Dear Fellow Stockholder:

The Airgas Board has unanimously rejected Air Products' revised \$63.50 per share offer after determining that it grossly undervalues Airgas and is not in the best interests of Airgas stockholders. **On behalf of the Airgas Board of Directors, I am writing to urge you to protect your investment by promptly voting the enclosed WHITE proxy card FOR the three highly qualified Airgas Directors and AGAINST Air Products' proposed By-Law amendments. Please discard any Gold proxy cards sent to you by Air Products.**

AIR PRODUCTS' OFFER IS GROSSLY INADEQUATE

Airgas' strong first fiscal quarter 2011 earnings – the second best in your company's history – only serve to strengthen your Board's conviction that Airgas will generate more value for stockholders through the continued execution of our strategic plan than by pursuing Air Products' grossly inadequate offer. Our performance in the quarter ended June 30, 2010 included:

Adjusted EPS of \$0.83,* exceeding the high end of our guidance and analyst consensus estimates by 15% and first quarter 2010 by 26%;

Highest adjusted EBITDA margin* in Airgas history;

Operating margins near record levels; and

Same-store sales growth of 6% year over year, which is the first positive same-store year over year result since the quarter ending December 31, 2008.

It's important to note that we achieved these results despite the fact that revenues have not yet returned to pre-recessionary levels. Clearly, the actions we have taken and the investments we have made during recent years have created a stronger, more profitable company.

As a result of this performance and improved outlook, we raised our full-year fiscal 2011 earnings guidance 7% from a range of \$2.95 to \$3.05 to a new range of \$3.15 to \$3.30. This represents 18% to 23% growth over fiscal year 2010 adjusted earnings.* We now have even more confidence in our ability to meet or exceed our mid-term financial goal of earnings per share of at least \$4.20 by calendar year 2012.

You should be aware that Air Products' low-ball \$63.50 offer has not even kept pace with the growth in peer equity values. The 5.8% increase from Air Products' previous offer of \$60 is far less than the 11.7% growth in peer equity values over the same time period.

Your Board of Directors has determined that the revised offer does not fairly compensate stockholders for Airgas' extraordinary track record, outstanding recent results, excellent growth prospects or industry leading position.

AIR PRODUCTS TAKE-OVER ATTEMPT IS OPPORTUNISTIC

It is clear to us that Air Products deliberately timed its take-over attempt to take advantage of the fact that earnings in the packaged gas industry tend to lag the broader economy. As Air Products itself stated:

*Given that the economy is just beginning to emerge from recession, Air Products concluded that the timing is ideal*²

As the US packaged gas leader, Airgas' core business remained strong well into the recession, lagging the dramatic volume declines experienced by Air Products and other gas producers. Accordingly, we expect the recovery in our core business, like the packaged gas industry overall, to lag a broader economic recovery. It is apparent to us that Air Products timed its hostile takeover bid opportunistically in an attempt to exploit this cyclical dynamic to the detriment of Airgas stockholders. Air Products' Chief Financial Officer explicitly acknowledged this industry trend when he said:

*[P]ackaged gas has always been a lag it has never been a lead in any of the areas . packaged gas as a market has always been a lag business.*³

We expect our business will follow historical trends and deliver results that have significant upside as the economic expansion continues, as evidenced by our first quarter results. In fact, we believe that the estimated compounded annual growth rate (CAGR) underlying our earnings goal of more than \$4.20 per share by calendar 2012 is conservative, given that Airgas achieved an 18% CAGR in the three years following the last U.S. recession. Today we are a much stronger operating company, and we are already on a higher earnings trajectory at this early stage in the recovery.

Air Products' proposed By-Law amendments calling for a meeting to elect directors to be held only four months after the 2010 annual meeting speak to the opportunistic nature of its take-over attempt. We urge you to ask yourself: Why is holding a meeting to elect directors just four months after this year's annual meeting so important to Air Products? What is the sense and why the rush?

DON'T BE MISLED BY AIR PRODUCTS' CONTRADICTORY STATEMENTS

In our view, the economic recovery in the United States is just beginning. Conditions in most of our customer segments and geographies continue to improve, and we expect Airgas' momentum to increase with the economic expansion.

Despite these positive developments, we believe Air Products is trying to frighten Airgas stockholders with misleading statements about current market conditions being substantially more uncertain now than in February. **This contrasts with Air Products' view of the economy as it applies to its own business.** For example, on the very same day that Air Products claimed that current market conditions were uncertain, when asked about his outlook on the U.S. economy, Air Products' Chief Financial Officer asserted:

*We have a pretty good look on the economy going forward for us. And we still feel that it is playing out as we expected, which is for just good steady slow growth here in the US.*⁵

**DON'T LET AIR PRODUCTS ACQUIRE YOUR COMPANY AT A
GROSSLY INADEQUATE PRICE**

Airgas directors are committed to the interests of ALL Airgas stockholders, and we have a long history of delivering superior stockholder returns. We believe that the election of Air Products nominees and the adoption of its proposals would not only serve to advance its grossly inadequate offer but also would preclude Airgas stockholders from realizing the full value that we expect Airgas to achieve as the economy recovers.

VOTE YOUR WHITE PROXY CARD FOR THE THREE HIGHLY QUALIFIED AIRGAS DIRECTORS AND AGAINST AIR PRODUCTS PROPOSED BY-LAW AMENDMENTS

Whether or not you plan to attend the Airgas Annual Meeting, you have the opportunity to protect your investment by promptly voting the **WHITE** proxy card. Earnings guidance for the year ending March 31, 2011, does not incorporate the impact of future debt extinguishment or multi-employer pension plan withdrawal charges, or future costs related to the unsolicited takeover attempt. The Company believes that adjusted earnings per diluted share provides investors meaningful insight into the Company's earnings performance without the impact of debt extinguishment, multi-employer pension plan withdrawal charges, and costs related to Air Products' unsolicited takeover attempt. Non-GAAP numbers should be read in conjunction with GAAP financial measures, as non-GAAP metrics are merely a supplement to, and not a replacement for, GAAP financial measures. It should be noted as well that our adjusted earnings per diluted share metric may be different from adjusted earnings per diluted share metrics provided by other companies.
