SVB FINANCIAL GROUP AND SUBSIDIARIES

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

SVB Financial Group (SVB Financial or the Parent) is a diversified financial services company, as well as a bank holding company and financial holding company. SVB Financial was incorporated in the state of Delaware in March 1999. Through our various subsidiaries and divisions, we offer a variety of banking and financial products and services to support our clients through all stages of their life cycles. In these notes to our unaudited interim consolidated financial statements, when we use or refer to SVB Financial Group, SVBFG, the Company, we, us or other similar words, we mean SVB Financial Group and all of its subsidiaries collectively, including Silicon Valley Bank (the Bank), unless the context requires otherwise. When we use or refer to SVB Financial or the Parent we are referring only to the parent company, SVB Financial Group, unless the context requires otherwise.

The accompanying interim consolidated financial statements reflect all adjustments of a normal and recurring nature that are, in the opinion of management, necessary to fairly present our financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America (GAAP). Such interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The results of operations for the three and six months ended June 30, 2011 are not necessarily indicative of results to be expected for any future periods. These interim consolidated financial statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2010 (2010 Form 10-K).

The accompanying unaudited interim consolidated financial statements have been prepared on a consistent basis with the accounting policies described in Consolidated Financial Statements and Supplementary Data Note 2 Summary of Significant Accounting Policies under Part II, Item 8 of our 2010 Form 10-K.

The preparation of unaudited interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates may change as new information is obtained. Significant items that are subject to such estimates include the valuation of non-marketable securities, the allowance for loan losses, valuation of equity warrant assets, the recognition and measurement of income tax assets and liabilities, the adequacy of the reserve for unfunded credit commitments, and share-based compensation.

Principles of Consolidation and Presentation

Our consolidated financial statements include the accounts of SVB Financial Group and entities in which we have a controlling financial interest. We determine whether we have a controlling financial interest in an entity by evaluating whether the entity is a voting interest entity or a variable interest entity. All significant intercompany accounts and transactions have been eliminated.

Voting interest entities are entities that have sufficient equity and provide the equity investors voting rights that enable them to make significant decisions relating to the entity's operations. For these types of entities, the Company's determination of whether it has a controlling interest is based on ownership of the majority of the entities' voting equity interest or through control of management of the entities.

Variable interest entities (VIEs) are entities that, by design, either (1) lack sufficient equity to permit the entity to finance its activities without additional subordinated financial support from other parties, or (2) have equity investors that do not have the ability to make significant decisions relating to the entity's operations through voting rights, or do not have the obligation to absorb the expected losses, or do not have the right to receive the residual returns of the entity. We determine whether we have a controlling financial interest in a VIE by considering whether our involvement with the VIE is significant and designates us as the primary beneficiary based on the following:

1. We have the power to direct the activities of the VIE that most significantly impact the entity's economic performance; and,

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

2. The aggregate indirect and direct variable interests held by the Company have the obligation to absorb losses or the right to receive benefits from the entity that could be significant to the VIE.

Voting interest entities in which the Company has a controlling financial interest or VIEs in which the Company is the primary beneficiary are consolidated into our financial statements.

Table of Contents

We have not provided financial or other support during the periods presented to any VIE that we were not previously contractually required to provide. We are variable interest holders in certain partnerships for which we are the primary beneficiary. We perform on-going reassessments of whether facts or circumstances have changed in relation to previously evaluated voting interest entities and our involvement in VIEs which could cause the Company's consolidation conclusion to change.

Recent Accounting Pronouncements

In April 2011, the Financial Accounting Standards Board (FASB) issued a new accounting standard (ASU No. 2011-02), which requires new disclosures and provides additional guidance to creditors for determining whether a modification or restructuring of a receivable is a troubled debt restructuring (TDR). The new guidance will require creditors to evaluate modifications and restructurings of receivables using a more principles-based approach, which may result in more modifications and restructurings being considered TDR s. The new disclosures and guidance are effective for interim and annual reporting periods beginning on or after June 15, 2011, with retrospective disclosures required for all TDR activities that have occurred from the beginning of the annual period of adoption. This standard clarifies how TDR s are determined and increases the disclosure requirements for TDR s, however we do not expect it to have a material impact on our financial position, results of operations or stockholders' equity.

In May 2011, the FASB issued a new accounting standard (ASU No. 2011-04), which requires new disclosures and clarifies existing guidance surrounding fair value measurement. This standard was issued concurrent with the International Accounting Standards Board's (IASB) issuance of a fair value measurement standard with the objective of a converged definition of fair value measurement and disclosure guidance. The new guidance clarifies that the principal market for a financial instrument should be determined based on the market with the greatest volume and level of activity. This new guidance is effective on a prospective basis for interim and annual reporting periods beginning after December 15, 2011. This standard clarifies how fair value is measured and increases the disclosure requirements for fair value measurements. We are currently assessing the impact of this guidance, however we do not expect it to have a material impact on our financial position, results of operations or stockholders' equity.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentations.

2. Stockholders' Equity and Earnings Per Share (EPS)*Earnings Per Share*

Basic EPS is the amount of earnings available to each share of common stock outstanding during the reporting period. Diluted EPS is the amount of earnings available to each share of common stock outstanding during the reporting period adjusted to include the effect of potentially dilutive common shares. Potentially dilutive common shares include incremental shares issued for stock options and restricted stock units and awards outstanding under our equity incentive plans, our Employee Stock Purchase Plan (ESPP), our 3.875% convertible senior notes (3.875% Convertible Notes) and associated convertible note hedge and warrant agreement. Potentially dilutive common shares are excluded from the computation of dilutive EPS in periods in which the effect would be anti-dilutive. The following is a reconciliation of basic EPS to diluted EPS for the three and six months ended June 30, 2011 and 2010, respectively:

| (Dollars and shares in thousands, except per share amounts) | Three months ended June 30, | | Six months ended June 30, | |
|---|-----------------------------|-----------|---------------------------|-----------|
| | 2011 | 2010 | 2011 | 2010 |
| Numerator: | | | | |
| Net income available to common stockholders | \$ 65,750 | \$ 21,120 | \$ 98,757 | \$ 39,677 |
| Denominator: | | | | |
| Weighted average common shares outstanding-basic | 42,924 | 41,720 | 42,704 | 41,558 |
| Weighted average effect of dilutive securities: | | | | |
| Stock options and ESPP | 654 | 694 | 678 | 712 |
| Restricted stock units | 101 | 62 | 100 | 70 |
| 3.875% Convertible Notes | 61 | | 77 | |
| Denominator for diluted calculation | 43,740 | 42,476 | 43,559 | 42,340 |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Earnings per common share:

| | | | | | | | | |
|---------|----|------|----|------|----|------|----|------|
| Basic | \$ | 1.53 | \$ | 0.51 | \$ | 2.31 | \$ | 0.95 |
| Diluted | \$ | 1.50 | \$ | 0.50 | \$ | 2.27 | \$ | 0.94 |

Table of Contents

The following table summarizes the common shares excluded from the diluted EPS calculation as they were deemed to be anti-dilutive for the three and six months ended June 30, 2011 and 2010, respectively:

| (Shares in thousands) | Three months ended June 30, | | Six months ended June 30, | |
|------------------------|-----------------------------|----------|---------------------------|-----------|
| | 2011 | 2010 | 2011 | 2010 |
| Stock options | 44 | 7 | 60 | 8 |
| Restricted stock units | | 1 | 2 | 7 |
| Total | 44 | 8 | 62 | 15 |

In addition to the above, at June 30, 2011, 4.7 million common shares under warrants associated with our 3.875% Convertible Notes were outstanding but also excluded from the diluted EPS calculation as they were deemed to be anti-dilutive based on the conversion price of \$64.43 per common share. Concurrent with the issuance of our 3.875% Convertible Notes, we entered into a convertible note hedge and warrant agreement. For more information on our 3.875% Convertible Notes and associated convertible note hedge and warrant agreement, see Note 7 Short-Term Borrowings and Long-Term Debt and Note 8 Derivative Financial Instruments .

Our \$250 million 3.875% Convertible Notes matured on April 15, 2011. All of the notes were converted prior to maturity and we made an aggregate \$260.4 million conversion settlement payment. We paid \$250.0 million in cash (representing total principal) and \$10.4 million through the issuance of 187,760 shares of our common stock (representing total conversion premium value). In addition, in connection with the conversion settlement, we received 186,736 shares of our common stock, valued at \$10.3 million, from the associated convertible note hedge. Accordingly, there was no significant net impact on our total stockholders' equity with respect to settling the conversion premium value.

3. Share-Based Compensation

For the three and six months ended June 30, 2011 and 2010, we recorded share-based compensation and related tax benefits as follows:

| (Dollars in thousands) | Three months ended June 30, | | Six months ended June 30, | |
|--|-----------------------------|----------|---------------------------|----------|
| | 2011 | 2010 | 2011 | 2010 |
| Share-based compensation expense | \$ 4,706 | \$ 3,005 | \$ 8,949 | \$ 6,296 |
| Income tax benefit related to share-based compensation expense | (1,243) | (673) | (2,276) | (1,445) |
| Unrecognized Compensation Expense | | | | |

At June 30, 2011, unrecognized share-based compensation expense was as follows:

| (Dollars in thousands) | Unrecognized Expense | Average Expected Recognition Period - in Years |
|--|-------------------------|---|
| | | |
| Stock options | \$ 15,884 | 3.04 |
| Restricted stock units | 23,549 | 2.94 |
| Total unrecognized share-based compensation expense | \$ 39,433 | |

Table of Contents**Share-Based Payment Award Activity**

The table below provides stock option information related to the 1997 Equity Incentive Plan and the 2006 Equity Incentive Plan for the six months ended June 30, 2011:

| | Shares | Weighted Average Exercise Price | Weighted Average Remaining Contractual Life in Years | Aggregate Intrinsic Value of In-The- Money Options |
|--|-----------|---------------------------------------|--|--|
| Outstanding at December 31, 2010 | 3,112,253 | \$ 37.88 | | |
| Granted | 365,583 | 59.97 | | |
| Exercised | (707,770) | 33.89 | | |
| Forfeited | (23,823) | 42.20 | | |
| Expired | (1,426) | 35.53 | | |
| Outstanding at June 30, 2011 | 2,744,817 | 41.81 | 3.70 | \$ 49,351,094 |
| Vested and expected to vest at June 30, 2011 | 2,599,938 | 41.41 | 3.56 | 47,762,256 |
| Exercisable at June 30, 2011 | 1,642,080 | 39.16 | 2.30 | 33,733,082 |

The aggregate intrinsic value of outstanding options shown in the table above represents the pretax intrinsic value based on our closing stock price of \$59.71 as of June 30, 2011. The total intrinsic value of options exercised during the three and six months ended June 30, 2011 was \$6.9 million and \$15.8 million, respectively, compared to \$4.0 million and \$7.2 million for the comparable 2010 periods.

The table below provides information for restricted stock units under the 1997 Equity Incentive Plan and the 2006 Equity Incentive Plan for the six months ended June 30, 2011:

| | Shares | Weighted Average Grant Date Fair Value |
|--------------------------------|-----------|---|
| Nonvested at December 31, 2010 | 395,950 | \$ 43.49 |
| Granted | 312,735 | 60.06 |
| Vested | (112,528) | 43.80 |
| Forfeited | (9,746) | 47.51 |
| Nonvested at June 30, 2011 | 586,411 | 52.20 |

4. Federal Funds Sold, Securities Purchased under Agreements to Resell and Other Short-Term Investment Securities

The following table details the securities purchased under agreements to resell and other short-term investment securities at June 30, 2011 and December 31, 2010, respectively:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 |
|---|---------------|-------------------|
| Securities purchased under agreements to resell | \$ 302,003 | \$ 60,345 |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

| | | |
|--|------------|------------|
| Short-term agency discount notes | | 330,370 |
| Other short-term investment securities | 162,754 | 12,992 |
| Total federal funds sold, securities purchased under agreements to resell and other short-term investment securities | \$ 464,757 | \$ 403,707 |

In addition, as of June 30, 2011 and December 31, 2010, \$1.5 billion and \$2.2 billion, respectively, of our cash and due from banks was deposited with the Federal Reserve Bank and was earning interest at the Federal Funds target rate, and interest-earning deposits in other financial institutions were \$260.4 million and \$246.3 million, respectively.

Table of Contents**5. Investment Securities**

Our investment securities portfolio consists of both an available-for-sale securities portfolio, which represents interest-earning investment securities, and a non-marketable securities portfolio, which primarily represents investments managed as part of our funds management business.

The major components of our investment securities portfolio at June 30, 2011 and December 31, 2010 are as follows:

| (Dollars in thousands) | June 30, 2011 | | | | December 31, 2010 | | | |
|---|---------------------|------------------|-------------------|----------------------|---------------------|------------------|--------------------|---------------------|
| | Amortized Cost | Unrealized Gains | Unrealized Losses | Carrying Value | Amortized Cost | Unrealized Gains | Unrealized Losses | Carrying Value |
| Available-for-sale securities, at fair value: | | | | | | | | |
| U.S. treasury securities | \$ 25,321 | \$ 907 | \$ | \$ 26,228 | \$ 25,408 | \$ 1,002 | \$ | \$ 26,410 |
| U.S. agency debentures | 3,181,788 | 18,226 | (5,650) | 3,194,364 | 2,844,973 | 7,077 | (16,957) | 2,835,093 |
| Residential mortgage-backed securities: | | | | | | | | |
| Agency-issued mortgage-backed securities | 1,323,747 | 19,574 | (1,271) | 1,342,050 | 1,234,120 | 15,487 | (1,097) | 1,248,510 |
| Agency-issued collateralized mortgage obligations - fixed rate | 2,156,358 | 36,703 | (425) | 2,192,636 | 806,032 | 24,435 | (1) | 830,466 |
| Agency-issued collateralized mortgage obligations - variable rate | 2,697,867 | 6,293 | (1,530) | 2,702,630 | 2,870,570 | 10,394 | (1,439) | 2,879,525 |

| Total non-marketable securities | | | | 875,194 | | | | 721,520 |
| Total investment securities | | | | \$ 10,456,099 | | | | \$ 8,639,487 |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

- (1) The following table shows the amount of venture capital and private equity fund investments by the following consolidated funds and our ownership of each fund at June 30, 2011 and December 31, 2010:

| (Dollars in thousands) | June 30, 2011 | | December 31, 2010 | |
|--|-------------------|-------------|-------------------|-------------|
| | Amount | Ownership % | Amount | Ownership % |
| SVB Strategic Investors Fund, LP | \$ 44,643 | 12.6% | \$ 44,722 | 12.6% |
| SVB Strategic Investors Fund II, LP | 116,475 | 8.6 | 94,694 | 8.6 |
| SVB Strategic Investors Fund III, LP | 185,067 | 5.9 | 146,613 | 5.9 |
| SVB Strategic Investors Fund IV, LP | 83,506 | 5.0 | 40,639 | 5.0 |
| SVB Capital Preferred Return Fund, LP | 35,802 | 20.0 | 23,071 | 20.0 |
| SVB Capital NT Growth Partners, LP | 36,934 | 33.0 | 28,624 | 33.0 |
| SVB Capital Partners II, LP (i) | 4,925 | 5.1 | 4,506 | 5.1 |
| Other private equity fund (ii) | 7,766 | 58.2 | 8,378 | 60.6 |
| Total venture capital and private equity fund investments | \$ 515,118 | | \$ 391,247 | |

- (i) At June 30, 2011, we had a direct ownership interest of 1.3% and an indirect ownership interest of 3.8% in the fund through our ownership interest of SVB Strategic Investors Fund II, LP.
- (ii) At June 30, 2011, we had a direct ownership interest of 41.5% and an indirect ownership interest of 12.6% and 4.1% in the fund through our ownership interests of SVB Capital NT Growth Partners, LP and SVB Capital Preferred Return Fund, LP, respectively.

Table of Contents

- (2) The following table shows the amount of other venture capital investments by the following consolidated funds and our ownership of each fund at June 30, 2011 and December 31, 2010:

| (Dollars in thousands) | June 30, 2011 | | December 31, 2010 | |
|--|-------------------|-------------|-------------------|-------------|
| | Amount | Ownership % | Amount | Ownership % |
| Silicon Valley BancVentures, LP | \$ 22,250 | 10.7% | \$ 21,371 | 10.7% |
| SVB Capital Partners II, LP (i) | 47,568 | 5.1 | 51,545 | 5.1 |
| SVB India Capital Partners I, LP | 42,777 | 14.4 | 38,927 | 14.4 |
| SVB Capital Shanghai Yangpu Venture Capital Fund | 1,475 | 6.8 | | |
| Total other venture capital investments | \$ 114,070 | | \$ 111,843 | |

- (i) At June 30, 2011, we had a direct ownership interest of 1.3% and an indirect ownership interest of 3.8% in the fund through our ownership of SVB Strategic Investors Fund II, LP.
- (3) Other investments within non-marketable securities (investment company fair value accounting) include our ownership in Partners for Growth, LP, a consolidated debt fund. At both June 30, 2011 and December 31, 2010 we had a majority ownership interest of slightly more than 50.0% in the fund. Partners for Growth, LP is managed by a third party and we do not have an ownership interest in the general partner of this fund.
- (4) The following table shows the carrying value and our ownership percentage of each investment at June 30, 2011 and December 31, 2010:

| (Dollars in thousands) | June 30, 2011 | | December 31, 2010 | |
|--------------------------------------|------------------|-------------|-------------------|-------------|
| | Amount | Ownership % | Amount | Ownership % |
| Gold Hill Venture Lending 03, LP (i) | \$ 17,043 | 9.3% | \$ 17,826 | 9.3% |
| Gold Hill Capital 2008, LP (ii) | 15,601 | 15.5 | 12,101 | 15.5 |
| Partners for Growth II, LP | 8,156 | 24.2 | 10,465 | 24.2 |
| Other investments | 29,601 | N/A | 26,639 | N/A |
| Total other investments | \$ 70,401 | | \$ 67,031 | |

- (i) At June 30, 2011, we had a direct ownership interest of 4.8% in the fund and an indirect interest in the fund through our investment in Gold Hill Venture Lending Partners 03, LLC (GHLLC) of 4.5%. Our aggregate direct and indirect ownership in the fund is 9.3%.
- (ii) At June 30, 2011, we had a direct ownership interest of 11.5% in the fund and an indirect interest in the fund through our investment in Gold Hill Capital 2008, LLC of 4.0%. Our aggregate direct and indirect ownership in the fund is 15.5%.
- (5) Represents investments in 334 and 343 funds (primarily venture capital funds) at June 30, 2011 and December 31, 2010, respectively, where our ownership interest is less than 5% of the voting interests of each such fund and in which we do not have the ability to exercise significant influence over the partnerships operating and financial policies. For the three months ended June 30, 2011, we recognized other-than-temporary impairment (OTTI) losses of \$0.3 million resulting from other-than-temporary declines in value for 10 of the 334 investments. For the six months ended June 30, 2011, we recognized OTTI losses of \$0.4 million resulting from other-than-temporary declines in value for 18 of the 334 investments. The OTTI losses are included in net gains on investment securities, a component of noninterest income. For the remaining 316 investments at June 30, 2011, we concluded that declines in value, if any, were temporary and as such, no OTTI was required to be recognized. At June 30, 2011, the carrying value of these venture capital and private equity fund investments (cost method accounting) was \$125.6 million, and the estimated fair value was \$141.1 million.

Table of Contents

The following table summarizes our unrealized losses on our available-for-sale securities portfolio into categories of less than 12 months, or 12 months or longer as of June 30, 2011:

| (Dollars in thousands) | Less than 12 months | | June 30, 2011 12 months or longer | | Total | |
|---|---------------------|------------|--------------------------------------|------------|----------------|------------|
| | Fair Value | Unrealized | Fair Value | Unrealized | Fair Value | Unrealized |
| | of Investments | Losses | of Investments | Losses | of Investments | Losses |
| U.S. agency debentures | \$ 963,408 | \$ (5,650) | \$ | \$ | \$ 963,408 | \$ (5,650) |
| Residential mortgage-backed securities: | | | | | | |
| Agency-issued mortgage-backed securities | 98,038 | (1,271) | | | 98,038 | (1,271) |
| Agency-issued collateralized mortgage obligations fixed rate | 306,876 | (425) | | | 306,876 | (425) |
| Agency-issued collateralized mortgage obligations variable rate | 600,587 | (1,530) | | | 600,587 | (1,530) |
| Municipal bonds and notes | 8,578 | (246) | | | 8,578 | (246) |
| Equity securities | 509 | (46) | | | 509 | (46) |
| Total temporarily impaired securities (1) | \$ 1,977,996 | \$ (9,168) | \$ | \$ | \$ 1,977,996 | \$ (9,168) |

- (1) As of June 30, 2011, we identified a total of 75 investments that were in unrealized loss positions. Based on the underlying credit quality of the investments, we do not intend to sell any of our securities prior to recovery of our adjusted cost basis and as of June 30, 2011, it is more likely than not that we will not be required to sell any of our debt securities prior to recovery of our adjusted cost basis. Based on our analysis we deem all impairments to be temporary and changes in value for our temporarily impaired securities as of June 30, 2011 are included in other comprehensive income. Market valuations and impairment analyses on assets in the investment securities portfolio are reviewed and monitored on a quarterly basis.

The following table summarizes our unrealized losses on our available-for-sale securities portfolio into categories of less than 12 months, or 12 months or longer as of December 31, 2010:

| (Dollars in thousands) | Less than 12 months | | December 31, 2010 12 months or longer | | Total | |
|---|---------------------------|-------------------|--|-------------------|---------------------------|-------------------|
| | Fair Value of Investments | Unrealized Losses | Fair Value of Investments | Unrealized Losses | Fair Value of Investments | Unrealized Losses |
| | U.S. agency debentures | \$ 1,731,639 | \$ (16,957) | \$ | \$ | \$ 1,731,639 |
| Residential mortgage-backed securities: | | | | | | |
| Agency-issued mortgage-backed securities | 32,595 | (1,097) | | | 32,595 | (1,097) |
| Agency-issued collateralized mortgage obligations fixed rate | 322 | (1) | | | 322 | (1) |
| Agency-issued collateralized mortgage obligations variable rate | 506,104 | (1,439) | | | 506,104 | (1,439) |
| Municipal bonds and notes | 25,699 | (893) | 3,451 | (72) | 29,150 | (965) |
| Equity securities | 148 | (9) | | | 148 | (9) |
| Total temporarily impaired securities | \$ 2,296,507 | \$ (20,396) | \$ 3,451 | \$ (72) | \$ 2,299,958 | \$ (20,468) |

The following table summarizes the remaining contractual principal maturities and fully taxable equivalent yields on debt securities classified as available-for-sale as of June 30, 2011. Interest income on certain municipal bonds and notes (non-taxable investments) are presented on a fully taxable equivalent basis using the federal statutory tax rate of 35.0 percent. The weighted average yield is computed using the amortized cost of debt securities, which are reported at fair value. For U.S. treasury securities, the expected maturity is the actual contractual maturity of the notes. Expected remaining maturities for most U.S. agency debentures may occur earlier than their contractual maturities because the note issuers have

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

the right to call outstanding amounts ahead of their contractual maturity. Expected maturities for mortgage-backed securities may differ significantly from their contractual maturities because mortgage borrowers have the right to prepay outstanding loan obligations with or without penalties. Mortgage-backed securities classified as available-for-sale typically have original contractual maturities from 10 to 30 years whereas expected average lives of these securities tend to be significantly shorter and vary based upon structure.

| (Dollars in thousands) | June 30, 2011 | | | | | | | | | |

| Total gross losses on investment securities | (11,099) | (12,545) | (14,546) | (18,784) |
| Gains on investment securities, net | \$ 71,680 | \$ 4,805 | \$ 123,017 | \$ 20,809 |
| Gains attributable to noncontrolling interests, including carried interest | \$ 26,437 | \$ 3,564 | \$ 69,822 | \$ 16,342 |

(1) The cost basis of available-for-sale securities sold is determined on a specific identification basis.

Table of Contents**6. Loans and Allowance for Loan Losses**

We serve a variety of commercial clients in the technology, life science, venture capital/private equity and premium wine industries. Our technology clients generally tend to be in the industries of hardware (semiconductors, communications and electronics), software and related services, and clean technology. Our life science clients are concentrated in the medical devices and biotechnology sectors. Loans made to venture capital/private equity firm clients typically enable them to fund investments prior to their receipt of funds from capital calls. Loans to the premium wine industry focus on vineyards and wineries that produce grapes and wines of high quality.

In addition to commercial loans, we make loans to targeted high-net-worth individuals through SVB Private Bank. These products and services include real estate secured home equity lines of credit, which may be used to finance real estate investments and loans used to purchase, renovate or refinance personal residences. These products and services also include restricted stock purchase loans and capital call lines of credit. We also provide secured real estate loans to eligible employees through our Employee Home Ownership Program (EHOP).

We also provide community development loans made as part of our responsibilities under the Community Reinvestment Act. These loans are included within Construction loans below and are primarily secured by real estate.

The composition of loans, net of unearned income of \$52.3 million and \$45.5 million at June 30, 2011 and December 31, 2010, respectively, is presented in the following table:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 |
|--|---------------------|---------------------|
| Commercial loans: | | |
| Software | \$ 2,034,257 | \$ 1,820,385 |
| Hardware | 645,967 | 561,610 |
| Clean technology | 237,430 | 159,502 |
| Venture capital/private equity | 1,009,604 | 1,036,077 |
| Life science | 624,944 | 568,739 |
| Premium wine (1) | 128,232 | 144,972 |
| Other | 257,546 | 303,492 |
| Commercial loans (2) | 4,937,980 | 4,594,777 |
| Real estate secured loans: | | |
| Premium wine (1) | 341,659 | 312,255 |
| Consumer loans (3) | 462,922 | 361,704 |
| Real estate secured loans | 804,581 | 673,959 |
| Construction loans | 37,871 | 60,178 |
| Consumer loans | 198,214 | 192,823 |
| Total loans, net of unearned income | \$ 5,978,646 | \$ 5,521,737 |

- (1) Included in our premium wine portfolio are gross construction loans of \$109.5 million and \$119.0 million at June 30, 2011 and December 31, 2010, respectively.
- (2) Included within our commercial loans portfolio are business credit card loans to commercial clients. At June 30, 2011 and December 31, 2010, our business credit card loans portfolio totaled \$42.1 million and \$32.5 million, respectively.
- (3) Consumer loans secured by real estate at June 30, 2011 and December 31, 2010 were comprised of the following:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 |
|------------------------------|---------------|-------------------|
| Loans for personal residence | \$ 286,106 | \$ 189,039 |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

| | | |
|---------------------------------------|------------|------------|
| Loans to eligible employees | 92,782 | 88,510 |
| Home equity lines of credit | 84,034 | 84,155 |
| Consumer loans secured by real estate | \$ 462,922 | \$ 361,704 |

Table of Contents

The activity in the allowance for loan losses for the three and six months ended June 30, 2011 and 2010 was as follows:

| (Dollars in thousands) | Three months ended June 30, | | Six months ended June 30, | |
|--|-----------------------------|-----------|---------------------------|-----------|
| | 2011 | 2010 | 2011 | 2010 |
| Allowance for loan losses, beginning balance | \$ 82,051 | \$ 68,271 | \$ 82,627 | \$ 72,450 |
| Provision for (reduction of) loan losses | 134 | 7,408 | (2,913) | 18,153 |
| Gross loan charge-offs | (4,293) | (7,133) | (8,615) | (28,313) |
| Loan recoveries | 4,263 | 3,243 | 11,056 | 9,499 |
| | | | | |
| Allowance for loan losses, ending balance | \$ 82,155 | \$ 71,789 | \$ 82,155 | \$ 71,789 |

Credit Quality

The composition of loans, net of unearned income, broken out by portfolio segment (which we have identified as our commercial and consumer loan categories) and class of financing receivable (which we have identified as our client industry segments of software, hardware, etc.) as of June 30, 2011 and December 31, 2010, is as follows:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 |
|-------------------------------------|---------------|-------------------|
| Commercial loans: | | |
| Software | \$ 2,061,588 | \$ 1,820,680 |
| Hardware | 754,361 | 641,052 |
| Venture capital/private equity | 1,009,653 | 1,036,201 |
| Life science | 645,371 | 575,944 |

Table of Contents*Credit Quality Indicators*

For each individual client we establish an internal credit risk rating for that loan, which is used for assessing and monitoring credit risk as well as performance of the loan and the overall portfolio. Our internal credit risk ratings are also used to summarize the risk of loss due to failure by an individual borrower to repay the loan. For our internal credit risk ratings, each individual loan is given a risk rating of 1 through 10. Loans risk-rated 1 through 4 are performing loans and translate to an internal rating of Pass, with loans risk-rated 1 being cash secured. Loans risk-rated 5 through 7 are loans that are performing loans, however, we consider them as demonstrating higher risk which requires more frequent review of the individual exposures. These loans translate to an internal rating of Performing (Criticized). A majority of our performing (criticized) loans are from our SVB Accelerator practice, serving our emerging or early stage clients. Loans risk-rated 8 and 9 are loans that are considered to be impaired and are on nonaccrual status. Loans are placed on nonaccrual status when they become 90 days past due as to principal or interest payments (unless the principal and interest are well secured and in the process of collection), or when we have determined, based upon most recent available information, that the timely collection of principal or interest is not probable; these loans are deemed Impaired. For further description of nonaccrual loans, refer to Note 2 Summary of Significant Accounting Policies under Part II, Item 8 of our 2010 Form 10-K. Loans rated 10 are charged-off and are not included as part of our loan portfolio balance. We review our credit quality indicators for performance and appropriateness of risk ratings as part of our evaluation process for our allowance for loan losses. The following table summarizes the credit quality indicators, broken out by portfolio segment and class of financing receivables as of June 30, 2011 and December 31, 2010:

| (Dollars in thousands) | Pass | Performing (Criticized) | Impaired | Total |
|--------------------------------|---------------------|----------------------------|------------------|---------------------|
| June 30, 2011: | | | | |

Troubled Debt Restructurings

Included in the \$36.3 million of impaired loans at June 30, 2011 are loans modified in troubled debt restructurings (TDRs), where concessions have been granted to borrowers experiencing financial difficulties, in an attempt to maximize collection. At June 30, 2011, all TDRs were included as part of our impaired loan balances. In order for these loan balances to return to accrual status, the borrower must demonstrate a sustained period of timely payments and the ultimate collectability of all amounts contractually due is not in doubt. There were no commitments available for funding to any of the clients associated with these TDRs as of June 30, 2011. The following table summarizes our loans modified in TDRs, broken out by portfolio segment and class of financing receivables as of June 30, 2011:

Table of Contents

| (Dollars in thousands) | June 30, 2011 |
|--------------------------------|---------------|
| Loans modified in TDRs: | |
| Commercial loans: | |
| Software | \$ 2,248 |
| Hardware | 6,543 |
| Life science | 140 |
| Premium wine | 73 |
| Other | 2,148 |
| Total commercial loans | 11,152 |
| Consumer loans: | |
| Real estate secured loans | 18,802 |
| Total consumer loans | 18,802 |
| Total | \$ 29,954 |

7. Short-Term Borrowings and Long-Term Debt

The following table represents outstanding short-term borrowings and long-term debt at June 30, 2011 and December 31, 2010:

| (Dollars in thousands) | Maturity | Principal value | Carrying Value | |
|-------------------------------------|--------------------|-----------------|----------------|-------------------|
| | | | June 30, 2011 | December 31, 2010 |
| <i>Short-term borrowings:</i> | | | | |
| Other short-term borrowings | (1) | \$ | \$ | \$ 37,245 |
| Total short-term borrowings | | | \$ | \$ 37,245 |
| <i>Long-term debt:</i> | | | | |
| 5.375% Senior Notes | September 15, 2020 | 350,000 | \$ 347,696 | \$ 347,601 |
| 5.70% Senior Notes (2) | June 1, 2012 | 141,429 | 147,446 | 265,613 |
| 6.05% Subordinated Notes (3) | June 1, 2017 | 45,964 | 53,150 | 285,937 |
| 3.875% Convertible Notes | April 15, 2011 | | | 249,304 |
| 7.0% Junior Subordinated Debentures | October 15, 2033 | 50,000 | 55,461 | 55,548 |
| 4.99% long-term notes payable | (4) | 5,843 | 5,843 | 5,257 |
| Total long-term debt | | | \$ 609,596 | \$ 1,209,260 |

- (1) At December 31, 2010, represented cash collateral received from counterparties for our interest rate swap agreements related to our 5.70% Senior Notes and 6.05% Subordinated Notes. Due to the repurchase of \$312.6 million of these notes and termination of associated portions of interest rate swaps (see discussion below) in May 2011, the notional value of our swaps fell below the \$10 million threshold specified in the agreement, and therefore, the full collateral was returned to the counterparties.
- (2) At June 30, 2011 and December 31, 2010, included in the carrying value of our 5.70% Senior Notes are \$6.1 million and \$15.7 million, respectively, related to the fair value of the interest rate swap associated with the notes.
- (3) At June 30, 2011 and December 31, 2010, included in the carrying value of our 6.05% Subordinated Notes are \$7.2 million and \$36.3 million, respectively, related to the fair value of the interest rate swap associated with the notes.
- (4) Represents long-term notes payable related to one of our debt fund investments, and was payable beginning April 30, 2009 with the last payment due in April 2012.

Interest expense related to short-term borrowings and long-term debt was \$7.1 million and \$17.8 million for the three and six months ended June 30, 2011, respectively, and \$5.9 million and \$11.5 million for the three and six months ended June 30, 2010, respectively. Interest expense

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

is net of the cash flow impact from our interest rate swap agreements related to our 5.70% Senior Notes and 6.05% Subordinated Notes. The weighted average interest rate associated with our short-term borrowings as of December 31, 2010 was 0.13 percent.

Table of Contents***Senior Notes and Subordinated Notes***

We repurchased \$108.6 million of our 5.70% Senior Notes and \$204.0 million of our 6.05% Subordinated Notes through a tender offer transaction on May 2, 2011. These repurchases resulted in a gross loss from extinguishment of debt of \$33.9 million, which included the payment of the repurchase premiums, transaction fees, and discount and origination fee accretion related to the notes. In connection with these repurchases, we terminated corresponding amounts of the interest rate swaps associated with these notes (see Note 8 *Derivative Financial Instruments*), resulting in a gross gain on swap termination of \$37.0 million. The net gain from the note repurchases and the termination of corresponding portions of the interest rate swaps was \$3.1 million (on a pre-tax basis), and was recognized during the second quarter of 2011 as a reduction in noninterest expense, which is included in the line item *Other* .

3.875% Convertible Notes

Our \$250 million 3.875% Convertible Notes matured on April 15, 2011. All of the notes were converted prior to maturity and we made an aggregate \$260.4 million conversion settlement payment. We paid \$250.0 million in cash (representing total principal) and \$10.4 million through the issuance of 187,760 shares of our common stock (representing total conversion premium value). In addition, in connection with the conversion settlement, we received 186,736 shares of our common stock, valued at \$10.3 million, from the associated convertible note hedge. Accordingly, there was no significant net impact on our total stockholders' equity with respect to settling the conversion premium value.

Concurrent with the issuance of our 3.875% Convertible Notes, we entered into a convertible note hedge and warrant agreement (see Note 8 *Derivative Financial Instruments*), which effectively increased the economic conversion price of our 3.875% Convertible Notes to \$64.43 per share of common stock. The terms of the hedge and warrant agreement were not part of the terms of the notes and did not affect the rights of the holders of the notes. The warrants expire ratably over 60 business days beginning on July 15, 2011.

The effective interest rate for our 3.875% Convertible Notes for the three and six months ended June 30, 2011 was 6.84 percent and 5.92 percent, respectively, and interest expense was \$0.7 million and \$4.2 million, respectively. For the three and six months ended June 30, 2010, the effective interest rate was 5.72 percent and 5.75 percent, respectively, and interest expense was \$3.5 million and \$7.1 million, respectively.

Available Lines of Credit

We have certain facilities in place providing us access to short-term borrowings on a secured basis (using available-for-sale securities as collateral) and on an unsecured basis. These include repurchase agreements and uncommitted federal funds lines with various financial institutions. As of June 30, 2011, we had not borrowed against any of our repurchase lines or any of our uncommitted federal funds lines. We also pledge securities to the Federal Home Loan Bank of San Francisco and the discount window at the Federal Reserve Bank. The market value of collateral pledged to the Federal Home Loan Bank of San Francisco (comprised entirely of U.S. agency debentures) at June 30, 2011 totaled \$1.6 billion, all of which was unused and available to support additional borrowings. The market value of collateral pledged at the discount window of the Federal Reserve Bank at June 30, 2011 totaled \$96.6 million, all of which was unused and available to support additional borrowings.

8. Derivative Financial Instruments

We primarily use derivative financial instruments to manage interest rate risk, currency exchange rate risk, equity market price risk and to assist customers with their risk management objectives. Also, in connection with negotiating credit facilities and certain other services, we often obtain equity warrant assets giving us the right to acquire stock in primarily private, venture-backed companies in the technology and life science industries.

Table of Contents***Interest Rate Risk***

Interest rate risk is our primary market risk and can result from timing and volume differences in the repricing of our interest rate-sensitive assets and liabilities and changes in market interest rates. To manage interest rate risk for our 5.70% Senior Notes, and 6.05% Subordinated Notes, we entered into fixed-for-floating interest rate swap agreements at the time of debt issuance based upon London Interbank Offered Rates (LIBOR) with matched-terms. Prior to our termination of portions of our interest rate swap agreements (discussed below), we used the shortcut method to assess hedge effectiveness and evaluate the hedging relationships for qualification under the shortcut method requirements for each reporting period. Net cash benefits associated with our interest rate swaps were recorded in Interest expense Borrowings, a component of net interest income. The fair value of our interest rate swaps was calculated using a discounted cash flow method and adjusted for credit valuation associated with counterparty risk. Increases from changes in fair value were included in other assets and decreases from changes in fair value were included in other liabilities.

In connection with the repurchase of portions of our 5.70% Senior Notes and 6.05% Subordinated Notes in May 2011, we terminated corresponding amounts of the associated interest rate swaps. As a result of these terminations, the remaining portions of the interest rate swaps no longer qualify for the shortcut method to assess hedge effectiveness under Accounting Standards Codification (ASC) 815, and going forward will be accounted for under the long-haul method. Any differences associated with our interest rate swaps that arise as a result of hedge ineffectiveness will be recorded through net gains on derivative instruments, in noninterest income, a component of consolidated net income.

Currency Exchange Risk

We enter into foreign exchange forward contracts to economically reduce our foreign exchange exposure risk related to our client loans that are denominated in foreign currencies, primarily in Pound Sterling and Euro. We do not designate any foreign exchange forward contracts as derivative instruments that qualify for hedge accounting. Changes in currency rates on the loans are included in other noninterest income, a component of noninterest income. We may experience ineffectiveness in the economic hedging relationship, because the loans are revalued based upon changes in the currency's spot rate on the principal value, while the forwards are revalued on a discounted cash flow basis. We record forward agreements in gain positions in other assets and loss positions in other liabilities, while net changes in fair value are recorded through net gains on derivative instruments, in noninterest income, a component of consolidated net income.

Equity Market Price Risk

Our 3.875% Convertible Notes, which matured in April 2011, contained conversion options that enabled holders to convert the notes, subject to certain conditions. Upon conversion of the notes, we paid the outstanding principal amount in cash as required by the terms of the notes, and to the extent that the conversion value exceeded the principal amount, we had the option to pay cash or shares of our common stock (or a combination of cash and shares) in respect of the excess amount. The conversion option represented an equity risk exposure for the excess conversion value and was an equity derivative classified in stockholders' equity. We managed equity market price risk of our 3.875% Convertible Notes by entering into a convertible note hedge and warrant agreement at a net cost of \$20.6 million, which effectively increased the economic conversion price from \$53.04 per common share to \$64.43, and decreased potential dilution to stockholders resulting from the conversion option. For the three and six months ended June 30, 2011 and 2010, there were no conversions or exercises under the warrant agreement as the warrants were not convertible. The warrants expire ratably over 60 business days beginning on July 15, 2011.

For more information on the 3.875% Convertible Notes, see our Consolidated Financial Statements and Supplementary Data Note 12 Short-Term Borrowings and Long-Term Debt under Part II, Item 8 of our 2010 Form 10-K.

Other Derivative Instruments**Equity Warrant Assets**

Our equity warrant assets are concentrated in private, venture-backed companies in the technology and life science industries. Most of these warrant agreements contain net share settlement provisions, which permit us to pay the warrant exercise price using shares issuable under the warrant (cashless exercise). Because we can net settle these warrant agreements, these equity warrant assets qualify as derivative instruments. We value our equity warrant assets using a modified Black-Scholes option pricing model, which incorporates assumptions about the underlying asset value, volatility, and the risk-free rate. We make valuation adjustments for estimated remaining life and marketability for warrants issued by private companies. Equity warrant assets are recorded at fair value in other assets, while changes in their fair value are recorded through net gains on derivative instruments, in noninterest income, a component of consolidated net income.

Table of ContentsLoan Conversion Options

In connection with negotiating certain credit facilities, we occasionally extend loan facilities which have convertible option features. The convertible loans may be converted into a certain number of shares determined by dividing the principal amount of the loan by the applicable conversion price. Because our loan conversion options have underlying and notional values and had no initial net investment, these assets qualify as derivative instruments. We value our loan conversion options using a modified Black-Scholes option pricing model, which incorporates assumptions about the underlying asset value, volatility, and the risk-free rate. Loan conversion options are recorded at fair value in other assets, while changes in their fair value are recorded through net gains on derivative instruments, in noninterest income, a component of consolidated net income.

Other Derivatives

We sell forward and option contracts to clients who wish to mitigate their foreign currency exposure. We economically reduce the currency risk from this business by entering into opposite way contracts with correspondent banks. This relationship does not qualify for hedge accounting. The contracts generally have terms of one year or less, although we may have contracts extending for up to five years. We generally have not experienced nonperformance on these contracts, have not incurred credit losses, and anticipate performance by all counterparties to such agreements. Increases from changes in fair value are included in other assets and decreases from changes in fair value are included in other liabilities. The net change in the fair value of these contracts is recorded through net gains on derivative instruments, in noninterest income, a component of consolidated net income.

We sell interest rate contracts to clients who wish to mitigate their interest rate exposure. We economically reduce the interest rate risk from this business by entering into opposite way contracts with correspondent banks. We do not designate any of these contracts (which are derivative instruments) as qualifying for hedge accounting. Increases from changes in fair value are included in other assets and decreases from changes in fair value are included in other liabilities. The net change in the fair value of these derivatives is recorded through net gains on derivative instruments, in noninterest income, a component of consolidated net income.

Counterparty Credit Risk

We are exposed to credit risk if counterparties to our derivative contracts do not perform as expected. We minimize counterparty credit risk through credit approvals, limits, monitoring procedures and obtaining collateral, as appropriate.

The total notional or contractual amounts, fair value, collateral and net exposure of our derivative financial instruments at June 30, 2011 and December 31, 2010, respectively, were as follows:

| (Dollars in thousands) | Balance Sheet Location | June 30, 2011 | | | December 31, 2010 | | | | |
|---|------------------------|--------------------------------|------------|----------------|-------------------|--------------------------------|------------|----------------|------------------|

10. Segment Reporting

Effective January 1, 2011, we changed the way we monitor performance and results of our business segments and as a result, we changed how our segments are presented. We have reclassified all prior period segment information to conform to the current presentation of our operating segments.

We have three operating segments for management reporting purposes: Global Commercial Bank, SVB Private Bank and SVB Capital. The results of our operating segments are based on our internal management reporting process.

Table of Contents

Our operating segments' primary source of revenue is from net interest income, which is primarily the difference between interest earned on loans, net of funds transfer pricing (FTP), and interest paid on deposits, net of FTP. Accordingly, our segments are reported using net interest income, net of FTP. FTP is an internal measurement framework designed to assess the financial impact of a financial institution's sources and uses of funds. It is the mechanism by which an earnings credit is given for deposits raised, and an earnings charge is made for funded loans. FTP is calculated by applying a transfer rate to pooled, or aggregated, loan and deposit volumes.

We also evaluate performance based on provision for loan losses, noninterest income and noninterest expense, which are presented as components of segment operating profit or loss. In calculating each reportable segment's noninterest expense, we consider the direct costs incurred by the operating segment as well as certain allocated direct costs. As part of this review, we allocate certain corporate overhead costs to a corporate account. We do not allocate income taxes to our segments. Additionally, our management reporting model is predicated on average asset balances; therefore, period-end asset balances are not presented for segment reporting purposes. Changes in an individual client's primary relationship designation have resulted, and in the future may result, in the inclusion of certain clients in different segments in different periods.

Unlike financial reporting, which benefits from the comprehensive structure provided by GAAP, our internal management reporting process is highly subjective, as there is no comprehensive, authoritative guidance for management reporting. Our management reporting process measures the performance of our reportable segments based on our internal operating structure, which is subject to change from time to time, and is not necessarily comparable with similar information for other financial services companies.

The following is a description of the services that our three operating segments provide:

Global Commercial Bank provides solutions to the financial needs of commercial clients through lending, deposit products, cash management services, and global banking and trade products and services. It also serves the needs of our non-U.S. clients with global banking products, including loans, deposits and global finance, in key foreign entrepreneurial markets, where applicable. Effective January 1, 2011, Global Commercial Bank included the results of SVB Specialty Lending, SVB Analytics and our Debt Fund Investments. SVB Specialty Lending provides banking products and services to our premium wine industry clients, including vineyard development loans, as well as community development loans made as part of our responsibilities under the Community Reinvestment Act. Previously, the results of SVB Specialty Lending were included as part of our Relationship Management segment (no longer a separately reported operating segment effective January 1, 2011). SVB Analytics provides equity valuation and equity management services to private companies and venture capital/private equity firms. Previously, the results of SVB Analytics were included as part of our Other Business Services segment (no longer a separately reported operating segment effective January 1, 2011). Our Debt Fund Investments primarily include the Gold Hill Funds, which provide secured debt to private companies of all stages, and Partners for Growth Funds, which provide secured debt primarily to mid-stage and late-stage clients. Previously, the results of our Debt Fund Investments were included as part of our Other Business Services segment. As a result of these changes, our Global Commercial Bank segment's income before income tax expense for the six months ended June 30, 2010 was reduced by \$17.6 million due to our reclassification of all prior periods to reflect the current segment composition.

SVB Private Bank provides banking products and a range of credit services to targeted high-net-worth individuals using both long-term secured and short-term unsecured lines of credit. Previously, the results of SVB Private Bank were included as part of our Relationship Management segment. Effective January 1, 2011, the results of SVB Private Bank are separately reported.

SVB Capital manages funds (primarily venture capital funds) on behalf of SVB Financial Group and other third party limited partners. The SVB Capital family of funds is comprised of funds of funds and co-investment funds. Effective January 1, 2011, SVB Capital included the results of our Strategic Investments, which includes certain strategic investments held by SVB Financial. Previously, the results of our Strategic Investments were included as part of our Other Business Services segment.

The summary financial results of our operating segments are presented along with a reconciliation to our consolidated interim results. The Other Items column reflects the adjustments necessary to reconcile the results of the operating segments to the consolidated financial statements prepared in conformity with GAAP. Net interest income (loss) in the Other Items column is primarily interest income recognized from our fixed income investment portfolio, partially offset by interest income transferred to the segments as part of FTP. Noninterest income in the Other Items column is primarily attributable to noncontrolling interests and gains (losses) on equity warrant assets. Noninterest expense in the Other Items column primarily consists of expenses associated with corporate support functions such as finance, human resources, marketing, legal and other expenses. Additionally, average assets in the Other Items column primarily consist of cash and cash equivalents and our available-for-sale securities portfolio balances.

Table of Contents

Our segment information for the three and six months ended June 30, 2011 and 2010 is as follows:

| (Dollars in thousands) | Global Commercial Bank (1) | SVB Private Bank | SVB Capital (1) | Other Items | Total |
|---|----------------------------------|------------------------|-----------------------|----------------|--------------|
| Three months ended June 30, 2011 | | | | | |
| Net interest income | \$ 108,452 | \$ 4,837 | \$ 3 | \$ 17,161 | \$ 130,453 |
| (Provision for) reduction of loan losses | (730) | 596 | | | (134) |
| Noninterest income | 36,551 | 136 | 6,716 | 80,305 | 123,708 |
| Noninterest expense (2) | (85,462) | (2,477) | (3,111) | (29,982) | (121,032) |
| Income before income tax expense (3) | \$ 58,811 | \$ 3,092 | \$ 3,608 | \$ 67,484 | \$ 132,995 |
| Total average loans, net of unearned income | \$ 4,822,497 | \$ 642,287 | \$ | \$ 68,047 | \$ 5,532,831 |
| Total average assets | 5,264,434 | 642,744 | 232,381 | 12,114,972 | 18,254,531 |
| Total average deposits | 15,099,789 | 156,765 | | 13,185 | 15,269,739 |
| Three months ended June 30, 2010 | | | | | |
| Net interest income | \$ 90,983 | \$ 3,120 | \$ | \$ 12,333 | \$ 106,436 |
| (Provision for) reduction of loan losses | (7,571) | 163 | | | (7,408) |
| Noninterest income | 32,862 | 132 | 2,956 | 4,207 | 40,157 |
| Noninterest expense (2) | (73,877) | (1,036) | (3,632) | (25,635) | (104,180) |
| Income (loss) before income tax expense (3) | \$ 42,397 | \$ 2,379 | \$ (676) | \$ (9,095) | \$ 35,005 |
| Total average loans, net of unearned income | \$ 3,673,144 | \$ 431,598 | \$ | \$ 7,298 | \$ 4,112,040 |
| Total average assets | 4,006,279 | 431,676 | 144,426 | 9,971,881 | 14,554,262 |
| Total average deposits | 11,767,045 | 153,950 | | (15,554) | 11,905,441 |
| Six months ended June 30, 2011 | | | | | |
| Net interest income | \$ 212,254 | \$ 9,238 | \$ 4 | \$ 29,256 | \$ 250,752 |
| Reduction of provision for loan losses | 661 | 2,252 | | | 2,913 |
| Noninterest income | 71,415 | 223 | 14,006 | 128,018 | 213,662 |
| Noninterest expense (2) | (171,847) | (4,480) | (6,253) | (55,887) | (238,467) |
| Income before income tax expense (3) | \$ 112,483 | \$ 7,233 | \$ 7,757 | \$ 101,387 | \$ 228,860 |
| Total average loans, net of unearned income | \$ 4,766,104 | \$ 613,467 | \$ | \$ 43,480 | \$ 5,423,051 |
| Total average assets | 5,169,591 | 613,734 | 222,570 | 12,097,313 | 18,103,208 |
| Total average deposits | 14,803,648 | 153,520 | | 12,638 | 14,969,806 |
| Six months ended June 30, 2010 | | | | | |
| Net interest income (loss) | \$ 178,451 | \$ 6,200 | \$ (1) | \$ 22,626 | \$ 207,276 |
| (Provision for) reduction of loan losses | (18,427) | 274 | | | (18,153) |
| Noninterest income | 63,804 | 237 | 7,870 | 17,519 | 89,430 |
| Noninterest expense (2) | (145,201) | (2,065) | (7,158) | (48,332) | (202,756) |
| Income (loss) before income tax expense (3) | \$ 78,627 | \$ 4,646 | \$ 711 | \$ (8,187) | \$ 75,797 |
| Total average loans, net of unearned income | \$ 3,669,378 | \$ 431,125 | \$ | \$ 13,286 | \$ 4,113,789 |
| Total average assets | 4,004,197 | 431,268 | 146,001 | 9,481,115 | 14,062,581 |
| Total average deposits | 11,308,998 | 139,108 | | (9,182) | 11,438,924 |

(1)

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

SVB Capital s and Global Commercial Bank s components of net interest income (loss), noninterest income, noninterest expense and total average assets are shown net of noncontrolling interests for all periods presented.

- (2) The Global Commercial Bank segment includes direct depreciation and amortization of \$2.7 million and \$2.3 million for the three months ended June 30, 2011 and 2010, respectively, and \$5.7 million and \$4.8 million for the six months ended June 30, 2011 and 2010, respectively.
- (3) The internal reporting model used by management to assess segment performance does not calculate income tax expense by segment. Our effective tax rate is a reasonable approximation of the segment rates.

Table of Contents**11. Off-Balance Sheet Arrangements, Guarantees and Other Commitments**

In the normal course of business, we use financial instruments with off-balance sheet risk to meet the financing needs of our customers. These financial instruments include commitments to extend credit, commercial and standby letters of credit and commitments to invest in venture capital and private equity fund investments. These instruments involve, to varying degrees, elements of credit risk. Credit risk is defined as the possibility of sustaining a loss because other parties to the financial instrument fail to perform in accordance with the terms of the contract.

Commitments to Extend Credit

The following table summarizes information related to our commitments to extend credit (excluding letters of credit) at June 30, 2011 and December 31, 2010, respectively:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 |
|---|---------------|-------------------|
| Commitments available for funding: (1) | | |
| Fixed interest rate commitments | \$ 646,470 | \$ 386,055 |
| Variable interest rate commitments | 6,050,786 | 5,884,450 |
| Total commitments available for funding | \$ 6,697,256 | \$ 6,270,505 |
| Commitments unavailable for funding (2) | \$ 923,408 | \$ 963,847 |
| Maximum lending limits for accounts receivable factoring arrangements (3) | 709,783 | 697,702 |
| Reserve for unfunded credit commitments (4) | 17,490 | 17,414 |

- (1) Represents commitments which are available for funding, due to clients meeting all collateral, compliance and financial covenants required under loan commitment agreements.
- (2) Represents commitments which are currently unavailable for funding, due to clients failing to meet all collateral, compliance and financial covenants under loan commitment agreements.
- (3) We extend credit under accounts receivable factoring arrangements when our clients' sales invoices are deemed creditworthy under existing underwriting practices.
- (4) Our reserve for unfunded credit commitments includes an allowance for both our unfunded loan commitments and our standby letters of credit.

Commercial and Standby Letters of Credit

The table below summarizes our commercial and standby letters of credit at June 30, 2011. The maximum potential amount of future payments represents the amount that could be remitted under letters of credit if there were a total default by the guaranteed parties, without consideration of possible recoveries under recourse provisions or from the collateral held or pledged.

| (Dollars in thousands) | Expires In One Year or Less | Expires After One Year | Total Amount Outstanding | Maximum Amount of Future Payments |
|---------------------------------------|--------------------------------|---------------------------|-----------------------------|--------------------------------------|
| Financial standby letters of credit | \$ 575,713 | \$ 91,433 | \$ 667,146 | \$ 667,146 |
| Performance standby letters of credit | 43,153 | 4,366 | 47,519 | 47,519 |
| Commercial letters of credit | 2,692 | | 2,692 | 2,692 |
| Total | \$ 621,558 | \$ 95,799 | \$ 717,357 | \$ 717,357 |

At June 30, 2011 and December 31, 2010, deferred fees related to financial and performance standby letters of credit were \$5.3 million and \$5.2 million, respectively. At June 30, 2011, collateral in the form of cash of \$253.6 million and available-for-sale securities of \$18.7 million were available to us to reimburse losses, if any, under financial and performance standby letters of credit.

Table of Contents**Commitments to Invest in Venture Capital and Private Equity Funds**

We make commitments to invest in venture capital and private equity funds, which in turn make investments generally in, or in some cases make loans to, privately-held companies. Commitments to invest in these funds are generally made for a ten-year period from the inception of the fund. Although the limited partnership agreements governing these investments typically do not restrict the general partners from calling 100% of committed capital in one year, it is customary for these funds to generally call most of the capital commitments over five to seven years. The actual timing of future cash requirements to fund these commitments is generally dependent upon the investment cycle, overall market conditions, and the nature and type of industry in which the privately held companies operate. The following table details our total capital commitments, unfunded capital commitments, and our ownership in each fund at June 30, 2011:

| Our Ownership in Limited Partnership (Dollars in thousands) | SVBFG Capital Commitments | SVBFG Unfunded Commitments | SVBFG Ownership of each Fund |
|--|----------------------------------|-----------------------------------|-------------------------------------|
| Silicon Valley BancVentures, LP | \$ 6,000 | \$ 270 | 10.7% |
| SVB Capital Partners II, LP (1) | 1,200 | 252 | 5.1 |
| SVB India Capital Partners I, LP | 7,750 | 1,612 | 14.4 |
| SVB Capital Shanghai Yangpu Venture Capital Fund | 897 | 155 | 6.8 |
| SVB Strategic Investors Fund, LP | 15,300 | 688 | 12.6 |
| SVB Strategic Investors Fund II, LP | 15,000 | 2,250 | 8.6 |
| SVB Strategic Investors Fund III, LP | 15,000 | 4,050 | 5.9 |
| SVB Strategic Investors Fund IV, LP | 12,239 | 7,466 | 5.0 |
| SVB Strategic Investors Fund V, LP | 10,000 | 9,920 | 100.0 |
| SVB Capital Preferred Return Fund, LP | 12,687 | | 20.0 |
| SVB Capital NT Growth Partners, LP | 24,670 | 1,340 | 33.0 |
| Other private equity fund (2) | 9,338 | | 58.2 |
| Partners for Growth, LP | 25,000 | 9,750 | 50.0 |
| Partners for Growth II, LP | 15,000 | 4,950 | 24.2 |
| Gold Hill Venture Lending 03, LP (3) | 20,000 | | 9.3 |
| Other Fund Investments (4) (5) | 333,070 | 113,517 | Various |
| Total | \$ 523,151 | \$ 156,220 | |

- (1) Our ownership includes 1.3% direct ownership through SVB Capital Partners II, LLC and SVB Financial Group, and 3.8% indirect ownership through our investment in SVB Strategic Investors Fund II, LP.
- (2) Our ownership includes 41.5% direct ownership and indirect ownership interest of 12.6% and 4.1% in the fund through our ownership interests of SVB Capital - NT Growth Partners, LP and SVB Capital Preferred Return Fund, LP, respectively.
- (3) Our ownership includes 4.8% direct ownership and 4.5% indirect ownership interest through GHLLC.
- (4) Represents commitments to 338 funds (primarily venture capital funds) where our ownership interest is generally less than 5% of the voting interests of each such fund.
- (5) Included in Other Fund Investments are \$181.2 million and \$88.1 million of commitments and unfunded commitments made by SVB Financial Group, respectively, which were originally intended to be transferred to certain new managed funds of funds. We currently do not have any plans to transfer these investments to any new or existing managed fund. Until we may later decide to transfer, sell or otherwise dispose of the investments to a fund managed by us or a third party, they continue to remain obligations of SVB Financial.

Table of Contents

The following table details the total remaining unfunded commitments to the venture capital and private equity funds by our consolidated managed funds of funds (including our interest and the noncontrolling interests) at June 30, 2011:

| Limited Partnership (Dollars in thousands) | Unfunded Commitments |
|---|---------------------------------|
| SVB Strategic Investors Fund, LP | \$ 2,538 |
| SVB Strategic Investors Fund II, LP | 15,810 |
| SVB Strategic Investors Fund III, LP | 75,495 |
| SVB Strategic Investors Fund IV, LP | 166,159 |
| SVB Strategic Investors Fund V, LP | 9,920 |
| SVB Capital Preferred Return Fund, LP | 31,902 |
| SVB Capital NT Growth Partners, LP | 36,938 |
| Other private equity fund | 5,797 |
| Total | \$ 344,559 |

12. Income Taxes

We are subject to income tax in the U.S. federal jurisdiction and various state and foreign jurisdictions and have identified our federal tax return and tax returns in California and Massachusetts as major tax filings. U.S. federal tax examinations through 1998 have been concluded. The U.S. federal tax return for 2006 and subsequent years remain open to examination by the Internal Revenue Service (IRS). Our California and Massachusetts tax returns for the years 2006 and 2007, respectively, and subsequent years remain open to examination.

Effective July 2011, the Company is under audit examination by the IRS for the 2008 and 2009 tax years. To the extent the final tax liabilities are different from the amounts originally accrued, the increases or decreases will be recorded as income tax expense or benefit in the consolidated statements of operations. While the actual outcome is subject to the completion of these audits, we do not believe there will be a material adverse impact on the Company's results of operations.

At June 30, 2011, our unrecognized tax benefit was \$0.5 million, the recognition of which would reduce our income tax expense by \$0.3 million. Total accrued interest and penalties at June 30, 2011 were \$0.2 million. We expect that our unrecognized tax benefit will change in the next 12 months; however we do not expect the change to have a significant impact on our financial position or our results of operations.

13. Fair Value of Financial Instruments*Fair Value Measurements*

Our available-for-sale securities, derivative instruments and certain marketable and non-marketable securities are financial instruments recorded at fair value on a recurring basis. We make estimates regarding valuation of assets and liabilities measured at fair value in preparing our interim consolidated financial statements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. There is a three-level hierarchy for disclosure of assets and liabilities recorded at fair value. The classification of assets and liabilities within the hierarchy is based on whether the inputs to the valuation methodology used for measurement are observable or unobservable. Observable inputs reflect market-derived or market-based information obtained from independent sources, while unobservable inputs reflect our estimates about market data. The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access. Valuation adjustments and block discounts are not applied to instruments utilizing Level 1 inputs. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment.

Assets utilizing Level 1 inputs include exchange-traded equity securities and certain marketable securities accounted for under investment company fair value accounting.

Table of Contents

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly. Valuations for the available-for-sale securities are provided by independent external pricing service providers. We review the methodologies used to determine the fair value, including understanding the nature and observability of the inputs used to determine the price. Additional corroboration, such as obtaining a non-binding price from a broker, may be required depending on the frequency of trades of the security and the level of liquidity or depth of the market. The valuation methodology that is generally used for the Level 2 assets is the income approach. Below is a summary of the significant inputs used for each class of Level 2 assets and liabilities:

- **U.S. treasury securities:** U.S. treasury securities are considered by most investors to be the most liquid fixed income investments available. These securities are priced relative to market prices on similar U.S. treasury securities.
- **U.S. agency debentures:** Valuations of U.S. agency debentures are based on the characteristics specific to bonds held, such as issuer name, coupon rate, maturity date and any applicable issuer call option features. Valuations are based on market spreads relative to similar term benchmark market interest rates, generally U.S. treasury securities.
- **Agency-issued mortgage-backed securities:** Agency-issued mortgage-backed securities are pools of individual conventional mortgage loans underwritten to U.S. agency standards with similar coupon rates, tenor, and other attributes such as geographic location, loan size and origination vintage. Valuations of these securities are based on observable price adjustments relative to benchmark market interest rates taking into consideration estimated loan prepayment speeds.
- **Agency-issued collateralized mortgage obligations:** Agency-issued collateralized mortgage obligations are structured into classes or tranches with defined cash flow characteristics and are collateralized by U.S. agency-issued mortgage pass-through securities. Valuations of these securities incorporate similar characteristics of mortgage pass-through securities such as coupon rate, tenor, geographic location, loan size and origination vintage, in addition to incorporating the effect of estimated prepayment speeds on the cash flow structure of the class or tranche. Valuations incorporate observable market spreads over an estimated average life after considering the inputs listed above.
- **Commercial mortgage-backed securities:** Valuations of these securities are based on spreads to benchmark market interest rates (usually U.S. treasury rates or rates observable in the swaps market), prepayment speeds, loan default rate assumptions and loan loss severity assumptions on underlying loans. In the second quarter of 2010, we sold all remaining holdings in commercial mortgage-backed securities.
- **Municipal bonds and notes:** Bonds issued by municipal governments generally have stated coupon rates, final maturity dates and are subject to being called ahead of the final maturity date at the option of the issuer. Valuations of these securities are priced based on spreads to other municipal benchmark bonds with similar characteristics; or, relative to market rates on U.S. treasury bonds of similar maturity.
- **Interest rate swap assets:** Valuations of interest rate swaps are priced considering the coupon rate of the fixed leg of the contract and the variable coupon on the floating leg of the contract. Valuation is based on both spot and forward rates on the swap yield curve and the credit worthiness of the contract counterparty.
- **Foreign exchange forward and option contract assets and liabilities:** Valuations of these assets and liabilities are priced based on spot and forward foreign currency rates and option volatility assumptions and the credit worthiness of the contract counterparty.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

- **Equity warrant assets (public portfolio):** Valuations of equity warrant assets of public portfolio companies are priced based on the Black-Scholes option pricing model that use the publicly-traded equity prices (underlying stock value), stated strike prices, option expiration dates, the risk-free interest rate and market-observable option volatility assumptions.

Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions market participants would use in pricing the asset or liability. Below is a summary of the valuation techniques used for each class of Level 3 assets:

- **Venture capital and private equity fund investments:** Valuations are based on the information provided by the investee funds' management, which reflects our share of the fair value of the net assets of the investment fund on the valuation date. We account for differences between our measurement date and the date of the fund investment's net asset value by using the most recent available financial information from the investee general partner, adjusted for any contributions paid during the period, distributions received from the investment during the period, or significant fund transactions or market events.
- **Other venture capital investments:** Valuations are based on consideration of a range of factors including, but not limited to, the price at which the investment was acquired, the term and nature of the investment, local market conditions, values for comparable securities, and as it relates to the private company issue, the current and projected operating performance, exit strategies and financing transactions subsequent to the acquisition of the investment.
- **Other investments:** Valuations are based on pricing models that use observable inputs, such as yield curves and publicly-traded equity prices, and unobservable inputs, such as private company equity prices.
- **Equity warrant assets (private portfolio):** Valuations of equity warrant assets of private portfolio companies are priced based on a modified Black-Scholes option pricing model to estimate the underlying asset value, by using stated strike prices, option expiration dates, risk-free interest rates and option volatility assumptions. Option volatility assumptions used in the modified Black-Scholes model are based on public market indices whose members operate in similar industries as companies in our private company portfolio. Option expiration dates are modified to account for estimates of actual life relative to stated expiration. Overall model asset values are further adjusted for a general lack of liquidity due to the private nature of the associated underlying company.

Table of Contents

For the three and six months ended June 30, 2011 and 2010, there were no transfers between Level 1 and Level 2. Transfers from Level 3 to Level 2 during the three and six months ended June 30, 2011 and 2010 were due to the transfer of equity warrant assets from our private portfolio to our public portfolio.

It is our policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements. When available, we use quoted market prices to measure fair value. If market prices are not available, fair value measurement is based upon models that use primarily market-based or independently-sourced market parameters, including interest rate yield curves, prepayment speeds, option volatilities and currency rates. Substantially all of our financial instruments use either of the foregoing methodologies, collectively Level 1 and Level 2 measurements, to determine fair value adjustments recorded to our financial statements. However, in certain cases, when market observable inputs for model based valuation techniques may not be readily available, we are required to make judgments about assumptions market participants would use in estimating the fair value of the financial instrument.

The degree of management judgment involved in determining the fair value of a financial instrument is dependent upon the availability of quoted market prices or observable market parameters. For financial instruments that trade actively and have quoted market prices or observable market parameters, there is minimal subjectivity involved in measuring fair value. When observable market prices and parameters are not fully available, management judgment is necessary to estimate fair value. For inactive markets, there is little information, if any, to evaluate if individual transactions are orderly. Accordingly, we are required to estimate, based upon all available facts and circumstances, the degree to which orderly transactions are occurring and provide more weighting to price quotes that are based upon orderly transactions. In addition, changes in the market conditions may reduce the availability of quoted prices or observable data. For example, reduced liquidity in the capital markets or changes in secondary market activities could result in observable market inputs becoming unavailable. Therefore, when market data is not available, we use valuation techniques requiring more management judgment to estimate the appropriate fair value measurement. Accordingly, the degree of judgment exercised by management in determining fair value is greater for financial assets and liabilities categorized as Level 3.

Table of Contents

The following fair value hierarchy tables present information about our assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2011:

| (Dollars in thousands) | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Balance as of June 30, 2011 |
|--|--|---|--|-----------------------------------|
| Assets | | | | |
| Available-for-sale securities: | | | | |
| U.S. treasury securities | \$ | \$ 26,228 | \$ | \$ 26,228 |
| U.S. agency debentures | | 3,194,364 | | 3,194,364 |
| Residential mortgage-backed securities: | | | | |
| Agency-issued mortgage-backed securities | | 1,342,050 | | 1,342,050 |
| Agency-issued collateralized mortgage obligations (fixed) | | 2,192,636 | | 2,192,636 |
| Agency-issued collateralized mortgage obligations (variable) | | 2,702,630 | | 2,702,630 |
| Commercial mortgage-backed securities | | 25,736 | | 25,736 |
| Municipal bonds and notes | | 96,598 | | 96,598 |
| Equity securities | 663 | | | 663 |
| Total available-for-sale securities | 663 | 9,580,242 | | 9,580,905 |
| Non-marketable securities (investment company fair value accounting): | | | | |
| Venture capital and private equity fund investments | | | 515,118 | 515,118 |
| Other venture capital investments | | | 114,070 | 114,070 |
| Other investments | | | 995 | 995 |
| Total non-marketable securities (investment company fair value accounting) | | | 630,183 | 630,183 |
| Other assets: | | | | |
| Marketable securities | 61 | 1,280 | | 1,341 |

| Foreign exchange forward and option contracts | | 11,567 | | 11,567 |
| Equity warrant assets | | 7,164 | 49,777 | 56,941 |
| Loan conversion options | | 1,223 | | 1,223 |
| Client interest rate derivatives | | 63 | | 63 |
| Total assets (1) | \$ 724 | \$ 9,614,835 | \$ 679,960 | \$ 10,295,519 |
| Liabilities | | | | |
| Foreign exchange forward and option contracts | \$ | \$ 11,333 | \$ | \$ 11,333 |
| Client interest rate derivatives | | 65 | | 65 |
| Total liabilities | \$ | \$ 11,398 | \$ | \$ 11,398 |

(1) Included in Level 2 and Level 3 assets are \$1.1 million and \$543.7 million, respectively, attributable to noncontrolling interests calculated based on the ownership percentages of the noncontrolling interests.

Table of Contents

The following fair value hierarchy tables present information about our assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2010:

| (Dollars in thousands) | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Balance as of December 31, 2010 |
|---|--|---|--|---------------------------------------|
| Assets | | | | |
| Available-for-sale securities: | | | | |
| U.S. treasury securities | \$ | \$ 26,410 | \$ | \$ 26,410 |
| U.S. agency debentures | | 2,835,093 | | 2,835,093 |
| Residential mortgage-backed securities: | | | | |
| Agency-issued mortgage-backed securities | | 1,248,510 | | 1,248,510 |
| Agency-issued collateralized mortgage obligations (fixed) | | 830,466 | | 830,466 |
| Agency-issued collateralized mortgage obligations (variable) | | 2,879,525 | | 2,879,525 |
| Municipal bonds and notes | | 97,580 | | 97,580 |
| Equity securities | 383 | | | 383 |
| Total available-for-sale securities | 383 | 7,917,584 | | 7,917,967 |
| Non-marketable securities (investment company fair value accounting): | | | | |
| Venture capital and private equity fund investments | | | 391,247 | 391,247 |
| Other venture capital investments | | | 111,843 | 111,843 |
| Other investments | | | 981 | 981 |
| Total non-marketable securities (investment company fair value accounting) | | | 504,071 | 504,071 |
| Other assets: | | | | |
| Marketable securities | 28 | 9,240 | | 9,268 |
| Interest rate swaps | | 52,017 | | 52,017 |
| Foreign exchange forward and option contracts | | 11,349 | | 11,349 |
| Equity warrant assets | | 4,028 | 43,537 | 47,565 |
| Loan conversion options | | 4,291 | | 4,291 |
| Total assets (1) | \$ 411 | \$ 7,998,509 | \$ 547,608 | \$ 8,546,528 |
| Liabilities | | | | |
| Foreign exchange forward and option contracts | \$ | \$ 10,267 | \$ | \$ 10,267 |
| Total liabilities | \$ | \$ 10,267 | \$ | \$ 10,267 |

(1) Included in Level 2 and Level 3 assets are \$8.1 million and \$423.5 million, respectively, attributable to noncontrolling interests calculated based on the ownership percentages of the noncontrolling interests.

Table of Contents

The following table presents additional information about Level 3 assets measured at fair value on a recurring basis for the three and six months ended June 30, 2011 and 2010, respectively:

| (Dollars in thousands) | Beginning Balance | Total Realized and Unrealized Gains (Losses) Included in Income | Purchases | Sales | Issuances | Distributions and Other Settlements | Transfers Into Level 3 | Transfers Out of Level 3 | Ending Balance |

- (1) Realized and unrealized gains are recorded on the line items gains on investment securities, net and other noninterest income, components of noninterest income.
- (2) Realized and unrealized gains (losses) are recorded on the line item gains on derivative instruments, net a component of noninterest income.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

The following table presents the amount of unrealized gains included in earnings (which is inclusive of noncontrolling interest) attributable to Level 3 assets still held at June 30, 2011:

| | Three months ended June 30, 2011 | Six months ended June 30, 2011 |
|---|---|---|
| Non-marketable securities (investment company fair value accounting): | | |
| Venture capital and private equity fund investments | \$ 19,395 | \$ 52,731 |
| Other venture capital investments | (1,012) | 306 |
| Other investments | | 20 |
| Total non-marketable securities (investment company fair value accounting) (1) | 18,383 | 53,057 |
| Other assets: | | |
| Equity warrant assets (2) | 3,902 | 4,899 |
| Total unrealized gains | \$ 22,285 | \$ 57,956 |

Table of Contents

- (1) Unrealized gains are recorded on the line items gains on investment securities, net and other noninterest income, components of noninterest income.
- (2) Unrealized gains are recorded on the line item gains on derivative instruments, net a component of noninterest income.

Financial Instruments not Carried at Fair Value

FASB issued guidance over financial instruments requires that we disclose estimated fair values for our financial instruments not carried at fair value. Fair value estimates, methods and assumptions, set forth below for our financial instruments, are made solely to comply with these requirements.

Fair values are based on estimates or calculations at the transaction level using present value techniques in instances where quoted market prices are not available. Because broadly traded markets do not exist for many of our financial instruments, the fair value calculations attempt to incorporate the effect of current market conditions at a specific time. Fair valuations are management's estimates of the values, and they are calculated based on indicator prices corroborated by observable market quotes or pricing models, the economic and competitive environment, the characteristics of the financial instruments, expected losses, and other such factors. These calculations are subjective in nature, involve uncertainties and matters of significant judgment, and do not include tax ramifications; therefore, the results cannot be determined with precision or substantiated by comparison to independent markets, and they may not be realized in an actual sale or immediate settlement of the instruments. There may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, could significantly affect the results. For all of these reasons, the aggregation of the fair value calculations presented herein does not represent, and should not be construed to represent, the underlying value of the Company.

The following describes the methods and assumptions used in estimating the fair values of financial instruments, excluding financial instruments already recorded at fair value as described above.

Short-Term Financial Assets

Short-term financial assets include cash on hand, cash balances due from banks, interest-earning deposits, securities purchased under agreement to resell and other short-term investment securities. The carrying amount is a reasonable estimate of fair value because of the insignificant risk of changes in fair value due to changes in market interest rates, and purchased in conjunction with our cash management activities.

Non-Marketable Securities (Cost and Equity Method Accounting)

Non-marketable securities (cost and equity method accounting) includes other investments (equity method accounting), low income housing tax credit funds (equity method accounting), venture capital and private equity fund investments (cost method accounting), and other venture capital investments (cost method accounting). The fair value of other investments (equity method accounting), venture capital and private equity fund investments (cost method accounting), and other venture capital investments (cost method accounting) is based on financial information obtained from the investee or obtained from the fund investments or debt fund investments' respective general partner. For private company investments, fair value is based on consideration of a range of factors including, but not limited to, the price at which the investment was acquired, the term and nature of the investment, local market conditions, values for comparable securities, current and projected operating performance, exit strategies and financing transactions subsequent to the acquisition of the investment. For our fund investments, we utilize the net asset value per share as obtained from the general partners of the investments. We adjust the net asset value per share for differences between our measurement date and the date of the fund investment's net asset value by using the most recently available financial information from the investee general partner, for example March 31st, for our June 30th consolidated financial statements, adjusted for any contributions paid during the second quarter, distributions received from the investment during the second quarter, or significant fund transactions or market events, if any. The fair value of our low income housing tax credit funds (equity method accounting) is based on carrying value.

Loans

The fair value of fixed and variable rate loans is estimated by discounting contractual cash flows using discount rates that reflect our current pricing for loans and the forward yield curve. This method is not based on the exit price concept of fair value required under ASC 820.

Deposits

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

The fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, interest-bearing checking accounts, money market accounts and interest-bearing sweep deposits is equal to the amount payable on demand at the measurement date. The fair value of time deposits is estimated by discounting the balances using our cost of borrowings and the forward yield curve over their remaining contractual term.

Table of Contents**Short-Term Borrowings**

Short-term borrowings at December 31, 2010 included cash collateral received from counterparties for our interest rate swap agreements related to our 5.70% Senior Notes and 6.05% Subordinated Notes. The carrying amount is a reasonable estimate of fair value. Due to the repurchase of \$312.6 million of these notes and termination of associated portions of interest rate swaps (see Note 7 – Short-Term Borrowings and Long-Term Debt) in May 2011, the notional value of our swaps fell below the \$10 million threshold specified in the agreement, and therefore, the full collateral was returned to the counterparties.

Long-Term Debt

Long-term debt at June 30, 2011 includes our 5.375% Senior Notes, 7.0% Junior Subordinated Debentures, 5.70% Senior Notes and 6.05% Subordinated Notes, and other long-term debt. At December 31, 2010, long-term debt also included our 3.875% Convertible Notes, which matured in April 2011 (see Note 7 – Short-Term Borrowings and Long-Term Debt). The fair value of long-term debt is generally based on quoted market prices, when available, or is estimated based on calculations utilizing third-party pricing services and current market spread, price indications from reputable dealers or observable market prices of the underlying instrument(s), whichever is deemed more reliable. Also included in the estimated fair value of our 5.70% Senior Notes and 6.05% Subordinated Notes are amounts related to the fair value of the interest rate swaps associated with the notes.

Off-Balance Sheet Financial Instruments

The fair value of unfunded commitments to extend credit is estimated based on the average amount we would receive or pay to execute a new agreement with identical terms, considering current interest rates and taking into account the remaining terms of the agreement and counterparties' credit standing.

Letters of credit are carried at their fair value, which is equivalent to the residual premium or fee at June 30, 2011 or December 31, 2010. Commitments to extend credit and letters of credit typically result in loans with a market interest rate if funded.

The information presented herein is based on pertinent information available to us as of June 30, 2011 and December 31, 2010. The following table is a summary of the estimated fair values of our financial instruments that are not carried at fair value at June 30, 2011 and December 31, 2010.

| (Dollars in thousands) | June 30, 2011 | | December 31, 2010 | |
|---|-----------------|----------------------|-------------------|----------------------|
| | Carrying Amount | Estimated Fair Value | Carrying Amount | Estimated Fair Value |
| Financial assets: | | | | |
| Non-marketable securities (cost and equity method accounting) | \$ 245,011 | \$ 266,748 | \$ 217,449 | \$ 230,158 |
| Net loans | 5,896,491 | 5,914,395 | 5,439,110 | 5,466,252 |
| Financial liabilities: | | | | |
| Other short-term borrowings | | | 37,245 | 37,245 |
| Deposits | 16,278,474 | 16,277,853 | 14,336,941 | 14,334,013 |
| 5.375% Senior Notes | 347,696 | 353,868 | 347,601 | 344,498 |
| 5.70% Senior Notes (1) | 147,446 | 153,596 | 265,613 | 277,301 |
| 6.05% Subordinated Notes (2) | 53,150 | 59,105 | 285,937 | 298,101 |
| 3.875% Convertible Notes | | | 249,304 | 276,825 |
| 7.0% Junior Subordinated Debentures | 55,461 | 51,423 | 55,548 | 49,485 |
| Other long-term debt | 5,843 | 5,843 | 5,257 | 5,257 |
| Off-balance sheet financial assets: | | | | |
| Commitments to extend credit | | 27,967 | | 19,264 |

- (1) At June 30, 2011 and December 31, 2010, included in the carrying value and estimated fair value of our 5.70% Senior Notes are \$6.1 million and \$15.7 million, respectively, related to the fair value of the interest rate swaps associated with the notes.
- (2) At June 30, 2011 and December 31, 2010, included in the carrying value and estimated fair value of our 6.05% Subordinated Notes are \$7.2 million and \$36.3 million, respectively, related to the fair value of the interest rate swaps associated with the notes.

Investments in Entities that Calculate Net Asset Value Per Share

FASB guidance over certain fund investments requires that we disclose the fair value of funds, significant investment strategies of the investees, redemption features of the investees, restrictions on the ability to sell investments, estimate of the period of time over which the underlying assets are expected to be liquidated by the investee, and unfunded commitments related to the investments.

Table of Contents

Our investments in debt funds and venture capital and private equity fund investments generally cannot be redeemed. Alternatively, we expect distributions to be received through initial public offerings (IPOs) and merger and acquisition (M&A) activity of the underlying assets of the fund. We currently do not have any plans to sell any of these fund investments. If we decide to sell these investments in the future, the investee fund's management must approve of the buyer before the sale of the investments can be completed. The fair values of the fund investments have been estimated using the net asset value per share of the investments, adjusted for any differences between our measurement date and the date of the fund investment's net asset value by using the most recently available financial information from the investee general partner, for example March 31st, for our June 30th consolidated financial statements, adjusted for any contributions paid during the second quarter, distributions received from the investment during the second quarter, or significant fund transactions or market events.

The following table is a summary of the estimated fair values of these investments and remaining unfunded commitments for each major category of these investments as of June 30, 2011:

| (Dollars in thousands) | Fair Value | Unfunded Commitments |
|---|-------------------|----------------------|
| Non-marketable securities (investment company fair value accounting): | | |
| Venture capital and private equity fund investments (1) | \$ 515,118 | \$ 344,559 |
| Non-marketable securities (equity method accounting): | | |
| Other investments (2) | 65,020 | 19,900 |
| Non-marketable securities (cost method accounting): | | |
| Venture capital and private equity fund investments (3) | 141,145 | 108,317 |
| Total | \$ 721,283 | \$ 472,776 |

- (1) Venture capital and private equity fund investments within non-marketable securities (investment company fair value accounting) include investments made by our managed funds of funds, one of our co-investment funds and one other private equity fund. These investments represent investments in venture capital and private equity funds that invest primarily in U.S. and global technology and life sciences companies. Included in the fair value and unfunded commitments of fund investments under investment company fair value accounting are \$440.0 million and \$318.9 million, respectively, attributable to noncontrolling interests. It is estimated that we will receive distributions from the fund investments over the next 10 to 13 years, depending on the age of the funds and any potential extensions of terms of the funds.
- (2) Other investments within non-marketable securities (equity method accounting) include investments in debt funds and venture capital and private equity fund investments that invest in or lend money to primarily U.S. and global technology and life sciences companies. It is estimated that we will receive distributions from the fund investments over the next 10 years, depending on the age of the funds.
- (3) Venture capital and private equity fund investments within non-marketable securities (cost method accounting) include investments in venture capital and private equity fund investments that invest primarily in U.S. and global technology and life sciences companies. It is estimated that we will receive distributions from the fund investments over the next 10 to 13 years, depending on the age of the funds and any potential extensions of the terms of the funds. Included in the \$108.3 million of unfunded commitments is \$88.1 million of unfunded commitments made by SVB Financial which were originally intended to be transferred to certain new managed funds of funds. We currently do not have any plans to transfer these investments to any new or existing managed fund. Until we may later decide to transfer, sell or otherwise dispose of the investments to a fund managed by us or a third party, they continue to remain investments and obligations of SVB Financial.

14. Legal Matters

Certain lawsuits and claims arising in the ordinary course of business have been filed or are pending against us or our affiliates. Based upon information available to us, our review of such claims to date and consultation with our outside legal counsel, management believes the liability relating to these actions, if any, will not have a material adverse effect on our liquidity, consolidated financial position, and/or results of operations. Where appropriate, we establish reserves in accordance with GAAP. The outcome of litigation and other legal and regulatory matters is inherently uncertain, however, and it is possible that one or more of the legal or regulatory matters currently pending or threatened could have a material adverse effect on our liquidity, consolidated financial position, and/or results of operation.

15. Related Parties

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

During the six months ended June 30, 2011, the Bank made loans to related parties, including certain companies in which certain of our directors or their affiliated venture funds are beneficial owners of ten percent or more of the equity securities of such companies. Such loans: (a) were made in the ordinary course of business; (b) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons; and (c) did not involve more than the normal risk of collectability or present other unfavorable features. Additionally, we also provide real estate secured loans to eligible employees through our Employee Home Ownership Plan.

Table of Contents

16. Subsequent Events

We have evaluated all material subsequent events and determined there are no events that require disclosure.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
Forward-Looking Statements

This Quarterly Report on Form 10-Q, including in particular Management's Discussion and Analysis of Financial Condition and Results of Operations under Part I, Item 2 of this report, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Management has in the past and might in the future make forward-looking statements orally to analysts, investors, the media and others. Forward-looking statements are statements that are not historical facts. Broadly speaking, forward-looking statements include, but are not limited to, the following:

Projections of our net interest income, noninterest income, earnings per share, noninterest expenses (including professional services, compliance, compensation and other costs), cash flows, balance sheet positions, capital expenditures, liquidity and capitalization or other financial items

Descriptions of our strategic initiatives, plans or objectives for future operations, including pending acquisitions

Forecasts of venture capital/private equity funding and investment levels

Forecasts of future interest rates, economic performance, and income from investments

Forecasts of expected levels of provisions for loan losses, loan growth and client funds

Descriptions of assumptions underlying or relating to any of the foregoing

In this Quarterly Report on Form 10-Q, we make forward-looking statements, including, but not limited to, those discussing our management's expectations about:

Market and economic conditions (including interest rate environment, and levels of public offerings, mergers/acquisitions and venture capital financing activities) and the associated impact on us

The sufficiency of our capital, including sources of capital (such as funds generated through retained earnings) and the extent to which capital may be used or required

The adequacy of our liquidity position, including sources of liquidity (such as dividends and liquid assets)

The extent of our achievement of internal performance targets for 2011

Our overall investment plans, strategies and activities, including venture capital/private equity funding and investments, and our investment of excess cash/liquidity

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

The realization, timing, valuation and performance of equity or other investments

The likelihood that the market value of our impaired investments will recover

Our intent to sell our investment securities prior to recovery of our cost basis, or the likelihood of such

Expected cash requirements for unfunded commitments to certain investments, including capital calls

Our overall management of interest rate risk, including managing the sensitivity of our interest-earning assets and interest-bearing liabilities to interest rates, and the impact to earnings from a change in interest rates

The credit quality of our loan portfolio, including levels and trends of nonperforming loans, impaired loans, criticized loans and troubled debt restructurings

The adequacy of reserves (including allowance for loan losses) and the appropriateness of our methodology for calculating such reserves

The level of loan and deposit balances

The level of client investment fees and associated margins

The profitability of our products and services

Our strategic initiatives, including the expansion of operations in China, India, Israel, the United Kingdom and elsewhere

Our plans to form new managed investment funds and our intent to transfer certain existing investment commitments to third parties or any managed funds

Distributions of venture capital, private equity or debt fund investment proceeds; intentions to sell such fund investments

The changes in, or adequacy of, our unrecognized tax benefits and any associated impact

The impact of the outcome of the IRS tax audit examination of the Company

The extent to which counterparties, including those to our forward and option contracts, will perform their contractual obligations

The effect of application of certain accounting pronouncements

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

The effect of lawsuits and claims

Regulatory developments, including the nature and timing of the adoption and effectiveness of new requirements under the Dodd-Frank Act (as defined below)

Table of Contents

You can identify these and other forward-looking statements by the use of words such as becoming, may, will, should, predicts, potential, continue, anticipates, believes, estimates, seeks, expects, plans, intends, the negative of such words, or comparable terminology. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we have based these expectations on our beliefs as well as our assumptions, and such expectations may prove to be incorrect. Our actual results of operations and financial performance could differ significantly from those expressed in or implied by our management's forward-looking statements.

For information with respect to factors that could cause actual results to differ from the expectations stated in the forward-looking statements, see Risk Factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2010 (2010 Form 10-K), as filed with the Securities and Exchange Commission (SEC). We urge investors to consider all of these factors carefully in evaluating the forward-looking statements contained in this report. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements included in this filing are made only as of the date of this filing. We assume no obligation and do not intend to revise or update any forward-looking statements contained in this Quarterly Report on Form 10-Q.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our interim unaudited consolidated financial statements and accompanying notes as presented in Part I, Item 1 of this report and in conjunction with our 2010 Form 10-K.

Reclassifications

Certain reclassifications have been made to prior period results to conform to the current period's presentations. Such reclassifications had no effect on our results of operations or stockholders' equity.

Management's Overview of Second Quarter 2011 Performance

In the second quarter of 2011, compared to the second quarter of 2010, we experienced growth in our interest-earning assets as a result of continued growth of client deposits. As a result, we recognized strong growth in net interest income from the investment of these deposits into available-for-sale securities, as well as from higher loan interest income due to increases in average loan balances. In addition to higher net interest income, we saw continued strong overall credit quality, resulting in a nominal provision for the second quarter of 2011. We also recognized higher noninterest income, due to sales of certain available-for-sale securities and increased gains from our equity warrant assets and managed funds due to increased IPO and M&A activity. Additionally, our overall capital and liquidity continued to remain strong.

Second quarter 2011 results (compared to the second quarter 2010, where applicable) reflected strong performance across all areas of our business and included:

Strong growth in our business with record highs in period-end loan balances of \$6.0 billion, deposit balances of \$16.3 billion and available-for-sale securities balances of \$9.6 billion.

Continued strong overall credit quality, which resulted in a reduction of our allowance for loan losses as a percentage of loans to 1.36 percent from 1.60 percent in the second quarter of 2010.

An increase in net interest income (fully taxable equivalent basis) of \$24.0 million, or 22.4 percent, primarily due to an increase in interest income from loans due to the increase in average balances of \$1.4 billion as well as an increase in interest income from our available-for-sale securities as a result of investing our excess cash from deposit growth. These increases were partially offset by lower investment yields available on new purchases of securities in the current rate environment.

A nominal provision for loan losses of \$0.1 million for the second quarter of 2011, compared to a provision of \$7.4 million for the second quarter of 2010. The provision was due to an increase in period-end loans, largely offset by a decrease in the allowance for our performing loans due to the strong overall credit quality of our clients. Additionally, net charge-offs were extremely low at \$30 thousand for the second quarter of 2011, compared to \$3.9 million for the second quarter of 2010.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Net gains on equity warrant assets of \$13.9 million in the second quarter of 2011, compared to net losses of \$0.3 million in the second quarter of 2010, primarily due to increased IPO and M&A activity.

Net gains on investment securities of \$71.7 million for the second quarter of 2011, compared to net gains of \$4.8 million for the comparable 2010 period. Net of noncontrolling interests, net gains on investment securities were \$45.2 million for the second quarter of 2011, compared to \$1.2 million for the comparable 2010 period. The net gains, net of noncontrolling interests, of \$45.2 million for the second quarter of 2011 were primarily attributable to gains of \$37.3 million from sales of \$1.4 billion of certain available-for-sale securities, net gains of \$4.2 million from our managed funds of funds and net gains of \$3.5 million from our strategic and other investments, which included gains of \$2.3 million from the sale of shares of a company that completed an IPO during the quarter.

Net gains of \$3.1 million from the repurchase of \$312.6 million of our 5.70% Senior Notes and 6.05% Subordinated Notes and the termination of the corresponding portions of interest rate swaps. These gains were recorded as a reduction in noninterest expense, which is included in the line item Other .

Table of Contents

An increase of \$16.9 million in noninterest expense to \$121.0 million, primarily due to an increase of \$19.9 million in compensation and benefits expense resulting from incentive compensation costs for our strong performance in the second quarter of 2011 and an increase in the number of average full-time equivalent employees (FTE).

Overall, our liquidity remained strong based on our period end available-for-sale securities portfolio of \$9.6 billion at June 30, 2011, compared to \$7.9 billion at December 31, 2010. The increase provided additional liquidity resources through current expected cash flow and through the ability to secure wholesale borrowings, if needed.

Our tier 1 risk-based capital and tier 1 leverage ratios remained relatively flat compared to December 31, 2010 and above the levels to be considered well capitalized . Both of these ratios benefited from growth in retained earnings and additional-paid-in-capital, the impact of which was largely offset by continued growth in assets and deposits. Our risk-based capital ratio declined primarily due to our repurchase of \$204.0 million of our 6.05% Subordinated Notes, as well as from increases in risk-weighted assets (loans and available-for-sale securities).

A summary of our performance for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands, except per share data and ratios) | Three months ended June 30, | | | Six months ended June 30, | | |

Non-GAAP Net Income and Non-GAAP Diluted Earnings Per Common Share

We use and report non-GAAP net income and non-GAAP diluted earnings per common share, which excludes gains from the sale of certain available-for-sale securities, as well as net gains from debt repurchases and termination of corresponding interest rate swaps. We believe these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by excluding certain items that do not occur every reporting period. Our management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results and related trends, and when planning, forecasting and analyzing future periods. However, these non-GAAP financial measures should be considered in addition to, not as a substitute for or preferable to, financial measures prepared in accordance with GAAP.

A reconciliation of GAAP to non-GAAP net income available to common stockholders and non-GAAP diluted earnings per common share for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands, except share amounts) | Three months ended June 30, | | Six months ended June 30, | |
|---|-----------------------------|------------|---------------------------|------------|

- (1) Gains on the sales of \$1.4 billion and \$157.9 million in certain available-for-sale securities in the second quarters of 2011 and 2010, respectively.
- (2) Net gains of \$3.1 million from the repurchase of \$108.6 million of our 5.70% Senior Notes and \$204.0 million of our 6.05% Subordinated Notes and the termination of the corresponding portions of interest rate swaps in the second quarter of 2011.

Critical Accounting Policies and Estimates

The accompanying management's discussion and analysis of results of operations and financial condition is based upon our unaudited interim consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements in accordance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues,

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

expenses and related disclosure of contingent assets and liabilities. Management evaluates estimates and assumptions on an ongoing basis. Management bases its estimates on historical experiences and various other factors and assumptions that are believed to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions.

There have been no significant changes during the six months ended June 30, 2011 to the items that we disclosed as our critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations under Part II, Item 7 of our 2010 Form 10-K.

Table of Contents**Results of Operations****Net Interest Income and Margin (Fully Taxable Equivalent Basis)**

Net interest income is defined as the difference between interest earned on loans, available-for-sale securities and short-term investment securities, and interest paid on funding sources. Net interest income is our principal source of revenue. Net interest margin is defined as the amount of annualized net interest income, on a fully taxable equivalent basis, expressed as a percentage of average interest-earning assets. Net interest income and net interest margin are presented on a fully taxable equivalent basis to consistently reflect income from taxable loans and securities and tax-exempt securities based on the federal statutory tax rate of 35.0 percent.

Analysis of Net Interest Income Changes Due to Volume and Rate (Fully Taxable Equivalent Basis)

Net interest income is affected by changes in the amount and mix of interest-earning assets and interest-bearing liabilities, referred to as volume change. Net interest income is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing liabilities, referred to as rate change. The following table sets forth changes in interest income for each major category of interest-earning assets and interest expense for each major category of interest-bearing liabilities. The table also reflects the amount of simultaneous changes attributable to both volume and rate changes for the years indicated. For this table, changes that are not solely due to either volume or rate are allocated in proportion to the percentage changes in average volume and average rate.

Table of Contents

Net Interest Income (Fully Taxable Equivalent Basis)

Three months ended June 30, 2011 and 2010

Net interest income increased by \$24.0 million to \$130.9 million for the three months ended June 30, 2011, compared to \$106.9 million for the comparable 2010 period. Overall, we saw an increase in our net interest income primarily due to higher average loan balances and growth in our available-for-sale securities portfolio, which has increased as a result of our continued growth in deposits. Growth in deposits is reflective of growth from new clients and the continued lack of attractive market investment opportunities for our deposit clients. These increases were partially offset by lower rates earned on our available-for-sale securities and loans, primarily attributable to the low interest rate environment.

The main factors affecting interest income and interest expense for the three months ended June 30, 2011, compared to the comparable 2010 period are discussed below:

Interest income for the three months ended June 30, 2011 increased by \$23.9 million primarily due to:

A \$17.9 million increase in interest income on loans, primarily related to a \$1.4 billion increase in average loan balances for the three months ended June 30, 2011, compared to the comparable 2010 period. This increase was partially offset by a decrease in overall yield on the loan portfolio resulting primarily from changes in loan mix, which reflects lower risk due to an improving environment for our clients.

A \$7.3 million increase in interest income on available-for-sale securities, primarily related to the growth in average balances of \$4.3 billion due to new investments, which were purchased as a result of our continued deposit growth. This increase was partially offset by lower investment yields available on new purchases of securities in the current rate environment, as well as the purchase of lower-yielding variable-rate securities throughout 2010.

Interest expense for the three months ended June 30, 2011 decreased by \$0.1 million primarily due to:

A decrease in interest expense from interest-bearing deposits of \$1.3 million, primarily due to decreases in rates paid on deposits throughout 2010 and first half of 2011 reflective of current market rates. This decrease was partially offset by an increase in interest expense related to a \$1.0 billion increase in average interest-bearing deposit balances.

This decrease was partially offset by an increase in interest expense of \$1.2 million related to our long-term debt, primarily due to a \$4.8 million increase in interest expense from the issuance of \$350.0 million in 5.375% Senior Notes in September 2010, partially offset by a \$2.9 million decrease due to the maturity of \$250.0 million of our 3.875% Convertible Notes in April 2011.

Six months ended June 30, 2011 and 2010

Net interest income increased by \$43.4 million to \$251.7 million for the six months ended June 30, 2011, compared to \$208.3 million for the comparable 2010 period. Overall, we saw an increase in our net interest income primarily due to higher average loan balances and growth in our available-for-sale securities portfolio, which has increased as a result of our continued growth in deposits. Growth in deposits is reflective of growth from new clients and the continued lack of attractive market investment opportunities for our deposit clients. These increases were partially offset by lower rates earned on our available-for-sale securities and loans, primarily attributable to the low interest rate environment.

The main factors affecting interest income and interest expense for the six months ended June 30, 2011, compared to the comparable 2010 period are discussed below:

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Interest income for the six months ended June 30, 2011 increased by \$47.9 million primarily due to:

A \$33.7 million increase in interest income on loans, primarily related to a \$1.3 billion increase in average loan balances for the six months ended June 30, 2011, compared to the comparable 2010 period. This increase was partially offset by a decrease in overall yield on the loan portfolio resulting primarily from changes in loan mix, which reflects lower risk due to an improving environment for our clients.

A \$16.3 million increase in interest income on available-for-sale securities, primarily related to the growth in average balances of \$4.5 billion due to new investments, which were purchased as a result of our continued deposit growth. This increase was partially offset by lower investment yields available on new purchases of securities in the current rate environment, as well as the purchase of lower-yielding variable-rate securities throughout 2010.

Interest expense for the six months ended June 30, 2011 increased by \$4.5 million primarily due to:

An increase in interest expense of \$6.4 million related to our long-term debt, primarily due to a \$9.6 million increase in interest expense from the issuance of \$350 million in 5.375% Senior Notes in September 2010, partially offset by a \$2.9 million decrease due to the maturity of our 3.875% Convertible Notes in April 2011.

This increase was partially offset by a decrease in interest expense from interest-bearing deposits of \$1.9 million, primarily due to decreases in rates paid on deposits throughout 2010 and first half of 2011 reflective of current market rates. This decrease was partially offset by an increase in interest expense related to a \$1.1 billion increase in average interest-bearing deposit balances.

Table of Contents

Net Interest Margin (Fully Taxable Equivalent Basis)

Our net interest margin was 3.13 percent and 3.04 percent for the three and six months ended June 30, 2011, respectively, compared to 3.20 percent and 3.25 percent for the comparable 2010 periods. The decreases in our net interest margin were primarily due to the significant growth of our deposits, the majority of which were invested in available-for-sale securities. Additionally, paydowns and sales of higher-yielding securities throughout 2010 were reinvested in lower-yielding securities given the current interest rate environment. As such, the overall mix of our interest-earning assets shifted to a higher proportion of lower-yielding assets, which is reflective of the low interest rate environment. The decreases for the three and six months ended June 30, 2011, were partially offset by increases of \$1.4 billion and \$1.3 billion, respectively, in average loan balances (higher-yielding assets) and a decrease in rates paid on our deposits.

Average Balances, Yields and Rates Paid (Fully Taxable Equivalent Basis)

The average yield earned on interest-earning assets is the amount of annualized fully taxable equivalent interest income expressed as a percentage of average interest-earning assets. The average rate paid on funding sources is the amount of annualized interest expense expressed as a percentage of average funding sources. The following tables set forth average assets, liabilities, noncontrolling interests and SVBFG stockholders' equity, interest income, interest expense, annualized yields and rates, and the composition of our annualized net interest margin for the three and six months ended June 30, 2011 and 2010, respectively:

| | | | | |
|--|----------------------|-------|----------------------|-------|
| Net interest income and margin | \$ 130,929 | 3.13% | \$ 106,948 | 3.20% |
| Total deposits | \$ 15,269,739 | | \$ 11,905,441 | |
| Average SVBFG stockholders' equity as a percentage of average assets | | 7.69% | | 8.25% |
| Reconciliation to reported net interest income: | | | | |
| Adjustments for taxable equivalent basis | (476) | | (512) | |
| Net interest income, as reported | \$ 130,453 | | \$ 106,436 | |

- (1) Includes average interest-bearing deposits in other financial institutions of \$286.6 million and \$215.4 million for the three months ended June 30, 2011 and 2010, respectively. For the three months ended June 30, 2011 and 2010, balances also include \$1.3 billion and \$3.8 billion, respectively, deposited at the Federal Reserve Bank, earning interest at the Federal Funds target rate.
- (2) Yields on interest-earning investment securities are based on amortized cost, therefore do not give effect to unrealized changes in fair value that are reflected in other comprehensive income.
- (3) Interest income on non-taxable investments is presented on a fully taxable-equivalent basis using the federal statutory income tax rate of 35.0 percent for all periods presented.
- (4) Nonaccrual loans are reflected in the average balances of loans.
- (5) Average investment securities of \$907.0 million and \$657.2 million for the three months ended June 30, 2011 and 2010, respectively, were classified as other assets as they were noninterest-earning assets. These investments primarily consisted of non-marketable securities.

| Reconciliation to reported net interest income: | | | | |
| Adjustments for taxable equivalent basis | (983) | | (1,034) | |
| Net interest income, as reported | \$ 250,752 | | \$ 207,276 | |

- (1) Includes average interest-bearing deposits in other financial institutions of \$270.0 million and \$192.8 million for the six months ended June 30, 2011 and 2010, respectively. For the six months ended June 30, 2011 and 2010, balances also include \$1.6 billion and \$4.0 billion, respectively, deposited at the Federal Reserve Bank, earning interest at the Federal Funds target rate.
- (2) Yields on interest-earning investment securities are based on amortized cost, therefore do not give effect to unrealized changes in fair value that are reflected in other comprehensive income.
- (3) Interest income on non-taxable investments is presented on a fully taxable-equivalent basis using the federal statutory income tax rate of 35.0 percent for all periods presented.
- (4) Nonaccrual loans are reflected in the average balances of loans.
- (5) Average investment securities of \$840.9 million and \$628.5 million for the six months ended June 30, 2011 and 2010, respectively, were classified as other assets as they were noninterest-earning assets. These investments primarily consisted of non-marketable securities.

Table of Contents**Provision for (Reduction of) Loan Losses**

Our provision for (reduction of) loan losses is based on our evaluation of the adequacy of the existing allowance for loan losses in relation to total gross loans using historical and other objective information, and on our periodic assessment of the inherent and identified risk dynamics of the loan portfolio resulting from reviews of selected individual loans. The following table summarizes our allowance for loan losses for the three and six months ended June 30, 2011 and 2010, respectively:

| (Dollars in thousands) | Three months ended June 30, | | Six months ended June 30, | |
|---|-----------------------------|--------------|---------------------------|--------------|
| | 2011 | 2010 | 2011 | 2010 |
| Allowance for loan losses, beginning balance | \$ 82,051 | \$ 68,271 | \$ 82,627 | \$ 72,450 |
| Provision for (reduction of) loan losses | 134 | 7,408 | (2,913) | 18,153 |
| Gross loan charge-offs | (4,293) | (7,133) | (8,615) | (28,313) |
| Loan recoveries | 4,263 | 3,243 | 11,056 | 9,499 |
| Allowance for loan losses, ending balance | \$ 82,155 | \$ 71,789 | \$ 82,155 | \$ 71,789 |
| Provision (Reduction of) as a percentage of total gross loans (annualized) | 0.01% | 0.66% | (0.10)% | 0.82% |
| Gross loan charge-offs as a percentage of average total gross loans (annualized) | 0.31 | 0.69 | 0.32 | 1.38 |
| Net loan charge-offs (recoveries) as a percentage of average total gross loans (annualized) | | 0.38 | (0.09) | 0.91 |
| Allowance for loan losses as a percentage of period-end total gross loans | 1.36 | 1.60 | 1.36 | 1.60 |
| Period-end total gross loans | \$ 6,030,966 | \$ 4,485,562 | \$ 6,030,966 | \$ 4,485,562 |
| Average total gross loans | 5,579,271 | 4,144,210 | 5,468,200 | 4,146,683 |

We had a provision for loan losses of \$0.1 million for the three months ended June 30, 2011, compared to a provision of \$7.4 million for the comparable 2010 period. The provision of \$0.1 million was due to an increase in allowance for the increase in period-end loans, largely offset by a decrease in the allowance for our performing loans due to the strong overall credit quality of our clients. Gross loan charge-offs of \$4.3 million for the three months ended June 30, 2011 were primarily from our other commercial loans portfolio. Loan recoveries of \$4.3 million for the three months ended June 30, 2011 were primarily from our software client portfolio.

We had a reduction of provision for loan losses of \$2.9 million for the six months ended June 30, 2011, compared to a provision of \$18.2 million for the comparable 2010 period. Gross loan charge-offs of \$8.6 million for the six months ended June 30, 2011 were primarily from our life sciences, other commercial loans and software client portfolios. Loan recoveries of \$11.1 million for the six months ended June 30, 2011 were primarily from our software client portfolio.

Our allowance for loan losses as a percentage of total gross loans decreased from 1.60 percent at June 30, 2010 to 1.36 percent at June 30, 2011, primarily due to a reduction in the allowance for our performing loans. Our allowance for loan losses for total gross performing loans as a percentage of total gross performing loans was 1.27 percent at June 30, 2011, compared to 1.37 percent at December 31, 2010.

Noninterest Income

A summary of noninterest income for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Included in net income is income and expense attributable to noncontrolling interests. We recognize, as part of our investment funds management business through SVB Capital and Debt Fund Investments, the entire income or loss from funds where we own significantly less than 100%. We are required under GAAP to consolidate 100% of the results of entities that we are deemed to control, even though we may own less than 100% of such entities. The relevant amounts attributable to investors other than us are reflected under **Net Income Attributable to Noncontrolling Interests** on our statements of income. The non-GAAP tables presented below, for noninterest income and net gains on investment securities, all exclude noncontrolling interests. We believe these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by excluding certain items that represent income attributable to investors other than us and our subsidiaries. Our management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results and when planning, forecasting and analyzing future periods. However, these non-GAAP financial measures should be considered in addition to, not as a substitute for or preferable to, financial measures prepared in accordance with GAAP.

Table of Contents

The following table provides a summary of non-GAAP noninterest income, net of noncontrolling interests:

| Non-GAAP noninterest income, net of noncontrolling interests (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |
|--|-----------------------------|-----------|----------|---------------------------|-----------|----------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| GAAP noninterest income (as reported) | \$ 123,708 | \$ 40,157 | NM% | \$ 213,662 | \$ 89,430 | 138.9% |
| Less: income attributable to noncontrolling interests, including carried interest | 26,558 | 2,921 | NM | 70,120 | 16,812 | NM |

Gains on Investment Securities, Net

Net gains on investment securities include both gains from our non-marketable and marketable securities, as well as gains from sales of our available-for-sale securities portfolio (when applicable).

Our available-for-sale securities portfolio is managed to maximize portfolio yield over the long-term in a manner consistent with our liquidity, credit diversification, and asset/liability strategies. Though infrequent, the sale of investments from our available-for-sale portfolio results in net gains or losses on investment securities.

We experience variability in the performance of our non-marketable and marketable investments from quarter to quarter, which results in net gains or losses on investment securities. This variability is due to a number of factors, including changes in the values of our investments, changes in the amount of distributions or liquidity events and general economic and market conditions. Such variability may lead to volatility in the gains from investment securities and as such our results for a particular period are not necessarily indicative of our performance in a future period. In 2010, we saw some improvement in venture capital/private equity investment levels and increased M&A and IPO activity among these portfolio companies. This trend continued into the first half of 2011.

For the three months ended June 30, 2011, we had net gains on investment securities of \$71.7 million, compared to net gains of \$4.8 million for the comparable 2010 period. Net of noncontrolling interests, net gains on investment securities were \$45.2 million for the three months ended June 30, 2011, compared to \$1.2 million for the comparable 2010 period. The net gains, net of noncontrolling interests, of \$45.2 million for the three months ended June 30, 2011 were primarily attributable to the following:

Gains of \$37.3 million from sales of \$1.4 billion of certain available-for-sale securities. These securities were sold as part of our portfolio management strategy of managing duration risk.

Net gains of \$4.2 million from our managed funds of funds, primarily due to the continued trend of increased valuations and liquidity events from companies in the underlying funds, largely driven by internet and social networking companies.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Net gains of \$3.5 million from our strategic and other investments, which included gains of \$2.3 million from the sale of shares of a company that completed an IPO during the quarter. These shares were originally acquired through the exercise of equity warrant assets.

For the six months ended June 30, 2011, we had net gains on investment securities of \$123.0 million, compared to net gains of \$20.8 million for the comparable 2010 period. Net of noncontrolling interests, net gains on investment securities were \$53.2 million for the six months ended June 30, 2011, compared to \$4.5 million for the comparable 2010 period. The net gains, net of noncontrolling interests, of \$53.2 million for the six months ended June 30, 2011 were primarily attributable to the following:

Gains of \$37.3 million from sales of \$1.4 billion of certain available-for-sale securities. These securities were sold as part of our portfolio management strategy of managing duration risk.

Net gains of \$8.4 million from our managed funds of funds, primarily due to the continued trend of increased valuations and liquidity events from companies in the underlying funds, largely driven by internet and social networking companies.

Table of Contents

Net gains of \$5.2 million from our strategic and other investments, which included gains of \$2.3 million from the sale of shares of a company that completed an IPO during the quarter. These shares were originally acquired through the exercise of equity warrant assets.

Foreign Exchange Fees

Foreign exchange fees were \$10.4 million and \$20.9 million for the three and six months ended June 30, 2011, respectively, compared to \$8.3 million and \$17.1 million for the comparable 2010 periods. The increase was primarily due to improving business conditions for our clients, which has resulted in higher commissioned notional volumes. Commissioned notional volumes increased to \$2.4 billion and \$4.6 billion for the three and six months ended June 30, 2011, compared to \$1.3 billion and \$2.8 billion for the comparable 2010 periods.

Table of Contents*Gains on Derivative Instruments, Net*

NM Not meaningful

- (1) Represents the net gains for foreign exchange forward contracts executed on behalf of clients.
- (2) Represents the change in the fair value of foreign exchange forward contracts used to economically reduce our foreign exchange exposure risk related to certain foreign currency denominated loans. Revaluations of foreign currency denominated loans are recorded in the line item *Other* as part of noninterest income, a component of consolidated net income.
- (3) At June 30, 2011, we held warrants in 1,153 companies, compared to 1,146 companies at June 30, 2010.
- (4) Includes net gains (losses) on equity warrant assets held by consolidated investment affiliates. Relevant amounts attributable to noncontrolling interests are reflected in the interim consolidated statements of income under the caption *Net Income Attributable to Noncontrolling Interests*.

Net gains on derivative instruments were \$13.7 million for the three months ended June 30, 2011, compared to net gains of \$1.3 million for the comparable 2010 period. The increase of \$12.4 million was primarily attributable to the following:

Net gains on equity warrant assets of \$13.9 million for the three months ended June 30, 2011, compared to net losses of \$0.3 million for the comparable 2010 period. The net gains of \$13.9 million for the three months ended June 30, 2011 were comprised of the following:

Realized gains of \$7.6 million from the exercise of certain equity warrant positions. These exercises were driven by increased IPO and M&A activity.

Unrealized gains of \$7.0 million from valuation increases in our equity warrant portfolio.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Losses of \$0.7 million from equity warrant cancellations and expirations.

Net losses of \$0.5 million on foreign exchange forward contracts for our foreign currency denominated loans in the three months ended June 30, 2011, compared to net gains of \$1.3 million for the comparable 2010 period. The net losses of \$0.5 million in the three months ended June 30, 2011 were primarily due to the weakening of the U.S. dollar against the Euro, and were offset by net gains of \$0.5 million from revaluation of foreign currency denominated loans that are included in the line item Other as part of noninterest income

Net gains on derivative instruments were \$14.2 million for the six months ended June 30, 2011, compared to net gains of \$3.3 million for the comparable 2010 period. The increase of \$10.9 million was primarily attributable to the following:

Net gains on equity warrant assets of \$17.9 million for the six months ended June 30, 2011, compared to net losses of \$0.7 million for the comparable 2010 period. The net gains of \$17.9 million for the six months ended June 30, 2011 were comprised of the following.

Realized gains of \$9.6 million from the exercise of certain equity warrant positions. These exercises were driven by increased IPO and M&A activity.

Unrealized gains of \$9.6 million from valuation increases in our equity warrant portfolio.

Losses of \$1.3 million from equity warrant cancellations and expirations.

Net losses from foreign exchange forward contracts hedging our foreign currency denominated loans of \$3.1 million for the six months ended June 30, 2011, compared to net gains of \$3.4 million for the comparable 2010 period. The net losses of \$3.1 million for the six months ended June 30, 2011 were primarily due to the weakening of the U.S. dollar against the Pound Sterling and Euro. These losses were partially offset by net gains of \$3.2 million from revaluation of foreign currency denominated loans that are included in the line item Other as part of noninterest income.

Table of Contents*Credit Card Fees*

Credit card fees were \$4.4 million and \$8.2 million for the three and six months ended June 30, 2011, respectively, compared to \$3.0 million and \$5.7 million for the comparable 2010 periods. The increases were primarily due to the addition of new clients, as well as an increase in client activity.

Client Investment Fees

Client investment fees were \$3.1 million and \$6.8 million for the three and six months ended June 30, 2011, respectively, compared to \$4.9 million and \$8.9 million for the comparable 2010 periods. The decreases were primarily attributable to lower margins earned on certain products owing to historically low rates in the short-term fixed income markets, partially offset by an increase in average client investment funds. The following table summarizes average client investment funds for the three and six months ended June 30, 2011 and 2010, respectively:

| (Dollars in millions) | Three months ended June 30, | | | Six months ended June 30, | | |
|---|-----------------------------|-----------|----------|---------------------------|-----------|----------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| Client directed investment assets | \$ 9,134 | \$ 9,340 | (2.2)% | \$ 9,236 | \$ 9,364 | (1.4)% |
| Client investment assets under management | 8,540 | 6,164 | 38.5 | 8,008 | 5,922 | 35.2 |
| Sweep money market funds | 85 | | 100.0 | 42 | | 100.0 |
| Total average client investment funds | \$ 17,759 | \$ 15,504 | 14.5 | \$ 17,286 | \$ 15,286 | 13.1 |

The following table summarizes period-end client investment funds at June 30, 2011 and December 31, 2010:

| (Dollars in millions) | June 30, 2011 | December 31, 2010 | % Change |
|---|---------------|-------------------|----------|
| Client directed investment assets | \$ 8,515 | \$ 9,479 | (10.2)% |
| Client investment assets under management | 9,444 | 7,415 | 27.4 |
| Sweep money market funds | 200 | | 100.0 |
| Total period-end client investment funds | \$ 18,159 | \$ 16,894 | 7.5 |

The increases in average and period-end balances were primarily due to an increase in client investment assets under management, mainly attributable to a steadily improving funding environment for both private and public clients, as well as our increased efforts to move funds off the balance sheet as part of our overall deposit strategy.

Other Noninterest Income

A summary of other noninterest income for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |
|---|-----------------------------|----------|----------|---------------------------|-----------|----------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| Fund management fees | \$ 2,663 | \$ 2,698 | (1.3)% | \$ 5,351 | \$ 5,396 | (0.8)% |
| Service-based fee income (1) | 2,587 | 2,622 | (1.3) | 4,812 | 4,618 | 4.2 |
| Unused commitment fees | 1,808 | 1,393 | 29.8 | 3,294 | 2,607 | 26.4 |
| Gains (losses) on foreign currency loans revaluation, net | 502 | (916) | (154.8) | 3,191 | (2,946) | NM |
| Loan syndication fees | 870 | | | 870 | | |
| Currency revaluation (losses) gains | (881) | (692) | 27.3 | (1,121) | 326 | NM |
| Other | 2,463 | 2,358 | 4.5 | 3,879 | 3,525 | 10.0 |
| Total other noninterest income | \$ 10,012 | \$ 7,463 | 34.2 | \$ 20,276 | \$ 13,526 | 49.9 |

NM Not meaningful

(1) Includes income from SVB Analytics

Other noninterest income was \$10.0 million and \$20.3 million for the three and six months ended June 30, 2011, respectively, compared to \$7.5 million and \$13.5 million for the comparable 2010 periods. The increase of \$2.5 million for the three month period was primarily due to net gains from revaluation of foreign currency denominated loans of \$0.5 million for the three months ended June 30, 2011, compared to net losses of \$0.9 million for the comparable 2010 period. Net gains from revaluation of foreign currency denominated loans of \$0.5 million for the three months ended June 30, 2011 were primarily due to the weakening of the U.S. dollar against the Euro and were partially offset by net losses of \$0.5 million from foreign exchange forward contracts, which we use to reduce our foreign exchange exposure related to certain foreign currency denominated loans and are included in net gains on derivative instruments.

Table of Contents

The increase of \$6.8 million for the six month period was primarily due to net gains from revaluation of foreign currency denominated loans of \$3.2 million for the six months ended June 30, 2011, compared to net losses of \$2.9 million for the comparable 2010 period. Net gains from revaluation of foreign currency denominated loans of \$3.2 million for the six months ended June 30, 2011 were primarily due to the weakening of the U.S. dollar against the Pound Sterling and Euro and were partially offset by net losses of \$3.1 million from foreign exchange forward contracts, which we use to reduce our foreign exchange exposure related to certain foreign currency denominated loans and are included in net gains on derivative instruments.

Noninterest Expense

A summary of noninterest expense for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |
|---|-----------------------------|------------|----------|---------------------------|------------|----------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| Compensation and benefits | \$ 79,888 | \$ 59,993 | 33.2 % | \$ 155,520 | \$ 119,823 | 29.8% |
| Professional services | 13,891 | 12,642 | 9.9 | 26,878 | 24,740 | 8.6 |
| Premises and equipment | 6,440 | 5,319 | 21.1 | 12,352 | 11,103 | 11.2 |
| Business development and travel | 5,890 | 5,103 | 15.4 | 11,543 | 9,389 | 22.9 |
| Net occupancy | 4,546 | 4,649 | (2.2) | 9,196 | 9,337 | (1.5) |
| FDIC assessments | 2,163 | 5,587 | (61.3) | 5,638 | 10,636 | (47.0) |
| Correspondent bank fees | 2,202 | 1,956 | 12.6 | 4,365 | 3,904 | 11.8 |
| Provision for unfunded credit commitments | 976 | 2,376 | (58.9) | 76 | 869 | (91.3) |
| Other | 5,036 | 6,555 | (23.2) | 12,899 | 12,955 | (0.4) |
| Total noninterest expense | \$ 121,032 | \$ 104,180 | 16.2 | \$ 238,467 | \$ 202,756 | 17.6 |

Compensation and Benefits

Compensation and benefits expense was \$79.9 million for the three months ended June 30, 2011, compared to \$60.0 million for the comparable 2010 period. The increase of \$19.9 million was primarily due to the following:

An increase of \$11.0 million in incentive compensation and Employee Stock Ownership Plan (ESOP) expenses due to our strong financial performance in the second quarter of 2011 and our current expectation that we will exceed our internal performance targets for 2011.

An increase of \$4.1 million in salaries and wages expense, primarily due to an increase in the number of average FTE employees to support our sales and advisory positions and continued investment in growth initiatives and related infrastructure support, as well as from merit increases. Average FTEs increased by 139 to 1,416 average FTEs in the second quarter of 2011, compared to 1,277 average FTEs in the second quarter of 2010.

Compensation and benefits expense was \$155.5 million for the six months ended June 30, 2011, compared to \$119.8 million for the comparable 2010 period. The increase of \$35.7 million was primarily due to the following:

An increase of \$18.7 million in incentive compensation and ESOP expenses due to our strong financial performance in the first half of 2011 and our current expectation that we will exceed our internal performance targets for 2011.

An increase of \$8.7 million in salaries and wages expense, primarily due to an increase in the number of average FTE, as well as from merit increases. Average FTEs increased by 129 to 1,403 average FTEs in the six months ended June 30, 2011, compared to 1,274 average FTEs in the comparable 2010 period.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Our variable compensation plans primarily consist of our Incentive Compensation Plans, Direct Drive Incentive Compensation Plan, Long-Term Cash Incentive Plan, 401(k) and ESOP Plan, Retention Program and Warrant Incentive Plan. Total costs incurred under these plans were \$30.0 million and \$56.0 million for the three and six months ended June 30, 2011, respectively, compared to \$17.7 million and \$34.2 million for the comparable 2010 periods. These amounts are included in total compensation and benefits expense discussed above.

Table of Contents*Federal Deposit Insurance Corporation (FDIC) Assessments*

FDIC assessments were \$2.2 million and \$5.6 million for the three and six months ended June 30, 2011, compared to \$5.6 million and \$10.6 million for the comparable 2010 periods. The decreases were primarily due to higher FDIC assessment rates in the second quarter of 2010 associated with the FDIC's Temporary Liquidity Guarantee Program as well as changes in our assessment calculation by the FDIC beginning in April 2011 pursuant to the Dodd-Frank Act.

Provision for Unfunded Credit Commitments

We calculate changes to our provision for unfunded credit commitments based on the credit commitments outstanding, as well as the credit quality of our loan commitments. We recorded a provision for unfunded credit commitments of \$1.0 million for the three months ended June 30, 2011, compared to a provision of \$2.4 million for the comparable 2010 period. The provision for unfunded credit commitments of \$1.0 million for the three months ended June 30, 2011 was primarily due to an increase in unfunded credit commitment balances, which increased by \$380.1 million to \$6.7 billion at June 30, 2011, compared to \$6.3 billion at March 31, 2011.

Other Noninterest Expense

A summary of other noninterest expense for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |
|---|-----------------------------|-----------------|---------------|---------------------------|------------------|--------------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| Telephone | \$ 1,416 | \$ 1,090 | 29.9% | \$ 2,766 | \$ 2,230 | 24.0 % |
| Data processing services | 1,429 | 925 | 54.5 | 2,492 | 1,902 | 31.0 |
| Tax credit fund amortization | 1,101 | 1,005 | 9.6 | 2,154 | 2,057 | 4.7 |
| Client services | 1,037 | 767 | 35.2 | 1,839 | 1,355 | 35.7 |
| Postage and supplies | 562 | 603 | (6.8) | 1,084 | 1,074 | 0.9 |
| Dues and publications | 327 | 444 | (26.4) | 701 | 649 | 8.0 |
| Net gain from note repurchases and termination of corresponding interest rate swaps | (3,123) | | (100.0) | (3,123) | | (100.0) |
| Other | 2,287 | 1,721 | 32.9 | 4,986 | 3,688 | 35.2 |
| Total other noninterest expense | \$ 5,036 | \$ 6,555 | (23.2) | \$ 12,899 | \$ 12,955 | (0.4) |

Non-GAAP Noninterest Expense

We use and report non-GAAP noninterest expense, non-GAAP taxable equivalent revenue and non-GAAP operating efficiency ratio, which excludes noncontrolling interests. We believe these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by: (i) excluding certain items that represent expenses attributable to investors other than us and our subsidiaries, or certain items that do not occur every reporting period; or (ii) providing additional information used by management that is not otherwise required by GAAP or other applicable requirements. Our management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results and when planning, forecasting and analyzing future periods. However, these non-GAAP financial measures should be considered in addition to, not as a substitute for or preferable to, financial measures prepared in accordance with GAAP. The table below provides a summary of non-GAAP noninterest expense and non-GAAP operating efficiency ratio, both net of noncontrolling interests:

| Non-GAAP operating efficiency ratio, net of noncontrolling interests (Dollars in thousands, except ratios) | Three months ended June 30, | | | Six months ended June 30, | | |
|---|-----------------------------|------------|----------|---------------------------|------------|----------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| GAAP noninterest expense | \$ 121,032 | \$ 104,180 | 16.2% | \$ 238,467 | \$ 202,756 | 17.6% |
| Less: amounts attributable to noncontrolling interests | 2,621 | 2,880 | (9.0) | 6,102 | 6,111 | (0.1) |
| Less: net gain from note repurchases and termination of corresponding interest rate swaps | (3,123) | | (100.0) | (3,123) | | (100.0) |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

| | | | | | | |
|--|------------|------------|--------|------------|------------|-------|
| Non-GAAP noninterest expense, net of noncontrolling interests and excluding net gains from debt repurchases | \$ 121,534 | \$ 101,300 | 20.0 | \$ 235,488 | \$ 196,645 | 19.8 |
| GAAP taxable equivalent net interest income | \$ 130,929 | \$ 106,948 | 22.4 | \$ 251,735 | \$ 208,310 | 20.8 |
| Less: income attributable to noncontrolling interests | 45 | 25 | 80.0 | 52 | 18 | 188.9 |
| Non-GAAP taxable equivalent net interest income, net of noncontrolling interests | 130,884 | 106,923 | 22.4 | 251,683 | 208,292 | 20.8 |
| Non-GAAP noninterest income, net of noncontrolling interests and excluding gains on sales of certain available-for-sale securities (1) | 59,836 | 36,142 | 65.6 | 106,228 | 71,524 | 48.5 |
| Non-GAAP taxable equivalent revenue, net of noncontrolling interests | \$ 190,720 | \$ 143,065 | 33.3 | \$ 357,911 | \$ 279,816 | 27.9 |
| Non-GAAP operating efficiency ratio (2) | 63.72% | 70.81% | (10.0) | 65.80% | 70.28% | (6.4) |

Table of Contents

- (1) See Noninterest Income above for a description and reconciliation of non-GAAP noninterest income.
- (2) The non-GAAP operating efficiency ratio is calculated by dividing non-GAAP noninterest expense by non-GAAP total taxable-equivalent income.

Net Income Attributable to Noncontrolling Interests

Included in net income is income and expense attributable to noncontrolling interests. The relevant amounts attributable to investors other than us are reflected under Net Income Attributable to Noncontrolling Interests on our statements of income.

In the table below, noninterest income consists primarily of investment gains and losses from our consolidated funds. Noninterest expense is primarily related to management fees paid by our managed funds to the Company's subsidiaries as the funds' general partners. A summary of net income attributable to noncontrolling interests for the three and six months ended June 30, 2011 and 2010, respectively, is as follows:

| (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |
|---|-----------------------------|---------|----------|---------------------------|-------------|----------|
| | 2011 | 2010 | % Change | 2011 | 2010 | % Change |
| Net interest income (1) | \$ (45) | \$ (25) | 80.0% | \$ (52) | \$ (18) | 188.9% |
| Noninterest income (1) | (28,418) | (3,463) | NM | (70,789) | (17,746) | NM |
| Noninterest expense (1) | 2,621 | 2,880 | (9.0) | 6,102 | 6,111 | (0.1) |
| Carried interest (2) | 1,860 | 542 | NM | 669 | 934 | (28.4) |
| Net income attributable to noncontrolling interests | \$ (23,982) | \$ (66) | NM | \$ (64,070) | \$ (10,719) | NM |

NM Not meaningful

- (1) Represents noncontrolling interests' share in net interest income, noninterest income and noninterest expense.
- (2) Represents the change in the preferred allocation of income we earn as general partners managing our managed funds, the preferred allocation earned by the general partner entity managing one of our consolidated debt funds, and the preferred allocation earned by the limited partners of two of our managed funds of funds.

Income Taxes

Our effective tax expense rate was 39.7 percent for the three months ended June 30, 2011, compared to 39.6 percent for the comparable 2010 period. Our effective tax expense rate was 40.1 percent for the six months ended June 30, 2011, compared to an effective tax expense of 39.0 percent for the comparable 2010 period. The increase in the tax rate for the six month period was primarily attributable to the lower tax impact of tax advantaged investments on our overall pre-tax income for the six months ended June 30, 2011.

Our effective tax rate is calculated by dividing income tax expense by the sum of income before income tax expense and the net income attributable to noncontrolling interests.

Operating Segment Results

We have three operating segments for which we report our financial information: Global Commercial Bank, SVB Private Bank and SVB Capital.

In accordance with ASC 280, we report segment information based on the management approach. The management approach designates the internal reporting used by management for making decisions and assessing performance as the source of our reporting segments. Please refer to Note 10 Segment Reporting of the Notes to Interim Consolidated Financial Statements (unaudited) under Part I, Item 1 of this report for additional details.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Our primary source of revenue is from net interest income, which is primarily the difference between interest earned on loans, net of funds transfer pricing (FTP), and interest paid on deposits, net of FTP. Accordingly, our segments are reported using net interest income, net of FTP. FTP is an internal measurement framework designed to assess the financial impact of a financial institution's sources and uses of funds. It is the mechanism by which an earnings credit is given for deposits raised, and an earnings charge is made for funded loans. FTP is calculated by applying a transfer rate to pooled, or aggregated, loan and deposit volumes.

We also evaluate performance based on provision for loan losses, noninterest income and noninterest expense, which are presented as components of segment operating profit or loss. In calculating each operating segment's noninterest expense, we consider the direct costs incurred by the operating segment as well as certain allocated direct costs. As part of this review, we allocate certain corporate overhead costs to a corporate account. We do not allocate income taxes to our segments. Additionally, our management reporting model is predicated on average asset balances; therefore, period-end asset balances are not presented for segment reporting purposes.

Table of Contents

Changes in an individual client's primary relationship designation have resulted, and in the future may result, in the inclusion of certain clients in different segments in different periods. Effective January 1, 2011, we have three segments for management reporting purposes: Global Commercial Bank, SVB Private Bank and SVB Capital. Previously, we reported based on four segments: Global Commercial Bank, Relationship Management, SVB Capital and Other Business Services. We have reclassified all prior period amounts to conform to the current period's presentation. Refer to Note 10 Segment Reporting of the Notes to Interim Consolidated Financial Statements (unaudited) under Part I, Item 1 of this report.

The following is our reportable segment information for the three and six months ended June 30, 2011 and 2010, respectively:

Global Commercial Bank

| (Dollars in thousands) | Three months ended June 30, | | | Six months ended June 30, | | |

| (Provision for) reduction of loan losses | (730) | (7,571) | (90.4) | 661 | (18,427) | (103.6) |
| Noninterest income | 36,551 | 32,862 | 11.2 | 71,415 | 63,804 | 11.9 |
| Noninterest expense | (85,462) | (73,877) | 15.7 | (171,847) | (145,201) | 18.4 |
| Income before income tax expense | \$ 58,811 | \$ 42,397 | 38.7 | \$ 112,483 | \$ 78,627 | 43.1 |
| Total average loans, net of unearned income | \$ 4,822,497 | \$ 3,673,144 | 31.3 | \$ 4,766,104 | \$ 3,669,378 | 29.9 |
| Total average assets | 5,264,434 | 4,006,279 | 31.4 | 5,169,591 | 4,004,197 | 29.1 |
| Total average deposits | 15,099,789 | 11,767,045 | 28.3 | 14,803,648 | 11,308,998 | 30.9 |

Three months ended June 30, 2011 compared to the three months ended June 30, 2010

Net interest income from our Global Commercial Bank (GCB) increased by \$17.5 million for the three months ended June 30, 2011, primarily due to an increase in loan interest income of \$13.8 million resulting primarily from an increase in average loan balances and an increase in the FTP earned for deposits of \$7.7 million due to significant deposit growth. These increases were partially offset by a decrease in the FTP earned for deposits of \$8.7 million due to decreases in market interest rates.

We had a provision for loan losses for GCB of \$0.7 million for the three months ended June 30, 2011, compared to a provision of \$7.6 million for the comparable 2010 period. The provision of \$0.7 million was due to an increase in allowance for the increase in loan balances, largely offset by a decrease in the allowance for our performing loans due to the strong overall credit quality of our clients.

Noninterest income increased by \$3.7 million for the three months ended June 30, 2011, primarily due to an increase in foreign exchange fees and credit card fees, partially offset by a decrease in client investment fees. The increase in foreign exchange fees was primarily due to improving business conditions for our clients, which has resulted in higher commissioned notional volumes. Commissioned notional volumes increased to \$2.4 billion for the three months ended June 30, 2011, compared to \$1.3 billion for the comparable 2010 period. The increase in credit card fees was primarily due to the addition of new clients and an increase in client activity. The decrease in client investment fees was primarily attributable to lower margins earned on certain products owing to historically low rates in the short-term fixed income markets.

Noninterest expense increased by \$11.6 million for the three months ended June 30, 2011, primarily due to an increase in incentive compensation, ESOP and salaries and wages expenses. The increase in incentive compensation and ESOP expenses was due to our strong financial performance in the second quarter of 2011 and our current expectation that we will exceed our internal performance targets for 2011. The increase in salaries and wages was primarily due to an increase in the average number of FTE employees at GCB, which increased to 1,115 for the three months ended June 30, 2011, compared to 1,026 for the comparable 2010 period, as well as from merit increases. The increase in average FTE's was attributable to increases in positions for product development, operational, sales and advisory, as well as to support our global commercial banking operations and initiatives.

Six months ended June 30, 2011 compared to the six months ended June 30, 2010

Net interest income from our GCB increased by \$33.8 million for the six months ended June 30, 2011, primarily due to an increase in loan interest income of \$27.2 million resulting primarily from an increase in average loan balances and an increase in the FTP earned for deposits of \$16.4 million due to significant deposit growth. These increases were partially offset by a decrease in the FTP earned for deposits of \$16.6

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

million due to decreases in market interest rates.

We had a reduction of provision for loan losses for GCB of \$0.7 million for the six months ended June 30, 2011, compared to a provision of \$18.4 million for the comparable 2010 period. The reduction of provision of \$0.7 million was primarily due to net recoveries recognized in the six months ended June 30, 2011, as well as a decrease in the allowance for our performing loans due to the strong overall credit quality of our clients. These decreases in provision were partially offset by an increase in allowance for the increase in loan balances.

Table of Contents

Noninterest income increased by \$7.6 million for the six months ended June 30, 2011, primarily due to an increase in foreign exchange fees and credit card fees, partially offset by a decrease in client investment fees. The increase in foreign exchange fees was primarily due to higher commissioned notional volumes, which increased to \$4.6 billion for the six months ended June 30, 2011, compared to \$2.8 billion for the comparable 2010 period. The increase in credit card fees was primarily due to the addition of new clients and an increase in client activity. The decrease in client investment fees was primarily attributable to lower margins earned on certain products owing to historically low rates in the short-term fixed income markets.

Noninterest expense increased by \$26.6 million for the six months ended June 30, 2011, primarily due to an increase in incentive compensation, ESOP and salaries and wages expenses. The increase in incentive compensation and ESOP expenses was due to our strong financial performance in the first half of 2011 and our current expectation that we will exceed our internal performance targets for 2011. The increase in salaries and wages was primarily due to an increase in the average number of FTE employees at GCB, which increased to 1,108 for the six months ended June 30, 2011, compared to 1,021 for the comparable 2010 period, as well as from merit increases.

SVB Private Bank

NM Not meaningful

Three months ended June 30, 2011 compared to the three months ended June 30, 2010

Net interest income from SVB Private Bank increased by \$1.7 million for the three months ended June 30, 2011, primarily due to an increase in loan interest income resulting primarily from an increase in average loan balances.

We had a reduction of provision for loan losses for SVB Private Bank of \$0.6 million for the three months ended June 30, 2011, compared to a reduction of provision of \$0.2 million for the comparable 2010 period. The reduction of provision of \$0.6 million was primarily due to the strong overall credit quality of our clients.

Noninterest expense increased by \$1.4 million for the three months ended June 30, 2011, primarily due to an increase in compensation and benefits expense of \$1.2 million attributable to an increase in incentive compensation and salaries and wages expenses. The increase in incentive compensation expense was primarily due to our strong financial performance in the second quarter of 2011 and our current expectation that we will exceed our internal performance targets for 2011. The increase in salaries and wages expense was primarily due to an increase in the number FTEs at SVB Private Bank, which increased by 17 to 31 FTEs for the three months ended June 30, 2011, compared to 14 FTEs for the comparable 2010 period.

Six months ended June 30, 2011 compared to the six months ended June 30, 2010

Net interest income increased by \$3.0 million for the six months ended June 30, 2011, primarily due to a to an increase in loan interest income resulting primarily from an increase in average loan balances.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

We had a reduction of provision for loan losses for SVB Private Bank of \$2.3 million for the six months ended June 30, 2011, compared to a reduction of provision of \$0.3 million for the comparable 2010 period. The reduction of provision of \$2.3 million was due to the strong overall credit quality of our clients.

Noninterest expense increased by \$2.4 million for the six months ended June 30, 2011, primarily due to an increase in compensation and benefits expense of \$1.9 million attributable to an increase in incentive compensation and salaries and wages expenses. The increase in incentive compensation expense was primarily due to our strong financial performance during the first half of 2011 and our current expectation that we will exceed our internal performance targets for 2011. The increase in salaries and wages expense was primarily due to an increase in the number FTEs at SVB Private Bank, which increased by 12 to 27 FTEs for the six months ended June 30, 2011, compared to 15 FTEs for the comparable 2010 period.

NM Not meaningful

SVB Capital's components of noninterest income primarily include net gains and losses on marketable and non-marketable securities, carried interest and fund management fees. All components of income before income tax expense discussed below are net of noncontrolling interests.

We experience variability in the performance of SVB Capital from quarter to quarter due to a number of factors, including changes in the values of our funds' underlying investments, changes in the amount of distributions and general economic and market conditions. Such variability may lead to volatility in the gains and losses from investment securities and cause our results to differ from period to period. Results for a particular period may not be indicative of future performance.

Three months ended June 30, 2011 compared to the three months ended June 30, 2010

Noninterest income increased by \$3.8 million to \$6.7 million for the three months ended June 30, 2011, primarily due to higher net gains on investment securities. SVB Capital's components of noninterest income primarily include the following:

Net gains on investment securities of \$4.0 million for the three months ended June 30, 2011, compared to net gains of \$0.4 million for the comparable 2010 period. The net gains on investment securities of \$4.0 million for the three months ended June 30, 2011 were primarily related to net gains of \$4.2 million from our managed funds of funds attributable to the continued trend of increased valuations and liquidity events from companies in the underlying funds, largely driven by internet and social networking companies.

We received fund management fees of \$2.7 million for both the three months ended June 30, 2011, and 2010.

Six months ended June 30, 2011 compared to the six months ended June 30, 2010

Noninterest income increased by \$6.1 million to \$14.0 million for the six months ended June 30, 2011, primarily due to higher net gains on investment securities. SVB Capital's components of noninterest income primarily include the following:

Net gains on investment securities of \$8.6 million for the six months ended June 30, 2011, compared to net gains of \$2.4 million for the comparable 2010 period. The net gains on investment securities of \$8.6 million for the six months ended June 30, 2011 were primarily related to net gains of \$8.4 million from our managed funds of funds attributable to the continued trend of increased valuations and liquidity events from companies in the underlying funds, largely driven by internet and social networking companies.

We received fund management fees of \$5.4 million for both the six months ended June 30, 2011 and 2010.

Consolidated Financial Condition

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Our total assets were \$19.4 billion at June 30, 2011, an increase of \$1.9 billion, or 10.5 percent, compared to \$17.5 billion at December 31, 2010. The increase was primarily due to increases in our available-for-sale securities portfolio due to the growth in our deposit balances.

Table of Contents

Cash and Due from Banks

Cash and due from banks totaled \$2.1 billion at June 30, 2011, a decrease of \$572.3 million, or 21.4 percent, compared to \$2.7 billion at December 31, 2010. The decrease was primarily due to the investment of excess cash previously held at the Federal Reserve into available-for-sale securities, as well as the use of cash to settle the maturity of our 3.875% Convertible Notes in April 2011 and the repurchase of \$312.6 million of our 5.70% Senior Notes and 6.05% Subordinated Notes in May 2011. These decreases were partially offset by increases in cash from our continued growth in deposits.

As of June 30, 2011 and December 31, 2010, \$1.5 billion and \$2.2 billion, respectively, of our cash and due from banks was deposited at the Federal Reserve Bank and was earning interest at the Federal Funds target rate, and interest-earning deposits in other financial institutions were \$260.4 million and \$246.3 million, respectively.

Federal Funds Sold, Securities Purchased Under Agreements to Resell and Other Short-Term Investments

Federal funds sold, securities purchased under agreements to resell and other short-term investments were \$464.8 million at June 30, 2011, a decrease of \$61.1 million compared to \$403.7 million at December 31, 2010. The decrease was primarily due to cash management strategies.

Investment Securities

Investment securities totaled \$10.5 billion at June 30, 2011, an increase of \$1.9 billion, or 21.0 percent, compared to \$8.6 billion at December 31, 2010. Our investment securities portfolio consists of both an available-for-sale securities portfolio, which represents interest-earning investment securities, and a non-marketable securities portfolio, which primarily represents investments managed as part of our funds management business.

Available-for-Sale Securities

Our available-for-sale portfolio is a fixed income investment portfolio that is managed to maximize portfolio yield over the long-term in a manner consistent with our liquidity, credit diversification and asset/liability strategies. Available-for-sale securities were \$9.6 billion at June 30, 2011, an increase of \$1.7 billion, or 21.0 percent, compared to \$7.9 billion at December 31, 2010. The increase was primarily due to purchases of new investments of \$4.3 billion during the six months ended June 30, 2011, partially offset by sales of \$1.4 billion and paydowns of \$1.3 billion in securities. The purchases of new investments of \$4.3 billion in the first half of 2011 were primarily comprised of fixed-rate agency-issued mortgage securities. The sales of securities of \$1.4 billion during the first half of 2011 were comprised entirely of agency-issued mortgage securities.

Portfolio duration is a standard measure used to approximate changes in the market value of fixed income instruments due to a change in market interest rates. The measure is an estimate based on the level of current market interest rates, expectations for changes in the path of forward rates and the effect of forward rates on mortgage prepayment speed assumptions. As such, portfolio duration will fluctuate with changes in market interest rates. Changes in portfolio duration are also impacted by changes in the mix of longer versus shorter term-to-maturity securities. At June 30, 2011, estimated portfolio duration was 2.0 years, compared to 2.5 years at December 31, 2010.

Non-Marketable Securities

Non-marketable securities primarily represent investments managed by SVB Capital and investments in Debt Fund Investments and Strategic Investments as part of our investment funds management business and include funds of funds, co-investment funds and debt funds, as well as direct equity investments in portfolio companies and fund investments. Included in our non-marketable securities carried under investment company fair value accounting are amounts that are attributable to noncontrolling interests. We are required under GAAP to consolidate 100% of these investments that we are deemed to control, even though we may own less than 100% of such entities. See below for a summary of the carrying value (as reported) of non-marketable securities compared to the amounts attributable to SVBFG.

Non-marketable securities were \$875.2 million as of June 30, 2011, an increase of \$153.7 million, or 21.3 percent, from \$721.5 million as of December 31, 2010. The increase was primarily attributable to additional capital calls for fund investments, as well as gains from our managed funds of funds.

The following table summarizes the carrying value (as reported) of nonmarketable securities compared to the amounts attributable to SVBFG (which generally represents the carrying value times our ownership percentage) at June 30, 2011 and December 31, 2010:

Table of Contents

| | June 30, 2011 | | December 31, 2010 | |
|---|---------------------------------|------------------------------------|---------------------------------|------------------------------------|

Table of Contents**Loans**

Loans, net of unearned income were \$6.0 billion at June 30, 2011, an increase of \$456.9 million, or 8.3 percent, compared to \$5.5 billion at December 31, 2010. Unearned income was \$52.3 million at June 30, 2011, compared to \$45.5 million at December 31, 2010. The majority of our loans are commercial in nature. Total gross loans were \$6.0 billion at June 30, 2011, an increase of \$463.8 million, or 8.3 percent, compared to \$5.6 billion at December 31, 2010. The increase was primarily due to increases in loans to software, SVB Private Bank (included in consumer loans) and hardware clients. The breakdown of total gross loans and total loans as a percentage of total gross loans by category is as follows:

| (Dollars in thousands) | June 30, 2011 | | December 31, 2010 | |
|--|---------------------|---------------|---------------------|---------------|
| | Amount | Percentage | Amount | Percentage |
| Commercial loans: | | | | |
| Software | \$ 2,056,445 | 34.1% | \$ 1,838,996 | 33.0% |

- (1) Premium wine clients can have loan balances included in both commercial loans and real estate secured loans, the total of which are used for the breakout of the above categories.
- (2) Consumer loan clients have loan balances included in both real estate secured loans and other consumer loans, the total of which are used for the breakout of the above categories.

Table of Contents

At June 30, 2011, gross loans (individually or in the aggregate) totaling \$1.6 billion, or 26.1 percent of our portfolio, were equal to or greater than \$20 million to any single client. These loans represented 51 clients, and of these loans, none were on nonaccrual status as of June 30, 2011.

The following table provides a summary of loans by size and category. The breakout of the categories is based on total client balances (individually or in the aggregate) as of December 31, 2010:

| (Dollars in thousands) | December 31, 2010 | | | | | Total |
|-----------------------------------|---------------------------|---------------------------|-----------------------------|--------------------------------|------------------------------|---------------------|
| | Less than Five Million | Five to Ten Million | Ten to Twenty Million | Twenty to Thirty Million | Thirty Million or More | |
| Commercial loans: | | | | | | |
| Software | \$ 687,549 | \$ 297,053 | \$ 525,097 | \$ 299,297 | \$ 30,000 | \$ 1,838,996 |
| Hardware | 225,095 | 157,458 | 99,039 | 51,418 | 34,342 | 567,352 |
| Clean technology | 53,243 | 29,019 | 40,951 | | 37,920 | 161,133 |
| Venture capital/private equity | 237,766 | 210,297 | 189,209 | 70,324 | 339,074 | 1,046,670 |
| Life science | 200,256 | 92,648 | 92,085 | 21,160 | 168,405 | 574,554 |

| Consumer loans (2) | 71,411 | 32,303 | 49,857 | | 39,200 | 192,771 |
| Total gross loans | \$ 2,041,487 | \$ 993,489 | \$ 1,252,673 | \$ 516,211 | \$ 763,345 | \$ 5,567,205 |

- (1) Premium wine clients can have loan balances included in both commercial loans and real estate secured loans, the total of which are used for the breakout of the above categories.
- (2) Consumer loan clients have loan balances included in both real estate secured loans and other consumer loans, the total of which are used for the breakout of the above categories.

At December 31, 2010, gross loans (individually or in the aggregate) totaling \$1.3 billion, or 23.0 percent of our portfolio, were equal to or greater than \$20 million to any single client. These loans represented 38 clients, and of these loans, none were on nonaccrual status as of December 31, 2010.

The credit profile of our clients varies across our loan portfolio, based on the nature of the lending we do for different market segments. Our technology and life sciences loan portfolio includes loans to clients at all stages of their life cycles, beginning with our SVB Accelerator practice, which serves our emerging or early-stage clients. Loans provided to early-stage clients represent a relatively small percentage of our overall portfolio at approximately 9.8 percent of total gross loans at June 30, 2011, compared to 9.0 percent of total gross loans at December 31, 2010. Typically these loans are made to companies with modest or negative cash flows and no established record of profitable operations. Repayment of these loans may be dependent upon receipt by borrowers of additional equity financing from venture capitalists or others, or in some cases, a successful sale to a third party or a public offering. Venture capital firms may provide financing at lower levels, more selectively or on less favorable terms, which may have an adverse effect on our borrowers that are otherwise dependent on such financing to repay their loans to us. When repayment is dependent upon the next round of venture investment and there is an indication that further investment is unlikely or will not occur, it is often likely the company would need to be sold to repay debt in full. If reasonable efforts have not yielded a likely buyer willing to repay all debt at the close of the sale or on commercially viable terms, the account will most likely be deemed to be impaired.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

At June 30, 2011, our lending to venture capital/private equity firms represented 16.9 percent of total gross loans, compared to 18.8 percent of total gross loans at December 31, 2010. Many of these clients have capital call lines of credit, the repayment of which is dependent on the payment of capital calls by the underlying limited partner investors in the funds managed by these firms.

At June 30, 2011, our asset-based lending, which consists primarily of working capital lines and accounts receivable factoring represented 8.6 percent and 5.2 percent, respectively, of total gross loans, compared to 8.5 percent and 6.5 percent, respectively at December 31, 2010. The repayment of these arrangements is dependent on the financial condition, and payment ability, of third parties with whom our clients do business which could be impacted.

Approximately 45.1 percent and 7.4 percent of our outstanding total gross loan balances as of June 30, 2011 were to borrowers based in the states of California and Massachusetts, respectively, compared to 45.9 percent and 6.6 percent, respectively, as of December 31, 2010. Other than California, there are no states with balances greater than 10 percent.

See generally Risk Factors Credit Risks set forth in our 2010 Form 10-K.

Table of Contents*Credit Quality Indicators*

As of June 30, 2011, our criticized and impaired loans represented 8.6 percent of our total gross loans. This compares to 7.0 percent at December 31, 2010. A majority of our criticized loans are from our SVB Accelerator practice, which serves our emerging or early stage clients, and make up approximately 10 percent of our loan portfolio. It is common for an early stage client's remaining liquidity to fall temporarily below the threshold for a pass-rated credit during its capital-raising period for a new round of funding. This situation typically lasts only a few weeks and, in our experience, generally resolves itself with a subsequent round of venture funding. As a result, we expect that each of our early-stage clients will be managed through our criticized portfolio during a portion their life cycle. The increase in criticized loans from December 31, 2010 to June 30, 2011 was primarily due to the timing of certain early-stage clients' cash flow cycles. We believe that our current criticized loan levels are representative of ongoing levels of criticized assets.

Credit Quality and Allowance for Loan Losses

Nonperforming assets consist of loans past due 90 days or more that are still accruing interest, loans on nonaccrual status, and when applicable, foreclosed property classified as Other Real Estate Owned (OREO). We measure all loans placed on nonaccrual status for impairment based on the fair value of the underlying collateral or the net present value of the expected cash flows in accordance with ASC 310. The table below sets forth certain data and ratios between nonperforming loans, nonperforming assets and the allowance for loan losses:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 |
|--|---------------|-------------------|
| Gross nonperforming loans: | | |
| Loans past due 90 days or more still accruing interest | \$ 2 | \$ 44 |
| Impaired loans | 36,335 | 39,426 |
| Total gross nonperforming loans | \$ 36,337 | \$ 39,470 |
| Nonperforming loans as a percentage of total gross loans | 0.60% | 0.71% |
| Nonperforming assets as a percentage of total assets | 0.09 | 0.23 |
| Allowance for loan losses | \$ 82,155 | \$ 82,627 |
| As a percentage of total gross loans | 1.36% | 1.48% |
| As a percentage of total gross nonperforming loans | 226.09 | 209.34 |
| Allowance for loan losses for impaired loans | \$ 6,248 | \$ 6,936 |
| As a percentage of total gross loans | 0.10% | 0.12% |
| As a percentage of total gross nonperforming loans | 17.19 | 17.57 |
| Allowance for loan losses for total gross performing loans | \$ 75,907 | \$ 75,691 |
| As a percentage of total gross loans | 1.26% | 1.36% |
| As a percentage of total gross performing loans | 1.27 | 1.37 |
| Reserve for unfunded credit commitments (1) | \$ 17,490 | \$ 17,414 |
| Total gross loans | 6,030,966 | 5,567,205 |
| Total gross performing loans | 5,994,629 | 5,527,735 |
| Total unfunded credit commitments | 6,697,256 | 6,270,505 |

(1) The Reserve for unfunded credit commitments is included as a component of other liabilities. See Provision for Unfunded Credit Commitments above for a discussion of the changes to the reserve.

Impaired Loans

Average impaired loans for the three and six months ended June 30, 2011 were \$35.0 million and \$35.4 million, respectively, compared to \$50.9 million and \$50.6 million for the comparable 2010 periods. If the impaired loans had not been impaired, \$0.8 million and \$1.5 million in interest income would have been recorded for the three and six months ended June 30, 2011, respectively, compared to \$0.8 million and \$1.7 million for the comparable 2010 periods.

Table of Contents**Accrued Interest Receivable and Other Assets**

A summary of accrued interest receivable and other assets at June 30, 2011 and December 31, 2010 is as follows:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 | % Change |
|--|---------------|-------------------|----------|
| Foreign exchange spot contract assets, gross | \$ 137,488 | \$ 13,335 | NM |
| Derivative assets, gross (1) | 83,090 | 115,222 | (27.9)% |
| Accrued interest receivable | 54,063 | 47,830 | 13.0 |
| FHLB and FRB stock | 38,890 | 38,618 | 0.7 |
| Deferred tax assets | 23,313 | 41,871 | (44.3) |
| Prepaid FDIC assessments | 12,448 | 17,530 | (29.0) |
| Other assets | 50,182 | 53,781 | (6.7) |
| Total accrued interest receivable and other assets | \$ 399,474 | \$ 328,187 | 21.7 |

NM Not meaningful

(1) See Derivatives, Net section below.

Foreign Exchange Spot Contract Assets

Foreign exchange spot contract assets represent unsettled client trades at the end of the period. The increase of \$124.2 million was primarily due to increased client trade activity at period-end, and is largely offset by an increase in foreign exchange spot contract liabilities (see Other Liabilities section below).

Accrued Interest Receivable

Accrued interest receivable consists of interest on available-for-sale securities and loans. The increase of \$6.2 million was primarily due to an increase in interest receivable for our available-for-sale securities as a result of a \$1.7 billion increase in our portfolio from December 31, 2010 to June 30, 2011.

Deferred tax assets

Our deferred tax assets balance was \$23.3 million at June 30, 2011, compared to \$41.9 million at December 31, 2010. The decrease was primarily due to the change in the deferred tax liability balance relating to the increase in the fair value of our available-for-sale securities portfolio.

Derivatives, Net

Derivative instruments are recorded as a component of other assets and other liabilities on the balance sheet. The following table provides a summary of derivative assets (liabilities), net at June 30, 2011 and December 31, 2010:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 | % Change |
|--|---------------|-------------------|----------|
| Assets (liabilities): | | | |
| Equity warrant assets | \$ 56,941 | \$ 47,565 | 19.7% |
| Interest rate swaps assets | 13,296 | 52,017 | (74.4) |
| Foreign exchange forward and option contracts assets | 11,567 | 11,349 | 1.9 |
| Loan conversion options assets | 1,223 | 4,291 | (71.5) |
| Client interest rate derivative assets | 63 | | |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

| | | | |
|---|-----------|------------|--------|
| Foreign exchange forward and option contracts liabilities | (11,333) | (10,267) | 10.4 |
| Client interest rate derivative liabilities | (65) | | |
| Total derivatives, net | \$ 71,692 | \$ 104,955 | (31.7) |

Table of Contents*Equity Warrant Assets*

In connection with negotiating credit facilities and certain other services, we often obtain rights to acquire stock in the form of equity warrant assets in primarily private, venture-backed companies in the technology and life science industries. At June 30, 2011, we held warrants in 1,153 companies, compared to 1,157 companies at December 31, 2010. The change in fair value of equity warrant assets is recorded in gains on derivatives instruments, net, in noninterest income, a component of consolidated net income. The following table provides a summary of transactions and valuation changes for equity warrant assets for the three and six months ended June 30, 2011 and 2010, respectively:

| (Dollars in thousands) | Three months ended June 30, | | Six months ended June 30, | |
|----------------------------------|-----------------------------|-----------|---------------------------|-----------|
| | 2011 | 2010 | 2011 | 2010 |
| Balance, beginning of period | \$ 51,273 | \$ 40,845 | \$ 47,565 | \$ 41,292 |
| New equity warrant assets | 3,601 | 1,866 | 7,296 | 3,213 |
| Non-cash increases in fair value | 7,003 | (377) | 9,556 | 200 |
| Exercised equity warrant assets | (4,213) | (993) | (6,172) | (1,582) |
| Terminated equity warrant assets | (723) | (744) | (1,304) | (2,526) |
| Balance, end of period | \$ 56,941 | \$ 40,597 | \$ 56,941 | \$ 40,597 |

Interest Rate Swaps

For information on our interest rate swaps, see Note 8 *Derivative Financial Instruments* of the *Notes to Interim Consolidated Financial Statements (unaudited)* under Part I, Item 1 of this report.

Foreign Exchange Forward and Foreign Currency Option Contracts

We enter into foreign exchange forward contracts and foreign currency option contracts with clients involved in international activities, either as the purchaser or seller, depending upon the clients' need. For each forward or option contract entered into with our clients, we enter into an opposite way forward or option contract with a correspondent bank, which mitigates the risk of fluctuations in currency rates. We enter into forward contracts with correspondent banks to economically hedge currency exposure risk related to certain foreign currency denominated loans. Revaluations of foreign currency denominated loans are recorded on the line item *Other* as part of noninterest income, a component of consolidated net income. We have not experienced nonperformance by a counterparty and therefore have not incurred related losses. Further, we anticipate performance by all counterparties. Our net exposure for foreign exchange forward and foreign currency option contracts at June 30, 2011 and December 31, 2010 amounted to \$0.2 million and \$1.1 million, respectively.

Deposits

Deposits were \$16.3 billion at June 30, 2011, an increase of \$2.0 billion, or 13.5 percent, compared to \$14.3 billion at December 31, 2010. The increase in our deposit balance was primarily from increases in our noninterest-bearing demand deposits of \$1.7 billion. The overall increase in deposit balances was primarily due to growth from new clients and the continued lack of attractive market investment opportunities for our deposit clients. At June 30, 2011, 34.4 percent of our total deposits were interest-bearing deposits, compared to 37.1 percent at December 31, 2010.

At June 30, 2011, the aggregate balance of time deposit accounts individually equal to or greater than \$100,000 totaled \$250.4 million, compared to \$343.5 million at December 31, 2010. At June 30, 2011, substantially all time deposit accounts individually equal to or greater than \$100,000 were scheduled to mature within one year. No material portion of our deposits has been obtained from a single depositor and the loss of any one depositor would not materially affect our business.

Long-Term Debt

At June 30, 2011, we had long-term debt of \$609.6 million, compared to \$1.2 billion at December 31, 2010. At June 30, 2011, long-term debt included 5.375% Senior Notes, 5.70% Senior Notes, 6.05% Subordinated Notes, 7.0% Junior Subordinated Debentures and 4.99% notes payable related to one of our debt fund investments. The decrease of \$599.7 million was primarily due to the maturity of \$250.0 million of our 3.875% Convertible Notes in April 2011 and the repurchase of \$312.6 million of our 5.70% Senior Notes and 6.05% Subordinated Notes in May 2011. For more information on our long-term debt, see Note 7 *Short-Term Borrowings and Long-Term Debt* of the *Notes to Interim Consolidated*

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

Financial Statements (unaudited) under Part I, Item 1 of this report.

Table of Contents**Other Liabilities**

A summary of other liabilities at June 30, 2011 and December 31, 2010, respectively, is as follows:

| (Dollars in thousands) | June 30, 2011 | December 31, 2010 | % Change |
|---|---------------|-------------------|----------|
| Foreign exchange spot contract liabilities, gross | \$ 206,394 | \$ 16,705 | NM% |
| Accrued compensation | 66,534 | 79,068 | (15.9) |
| Reserve for unfunded credit commitments | 17,490 | 17,414 | 0.4 |
| Derivative liabilities, gross (1) | 11,398 | 10,267 | 11.0 |
| Other | 160,798 | 72,583 | 121.5 |
| Total other liabilities | \$ 462,614 | \$ 196,037 | 136.0 |

NM Not meaningful

(1) See Derivatives, Net section above.
Foreign Exchange Spot Contract Liabilities

Foreign exchange spot contract liabilities represent unsettled client trades at the end of the period. The increase of \$189.7 million was primarily due to increased client trade activity at period-end, and is largely offset by an increase in foreign exchange spot contract assets. (See Accrued Interest Receivable and Other Assets section above).

Accrued Compensation

Accrued compensation includes amounts for vacation time, our Incentive Compensation Plans, Direct Drive Incentive Compensation Plan, Long-Term Cash Incentive Plan, Retention Program, Warrant Incentive Plan, ESOP and other compensation arrangements. The decrease of \$12.5 million was primarily due to the June 30, 2011 balance including only six months worth of expenses for our Incentive Compensation Plans and Direct Drive Incentive Compensation Plan, compared to twelve months as of December 31, 2010.

Other

The increase in other liabilities of \$88.2 million was primarily due to a purchase of available-for-sale securities on the last day of the quarter for \$80.5 million which did not settle until July 1, therefore was classified as a liability as of June 30, 2011.

Noncontrolling Interests

Noncontrolling interests totaled \$579.2 million and \$473.9 million at June 30, 2011 and December 31, 2010, respectively. The increase of \$105.3 million was primarily due to net income attributable to noncontrolling interests of \$64.1 million for the six months ended June 30, 2011, primarily from our managed funds of funds, as well as \$41.2 million of contributed capital from (net of distributions) investors in our managed funds.

Fair Value Measurements

At June 30, 2011, approximately 53.2 percent of our total assets, or \$10.3 billion, consisted of financial assets recorded at fair value on a recurring basis, compared to 48.8 percent of our total assets, or \$8.5 billion as of December 31, 2010. Of these assets as of June 30, 2011, 93.4 percent used valuation methodologies involving market-based or market-derived information, collectively Level 1 and 2 measurements, to measure fair value, and 6.6 percent of these financial assets were measured using model-based techniques, or Level 3 measurements. This compares to 93.6 percent and 6.4 percent, respectively, as of December 31, 2010. Our financial assets valued using Level 3 measurements at June 30, 2011 and December 31, 2010 represented non-marketable securities and equity warrant assets. At June 30, 2011, 0.1 percent of total liabilities, or \$11.4 million, consisted of financial liabilities recorded at fair value on a recurring basis, which were valued using market-observable inputs, compared to 0.1 percent, or \$10.3 million as of December 31, 2010. During the six months ended June 30, 2011 and

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

2010, there were no transfers between Level 1 and Level 2. All transfers from Level 3 to Level 2 during the six months ended June 30, 2011 and 2010 were due to the transfer of equity warrant assets from our private portfolio to our public portfolio. Our valuation processes include a number of key controls that are designed to ensure that fair value is calculated appropriately.

As of June 30, 2011, our available-for-sale portfolio, consisting of agency-issued mortgage-backed securities, agency-issued collateralized mortgage obligations, U.S. agency debentures, U.S. treasury securities, commercial mortgage-backed securities and municipal bonds and notes, represented \$9.6 billion, or 93.1 percent of our portfolio of assets measured at fair value on a recurring basis, compared to \$7.9 billion, or 92.6 percent, as of December 31, 2010. These instruments were classified as Level 2 because their valuations were based on indicative prices corroborated by observable market quotes or pricing models with all significant inputs derived from or corroborated by observable market data. The fair value of our available-for-sale securities portfolio is sensitive to changes in levels of market interest rates and market perceptions of credit quality of the underlying securities. Market valuations and impairment analyses on assets in the available-for-sale securities portfolio are reviewed and monitored on a quarterly basis.

Table of Contents

Financial assets valued using Level 3 measurements consist primarily of our investments in venture capital and private equity funds and direct equity investments in privately held companies. Our managed funds and debt fund that hold these investments are investment companies under the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide for Investment Companies and accordingly, these funds report their investments at estimated fair value, with unrealized gains and losses resulting from changes in fair value reflected as investment gains or losses in our consolidated statements of income. Assets valued using Level 3 measurements also include equity warrant assets in shares of private company capital stock.

During the three and six months ended June 30, 2011, the Level 3 assets that are measured at fair value on a recurring basis experienced net realized and unrealized gains of \$43.3 million and \$94.6 million (which is inclusive of noncontrolling interest), respectively, primarily due to valuation increases in underlying fund investments in our managed funds of funds, as well as gains from liquidity events and distributions. During the three and six months ended June 30, 2010, the Level 3 assets that are measured at fair value on a recurring basis experienced net realized and unrealized gains of \$3.9 million and \$18.0 million (which is inclusive of noncontrolling interest), respectively.

The valuation of non-marketable securities and equity warrant assets in shares of private company capital stock is subject to significant judgment. The inherent uncertainty in the process of valuing securities for which a ready market does not exist may cause our estimated values of these securities to differ significantly from the values that would have been derived had a ready market for the securities existed, and those differences could be material. The timing and amount of changes in fair value, if any, of these financial instruments depend upon factors beyond our control, including the performance of the underlying companies, fluctuations in the market prices of the preferred or common stock of the underlying companies, general volatility and interest rate market factors, and legal and contractual restrictions. The timing and amount of actual net proceeds, if any, from the disposition of these financial instruments depend upon factors beyond our control, including investor demand for initial public offerings, levels of merger and acquisition activity, legal and contractual restrictions on our ability to sell, and the perceived and actual performance of portfolio companies. All of these factors are difficult to predict (see Risk Factors set forth in our 2010 Form 10-K).

Capital Resources

Our management seeks to maintain adequate capital to support anticipated asset growth, operating needs and unexpected credit risks, and to ensure that SVB Financial and the Bank are in compliance with all regulatory capital guidelines. Our primary sources of new capital include retained earnings and proceeds from the sale and issuance of capital stock or other securities. Our management engages, in consultation with our Finance Committee of the Board of Directors, in a regular capital planning process in an effort to make effective use of the capital available to us. The capital plan considers capital needs for the foreseeable future and allocates capital to both existing and future business activities. Expected future use or activities for which capital may be set aside include balance sheet growth and associated relative increases in market or credit exposure, investment activity, potential product and business expansions, acquisitions and strategic or infrastructure investments.

SVBFG Stockholders Equity

SVBFG stockholders equity totaled \$1.4 billion at June 30, 2011, an increase of \$162.5 million, or 12.8 percent compared to \$1.3 billion at December 31, 2010. This increase was primarily the result of net income for the six months ended June 30, 2011 and an increase in additional-paid-in-capital from stock option exercises during the six months ended June 30, 2011.

Funds generated through retained earnings are a significant source of capital and liquidity and are expected to continue to be so in the future.

Capital Ratios

Both SVB Financial and the Bank are subject to various capital adequacy guidelines issued by the Federal Reserve Board and the California Department of Financial Institutions (DFI). To be classified as adequately capitalized under these capital guidelines, minimum ratios for total risk-based capital, Tier 1 risk-based capital and Tier 1 leverage ratio for bank holding companies and banks are 8.0%, 4.0% and 4.0%, respectively.

To be classified as well capitalized under these capital guidelines, minimum ratios for total risk-based capital and Tier 1 risk-based capital for bank holding companies and banks are 10.0% and 6.0%, respectively. Under the same capital adequacy guidelines, a well-capitalized state member bank must maintain a minimum Tier 1 leverage ratio of 5.0%. There is no Tier 1 leverage requirement for a holding company to be deemed well-capitalized.

The Federal Reserve has not issued any minimum guidelines for the tangible common equity to tangible assets ratio or the tangible common equity to risk-weighted assets ratio. However, we believe these ratios provide meaningful supplemental information regarding our capital levels and are therefore provided below.

Table of Contents

Regulatory capital ratios for SVB Financial and the Bank were in excess of federal regulatory guidelines for a well-capitalized depository institution as of June 30, 2011 and December 31, 2010. Capital ratios for SVB Financial and the Bank, compared to the minimum regulatory ratios to be considered well capitalized, are set forth below:

| | June 30, 2011 | December 31, 2010 | Minimum ratio to be Well Capitalized |
|--|---------------|-------------------|--------------------------------------|
| SVB Financial: | | | |
| Total risk-based capital ratio | 14.97% | 17.35% | 10.0% |
| Tier 1 risk-based capital ratio | 13.58 | 13.63 | 6.0 |
| Tier 1 leverage ratio | 8.04 | 7.96 | N/A |
| Tangible common equity to tangible assets ratio (1) | 7.42 | 7.27 | N/A |
| Tangible common equity to risk-weighted assets ratio (1) | 13.72 | 13.54 | N/A |
| Bank: | | | |
| Total risk-based capital ratio | 13.06% | 15.48% | 10.0% |
| Tier 1 risk-based capital ratio | 11.62 | 11.61 | 6.0 |
| Tier 1 leverage ratio | 6.82 | 6.82 | 5.0 |
| Tangible common equity to tangible assets ratio (1) | 6.67 | 6.61 | N/A |
| Tangible common equity to risk-weighted assets ratio (1) | 12.07 | 11.88 | N/A |

(1) See below for a reconciliation of non-GAAP tangible common equity to tangible assets and tangible common equity to risk-weighted assets.

Our tier 1 risk-based capital and tier 1 leverage ratios for both SVB Financial and the Bank remained relatively flat compared to December 31, 2010 and above the levels to be considered well capitalized. Both of these ratios benefited from growth in retained earnings and additional-paid-in-capital, the impact of which was largely offset by continued growth in assets and deposits. Our total risk-based capital ratio (includes tier 1 and tier 2 capital components) for both SVB Financial and the Bank declined primarily due to our repurchase of \$204.0 million of our 6.05% Subordinated Notes as these notes are considered tier 2 capital instruments, as well as from increases in risk-weighted assets (loans and available-for-sale securities).

The tangible common equity to tangible assets ratio and the tangible common equity to risk-weighted assets ratios are not required by GAAP or applicable bank regulatory requirements. However, we believe these ratios provide meaningful supplemental information regarding our capital levels. Our management uses, and believes that investors benefit from referring to, these ratios in evaluating the adequacy of the Company's capital levels; however, this financial measure should be considered in addition to, not as a substitute for or preferable to, comparable financial measures prepared in accordance with GAAP. These ratios are calculated by dividing total SVBFG stockholder's equity, by total period-end assets and risk-weighted assets, after reducing both amounts by acquired intangibles and goodwill. The manner in which this ratio is calculated varies among companies. Accordingly, our ratio is not necessarily comparable to similar measures of other companies. The following table provides a reconciliation of non-GAAP financial measures with financial measures defined by GAAP:

| Non-GAAP tangible common equity and tangible assets | SVB Financial | | Bank | |
|---|---------------|-------------------|---------------|-------------------|
| | June 30, 2011 | December 31, 2010 | June 30, 2011 | December 31, 2010 |
| (dollars in thousands, except ratios) | | | | |
| GAAP SVBFG stockholders' equity | \$ 1,436,893 | \$ 1,274,350 | \$ 1,216,268 | \$ 1,074,561 |
| Less: | | | | |
| Intangible assets | 709 | 847 | | |
| Tangible common equity | \$ 1,436,184 | \$ 1,273,503 | \$ 1,216,268 | \$ 1,074,561 |
| GAAP Total assets | \$ 19,366,735 | \$ 17,527,761 | \$ 18,227,021 | \$ 16,268,589 |
| Less: | | | | |
| Intangible assets | 709 | 847 | | |

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

| | | | | |
|--|---------------|---------------|---------------|---------------|
| Tangible assets | \$ 19,366,026 | \$ 17,526,914 | \$ 18,227,021 | \$ 16,268,589 |
| Risk-weighted assets | \$ 10,470,532 | \$ 9,406,677 | \$ 10,075,105 | \$ 9,047,907 |
| Tangible common equity to tangible assets | 7.42% | 7.27% | 6.67% | 6.61% |
| Tangible common equity to risk-weighted assets | 13.72 | 13.54 | 12.07 | 11.88 |

For both SVB Financial and the Bank, the tangible common equity to tangible assets and tangible common equity to risk-weighted assets ratios increased due to an increase in retained earnings and an increase in additional-paid-in-capital from stock option exercises during the six months ended June 30, 2011. This growth was partially offset by increases in both tangible and risk-weighted assets, which reflects our continued growth in deposit balances.

Table of Contents

Off-Balance Sheet Arrangements

In the normal course of business, we use financial instruments with off-balance sheet risk to meet the financing needs of our customers. These financial instruments include commitments to extend credit, commercial and standby letters of credit, credit card guarantees and commitments to invest in venture capital and private equity fund investments. These instruments involve, to varying degrees, elements of credit risk. Credit risk is defined as the possibility of sustaining a loss because other parties to the financial instrument fail to perform in accordance with the terms of the contract. For details of our commitments to extend credit, and commercial and standby letters of credit, please refer to Note 11 Off-Balance Sheet Arrangements, Guarantees, and Other Commitments of the Notes to Interim Consolidated Financial Statements (unaudited) under Part I, Item 1 of this report.

Commitments to Invest in Venture Capital/Private Equity Funds

We make commitments to invest in venture capital and private equity funds, which in turn make investments generally in, or in some cases make loans to, privately-held companies. Commitments to invest in these funds are generally made for a ten-year period from the inception of the fund. Although the limited partnership agreements governing these investments typically do not restrict the general partners from calling 100% of committed capital in one year, it is customary for these funds to generally call most of the capital commitments over five to seven years. The actual timing of future cash requirements to fund these commitments is generally dependent upon the investment cycle, overall market conditions, and the nature and type of industry in which the privately held companies operate.

For further details on our commitments to invest in private equity funds, refer to Note 11 Off-Balance Sheet Arrangements, Guarantees, and Other Commitments of the Notes to Interim Consolidated Financial Statements (unaudited) under Part I, Item 1 of this report.

Liquidity

The objective of liquidity management is to ensure that funds are available in a timely manner to meet our financial obligations, including, as necessary, paying creditors, meeting depositors' needs, accommodating loan demand and growth, funding investments, repurchasing securities and other operating or capital needs, without incurring undue cost or risk, or causing a disruption to normal operating conditions.

We regularly assess the amount and likelihood of projected funding requirements through a review of factors such as historical deposit volatility and funding patterns, present and forecasted market and economic conditions, individual client funding needs, and existing and planned business activities. Our Asset/Liability Committee (ALCO), which is a management committee, provides oversight to the liquidity management process and recommends policy guidelines, subject to the approval of the Finance Committee of our Board of Directors, and courses of action to address our actual and projected liquidity needs.

Our deposit base is, and historically has been, our primary source of liquidity. Our deposit levels and cost of deposits may fluctuate from time to time due to a variety of factors, including market conditions, prevailing interest rates, changes in client deposit behaviors, availability of insurance protection, and our offering of deposit products. At June 30, 2011, our period-end total deposit balances increased by \$2.0 billion to \$16.3 billion, compared to \$14.3 billion at December 31, 2010. The overall increase in deposit balances was primarily due to growth from new clients and the continued lack of attractive market investment opportunities for our clients given the low interest rate environment. This growth has been a continuing trend since 2009. Under the Dodd-Frank Act, unlimited FDIC insurance is currently available for noninterest-bearing accounts until January 1, 2013.

Our liquidity requirements can also be met through the use of our portfolio of liquid assets. Our definition of liquid assets includes cash and cash equivalents in excess of the minimum levels necessary to carry out normal business operations, investment securities maturing within one year, investment securities eligible and available for financing or pledging purposes with a maturity in excess of one year and anticipated near-term cash flows from investments.

On a stand-alone basis, SVB Financial's primary liquidity channels include dividends from the Bank, its portfolio of liquid assets, and its ability to raise debt and capital. The ability of the Bank to pay dividends is subject to certain regulations described in Business Supervision and Regulation Restriction on Dividends under Part I, Item 1 of our 2010 Form 10-K.

Consolidated Summary of Cash Flows

Below is a summary of our average cash position and statement of cash flows for the six months ended June 30, 2011 and 2010, respectively. Please refer to our Interim Statements of Cash Flows for the six months ended June 30, 2011 and 2010 under Part I, Item 1 of this report for more details.

Table of Contents

| (Dollars in thousands) | Six months ended | |
|--|------------------|--------------|
| | 2011 | 2010 |
| Average cash and cash equivalents | \$ 2,402,895 | \$ 4,437,090 |
| Percentage of total average assets | 13.3% | 31.6% |
| Net cash provided by operating activities | \$ 171,806 | \$ 94,992 |
| Net cash used for investing activities | (2,099,917) | (1,274,483) |
| Net cash provided by financing activities | 1,416,898 | 1,856,981 |
| Net (decrease) increase in cash and cash equivalents | \$ (511,213) | \$ 677,490 |

Average cash and cash equivalents decreased by \$2.0 billion to \$2.4 billion for the six months ended June 30, 2011, compared to \$4.4 billion for the comparable 2010 period, primarily due to the investment of excess cash previously held at the Federal Reserve into available-for-sale securities, partially offset by increases in cash from deposit growth. The increase in our deposit balances was primarily due to growth from new clients and the continued lack of attractive market investment opportunities for our deposit clients.

Cash provided by operating activities was \$171.8 million for the six months ended June 30, 2011, which included net income before noncontrolling interests of \$162.8 million. Significant adjustments for noncash items that increased cash provided by operating activities included an \$82.3 million increase in accounts payable due to a purchase of available-for-sale securities on the last day of the quarter for \$80.5 million which did not settle until July 1 and a net increase of \$65.5 million in foreign exchange spot contracts. Significant adjustments that decreased cash provided by operating activities included \$123.0 million of net gains on investment securities (which is inclusive of noncontrolling interests) and \$28.5 million of deferred loan fee amortization.

Cash used for investing activities was \$2.1 billion for the six months ended June 30, 2011. Net cash outflows included purchases of available-for-sale securities of \$4.3 billion, a net increase in loans of \$449.1 million, purchases of non-marketable securities of \$110.9 million and purchases of premises and equipment of \$12.8 million. Net cash inflows included proceeds from the sales, maturities and pay downs of available-for-sale securities of \$2.7 billion, sales or distributions of non-marketable securities of \$59.7 million and the recovery of \$11.1 million from loans previously charged-off.

Cash provided by financing activities was \$1.4 billion for the six months ended June 30, 2011. Net cash inflows included increases in deposits of \$1.9 billion, capital contributions from (net of distributions) noncontrolling interests of \$41.2 million, proceeds of \$37.0 million from the termination of portions of interest rate swaps associated with our 5.70% Senior Notes and 6.05% Subordinated Notes and proceeds from issuance of common stock and ESPP of \$26.1 million. Net cash outflows included payments of \$346.4 million (including repurchase premiums and associated fees) for the repurchase of portions of our 5.70% Senior Notes and 6.05% Subordinated Notes, settlement of the maturity of \$250.0 million of our 3.875% Convertible Notes, and a decrease in short-term borrowings of \$37.2 million due to the return of collateral to our counterparties that we had previously held related to our interest rate swaps.

Cash and cash equivalents at June 30, 2011 were \$2.6 billion, compared to \$4.2 billion at June 30, 2010.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****Interest Rate Risk Management**

Market risk is defined as the risk of adverse fluctuations in the market value of financial instruments due to changes in market interest rates. Interest rate risk is our primary market risk and can result from timing and volume differences in the repricing of our rate-sensitive assets and liabilities, widening or tightening of credit spreads, changes in the general level of market interest rates and changes in the shape and level of the benchmark LIBOR/SWAP yield curve. Other market risks include foreign currency exchange risk and equity price risk. These risks are not considered significant and no separate quantitative information concerning them is presented herein.

Interest rate risk is managed by our ALCO. ALCO reviews the market valuation and 12-month forward looking earnings sensitivity of assets and liabilities to changes in interest rates, structural changes in investment and funding portfolios, loan and deposit activity and current market conditions. Adherence to relevant policies, which are approved by the Finance Committee of our Board of Directors, is monitored on an ongoing basis.

Management of interest rate risk is carried out primarily through strategies involving our investment securities, available funding channels and capital market activities. In addition, our policies permit the use of off-balance sheet derivative instruments to assist in managing interest rate risk.

We utilize a simulation model to perform sensitivity analysis on the market value of portfolio equity and net interest income under a variety of interest rate scenarios, balance sheet forecasts and proposed strategies. The simulation model provides a dynamic assessment of interest rate sensitivity embedded in our balance sheet which measures the potential volatility in forecasted results relating to changes in market interest rates over time. We review our interest rate risk position on a quarterly basis at a minimum.

Model Simulation and Sensitivity Analysis

One application of the aforementioned simulation model involves measurement of the impact of market interest rate changes on our market value of portfolio equity (MVPE). MVPE is defined as the market value of assets, less the market value of liabilities, adjusted for any off-balance sheet items. A second application of the simulation model measures the impact of market interest rate changes on our net interest income (NII) assuming a static balance sheet as of the quarter-end reporting date. The market interest rate changes that affect us are principally short-term interest rates and include the following: (1) National Prime and SVB Prime rates (impacts the majority of our variable rate loans); (2) LIBOR (impacts our variable rate available-for-sale securities, our 5.70% Senior Notes and 6.05% Subordinated Notes, and a portion of our variable rate loans); and (3) Fed Funds target rate (impacts cash and cash equivalents). Additionally, deposit pricing generally follows overall changes in short-term interest rates.

The following table presents our MVPE and NII sensitivity exposure at June 30, 2011 and December 31, 2010, related to an instantaneous and sustained parallel shift in market interest rates of 100 and 200 basis points (bps), respectively.

| Change in interest rates (basis points) | Estimated MVPE | Estimated (Decrease)/ Increase In MVPE | | Estimated NII | Estimated Increase/ (Decrease) In NII | |
|---|-------------------|---|---------|------------------|--|---------|
| | | Amount | Percent | | Amount | Percent |
| June 30, 2011: | | | | | | |
| +200 | \$ 2,095,926 | \$ 6,172 | 0.3 % | \$ 677,383 | \$ 113,241 | 20.1 % |
| +100 | 2,056,094 | (33,660) | (1.6) | 609,164 | 45,022 | 8.0 |
| - | 2,089,754 | | | 564,142 | | |
| -100 | 2,360,364 | 270,610 | 12.9 | 541,553 | (22,589) | (4.0) |
| -200 | 2,460,208 | 370,454 | 17.7 | 528,277 | (35,865) | (6.4) |
| December 31, 2010: | | | | | | |
| +200 | \$ 1,751,856 | \$ 72,018 | 4.3 % | \$ 613,871 | \$ 112,795 | 22.5 % |
| +100 | 1,688,368 | 8,530 | 0.5 | 544,870 | 43,794 | 8.7 |
| - | 1,679,838 | | | 501,076 | | |
| -100 | 1,858,246 | 178,408 | 10.6 | 484,575 | (16,501) | (3.3) |
| -200 | 1,956,178 | 276,340 | 16.5 | 475,716 | (25,360) | (5.1) |

Table of Contents**Market Value of Portfolio Equity**

The estimated MVPE in the preceding table is based on a combination of valuation methodologies including a discounted cash flow analysis (for non option based products) and a multi-path lattice based valuation (for option embedded products). Both methodologies use publicly available market interest rates sources that we deem reliable. The model simulations and calculations are highly assumption-dependent and will change regularly as our asset/liability structure changes, as interest rate environments evolve, and as we change our assumptions in response to relevant circumstances. These calculations do not reflect the changes that we anticipate or may make to reduce our MVPE exposure in response to a change in market interest rates as a part of our overall interest rate risk management strategy.

As with any method of measuring interest rate risk, certain limitations are inherent in the method of analysis presented in the preceding table. We are exposed to yield curve risk, prepayment risk and basis risk, which cannot be fully modeled and expressed using the above methodology. Accordingly, the results in the preceding table should not be relied upon as a precise indicator of actual results in the event of changing market interest rates. Additionally, the resulting MVPE and NII estimates are not intended to represent, and should not be construed to represent the underlying value.

Our base case MVPE at June 30, 2011 increased from December 31, 2010 by \$409.9 million primarily due to the overall growth in the balance sheet as our available-for-sale securities and loans grew by \$1.7 billion and \$456.9 million, respectively. Additionally, the maturity of \$250.0 million of our 3.875% Convertible Notes and the repurchase of \$312.6 million of 5.70% Senior Notes and 6.05% Subordinated Notes contributed to the increase. These increases were partially offset by the \$1.9 billion growth in our deposits. MVPE declined in the simulated 100 bps upward interest rate movement primarily due to purchases of fixed-rate available-for-sale securities throughout the first half of 2011. MVPE increased slightly in the simulated 200 bps upward interest rate movement primarily due to the sale of \$1.4 billion of available-for-sale securities during the second quarter of 2011. The sale of securities was completed in an effort to reduce duration extension risk in our investment portfolio. In the simulated downward interest rate movements, MVPE increased due to a combination of growth in fixed-rate available-for-sale securities and deposit rates being at or near their absolute floors thus decreasing the effect of the downward rate shocks.

12-Month Net Interest Income Simulation

Our expected 12-month NII at June 30, 2011 increased from December 31, 2010 by \$63.1 million primarily due to growth in available-for-sale securities and loans. Additionally, the maturity of \$250.0 million of our 3.875% Convertible Notes and the repurchase of \$312.6 million of our 5.70% Senior Notes and 6.05% Subordinated Notes contributed to the increase. The growth in total assets was funded primarily by growth in deposits. NII sensitivity decreased slightly in the simulated upward interest rate movements due primarily to the growth in fixed-rate available-for-sale securities and interest-bearing deposits. In the simulated downward interest rate movements, the NII sensitivity increased slightly due to assumed faster prepayments of mortgage securities and an increase in callable agency debentures being retired. In addition to these changes, other general contributing factors include changes in balance sheet mix, changes in deposit repricing assumptions, and changes in projected forward rate curve.

The simulation model used for above analysis embeds floors in our interest rate scenarios, which prevent model benchmark rates from moving below 0.0%. Current modeling assumptions maintain the SVB prime lending rate at its existing level (currently at 4.0%) until the National Prime Index has been adjusted upward by a minimum of 75 bps (to 4.0%), as we did not lower the Bank's prime lending rate despite the 75 bps decrease in the target Federal Funds rates in December 2008. These assumptions may change in future periods based on management discretion. Actual changes in our deposit pricing strategies may differ from our current model assumptions and may have an impact on our overall sensitivity.

ITEM 4. CONTROLS AND PROCEDURES***Disclosure Controls and Procedures***

Disclosure controls and procedures are the controls and other procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (SEC) rules and forms. Disclosure controls and procedures include, among other things, processes, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Edgar Filing: SVB FINANCIAL GROUP - Form 10-Q

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of our most recently completed fiscal quarter, pursuant to Exchange Act Rule 13a-15(b). Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective.

Table of Contents

Changes in Internal Control

There were no changes in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the period covered by this Quarterly Report on Form 10-Q that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Please refer to Note 14 "Legal Matters" of the Notes to Interim Consolidated Financial Statements (unaudited) under Part I, Item 1 of this report.

ITEM 1A. RISK FACTORS

There are no material changes from the risk factors set forth in our 2010 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent Sales of Unregistered Securities

None.

Issuer Purchases of Equity Securities

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. (REMOVED AND RESERVED)

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

See Index to Exhibits at end of report.
