**BANCFIRST CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**(1) GENERAL**

The accompanying consolidated financial statements include the accounts of BancFirst Corporation, Council Oak Partners, LLC, Wilcox Jones & McGrath, Inc., First State Bank (Jones), and BancFirst and its subsidiaries (the Company). The operating subsidiaries of BancFirst are Council Oak Investment Corporation, BancFirst Agency, Inc., Lenders Collection Corporation, BancFirst Community Development Corporation and Council Oak Real Estate, Inc. All significant intercompany accounts and transactions have been eliminated. Assets held in a fiduciary or agency capacity are not assets of the Company and, accordingly, are not included in the consolidated financial statements.

The unaudited interim financial statements contained herein reflect all adjustments which are, in the opinion of management, necessary to provide a fair statement of the financial position and results of operations of the Company for the interim periods presented. All such adjustments are of a normal and recurring nature. There have been no significant changes in the accounting policies of the Company since December 31, 2008, the date of the most recent annual report.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States inherently involves the use of estimates and assumptions that affect the amounts reported in the financial statements and the related disclosures. These estimates relate principally to the determination of the allowance for loan losses, income taxes and the fair values of financial instruments. Such estimates and assumptions may change over time and actual amounts realized may differ from those reported.

**(2) RECENT ACCOUNTING PRONOUNCEMENTS**

In June 2009, the FASB issued FAS No. 168 ( FAS 168 ), The FASB Accounting Standards Codification ( ASC ) and the Hierarchy of Generally Accepted Accounting Principles, a Replacement of FASB Statement No. 162 which replaces FAS No. 162 ( FAS 162 ) The Hierarchy of Generally Accepted Accounting Principles . FAS 168 establishes the FASB Accounting Standards Codification ( ASC ) as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with generally accepted accounting principles. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative guidance for SEC registrants. All guidance contained in the Codification carries an equal level of authority. All non-grandfathered, non-SEC accounting literature not included in the Codification is superseded and deemed non-authoritative. FAS 168 was effective for the Company's financial statements for periods ending after September 15, 2009. FAS 168 was subsequently incorporated into FASB ASC Topic 105, reported as FASB Accounting Standards Update 2009-01, and did not have a significant impact on the Company's financial statements.

In May 2009, the FASB issued FAS No. 165 ( FAS 165 ), Subsequent Events to provide authoritative accounting guidance on management's assessment of subsequent events. FAS 165 incorporates existing U.S. auditing literature and clarifies that management is responsible for evaluating, as of each reporting period, events or transactions that occur after the balance sheet date through the date that the financial statements are issued or are available to be issued. FAS 165 is effective for the Company as of June 30, 2009. The adoption of FAS 165 did not have a significant impact on the Company's financial statements. The Company evaluated its December 31, 2009 financial statements for subsequent events through February 17, 2010, the filing date of this report. The Company is not aware of any subsequent events which would require recognition or disclosure in the financial statements. FAS 165 was subsequently incorporated into FASB ASC Topic 855.

In April 2009, the FASB issued three FASB Staff Positions ( FSP ):

FAS No. 115-2 and FAS No. 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments* amends the other-than-temporary impairment guidance under U.S. GAAP for debt securities to make the guidance more operational and improve the presentation and disclosure in the financial statements. The FSP specifies that if a company does not have the intent to sell a debt security prior to recovery and it is more likely than not that it will not have to sell the debt security prior to recovery, the security would not be considered other-than-temporarily impaired unless there is a credit loss. The credit loss component of an other-than-temporarily impaired debt security must be determined based on the company's best estimate of cash flows expected to be collected. FAS No. 115-2 and FAS No. 124-2 were subsequently incorporated into FASB ASC Topic 320.

FAS No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That are Not Orderly* provides additional guidance for estimating fair value in accordance with FAS No. 157, *Fair Value Measurements*, when the volume and level of activity for the asset and liability have significantly decreased and for identifying circumstances that indicate a transaction is not orderly. FAS 157 does not prescribe a methodology for making significant adjustments to transactions or quoted prices when estimating fair value in these situations but this FSP states that a change in valuation technique or the use of multiple valuation techniques may be appropriate. FAS No. 157-4 was subsequently incorporated into FASB ASC Topic 820.

FAS No. 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments* requires companies to provide the same fair value of financial instruments disclosures presently required on an annual basis on a quarterly interim basis. FAS No. 107-1 and APB 28-1 were subsequently incorporated into FASB ASC Topic 820.

These three FSP's were effective for the interim and annual periods ending after June 15, 2009. Subsequent incorporation in FASB ASC topics did not have a significant impact on the Company's financial statements.

In March 2008, the FASB issued FAS No. 161 ( FAS 161 ), *Disclosures About Derivative Instruments and Hedging Activities, an Amendment of FASB Statement No. 133* which amends *Accounting for Derivative Instruments and Hedging Activities*. FAS 161 amended and expanded the disclosure requirements of FAS 133 to provide greater transparency about (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedge items are accounted for under FAS 133 and its related interpretations, and (iii) how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. To meet those objectives, FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative agreements. FAS 161 was effective for the Company on January 1, 2009, subsequently incorporated into FASB ASC Topic 815, and did not have a significant impact on the Company's financial statements.

Effective January 1, 2008, the Company adopted the provisions of FAS No. 157 ( FAS 157 ), *Fair Value Measurements*, for financial assets and financial liabilities. In accordance with FSP No. 157-2, *Effective Date of FASB Statement No. 157*, the Company delayed the application of FAS 157 for non-financial assets and non-financial liabilities to January 1, 2009. FAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. The Company adopted FAS 157, with the exception of non-financial assets and non-financial liabilities as provided by FAS 157-2, with no significant impact on the Company's financial statements. Effective January 1, 2009, the Company adopted the provisions of SFAS 157-2, which was subsequently incorporated into FASB ASC Topic 820, with no significant impact on the Company's financial statements.

In December 2007, the FASB issued FAS No. 141R, *Business Combinations* ( FAS 141R ), which establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. This statement also establishes disclosure requirements to enable financial statement users to evaluate the nature and financial effects of the business combination. FAS 141R applies prospectively to business combinations for which the acquisition date is on or after fiscal years beginning after December 15, 2008. FAS 141R was effective for the Company's fiscal year beginning January 1, 2009, subsequently incorporated into FASB ASC Topic 805, and did not have a material effect on the Company's December 8, 2009 acquisition.

**(3) RECENT DEVELOPMENTS; MERGERS, ACQUISITIONS AND DISPOSALS**

In March 2008, the Company, as a member bank of Visa, recorded a \$1.8 million pre-tax gain from the mandatory partial redemption of the Company's Visa shares received in the first quarter initial public offering. The gain was included in gain on sale of other assets.

In April 2008, the Company completed an \$80 million sale of securities resulting in a securities pre-tax gain of \$6.1 million. The transaction resulted in the sale of \$80 million of US Treasury securities and the purchase of Government Sponsored Enterprises (GSE) senior debt securities of similar amounts and maturities. The after-tax impact of these transactions was approximately \$3.3 million for the year ended December 31, 2008.

In November 18, 2008, the Company announced it would not accept funds from the U.S. Treasury's Capital Purchase Program due to current capital levels that exceeded well-capitalized guidelines and the potential for additional governmental regulation related to the program. Also, the Company did not elect to participate in the Debt Guarantee Program for newly issued senior unsecured debt. The Company did elect to participate in the Transaction Account Guarantee Program for extended coverage on non-interest bearing transaction deposit accounts.

On May 22, 2009, the FDIC imposed a Special Assessment on member financial institutions that was based on June 30, 2009 assets less tier one capital. The amount of \$1.9 million was paid on September 30, 2009.

On December 8, 2009, the Company completed the acquisition of First Jones Bancorporation. On November 30, 2009, First State Bank, Jones, the subsidiary bank, had approximately \$36 million in assets, \$31 million in deposits, and \$4.5 million in equity capital. The acquisition was accounted for under the acquisition method. First State Bank, Jones will operate as a subsidiary of BancFirst Corporation until it is merged into the BancFirst system, which is expected to be during the first quarter of 2010. The acquisition will enhance the presence of BancFirst in eastern Oklahoma County.

On December 30, 2009, the Company prepaid \$19.0 million in FDIC insurance premiums for the years 2010 through 2012. The prepayment will be applied to the quarterly assessments during the same period.

The Company's loans are mostly to customers within Oklahoma and over half of the loans are secured by real estate. Credit risk on loans is managed through limits on amounts loaned to individual borrowers, underwriting standards and loan monitoring procedures. The amounts and types of collateral obtained to secure loans are based upon the Company's underwriting standards and management's credit evaluation. Collateral varies, but may include real estate, vehicles, equipment, accounts receivable, inventory, livestock and securities. The Company's interest in collateral is secured through filing mortgages and liens, and in some cases, by possession of the collateral.

Loans held for sale as of December 31, 2009 include \$82.4 million of guaranteed student loans due to a change in the intention of management based on structural changes in the Student Loan Program. Student loans are classified as consumer loans in the preceding table and valued at the lower of cost or market.

The amount of estimated loss due to credit risk in the Company's loan portfolio is provided for in the allowance for loan losses. The amount of the allowance required to provide for all existing losses in the loan portfolio is an estimate based upon evaluations of loans, appraisals of collateral and other estimates which are subject to rapid change due to changing economic conditions and the economic prospects of borrowers. It is reasonably possible that a material change could occur in the estimated allowance for loan losses in the near term.

Changes in the allowance for loan losses are summarized as follows:

	Three Months Ended December 31,		Year Ended December 31,

**(7) COMMITMENTS AND CONTINGENT LIABILITIES**

During the third quarter of 2009, the Company was advised by the State of Oklahoma of a demand for payment of \$2.3 million related to an embezzlement conducted by an employee of the state who deposited stolen checks into an account at BancFirst that was opened under false pretenses. The Company settled the demand on February 9, 2010. The settlement did not have a material effect on the Company's financial statements.

**(8) CAPITAL**

The Company is subject to risk-based capital guidelines issued by the Board of Governors of the Federal Reserve System. These guidelines are used to evaluate capital adequacy and involve both quantitative and qualitative evaluations of the Company's assets, liabilities, and certain off-balance-sheet items calculated under regulatory practices. Failure to meet the minimum capital requirements can initiate certain mandatory or discretionary actions by the regulatory agencies that could have a direct material effect on the Company's financial statements. The required minimums and the Company's respective ratios are shown in the following table.

	Minimum Required	December 31,	
		2009	2008
		(dollars in thousands)	
Tier 1 capital		\$ 403,875	\$ 383,255
Total capital		\$ 440,258	\$ 418,710
Risk-adjusted assets		\$ 2,942,152	\$ 2,988,538
Leverage ratio	3.00%	9.23%	10.02%
Tier 1 capital ratio	4.00%	13.73%	12.61%
Total capital ratio	8.00%	14.96%	13.78%

To be well capitalized under federal bank regulatory agency definitions, a depository institution must have a Tier 1 Ratio of at least 6%, a combined Tier 1 and Tier 2 Ratio of at least 10%, and a Leverage Ratio of at least 5%. As of December 31, 2009 and 2008, the Company was considered to be well capitalized. There are no conditions or events since the most recent notification of the Company's capital category that management believes would change its category.

**(9) STOCK REPURCHASE PLAN**

In November 1999, the Company adopted a new Stock Repurchase Program (the SRP) authorizing management to repurchase up to 600,000 shares of the Company's common stock. The SRP was amended in May 2001, August of 2002, and September of 2007 to increase the shares authorized to be purchased by 555,832 shares, 364,530 shares and 366,948 shares, respectively. The SRP may be used as a means to increase earnings per share and return on equity, to purchase treasury stock for the exercise of stock options or for distributions under the Deferred Stock Compensation Plan, to provide liquidity for optionees to dispose of stock from exercises of their stock options, and to provide liquidity for shareholders wishing to sell their stock. The timing, price and amount of stock repurchases under the SRP may be determined by management and must be approved by the Company's Executive Committee. At December 31, 2009 there were 560,000 shares remaining that could be repurchased under the SRP. The following table is a summary of the shares repurchased under the program.
