or other disposition of a note generally will not be subject to U.S. federal income tax, unless (i) such gain is effectively connected with the conduct by such non-U.S. holder of a trade or business within the United States (and, if an income tax treaty applies, is attributable to a permanent establishment), or (ii) the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are satisfied.

In the case described above in (i), gain or loss recognized on the disposition of such notes will generally be subject to U.S. federal income taxation in the same manner as if such gain or loss were recognized by a U.S. person (as such term is defined in the Code), and, in the case of a non-U.S. holder that is a foreign corporation, may also be subject to an additional branch profits tax at a rate of 30% (or a lower applicable treaty rate). In the case described above in (ii), the non-U.S. holder will be subject to 30% tax (or lower applicable treaty rate) on any capital gain recognized on the disposition of the notes, which may be offset by certain United States source capital losses.

Proceeds from the disposition of a note that are attributable to accrued but unpaid interest generally will be subject to, or exempt from, tax to the same extent as described above with respect to interest paid on a note.

Information reporting and backup withholding

Payments of Interest. Generally, the amount of interest paid to a non-U.S. holder and the amount of tax, if any, withheld with respect to such payments and certain other information must be reported to the IRS. Such information may also be provided to the authorities of the country in which a non-U.S. holder resides pursuant to the terms of an applicable tax treaty.

In general, backup withholding will not be required with respect to payments that we make to a non-U.S. holder if the non-U.S. holder has furnished the requisite documentation described above or otherwise establishes an exemption. Certain additional rules may apply where the notes are held through a custodian, nominee, broker, foreign partnership or foreign intermediary.

Disposition of Notes. Information reporting and backup withholding generally will not apply to the proceeds of the sale of a note made within the United States or conducted through certain United States related financial intermediaries by a non-U.S. holder if the payor receives the requisite documentation described above or the non-U.S. holder otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amount paid as backup withholding will be creditable against the non-U.S. holder's United States federal income tax liability or, in the

Table of Contents

absence thereof, eligible for refund, provided that the required information is timely furnished to the IRS. Non-U.S. holders should consult their independent tax advisors as to their qualification for exemption for backup withholding and the procedure for obtaining such an exemption.

Proposed legislation

President Obama and members of Congress have made proposals that, if enacted in their current form, would substantially revise some of the rules discussed above, including with respect to withholding taxes, certification requirements and information reporting. It cannot be predicted whether any of these proposals will be enacted and, if enacted, in what form. Prospective investors should consult their independent tax advisers regarding these proposals.

Table of Contents**Underwriting**

J.P. Morgan Securities Inc., Barclays Capital Inc. and Goldman, Sachs & Co. are acting as the representatives of the underwriters named below. Subject to the terms and conditions in the underwriting agreement between us and J.P. Morgan Securities Inc., on behalf of the several underwriters, we have agreed to sell to each underwriter, and each underwriter has severally agreed to purchase from us, the principal amount of notes that appears opposite its name in the table below:

Underwriter	Principal amount
J.P. Morgan Securities Inc.	\$ 116,000,000
Barclays Capital Inc.	87,000,000
Goldman, Sachs & Co.	87,000,000
Total	\$ 290,000,000

The underwriting agreement provides that the underwriters will purchase all of the notes if any of them are purchased.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus. The underwriters may offer the notes to selected dealers at the public offering price minus a concession of up to 0.375% of the principal amount of the notes. In addition, the underwriters may allow, and those selected dealers may reallow, a concession of up to 0.25% of the principal amount of the notes to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

In the underwriting agreement, we have agreed that:

We will not offer or sell any of our debt securities (other than the notes) for a period of 90 days after the date of this prospectus supplement without the prior consent of J.P. Morgan Securities Inc.

We will pay our expenses related to the offering, which we estimate will be \$650,000.

We will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time in their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

Table of Contents

It is expected that delivery of the notes will be made against payment therefor on or about the closing date specified on the cover page of this prospectus supplement, which will be the tenth business day following the date of pricing of the notes (this settlement cycle being referred to as T+9). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next five succeeding business days will be required, by virtue of the fact that the notes initially will settle in T+9, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date prior to their delivery should consult their own advisor.

In connection with the offering of the notes, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

Certain of the underwriters and their affiliates perform various financial advisory, investment banking and commercial banking services from time to time for us and our affiliates, for which they have received customary fees and expense reimbursements. JPMorgan Chase Bank, N.A., an affiliate of J.P. Morgan Securities Inc., is a lender, the administrative agent and the collateral agent under our senior secured credit facilities. Goldman Sachs Credit Partners L.P., an affiliate of Goldman, Sachs & Co., is a lender and co-documentation agent under our senior secured credit facilities. Barclays Bank plc, an affiliate of Barclays Capital Inc., is a lender under our senior secured credit facilities. In connection with acting as lenders, administrative agent, collateral agent or co-documentation agent, as the case may be, under our senior secured credit facilities, J.P. Morgan Securities Inc., Goldman, Sachs & Co., Barclays Capital Inc. and their respective affiliates each receive customary fees and expense reimbursements. In addition, affiliates of Goldman, Sachs & Co. and J.P. Morgan Securities Inc. are parties to an interest rate swap with us. J.P. Morgan Securities Inc. is acting as the dealer manager and solicitation agent in connection with our tender offer and consent solicitation for any and all of our outstanding 2014 Notes. Certain of the underwriters or their respective affiliates may own notes that are validly tendered into our tender offer, and deliver the related consents, and will be eligible to receive the consideration payable to holders of notes that are accepted for purchase in the tender offer and payments in respect of such consents.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a *Relevant Member State*), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the *Relevant Implementation Date*), each underwriter has not made and will not make an offer of notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus

For the purposes of this provision, the expression an offer of notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/171/EC and includes any relevant implementing measure in each Relevant Member State.

Each underwriter has represented and agreed that it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000) received by it in connection with the issue or sale of any notes in circumstances in which Section 21(1) of the Financial Services and Markets Act 2000 does not apply to the Company and that it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

The notes may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to notes which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

The notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has

agreed that it will not offer or sell any notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the *SFA*), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Dividends. Holders of common stock are entitled to receive dividends when, as and if declared by the Company's board of directors out of assets legally available for the payment of dividends.

Liquidation. In the event of a liquidation, dissolution or winding up of the Company's affairs, whether voluntary or involuntary, after payment of our liabilities and obligations to creditors, the Company's remaining assets will be distributed ratably among the holders of the common stock on a per share basis. If there is any preferred stock outstanding at such time, holders of the preferred stock may be entitled to distribution and/or liquidation preferences. In either case, the Company will need to pay the applicable distribution to the holders of preferred stock before distributions are paid to the holders of the common stock.

Rights and preferences. The common stock has no preemptive, redemption, conversion or subscription rights. The rights, powers, preferences and privileges of holders of the common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that the Company may designate and issue in the future.

Description of preferred stock

Our board of directors has the authority, without further shareholder approval, to issue shares of preferred stock from time to time in one or more series, with such voting powers or without voting powers, and with such designations, preferences and relative participating, optional or other special rights, and qualifications, limitations or restrictions thereof adopted by our board of directors, as shall be expressed in the resolutions providing therefor. A prospectus supplement relating to any series of preferred stock being offered will include specific terms relating to the offering. They will include:

the title and stated value of the preferred stock;

the price or prices at which the preferred stock may be purchased;

the number of shares of the preferred stock offered, the liquidation preference per share and the offering price of the preferred stock;

the dividend rate(s), period(s), and/or payments date(s) or method(s) of calculation thereof applicable to the preferred stock;

Table of Contents

whether dividends shall be cumulative or non cumulative and, if cumulative, the date from which the dividends on the preferred stock shall accumulate;

the procedures for an auction and remarketing, if any, for the preferred stock;

the provisions for a sinking fund, if any, for the preferred stock;

the voting rights of the preferred stock;

the provisions for redemption, if applicable, of the preferred stock;

if appropriate, a discussion of the United States federal income tax considerations applicable to the preferred stock;

the ranking of the preferred stock relative to the common stock and any outstanding series of preferred stock; and

any other specific terms, preferences, rights, limitations or restrictions of the preferred stock.

Unless otherwise stated in a prospectus supplement relating to the series of preferred stock being offered, holders of our preferred stock will have no preemptive rights.

The issuance of preferred stock could adversely affect the voting power of holders of common stock, as well as dividend and liquidation payments on both common and preferred stock. It also could have the effect of delaying, deferring or preventing a change in control.

The terms, if any, on which the preferred stock may be convertible into common stock or exchangeable for other securities will be detailed in the prospectus supplement. The terms will include provisions as to whether conversion or exchange is mandatory, at the option of the holder, or at our option, and may include provisions pursuant to which the number of shares of common stock or other securities to be received by the holders of preferred stock would be subject to adjustment.

General

One or more series of debt securities may be sold as original issue discount securities. These debt securities would be sold at a substantial discount below their stated principal amount, bearing no interest or interest at a rate which at the time of issuance is below market rates. One or more series of debt securities may be variable rate debt securities that may be exchanged for fixed rate debt securities.

Table of Contents

United States federal income tax consequences and special considerations, if any, applicable to any such series will be described in the applicable prospectus supplement.

Debt securities may be issued where the amount of principal and/or interest payable is determined by reference to one or more currency exchange rates, commodity prices, equity indices or other factors. Holders of such debt securities may receive a principal amount or a payment of interest that is greater than or less than the amount of principal or interest otherwise payable on such dates, depending upon the value of the applicable currencies, commodities, equity indices or other factors. Information as to the methods for determining the amount of principal or interest, if any, payable on any date, the currencies, commodities, equity indices or other factors to which the amount payable on such date is linked and certain additional United States federal income tax considerations will be set forth in the applicable prospectus supplement.

The term *debt securities* includes debt securities denominated in U.S. dollars or, if specified in the applicable prospectus supplement, in any other freely transferable currency or units based on or relating to foreign currencies.

We expect most debt securities to be issued in fully registered form without coupons and in denominations of \$2,000 and any integral multiples thereof. Subject to the limitations provided in the indenture and in the prospectus supplement, debt securities that are issued in registered form may be transferred or exchanged at the principal corporate trust office of the trustee, without the payment of any service charge, other than any tax or other governmental charge payable in connection therewith.

Guarantees

If specified in the applicable prospectus supplement, certain of our subsidiaries will guarantee the debt securities. Guarantees may be secured or unsecured, senior, subordinated or junior subordinated. The particular terms of any guarantee will be described in the related prospectus supplement.

Global securities

The debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depository identified in the prospectus supplement. Global securities will be issued in registered form and in either temporary or definitive form. Unless and until it is exchanged in whole or in part for the individual debt securities, a global security may not be transferred except as a whole by the depository for such global security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any such nominee to a successor of such depository or a nominee of such successor. The specific terms of the depository arrangement with respect to any debt securities of a series and the rights of and limitations upon owners of beneficial interests in a global security will be described in the applicable prospectus supplement.

Governing law

The indenture and the debt securities shall be construed in accordance with and governed by the laws of the State of New York.

Plan of distribution

We may sell the securities under this prospectus from time to time. We may sell the securities in one or more of the following ways from time to time:

to or through one or more underwriters or dealers;

in short or long transactions;

directly to investors;

through agents; or

through a combination of any of these methods of sale.

If we use underwriters or dealers in the sale, the securities will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions, including:

in privately negotiated transactions;

in one or more transactions at a fixed price or prices, which may be changed from time to time;

in at the market offerings, within the meaning of Rule 415(a)(4) of the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;

at prices related to those prevailing market prices; or

at negotiated prices.

We, and our underwriters, dealers or agents, reserve the right to accept or reject all or part of any proposed purchase of the securities. We will set forth in a prospectus supplement the terms and offering of securities, including:

the names of any underwriters, dealers or agents;

any agency fees or underwriting discounts or commissions and other items constituting agents or underwriters compensation;

any discounts or concessions allowed or reallocated or paid to dealers;

details regarding over-allotment options under which underwriters may purchase additional securities from us, if any;

the purchase price of the securities being offered and the proceeds we will receive from the sale;

the public offering price; and

the securities exchanges on which such securities may be listed, if any.

We may enter into derivative transactions with third parties or sell securities not covered by this prospectus to third parties in privately negotiated transactions from time to time. If the applicable prospectus supplement indicates, in connection with those derivative transactions, such third parties (or affiliates of such third parties) may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, such third parties (or affiliates of such third parties) may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of securities, and may use securities received from us in settlement of those derivative transactions to close out any related open borrowings of securities. The third parties (or affiliates of such third parties) in such sale transactions will be underwriters and will be identified in an applicable prospectus supplement (or a post-effective amendment).

We may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus and an applicable prospectus supplement. Such financial institution or third party may transfer its economic short position to investors in our securities or in connection with a simultaneous offering of other securities offered by this prospectus.

Table of Contents

Underwriters, Agents and Dealers. If underwriters are used in the sale of our securities, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions described above. The securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by underwriters. Generally, the underwriters obligations to purchase the securities will be subject to conditions precedent and the underwriters will be obligated to purchase all of the securities if they purchase any of the securities. We may use underwriters with which we have a material relationship. We will describe in the prospectus supplement, naming the underwriter, the nature of any such relationship.

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase our securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Underwriters, dealers and agents may contract for or otherwise be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments made by the underwriters, dealers or agents, under agreements between us and the underwriters, dealers and agents.

We may grant underwriters who participate in the distribution of our securities an option to purchase additional securities to cover over-allotments, if any, in connection with the distribution.

Underwriters, dealers or agents may receive compensation in the form of discounts, concessions or commissions from us or our purchasers, as their agents in connection with the sale of our securities. These underwriters, dealers or agents may be considered to be underwriters under the Securities Act. As a result, discounts, commissions or profits on resale received by the underwriters, dealers or agents may be treated as underwriting discounts and commissions. The prospectus supplement will identify any such underwriter, dealer or agent and describe any compensation received by them from us. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

Any underwriter may engage in over-allotment transactions, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short-covering transactions involve purchases of our securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. We make no representation or prediction as to the direction or magnitude of any effect these transactions may have on the price of our securities. For a description of these activities, see the information under the heading *Underwriting* in the applicable prospectus supplement.

Underwriters, broker-dealers or agents who may become involved in the sale of our securities may engage in transactions with and perform other services for us for which they receive compensation.

Stabilization Activities. In connection with an offering through underwriters, an underwriter may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters option to purchase additional securities from us in the offering, if any. If the underwriters have an over-allotment option to purchase additional securities from us, the underwriters may

Table of Contents

consider, among other things, the price of securities available for purchase in the open market as compared to the price at which they may purchase securities through the over-allotment option. Naked short sales are any sales in excess of such option or where the underwriters do not have an over-allotment option. The underwriters must close out any naked short position by purchasing securities in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the securities in the open market after pricing that could adversely affect investors who purchase in the offering.

Accordingly, to cover these short sales positions or to otherwise stabilize or maintain the price of the securities, the underwriters may bid for or purchase securities in the open market and may impose penalty bids. If penalty bids are imposed, selling concessions allowed to syndicate members or other broker-dealers participating in the offering are reclaimed if securities previously distributed in the offering are repurchased, whether in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the securities to the extent that it discourages resale of the securities. The magnitude or effect of any stabilization or other transactions is uncertain.

Direct Sales. We may also sell securities directly to one or more purchasers without using underwriters or agents. In this case, no agents, underwriters or dealers would be involved. We may sell securities upon the exercise of rights that we may issue to our securityholders. We may also sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities.

Trading Market and Listing of Securities. Any common stock sold pursuant to a prospectus supplement will be listed on the New York Stock Exchange. The securities other than common stock may or may not be listed on a national securities exchange. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot give any assurance as to the liquidity of the trading market for any of the securities.

Any debt securities sold pursuant to a prospectus supplement will be new issues of securities with no established trading market and, unless otherwise specified in the applicable prospectus supplement, we will not list any series of the debt securities on any exchange. It has not presently been established whether the underwriters, if any, of the debt securities will make a market in the debt securities. If the underwriters make a market in the debt securities, such market making may be discontinued at any time without notice. No assurance can be given as to the liquidity of the trading market for the debt securities.
