Notes

The United States federal income tax basis of the Fund s investments and the net unrealized appreciation as of January 31, 2010 were as follows:

			Net
Tax Basis of			Unrealized
Investment	Appreciation	Depreciation	Appreciation
\$ 188,592,308	\$ 12,768,342	\$ 2,157,799	\$ 10,610,543

The Fund s investments are carried at fair value which is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The three-tier hierarchy of inputs established to classify fair value measurements for disclosure purposes is summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.)
- Level 3 significant unobservable inputs (including the Funds own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. The Fund values its fixed income securities by using market quotations, prices provided by market makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics in accordance with procedures established by the Board of Directors of the Fund. The relative liquidity of some securities in the Fund s portfolio may adversely affect the ability of the Fund to accurately value such securities. Any securities or other assets for which such current market quotations are not readily available are valued at fair value as determined in good faith under procedures established by and under the general supervision and responsibility of the Fund s Board of Directors. Short-term investments having a maturity of 60 days or less at the time of purchase are valued on an amortized cost basis, which approximates market value.

Investments in mutual funds are valued at their net asset value as of the close of the New York Stock Exchange on the date of valuation.

The following is a summary of the inputs used to value each of the Fund s investments as of January 31, 2010:

Valuations	Level 1	Level 2	Level 3
Description			
Assets:			
Municipal Bonds	\$	\$ 195,451,862	\$
Money Market Fund		3,750,989	
Total	\$	\$ 199.202.851	\$
