**Item 7.01 Regulation FD Disclosure**

On July 26, 2010, Windstream Corporation ( Windstream , we or the Company ) posted to its corporate [website at www.windstream.com](http://www.windstream.com) certain unaudited results of operations for each of the quarters ended March 31, 2010, December 31, 2009, September 30, 2009, June 30, 2009 and March 31, 2009. These unaudited results of operations are presented on a pro forma basis to include the consolidated operating results of the Company with Iowa Telecommunication Services, Inc. ( Iowa Telecom ), which was acquired June 1, 2010. In addition, information on revenues derived from consumer, business and wholesale customers has been included along with certain key operating metrics relative to each. These pro forma results of operations represent a non-GAAP financial measure , which is defined as a numerical measure of a company s financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in the Company s financial statements. The non-GAAP financial measures used by the Company may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance or liquidity prepared in accordance with GAAP.

Windstream Corporation has completed the following transactions that may cause results reported under GAAP to be not necessarily indicative of future results:

Acquisitions

On June 1, 2010, Windstream completed the acquisition of Iowa Telecom.

On February 8, 2010, Windstream completed the acquisition of NuVox, Inc. ( NuVox )

On December 1, 2009, Windstream completed the acquisition of Lexcom, Inc. ( Lexcom ).

On November 10, 2009, Windstream completed the acquisition of D&E Communications, Inc. ( D&E ).

Dispositions

On August 21, 2009, Windstream completed the sale of its out of territory product distribution operations to Walker and Associates of North Carolina, Inc.

The unaudited consolidated results presented on a pro forma basis either include or exclude the following items when compared to measures prepared in accordance with GAAP:

Includes:

Preacquisition results of operations of acquired businesses.

Excludes:

Merger and integration costs associated with the transactions discussed above,

Results from disposed operations, and

A non-cash impairment charge totaling \$6.5 million on acquired assets held for sale.

## Edgar Filing: WINDSTREAM CORP - Form 8-K

Windstream's purpose for including the preacquisition results of acquired businesses and for excluding non-recurring items and the results of the disposed operations is to provide investors with information which reflects the true earnings capacity of the Company's current businesses.

The Company uses pro forma results as a key measure of its operational performance. Windstream management, including the chief operating decision-maker, uses these measures consistently for all purposes, including internal reporting, the evaluation of business objectives, opportunities and performance, and the determination of management compensation.

The Company's presentation of pro forma results of operations, and other communications from time to time, include a non-GAAP measure titled operating income before depreciation and amortization, or OIBDA. OIBDA can be calculated directly from the Company's financial statements by taking operating income and adding back depreciation and amortization expense. The Company will also at times make reference to pro forma OIBDA, which is also a non-GAAP measure. Pro forma OIBDA adjusts OIBDA for the items that are either included or excluded from pro forma results. Management considers OIBDA to be useful to investors because OIBDA provides information specific to the Company's operating performance.

In addition, from time to time, the Company's communications will also include the following non-GAAP measure:

Pro forma adjusted OIBDA, defined as pro forma OIBDA adjusted to exclude the impacts of pension expense, restructuring charges and stock based compensation. Pro forma adjusted OIBDA is included to provide investors with useful information about the Company's operating performance before the impacts of restructuring and certain non-cash items in order to enhance the comparability of our operating results for the periods presented.
