(1) As a result of the adoption of certain provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810 (Topic 810, *Consolidation*), the Company is required to separately disclose on its condensed consolidated balance sheets the assets of its consolidated variable interest entity (VIE) that can be used only to settle obligations of the VIE and liabilities for which creditors do not have recourse to the Company.

As of September 30, 2010, \$866.4 million related to the consolidated VIE were included in the Company's total assets, which consist of \$22.0 million of cash and cash equivalents, \$0.1 million of accounts receivable, net, \$8.1 million of prepaid expenses, \$0.6 million of other current assets, \$520.1 million of property and equipment, net, \$0.3 million of restricted cash and investments, \$293.6 million of FCC licenses and \$21.6 million of other assets.

As of December 31, 2009, \$807.2 million related to the consolidated VIE were included in the Company's total assets, which consist of \$16.8 million of cash and cash equivalents, \$0.1 million of accounts receivable, net, \$7.6 million of prepaid expenses, \$0.5 million of other current assets, \$463.7 million of property and equipment, net, \$0.3 million of restricted cash and investments, \$293.6 million of FCC licenses and \$24.6 million of other assets.

As of September 30, 2010, \$45.9 million related to the consolidated VIE were included in the Company's total liabilities, which consist of \$7.0 million of accounts payable and accrued expenses, \$0.3 million of current maturities of long-term debt, \$14.5 million of long-term debt, net, \$14.3 million of deferred rents, and \$9.8 million of other long-term liabilities.

As of December 31, 2009, \$33.7 million related to the consolidated VIE were included in the Company's total liabilities, which consist of \$9.4 million of accounts payable and accrued expenses, \$0.1 million of current maturities of long-term debt, \$4.4 million of long-term debt, net, \$10.9 million of deferred rents, and \$8.9 million of other long-term liabilities.

The accompanying notes are an integral part of these condensed consolidated financial statements.

MetroPCS Communications, Inc. and Subsidiaries

Notes to Condensed Consolidated Interim Financial Statements

(Unaudited)

1. Basis of Presentation:

The accompanying unaudited condensed consolidated interim financial statements include the balances and results of operations of MetroPCS Communications, Inc. (MetroPCS) and its consolidated subsidiaries (collectively, the Company). MetroPCS indirectly owns, through its wholly-owned subsidiaries, 85% of the limited liability company member interest in Royal Street Communications, LLC (Royal Street Communications). The condensed consolidated financial statements include the balances and results of operations of MetroPCS and its wholly-owned subsidiaries as well as the balances and results of operations of Royal Street Communications and its wholly-owned subsidiaries (collectively, Royal Street). The Company consolidates its interest in Royal Street in accordance with ASC 810 as a VIE. The Company examined specific criteria and considered factors such as design of Royal Street, risk and reward sharing, voting rights, and involvement in significant capital and operating decisions in reaching its conclusion to consolidate Royal Street. All intercompany accounts and transactions between MetroPCS and its wholly-owned subsidiaries and Royal Street have been eliminated in the consolidated financial statements. The redeemable ownership interest in Royal Street is included in other current liabilities as of September 30, 2010 due to the controlling member exercising its right to put to MetroPCS Wireless, Inc. (Wireless) its entire membership interest in Royal Street Communications. The purchase of the membership interest in Royal Street Communications is conditioned on receipt of Federal Communications Commission (FCC) consent, which was granted on October 8, 2010, but has not yet become final and is expected to close on or after December 22, 2010. The redeemable ownership interest in Royal Street is included in other long-term liabilities as of December 31, 2009.

The condensed consolidated balance sheets as of September 30, 2010 and December 31, 2009, the condensed consolidated statements of income and comprehensive income and cash flows for the periods ended September 30, 2010 and 2009, and the related footnotes are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

The unaudited condensed consolidated financial statements included herein reflect all adjustments (consisting of normal, recurring adjustments) which are, in the opinion of management, necessary to state fairly the results for the interim periods presented. Certain amounts reported in previous periods have been reclassified to conform to the current period presentation. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for any subsequent interim period or for the fiscal year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Company has thirteen operating segments based on geographic region within the United States: Atlanta, Boston, Dallas/Fort Worth, Detroit, Las Vegas, Los Angeles, Miami, New York, Orlando/Jacksonville, Philadelphia, Sacramento, San Francisco and Tampa/Sarasota. Effective January 1, 2010, in accordance with the provisions of ASC 280 (Topic 280, *Segment Reporting*), the Company aggregates its thirteen operating segments into one reportable segment.

Federal Universal Service Fund (FUSF), E-911 and various other fees are assessed by various governmental authorities in connection with the services that the Company provides to its customers. Beginning in January 2010, the Company introduced a new family of service plans, which include all applicable taxes and regulatory fees (tax inclusive plans). The Company reports fees for the tax inclusive plans in cost of service on the accompanying condensed consolidated statements of income and comprehensive income. When the Company separately assesses these fees on its customers for those service plans that do not include taxes or regulatory fees, the Company reports these regulatory fees on a gross basis in service revenues and cost of service on the accompanying condensed consolidated statements of income and comprehensive income. For the three months ended September 30, 2010 and 2009, the Company recorded \$18.5 million and \$47.5 million, respectively, of FUSF, E-911 and other fees on a gross basis. For the nine months ended September 30, 2010 and 2009, the Company recorded \$63.1 million and \$124.1 million, respectively, of FUSF, E-911 and other fees on a gross basis. Sales, use and excise taxes for all service plans are reported on a net basis in selling, general and administrative expenses on the accompanying condensed consolidated statements of income and comprehensive income.

Table of Contents**MetroPCS Communications, Inc. and Subsidiaries****Notes to Condensed Consolidated Interim Financial Statements****(Unaudited)****2. Share-based Payments:**

In accordance with ASC 718 (Topic 718, *Compensation – Stock Compensation*), the Company recognizes stock-based compensation expense in an amount equal to the fair value of share-based payments, which includes stock options granted and restricted stock awards to employees. The Company records stock-based compensation expense in cost of service and selling, general and administrative expenses. Stock-based compensation expense was \$11.8 million and \$12.4 million for the three months ended September 30, 2010 and 2009, respectively. Cost of service for the three months ended September 30, 2010 and 2009 includes \$0.9 million and \$1.1 million, respectively, of stock-based compensation. For the three months ended September 30, 2010 and 2009, selling, general and administrative expenses include \$10.9 million and \$11.3 million, respectively, of stock-based compensation. Stock-based compensation expense was \$35.1 million and \$35.8 million for the nine months ended September 30, 2010 and 2009, respectively. Cost of service for the nine months ended September 30, 2010 and 2009 includes \$2.7 million and \$3.1 million, respectively, of stock-based compensation. For the nine months ended September 30, 2010 and 2009, selling, general and administrative expenses include \$32.4 million and \$32.7 million, respectively, of stock-based compensation.

Restricted Stock Awards

Restricted stock awards are share awards that entitle the holder to receive shares of the Company's common stock which become fully tradable upon vesting. During the three and nine months ended September 30, 2010, pursuant to the Amended and Restated MetroPCS Communications, Inc. 2004 Equity Incentive Compensation Plan, the Company issued 65,000 and 1,916,674 restricted stock awards, respectively, to certain employees and, in 2010 to the directors of MetroPCS. During the three and nine months ended September 30, 2009, pursuant to the Amended and Restated MetroPCS Communications, Inc. 2004 Equity Incentive Compensation Plan, the Company issued 25,600 and 1,380,710 restricted stock awards, respectively, to certain employees. The restricted stock awards granted to employees generally vest on a four-year vesting schedule with 25% vesting on the first anniversary date of the award and the remainder pro-rata on a monthly or quarterly basis thereafter. The Company determined the grant-date fair value of the restricted stock awards granted during the three months ended September 30, 2010 and 2009 to be approximately \$0.6 million and \$0.2 million, respectively, based on the closing price of the Company's common stock on the New York Stock Exchange on the grant dates. The Company determined the grant-date fair value of the restricted stock awards granted during the nine months ended September 30, 2010 and 2009 to be approximately \$12.4 million and \$19.8 million, respectively, based on the closing price of the Company's common stock on the New York Stock Exchange on the grant dates. The estimated compensation cost of the restricted stock awards, which is equal to the fair value of the awards on the date of grant, will be recognized on a ratable basis over the four-year vesting period.

Vesting in the restricted stock awards triggers an income tax obligation for the employee that is required to be remitted to the relevant tax authorities. To effect the tax withholding, the Company has agreed to repurchase a sufficient number of common shares from the employee to cover the income tax obligation. The stock repurchase is being accounted for as treasury stock. During the three and nine months ended September 30, 2010, the Company repurchased 82,778 and 209,633 shares of stock, respectively, from certain employees to settle the income tax obligation associated with vesting in restricted stock awards.

3. Short-term Investments:

The Company's short-term investments consist of securities classified as available-for-sale, which are stated at fair value. The securities include U.S. Treasury securities with an original maturity of over 90 days. Unrealized gains, net of related income taxes, for available-for-sale securities are reported in accumulated other comprehensive loss, a component of stockholders' equity, until realized. The estimated fair values of investments are based on quoted market prices as of the end of the reporting period.

4. Derivative Instruments and Hedging Activities:

In March 2009, Wireless entered into three separate two-year interest rate protection agreements to manage the Company's interest rate risk exposure under Wireless' senior secured credit facility, as amended, (the "Senior Secured Credit Facility"), pursuant to which Wireless may borrow up to approximately \$1.7 billion. These agreements were effective on February 1, 2010 and cover a notional amount of \$1.0 billion and effectively convert this portion of Wireless' variable rate debt to fixed rate debt at a weighted average annual rate of 5.246%. These agreements expire on February 1, 2012.

Interest rate protection agreements are entered into to manage interest rate risk associated with Wireless' variable-rate borrowings under the Senior Secured Credit Facility. The interest rate protection agreements have been designated as cash flow hedges. If a derivative is designated as

Edgar Filing: METROPCS COMMUNICATIONS INC - Form 10-Q

a cash flow hedge and the hedging relationship qualifies for hedge accounting under the provisions of ASC 815 (Topic 815, *Derivatives and Hedging*), the effective portion of the change in fair value of the derivative is recorded in accumulated other comprehensive income (loss) and reclassified to interest expense in the period in which the hedged transaction affects earnings. The ineffective portion of the change in fair value of a derivative qualifying for hedge accounting is recognized in earnings in the period of the change. For the three and nine months ended September 30, 2010, the change in fair value did not result in ineffectiveness.

At the inception of the cash flow hedges and quarterly thereafter, the Company performs an assessment to determine whether changes in the fair values or cash flows of the derivatives are deemed highly effective in offsetting changes in the fair values or cash flows of the hedged transaction. If at any time subsequent to the inception of the cash flow hedges, the assessment indicates that the derivative is no longer highly effective as a hedge, the Company will discontinue hedge accounting and recognize all subsequent derivative gains and losses in results of operations. The Company estimates that approximately \$18.0 million of net losses that are reported in accumulated other comprehensive loss at September 30, 2010 are expected to be reclassified into earnings within the next 12 months.

Table of Contents**MetroPCS Communications, Inc. and Subsidiaries****Notes to Condensed Consolidated Interim Financial Statements****(Unaudited)*****Cross-default Provisions***

Wireless interest rate protection agreements contain cross-default provisions to its Senior Secured Credit Facility. Wireless Senior Secured Credit Facility allows interest rate protection agreements to become secured if the counterparty to the agreement is a current lender under the Senior Secured Credit Facility. If Wireless were to default on the Senior Secured Credit Facility, it would trigger these provisions, and the counterparties to the interest rate protection agreements could request immediate payment on interest rate protection agreements in net liability positions, similar to their existing rights as a lender. There are no collateral requirements in the interest rate protection agreements. The aggregate fair value of interest rate protection agreements with cross-default provisions that are in a net liability position on September 30, 2010 is \$23.2 million.

6. FCC Licenses:

The Company operates wireless broadband mobile networks under licenses granted by the FCC for a particular geographic area on spectrum allocated by the FCC for terrestrial wireless broadband services. The Company holds personal communications services (PCS) licenses granted or acquired on various dates, and in November 2006, the Company acquired a number of advanced wireless services (AWS) licenses which can be used to provide services comparable to the wireless broadband mobile services provided by the Company, and other advanced wireless services. In June 2008, the Company acquired a 700 MHz license that also can be used to provide similar services. The PCS licenses previously included, and the AWS licenses currently include, the obligation and resulting costs to relocate existing fixed microwave users of the Company's licensed spectrum if the Company's use of its spectrum interferes with their systems and/or reimburse other carriers (according to FCC rules) that relocated prior users if the relocation benefits the Company's system. Accordingly, the Company incurred costs related to microwave relocation in constructing its PCS and AWS networks.

FCC Licenses on the accompanying condensed consolidated balance sheets include the Company's microwave relocation costs. The licenses and microwave relocation costs are recorded at cost. Although PCS, AWS and 700 MHz licenses are issued with a stated term, ten years in the case of the PCS licenses, fifteen years in the case of the AWS licenses and approximately ten years for 700 MHz licenses, the renewal of PCS, AWS and 700 MHz licenses is generally a routine matter without substantial cost and the Company has determined that no legal, regulatory, contractual, competitive, economic, or other factors currently exist that limit the useful life of its PCS, AWS and 700 MHz licenses. As such, under the provisions of ASC 350 (Topic 350, Intangibles-Goodwill and Other), the Company does not amortize PCS, AWS and 700 MHz

Edgar Filing: METROPCS COMMUNICATIONS INC - Form 10-Q

licenses and microwave relocation costs (collectively, its indefinite-lived intangible assets) as they are considered to have indefinite lives and together represent the cost of the Company's spectrum. The carrying value of FCC licenses and microwave relocation costs was approximately \$2.5 billion as of September 30, 2010.

In accordance with the requirements of ASC 350, the Company performs its annual indefinite-lived intangible assets impairment test as of each September 30th or more frequently if events or changes in circumstances indicate that the carrying value of the indefinite-lived intangible assets might be impaired. The impairment test consists of a comparison of the estimated fair value with the carrying value. The Company estimates the fair value of its indefinite-lived intangible assets using a direct value methodology in accordance with ASC 805 (Topic 805, Business Combinations). The direct value approach determines fair value using a discounted cash flow model. Cash flow projections and assumptions, although subject to a degree of uncertainty, are based on a combination of the Company's historical performance and trends, its business plans and management's estimate of future performance, giving consideration to existing and anticipated competitive economic conditions. Other assumptions include the weighted average cost of capital and long-term rate of growth for the business. The Company believes

Table of Contents

MetroPCS Communications, Inc. and Subsidiaries

Notes to Condensed Consolidated Interim Financial Statements

(Unaudited)

that its estimates are consistent with assumptions that marketplace participants would use to estimate fair value. The Company corroborates its determination of fair value of the indefinite-lived intangible assets, using the discounted cash flow approach described above, with other market-based valuation metrics. An impairment loss would be recorded as a reduction in the carrying value of the related indefinite-lived intangible assets and charged to results of operations.

For the purpose of performing the annual impairment test as of September 30, 2010, the indefinite-lived intangible assets were aggregated and combined into a single unit of accounting. The Company believes that utilizing its indefinite-lived intangible assets as a group represents the highest and best use of the assets, and the value of the indefinite-lived intangible assets would not be significantly impacted by a sale of one or a portion of the indefinite-lived intangible assets, among other factors. As of September 30, 2010, no impairment was recognized as the fair value of the indefinite-lived intangible assets was in excess of the carrying value. Although the Company does not expect its estimates or assumptions to change significantly in the future, the use of different estimates or assumptions within the discounted cash flow model when determining the fair value of the indefinite-lived intangible assets or using a methodology other than a discounted cash flow model could result in different values for the indefinite-lived intangible assets and may affect any related impairment charge. The most significant assumptions within the Company's discounted cash flow model are the discount rate, the projected growth rate and management's future business plans. A one percent decline in annual revenue growth rates, a one percent decline in annual net cash flows or a one percent increase in discount rate would not result in an impairment related to the combined single unit of accounting as of September 30, 2010.

Furthermore, if any of the indefinite-lived intangible assets are subsequently determined to have a finite useful life, such assets would be tested for impairment in accordance with ASC 360 (Topic 360, Property, Plant, and Equipment), and the intangible assets would then be amortized prospectively over the estimated remaining useful life. There also have been no subsequent indicators of impairment and accordingly, no subsequent interim impairment tests were performed.

Other Spectrum Acquisitions

During the three and nine months ended September 30, 2009, the Company closed on various agreements for the acquisition and exchange of spectrum in the net aggregate amount of approximately \$4.3 million and \$14.6 million, respectively, in cash.

On July 27, 2010, the Company entered into a like-kind spectrum exchange agreement for licenses in certain metropolitan areas with another service provider (Service Provider). Consummation of this spectrum exchange agreement is subject to customary closing conditions, including final FCC consent. The Company will acquire 10 MHz of AWS spectrum in Orlando in exchange for 10 MHz of PCS spectrum in Ft. Pierce-Vero Beach-Stuart, Florida, 20 MHz of partitioned AWS spectrum in the Salt Lake City and Portland cellular marketing areas and total cash consideration of \$3.0 million.

On August 23, 2010, the Company closed on a like-kind spectrum exchange agreement covering licenses in certain markets with the Service Provider. The Service Provider acquired 10 MHz of AWS spectrum in Dallas/Fort Worth, Texas; Shreveport-Bossier City, Louisiana; and an additional 10 MHz of AWS spectrum in certain other Washington markets, as well as an additional 10 MHz of PCS spectrum in Sacramento, California. The Company acquired 10 MHz of AWS spectrum in Dallas/Fort Worth, Texas and Shreveport-Bossier City, Louisiana; and an additional 10 MHz of AWS spectrum in Santa Barbara, California, and Tampa-St. Petersburg-Clearwater, Florida. The exchange of spectrum resulted in a gain on disposal of assets in the amount of \$19.2 million.

9 1/4% Senior Notes due 2014

On November 3, 2006, Wireless completed the sale of \$1.0 billion of principal amount of 9 1/4% Senior Notes due 2014 (the Initial Notes). On June 6, 2007, Wireless completed the sale of an additional \$400.0 million of 9 1/4% Senior Notes due 2014 (the Additional Notes) under the

Edgar Filing: METROPCS COMMUNICATIONS INC - Form 10-Q

existing indenture governing the Initial Notes at a price equal to 105.875% of the principal amount of such Additional Notes. On January 20, 2009, Wireless completed the sale of an additional \$550.0 million of 9 1/4% Senior Notes due 2014 (the New 9/4% Senior Notes and, together with the Initial Notes and Additional Notes, the 9/4% Senior Notes) under a new indenture substantially similar to the indenture governing the Initial Notes at a price equal to 89.50% of the principal amount of such New 9 1/4% Senior Notes resulting in net proceeds of approximately \$480.3 million.

The 9 1/4% Senior Notes are unsecured obligations and are guaranteed by MetroPCS, MetroPCS, Inc., and all of Wireless direct and indirect wholly-owned subsidiaries, but are not guaranteed by Royal Street and MetroPCS Finance, Inc. (MetroPCS Finance). Interest is payable on the 9 1/4% Senior Notes on May 1 and November 1 of each year. Wireless may, at its option, redeem some or all of the 9 1/4% Senior Notes at any time on or after November 1, 2010 for the redemption prices set forth in the indentures governing the 9 1/4% Senior Notes. Wireless may also, at its option, prior to November 1, 2010, redeem some or all of the 9 1/4% Senior Notes at the make whole price set forth in the indentures governing the 9 1/4% Senior Notes.

On September 21, 2010, Wireless completed a cash tender offer to purchase \$313.1 million of outstanding aggregate principal amount of the initial and additional 9 1/4% Senior Notes at a price equal to 104.625% (the Tender Offer) for total cash consideration of \$327.5 million. The Tender Offer resulted in a loss on extinguishment of debt in the amount of \$15.6 million.

7⁷/₈% Senior Notes due 2018

On September 21, 2010, Wireless completed the sale of \$1.0 billion of principal amount of 7⁷/₈% Senior Notes due 2018 (7⁷/₈% Senior Notes). The terms of the 7⁷/₈% Senior Notes are governed by the indenture and the first supplemental indenture, dated September 21, 2010, among Wireless, the guarantors party thereto and the trustee. The net proceeds of the sale of the 7⁷/₈% Senior Notes were \$974.9 million after underwriter fees, discounts and other debt issuance costs of \$25.1 million.

Senior Secured Credit Facility

Wireless entered into the Senior Secured Credit Facility, as amended, which consists of a \$1.6 billion term loan facility and a \$100.0 million revolving credit facility. On November 3, 2006, Wireless borrowed \$1.6 billion under the Senior Secured Credit Facility. The term loan facility is repayable in quarterly installments in annual aggregate amounts equal to 1% of the initial aggregate principal amount of \$1.6 billion. The term loan facility will mature in November 2013 and the revolving credit facility will mature in November 2011.

On July 16, 2010, Wireless entered into an Amendment and Restatement and Resignation and Appointment Agreement (the Amendment) which amends and restates the Senior Secured Credit Facility. The Amendment amends the Senior Secured Credit Facility to, among other things, extend the maturity of \$1.0 billion of existing term loans under the Senior Secured Credit Facility to November 2016, increase the interest rate to LIBOR plus 3.50% on the extended portion only and reduce the revolving credit facility from \$100.0 million to \$67.5 million. The remaining \$536.0 million will mature in 2013 and the interest rate continues to be LIBOR plus 2.25%. This modification did not result in a loss on extinguishment of debt.

The facilities under the Senior Secured Credit Facility are guaranteed by MetroPCS, MetroPCS, Inc. and each of Wireless' direct and indirect present and future wholly-owned domestic subsidiaries. The facilities are not guaranteed by Royal Street and MetroPCS Finance, but Wireless pledged the promissory note that Royal Street has given it in connection with amounts borrowed by Royal Street from Wireless and the limited liability company member interest held by Wireless in Royal Street Communications. The Senior Secured Credit Facility contains customary events of default, including cross-defaults. The obligations are also secured by the capital stock of Wireless as well as substantially all of Wireless' present and future assets and the capital stock and substantially all of the assets of each of its direct and indirect present and future wholly-owned subsidiaries (except as prohibited by law and certain permitted exceptions), but excludes Royal Street.

Under the Senior Secured Credit Facility, Wireless is subject to certain limitations, including limitations on its ability to incur additional debt, make certain restricted payments, sell assets, make certain investments or acquisitions, grant liens and pay dividends. Wireless is also subject to certain financial covenants, including maintaining a maximum senior secured consolidated leverage ratio and, under certain circumstances, maximum consolidated leverage and minimum fixed charge coverage ratios.

The interest rate on the outstanding debt under the Senior Secured Credit Facility is variable. The rate as of September 30, 2010 was 4.593%, which includes the impact of Wireless' interest rate protection agreements (See Note 4).

Capital Lease Obligations

The Company has entered into various non-cancelable capital lease agreements, with varying expiration terms through 2025. Assets and future obligations related to capital leases are included in the accompanying condensed consolidated balance sheets in property and equipment and long-term debt, respectively. Depreciation of assets held under capital leases is included in depreciation and amortization expense. As of September 30, 2010, the Company had approximately \$202.1 million of capital lease obligations, with \$4.4 million and \$197.7 million recorded in current maturities of long-term debt and long-term debt, respectively.

9. Fair Value Measurements:

The Company has adopted the provisions of ASC 820 (Topic 820, *Fair Value Measurements and Disclosures*), for financial assets and liabilities. ASC 820 became effective for financial assets and liabilities on January 1, 2008. The Company adopted the provisions of ASC 820 for non-financial assets and liabilities upon its effectiveness on January 1, 2009. ASC 820 defines fair value, thereby eliminating inconsistencies in guidance found in various prior accounting pronouncements, and increases disclosures surrounding fair value calculations.

ASC 820 establishes a three-tiered fair value hierarchy that prioritizes inputs to valuation techniques used in fair value calculations. The three levels of inputs are defined as follows:

Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use.

ASC 820 requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs. If a financial instrument uses inputs that fall in different levels of the hierarchy, the instrument will be categorized based upon the lowest level of input that is significant to the fair value calculation. The Company's financial assets and liabilities measured at fair value on a recurring basis include cash and cash equivalents, short and long-term investments securities and derivative financial instruments.

Included in the Company's cash and cash equivalents are cash on hand, cash in bank accounts, investments in money market funds consisting of U.S. Treasury securities with an original maturity of 90 days or less. Included in the Company's short-term investments are securities classified as available-for-sale, which are stated at fair value. The securities include U.S. Treasury securities with an original maturity of over 90 days. Fair value is determined based on observable quotes from banks and unadjusted quoted market prices from identical securities in an active market at the reporting date. Significant inputs to the valuation are observable in the active markets and are classified as Level 1 in the hierarchy.

Included in the Company's long-term investments securities are certain auction rate securities, some of which are secured by collateralized debt obligations with a portion of the underlying collateral being mortgage securities or related to mortgage securities. Due to the lack of availability of observable market quotes on the Company's investment portfolio of auction rate securities, the fair value was estimated based on valuation models that rely exclusively on unobservable Level 3 inputs including those that are based on expected cash flow streams and collateral values, including assessments of counterparty credit quality, default risk underlying the security, discount rates and overall capital market liquidity. The valuation of the Company's investment portfolio is subject to uncertainties that are difficult to predict. Factors that may impact the Company's valuation include changes to credit ratings of the securities as well as the underlying assets supporting those securities, rates of default of the underlying assets, underlying collateral values, discount rates, counterparty risk and ongoing strength and quality of market credit and liquidity. Significant inputs to the investments valuation are unobservable in the active markets and are classified as Level 3 in the hierarchy.

Edgar Filing: METROPCS COMMUNICATIONS INC - Form 10-Q

Included in the Company's derivative financial instruments are interest rate swaps. Derivative financial instruments are valued in the market using discounted cash flow techniques. These techniques incorporate Level 1 and Level 2 inputs such as interest rates. These market inputs are utilized in the discounted cash flow calculation considering the instrument's term, notional amount, discount rate and credit risk. Significant inputs to the derivative valuation for interest rate swaps are observable in the active markets and are classified as Level 2 in the hierarchy.

Although the Company has determined the estimated fair value amounts using available market information and commonly accepted valuation methodologies, considerable judgment is required in interpreting market data to develop fair value estimates. The fair value estimates are based on information available at September 30, 2010 and December 31, 2009 and have not been revalued since those dates. As such, the Company's estimates are not necessarily indicative of the amount that the Company, or holders of the instruments, could realize in a current market exchange and current estimates of fair value could differ significantly.

10. Net Income Per Common Share:

The following table sets forth the computation of basic and diluted net income per common share for the periods indicated (in thousands, except share and per share data):

In accordance with ASC 260 (Topic 260, *Earnings Per Share*), unvested share-based payment awards that contain rights to receive non-forfeitable dividends or dividend equivalents, whether paid or unpaid, are considered a participating security for purposes of computing earnings or loss per common share and the two-class method of computing earnings per share is required for all periods presented. During the three and nine months ended September 30, 2010 and 2009, the Company issued restricted stock awards. Unvested shares of restricted stock are participating securities such that they have rights to receive forfeitable dividends. In accordance with ASC 260, the unvested restricted stock was considered a participating security for purposes of computing earnings per common share and was therefore included in the computation of basic and diluted earnings per common share.

Under the restricted stock award agreements, unvested shares of restricted stock have rights to receive non-forfeitable dividends. For the three and nine months ended September 30, 2010 and 2009, the Company has calculated diluted earnings per share under both the treasury stock method and the two-class method. There was not a significant difference in the per share amounts calculated under the two methods, and the two-class method is disclosed. For the three and nine months ended September 30, 2010, approximately 2.7 million of restricted common shares issued to employees have been excluded from the computation of basic net income per common share since the shares are not vested and remain subject to forfeiture. For the three and nine months ended September 30, 2009, approximately 1.3 million of restricted common shares issued to employees have been excluded from the computation of basic net income per common share since the shares are not vested and remain subject to forfeiture.

For the three months ended September 30, 2010 and 2009, 22.3 million and 23.0 million, respectively, of stock options were excluded from the calculation of diluted net income per common share since the effect was anti-dilutive. For the nine months ended September 30, 2010 and 2009, 25.2 million and 15.7 million, respectively, of stock options were excluded from the calculation of diluted net income per common share since the effect was anti-dilutive.

11. Commitments and Contingencies:

The Company has entered into pricing agreements with various handset manufacturers for the purchase of wireless handsets at specified prices. The terms of these agreements expire on various dates through June 30, 2011. The total aggregate commitment outstanding under these pricing agreements is approximately \$62.3 million.

Litigation

The Company is involved in litigation from time to time, including litigation regarding intellectual property claims, that it considers to be in the normal course of business. Legal proceedings are inherently unpredictable, and the matters in which the Company is involved often present complex legal and factual issues. The Company intends to vigorously pursue defenses in all matters in which it is involved and engage in discussions where possible to resolve these matters on terms favorable to the Company. The Company believes that any amounts alleged in the matters discussed below for which it is allegedly liable are not necessarily meaningful indicators of the Company's potential liability. The Company determines whether it should accrue an estimated loss for a contingency in a particular legal proceeding by assessing whether a loss is deemed probable and can be reasonably estimated. The Company reassesses its views on estimated losses on a quarterly basis to reflect the impact of any developments in the matters in which it is involved. It is possible, however, that the Company's business, financial condition and results of operations in future periods could be materially adversely affected by increased expense, significant settlement costs and/or unfavorable damage awards relating to such matters. Other than the matter listed below, the Company is not currently party to any pending legal proceedings that it believes could, individually or in the aggregate, have a material adverse effect on the Company's financial condition, results of operations or liquidity.

The Company, certain current officers and a director (collectively, the defendants) have been named as defendants in a securities class action lawsuit filed on December 15, 2009 in the United States District Court for the Northern District of Texas, Civil Action No. 3:09-CV-2392. Plaintiff alleges that the defendants violated Section 10(b) of the Exchange Act and Rule 10b-5 thereunder, and Section 20(a) of the Exchange Act. The complaint alleges that the defendants made false and misleading statements about the Company's business, prospects and operations. The claims are based upon various alleged public statements made during the period from February 26, 2009 through November 4, 2009. The lawsuit seeks, among other relief, a determination that the alleged claims may be asserted on a class-wide basis, unspecified compensatory damages, attorneys' fees, other expenses, and costs. Defendants filed a motion to dismiss on August 9, 2010. Plaintiff filed its opposition to Defendant's motion to dismiss on September 8, 2010, and Defendants' reply was filed on October 8, 2010. Due to the complex nature of the legal and factual issues involved in this action, the outcome is not presently determinable nor is a loss considered probable or reasonably estimatable. If this matter were to proceed beyond the pleading stage, the Company could be required to incur substantial costs and expenses to defend this matter and/or be required to pay substantial damages or settlement costs, which could materially adversely affect the Company's business, financial condition and results of operations.

15. Subsequent Events:

On October 13, 2010, Wireless entered into three separate two-year interest rate protection agreements to manage its interest rate risk exposure under its Senior Secured Credit Facility. These agreements will be effective on February 1, 2012 and cover a notional amount of \$950.0 million and effectively convert this portion of Wireless' variable rate debt to fixed rate debt at a weighted average annual rate of 4.612%. The monthly interest settlement periods will begin on February 1, 2012. These agreements expire on February 1, 2014.

On October 14, 2010, the Company entered into an asset purchase agreement to acquire 10 MHz of AWS spectrum and certain related network assets in the Northeast metropolitan area for \$47.5 million in cash. Consummation of this asset purchase agreement is subject to customary closing conditions, including final FCC consent. The Company closed on a portion of the asset purchase agreement on November 1, 2010.

On November 1, 2010, Wireless completed the redemption of an additional \$686.9 million in outstanding aggregate principal amount of the Initial and Additional 9 1/4% Senior Notes at a price equal to 104.625% for total cash consideration of \$718.7 million. The redemption will result in a loss on extinguishment of debt in the amount of approximately \$31.8 million.

Forward-Looking Statements

Any statements made in this report that are not statements of historical fact, including statements about our beliefs, opinions and expectations, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and should be evaluated as such. Forward-looking statements include our expectations of customer growth, the effect of seasonality on our business, the difficulty of obtaining financing, selling additional equity in debt securities, or to refinancing existing indebtedness in the future if and when we need it, the impact of the current adverse economic and financial conditions in the credit and capital markets on our liquidity, cash flow, financial flexibility and ability to fund operations, whether existing cash, cash equivalents and short term investments and anticipated cash flows from operations will be sufficient to fully fund planned operations, our belief that increased services areas and capacity will improve our service offerings, help us to attract additional customers, retain existing customer, and increase revenues, our projections of capital expenditures for 2010, the effect of inflation on our operations, the effect of adoption of new accounting standards on us, the effect of changes in aggregate fair value of financial assets and liabilities, whether litigation may have a material adverse effect on our business, financial condition or operations, and other statements that may relate to our plans, objectives, strategies, goals, future events, future revenues or performance, capital expenditures, financing needs, outcomes of litigation and other information that is not historical information. These forward-looking statements often include words such as anticipate, expect, suggests, plan, believe, intend, estimates, targets, views, projects, should, would, could, may, will, forecast, expressions. Forward-looking statements are contained throughout this report, including the Management's Discussion and Analysis of Financial Condition and Results of Operations, Legal Proceedings, and Risk Factors.

We base the forward-looking statements made in this report on our current expectations, plans, beliefs, opinions, and assumptions that have been made in light of our experience in the industry, as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances and at such times. As you read and consider this report, you should understand that these forward-looking statements are not guarantees of future performance or results and no assurances can be given that such statements will be obtained. Although we believe that these forward-looking statements are based on reasonable expectations, beliefs, opinions and assumptions at the time they are made, you should be aware that many of these factors are beyond our control and that many factors could affect our actual financial results, performance or results of operations and could cause actual results to differ materially from those expressed in the forward-looking statements. Factors that may materially affect such forward-looking statements include, but are not limited, to:

the highly competitive nature of our industry;

our ability to maintain our cost structure;

our and our competitors' current and planned promotions, marketing and sales initiatives and our ability to respond and support them;

our ability to negotiate and maintain acceptable roaming arrangements;

the seasonality of our business and any failure to have strong customer growth in the first and fourth quarters;

increases or changes in taxes and regulatory fees;

the rapid technological changes in our industry and the ability of our suppliers to develop and provide us with technological developments we need to remain competitive;

the current economic environment in the United States and the state of the capital markets in the United States;

our exposure to counterparty risk in our financial agreements;

our ability to meet the demands and expectations of our customers, to maintain adequate customer care and manage our churn rate;

our ability to achieve planned growth and churn rates;

our ability to manage our rapid growth, train additional personnel and maintain our financial and disclosure controls and procedures;

our ability to secure the necessary products, services, applications, content and network infrastructure equipment;

our ability to secure spectrum, or secure it at acceptable prices, when we need it;

our ability to respond to technology changes, and to maintain and upgrade our networks and business systems;

our deployment of new technologies, such as long term evolution, or LTE, in our networks and its success and our ability to offer new services using such new technology;

our ability to adequately enforce or protect our intellectual property rights and defend against suits filed by others;

governmental regulation affecting our services and the costs of compliance and our failure to comply with such regulations;

our capital structure, including our indebtedness amounts and the limitations imposed by the covenants in our indebtedness;

changes in consumer preferences or demand for our products;

our inability to attract and retain key members of management;

our reliance on third parties to provide distribution, products, software and services that are integral to our business;

the performance of our suppliers and other third parties on whom we rely; and

other factors described under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2009 as updated or supplemented under "Item 1A. Risk Factors" in each of our subsequent Quarterly Reports on Form 10-Q as filed with the SEC, including this Quarterly Report on Form 10-Q for the quarter ended September 30, 2010.

Company Overview

Except as expressly stated, the financial condition and results of operations discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations are those of MetroPCS Communications, Inc. and its consolidated subsidiaries, including MetroPCS Wireless, Inc., or Wireless, and Royal Street Communications, LLC and their respective subsidiaries. References to MetroPCS, MetroPCS Communications, our Company, the Company, we, our, ours and us refer to MetroPCS Communications, Inc., a Delaware corporation, and its wholly-owned subsidiaries.

We are a wireless telecommunications carrier that currently offers wireless broadband mobile services primarily in the greater Atlanta, Boston, Dallas/Fort Worth, Detroit, Las Vegas, Los Angeles, Miami, New York, Orlando/Jacksonville, Philadelphia, Sacramento, San Francisco and Tampa/Sarasota metropolitan areas. In 2005, Royal Street Communications, LLC, or Royal Street Communications, and with its wholly-owned subsidiaries, or collectively, Royal Street, was granted licenses by the Federal Communications Commission, or FCC, in Los Angeles and various metropolitan areas throughout northern Florida. We own 85% of the limited liability company member interest in Royal Street Communications, but may only elect two of the five members of Royal Street Communications' management committee. We have a wholesale arrangement with Royal Street under which we purchase up to 85% of the engineered capacity of Royal Street's systems allowing us to sell our standard products and services under the MetroPCS brand to the public. Additionally, upon Royal Street's request, we have provided and will provide financing to Royal Street under a loan agreement. As of September 30, 2010, the maximum amount that Royal Street could borrow from us under the loan agreement was approximately \$2.4 billion of which Royal Street had borrowed approximately \$1.6 billion and had net outstanding borrowings of \$1.2 billion through September 30, 2010. Royal Street has incurred an additional \$14.0 million in net borrowings through October 31, 2010. Under that certain Amended and Restated Limited Liability Company Agreement of Royal Street Communications, LLC, or the Royal Street agreement, C9 Wireless, or C9, the controlling member of Royal Street Communications, has the right to put its member interest in Royal Street Communications to us for a return of capital plus a fixed return, or the put. On April 26, 2010, we received a written notice from C9 that it was exercising its put in accordance with the Royal Street agreement with the closing to not occur before the fifth anniversary of the grant of FCC licenses to Royal Street, or on or after December 22, 2010. The put is subject to customary closing conditions, including consent of the Federal Communications Commission, or FCC, which was granted on October 8, 2010, but has not yet become final.

As a result of the significant growth we have experienced since we launched operations, our results of operations to date are not necessarily indicative of the results that can be expected in future periods. Moreover, we expect that our number of customers will continue to increase, which will continue to contribute to increases in our revenues and operating expenses.

We sell products and services to customers through our Company-owned retail stores as well as indirectly through relationships with independent retailers. Our service allows our customers to place unlimited local calls from within our local service area and to receive unlimited calls from any area while in our local service area, for a flat-rate monthly service fee. In January 2010, we introduced a new family of service plans, which include all applicable taxes and regulatory fees, offering nationwide voice, text and web services beginning at \$40 per month. For an additional \$5 to \$20 per month, our customers may select alternative service plans that offer additional features on an unlimited basis. For additional usage fees, we also provide certain other value-added services. On November 4, 2010, we introduced Metro USAsm which allows our customers for the same rates as we previously charged to use our voice, text messaging and web browsing services in an area of over 280 million population through a combination of our own networks and roaming arrangements with third parties. All of these plans require payment in advance for one month of service. If no payment is made in advance for the following month of service, service is suspended at the end of the month that was paid for by the customer and, if the customer does not pay within 30 days, the customer is terminated. Our service plans differentiate us from the more complex plans and long-term contract requirements of traditional wireless carriers. In addition, the above products and services are offered by us under the MetroPCS brand in the metropolitan areas where we purchase services from Royal Street. We introduced the first commercial 4G LTE service in our Las Vegas and Dallas/Fort Worth metropolitan areas in September 2010, in our Detroit metropolitan area in October 2010 and in our Los Angeles and Philadelphia metropolitan areas in November 2010. Our 4G LTE service plans offer talk, text and 4G web access starting as low as \$55 per month including taxes and regulatory fees.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States, or GAAP, requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the financial statements. We have discussed those estimates that we believe are critical and require the use of complex judgment in their application in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates of our Form 10-K for the year ended December 31, 2009 filed with the United States Securities and Exchange Commission, or SEC, on March 1, 2010.

Other than the adoption of Financial Accounting Standards Board, or FASB, Accounting Standards Update, or ASU, 2009-17, *Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities* and ASU 2010-06, *Improving Disclosures about Fair Value Measurements*, our accounting policies and the methodologies and assumptions we apply under them have not changed from our Form 10-K for the year ended December 31, 2009.

Revenues

We derive our revenues from the following sources:

Service. We sell wireless broadband mobile services. The various types of service revenues associated with wireless broadband mobile for our customers include monthly recurring charges for airtime, monthly recurring charges for optional features (including nationwide long distance, unlimited international long distance, unlimited text messaging, international text messaging, voicemail, downloads, ringtones, games and content applications, unlimited directory assistance, enhanced directory assistance, ring back tones, mobile Internet browsing, mobile instant messaging, navigation, video streaming, video on demand, push e-mail and nationwide roaming) and charges for long distance service. Service revenues also include intercarrier compensation and nonrecurring reactivation service charges to customers.

Equipment. We sell wireless broadband mobile handsets and accessories that are used by our customers in connection with our wireless services. This equipment is also sold to our independent retailers to facilitate distribution to our customers.

Costs and Expenses

Our costs and expenses include:

Cost of Service. The major components of our cost of service are:

Cell Site Costs. We incur expenses for the rental of cell sites, network facilities, engineering operations, field technicians and related utility and maintenance charges.

Inter-carrier Compensation. We pay charges to other telecommunications companies for their transport and termination of calls originated by our customers and destined for customers of other networks. These variable charges are based on our customers' usage and generally applied at pre-negotiated rates with other carriers, although some carriers have sought to impose such charges unilaterally.

Variable Long Distance. We pay charges to other telecommunications companies for long distance service provided to our customers. These variable charges are based on our customers' usage, applied at pre-negotiated rates with the long distance carriers.

Customer Support. We pay charges to nationally recognized third-party providers for customer care, billing and payment processing services.

Table of Contents

Cost of Equipment. Cost of equipment primarily includes the cost of handsets and accessories purchased from third-party vendors to resell to our customers and independent retailers in connection with our services. We do not manufacture any of this equipment.

Selling, General and Administrative Expenses. Our selling expenses include advertising and promotional costs associated with marketing and selling to new customers and fixed charges such as retail store rent and retail associates' salaries. General and administrative expenses include support functions, including technical operations, finance, accounting, human resources, information technology and legal services. We record stock-based compensation expense in cost of service and in selling, general and administrative expenses for expense associated with employee stock options and restricted stock awards, which is measured at the date of grant, based on the estimated fair value of the award.

Depreciation and Amortization. Depreciation is applied using the straight-line method over the estimated useful lives of the assets once the assets are placed in service, which are seven to ten years for network infrastructure assets, three to ten years for capitalized interest, up to fifteen years for capital leases, three to eight years for office equipment, which includes software and computer equipment, three to seven years for furniture and fixtures and five years for vehicles. Leasehold improvements are amortized over the term of the respective leases, which includes renewal periods that are reasonably assured, or the estimated useful life of the improvement, whichever is shorter.

Interest Expense and Interest Income. Interest expense includes interest incurred on our borrowings and capital lease obligations, amortization of debt issuance costs and amortization of discounts and premiums on long-term debt. Interest income is earned primarily on our cash, cash equivalents and short term investments.

Income Taxes. For the three and nine months ended September 30, 2010 and 2009, we paid no federal income taxes. For the three months ended September 30, 2010 and 2009 we paid \$0.1 million and \$0.2 million in state income taxes, respectively. For the nine months ended September 30, 2010 and 2009 we paid approximately \$2.4 million and \$2.8 million in state income taxes, respectively.

Seasonality

Our customer activity is influenced by seasonal effects related to traditional retail selling periods and other factors that arise from our target customer base. Based on historical results, we generally expect net customer additions to be strongest in the first and fourth quarters. Softening of sales and increased customer turnover, or churn, in the second and third quarters of the year usually combine to result in fewer net customer additions. However, sales activity and churn can be strongly affected by the launch of new and surrounding metropolitan areas and promotional activity, which could reduce or outweigh certain seasonal effects.

** Not meaningful

(1) Cost of service and selling, general and administrative expenses include stock-based compensation expense. For the three months ended September 30, 2010, cost of service includes approximately \$0.9 million and selling, general and administrative expenses includes approximately \$10.9 million of stock-based compensation expense. For the three months ended September 30, 2009, cost of service includes approximately \$1.1 million and selling, general and administrative expenses includes \$11.3 million of stock-based compensation expense.

Service Revenues. Service revenues increased \$129.9 million, or 16%, to \$942.2 million for the three months ended September 30, 2010 from \$812.3 million for the three months ended September 30, 2009. The increase in service revenues is primarily attributable to net customer additions of 1.5 million customers for the twelve months ended September 30, 2010.

Equipment Revenues. Equipment revenues decreased \$4.7 million, or approximately 6%, to \$78.5 million for the three months ended September 30, 2010 from \$83.2 million for the three months ended September 30, 2009. The decrease in equipment revenue is primarily driven by a lower average price of handsets activated accounting for approximately \$15.8 million, coupled with approximately \$12.5 million that would have been recognized as service revenues but was classified as equipment revenues during the three months ended September 30, 2009, in accordance with FASB Accounting Standards Codification, or ASC, 605, (Topic 605, *Revenue Recognition*), because the consideration received from customers was less than the fair value of promotionally priced handsets. These decreases were partially offset by an increase in upgrade handset sales to existing customers accounting for approximately \$22.5 million.

Edgar Filing: METROPCS COMMUNICATIONS INC - Form 10-Q

Cost of Service. Cost of service increased \$15.4 million, or 5%, to approximately \$313.7 million for the three months ended September 30, 2010 from approximately \$298.3 million for the three months ended September 30, 2009. The increase in cost of service is primarily attributable to the 24% growth in our customer base during the twelve months ended September 30, 2010, the deployment of additional network infrastructure, including network infrastructure for 4G LTE, during the twelve months ended September 30, 2010.

Cost of Equipment. Cost of equipment increased approximately \$57.2 million, or approximately 29%, to approximately \$256.3 million for the three months ended September 30, 2010 from approximately \$199.1 million

Table of Contents

for the three months ended September 30, 2009. The increase is primarily attributable to higher upgrade handset costs to existing customers which led to an approximate \$69.0 million increase, partially offset by a lower average cost of handsets accounting for approximately \$12.3 million.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased approximately \$9.0 million, or 6%, to \$147.4 million for the three months ended September 30, 2010 from \$138.4 million for the three months ended September 30, 2009. Selling expenses increased by \$0.4 million, or approximately 1%, for the three months ended September 30, 2010 compared to the three months ended September 30, 2009. General and administrative expenses increased approximately \$9.0 million, or approximately 17%, for the three months ended September 30, 2010 as compared to the three months ended September 30, 2009 primarily due to the growth in our business.

Depreciation and Amortization. Depreciation and amortization expense increased \$14.8 million, or 15%, to \$113.8 million for the three months ended September 30, 2010 from approximately \$99.0 million for the three months ended September 30, 2009. The increase related primarily to an increase in network infrastructure assets placed into service during the twelve months ended September 30, 2010 to support the continued growth and expansion of our network.

(Gain) Loss on Disposal of Assets. Gain on disposal of assets was \$18.3 million for the three months ended September 30, 2010 compared to a loss on disposal of assets of approximately \$2.6 million for the three months ended September 30, 2009. The gain on disposal of assets was primarily due to a spectrum exchange agreement that was consummated during the three months ended September 30, 2010. The loss on disposal of assets during the three months ended September 30, 2009 was due primarily to the disposal of assets related to certain network technology that was retired and replaced with newer technology during the three months ended September 30, 2009.

Interest Expense. Interest expense decreased approximately \$4.7 million, or approximately 7%, to \$65.7 million for the three months ended September 30, 2010 from approximately \$70.4 million for the three months ended September 30, 2009. The decrease in interest expense was primarily attributable to a \$8.3 million reduction in interest expense on the senior secured credit facility as a result of a lower weighted average annual interest rate due to the interest rate protection agreements that were effective on February 1, 2010, partially offset by an increase in interest expense on senior notes of approximately \$1.4 million due to the issuance of \$1.0 billion of principal amount of 7⁷/₈% Senior Notes due 2018, or 7⁷/₈% Senior Notes, in September 2010 coupled with a \$1.1 million decrease in capitalized interest. Our weighted average interest rate decreased to 7.33% for the three months ended September 30, 2010 compared to 8.25% for the three months ended September 30, 2009. Average debt outstanding for the three months ended September 30, 2010 and 2009 was \$3.5 billion.

Loss on Extinguishment of Debt. The loss on extinguishment of debt of approximately \$15.6 million for the three months ended September 30, 2010 was due to the redemption of \$313.1 million of outstanding aggregate principal amount of the 9¹/₄% senior notes during the three months ended September 30, 2010.

Provision for Income Taxes. Income tax expense was approximately \$49.4 million and approximately \$14.4 million for the three months ended September 30, 2010 and 2009, respectively. The effective tax rate was approximately 39.0% and 16.3% for the three months ended September 30, 2010 and 2009, respectively. For the three months ended September 30, 2010 and 2009, our effective rate differs from the statutory federal rate of 35.0% due to net state and local taxes, tax credits, non-deductible expenses, impairment on investment securities and a net change in uncertain tax positions.

Net Income. Net income increased \$3.7 million, or 5%, to approximately \$77.3 million for the three months ended September 30, 2010 compared to approximately \$73.6 million for the three months ended September 30, 2009. The increase was primarily attributable to a 31% increase in income from operations and an approximate 7% decrease in interest expense, partially offset by an approximate 244% increase in provision for income taxes and a loss on extinguishment of debt.

Set forth below is a summary of certain consolidated financial information for the periods indicated:

| | Nine Months Ended September 30, 2010 2009 | | Change |
|---|---|--------------|---------------|
| | (in thousands) | | |
| REVENUES: | | | |
| Service revenues | \$ 2,717,671 | \$ 2,305,888 | 18% |
| Equipment revenues | 286,156 | 244,646 | 17% |
| Total revenues | 3,003,827 | 2,550,534 | 18% |
| OPERATING EXPENSES: | | | |
| Cost of service (excluding depreciation and amortization disclosed separately below) (1) | 906,508 | 812,596 | 12% |
| Cost of equipment | 805,357 | 651,511 | 24% |
| Selling, general and administrative expenses (excluding depreciation and amortization disclosed separately below) (1) | 465,940 | 417,191 | 12% |
| Depreciation and amortization | 330,906 | 272,097 | 22% |
| Gain on disposal of assets | (16,461) | (8,328) | 98% |
| Total operating expenses | 2,492,250 | 2,145,067 | 16% |
| Income from operations | \$ 511,577 | \$ 405,467 | 26% |

(1) Cost of service and selling, general and administrative expenses include stock-based compensation expense. For the nine months ended September 30, 2010, cost of service includes approximately \$2.7 million and selling, general and administrative expenses includes \$32.4 million of stock-based compensation expense. For the nine months ended September 30, 2009, cost of service includes \$3.1 million and selling, general and administrative expenses includes approximately \$32.7 million of stock-based compensation expense.

Service Revenues. Service revenues increased approximately \$411.8 million, or approximately 18%, to \$2.7 billion for the nine months ended September 30, 2010 from \$2.3 billion for the nine months ended September 30, 2009. The increase in service revenues is primarily attributable to net customer additions of 1.5 million customers for the twelve months ended September 30, 2010.

Equipment Revenues. Equipment revenues increased \$41.5 million, or 17%, to approximately \$286.2 million for the nine months ended September 30, 2010 from approximately \$244.7 million for the nine months ended September 30, 2009. The increase is primarily attributable to an increase in upgrade handset sales to existing customers accounting for approximately \$57.5 million as well as a higher average price of handsets activated accounting for approximately \$17.3 million. These increases were partially offset by a decrease of \$36.4 million that would have been recognized as service revenues but was classified as equipment revenues during the nine months ended September 30, 2009, in accordance with ASC 605, because the consideration received from customers was less than the fair value of promotionally priced handsets.

Edgar Filing: METROPCS COMMUNICATIONS INC - Form 10-Q

Cost of Service. Cost of service increased \$93.9 million, or approximately 12%, to \$906.5 million for the nine months ended September 30, 2010 from approximately \$812.6 million for the nine months ended September 30, 2009. The increase in cost of service is primarily attributable to the 24% growth in our customer base during the twelve months ended September 30, 2010, the deployment of additional network infrastructure, including network infrastructure for 4G LTE, during the twelve months ended September 30, 2010 and costs associated with our unlimited international calling product.

Table of Contents

Cost of Equipment. Cost of equipment increased approximately \$153.9 million, or approximately 24%, to approximately \$805.4 million for the nine months ended September 30, 2010 from \$651.5 million for the nine months ended September 30, 2009. The increase is primarily attributable to higher upgrade handset costs to existing customers which led to an approximate \$180.7 million increase, partially offset by a decrease in gross customer additions accounting for an approximate \$25.2 million decrease.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$48.7 million, or approximately 12%, to \$465.9 million for the nine months ended September 30, 2010 from approximately \$417.2 million for the nine months ended September 30, 2009. Selling expenses increased by approximately \$26.6 million, or 12%, for the nine months ended September 30, 2010 compared to the nine months ended September 30, 2009. The increase in selling expenses is primarily attributable to an approximate \$30.9 million increase in marketing and advertising expenses as well as an approximate \$5.1 million increase in employee related costs to support our growth. These increases were partially offset by a \$9.6 million decrease in MetroFLASH® expense. General and administrative expenses increased approximately \$22.4 million, or approximately 14%, for the nine months ended September 30, 2010 as compared to the nine months ended September 30, 2009 primarily due to the growth in our business.

Depreciation and Amortization. Depreciation and amortization expense increased approximately \$58.8 million, or 22%, to \$330.9 million for the nine months ended September 30, 2010 from approximately \$272.1 million for the nine months ended September 30, 2009. The increase related primarily to an increase in network infrastructure assets placed into service during the twelve months ended September 30, 2010 to support the continued growth and expansion of our network.

Gain on Disposal of Assets. Gain on disposal of assets increased \$8.1 million, or approximately 98%, to approximately \$16.5 million for the nine months ended September 30, 2010 from \$8.3 million for the nine months ended September 30, 2009. The increase in the gain on disposal of assets was primarily due to asset sales and exchanges consummated during the nine months ended September 30, 2010, partially offset by the disposal of assets related to certain network technology that was retired and replaced with newer technology during the nine months ended September 30, 2010.

Non-Operating Items

| | Nine Months Ended September 30, | | Change |
|--------------------------------|------------------------------------|------------|--------|
| | 2010 | 2009 | |

Interest Expense. Interest expense decreased approximately \$0.7 million to \$198.7 million for the nine months ended September 30, 2010 from approximately \$199.4 million for the nine months ended September 30, 2009. The decrease in interest expense was primarily attributable to a \$20.4 million reduction in interest expense on the senior secured credit facility as a result of a lower weighted average annual interest rate due to the interest rate protection agreements that were effective on February 1, 2010, partially offset by an increase in capitalized interest of \$12.7 million coupled with an increase in interest expense on senior notes of approximately \$4.1 million due to the issuance of the 7⁷/₈% Senior Notes. Our weighted average interest rate decreased to 7.49% for the nine months ended September 30, 2010 compared to 8.22% for the nine months ended September 30, 2009. Average debt outstanding for the nine months ended September 30, 2010 and 2009 was \$3.5 billion and \$3.4 billion, respectively.

Loss on Extinguishment of Debt. The loss on extinguishment of debt of approximately \$15.6 million for the nine months ended September 30, 2010 was due to the redemption of \$313.1 million of outstanding aggregate principal amount of the 9¹/₄% senior notes during the nine months ended September 30, 2010.

Table of Contents

Provision for Income Taxes. Income tax expense was approximately \$117.4 million and approximately \$61.3 million for the nine months ended September 30, 2010 and 2009, respectively. The effective tax rate was approximately 39.5% and 30.0% for the nine months ended September 30, 2010 and 2009, respectively. For the nine months ended September 30, 2010 and 2009, our effective rate differs from the statutory federal rate of 35.0% due to net state and local taxes, tax credits, non-deductible expenses, impairment on investment securities and a net change in uncertain tax positions.

Net Income. Net income increased approximately \$36.2 million, or 25%, to approximately \$179.9 million for the nine months ended September 30, 2010 compared to \$143.7 million for the nine months ended September 30, 2009. The increase was primarily attributable to an approximate 26% increase in income from operations, partially offset by an approximate 92% increase in provision for income taxes and a loss on extinguishment of debt.

Performance Measures

In managing our business and assessing our financial performance, we supplement the information provided by financial statement measures with several customer-focused performance metrics that are widely used in the wireless industry. These metrics include average revenue per user per month, or ARPU, which measures service revenue per customer; cost per gross customer addition, or CPGA, which measures the average cost of acquiring a new customer; cost per user per month, or CPU, which measures the non-selling cash cost of operating our business on a per customer basis; and churn, which measures turnover in our customer base. For a reconciliation of non-GAAP performance measures and a further discussion of the measures, please read [Reconciliation of non-GAAP Financial Measures](#) below.

The following table shows metric information for the three and nine months ended September 30, 2010 and 2009.

| | Three Months | | Nine Months | |
|----------------------|--------------------------|-----------|--------------------------|-----------|
| | Ended September 30, 2010 | 2009 | Ended September 30, 2010 | 2009 |
| Customers: | | | | |
| End of period | 7,857,384 | 6,322,269 | 7,857,384 | 6,322,269 |
| Net additions | 223,249 | 66,157 | 1,217,860 | 955,436 |
| Churn: | | | | |
| Average monthly rate | 3.8% | 5.8% | 3.6% | 5.5% |
| ARPU | \$ 39.69 | \$ 41.08 | \$ 39.78 | \$ 40.68 |
| CPGA | \$ 160.54 | \$ 153.94 | \$ 155.80 | \$ 148.27 |
| CPU | \$ 18.47 | \$ 17.27 | \$ 18.38 | \$ 16.93 |

Customers. Net customer additions were 223,249 for the three months ended September 30, 2010, compared to 66,157 for the three months ended September 30, 2009, an increase of 237%. Net customer additions were 1,217,860 for the nine months ended September 30, 2010, compared to 955,436 for the nine months ended September 30, 2009, an increase of 27%. Total customers were 7,857,384 as of September 30, 2010, an increase of 24% over the customer total as of September 30, 2009 and 18% over the customer total as of December 31, 2009. The increase in total customers is primarily attributable to the continued demand for our service offerings.

Churn. As we do not require a long-term service contract, our churn percentage is expected to be higher than traditional wireless carriers that require customers to sign a one- to two-year contract with significant early termination fees. Average monthly churn represents (a) the number of customers who have been disconnected from our system during the measurement period less the number of customers who have reactivated service, divided by (b) the sum of the average monthly number of customers during such period. We classify delinquent customers as churn after they have been delinquent for 30 days. In addition, when an existing customer establishes a new account in connection with the purchase of an upgraded or replacement phone and does not identify themselves as an existing customer, we count the phone leaving service as a churn and the new phone entering service as a gross customer addition (false churn). Churn for the three months ended September 30, 2010 and 2009, was 3.8% and 5.8%, respectively. Churn for the nine months ended September 30, 2010 and 2009, was 3.6% and 5.5%, respectively. The decrease in churn was primarily related to the acceptance of our *Wireless for All* tax and regulatory fee inclusive service plans including a decline in false churn. Our customer activity is influenced by

Table of Contents

seasonal effects related to traditional retail selling periods and other factors that arise from our target customer base. Based on historical results, we generally expect net customer additions to be strongest in the first and fourth quarters. Softening of sales and increased churn in the second and third quarters of the year usually combine to result in fewer net customer additions during these quarters. See Seasonality.

Average Revenue Per User. ARPU represents (a) service revenues plus impact to service revenues of promotional activity less pass through charges for the measurement period, divided by (b) the sum of the average monthly number of customers during such period. ARPU was \$39.69 and \$41.08 for three months ended September 30, 2010 and 2009, respectively, a decrease of \$1.39. ARPU was \$39.78 and \$40.68 for nine months ended September 30, 2010 and 2009, respectively, a decrease of \$0.90. The decrease in ARPU for the three and nine months ended September 30, 2010, when compared to the same period in 2009, was primarily attributable to our new *Wireless for All* service plans that were introduced in January 2010, which include all applicable taxes and regulatory fees.

Cost Per Gross Addition. CPGA is determined by dividing (a) selling expenses plus the total cost of equipment associated with transactions with new customers less equipment revenues associated with transactions with new customers during the measurement period adjusted for impact to service revenues of promotional activity by (b) gross customer additions during such period. Retail customer service expenses and equipment margin on handsets sold to existing customers when they are identified, including handset upgrade transactions, are excluded, as these costs are incurred specifically for existing customers. CPGA costs increased to \$160.54 for the three months ended September 30, 2010 from \$153.94 for the three months ended September 30, 2009. CPGA costs increased to \$155.80 for the nine months ended September 30, 2010 from \$148.27 for the nine months ended September 30, 2009. This increase in CPGA was primarily driven by lower gross additions.

Cost Per User. CPU is determined by dividing (a) cost of service and general and administrative costs (excluding applicable stock-based compensation expense included in cost of service and general and administrative expense) plus net loss on handset equipment transactions unrelated to initial customer acquisition by (b) the sum of the average monthly number of customers during such period. CPU increased to \$18.47 for the three months ended September 30, 2010 from \$17.27 for the three months ended September 30, 2009. This was primarily driven by the increase in handset subsidies for upgrades by existing customers and the inclusion of regulatory fees in our *Wireless for All* service plans. CPU increased to \$18.38 for the nine months ended September 30, 2010 from \$16.93 for the nine months ended September 30, 2009. This was primarily driven by the increase in handset subsidies for upgrades by existing customers and the inclusion of regulatory fees in our *Wireless for All* service plans, as well as the costs associated with our unlimited international calling service.

Reconciliation of non-GAAP Financial Measures

We utilize certain financial measures and key performance indicators that are not calculated in accordance with GAAP to assess our financial and operating performance. A non-GAAP financial measure is defined as a numerical measure of a company's financial performance that (i) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the comparable measure calculated and presented in accordance with GAAP in the statement of income or statement of cash flows, or (ii) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the comparable measure so calculated and presented.

ARPU, CPGA, and CPU are non-GAAP financial measures utilized by our management to judge our ability to meet our liquidity requirements and to evaluate our operating performance. We believe these measures are important in understanding the performance of our operations from period to period, and although every company in the wireless industry does not define each of these measures in precisely the same way, we believe that these measures (which are common in the wireless industry) facilitate key liquidity and operating performance comparisons with other companies in the wireless industry. The following tables reconcile our non-GAAP financial measures with our financial statements presented in accordance with GAAP.

ARPU We utilize ARPU to evaluate our per-customer service revenue realization and to assist in forecasting our future service revenues. ARPU is calculated exclusive of pass through charges that we collect from our customers and remit to the appropriate government agencies.

Table of Contents

Average number of customers for any measurement period is determined by dividing (a) the sum of the average monthly number of customers for the measurement period by (b) the number of months in such period. Average monthly number of customers for any month represents the sum of the number of customers on the first day of the month and the last day of the month divided by two. ARPU for the nine months ended September 30, 2010 includes approximately \$0.8 million and ARPU for the three and nine months ended September 30, 2009 includes approximately \$12.5 million and \$37.2 million, respectively, that would have been recognized as service revenues but were classified as equipment revenues because the consideration received from customers was less than the fair value of promotionally priced handsets. The following table shows the calculation of ARPU for the periods indicated.

CPGA We utilize CPGA to assess the efficiency of our distribution strategy, validate the initial capital invested in our customers and determine the number of months to recover our customer acquisition costs. This measure also allows us to compare our average acquisition costs per new customer to those of other wireless broadband mobile providers. Equipment revenues related to new customers, adjusted for the impact to service revenues of promotional activity, are deducted from selling expenses in this calculation as they represent amounts paid by customers at the time their service is activated that reduce our acquisition cost of those customers. Additionally, equipment costs associated with existing customers, net of related revenues, are excluded as this measure is intended to reflect only the acquisition costs related to new customers. The following table reconciles total costs used in the calculation of CPGA to selling expenses, which we consider to be the most directly comparable GAAP financial measure to CPGA.

CPU We utilize CPU as a tool to evaluate the non-selling cash expenses associated with ongoing business operations on a per customer basis, to track changes in these non-selling cash costs over time, and to help evaluate how changes in our business operations affect non-selling cash costs per customer. In addition, CPU provides management with a useful measure to compare our non-selling cash costs per customer with those of other wireless providers. We believe investors use CPU primarily as a tool to track changes in our non-selling cash costs over time and to compare our non-selling cash costs to those of other wireless providers, although other wireless carriers may calculate this measure differently. The following table reconciles total costs used in the calculation of CPU to cost of service, which we consider to be the most directly comparable GAAP financial measure to CPU.

Liquidity and Capital Resources

Our principal sources of liquidity are our existing cash, cash equivalents and short-term investments, and cash generated from operations. At September 30, 2010, we had a total of \$1.9 billion in cash, cash equivalents and short-term investments. In recent years the capital and credit markets have become increasingly volatile as a result of adverse economic and financial conditions that have triggered the failure and near failure of a number of large financial services companies and a global recession. We believe that this increased volatility and global recession may make it difficult at times to obtain additional financing, sell additional equity or debt securities, or to refinance existing indebtedness. We believe that, based on our current level of cash, cash equivalents and short-term investments, and our anticipated cash flows from operations, the current adverse economic and financial conditions will not have a material impact on our liquidity, cash flow, financial flexibility or our ability to fund our operations in the near-term.

On January 20, 2009, Wireless completed the sale of \$550.0 million of 9 1/4% Senior Notes due 2014, or the New 9 1/4% Senior Notes. The net proceeds from the sale of the New 9 1/4% Senior Notes were approximately \$480.3 million. The net proceeds will be used for general corporate purposes which could include working capital, capital expenditures, future liquidity needs, additional opportunistic spectrum acquisitions, corporate development opportunities and future technology initiatives or the retirement of outstanding debt.

On July 16, 2010, Wireless entered into an Amendment and Restatement and Resignation and Appointment Agreement, or the Amendment, which amends and restates the Senior Secured Credit Facility. The Amendment amends the Senior Secured Credit Facility to, among other things, extend the maturity of \$1.0 billion of existing term loans under the Senior Secured Credit Facility to November 2016 as well as increase the interest rate to LIBOR plus 3.50% on the extended portion only. The remaining \$536.0 million will mature in 2013 and the interest rate continues to be LIBOR plus 2.25%.

On September 21, 2010, Wireless completed the sale of \$1.0 billion of principal amount of 7 7/8% Senior Notes. The net proceeds from the sale of the 7 7/8% Senior Notes were \$974.9 million after underwriter fees, discounts and other debt issuance costs of \$25.1 million. A portion of the net proceeds from the sale of the 7 7/8% Senior Notes were used to fund a cash tender offer to redeem \$313.1 million of outstanding aggregate principal amount of the 9 1/4% Senior Notes at a price equal to 104.625% for total cash consideration of \$327.5 million.

On November 1, 2010, Wireless completed the redemption of an additional \$686.9 million in outstanding aggregate principal amount of the 9 1/4% Senior Notes at a price equal to 104.625% for total cash consideration of \$718.7 million. The redemption will result in a loss on extinguishment of debt in the amount of approximately \$31.8 million.

Our strategy has been to offer our services in major metropolitan areas and their surrounding areas, which we refer to as operating segments. We are seeking opportunities to enhance our current operating segments and to potentially provide service in new geographic areas. From time to time, we may purchase spectrum and related assets from third parties or the FCC. We believe that our existing cash, cash equivalents and

short-term investments and our anticipated cash flows from operations will be sufficient to fully fund planned expansion.

Table of Contents

The construction of our network and the marketing and distribution of our wireless communications products and services have required, and will continue to require, substantial capital investment. Capital outlays have included license acquisition costs, capital expenditures for construction or upgrade of our network infrastructure, including network infrastructure for 4G LTE, costs associated with clearing and relocating non-governmental incumbent licenses, funding of operating cash flow losses incurred as we launch services in new metropolitan areas and other working capital costs, debt service and financing fees and expenses. Our capital expenditures for the nine months ended September 30, 2010 were \$547.9 million and capital expenditures for the year ended December 31, 2009 were approximately \$831.7 million. The expenditures for the nine months ended September 30, 2010 were primarily associated with our efforts to increase the service area and capacity of our existing network and the upgrade of our network to 4G LTE in select metropolitan areas. We believe the increased service area and capacity in existing markets will improve our service offerings, helping us to attract additional customers and retain existing customers and increase revenues.

As of September 30, 2010, we owed an aggregate of \$4.2 billion under our senior secured credit facility, 9¹/₄% senior notes and 7⁷/₈% Senior Notes as well as \$202.1 million under our capital lease obligations.

Our senior secured credit facility defines consolidated Adjusted EBITDA as: consolidated net income *plus* depreciation and amortization; gain (loss) on disposal of assets; non-cash expenses; gain (loss) on extinguishment of debt; provision for income taxes; interest expense; and certain expenses of MetroPCS Communications, Inc. *minus* interest and other income and non-cash items increasing consolidated net income.

We consider consolidated Adjusted EBITDA, as defined above, to be an important indicator to investors because it provides information related to our ability to provide cash flows to meet future debt service, capital expenditures and working capital requirements and fund future growth. We present consolidated Adjusted EBITDA because covenants in our senior secured credit facility contain ratios based on this measure. Other wireless carriers may calculate consolidated Adjusted EBITDA differently. If our consolidated Adjusted EBITDA were to decline below certain levels, covenants in our senior secured credit facility that are based on consolidated Adjusted EBITDA, including our maximum senior secured leverage ratio covenant, may be violated and could cause, among other things, an inability to incur further indebtedness and in certain circumstances a default or mandatory prepayment under our senior secured credit facility. Our maximum senior secured leverage ratio is required to be less than 4.5 to 1.0 based on consolidated Adjusted EBITDA plus the impact of certain new markets. The lenders under our senior secured credit facility use the senior secured leverage ratio to measure our ability to meet our obligations on our senior secured debt by comparing the total amount of such debt to our consolidated Adjusted EBITDA, which our lenders use to estimate our cash flow from operations. The senior secured leverage ratio is calculated as the ratio of senior secured indebtedness to consolidated Adjusted EBITDA, as defined by our senior secured credit facility. For the twelve months ended September 30, 2010, our senior secured leverage ratio was 1.56 to 1.0, which means for every \$1.00 of consolidated Adjusted EBITDA, we had \$1.56 of senior secured indebtedness. In addition, consolidated Adjusted EBITDA is also utilized, among other measures, to determine management's compensation under their annual cash performance awards. Consolidated Adjusted EBITDA is not a measure calculated in accordance with GAAP, and should not be considered a substitute for operating income, net income, or any other measure of financial performance reported in accordance with GAAP. In addition, consolidated Adjusted EBITDA should not be construed as an alternative to, or more meaningful than cash flows from operating activities, as determined in accordance with GAAP.

Operating Activities

Cash provided by operating activities decreased approximately \$100.0 million to approximately \$679.4 million during the nine months ended September 30, 2010 from approximately \$779.4 million for the nine months ended September 30, 2009. The decrease was primarily attributable to a decrease in cash flows from working capital changes partially offset by a 25% increase in net income during the nine months ended September 30, 2010 compared to the same period in 2009.

Investing Activities

Cash used in investing activities was approximately \$1.3 billion during the nine months ended September 30, 2010 compared to approximately \$894.9 million during the nine months ended September 30, 2009. The increase was due primarily to a \$563.0 million increase in net purchases of short term investments partially offset by an approximate \$88.6 million decrease in purchases of property and equipment.

Table of Contents***Financing Activities***

Cash provided by financing activities was approximately \$550.7 million during the nine months ended September 30, 2010 compared to \$373.1 million during the nine months ended September 30, 2009. The increase was due primarily to \$974.9 million in net proceeds from the issuance of the 7¹/₈% Senior Notes, partially offset by an approximate \$327.5 million in cash used for the Tender Offer during the nine months ended September 30, 2010 compared to \$480.3 million in net proceeds from the issuance of the New 9¹/₄% Senior Notes during the nine months ended September 30, 2009.

Capital Lease Obligations

We have entered into various non-cancelable capital lease agreements, with expirations through 2025. Assets and future obligations related to capital leases are included in the accompanying condensed consolidated balance sheets in property and equipment and long-term debt, respectively. Depreciation of assets held under capital lease obligations is included in depreciation and amortization expense. As of September 30, 2010, we had \$202.1 million of capital lease obligations, with \$4.4 million and \$197.7 million recorded in current maturities of long-term debt and long-term debt, respectively.

Capital Expenditures and Other Asset Acquisitions and Dispositions

Capital Expenditures. We currently expect to incur capital expenditures in the range of \$750.0 million to \$850.0 million on a consolidated basis for the year ending December 31, 2010.

During the nine months ended September 30, 2010, we incurred \$547.9 million in capital expenditures. During the year ended December 31, 2009, we incurred approximately \$831.7 million in capital expenditures. The capital expenditures for the nine months ended September 30, 2010 were primarily associated with our efforts to increase the service area and capacity of our existing network and the upgrade of our network to 4G LTE in select metropolitan areas.

Other Acquisitions and Dispositions. On July 27, 2010, we entered into a like-kind spectrum exchange agreement for licenses in certain metropolitan areas with another service provider, or the Service Provider. Consummation of this spectrum exchange agreement is subject to customary closing conditions, including final FCC consent. We will acquire 10 MHz of AWS spectrum in Orlando in exchange for 10 MHz of PCS spectrum in Ft. Pierce-Vero Beach-Stuart, Florida, 20 MHz of partitioned AWS spectrum in the Salt Lake City and Portland cellular marketing areas and total cash consideration of \$ 3.0 million.

On August 23, 2010, we closed on a like-kind spectrum exchange agreement covering licenses in certain markets with the Service Provider. The Service Provider acquired 10 MHz of AWS spectrum in Dallas/Fort Worth, Texas; Shreveport-Bossier City, Louisiana; and an additional 10 MHz of AWS spectrum in certain other Washington markets, as well as an additional 10 MHz of PCS spectrum in Sacramento, California. We acquired 10 MHz of AWS spectrum in Dallas/Fort Worth, Texas and Shreveport-Bossier City, Louisiana; and an additional 10 MHz of AWS spectrum in Santa Barbara, California, and Tampa-St. Petersburg-Clearwater, Florida. The exchange of spectrum resulted in a gain on disposal of asset in the amount of \$19.2 million.

On October 14, 2010, we entered into an asset purchase agreement to acquire 10 MHz of AWS spectrum and certain related network assets in the Northeast market area for \$47.5 million in cash. Consummation of this asset purchase agreement is subject to customary closing conditions, including final FCC consent. The Company closed on a portion of the asset purchase agreement on November 1, 2010.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Inflation

We believe that inflation has not materially affected our operations.

Effect of New Accounting Standards

We believe that the adoption of new accounting standards has not materially affected our results of operations.

Fair Value Measurements

We do not expect changes in the aggregate fair value of our financial assets and liabilities to have a material adverse impact on the condensed consolidated financial statements. See Note 9 to the financial statements included in this report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the potential loss arising from adverse changes in market prices and rates, including interest rates. We do not routinely enter into derivatives or other financial instruments for trading, speculative or hedging purposes, unless it is hedging interest rate risk exposure or is required by our senior secured credit facility. We do not currently conduct business internationally, so we are generally not subject to foreign currency exchange rate risk.

As of September 30, 2010, we had approximately \$1.5 billion in outstanding indebtedness under our senior secured credit facility that bears interest at floating rates based on the London Inter Bank Offered Rate, or LIBOR, plus 2.25% for the Term B-1 Tranche and LIBOR plus 3.50% for the Term B-2 Tranche. The interest rate on the outstanding debt under our senior secured credit facility as of September 30, 2010 was 4.593%, which includes the impact of our interest rate protection agreements. In March 2009, we entered into three separate two-year interest rate protection agreements to manage the Company's interest rate risk exposure. These agreements were effective on February 1, 2010 and cover a notional amount of \$1.0 billion and effectively convert this portion of our variable rate debt to fixed rate debt at a weighted average annual rate of 5.246%. The monthly interest settlement periods began on February 1, 2010. These agreements expire on February 1, 2012. If market LIBOR rates increase 100 basis points over the rates in effect at September 30, 2010, annual interest expense on the approximate \$536.0 million in variable rate debt that is not subject to interest rate protection agreements would increase approximately \$5.4 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported as required by the SEC and that such information is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow for appropriate and timely decisions regarding required disclosure. Our management, with participation by our CEO and CFO, has designed the Company's disclosure controls and procedures to provide reasonable assurance of achieving these desired objectives. As required by SEC Rule 13a-15(b), we conducted an evaluation, with the participation of our CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2010, the end of the period covered by this report. In designing and evaluating the disclosure controls and procedures (as defined by SEC Rule 13a-15(e)), our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is necessarily required to apply judgment in evaluating the cost-benefit relationship of possible controls and objectives. Based upon that evaluation, our CEO and CFO have concluded that our disclosure controls and procedures are effective as of September 30, 2010.

OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in litigation from time to time, including litigation regarding intellectual property claims, that we consider to be in the normal course of business. Legal proceedings are inherently unpredictable, and the matters in which we are involved often present complex legal and factual issues. We intend to vigorously pursue defenses in all matters in which we are involved and engage in discussions where possible to resolve these matters on terms favorable to us. We believe that any amounts alleged in the matters discussed below for which we are allegedly liable are not necessarily meaningful indicators of our potential liability. We determine whether we should accrue an estimated loss for a contingency in a particular legal proceeding by assessing whether a loss is deemed probable and can be reasonably estimated. We reassess our views on estimated losses on a quarterly basis to reflect the impact of any developments in the matters in which we are involved. It is possible, however, that our business, financial condition and results of operations in future periods could be materially adversely affected by increased expense, significant settlement costs and/or unfavorable damage awards relating to such matters. Other than the matter listed below we are not currently party to any pending legal proceedings that we believe could, individually or in the aggregate, have a material adverse effect on our financial condition, results of operations or liquidity.

MetroPCS, certain current officers and a director (collectively, the defendants) have been named as defendants in a securities class action lawsuit filed on December 15, 2009 in the United States District Court for the Northern District of Texas, Civil Action No. 3:09-CV-2392. Plaintiff alleges that the defendants violated Section 10(b) of the Exchange Act and Rule 10b-5 thereunder, and Section 20(a) of the Exchange Act. The complaint alleges that the defendants made false and misleading statements about MetroPCS business, prospects and operations. The claims are based upon various alleged public statements made during the period from February 26, 2009 through November 4, 2009. The lawsuit seeks, among other relief, a determination that the alleged claims may be asserted on a class-wide basis, unspecified compensatory damages, attorneys fees, other expenses, and costs. On February 16, 2010, Kevin Hopson, an alleged MetroPCS shareholder, filed a motion in the United States District Court for the Northern District of Texas seeking to be designated as the lead plaintiff in this action. On May 11, 2010, the Court appointed Kevin Hopson as lead plaintiff and Plaintiff (an individual on behalf of others similarly situated) on June 25, 2010 filed an amended complaint. Defendants filed a motion to dismiss on August 9, 2010. Plaintiff filed its opposition to Defendant s motion to dismiss on September 8, 2010, and Defendants reply was filed on October 8, 2010. Due to the complex nature of the legal and factual issues involved in this action, the outcome is not presently determinable. If this matter were to proceed beyond the pleading stage, MetroPCS could be required to incur substantial costs and expenses to defend this matter and/or be required to pay substantial damages or settlement costs, which could materially adversely affect our business, financial condition and results of operations.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those previously disclosed in Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2009 filed with the SEC on March 1, 2010, other than the changes and additions to the Risk Factors set forth in our Quarterly Reports on Form 10-Q for the quarter ended March 31, 2010 filed with the SEC on May 10, 2010 and for the quarter ended June 30, 2010 filed with the SEC on August 9, 2010. You should be aware that the risk factors included in all our filings with the SEC and other information contained in our filings with the SEC may not describe every risk facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and operating results.
