## Edgar Filing: Accenture plc - Form 10-Q

*(Address of principal executive offices)*

**(353) (1) 646-2000**

*(Registrant's telephone number, including area code)*

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer       Accelerated filer       Non-accelerated filer       Smaller reporting filer company   
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The number of shares of the registrant's Class A ordinary shares, par value \$0.0000225 per share, outstanding as of March 18, 2011 was 649,281,204 (which number does not include 69,241,949 issued shares held by the registrant). The number of shares of the registrant's Class X ordinary shares, par value \$0.0000225 per share, outstanding as of March 18, 2011 was 53,268,039.

**ACCENTURE PLC**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)**

**(Unaudited)**

**1. BASIS OF PRESENTATION**

The accompanying unaudited interim Consolidated Financial Statements of Accenture plc and its controlled subsidiary companies (collectively, the Company) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (U.S. GAAP) for complete financial statements. These Consolidated Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and Notes thereto for the fiscal year ended August 31, 2010 included in the Company's Annual Report on Form 10-K filed with the SEC on October 26, 2010.

The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect amounts reported in the Consolidated Financial Statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may be different from those estimates. The Consolidated Financial Statements reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair presentation of results for these interim periods. The results of operations for the three and six months ended February 28, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2011.

Certain amounts reported in previous years have been reclassified to conform to the current-period presentation.

The Company has evaluated events and transactions subsequent to the balance sheet date. Based on this evaluation, the Company is not aware of any events or transactions that occurred subsequent to the balance sheet date but prior to filing that would require recognition or disclosure in its Consolidated Financial Statements.

***Allowances for Client Receivables and Unbilled Services***

As of February 28, 2011 and August 31, 2010, total allowances for client receivables and unbilled services were \$75,518 and \$104,753, respectively.

***Accumulated Depreciation***

As of February 28, 2011 and August 31, 2010, total accumulated depreciation was \$1,673,610 and \$1,559,738, respectively.

***Recently Adopted Accounting Pronouncements***

In September 2010, the Company adopted guidance issued by the Financial Accounting Standards Board (FASB) on revenue recognition guidance for arrangements with multiple deliverables. The guidance: eliminates the residual method of allocation in previous guidance; requires that arrangement considerations be allocated at the inception of the arrangement to all deliverables using the relative selling price; and requires a vendor to use estimates of a selling price developed in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis for all deliverables that meet the remaining separation criteria when vendor-specific objective evidence and third-party evidence, respectively, do not exist as estimates of selling price. The adoption of this guidance did not have a material impact on the Consolidated Financial Statements.

## ACCENTURE PLC

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

**2. EARNINGS PER SHARE**

Basic and diluted earnings per share are calculated as follows:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2011	2010	2011	2010
<b>Basic Earnings per share</b>				
Net income attributable to Accenture plc	\$ 503,017	\$ 399,760	\$ 1,037,731	\$ 844,577
Basic weighted average Class A ordinary shares	646,292,241	638,695,204	641,779,811	635,092,477
Basic earnings per share	\$ 0.78	\$ 0.63	\$ 1.62	\$ 1.33
<b>Diluted Earnings per share</b>				
Net income attributable to Accenture plc	\$ 503,017	\$ 399,760	\$ 1,037,731	\$ 844,577
Net income attributable to noncontrolling interests in Accenture SCA and Accenture Canada Holdings Inc. (1)	54,590	58,470	119,264	132,451
Net income for diluted earnings per share calculation	\$ 557,607	\$ 458,230	\$ 1,156,995	\$ 977,028
Basic weighted average Class A ordinary shares	646,292,241	638,695,204	641,779,811	635,092,477
Class A ordinary shares issuable upon redemption/exchange of noncontrolling interests (1)	70,114,266	93,445,695	73,609,433	99,259,619
Diluted effect of employee compensation related to Class A ordinary shares (2)	26,316,242	36,817,243	27,466,312	36,868,497
Diluted effect of share purchase plans related to Class A ordinary shares	129,687	230,094	57,126	178,425
Diluted weighted average Class A ordinary shares	742,852,436	769,188,236	742,912,682	771,399,018
Diluted earnings per share (2)	\$ 0.75	\$ 0.60	\$ 1.56	\$ 1.27

- (1) Diluted earnings per share assumes the redemption of all Accenture SCA Class I common shares owned by holders of noncontrolling interests and the exchange of all Accenture Canada Holdings Inc. exchangeable shares, for Accenture plc Class A ordinary shares, on a one-for-one basis. The income effect does not take into account Net income attributable to noncontrolling interests other, since those shares are not redeemable or exchangeable for Accenture plc Class A ordinary shares.

## Edgar Filing: Accenture plc - Form 10-Q

- (2) Fiscal 2010 diluted weighted average Accenture plc Class A ordinary shares and earnings per share amounts have been restated to reflect the impact of the issuance of additional restricted share units to holders of restricted share units in connection with the payment of cash dividends. This did not result in a change to previously reported Diluted earnings per share.

### **3. INCOME TAXES**

#### *Effective Tax Rate*

The Company's effective tax rates for the three months ended February 28, 2011 and 2010 were 26.9% and 27.8%, respectively. The Company's effective tax rates for the six months ended February 28, 2011 and 2010 were 27.6% and 29.2%, respectively. The effective tax rates for the three and six months ended February 28, 2011 are lower than the effective tax rates for the three and six months ended February 28, 2010 due to a number of factors that impact the geographic mix of income.

**Table of Contents****ACCENTURE PLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)****(Unaudited)****4. REORGANIZATION COSTS, NET**

In fiscal 2001, the Company accrued reorganization liabilities in connection with its transition to a corporate structure. These liabilities included certain non-income tax liabilities, such as stamp taxes, as well as liabilities for certain individual income tax exposures related to the transfer of interests in certain entities to the Company as part of the reorganization. These primarily represent unusual and disproportionate individual income tax exposures assumed by certain, but not all, of the Company's shareholders and partners in certain tax jurisdictions specifically related to the transfer of their partnership interests in certain entities to the Company as part of the reorganization. (Prior to fiscal 2005, the Company referred to its highest-level employees with the partner title and the Company continues to use the term partner to refer to these persons in certain situations related to its reorganization and the period prior to its incorporation.) The Company identified certain shareholders and partners who may incur such unusual and disproportionate financial damage in certain jurisdictions. These include shareholders and partners who were subject to tax in their jurisdiction on items of income arising from the reorganization transaction that were not taxable for most other shareholders and partners. In addition, certain other shareholders and partners were subject to a different rate or amount of tax than other shareholders or partners in the same jurisdiction. When additional taxes are assessed on these shareholders or partners in connection with these transfers, the Company has made and intends to make payments, and in one country has contractually committed, to reimburse certain costs associated with the assessment either to the shareholder or partner, or to the taxing authority. The Company has recorded reorganization expense and the related liability where such liabilities are probable. Interest accruals are made to cover reimbursement of interest on such tax assessments.

The Company's reorganization activity was as follows:

	Three Months Ended February 28,		Six Months Ended February 28,	
	2011	2010	2011	2010
Reorganization liability, beginning of period	\$ 281,781	\$ 315,525	\$ 271,907	\$ 296,104
Final determinations (1)		(743)		(743)
Interest expense accrued	369	3,380	717	6,945
Foreign currency translation adjustments	14,019	(30,044)	23,545	(14,188)
Reorganization liability, end of period	\$ 296,169	\$ 288,118	\$ 296,169	\$ 288,118

(1) Includes final agreements with tax authorities and expirations of statutes of limitations.

As of February 28, 2011, reorganization liabilities of \$284,843 were included in Other accrued liabilities because expirations of statutes of limitations or other final determinations could occur within 12 months, and reorganization liabilities of \$11,326 were included in Other non-current liabilities. Timing of the resolution of tax audits or the initiation of additional litigation and/or criminal tax proceedings may delay final resolution. Final resolution, through settlement, conclusion of legal proceedings or a tax authority's decision not to pursue a claim, will result in payment by the Company of amounts in settlement or judgment of these matters and/or recording of a reorganization benefit or cost in the Company's Consolidated Income Statement. It is possible the aggregate amount of such payments in connection with resolution of all such proceedings could exceed the currently recorded amounts. As of February 28, 2011, only a small number of jurisdictions remain that have active audits/investigations or open statutes of limitations, and only one is significant. In that jurisdiction, current and former partners, and the Company, are engaged in disputes with tax authorities in connection with the corporate reorganization in 2001, some of which have resulted, and others of which are expected to result in litigation. These individuals and the Company intend to vigorously defend their positions.

(1) Additions/Adjustments primarily related to immaterial acquisitions made during the six months ended February 28, 2011.

**6. SHAREHOLDERS EQUITY****Comprehensive Income**

Comprehensive income was as follows:

	Three months ended February 28,		Six months ended February 28,	
	2011	2010	2011	2010
Comprehensive income attributable to Accenture plc	\$ 592,786	\$ 312,663	\$ 1,184,542	\$ 873,052
Comprehensive income attributable to noncontrolling interests	73,788	46,080	153,596	147,028
Total comprehensive income	\$ 666,574	\$ 358,743	\$ 1,338,138	\$ 1,020,080

**Dividends**

The Company's dividend activity during the six months ended February 28, 2011 was as follows:

Dividend Per

Total Cash

## Edgar Filing: Accenture plc - Form 10-Q

Dividend Payment Date	Accenture plc Class A Ordinary Shares			Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares		
	Share	Record Date	Cash Outlay	Record Date	Cash Outlay	Outlay
November 15, 2010	\$ 0.45	October 15, 2010	\$ 285,263	October 12, 2010	\$ 35,387	\$ 320,650

The payment of the cash dividends also resulted in the issuance of additional restricted share units to holders of restricted share units. Diluted weighted average Accenture plc Class A ordinary share amounts have been restated for all periods presented to reflect this issuance.

### Subsequent Event

On March 23, 2011, the Board of Directors of Accenture plc declared a cash dividend of \$0.45 per share on Accenture plc Class A ordinary shares for shareholders of record at the close of business on April 15, 2011. Accenture plc will cause Accenture SCA to declare a cash dividend of \$0.45 per share on its Class I common shares for shareholders of record at the close of business on April 12, 2011. Both dividends are payable on May 13, 2011.

**Table of Contents****ACCENTURE PLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)****(Unaudited)****7. DERIVATIVE FINANCIAL INSTRUMENTS**

In the normal course of business, the Company uses derivative financial instruments to manage foreign currency exchange rate risk. Derivative transactions are governed by a uniform set of policies and procedures covering areas such as authorization, counterparty exposure and hedging practices. Positions are monitored using techniques such as market value and sensitivity analyses. The Company does not enter into derivative transactions for trading purposes.

Certain derivatives also give rise to credit risks from the possible non-performance by counterparties. Credit risk is generally limited to the fair value of those contracts that are favorable to the Company, and the maximum amount of loss due to credit risk, based on the gross fair value of all of the Company's derivative financial instruments, was approximately \$69,523 as of February 28, 2011. The Company has limited its credit risk by entering into derivative transactions only with highly-rated global financial institutions, limiting the amount of credit exposure with any one financial institution and conducting ongoing evaluation of the creditworthiness of the financial institutions with which it does business.

The Company also utilizes standard counterparty master agreements containing provisions for the netting of certain foreign currency transaction obligations and for set-off of certain obligations in the event of an insolvency of one of the parties to the transaction. These provisions may reduce the Company's potential overall loss resulting from the insolvency of a counterparty and reduce a counterparty's potential overall loss resulting from the insolvency of the Company. Additionally, these agreements contain early termination provisions triggered by adverse changes in a counterparty's credit rating, thereby enabling the Company to accelerate settlement of a transaction prior to its contractual maturity and potentially decrease the Company's realized loss on an open transaction. Similarly, a decrement in the Company's credit rating could trigger a counterparty's early termination rights, thereby enabling a counterparty to accelerate settlement of a transaction prior to its contractual maturity and potentially increase the Company's realized loss on an open transaction. The aggregate fair value of the Company's derivative instruments with credit-risk-related contingent features that are in a liability position as of February 28, 2011 was \$11,657.

The Company's derivative financial instruments consist of deliverable and non-deliverable foreign currency forward contracts. Fair values for derivative financial instruments are based on prices computed using third-party valuation models and are classified as Level 2 in accordance with the three-level hierarchy of fair value measurements. All of the significant inputs to the third-party valuation models are observable in active markets. Inputs include current market-based parameters such as forward rates, yield curves and credit default swap pricing.

The Company classifies cash flows from its derivative programs as cash flows from operating activities in the Consolidated Cash Flow Statement. The notional and fair values of all derivative instruments were as follows:

	February 28, 2011		August 31, 2010	
	Notional Value	Fair Value	Notional Value	Fair Value
Foreign currency forward contracts:				
To buy	\$ 2,447,264	\$ 63,952	\$ 2,402,633	\$ 6,747
To sell	538,012	(6,086)	187,681	(427)
<b>Cash Flow Hedges</b>				

Certain of the Company's subsidiaries are exposed to currency risk through their use of resources supplied by the Company's Global Delivery Network. To mitigate this risk, the Company uses foreign currency forward contracts to hedge the foreign exchange risk of the forecasted intercompany expenses denominated in foreign currencies for up to three years in the future. The Company has designated these derivatives as cash flow hedges. As of February 28, 2011, the Company held no derivatives that were designated as fair value or net investment hedges.

**Table of Contents****ACCENTURE PLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)****(Unaudited)**

For a cash flow hedge, the effective portion of the change in estimated fair value of a hedging instrument is recorded in Accumulated other comprehensive loss as a separate component of Shareholders' Equity and is reclassified into Cost of services in the Consolidated Income Statement during the period in which the hedged transaction is recognized. The ineffective portion of the change in fair value of a cash flow hedge is recognized immediately in Other (expense) income, net in the Consolidated Income Statement and for the three and six months ended February 28, 2011 and 2010 was not material. In addition, the Company did not discontinue any cash flow hedges during the three and six months ended February 28, 2011 and 2010.

The activity related to the change in net unrealized gains (losses) on cash flow hedges, net of tax, in Accumulated other comprehensive loss was as follows:

	<b>Six Months Ended February 28,</b>	
	<b>2011</b>	<b>2010</b>
Net unrealized gains (losses) on cash flow hedges, net of tax, beginning of period	\$ 4,340	\$ (10,575)
Change in fair value, net of tax	33,468	26,578
Reclassification adjustments into earnings, net of tax	(6,189)	(3,470)
Portion attributable to Noncontrolling interests, net of tax	(2,559)	(2,840)
<b>Net unrealized gains on cash flow hedges, net of tax, end of period</b>	<b>\$ 29,060</b>	<b>\$ 9,693</b>

As of February 28, 2011, \$9,796 of the amounts related to derivatives designated as cash flow hedges and recorded in Accumulated other comprehensive loss is expected to be reclassified into earnings in the next 12 months.

The fair values of derivative instruments designated as cash flow hedges are recorded in the Consolidated Balance Sheet as follows:

	<b>February 28, 2011</b>	<b>August 31, 2010</b>
<b>Assets</b>		
Other current assets	\$ 21,339	\$ 10,806
Other non-current assets	36,690	13,962
<b>Total</b>	<b>\$ 58,029</b>	<b>\$ 24,768</b>
<b>Liabilities</b>		
Other accrued liabilities	\$ 2,724	\$ 9,845
Other non-current liabilities	895	5,202
<b>Total</b>	<b>\$ 3,619</b>	<b>\$ 15,047</b>

**Other Derivatives**

## Edgar Filing: Accenture plc - Form 10-Q

The Company also uses foreign currency forward contracts, which have not been designated as hedges, to hedge balance sheet exposures, such as intercompany loans. These instruments are generally short-term in nature, with typical maturities of less than one year, and are subject to fluctuations in foreign exchange rates. Realized gains or losses and changes in the estimated fair value of these derivatives was a net gain of \$27,449 and \$66,978 for the three and six months ended February 28, 2011, respectively. Realized gains or losses and changes in the estimated fair value of these derivatives was a net loss of \$(34,544) and a net gain of \$38,949 for the three and six months ended February 28, 2010, respectively. Net gains are offset by net foreign currency losses, including net losses related to the underlying balance sheet exposures and are recorded in Other (expense) income, net in the Consolidated Income Statement. Net losses are offset by net foreign currency gains, including net gains related to the underlying balance sheet exposures and are recorded in Other (expense) income, net in the Consolidated Income Statement.

**Table of Contents****ACCENTURE PLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)****(Unaudited)**

The fair values of other derivative instruments are recorded in the Consolidated Balance Sheet as follows:

	February 28, 2011	August 31, 2010
Other current assets	\$ 11,494	\$ 4,422
Other accrued liabilities	8,038	7,823

**8. COMMITMENTS AND CONTINGENCIES****Commitments**

The Company has the right to purchase or may also be required to purchase substantially all of the remaining outstanding shares of its Avanade Inc. subsidiary (Avanade) not owned by the Company at fair value if certain events occur. Certain holders of Avanade common stock and options to purchase the stock have put rights that, under certain circumstances and conditions, would require Avanade to redeem shares of its stock at fair value. As of February 28, 2011 and August 31, 2010, the Company has reflected the fair value of \$97,562 and \$93,404, respectively, related to Avanade's redeemable common stock and the intrinsic value of the options on redeemable common stock in Other accrued liabilities on the Consolidated Balance Sheet.

**Indemnifications and Guarantees**

In the normal course of business and in conjunction with certain client engagements, the Company has entered into contractual arrangements through which it may be obligated to indemnify clients with respect to certain matters. These arrangements with clients can include provisions whereby the Company has joint and several liability in relation to the performance of certain contractual obligations along with third parties also providing services and products for a specific project. Indemnification provisions are also included in arrangements under which the Company agrees to hold the indemnified party harmless with respect to third party claims related to such matters as title to assets sold or licensed or certain intellectual property rights.

Typically, the Company has contractual recourse against third parties for certain payments made by the Company in connection with arrangements where third party nonperformance has given rise to the client's claim. Payments by the Company under any of the arrangements described above are generally conditioned on the client making a claim which may be disputed by the Company typically under dispute resolution procedures specified in the particular arrangement. The limitations of liability under these arrangements may be expressly limited or may not be expressly specified in terms of time and/or amount.

As of February 28, 2011 and August 31, 2010, the Company's aggregate potential liability to its clients for expressly limited guarantees involving the performance of third parties was approximately \$694,000 and \$556,000, respectively, of which all but approximately \$79,000 and \$71,000, respectively, may be recovered from the other third parties if the Company is obligated to make payments to the indemnified parties that are the consequence of a performance default by the other third parties. For arrangements with unspecified limitations, the Company cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement.

To date, the Company has not been required to make any significant payment under any of the arrangements described above. The Company has assessed the current status of performance/payment risk related to arrangements with limited guarantees, unspecified limitations and/or indemnification provisions and believes that any potential payments would be immaterial to the Consolidated Financial Statements, as a whole.

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

**Legal Contingencies**

As of February 28, 2011, the Company or its present personnel had been named as a defendant in various litigation matters. The Company and/or its personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of its business around the world. Based on the present status of these matters, management believes these matters will not ultimately have a material effect on the Company's results of operations or financial condition.

**9. SEGMENT REPORTING**

The Company's reportable operating segments are the five operating groups, which are Communications & High Tech, Financial Services, Health & Public Service, Products and Resources. Information regarding the Company's reportable operating segments is as follows:

	Three Months Ended February 28,			
	2011		2010	
	Net Revenues	Operating Income	Net Revenues	Operating Income
Communications & High Tech	\$ 1,274,449	\$ 150,445	\$ 1,110,147	\$ 141,633
Financial Services	1,265,620	204,214	1,076,879	185,015

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended August 31, 2010, and with the information under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended August 31, 2010.*

*We use the terms Accenture, we, the Company, our and us in this report to refer to Accenture plc and its subsidiaries. All references to years, unless otherwise noted, refer to our fiscal year, which ends on August 31. For example, a reference to fiscal 2010 means the 12-month period that ended on August 31, 2010. All references to quarters, unless otherwise noted, refer to the quarters of our fiscal year.*

*We use the term in local currency so that certain financial results may be viewed without the impact of foreign currency exchange rate fluctuations, thereby facilitating period-to-period comparisons of business performance. Financial results in local currency are calculated by restating current period activity into U.S. dollars using the comparable prior year period's foreign currency exchange rates. This approach is used for all results where the functional currency is not the U.S. dollar.*

**Disclosure Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act) relating to our operations, results of operations and other matters that are based on our current expectations, estimates, assumptions and projections. Words such as may, will, should, likely, anticipates, expects, intends, plans, projects, believes, estimates and similar expressions are used to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

Our results of operations could be adversely affected by negative or uncertain economic or geopolitical conditions and the effects of these conditions on our clients' businesses and levels of business activity.

Our results of operations and ability to grow could be materially negatively affected if we cannot adapt and expand our services and solutions in response to changes in technology and client demand.

The consulting and outsourcing markets are highly competitive, and we might not be able to compete effectively.

Our work with government clients exposes us to additional risks inherent in the government contracting environment, including risks related to the U.S. federal budget.

Our business could be adversely affected if our clients are not satisfied with our services.

Our results of operations could be materially adversely affected if our clients terminate their contracts with us.

Outsourcing services are a significant part of our business and subject us to additional operational and financial risk.

## Edgar Filing: Accenture plc - Form 10-Q

Our results of operations could materially suffer if we are not able to obtain favorable pricing.

If we are unable to keep our supply of skills and resources in balance with client demand around the world, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected.

Our business could be materially adversely affected if we incur legal liability in connection with providing our services and solutions.

If our pricing estimates do not accurately anticipate the cost and complexity of performing our work, then our contracts could be unprofitable.

Many of our contracts include performance payments that link some of our fees to the attainment of performance or business targets. This could increase the variability of our revenues and margins.

Our ability to attract and retain business may depend on our reputation in the marketplace.

Our alliance relationships may not be successful or may change, which could adversely affect our results of operations.

Our Global Delivery Network is increasingly concentrated in India and the Philippines, which may expose us to operational risks.

**Table of Contents**

As a result of our geographically diverse operations and our growth strategy to continue geographic expansion, we are more susceptible to certain risks.

Revenues, revenue growth and earnings in U.S. dollars may be lower if the U.S. dollar strengthens against other currencies, particularly the Euro and British pound.

We could have liability or our reputation could be damaged if we fail to protect client data and Accenture data or information systems as obligated by law or contract or if our information systems are breached.

We could be subject to liabilities or damage our relationships with clients if our subcontractors or the third parties with whom we partner cannot meet their commitments on time or at all.

Our services or solutions could infringe upon the intellectual property rights of others or we might lose our ability to utilize the intellectual property of others.

We have only a limited ability to protect our intellectual property rights, which are important to our success.

Changes in our level of taxes, and audits, investigations and tax proceedings, could have a material adverse effect on our results of operations and financial condition.

Our profitability could suffer if our cost-management strategies are unsuccessful.

If we are unable to collect our receivables or unbilled services, our results of operations, financial condition and cash flows could be adversely affected.

We may be subject to criticism, negative publicity and legislative or regulatory action related to our incorporation in Ireland.

If we are unable to manage the organizational challenges associated with our size, we might be unable to achieve our business objectives.

We may not be successful at identifying, acquiring or integrating other businesses.

Consolidation in the industries that we serve could adversely affect our business.

Our share price and results of operations could fluctuate and be difficult to predict.

Our share price could be adversely affected if we are unable to maintain effective internal controls.

## Edgar Filing: Accenture plc - Form 10-Q

We are incorporated in Ireland and a significant portion of our assets are located outside the United States. As a result, it might not be possible for shareholders to enforce civil liability provisions of the federal or state securities laws of the United States.

Irish law differs from the laws in effect in the United States and might afford less protection to shareholders.

We might be unable to access additional capital on favorable terms or at all. If we raise equity capital, it may dilute our shareholders ownership interest in us.

For a more detailed discussion of these factors, see the information under the heading **Risk Factors** in our Annual Report on Form 10-K for the year ended August 31, 2010. We undertake no obligation to update or revise any forward-looking statements.

---

**Table of Contents****Overview**

Our results of operations are affected by economic conditions, including macroeconomic conditions, credit market conditions and levels of business confidence. Revenues are driven by the ability of our executives to secure new contracts and to deliver solutions and services that add value relevant to our clients' current needs and challenges. The level of revenues we achieve is based on our ability to deliver market-leading service offerings and to deploy skilled teams of professionals quickly and on a global basis.

Revenues before reimbursements ( net revenues ) for the second quarter of fiscal 2011 were \$6.05 billion, compared with \$5.18 billion for the second quarter of fiscal 2010, an increase of 17% in U.S. dollars and 18% in local currency. Net revenues for the six months ended February 28, 2011 were \$12.10 billion, compared with \$10.56 billion for the six months ended February 28, 2010, an increase of 15% in U.S. dollars and 16% in local currency. This very strong growth in the first half of fiscal 2011 contrasts with a 10% local currency revenue decline in the first half of fiscal 2010, compared to the first half of fiscal 2009. The first half of fiscal 2010 reflected the most significant negative impact of the economic downturn. All of our operating groups experienced quarterly year-over-year revenue growth in local currency in the second quarter of fiscal 2011, with very strong growth in Resources and Financial Services. Overall market demand for our services has improved and, based on new contract bookings over the last several quarters, we expect growth to continue in most areas of our business, although moderating, particularly in outsourcing, from the very strong year-over-year growth we experienced in the second quarter of fiscal 2011. We also expect the level of growth will vary across segments and geographic regions and between consulting and outsourcing services. There is economic and geopolitical uncertainty in some markets around the world, as well as uncertainty due to recent events in Japan. Our ability to manage any potential impact to client demand patterns resulting from these uncertainties will be a driver of our performance.

In our consulting business, net revenues for the second quarter of fiscal 2011 were \$3.51 billion, compared with \$2.93 billion for the second quarter of fiscal 2010, an increase of 20% in both U.S. dollars and local currency. Consulting net revenues for the six months ended February 28, 2011 were \$7.08 billion, compared with \$6.05 billion for the six months ended February 28, 2010, an increase of 17% in U.S. dollars and 18% in local currency. All five operating groups experienced quarterly year-over-year consulting revenue growth in the second quarter, with very strong growth in Resources and Products. In our consulting business overall, clients continue to focus on initiatives designed to deliver cost savings and performance improvement, have also initiated projects to grow and transform their businesses and continue to use a phased approach to contracting work. We continue to provide a greater proportion of systems integration consulting through use of lower-cost resources in our Global Delivery Network. This trend has resulted in work volume growing faster than revenues, and we expect this to continue in the medium term. In addition, pricing continues to be affected by a competitive business environment.

In our outsourcing business, net revenues for the second quarter of fiscal 2011 were \$2.54 billion, compared with \$2.24 billion for the second quarter of fiscal 2010, an increase of 13% in U.S. dollars and 15% local currency. Outsourcing net revenues for the six months ended February 28, 2011 were \$5.02 billion, compared with \$4.51 billion for the six months ended February 28, 2010, an increase of 11% in U.S. dollars and 13% in local currency. All five operating groups experienced quarterly year-over-year outsourcing revenue growth in the second quarter, with significant growth in Financial Services and Communications and High Tech. We continue to experience higher volumes, scope and geographic expansions and new work at existing clients. In addition, clients continue to be focused on projects that will reduce IT and business costs, and we are launching more projects in these areas.

As we are a global company, our revenues are denominated in multiple currencies and may be significantly affected by currency exchange-rate fluctuations. If the U.S. dollar weakens against other currencies, resulting in favorable currency translation, our revenues and revenue growth in U.S. dollars may be higher. If the U.S. dollar strengthens against other currencies, resulting in unfavorable currency translation, our revenues and revenue growth in U.S. dollars may be lower. When compared to the first half of fiscal 2010, the U.S. dollar strengthened against many currencies in the first half of fiscal 2011. This resulted in unfavorable currency translation and U.S. dollar revenue results that were approximately 1% lower than our results in local currency for both the second quarter and first half of fiscal 2011. Assuming that exchange rates stay within recent ranges for the remainder of fiscal 2011, we estimate the foreign-exchange impact to our full fiscal 2011 revenue growth will be approximately 2% higher growth in U.S. dollars than our growth in local currency.

The primary categories of operating expenses include cost of services, sales and marketing and general and administrative costs. Cost of services is primarily driven by the cost of client-service personnel, which consists mainly of compensation, sub-contractor and other personnel costs, and non-payroll outsourcing costs. Cost of services as a percentage of revenues is driven by the prices we obtain for our solutions and services, the utilization of our client-service personnel and the level of non-payroll costs associated with new outsourcing contracts. Utilization primarily represents the percentage of our consulting professionals' time spent on billable work. Utilization for the second quarter of fiscal 2011 was approximately 86% and within our target range. This level of utilization reflects continued strong demand for resources in our Global Delivery Network and in most countries. We continue to hire to meet current and projected future demand.

---

**Table of Contents**

We proactively plan and manage the size and composition of our workforce and take actions as needed to address changes in the anticipated demand for our services, given that payroll costs are the most significant portion of our operating expenses. Based on current and projected future demand, we have increased our headcount, the majority of which serve our clients, to approximately 215,000 as of February 28, 2011, compared with approximately 211,000 as of November 30, 2010 and 181,000 as of February 28, 2010. This 19% year-over-year increase in our headcount reflects an overall increase in demand for our services, including those delivered through our Global Delivery Network in lower-cost locations. Annualized attrition, excluding involuntary terminations, for the second quarter of fiscal 2011 was 14%, compared with 15% in both the first quarter of fiscal 2011 and the second quarter of fiscal 2010. We adjust levels of new hiring, evaluate voluntary attrition and use involuntary terminations as means to keep our supply of skills and resources in balance with client demand. In addition, we also adjust compensation in certain skill sets and geographies in order to attract and retain appropriate numbers of qualified employees, and we may need to continue to adjust compensation in the future. Compensation increases for fiscal 2011, which for the majority of our personnel were effective September 1, 2010, were higher than in the prior fiscal year. As in prior fiscal years, we strive to adjust pricing and/or the mix of resources to reduce the impact of compensation increases on our gross margin. Our ability to grow our revenues and increase our margins could be adversely affected if we are unable to hire sufficient employees with the skills and background where they are needed, manage attrition, recover increases in compensation and/or effectively assimilate and utilize new employees.

Gross margin (Net revenues less Cost of services before reimbursable expenses as a percentage of Net revenues) for the second quarter of fiscal 2011 was 31.7%, compared with 32.7% for the second quarter of fiscal 2010. Gross margin for the six months ended February 28, 2011 was 31.9%, compared with 32.9% for the six months ended February 28, 2010. Our contract profitability for the first half of fiscal 2011 was lower than the same period in fiscal 2010, particularly in consulting, as we continue our efforts to absorb higher annual compensation increases and subcontractor costs with improved pricing and a more efficient resource mix. Gross margin also includes the impact of higher recruiting and training costs from the addition of a larger number of new employees to meet demand.

Sales and marketing and general and administrative costs as a percentage of net revenues were 18.9% for the second quarter of fiscal 2011, compared with 20.0% for the second quarter of fiscal 2010. Sales and marketing and general and administrative costs as a percentage of net revenues were 18.7% for the six months ended February 28, 2011, compared with 19.6% for the six months ended February 28, 2010. Sales and marketing is driven primarily by compensation costs for business-development activities, investment in offerings, and marketing- and advertising-related activities. General and administrative costs primarily include costs for non-client-facing personnel, information systems and office space. We continuously monitor these costs and implement cost-management actions, as appropriate, to maintain or lower these costs as a percentage of revenues. These actions include performing a greater proportion of these activities in lower-cost locations. The decrease in general and administrative costs as percentage of net revenues was due to management of these costs at a growth rate lower than that of net revenues, as well as a reduction in the bad debt reserve in the first quarter of fiscal 2011. Our margins could be adversely affected if our cost-management actions are not sufficient to maintain sales and marketing and general and administrative costs at or below current levels as a percentage of net revenues.

Operating income for the second quarter of fiscal 2011 was \$772 million, compared with \$651 million for the second quarter of fiscal 2010. Operating income for the six months ended February 28, 2011 was \$1,599 million, compared with \$1,397 million for the six months ended February 28, 2010. Operating margin (Operating income as a percentage of Net revenues) for the second quarter of fiscal 2011 was 12.7%, compared with 12.6% for the second quarter of fiscal 2010. Operating margin for the six months ended February 28, 2011 was 13.2%, flat with the six months ended February 28, 2010.

Our Operating income and Earnings per share are also affected by currency exchange-rate fluctuations on revenues and costs. Most of our costs are incurred in the same currency as the related net revenues. Where practical, we also seek to manage foreign currency exposure for costs not incurred in the same currency as the related net revenues by using currency protection provisions in our customer contracts and through our hedging programs. We estimate that the aggregate percentage impact of foreign exchange rates on our operating expenses is similar to that disclosed for net revenues.

---

## **Table of Contents**

### **Bookings and Backlog**

New contract bookings for the second quarter of fiscal 2011 were \$6.98 billion, with consulting bookings of \$3.80 billion and outsourcing bookings of \$3.18 billion. New contract bookings for the six months ended February 28, 2011 were \$13.29 billion, with consulting bookings of \$7.53 billion and outsourcing bookings of \$5.77 billion.

We provide information regarding our new contract bookings because we believe doing so provides useful trend information regarding changes in the volume of our new business over time. However, new bookings can vary significantly quarter to quarter depending in part on the timing of the signing of a small number of large outsourcing contracts. Clients continue to seek flexibility by using a phased approach to contracting consulting work, which is resulting in smaller initial total contract values than in the past. Information regarding our new bookings is not comparable to, nor should it be substituted for, an analysis of our revenues over time. There are no third-party standards or requirements governing the calculation of bookings. New contract bookings involve estimates and judgments regarding new contracts as well as renewals, extensions and changes to existing contracts. We do not update our new bookings for material subsequent terminations or reductions related to bookings originally recorded in prior fiscal years. New contract bookings are recorded using then-existing foreign currency exchange rates and are not subsequently adjusted for foreign currency exchange rate fluctuations.

The majority of our contracts are terminable by the client on short notice and some without notice. Accordingly, we do not believe it is appropriate to characterize bookings attributable to these contracts as backlog. Normally, if a client terminates a project, the client remains obligated to pay for commitments we have made to third parties in connection with the project, services performed and reimbursable expenses incurred by us through the date of termination.

### **Revenues by Segment/Operating Group**

Our five reportable operating segments are our operating groups, which are Communications & High Tech, Financial Services, Health & Public Service, Products and Resources. Operating groups are managed on the basis of net revenues because our management believes net revenues are a better indicator of operating group performance than revenues. In addition to reporting net revenues by operating group, we also report net revenues by two types of work: consulting and outsourcing, which represent the services sold by our operating groups. Consulting net revenues, which include management and technology consulting and systems integration, reflect a finite, distinct project or set of projects with a defined outcome and typically a defined set of specific deliverables. Outsourcing net revenues typically reflect ongoing, repeatable services or capabilities provided to transition, run and/or manage operations of client systems or business functions.

From time to time, our operating groups work together to sell and implement certain contracts. The resulting revenues and costs from these contracts may be apportioned among the participating operating groups. Generally, operating expenses for each operating group have similar characteristics and are subject to the same factors, pressures and challenges. However, the economic environment and its effects on the industries served by our operating groups affect revenues and operating expenses within our operating groups to differing degrees. The mix between consulting and outsourcing is not uniform among our operating groups. Local currency fluctuations also tend to affect our operating groups differently, depending on the geographic concentrations and locations of their businesses.

While we provide discussion about our results of operations below, we cannot measure how much of our revenue growth in a particular period is attributable to changes in price or volume. Management does not track standard measures of unit or rate volume. Instead, our measures of volume and price are extremely complex, as each of our services contracts is unique, reflecting a customized mix of specific services that does not fit into standard comparability measurements. Pricing for our services is a function of the nature of each service to be provided, the skills required and outcome sought, as well as estimated cost, risk, contract terms and other factors.

**Table of Contents****Results of Operations for the Three Months Ended February 28, 2011 Compared to the Three Months Ended February 28, 2010**

Net revenues (by operating group, geographic region and type of work) and reimbursements were as follows:

	Three Months Ended February 28, 2011      2010 (in millions of U.S. dollars)		Percent Increase U.S. dollars	Percent Increase Local Currency	Percent of Total Net Revenues for the Three Months Ended February 28, 2011      2010

**Net Revenues****Operating Groups**

## Edgar Filing: Accenture plc - Form 10-Q

The following net revenues by operating group commentary discusses local currency net revenue changes for the second quarter of fiscal 2011 compared to the second quarter of fiscal 2010.

Communications & High Tech net revenues increased 16% in local currency. Consulting revenues reflected strong growth, driven by growth across all industry groups in EMEA and Americas. Outsourcing revenues increased significantly, driven by growth across all geographic regions and industry groups, with the exception of Electronics & High Tech in EMEA.

Financial Services net revenues increased 20% in local currency. Consulting revenues increased significantly, driven by growth in Banking and Insurance in EMEA and all industry groups in Americas, partially offset by a decline in Banking in Asia Pacific. Outsourcing revenues increased significantly, driven by growth across all industry groups in EMEA and Americas.

Health & Public Service net revenues increased 14% in local currency. Consulting revenues reflected growth in Americas, with significant growth in Health, partially offset by a decline in Public Service in EMEA. The increase in consulting revenues was significantly impacted by a delivery inefficiency on a consulting contract in Public Service in Americas in the second quarter of fiscal 2010, which negatively affected revenues in that quarter. Outsourcing revenues increased due to growth in Americas, including significant growth in Health, and also reflected revenues recognized upon favorable resolution of billing holdbacks on certain contracts with United States government agencies. In addition, the uncertainty and challenges in the public sector, particularly in the United States, the United Kingdom and several other countries, continue to have a significant impact on demand in our public service business. This had a negative impact on our revenues and new contract bookings in our Public Service business during the first half of fiscal 2011, and we expect this trend to continue.

---

## **Table of Contents**

Products net revenues increased 15% in local currency. Consulting revenues increased significantly, driven by growth across all geographic regions and most industry groups. Outsourcing revenues increased, driven by growth across all geographic regions and most industry groups, led by Retail in Americas.

Resources net revenues increased 25% in local currency. Consulting revenues reflected very significant growth, driven by growth across all geographic regions and industry groups, led by Natural Resources. Outsourcing revenues increased, led by growth in Natural Resources and Energy in Americas and Utilities in EMEA.

### ***Geographic Regions***

Americas net revenues increased 20% in local currency, led by the United States, Brazil and Canada.

EMEA net revenues increased 14% in local currency. We experienced growth in local currency in most countries in EMEA, led by the United Kingdom, France, Germany, Italy, Austria, South Africa, Switzerland and Norway.

Asia Pacific net revenues increased 25% in local currency, led by Japan, Singapore, Australia and China.

### ***Operating Expenses***

Operating expenses for the second quarter of fiscal 2011 were \$5,725 million, an increase of \$838 million, or 17%, over the second quarter of fiscal 2010, and decreased as a percentage of revenues to 88.1% from 88.2% during this period. Operating expenses before reimbursable expenses for the second quarter of fiscal 2011 were \$5,282 million, an increase of \$757 million, or 17%, over the second quarter of fiscal 2010, and decreased as a percentage of net revenues to 87.3% from 87.4% during this period.

### ***Cost of Services***

Cost of services for the second quarter of fiscal 2011 was \$4,579 million, an increase of \$732 million, or 19%, over the second quarter of fiscal 2010, and increased as a percentage of revenues to 70.5% from 69.5% over this period. Cost of services before reimbursable expenses for the second quarter of fiscal 2011 was \$4,136 million, an increase of \$650 million, or 19%, over the second quarter of fiscal 2010, and increased as a percentage of net revenues to 68.3% from 67.3% over this period. Gross margin for the second quarter of fiscal 2011 decreased to 31.7% from 32.7% during this period. Our contract profitability for the second quarter of fiscal 2011 was lower than the same period in fiscal 2010, particularly in consulting, as we continue our efforts to absorb higher annual compensation increases and subcontractor costs with improved pricing and a more efficient resource mix. Gross margin also includes the impact of higher recruiting and training costs from the addition of a larger number of new employees to meet demand.

### ***Sales and Marketing***

Sales and marketing expense for the second quarter of fiscal 2011 was \$710 million, an increase of \$86 million, or 14%, over the second quarter of fiscal 2010, and decreased as a percentage of net revenues to 11.7% from 12.0% during this period.

### ***General and Administrative Costs***

General and administrative costs for the second quarter of fiscal 2011 were \$435 million, an increase of 22 million, or 5%, over the second quarter of fiscal 2010, and decreased as a percentage of net revenues to 7.2% from 8.0% during this period. The decrease as a percentage of net revenues was primarily due to management of these costs at a growth rate lower than that of net revenues.

**Table of Contents****Operating Income and Operating Margin**

Operating income for the second quarter of fiscal 2011 was \$772 million, an increase of \$121 million, or 19%, over the second quarter of fiscal 2010, and increased as percentage of net revenues to 12.7% from 12.6% over this period. Operating income and operating margin for each of the operating groups were as follows:

	Three Months Ended February 28, 2011		2010		Increase (Decrease) (1)
	Operating Income	Operating Margin	Operating Income	Operating Margin	
	(in millions of U.S. dollars)				
Communications & High Tech	\$ 150	12%	\$ 142	13%	\$ 9
Financial Services	204	16	185	17	19
Health & Public Service	90	9	37	4	53
Products	126	9	141	12	(15)
Resources	202	17	146	16	55
Total	\$ 772	12.7%	\$ 651	12.6%	\$ 121

(1) May not total due to rounding.

We estimate that the aggregate percentage impact of foreign currency exchange rates on our Operating income during the second quarter of fiscal 2011 was similar to that disclosed for Net revenues. During the second quarter of fiscal 2011, each operating group benefitted from our management of General and administrative costs at a growth rate lower than that of our net revenues. In addition, each operating group experienced higher recruiting and training costs from the addition of a larger number of new employees to meet demand. The commentary below provides additional insight into operating group performance and operating margin for the second quarter of fiscal 2011, compared with the second quarter of fiscal 2010, exclusive of these impacts.

Communications & High Tech operating income increased, primarily due to revenue growth, partially offset by lower consulting contract profitability and higher selling costs as a percentage of net revenues.

Financial Services operating income increased, driven by revenue growth, partially offset by lower contract profitability.

Health & Public Service operating income increased, primarily due to revenue growth, including revenues recognized upon favorable resolution of billing holdbacks on certain contracts with United States government agencies, partially offset by lower consulting and outsourcing contract profitability. Fiscal 2010 operating income included the negative impact of inefficient delivery on a contract in Public Service in Americas.

Products operating income decreased. Revenue growth was more than offset by lower contract profitability, as we have not yet fully recovered higher cost increases through pricing for our services. Products operating results in both periods were also impacted by expected lower margins on certain contracts.

Resources operating income increased, driven by significant consulting revenue growth.

**Interest Income**

## Edgar Filing: Accenture plc - Form 10-Q

Interest income for the second quarter of fiscal 2011 was \$10 million, an increase of \$3 million, or 41%, over the second quarter of fiscal 2010. The increase was primarily due to higher interest rates and cash balances.

### ***Other Expense, net***

Other expense, net for the second quarter of fiscal 2011 was \$3 million, a decrease of \$11 million from the second quarter of fiscal 2010. The change was driven by lower net foreign currency exchange losses during the second quarter of fiscal 2011.

**Table of Contents**

***Provision for Income Taxes***

The effective tax rate for the second quarter of fiscal 2011 was 26.9%, compared with 27.8% for the second quarter of fiscal 2010. The effective tax rate is lower in the second quarter of fiscal 2011 due to a number of factors that impact our geographic mix of income.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2011 annual effective tax rate to be in the range of 28% to 29%. The fiscal 2010 annual effective tax rate was 29.3%.

***Net Income Attributable to Noncontrolling Interests***

Net income attributable to noncontrolling interests for the second quarter of fiscal 2011 was \$63 million, an increase of \$1 million, or 1%, over the second quarter of fiscal 2010. The increase was due to higher Net income of \$104 million, offset by a reduction in the Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares average noncontrolling ownership interest to 10% for the second quarter of fiscal 2011 from 13% for the second quarter of fiscal 2010.

***Earnings Per Share***

Diluted earnings per share were \$0.75 for the second quarter of fiscal 2011, compared with \$0.60 for the second quarter of fiscal 2010. The \$0.15 increase in our earnings per share was primarily due to increases of \$0.11 from higher revenues and operating results in local currency, \$0.03 from lower weighted average shares outstanding, \$0.01 from a lower effective tax rate and \$0.01 from higher non-operating income, compared with the second quarter of fiscal 2010. These increases were partially offset by a decrease of \$0.01 from unfavorable foreign currency exchange rates, compared with the second quarter of fiscal 2010. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, Financial Statements.

**Table of Contents****Results of Operations for the Six Months Ended February 28, 2011 Compared to the Six Months Ended February 28, 2010**

Net revenues (by operating group, geographic region and type of work) and reimbursements were as follows:

**Net Revenues**

The following net revenues by operating group commentary discusses local currency net revenue changes for the six months ended February 28, 2011 compared to the six months ended February 28, 2010.

**Operating Groups**

## Edgar Filing: Accenture plc - Form 10-Q

Communications & High Tech net revenues increased 14% in local currency. Consulting revenues reflected strong growth, driven by growth across all industry groups and geographic regions, led by Americas. Outsourcing revenues reflected strong growth, driven by growth across all geographic regions and industry groups, with the exception of Electronics & High Tech in EMEA.

Financial Services net revenues increased 20% in local currency. Consulting revenues increased significantly, driven by growth in Banking in EMEA and all industry groups in Americas, partially offset by a decline in Banking in Asia Pacific. Outsourcing revenues increased significantly, driven by growth across all industry groups in EMEA and Americas.

Health & Public Service net revenues increased 6% in local currency. Consulting revenues reflected growth in Americas, with significant growth in Health, partially offset by a decline in Public Service in EMEA. The increase in consulting revenues was significantly impacted by a delivery inefficiency on a consulting contract in Public Service in Americas in the first half of fiscal 2010, which negatively affected revenues in that period. Outsourcing revenues increased due to growth in Americas and also reflected revenues recognized upon favorable resolution of billing holdbacks on certain contracts with United States government agencies. In addition, the uncertainty and challenges in the public sector, particularly in the United States, the United Kingdom and several other countries, continue to have a significant impact on demand in our public service business. This had a negative impact on our revenues and new contract bookings in our Public Service business during the first half of fiscal 2011, and we expect this trend to continue.

---

## **Table of Contents**

Products net revenues increased 16% in local currency. Consulting revenues increased significantly, driven by growth across all geographic regions and industry groups, led by Consumer Goods & Services and Retail. Outsourcing revenues increased, driven by growth across all geographic regions and most industry groups, led by Retail.

Resources net revenues increased 21% in local currency. Consulting revenues reflected very significant growth, driven by growth in Americas and Asia Pacific and in most industry groups, led by Natural Resources. Outsourcing revenues reflected strong growth, driven by growth in Utilities and Energy in EMEA and Energy and Natural Resources in Americas.

### ***Geographic Regions***

Americas net revenues increased 19% in local currency, led by the United States, Brazil and Canada.

EMEA net revenues increased 12% in local currency. We experienced growth in local currency in most countries in EMEA, led by the United Kingdom, France, Italy, Germany, South Africa, Switzerland and Finland.

Asia Pacific net revenues increased 22% in local currency, led by Japan, Singapore, Australia and India.

### ***Operating Expenses***

Operating expenses for the six months ended February 28, 2011 were \$11,376 million, an increase of \$1,488 million, or 15%, over the six months ended February 28, 2010, and increased as a percentage of revenues to 87.7% from 87.6% over this period. Operating expenses before reimbursable expenses for the six months ended February 28, 2011 were \$10,501 million, an increase of \$1,339 million, or 15%, over the six months ended February 28, 2010 and as a percentage of net revenues was 86.8% in both periods.

### ***Cost of Services***

Cost of services for the six months ended February 28, 2011 was \$9,113 million, an increase of \$1,302 million, or 17%, over the six months ended February 28, 2010, and increased as a percentage of revenues to 70.2% from 69.2% over this period. Cost of services before reimbursable expenses for the six months ended February 28, 2011 was \$8,238 million, an increase of \$1,153 million, or 16%, over the six months ended February 28, 2010, and increased as a percentage of net revenues to 68.1% from 67.1% over this period. Gross margin for the six months ended February 28, 2011 decreased to 31.9% from 32.9% during this period. Our contract profitability for the first half of fiscal 2011 was lower than the same period in fiscal 2010, particularly in consulting, as we continue our efforts to absorb higher annual compensation increases and subcontractor costs with improved pricing and a more efficient resource mix. Gross margin also includes the impact of higher recruiting and training costs from the addition of a larger number of new employees to meet demand.

### ***Sales and Marketing***

Sales and marketing expense for the six months ended February 28, 2011 was \$1,441 million, an increase of \$196 million, or 16%, over the six months ended February 28, 2010, and increased as a percentage of net revenues to 11.9% from 11.8% over this period.

### ***General and Administrative Costs***

General and administrative costs for the six months ended February 28, 2011 were \$821 million, a decrease of \$4 million, or 1%, from the six months ended February 28, 2010, and decreased as a percentage of net revenues to 6.8% from 7.8% during this period. The decrease as a percentage of net revenues was primarily due to management of these costs at a growth rate lower than that of net revenues, as well as a reduction in the allowance for client receivables and unbilled services due to better than expected bad debt experience.

**Table of Contents****Operating Income and Operating Margin**

Operating income for the six months ended February 28, 2011 was \$1,599 million, an increase of \$201 million, or 14%, over the six months ended February 28, 2010, and as a percentage of net revenues was 13.2% in both periods. Operating income and operating margin for each of the operating groups were as follows:

	Six Months Ended February 28, 2011		Six Months Ended February 28, 2010		Increase (Decrease) (1)
	Operating Income	Operating Margin	Operating Income	Operating Margin	
	(in millions of U.S. dollars)				
Communications & High Tech	\$ 344	13%	\$ 286	13%	\$ 58
Financial Services	449	17	380	17	69
Health & Public Service	147	8	172	10	(24)
Products	283	10	257	11	26
Resources	376	16	302	16	73
Total (1)	\$ 1,599	13.2%	\$ 1,397	13.2%	\$ 201

(1) May not total due to rounding.

We estimate that the aggregate percentage impact of foreign currency exchange rates on our Operating income during the six months ended February 28, 2011 was similar to that disclosed for Net revenues. During the six months ended February 28, 2011, each operating group benefitted from our management of General and administrative costs at a growth rate lower than that of our net revenues, as well as a reduction in the bad debt reserve in the first quarter of fiscal 2011. In addition, each operating group experienced higher recruiting and training costs from the addition of a larger number of new employees to meet demand. The commentary below provides additional insight into operating group performance and operating margin for the six months ended February 28, 2011, compared with the six months ended February 28, 2010, exclusive of these impacts.

Communications & High Tech operating income increased, primarily due to revenue growth, partially offset by lower consulting contract profitability and higher selling costs as a percentage of net revenues.

Financial Services operating income increased, driven by revenue growth, partially offset by lower contract profitability.

Health & Public Service operating income decreased. Revenue growth, including revenues recognized upon favorable resolution of billing holdbacks on certain contracts with United States government agencies, was more than offset by lower consulting and outsourcing contract profitability and higher selling costs as a percentage of net revenues. Fiscal 2010 operating income included the negative impact of inefficient delivery on a contract in Public Service in Americas.

Products operating income increased, primarily driven by revenue growth, partially offset by lower contract profitability, as we have not yet fully recovered higher cost increases through pricing for our services. Products operating results in both periods were also impacted by expected lower margins on certain contracts.

Resources operating income increased, driven by significant consulting revenue growth, partially offset by lower consulting contract profitability.

---

## **Table of Contents**

### ***Interest Income***

Interest income for the six months ended February 28, 2011 was \$19 million, an increase of \$5 million, or 38%, over the six months ended February 28, 2010. The increase was primarily due to higher interest rates and cash balances.

### ***Other Income (Expense), net***

Other income (expense), net for the six months ended February 28, 2011 was \$10 million, an increase of \$18 million over the six months ended February 28, 2010. The change was driven by net foreign exchange gains during the six months ended February 28, 2011, compared with net foreign exchange losses during the six months ended February 28, 2010.

### ***Provision for Income Taxes***

The effective tax rate for the six months ended February 28, 2011 was 27.6%, compared with 29.2% for the six months ended February 28, 2010. The effective tax rate is lower in the six months ended February 28, 2011 due to a number of factors that impact our geographic mix of income.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2011 annual effective tax rate to be in the range of 28% to 29%. The fiscal 2010 annual effective tax rate was 29.3%.

### ***Net Income Attributable to Noncontrolling Interests***

Net income attributable to noncontrolling interests for the six months ended February 28, 2011 was \$134 million, a decrease of \$9 million, or 6%, from the six months ended February 28, 2010. The decrease was due to a reduction in the Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares average noncontrolling ownership interest to 10% for the six months ended February 28, 2011 from 14% for the six months ended February 28, 2010, partially offset by an increase in Net income of \$185 million.

### ***Earnings Per Share***

Diluted earnings per share were \$1.56 for the six months ended February 28, 2011, compared with \$1.27 for the six months ended February 28, 2010. The \$0.29 increase in our earnings per share was primarily due to increases of \$0.20 from higher revenues and operating results in local currency, \$0.06 from lower weighted average shares outstanding, \$0.03 from a lower effective tax rate and \$0.02 from higher non-operating income, compared with the six months ended February 28, 2010. These increases were partially offset by a decrease of \$0.02 from unfavorable foreign currency exchange rates, compared with the six months ended February 28, 2010. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, Financial Statements.

### **Liquidity and Capital Resources**

Our primary sources of liquidity are cash flows from operations, available cash reserves and debt capacity available under various credit facilities. In addition, we could raise additional funds through public or private debt or equity financings. We may use our available or additional funds to:

take advantage of opportunities, including more rapid expansion;

acquire complementary businesses or technologies;

develop new services and solutions; or

facilitate purchases, redemptions and exchanges of Accenture shares.

## Edgar Filing: Accenture plc - Form 10-Q

As of February 28, 2011, cash and cash equivalents was \$4.7 billion, compared with \$4.8 billion as of August 31, 2010.

**Table of Contents**

Cash flows from operating, investing and financing activities, as reflected in our Consolidated Cash Flows Statements, are summarized in the following table:

	Six Months Ended February 28,		
	2011	2010	Change (1)
	(in millions of U.S. dollars)		
Net cash provided by (used in):			
Operating activities	\$ 708	\$ 879	\$ (172)
Investing activities	(270)	(77)	(193)
Financing activities	(750)	(1,175)	424
Effect of exchange rate changes on cash and cash equivalents	153	(54)	207
Net decrease in cash and cash equivalents (1)	\$ (161)	\$ (427)	\$ 266

(1) May not total due to rounding.

*Operating activities.* The \$172 million decrease in cash provided by operating activities was primarily due to an increase in net client balances (receivables from clients, current and non-current unbilled services and deferred revenues) and changes in other operating assets and liabilities, partially offset by higher net income.

*Investing activities.* The \$193 million increase in cash used was primarily due to increases in spending on business acquisitions and purchases of property and equipment.

*Financing activities.* The \$424 million decrease in cash used was primarily due to lower cash dividends paid as a result of our transition to semi-annual dividend payments and decreases in net purchases of shares. For additional information, see Note 6 (Shareholders' Equity) to our Consolidated Financial Statements under Item 1, Financial Statements.

We believe that our available cash balances and the cash flows expected to be generated from operations will be sufficient to satisfy our current and planned working capital and investment needs for the next twelve months. We also believe that our longer-term working capital and other general corporate funding requirements will be satisfied through cash flows from operations and, to the extent necessary, from our borrowing facilities and future financial market activities.

**Borrowing Facilities**

As of February 28, 2011, we had the following borrowing facilities, including the issuance of letters of credit, to support general working capital purposes:

	Borrowings	
	Facility Amount (in millions of U.S. dollars)	Under Facilities
Syndicated loan facility	\$ 1,200	\$
Separate, uncommitted, unsecured multicurrency revolving credit facilities	433	
Local guaranteed and non-guaranteed lines of credit	159	
Total	\$ 1,792	\$

## Edgar Filing: Accenture plc - Form 10-Q

Under the borrowing facilities described above, we had an aggregate of \$171 million of letters of credit outstanding as of February 28, 2011. In addition, we had total outstanding debt of \$5 million as of February 28, 2011.

### *Share Purchases and Redemptions*

The Board of Directors of Accenture plc has authorized funding for our publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares and for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares held by our current and former senior executives and their permitted transferees. As of February 28, 2011, our aggregate available authorization was \$2,355 million for our publicly announced open-market share purchase and these other share purchase programs.

**Table of Contents**

Our share purchase activity during the six months ended February 28, 2011 was as follows:

	Accenture plc Class A		Accenture SCA Class I	
	Ordinary Shares		Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares	
	Shares	Amount	Shares	Amount
	(in millions of U.S. dollars, except share amounts)			
Open-market share purchases (1)	3,327,800	\$ 135		\$
Other share purchase programs			9,279,435	430
Other purchases (2)	5,649,785	232		
Total	8,977,585	\$ 367	9,279,435	\$ 430

- (1) We conduct a publicly announced, open-market share purchase program for Accenture plc Class A ordinary shares. These shares are held as treasury shares by Accenture plc and may be utilized to provide for select employee benefits, such as equity awards to our employees.
- (2) During the first half of fiscal 2011, as authorized under our various employee equity share plans, we acquired Accenture plc Class A ordinary shares primarily via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under those plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

We intend to continue to use a significant portion of cash generated from operations for share repurchases during fiscal 2011. The number of shares ultimately repurchased under our open-market share purchase program may vary depending on numerous factors, including, without limitation, share price and other market conditions, our ongoing capital allocation planning, the levels of cash and debt balances, other demands for cash, such as acquisition activity, general economic and/or business conditions, and board and management discretion. Additionally, as these factors may change over the course of the year, the amount of share repurchase activity during any particular period cannot be predicted, and may fluctuate from time to time. Share repurchases may be made from time to time through open-market purchases, in respect of redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares, through the use of Rule 10b5-1 plans and/or by other means. The repurchase program may be accelerated, suspended, delayed or discontinued at any time, without notice.

**Other Share Redemptions**

During the six months ended February 28, 2011, we issued 4,733,620 Accenture plc Class A ordinary shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to our registration statement on Form S-3 (the registration statement). The registration statement allows us, at our option, to issue freely tradable Accenture plc Class A ordinary shares in lieu of cash upon redemptions of Accenture SCA Class I common shares held by senior executives, former executives and their permitted transferees.

For a complete description of all share purchase and redemption activity for the second quarter of fiscal 2011, see Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.

**Subsequent Development**

On March 23, 2011, the Board of Directors of Accenture plc declared a cash dividend of \$0.45 per share on our Class A ordinary shares for shareholders of record at the close of business on April 15, 2011. Accenture plc will cause Accenture SCA to declare a cash dividend of \$0.45 per share on its Class I common shares for shareholders of record at the close of business on April 12, 2011. Both dividends are payable on May 13, 2011.

## **Table of Contents**

### **Off-Balance Sheet Arrangements**

In the normal course of business and in conjunction with some client engagements, we have entered into contractual arrangements through which we may be obligated to indemnify clients with respect to certain matters. These arrangements with clients can include provisions whereby we have joint and several liability in relation to the performance of certain contractual obligations along with third parties also providing services and products for a specific project. Indemnification provisions are also included in arrangements under which we agree to hold the indemnified party harmless with respect to third party claims related to such matters as title to assets sold or licensed or certain intellectual property rights.

Typically, we have contractual recourse against third parties for certain payments made by us in connection with arrangements where third party nonperformance has given rise to the client's claim. Payments by us under any of the arrangements described above are generally conditioned on the client making a claim which may be disputed by us typically under dispute resolution procedures specified in the particular arrangement. The limitations of liability under these arrangements may be expressly limited or may not be expressly specified in terms of time and/or amount.

For arrangements with unspecified limitations, we cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement.

To date, we have not been required to make any significant payment under any of the arrangements described above. For further discussion of these transactions, see Note 8 (Commitments and Contingencies) to our Consolidated Financial Statements under Item 1, Financial Statements.

### **Recently Adopted Accounting Pronouncements**

In September 2010, we adopted guidance issued by the Financial Accounting Standards Board ( FASB ) on revenue recognition guidance for arrangements with multiple deliverables. The guidance: eliminates the residual method of allocation in previous guidance; requires that arrangement considerations be allocated at the inception of the arrangement to all deliverables using the relative selling price; and requires a vendor to use estimates of a selling price developed in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis for all deliverables that meet the remaining separation criteria when vendor-specific objective evidence and third-party evidence, respectively, do not exist as estimates of selling price. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements under Item 1, Financial Statements.

---

**Table of Contents**

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

During the six months ended February 28, 2011, there were no material changes in our market risk exposure. For a discussion of our market risk associated with foreign currency risk, interest rate risk and equity price risk as of August 31, 2010, see Quantitative and Qualitative Disclosures about Market Risk in Part II, Item 7A, of our Annual Report on Form 10-K for the year ended August 31, 2010.

**ITEM 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

An evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on that evaluation, the principal executive officer and the principal financial officer of Accenture plc have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective at the reasonable assurance level.

**Changes in Internal Control Over Financial Reporting**

There has been no change in our internal control over financial reporting that occurred during the second quarter of fiscal 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

We are involved in a number of judicial and arbitration proceedings concerning matters arising in the ordinary course of our business. We and/or our personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of our business around the world. We do not expect that any of these matters, individually or in the aggregate, will have a material impact on our results of operations or financial condition.

As previously reported, in April 2007, the U.S. Department of Justice (the DOJ) intervened in a civil qui tam action previously filed under seal by two private individuals in the U.S. District Court for the Eastern District of Arkansas against Accenture and several of its indirect subsidiaries. The complaint as amended alleges that, in connection with work we undertook for the U.S. federal government, we received payments, resale revenue or other benefits as a result of, or otherwise acted improperly in connection with, alliance agreements we maintain with technology vendors and others in violation of our contracts with the U.S. government and/or applicable law or regulations. Similar suits were brought against other companies in our industry. The suit alleges that these amounts and relationships were not disclosed to the government in violation of the Federal False Claims Act and the Anti-Kickback Act, among other statutes. The DOJ complaint seeks various remedies including treble damages, statutory penalties and disgorgement of profits. While the complaint does not allege damages with specificity, the amount sought by the DOJ will depend on the theories it pursues, and could be significant. The suit could lead to other related proceedings and actions by various agencies of the U.S. government, including potential suspension or debarment proceedings. We intend to defend such matters vigorously and do not believe they will have a material impact on our results of operations or financial condition.

We currently maintain the types and amounts of insurance customary in the industries and countries in which we operate, including coverage for professional liability, general liability and management liability. We consider our insurance coverage to be adequate both as to the risks and amounts for the businesses we conduct.

**Table of Contents****ITEM 1A. RISK FACTORS**

For a discussion of our potential risks and uncertainties, see the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2010. There have been no material changes to risk factors disclosed in our Annual Report on Form 10-K for the year ended August 31, 2010.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS****Purchases and redemptions of Accenture plc Class A ordinary shares and Class X ordinary shares**

The following table provides information relating to our purchases of Accenture plc Class A ordinary shares and redemptions of Accenture plc Class X ordinary shares during the second quarter of fiscal 2011.

Period	Total Number of Shares Purchased	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs (3) (in millions of U.S. dollars)
<b>December 1, 2010 – December 31, 2010</b>				
Class A ordinary shares	558,680	\$ 43.47	139,100	\$ 2,432
Class X ordinary shares	944,901	\$ 0.0000225		
<b>January 1, 2011 – January 31, 2011</b>				
Class A ordinary shares	343,169	\$ 48.18		\$ 2,379
Class X ordinary shares	1,637,126	\$ 0.0000225		
<b>February 1, 2011 – February 28, 2011</b>				
Class A ordinary shares	547,094	\$ 49.53		\$ 2,355
Class X ordinary shares	1,296,044	\$ 0.0000225		
<b>Total</b>				
Class A ordinary shares (4)	1,448,943	\$ 46.87	139,100	
Class X ordinary shares (5)	3,878,071	\$ 0.0000225		

- (1) Average price per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase or redemption and any acquired by means of employee forfeiture.
- (2) Since August 2001, the Board of Directors of Accenture plc has authorized and periodically confirmed a publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares. During the second quarter of fiscal 2011, we purchased 139,100 Accenture plc Class A ordinary shares under this program for an aggregate price of \$6.1 million. The open-market purchase program does not have an expiration date.
- (3) As of February 28, 2011, our aggregate available authorization for share purchases and redemptions was \$2,355 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the other share purchase programs. Since August 2001 and as of February 28, 2011, the Board of Directors of Accenture plc has authorized an aggregate of \$15.1 billion for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.

## Edgar Filing: Accenture plc - Form 10-Q

- (4) During the second quarter of fiscal 2011, Accenture purchased 1,309,843 Accenture plc Class A ordinary shares in transactions unrelated to publicly announced share plans or programs. These transactions primarily consisted of acquisitions of Accenture plc Class A ordinary shares via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under our various employee equity share plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.
  
- (5) During the second quarter of fiscal 2011, we redeemed 3,878,071 Accenture plc Class X ordinary shares pursuant to our articles of association. Accenture plc Class X ordinary shares are redeemable at their par value of \$0.0000225 per share.

**Table of Contents****Purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares**

The following table provides additional information relating to our purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares for cash during the second quarter of fiscal 2011. We believe that the following table and footnotes provide useful information regarding the share purchase and redemption activity of Accenture. Generally, purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares for cash reduce shares outstanding for purposes of computing diluted earnings per share.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs (3) (in millions of U.S. dollars)
<b>Accenture SCA</b>				
<b>December 1, 2010</b>				
<b>December 31, 2010</b>				
Class I common shares	678,404	\$ 48.48		
<b>January 1, 2011</b>				
<b>January 31, 2011</b>				
Class I common shares	1,015,231	\$ 50.46		
<b>February 1, 2011</b>				
<b>February 28, 2011</b>				
Class I common shares	420,991	\$ 52.49		
<b>Total</b>				
Class I common shares	2,114,626	\$ 50.23		
<b>Accenture Canada Holdings Inc.</b>				
<b>December 1, 2010</b>				
<b>December 31, 2010</b>				
Exchangeable shares	219	\$ 48.42		
<b>January 1, 2011</b>				
<b>January 31, 2011</b>				
Exchangeable shares	40,924	\$ 49.75		
<b>February 1, 2011</b>				
<b>February 28, 2011</b>				
Exchangeable shares	25,158	\$ 52.21		
<b>Total</b>				
Exchangeable shares	66,301	\$ 50.68		

- (1) During the second quarter of fiscal 2011, we acquired a total of 2,114,626 Accenture SCA Class I common shares and 66,301 Accenture Canada Holdings Inc. exchangeable shares from current and former senior executives and their permitted transferees. This includes acquisitions by means of purchase or redemption, or employee forfeiture, as applicable. In addition, during the second quarter of fiscal 2011, we issued 2,685,990 Accenture plc Class A ordinary shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to the registration statement.
- (2) Average price per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase or redemption and any acquired by means of employee forfeiture.
- (3) As of February 28, 2011, our aggregate available authorization for share purchases and redemptions was \$2,355 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the other share purchase programs. Since August 2001 and as of February 28, 2011, the Board of Directors of Accenture plc has authorized an aggregate of \$15.1 billion for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.
