- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

EXPLANATORY NOTE

On August 10, 2011, the Registrant filed a Form 8-K to report that it had secured its reinsurance program for the year June 1, 2011 through May 31, 2012. This Amendment No. 1 to Current Report on Form 8-K/A amends and restates the Current Report on Form 8-K filed on August 10, 2011 and is being filed to correct certain inadvertent calculation errors.

Section 1. Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement

To mitigate our risk of hurricanes and other catastrophes, each year we implement a comprehensive reinsurance program whereby we cede substantial portions of our premiums to other entities that agree to pay portions of claims associated with certain potential catastrophic events. We have secured our reinsurance program for the year June 1, 2011 through May 31, 2012 by entering into agreements with multiple private reinsurance companies and with the State Board of Administration of Florida, which administers the Florida Hurricane Catastrophe Fund.

The agreements contain various coverages, limits and retentions. The private reinsurance agreements cover hurricanes, tropical storms, tornados and other catastrophes. The Florida Hurricane Catastrophe Fund agreement covers storms designated as hurricanes by the National Hurricane Center. We utilized sophisticated models to establish the probable maximum loss of a 1 in 100 year catastrophic event and purchased protection that exceeds that probable maximum loss. The total coverage for a single event is approximately \$357 million. The total cost of our reinsurance program is approximately \$55.3 million. The payments are divided into installments throughout the contract year.

Our private reinsurance program provides approximately \$112 million of coverage for a first event, excluding \$12 million of coverage provided by our own subsidiary company, Claddaugh Casualty Insurance Company Ltd. Under the contracts, including the Claddaugh contract, our homeowners' insurance subsidiary retains the first \$3.5 million of risk in any one event. The program includes an aggregate layer of \$51 million which can be used for any number of events throughout the contract period. All our private reinsurers are AM Best rated A or better or have fully collateralized their potential obligations to us. The estimated cost is \$33.4 million.

The Florida Hurricane Catastrophe Fund component is separated into three pieces: the limited apportionment cover, the mandatory layer, and the temporary-increase-in-coverage limit. We purchased coverage in all three layers providing protection up to \$233 million in a first event scenario. The Florida Hurricane Catastrophe Fund contract allows for one reinstatement in the limited apportionment cover layer with no additional premium. The total estimated cost is \$21.9 million.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Dated: August 19, 2011.
