Approximate date of commencement of proposed sale to the public: As soon as practicable after this registration statement becomes effective.

If any of the securities being registered on this form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, check the following box.

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If delivery of the prospectus is expected to be made pursuant to Rule 434, check the following box. "

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer " Accelerated filer

Non-accelerated filer x (Do not check if a smaller reporting company)

Smaller reporting company "

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and we are not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED DECEMBER 16, 2011

PROSPECTUS

Shares

Class A Common Stock

Inland Western Retail Real Estate Trust, Inc. is a fully integrated, self administered and self-managed real estate company that owns and operates high quality, strategically located shopping centers across 35 states. We are one of the largest owners and operators of shopping centers in the United States.

We are offering shares of our Class A Common Stock as described in this prospectus. All of the shares of Class A Common Stock offered by this prospectus are being sold by us. We currently expect the public offering price to be between \$ and \$ per share. We have applied to have our Class A Common Stock listed on the New York Stock Exchange, or the NYSE, under the symbol IWST . Currently, our Class A Common Stock is not traded on a national securities exchange, and this will be our first listed public offering.

We are a Maryland corporation, and we have elected to qualify as a real estate investment trust, or REIT, for U.S. federal income tax purposes. Shares of our Class A Common Stock are subject to ownership limitations that are primarily intended to assist us in maintaining our qualification as a REIT. Our charter contains certain restrictions relating to the ownership and transfer of our Class A Common Stock, including, subject to certain exceptions, a 9.8% ownership limit of common stock by value or number of shares, whichever is more restrictive. See Description of Capital Stock Restrictions on Ownership and Transfer beginning on page 149 of this prospectus.

Investing in our Class A Common Stock involves risk. See <u>Risk Factors</u> beginning on page 17 of this prospectus.

	Per Share	Total
Public offering price	\$	\$
Underwriting discount	\$	\$
Proceeds, before expenses, to us	\$	\$

We have granted the underwriters the option to purchase an additional shares of our Class A Common Stock on the same terms and conditions set forth above within 30 days after the date of this prospectus solely to cover overallotments, if any.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the shares of our Class A Common Stock on or about , 2011.

You should rely only upon the information contained in this prospectus, or in any free writing prospectus prepared by us or information to which we have referred you. No dealer, salesperson or other person is authorized to give any information or to represent anything not contained in this prospectus. You must not rely on any unauthorized information or representations. This prospectus is an offer to sell only the shares offered hereby, but only under circumstances and in jurisdictions where it is lawful to do so. The information contained in this prospectus is current only as of its date, regardless of the time of delivery of this prospectus or of any sale of our Class A Common Stock. Our business, financial condition, liquidity, results of operations and prospects may have changed since those dates. We will update this prospectus as required by law.

We use market data throughout this prospectus. We have obtained the information under Prospectus Summary Industry Overview and Industry Overview from the market study prepared for us by Rosen Consulting Group, or Rosen, a nationally recognized real estate consulting firm, and such information is included in this prospectus in reliance on Rosen's authority as an expert in such matters. See Experts. In addition, we have obtained certain market data from publicly available information and industry publications. These sources generally state that the information they provide has been obtained from sources believed to be reliable, but the accuracy and completeness of the information are not guaranteed. The forecasts and projections are based on industry surveys and the preparers experience in the industry, and there is no assurance that any of the projections or forecasts will be achieved. We believe that the surveys and market research others have performed are reliable, but we have not independently verified this information.

ii

On February 24, 2011, our shareholders approved an amendment and restatement of our charter that is intended to facilitate the listing of our Class A Common Stock on the NYSE. The amendment and restatement of our charter will become effective upon the filing of the amendment and restatement of our charter with the Maryland State Department of Assessments and Taxation. We expect to file the proposed amendment and restatement of our charter prior to the completion of this offering. Unless otherwise indicated, the information contained in this prospectus assumes that the amendment and restatement of our charter has become effective.

Recapitalization

Prior to the completion of this offering, we intend to declare a stock dividend pursuant to which each then outstanding share of our common stock will receive:

one share of our Class B-1 Common Stock; plus

one share of our Class B-2 Common Stock; plus

one share of our Class B-3 Common Stock.

In connection with this stock dividend, we intend to redesignate our then outstanding common stock as Class A Common Stock. Prior to the declaration of the stock dividend, we intend to effectuate a to one reverse stock split of our common stock outstanding.

In this prospectus, we refer to these transactions as the Recapitalization, we refer to Class B-1 Common Stock, Class B-2 Common Stock and Class B-3 Common Stock collectively as our Class B Common Stock, and we refer to Class A and Class B Common Stock collectively as our common stock. We are offering our Class A Common Stock in this offering, and we intend to list our Class A Common Stock on the NYSE. Our Class B Common Stock will be identical to our Class A Common Stock except that (i) we do not intend to list our Class B Common Stock on a national securities exchange and (ii) shares of our Class B Common Stock will convert automatically into shares of our Class A Common Stock at specified times. Subject to the provisions of our charter, shares of our Class B-1, Class B-2 and Class B-3 Common Stock will convert automatically into shares of our Class A Common Stock months following the Listing, months following the Listing and months following the Listing, respectively. On the month anniversary of the listing of our Class A Common Stock on the NYSE (the Listing), all shares of our Class B Common Stock will have converted into our Class A Common Stock. The terms of our Class A and Class B Common Stock are described more fully under Description of Capital Stock in this prospectus.

The Recapitalization also will have the effect of reducing the total number of outstanding shares of our common stock. As of December 9, 2011, without giving effect to the Recapitalization, we had approximately 483.8 million shares of common stock outstanding. As of December 9, 2011, after giving effect to the Recapitalization, we would have had an aggregate of approximately shares of our Class A and Class B Common Stock outstanding, divided equally among our Class A, Class B-1, Class B-2 and Class B-3 Common Stock.

The Recapitalization will be effected prior to the completion of this offering. Unless otherwise indicated, all information in this prospectus gives effect to, and all share and per share amounts have been retroactively adjusted to give effect to, the Recapitalization. Unless otherwise indicated, share and per share amounts have not been adjusted to give effect to any exercise by the underwriters of their option to purchase up to shares of our Class A Common Stock solely to cover overallotments, if any.

In this prospectus:

annualized base rent as of a specified date means monthly base rent as of the specified date, before abatements, under leases which have commenced as of the specified date multiplied by 12. Annualized base rent (i) does not include tenant reimbursements or

expenses borne by the tenants in triple net or modified gross leases, such as the expenses for real estate taxes and insurance and common area and

iii

other operating expenses, (ii) does not reflect amounts due per percentage rent lease terms, where applicable, and (iii) is calculated on a cash basis and differs from how we calculate rent in accordance with generally accepted accounting principles in the United States of America, or GAAP, for purposes of our financial statements;

community center means a shopping center that we believe meets the International Council of Shopping Centers s, or ICSC s, definition of community center. ICSC, generally, defines a community center as a shopping center similar to a neighborhood center, defined below, but which offers a wider range of apparel and other soft goods than a neighborhood center. Community centers are usually configured as a strip, or may be laid out in an L or U shape, and are commonly anchored by supermarkets, super drugstores and discount department stores;

lifestyle center means a shopping center that we believe meets ICSC s definition of lifestyle center. ICSC, generally, defines a lifestyle center as a shopping center that is most often located near affluent residential neighborhoods and caters to the retail needs and lifestyle pursuits of consumers in its trading area. Lifestyle centers typically have open-air configurations, include at least 50,000 square feet of retail space occupied by upscale national chain specialty stores and include other elements serving its role as a multi-purpose leisure-time destination, such as restaurants and entertainment;

neighborhood center means a shopping center that we believe meets ICSC s definition of neighborhood center. ICSC, generally, defines a neighborhood center as a shopping center designed to provide convenience shopping for the day-to-day needs of consumers in the immediate neighborhood, which is usually configured as a straight-line strip with parking in the front and no enclosed walkway or mall area. Neighborhood centers are frequently anchored by a grocer or drug store and supported by stores offering drugs, sundries, snacks and personal services;

power center means a shopping center that we believe meets ICSC s definition of power center. ICSC, generally, defines a power center as a shopping center dominated by several large anchors, including discount department stores, off-price stores, warehouse clubs, or category killers, i.e., stores that offer tremendous selection in a particular merchandise category at low prices. Power centers typically consist of several anchors, some of which may be freestanding (unconnected) and only a minimum amount of small specialty tenants; and

shadow anchors means one or more retailers situated on parcels that are owned by unrelated third parties but, due to their location within or immediately adjacent to our shopping center, to the consumer appear as another retail tenant of the shopping center and, as a result, attract additional customer traffic to the center.

Unless otherwise indicated, references in this prospectus to our properties or portfolio include information with respect to properties held by us on a consolidated basis as of September 30, 2011. Information with respect to our operating properties excludes non-stabilized operating properties, which are properties that have not achieved 90% or greater occupancy since their development and have been operational for less than one year.

iv

PROSPECTUS SUMMARY

This summary highlights some of the information in this prospectus. It does not contain all of the information that you should consider before investing in our Class A Common Stock. You should read carefully the more detailed information set forth under the heading Risk Factors and the other information included in this prospectus. Except where the context suggests otherwise, the terms our company, we, us and our refer to Inland Western Retail Real Estate Trust, Inc., a Maryland corporation, together with its consolidated subsidiaries. Unless otherwise indicated, the information contained in this prospectus assumes that the Class A Common Stock to be sold in the offering is sold at \$ per share, the midpoint of the pricing range set forth on the cover page of this prospectus, and that the underwriters do not exercise their option to purchase up to an additional shares solely to cover overallotments, if any. Unless otherwise indicated, all property information contained in this prospectus is for our retail operating properties as of September 30, 2011 excluding seasonal leases.

Company Overview

We are one of the largest owners and operators of shopping centers in the United States. As of September 30, 2011, our retail operating portfolio consisted of 263 properties with 34.8 million square feet of gross leasable area, or GLA. Our retail operating portfolio is geographically diversified across 35 states and includes power centers, community centers, neighborhood centers and lifestyle centers, as well as single-user retail properties. Our retail properties are primarily located in retail districts within densely populated areas in highly visible locations with convenient access to interstates and major thoroughfares. Our retail properties have a weighted average age, based on annualized base rent, of only approximately 9.6 years since the initial construction or most recent major renovation. As of September 30, 2011, our retail operating portfolio was 88.6% leased, including leases signed but not commenced. In addition to our retail operating portfolio, as of September 30, 2011, we also held interests in 15 office and industrial operating properties, including 12 office properties and three industrial properties, two non-stabilized operating properties, 22 retail operating properties held by three unconsolidated joint ventures and four retail properties under development.

Our shopping centers are primarily anchored or shadow anchored by strong national and regional grocers, discount retailers and other retailers that provide basic household goods or clothing, including Target, TJX Companies, PetSmart, Best Buy, Bed Bath & Beyond, Home Depot, Kohl s, Wal-Mart, Publix and Lowe s. As of September 30, 2011, over 90% of our shopping centers, based on GLA, were anchored or shadow anchored by a grocer, discount department store, wholesale club or retailers that sell basic household goods or clothing. Overall, we have a broad and highly diversified retail tenant base that includes approximately 1,500 tenants with no one tenant representing more than 3.3% of the total annualized base rent generated from our retail operating properties, or our retail annualized base rent.

We are a client-focused organization, maintaining very active relationships with our key tenants. We have 19 property management offices strategically located across the country and over 180 employees primarily dedicated to our leasing, asset management and property management activities. Our senior management team applies a hands-on approach to leasing our portfolio and is supported by over 80 property managers and senior leasing agents who have an average of 15 years of experience in the industry. We believe that the size and scale of our property management and leasing organization, the breadth of our tenant relationships and the scale of our retail portfolio provides us with a competitive advantage in dealing with national and large regional grocers and retailers. Through the efforts of our leasing team since the beginning of 2009, we have renewed approximately 75% of our expiring leases based on GLA at aggregate base rental rates that reflected comparatively small decreases from the base rental rates of the expiring leases and have signed 500 new leases for 4.2 million square feet of GLA, representing 12.0% of the total GLA in our retail operating portfolio.

1

Competitive Strengths

We believe that we distinguish ourselves from other owners and operators of shopping centers through the following competitive strengths:

Large, Diversified, High Quality Retail Portfolio

We own a national portfolio of high quality retail properties that is well diversified both geographically and by property type. We have retail operating properties in 35 states with no one metropolitan statistical area, or MSA, accounting for more than 4.6% of our retail annualized base rent, other than the Dallas-Fort Worth-Arlington area, which accounts for 14.5% of our retail annualized base rent. Our retail operating portfolio is also well diversified by type, including 64 power centers with 15.5 million square feet of GLA, 60 community centers with 9.2 million square feet of GLA, as well as 88 single-user retail properties with 3.5 million square feet of GLA and two non-stabilized operating properties. We believe the size and scale of our retail portfolio gives us an advantage in working with national and large regional grocers and retailers, as we offer many potential locations within a selected area from which to choose and can address multiple needs for space in different geographic areas for tenants with multiple locations.

Our shopping centers are well located within strong retail districts in densely populated areas. They have high quality anchors and shadow anchors that consistently drive traffic to our centers and make them more attractive to other potential tenants. Consistent with our entire retail operating portfolio, our shopping centers are also generally recently constructed, which makes them more appealing to shoppers and potential tenants and reduces redevelopment and renovation costs. As of September 30, 2011, 66.1% of our shopping centers, based on annualized base rent, were located in the 50 largest MSAs. These shopping centers are positioned in highly attractive markets with favorable demographics, including a weighted average population of 92,939, expected population growth of 7.4% per year and household income of approximately \$83,412 within a three-mile radius, based on information derived and interpreted by us as a result of our own analysis from data provided by The Nielsen Company. We believe our shopping centers located in markets outside of the 50 largest MSAs are among the most attractive shopping centers in each of the markets in which they are located based on location, age and overall quality. As of September 30, 2011, approximately 89.1% of these shopping centers, based on annualized base rent, are anchored or shadow anchored by either Best Buy (13 locations), Target (11 locations), Home Depot (ten locations), Kohl s (ten locations), Wal-Mart (five locations), Lowe s (three locations), or a national or regional grocer, such as Publix (nine locations), Stop & Shop (three locations), Kroger (four locations) and Giant Foods (one locations).

Diversified Base of Value-Oriented Retail Tenants

Our retail portfolio has a broad and highly diversified tenant base that primarily consists of grocers, drug stores, discount retailers and other retailers that provide basic household goods or services. As of September 30, 2011, our total retail tenant base included approximately 1,500 tenants with over 3,100 leases at our retail properties, and our largest shopping center tenants include Best Buy, TJX Companies, Stop & Shop, Bed Bath & Beyond, Home Depot, PetSmart, Ross Dress for Less, Kohl s, Wal-Mart and Publix. As of September 30, 2011, no single retail tenant represented more than 3.3% of our retail annualized base rent, and our top 20 retail tenants, with 398 locations across our portfolio, represented an aggregate of 37.2% of our retail annualized base rent. Additionally, the financial strength of our tenants enhances the quality of our retail portfolio, as seven of our top ten retail tenants have investment grade credit ratings. We believe that maintaining a diversified tenant base with a value-oriented focus limits the impact of economic cycles and our exposure to any single tenant.

We generally have long-term leases with our tenants. As of September 30, 2011, the weighted average lease term of our existing retail leases, based on annualized base rent, was 6.2 years, with leases constituting less than

2

19.7% of our retail annualized base rent expiring before 2014. We believe the limited near-term expirations of our existing retail leases will allow us to more aggressively pursue leasing of space that is currently vacant and provide for more stable cash flows from operations.

Demonstrated Leasing and Property Management Platform

We believe that our national leasing platform overseen by our focused executive team dedicated to leasing provides us with a distinct competitive advantage. Our executive team applies a hands-on approach and capitalizes upon a network of relationships to aggressively lease-up vacant space, maintain high tenant retention rates and creatively address the needs of our retail properties. Since the beginning of 2009, we have demonstrated our leasing capabilities through our success in addressing 3.2 million square feet of vacant space in our portfolio created by the bankruptcies of Mervyns, Linens n Things and Circuit City in 2008. Primarily as a result of these vacancies, the percentage of our retail operating portfolio that was leased decreased from 96.8% as of December 31, 2007. However, as a result of our strong leasing platform, as of September 30, 2011, we have been able to lease approximately 2.1 million square feet of this vacant space, primarily to existing tenants, and in total we have leased, sold or are in negotiations for 2.6 million square feet, or 81.2%, of the 3.2 million square feet of GLA that was vacated as a result of these bankruptcies.

As a large, national owner of retail properties, we believe that we offer national and large regional grocers and retailers a greater level of service and credibility with respect to property management than our smaller competitors. We believe that tenants value our commitment to consistently maintain the high standards of our retail properties through our in-house handling of property management and day-to-day operational functions, which has translated into tenant retention rates of approximately 75%, based on expiring GLA, since the beginning of 2009.

Capital Structure Positioned for Growth

Upon completion of this offering, our aggregate indebtedness will consist primarily of fixed rate debt, which will have staggered maturities and a weighted average maturity of approximately—years based on balances as of September 30, 2011, as adjusted for our recently amended and restated credit agreement and the completion of this offering and the application of proceeds from both. We also will have a conservative leverage structure with less than \$\text{million}\$ million of debt maturing in any one year, a weighted average interest rate of \$\%\$ per annum and \$\text{million}\$ million of availability under our \$435.0 million senior secured line of credit. Overall, we believe our capital structure will provide us with significant financial flexibility to fund future growth.

Experienced Management Team with a Proven Track Record

Our senior management team has on average over 23 years of real estate industry experience through several real estate, credit and retail cycles. They have worked together for the past five years and have proven themselves by successfully managing our large, geographically diverse portfolio through the severe economic recession that began in December 2007. Since the beginning of 2009, without accessing the public equity markets, we refinanced or repaid \$3.2 billion of indebtedness, greater than 68% of our total indebtedness at the beginning of 2009, in severely constrained credit markets and in the process reduced our total indebtedness by over \$1.1 billion. Our senior management team also has significant transactional experience, having acquired, disposed of, contributed to joint ventures and developed billions of dollars of real estate throughout their careers. We believe that our senior management team s property management, leasing and operating expertise, combined with their acquisition and financing experience, provide us with a distinct competitive advantage.

3

Business and Growth Strategies

Our primary objective is to provide attractive risk-adjusted returns for our shareholders by increasing our cash flow from operations and realizing long-term growth strategies. The strategies we intend to execute to achieve this objective include:

Maximize Cash Flow Through Internal Growth

We believe that we will be able to generate cash flow growth through the leasing of vacant space in our retail operating portfolio. As of September 30, 2011, our retail operating portfolio was 88.6% leased, including leases signed but not commenced, and had 4.0 million square feet of available space, including a significant amount of space that was previously occupied by big box anchor and junior anchor tenants. As of September 30, 2011, we had approximately 820,000 square feet of GLA of signed leases that had not commenced, representing a total of approximately \$9.7 million of annualized base rent that will increase our future cash flows. We believe the leasing of our vacant space provides a significant growth opportunity for our shareholders, particularly in light of the expansion plans that have been announced by a number of our largest retail tenants. In addition, as of September 30, 2011, 42.1% of the leases in our retail operating portfolio, based on annualized base rent, contained contractual rent increases, which will increase future cash flows.

Asset Preservation and Appreciation through Creative Transactions

We actively manage our portfolio focusing primarily on leasing opportunities, while also taking into account redevelopment, expansion and remerchandising opportunities. In pursuing these opportunities, we focus on increasing operating income and cash flows, active risk mitigation and tenant retention. Additional value enhancing strategies include cost reductions, long-term capital planning and asset sustainability initiatives. Examples of how we execute these strategies include Azalea Square, where we divided space that was vacated by Linens n Things and re-leased it to two new tenants for an 11.7% increase in total annualized base rent for the space, and Tollgate Marketplace, where we were able to anticipate that an existing grocery store tenant would not renew its lease due to the expected opening of a new Wal-Mart Supercenter in the area and re-lease the vacated space within nine months to Ashley Furniture for more than double the base rent per square foot that the grocer had been paying.

Recycle Capital Through Disposition of Non-Core Assets

We plan to pursue opportunistic dispositions of the non-retail properties and free-standing triple net retail properties in our operating portfolio in order to redeploy capital to continue to build our interest in well located, high quality shopping centers. In addition to our retail operating portfolio, as of September 30, 2011, we held interests in 15 other operating properties, including 12 office properties and three industrial properties, which had a total of 4.7 million square feet of GLA and represent 9.7% of our total operating portfolio based on annualized base rent. We believe that the disposition of these non-retail properties, along with select triple net retail properties, will serve as a source of capital for the growth of our retail portfolio.

As we have in the past, we intend to take advantage of opportunities that may arise to sell assets in our portfolio. Since the end of 2007 through September 30, 2011, we sold 26 properties for an aggregate sales price of \$824.2 million, including \$509.5 million of debt that was assumed, forgiven or repaid. During this time, we reduced the GLA of our non-retail properties and single-user retail properties by 43.1%. We plan to continue to pursue strategic dispositions to continue to focus our portfolio on well located, high quality shopping centers.

4

Pursue Acquisitions of High Quality Retail Properties

We intend to pursue disciplined and targeted acquisitions of retail properties that meet our retail property and market selection criteria and will further our strategy of focusing on well located, high quality shopping centers. Utilizing our senior management team s expertise, we intend to opportunistically acquire retail properties based on identified market and property characteristics, including: property classification, anchor tenant type, lease terms, geographic markets and demographics. We believe that the high level of diversification of our tenant base limits our exposure to any single tenant and allows us to take advantage of growth opportunities through the expansion of our existing relationships without significantly increasing our exposure to any single tenant. We believe that over the next several years the continued impact of the recent disruption in the real estate market will create opportunities to acquire retail properties that meet our investment criteria from owners facing operational and financial stress. Based on our operational expertise and capital resources, we believe that we are well positioned to take advantage of opportunities to acquire retail properties. We plan to pursue acquisitions directly and through joint ventures.

Pursue Strategic Joint Ventures to Leverage Management Platform

We intend to leverage our leasing and property management platform through the strategic formation, capitalization and management of joint ventures. In the past, we have partnered with strong institutional capital providers to supplement our capital base in a manner accretive to our shareholders. For example, in September 2010, we formed a joint venture with a wholly-owned affiliate of RioCan Real Estate Investment Trust, Canada s largest REIT, or RioCan, and agreed to contribute eight shopping centers located in Texas to the joint venture. Based on our operational expertise in the retail real estate space, we believe that we are well positioned to continue to strategically pursue additional joint ventures with high quality capital partners. Additionally, from time to time, we may form partnerships with regional developers that allow us to maximize returns on completed developments and access strategic local markets.

Maintain Our Development Activity at Sustainable Levels

We entered into joint venture arrangements with certain developers prior to the recession. Since our inception, we have invested \$185.6 million of equity into nine development joint ventures. As of September 30, 2011, we had approximately 0.5 million square feet of GLA of retail space under development, including space developed for shadow anchors, through three consolidated development joint ventures and one unconsolidated development joint venture, of which 0.4 million square feet had already been constructed. Approximately 89.5% of the GLA of these retail development properties that has been constructed was leased as of September 30, 2011, representing \$1.0 million of annualized base rent. As of September 30, 2011, we did not have any significant active construction ongoing at our development properties, and, currently, we only intend to develop the remaining estimated total GLA to the extent that we have pre-leased the space to be developed. We expect to stabilize these properties between 2013 and 2014, which will provide further opportunities for growth. We currently do not have plans for any new developments. It remains our philosophy to only develop what we intend to own on a long term basis and we intend to resume development when such opportunities become attractive.

5

Our Properties

The following table sets forth summary information regarding our operating portfolio as of September 30, 2011. Dollars (other than per square foot information) and square feet of GLA are presented in thousands in the table.

Property Type/Region	Number of Properties	GLA	Percent of Total GLA ⁽¹⁾	Percent Leased ⁽²⁾	ABR ⁽³⁾	Percent of ABR ⁽¹⁾	Lea	BR Per ased Sq. Ft. ⁽⁴⁾
Consolidated:								
Retail:								
Northeast	72	8,788	25.2%	91.1%	\$ 118,146	27.8%	\$	14.75
Texas	49	6,957	20.0%	85.8%	92,779	21.8%		15.54

- (1) Percentages are only provided for our retail operating portfolio.
- (2) Except as otherwise noted, based on leases commenced as of September 30, 2011, and calculated as leased GLA divided by total GLA.
- (3) Excludes \$1.0 million of annualized base rent from our consolidated development properties. Rental abatements for leases commenced as of September 30, 2011, which are excluded, were \$0.3 million for our retail operating portfolio for the 12 months ending September 30, 2012. Annualized base rent does not reflect scheduled lease expirations for the 12 months ending September 30, 2012. The portion of the annualized base rent of our consolidated operating portfolio attributable to leases scheduled to expire during the 12 months ending September 30, 2012, including month-to-month leases, is approximately \$27.8 million.
- (4) Represents annualized base rent divided by leased GLA.
- (5) Includes (i) 55 properties with 6.5 million square feet of GLA representing \$83.9 million of annualized base rent held in one joint venture in which we have a 77% interest and (ii) a portion of one property with 0.3 million square feet of GLA representing \$6.4 million of annualized base rent held in one joint venture in which we have a 95% interest. Regarding the 55 properties held in the joint venture in which we have a 77% interest, we currently anticipate using a portion of the net proceeds from this offering to exercise our option to repurchase the 23% interest held by others. As a result, following this offering we anticipate that we will own 100% of those properties. Excludes two non-stabilized operating properties.
- (6) Includes leases signed but not commenced as of September 30, 2011 for approximately 820,000 square feet of GLA representing \$9.7 million of annualized base rent as of lease commencement.
- (7) Includes 18 properties with 3.4 million square feet of GLA representing \$48.2 million of annualized base rent held in two separate joint ventures in which we have a 20% interest and four properties with 0.2 million square feet of GLA representing \$1.5 million of annualized base rent held in one joint venture in which we have a 95.8% interest.

6

Industry Overview

Since bottoming in December 2009, the economy has evidenced consistent growth. Economic growth, measured by gross domestic product, or GDP, was steady through the first three quarters of 2010, driven by improvement in consumer spending as well as an increase in private investment. Looking forward, Rosen Consulting Group, or Rosen, believes that the pace of the economic recovery that began in 2010 will accelerate in 2011. Accordingly, Rosen expects GDP growth to improve, accelerating from an estimated annual growth rate of 2.2% in 2010 to 2.8% and 3.0% in 2011 and 2012, respectively.

Recent growth in employment and consumer confidence also suggests that the U.S. economy is progressing. Since December 2009, the economy has added more than 1.3 million jobs in the private sector. In addition, consumers at year-end 2010 were much more positive regarding future economic conditions than about their current situations, as evidenced by the consumer confidence index measured by The Conference Board. The expectations component of this index has dramatically increased from its recent low of 27.3 in February 2009 to 71.9 in December 2010. Further, real per capita disposable income growth, a key metric for the retail industry, increased 1.93% year-over-year in the third quarter, after a more modest 0.44% increase in 2009. Rosen expects this upward trend to continue, projecting real per capita disposable income growth to average 2.7% annually between 2011 and 2014, compared with an estimated 1.1% average annual increase between 2007 and 2010.

As employment and income growth accelerate, Rosen expects consumer confidence to increase accordingly, driving stronger retail sales growth. Retail sales continued to recover in 2010, increasing at an average annual rate of 6.6% each month. Although sales growth is unlikely to return to peak rates, Rosen believes that annual retail sales growth (including online sales made by brick and mortar retailers) will average 2.8% during the next four years, bringing total fourth-quarter sales to more than \$1 trillion in 2014, an increase of nearly \$70 billion from the fourth quarter of 2010. Rosen believes that the recession caused a lasting shift in consumer behavior, providing a boost to value-oriented grocers, discount retailers and other retailers that provide basic household goods or clothing. Therefore, Rosen expects sales at these grocers and retailers to remain strong going forward.

Even as the economy recovered, retail construction activity, as measured by the value of construction put-in-place, remained very low through the first three quarters of 2010 because of the high vacancy rate and a lack of available construction financing. In the third quarter of 2010, the value of put-in-place construction totaled a seasonally adjusted annual rate of \$18.2 billion, compared with fourth-quarter averages of \$43.7 billion between 2002 and 2008. Rosen forecasts the value of inflation-adjusted, put-in-place construction to fall from \$18.0 billion in 2010 to \$16.5 billion in 2011, approximately 65% less than the recent peak of \$46.8 billion in 2007.

As job growth and higher confidence levels boost consumer demand, Rosen expects retail market conditions to improve beginning in 2011. Rosen forecasts the national retail vacancy rate to fall slowly from 8.8% in 2011 to 8.0% in 2014. As demand rebounds, tenant competition for existing space is expected to increase because of the limited amount of new space becoming available.

Summary Risk Factors

An investment in shares of our Class A Common Stock involves various risks. You should consider carefully the risks discussed below and under the heading Risk Factors beginning on page 17 of this prospectus before purchasing our Class A Common Stock. If any of these risks occur, our business, prospects, financial condition, liquidity, results of operations and ability to make distributions to our shareholders could be materially and adversely affected. In that case, the trading price of our Class A Common Stock could decline and you could lose some or all of your investment.

7

Real estate investments are subject to various risks and fluctuations and cycles in value and demand, many of which are beyond our control. Our economic performance and the value of our properties can be affected by many of these factors, including, among others, the following:

adverse changes in financial conditions of buyers, sellers and tenants of our properties, including bankruptcies, financial difficulties, or lease defaults by our tenants;

the national, regional and local economy, which may be negatively impacted by concerns about inflation, deflation and government deficits, high unemployment rates, decreased consumer confidence, industry slowdowns, reduced corporate profits, liquidity concerns in our markets and other adverse business concerns;

local real estate conditions, such as an oversupply of, or a reduction in demand for, retail space or retail goods, and the availability and creditworthiness of current and prospective tenants;

vacancies or ability to rent space on favorable terms, including possible market pressures to offer tenants rent abatements, tenant improvements, early termination rights or below-market renewal options;

changes in operating costs and expenses, including, without limitation, increasing labor and material costs, insurance costs, energy prices, environmental restrictions, real estate taxes, and costs of compliance with laws, regulations and government policies, which we may be restricted from passing on to our tenants;

fluctuations in interest rates, which could adversely affect our ability, or the ability of buyers and tenants of properties, to obtain financing on favorable terms or at all; and

competition from other real estate investors with significant capital, including other real estate operating companies, publicly traded REITs and institutional investment funds.

We may be unable to complete acquisitions and even if acquisitions are completed, we may fail to successfully operate acquired properties.

We may be unable to sell a property at the time we desire and on favorable terms or at all, which could inhibit our ability to utilize our capital to make strategic acquisitions and could adversely affect our results of operations, financial condition and ability to make distributions to our shareholders.

We have experienced aggregate net losses attributable to Company shareholders for the nine months ended September 30, 2011 and the years ended December 31, 2010, 2009 and 2008, and we may experience future losses.

Our development and construction activities have inherent risks, which could adversely impact our results of operations and cash flow.

We had approximately \$3.5 billion of consolidated indebtedness outstanding as of September 30, 2011, which could adversely affect our financial health and operating flexibility.

We have a high concentration of properties in the Dallas-Fort Worth-Arlington area, and adverse economic and other developments in that area could have a material adverse effect on us.

Our financial condition and ability to make distributions to our shareholders could be adversely affected by financial and other covenants and other provisions under the credit agreement governing our senior secured revolving line of credit and secured term loan or other debt agreements.

We depend on external sources of capital that are outside of our control, which may affect our ability to seize strategic opportunities, satisfy our debt obligations and make distributions to our shareholders.

Certain provisions of Maryland law could inhibit changes in control of us, which could lower the value of our Class A Common Stock.

8

Failure to qualify as a REIT would cause us to be taxed as a regular corporation, which would substantially reduce funds available for distributions to our shareholders and materially and adversely affect our financial condition and results of operations.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities or to liquidate otherwise attractive investments.

Because we have a large number of shareholders and our shares have not been listed on a national securities exchange prior to this offering, there may be significant pent-up demand to sell our shares. Significant sales of our Class A Common Stock, or the perception that significant sales of such shares could occur, may cause the price of our Class A Common Stock to decline significantly.

Recapitalization

Prior to the completion of this offering, we intend to declare a stock dividend pursuant to which each then outstanding share of our common stock will receive:

one share of our Class B-1 Common Stock; plus

one share of our Class B-2 Common Stock; plus

one share of our Class B-3 Common Stock.

In connection with this stock dividend, we intend to redesignate our then outstanding common stock as Class A Common Stock. Prior to the declaration of the stock dividend, we intend to effectuate a to one reverse stock split of our common stock.

Subject to the provisions of our charter, shares of our Class B-1, B-2 and B-3 Common Stock will convert automatically into shares of our Class A Common Stock months following the Listing, months following the Listing and months following the Listing, respectively. In addition, if they have not otherwise converted, all shares of our Class B Common Stock will convert automatically into shares of our Class A Common Stock on the date that is months following the Listing.

Our Class B Common Stock will be identical to our Class A Common Stock except that (i) we do not intend to list our Class B Common Stock on a national securities exchange and (ii) shares of our Class B Common Stock will convert automatically into shares of our Class A Common Stock at specified times. The aggregate number of shares of our common stock outstanding (including all shares of our Class A and Class B Common Stock) immediately following the Recapitalization will be approximately million, all of which (except for certain shares described in Shares Eligible for Future Sale) will be freely tradable upon the completion of this offering except as otherwise provided in the restrictions on ownership and transfer of stock set forth in our charter. Of this amount, approximately million shares of our Class A Common Stock will be outstanding and approximately million shares of our Class B Common Stock, representing 75% of our total outstanding common stock, will be outstanding.

Distribution Policy

The Internal Revenue Code of 1986, as amended, or the Code, generally requires that a REIT distribute annually at least 90% of its REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains, and imposes tax on any taxable income retained by a REIT, including capital gains. To satisfy the requirements for qualification as a REIT and generally not be subject to U.S. federal income and excise tax, we intend to make regular quarterly distributions of all or substantially all of our REIT taxable income to holders of our common stock out of assets legally available for such purposes. Our future distributions will be at the sole discretion of our board of directors.

9

Our senior secured revolving line of credit and secured term loan limit our distributions to the greater of 95% of FFO as defined in the credit agreement (which equals FFO, as set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations Funds from Operations, excluding gains or losses from extraordinary items, impairments and other non-cash charges) or the amount necessary for us to maintain our qualification as a REIT. To the extent these limits prevent us from distributing 100% of our REIT taxable income, we will be subject to income tax, and potentially excise tax, on the retained amounts. If our operations do not generate sufficient cash flow to allow us to satisfy the REIT distribution requirements, we may be required to fund distributions from working capital, borrow funds, sell assets or reduce such distributions. Our distribution policy enables us to review the alternative funding sources available to us from time to time.

Our REIT Status

We have elected to be taxed as a REIT under Sections 856 through 860 of the Code. We believe that we have been organized, owned and operated in conformity with the requirements for qualification and taxation as a REIT under the Code beginning with our taxable year ended December 31, 2003, and that our intended manner of ownership and operation will enable us to continue to meet the requirements for qualification and taxation as a REIT for federal income tax purposes. To maintain our qualification as a REIT, we must meet a number of organizational and operational requirements, including a requirement that we annually distribute at least 90% of our REIT taxable income to our shareholders, determined without regard to the deduction for dividends paid and excluding net capital gains. As a REIT, we generally are not subject to U.S. federal income tax on the taxable income we currently distribute to our shareholders. If we fail to qualify as a REIT in any taxable year, we will be subject to U.S. federal income tax at regular corporate rates. Even if we qualify for taxation as a REIT, we may be subject to some U.S. federal, state and local taxes on our income or property, and the taxable income of our taxable REIT subsidiaries, or TRSs, will be subject to taxation at regular corporate rates.

Restrictions on Ownership of Our Common Stock

To assist us in complying with the limitations on the concentration of ownership of a REIT imposed by the Code, among other purposes, our charter generally prohibits, with certain exceptions, any shareholder from beneficially or constructively owning, applying certain attribution rules under the Code, more than 9.8% by value or number of shares, whichever is more restrictive, of the outstanding shares of our common stock, or 9.8% by value of the outstanding shares of our capital stock. Our board of directors may, in its sole discretion, waive (prospectively or retroactively) the 9.8% ownership limits with respect to a particular shareholder if it receives certain representations and undertakings required by our charter and is presented with evidence satisfactory to it that such ownership will not then or in the future cause us to fail to qualify as a REIT. See Description of Capital Stock Restrictions on Ownership and Transfer.

Certain Relationships and Related Transactions

The Inland Group and its affiliates were our initial sponsor, and Daniel L. Goodwin, who has not been one of our directors but beneficially owns approximately 5.1% of our common stock prior to this offering, Brenda G. Gujral, one of our current directors, and Robert D. Parks, one of our former directors, are significant shareholders and/or principals of the Inland Group and/or hold directorships and are executive officers of affiliates of the Inland Group.

We have ongoing agreements with affiliates of the Inland Group, including an office sublease for our corporate headquarters and various service agreements. With the exception of the sublease, the majority of these service agreements are non-exclusive and cancellable by providing not less than 180 days prior written notice and specifying the effective date of said termination. These service agreements are generally for administrative services. We primarily use these service agreements in situations where it is more efficient for us to obtain services from an outside party than it would be for us to obtain the dedicated internal resources necessary to

10

provide similar quality services. For the nine months ended September 30, 2011 and the year ended December 31, 2010, we paid a total of \$3.7 million and \$4.6 million, respectively, to Inland Group affiliates under these arrangements, of which \$2.3 million and \$2.6 million, respectively, were generally for the reimbursement of our portion of shared administrative costs and \$0.7 million \$0.9 million, respectively, were for amounts payable pursuant to our office sublease.

In addition, in 2009, in connection with a \$625 million debt refinancing transaction, we raised additional capital of \$50 million from an affiliate of the Inland Group in exchange for a 23% noncontrolling interest in a newly formed joint venture to which we contributed 55 of our properties. We currently anticipate using a portion of the net proceeds from this offering to exercise our option to repurchase this noncontrolling interest for , as a result of which we would again own 100% of these properties. In 2009, we also sold three single-user office buildings to Inland American Real Estate Trust, Inc., or IARETI, with an aggregate sales price of \$161.6 million, which resulted in net sales proceeds of \$52.6 million and a gain on sale of \$9.3 million. IARETI is externally managed by an affiliate of the Inland Group.

All related person transactions must be approved or ratified by a majority of the disinterested directors on our board of directors, and we continue to monitor our ongoing agreements with affiliates of the Inland Group to ensure that it is in the best interests of our shareholders to maintain these agreements. See Certain Relationships and Related Transactions.

Background and Corporate Information

We are a Maryland corporation formed in March 2003, and we have been publicly held and subject to Securities and Exchange Commission, or SEC, reporting obligations since the completion of our first public offering in 2003. We were initially sponsored by The Inland Group, Inc. and its affiliates, but we have not been affiliated with The Inland Group, Inc. since the internalization of our management in November 2007. Our principal executive office is located at 2901 Butterfield Road, Oak Brook, Illinois 60523, and our telephone number is (630) 218-8000. We maintain an internet website at www.inland-western.com that contains information concerning us. The information included or referenced to on, or otherwise accessible through, our website is not intended to form a part of or be incorporated by reference into this prospectus.

The Offering

Class A Common Stock offered by us shares (plus up to shares that we may issue if the underwriters exercise their overallotment option in full)

Common stock to be outstanding after this offering:

Class A Common Stock shares⁽¹⁾

Class B-1 Common Stock shares⁽²⁾

Class B-2 Common Stock shares⁽²⁾

Class B-3 Common Stock shares⁽²⁾

Conversion rights Subject to the provisions of our charter, shares of our Class B-1, B-2 and B-3 Common

Stock will convert automatically into shares of our Class A Common Stock months

following the Listing, months following the Listing and months following the

Listing, respectively.

Dividend rights Our Class A Common Stock and our Class B Common Stock will share equally in any

distributions authorized by our board of directors and declared by us.

Voting rights Each share of our Class A Common Stock and each share of our Class B Common Stock

will entitle its holder to one vote per share.

Use of proceeds We intend to use approximately \$\text{ million of net proceeds received from this offering}

to repay amounts outstanding under our senior secured revolving line of credit, \$ million of net proceeds to repurchase Inland Equity Investors, LLC s, or Inland Equity s, interest in IW JV 2009, LLC, or IW JV, and the remaining net proceeds for

general corporate and working capital purposes.

Proposed NYSE symbol We have applied to have our Class A Common Stock listed on the NYSE under the

symbol IWST .

(1) Excludes shares of Class A Common Stock issuable upon exercise of the underwriters overallotment option, shares of Class A Common Stock available for future issuance under our incentive award plans and underlying options granted under our incentive award plans as of December 9, 2011.

(2) Excludes shares of Class B-1, B-2, and B-3 Common Stock available for future issuance under our incentive award plans and shares of Class B-1, B-2 and B-3 Common Stock underlying options granted under our incentive awards plans as of December 9, 2011.

12

Summary Consolidated Financial and Operating Data

The summary consolidated financial data set forth below as of December 31, 2010 and 2009 and for the years ended December 31, 2010, 2009 and 2008 have been derived from our audited consolidated financial statements included elsewhere in this prospectus. The audited consolidated financial statements as of December 31, 2010 and 2009 and for the years ended December 31, 2010 and 2009 have been audited by Deloitte & Touche LLP, an independent registered public accounting firm. The audited consolidated financial statements for the year ended December 31, 2008 have been audited by KPMG LLP, an independent registered public accounting firm. The selected consolidated financial and operating data set forth below as of December 31, 2008 has been derived from our audited consolidated financial statements not included in this prospectus. The summary consolidated financial data set forth below as of September 30, 2011 and for the nine months ended September 30, 2011 and 2010 has been derived from our unaudited consolidated financial statements included elsewhere in this prospectus. The unaudited consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements and, in the opinion of our management, reflect all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of this data. The results of any interim period are not necessarily indicative of the results that may be expected for a full year. Certain amounts presented for the periods ended December 31, 2010, 2009 and 2008 have been reclassified to conform to our presentation of discontinued operations in our unaudited consolidated financial statements as of and for the nine months ended September 30, 2011 and 2010.

Because the information presented below is only a summary and does not provide all of the information contained in our historical consolidated financial statements, including the related notes, you should read it in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations and our historical consolidated financial statements, including the related notes, included elsewhere in this prospectus. The amounts in the table are dollars in thousands except for share and per share information. The share and per share information set forth below gives effect to the Recapitalization.

- (1) Presents historical information as of September 30, 2011 as adjusted to give effect to (i) additional amounts drawn through November 3, 2011 under our senior secured revolving line of credit (no additional amounts were drawn through December 9, 2011) and (ii) this offering and the use of the net proceeds from this offering as set forth in Use of Proceeds.
- (2) Total net debt to Adjusted EBITDA represents (i) our total debt less cash and cash equivalents divided by (ii) Adjusted EBITDA for the prior 12 months. Combined net debt to combined Adjusted EBITDA represents (i) the sum of (A) our total debt less cash and cash equivalents plus (B) our pro rata share of our investment property unconsolidated joint ventures total debt less our pro rata share of these joint ventures cash and cash equivalents divided by (ii) combined Adjusted EBITDA for the prior 12 months. These ratios are not presented as of December 31, 2008. For a reconciliation of total net debt to Adjusted EBITDA and combined net debt to combined Adjusted EBITDA and a statement disclosing the reasons why our management believes that presentation of these ratios provides useful information to investors and, to the extent material, any additional purposes for which our management uses these ratios, see Selected Consolidated Financial Operating Data.

- (3) Excludes two non-stabilized operating properties.
- (4) For a definition and reconciliation of funds from operations, or FFO, and a statement disclosing the reasons why our management believes that presentation of FFO provides useful information to investors and, to the extent material, any additional purposes for which our management uses FFO, see Management s Discussion and Analysis of Financial Condition and Results of Operations Funds from Operations.
- (5) Total net operating income, or NOI, represents operating revenues (rental income, tenant recovery income, other property income, excluding straight-line rental income and amortization of acquired above and below market lease intangibles) less property operating expenses (real estate tax expense and property operating expense, excluding straight-line ground rent expense and straight-line bad debt expense). Combined net operating income, or combined NOI, represents NOI plus our pro rata share of NOI from our investment property unconsolidated joint ventures. For a reconciliation of total net operating income, or NOI, and a statement disclosing the reasons why our management believes that presentation of NOI provides useful information to investors and, to the extent material, any additional purposes for which our management uses NOI, which is also applicable to combined NOI, see Management s Discussion and Analysis of Financial Condition and Results of Operations Results of Operations. For a reconciliation of combined NOI, see Selected Consolidated Financial Operating Data.
- (6) Adjusted EBITDA represents net income (loss) before interest, income taxes, depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. Combined Adjusted EBITDA represents Adjusted EBITDA plus our pro rata share of the EBITDA adjustments from our investment property unconsolidated joint ventures. Adjusted EBITDA and combined Adjusted EBITDA are not presented as of December 31, 2008. For a reconciliation of Adjusted EBITDA and combined Adjusted EBITDA and a statement disclosing the reasons why our management believes that presentation of Adjusted EBITDA and combined Adjusted EBITDA provides useful information to investors and, to the extent material, any additional purposes for which our management uses Adjusted EBITDA and combined Adjusted EBITDA, see Selected Consolidated Financial Operating Data.
- (7) Includes the distribution for the third quarter of 2011 of \$0.06 per share declared on October 3, 2011.

16

RISK FACTORS

An investment in our Class A Common Stock involves a high degree of risk. Before making an investment decision, you should carefully consider the following risk factors, which address the material risks concerning our business and an investment in our Class A Common Stock, together with the other information contained in this prospectus. If any of the risks discussed in this prospectus occur, our business, prospects, financial condition, results of operations and our ability to make distributions to our shareholders could be materially and adversely affected. In that case, the trading price of our Class A Common Stock could decline significantly and you could lose all or a part of your investment. Some statements in this prospectus, including statements in the following risk factors constitute forward-looking statements. Please refer to the section entitled Forward-Looking Statements.

RISKS RELATING TO OUR BUSINESS AND OUR PROPERTIES

There are inherent risks associated with real estate investments and with the real estate industry, each of which could have an adverse impact on our economic performance and the value of our retail properties.

Real estate investments are subject to various risks and fluctuations and cycles in value and demand, many of which are beyond our control. Our economic performance and the value of our properties can be affected by many of these factors, including the following:

adverse changes in financial conditions of buyers, sellers and tenants of our properties, including bankruptcies, financial difficulties, or lease defaults by our tenants;

the national, regional and local economy, which may be negatively impacted by concerns about inflation, deflation and government deficits, high unemployment rates, decreased consumer confidence, industry slowdowns, reduced corporate profits, liquidity concerns in our markets and other adverse business concerns;

local real estate conditions, such as an oversupply of, or a reduction in demand for, retail space or retail goods, and the availability and creditworthiness of current and prospective tenants;

vacancies or ability to rent space on favorable terms, including possible market pressures to offer tenants rent abatements, tenant improvements, early termination rights or below-market renewal options;

changes in operating costs and expenses, including, without limitation, increasing labor and material costs, insurance costs, energy prices, environmental restrictions, real estate taxes, and costs of compliance with laws, regulations and government policies, which we may be restricted from passing on to our tenants;

fluctuations in interest rates, which could adversely affect our ability, or the ability of buyers and tenants of properties, to obtain financing on favorable terms or at all;

competition from other real estate investors with significant capital, including other real estate operating companies, publicly traded REITs and institutional investment funds;

the convenience and quality of competing retail properties and other retailing options such as the Internet;

perceptions by retailers or shoppers of the safety, convenience and attractiveness of the retail property;
inability to collect rent from tenants;
our ability to secure adequate insurance;
our ability to provide adequate management services and to maintain our properties;

17

changes in, and changes in enforcement of, laws, regulations and governmental policies, including, without limitation, health, safety, environmental, zoning and tax laws, government fiscal policies and the Americans with Disabilities Act of 1990, or the ADA; and

civil unrest, acts of war, terrorist attacks and natural disasters, including earthquakes and floods, which may result in uninsured and underinsured losses.

In addition, because the yields available from equity investments in real estate depend in large part on the amount of rental income earned, as well as property operating expenses and other costs incurred, a period of economic slowdown or recession, declining demand for real estate, or the public perception that any of these events may occur, could result in a general decline in rents or an increased incidence of defaults among our existing leases, and, consequently, our properties, including those held by joint ventures, may fail to generate revenues sufficient to meet operating, debt service and other expenses. As a result, we may have to borrow amounts to cover fixed costs, and our financial condition, results of operations, cash flow, per share trading price of our Class A Common Stock and our ability to satisfy our principal and interest obligations and to make distributions to our shareholders may be adversely affected.

Continued economic weakness from the severe economic recession that the U.S. economy recently experienced may materially and adversely affect our financial condition and results of operations.

The U.S. economy is still experiencing weakness from the severe recession that it recently experienced, which resulted in increased unemployment, the bankruptcy or weakened financial condition of a number of large retailers, decreased consumer spending, a decline in residential and commercial property values and reduced demand and rental rates for retail space. Although the U.S. economy has emerged from the recent recession, high levels of unemployment have persisted, and rental rates and valuations for retail space have not fully recovered to pre-recession levels and may not for a number of years. If the economic recovery slows or stalls, we may continue to experience downward pressure on the rental rates we are able to charge as leases signed prior to the recession expire, and tenants may declare bankruptcy, announce store closings or fail to meet their lease obligations, any of which could adversely affect our cash flow, financial condition and results of operations.

Substantial international, national and local government spending and increasing deficits may adversely impact our business, financial condition and results of operations.

The values of, and the cash flows from, the properties we own are affected by developments in global, national and local economies. As a result of the recent severe recession and the significant government interventions, federal, state and local governments have incurred record deficits and assumed or guaranteed liabilities of private financial institutions or other private entities. These increased budget deficits and the weakened financial condition of federal, state and local governments may lead to reduced governmental spending, tax increases, public sector job losses, increased interest rates, currency devaluations or other adverse economic events, which may directly or indirectly adversely affect our business, financial condition and results of operations.

We face significant competition in the leasing market, which may decrease or prevent increases in the occupancy and rental rates of our properties.

We have acquired and intend to continue to acquire properties located in developed areas. Consequently, we compete with numerous developers, owners and operators of retail properties, many of which own properties similar to, and in the same market areas as, our properties. If our competitors offer space at rental rates below current market rates, or below the rental rates we currently charge our tenants, we may lose existing or potential tenants and we may be pressured to reduce our rental rates below those we currently charge in order to attract new tenants and retain existing tenants when their leases expire. Also, if our competitors develop additional retail properties in locations near our properties, there may be increased competition for customer traffic and creditworthy tenants, which may result in fewer tenants or decreased cash flow from tenants, or both, and may

18

require us to make capital improvements to properties that we would not have otherwise made. As a result, our financial condition and our ability to make distributions to our shareholders may be adversely affected.

We may be required to make rent or other concessions and/or significant capital expenditures to improve our properties in order to retain and attract tenants, which could adversely affect our financial condition, results of operations and cash flow.

To the extent adverse economic conditions continue in the real estate market and demand for retail space remains low, we may be required to offer more substantial rent abatements, tenant improvements and early termination rights or accommodate requests for renovations, build-to-suit remodeling and other improvements or provide additional services to our tenants. As a result, we may have to make significant capital or other expenditures in order to retain tenants whose leases expire and to attract new tenants in sufficient numbers, which could adversely affect our results of operations and cash flow. Additionally, if we need to raise capital to make such expenditures and are unable to do so, or such capital is otherwise unavailable, we may be unable to make the required expenditures. This could result in non-renewals by tenants upon expiration of their leases, which could adversely affect to our financial condition, results of operations and cash flow.

The actual rents we receive for the properties in our portfolio may be less than our asking rents, and we may experience a lease roll-down from time to time, which may adversely affect our financial condition, results of operations and cash flow.

Our operating results depend upon our ability to maintain and increase rental rates at our properties while also maintaining or increasing occupancy. As a result of various factors, including competitive pricing pressure in our markets, the recent severe recession and the desirability of our properties compared to other properties in our markets, the rental rates that we charge tenants have generally declined and our ability to maintain our current rental rates or increase those rates in the future may be limited. Further, because current rental rates have declined as compared to expiring leases in our portfolio, the rental rates for expiring leases may be higher than starting rental rates for new leases and we may be required to offer greater rental concessions than we have historically. The degree of discrepancy between our previous asking rents and the actual rents we are able to obtain upon the expiration of our leases may vary both from property to property and among different leased spaces within a single property. If we are unable to obtain sufficient rental rates across our portfolio, our results of operations and cash flow and our ability to satisfy our debt obligations and make distributions to our shareholders will be adversely affected.

We have experienced aggregate net losses attributable to Company shareholders for the nine months ended September 30, 2011 and for the years ended December 31, 2010, 2009 and 2008, and we may experience future losses.

We had net losses attributable to Company shareholders of approximately \$58.8 million, \$95.8 million, \$112.3 million and \$683.7 million for the nine months ended September 30, 2011 and for the years ended December 31, 2010, 2009 and 2008, respectively. If we continue to incur net losses in the future or such losses increase, our financial condition, results of operations, cash flow and our ability to service our indebtedness and make distributions to our shareholders would be materially and adversely affected, any of which could adversely affect the market price of our Class A Common Stock.

We have a high concentration of properties in the Dallas-Fort Worth-Arlington area, and adverse economic and other developments in that area could have a material adverse effect on us.

As of September 30, 2011, approximately 11.3% of the GLA and approximately 14.5% of the annualized base rent from our retail operating portfolio were represented by properties located in the Dallas-Fort Worth-Arlington area. As a result, we are particularly susceptible to adverse economic and other developments in this area, including increased unemployment, industry slowdowns, business layoffs or downsizing, decreased consumer confidence, relocations of businesses, changes in demographics, increases in real estate and other taxes, increased regulation, and natural disasters, any of which could have a material adverse effect on us.

19

Our inability to collect rents from tenants may negatively impact our financial condition and our ability to make distributions to our shareholders.

Substantially all of our income is derived from rentals of real property. Therefore, our financial condition, results of operations and cash flow materially depend on the financial stability of our tenants, any of which may experience a change in their business at any time, and our ability to continue to lease space in our properties on economically favorable terms. If the sales of stores operating in our centers decline sufficiently, tenants might be unable to pay their existing minimum rents or expense recovery charges, since these rents and charges would represent a higher percentage of their sales, and new tenants might be less willing to pay minimum rents as high as they would otherwise pay. Further, tenants may delay lease commencements, decline to extend or renew a lease upon its expiration or on favorable terms, or exercise early termination rights (to the extent available). If a number of our tenants are unable to make their rental payments to us and otherwise meet their lease obligations, our ability to meet debt and other financial obligations and to make distributions to our shareholders may be adversely affected.

We may be unable to renew leases, lease vacant space or re-let space as leases expire, which could adversely affect our financial condition and results of operations.

We cannot assure you that leases will be renewed or that our properties will be re-let at net effective rental rates equal to or above the current average net effective rental rates or that substantial rent abatements, tenant improvements, early termination rights or below-market renewal options will not be offered to attract new tenants or retain existing tenants. If the rental rates for our properties decrease, our existing tenants do not renew their leases or we do not re-let a significant portion of our available space and space for which leases will expire, our financial condition, results of operations, cash flow, cash available for distributions and per share trading price of our Class A Common Stock could be adversely affected.

If any of our anchor tenants experience a downturn in their business or terminate their leases, our financial condition and results of operations could be adversely affected.

Our financial condition and results of operations could be adversely affected in the event of a downturn in the business, or the bankruptcy or insolvency, of any anchor store or anchor tenant, particularly an anchor tenant with multiple store locations. Anchor tenants generally occupy large amounts of square footage, pay a significant portion of the total rents at a property and contribute to the success of other tenants by drawing significant numbers of customers to a property. The closing of one or more anchor stores at a property could adversely affect that property and result in lease terminations by, or reductions in rent from, other tenants whose leases permit termination or rent reduction in those circumstances or whose own operations may suffer as a result of the anchor store closing. For example, in 2008 and 2009, three of our anchor tenants, Mervyns, Linens n Things and Circuit City, declared bankruptcy, resulting in approximately 3.2 million square feet of vacant retail space and a decrease in rental income of approximately \$34.8 million. Additional bankruptcies or insolvencies of, or store closings by, our anchor tenants could significantly increase vacancies and reduce our rental income. If we are unable to re-let such space on similar terms and in a timely manner, our financial condition, results of operations and ability to make distributions to our shareholders could be materially and adversely affected.

Many of the leases at our retail properties contain co-tenancy or go-dark provisions, which, if triggered, may allow tenants to pay reduced rent, cease operations or terminate their leases, any of which could adversely affect our financial condition and results of operations and/or the value of the applicable property.

Many of the leases at our retail properties contain co-tenancy provisions that condition a tenant s obligation to remain open, the amount of rent payable by the tenant or the tenant s obligation to continue occupancy on certain conditions, including: (i) the presence of a certain anchor tenant or tenants; (ii) the continued operation of an anchor tenant s store; and (iii) minimum occupancy levels at the applicable property. If a co-tenancy provision is triggered by a failure of any of these or other applicable conditions, a tenant could have the right to cease operations at the applicable property, terminate its lease early or have its rent reduced. In

20

periods of prolonged economic decline such as the recent recession, there is a higher than normal risk that co-tenancy provisions will be triggered due to the higher risk of tenants closing stores or terminating leases during these periods. For example, the effects of recent tenant bankruptcies triggered some co-tenancy clauses in certain other tenant leases, which provided certain of these tenants with immediate reductions in their annual rents and permitted them to terminate their leases if an appropriate replacement was not found within the allotted time period. In addition to these co-tenancy provisions, certain of the leases at our retail properties contain go-dark provisions that allow the tenant to cease operations at the applicable property while continuing to pay rent. This could result in decreased customer traffic at the applicable property, thereby decreasing sales for our other tenants at that property, which may result in our other tenants being unable to pay their minimum rents or expense recovery charges. These provisions also may result in lower rental revenue generated under the applicable leases. To the extent co-tenancy or go-dark provisions in our retail leases result in lower revenue or tenant sales or in tenants—rights to terminate their leases early or to have their rent reduced, our financial condition and results of operations and the value of the applicable property could be adversely affected.

We may be unable to collect balances due on our leases from any tenants in bankruptcy, which could adversely affect our cash flow and the amount of cash available for distribution to our shareholders.

Our leases generally do not contain provisions designed to ensure the creditworthiness of the tenant, and a number of companies in the retail industry, including some of our tenants, have declared bankruptcy or voluntarily closed certain of their stores in recent years. We cannot assure you that any tenant that files for bankruptcy protection will continue to pay us rent. Any or all of the tenant s or a guarantor of a tenant s lease obligations could be subject to a bankruptcy proceeding pursuant to Chapter 11 or Chapter 7 of the bankruptcy laws of the United States. Such a bankruptcy filing would bar all efforts by us to collect pre-bankruptcy rents from these entities or their properties, unless we receive an order from the bankruptcy court permitting us to do so. A tenant or lease guarantor bankruptcy could delay our efforts to collect past due balances under the relevant leases, and could ultimately preclude collection of these sums. If a lease is rejected by a tenant in bankruptcy, we would only have a general unsecured claim for damages. This claim could be paid only in the event funds were available, and then only in the same percentage as that realized on other unsecured claims, and our claim would be capped at the rent reserved under the lease, without acceleration, for the greater of one year or 15% of the remaining term of the lease, but not greater than three years, plus rent already due but unpaid. Therefore, if a lease is rejected, it is unlikely we would receive any payments from the tenant, or we would receive substantially less than the full value of any unsecured claims we hold, which would result in a reduction in our rental income, cash flow and in the amount of cash available for distribution to our shareholders. In particular, on February 16, 2011, Borders Group, Inc., or Borders, a national retailer, filed for bankruptcy under Chapter 11 and, on July 18, 2011, Borders announced that it was seeking approval for the liquidation of its remaining store assets, which was approved on July 21, 2011. As of December 31, 2010, Borders leased approximately 220,000 square feet of space from us at ten locations, which leases represented \$2.6 million of annualized base rent. Subsequently, Borders has closed stores at all ten locations where it leased space

Our expenses may remain constant or increase, even if income from our properties decreases, causing our financial condition and results of operations to be adversely affected.

Costs associated with our business, such as mortgage payments, real estate and personal taxes, insurance, utilities and corporate expenses, are relatively inflexible and generally do not decrease, and may increase, when a property is not fully occupied, rental rates decrease, a tenant fails to pay rent or other circumstances cause our revenues to decrease. If we are unable to decrease our operating costs when our revenue declines, our financial condition, results of operations and ability to make distributions to our shareholders may be adversely affected. In addition, inflationary price increases could result in increased operating costs for us and our tenants and, to the extent we are unable to pass along those price increases or are unable to recover operating expenses from tenants, our operating expenses may increase, which could adversely affect our financial condition, results of operations and ability to make distributions to our shareholders.

21

Real estate related taxes may increase and if these increases are not passed on to tenants, our net income will be reduced.

Even if we qualify as a REIT for U.S. federal income tax purposes, we will be required to pay state and local taxes on our properties. The real property taxes may increase as property values or assessment rates change or as our properties are assessed or reassessed by taxing authorities. An increase in the assessed valuation of a property for real estate tax purposes will result in an increase in the related real estate taxes on that property. Although some leases may permit us to pass through such tax increases to our tenants, there is no assurance that renewal leases or future leases will be negotiated on the same basis. If our property taxes increase and we are unable to pass those increases through to our tenants, our net income and cash available for distribution to our shareholders could be adversely affected.

We may be unable to complete acquisitions and, even if acquisitions are completed, we may fail to successfully operate acquired properties.

We continue to evaluate the market of available properties and may acquire properties when we believe strategic opportunities exist. Our ability to acquire properties on favorable terms and successfully operate or develop them is subject to the following risks:

we may be unable to acquire a desired property because of competition from other real estate investors with substantial capital, including from publicly traded REITs and institutional investment funds;

even if we are able to acquire a desired property, competition from other potential acquirers may significantly increase the purchase price;

even if we enter into agreements for the acquisition of properties, these agreements are subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction;

we may incur significant costs and divert management attention in connection with evaluation and negotiation of potential acquisitions, including ones that we are subsequently unable to complete;

we may acquire properties that are not initially accretive to our results upon acquisition, and we may not successfully manage and lease those properties to meet our expectations;

we may be unable to finance the acquisition on favorable terms in the time period we desire, or at all;

even if we are able to finance the acquisition, our cash flow may be insufficient to meet our required principal and interest payments;

we may spend more than budgeted to make necessary improvements or renovations to acquired properties;

we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisition of portfolios of properties, into our existing operations, and as a result our results of operations and financial condition could be adversely affected;

market conditions may result in higher than expected vacancy rates and lower than expected rental rates; and

we may acquire properties subject to liabilities and without any recourse, or with only limited recourse, with respect to unknown liabilities for clean-up of undisclosed environmental contamination, claims by tenants or other persons dealing with former owners of the properties and claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the properties.

If we cannot finance property acquisitions in a timely manner and on favorable terms, or operate acquired properties to meet our financial expectations, our financial condition, results of operations, cash flow, per share trading price of our Class A Common Stock and ability to satisfy our principal and interest obligations and to make distributions to our shareholders could be adversely affected.

22

We depend on external sources of capital that are outside of our control, which may affect our ability to seize strategic opportunities, satisfy our debt obligations and make distributions to our shareholders.

In order to maintain our qualification as a REIT, we are generally required under the Code to annually distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain. In addition, as a REIT, we will be subject to income tax at regular corporate rates to the extent that we distribute less than 100% of our REIT taxable income, including any net capital gains. Because of these distribution requirements, we may not be able to fund future capital needs, including any necessary acquisition financing, from operating cash flow. Consequently, we may rely on third-party sources to fund our capital needs. We may not be able to obtain the financing on favorable terms, in the time period we desire, or at all. Any additional debt we incur will increase our leverage, expose us to the risk of default and may impose operating restrictions on us, and any additional equity we raise could be dilutive to existing shareholders. Our access to third-party sources of capital depends, in part, on:

general market conditions;
the market s view of the quality of our assets;
the market s perception of our growth potential;
our current debt levels;
our current and expected future earnings;
our cash flow and cash distributions; and
the market price per share of our Class A Common Stock.

If we cannot obtain capital from third-party sources, we may not be able to acquire or develop properties when strategic opportunities exist, satisfy our principal and interest obligations or make the cash distributions to our shareholders necessary to maintain our qualification as a REIT.

We may be unable to sell a property at the time we desire and on favorable terms or at all, which could inhibit our ability to utilize our capital to make strategic acquisitions and could adversely affect our results of operations, financial condition and ability to make distributions to our shareholders.

Real estate investments generally cannot be sold quickly. Our ability to dispose of properties on advantageous terms depends on factors beyond on our control, including competition from other sellers and the availability of attractive financing for potential buyers of our properties, and we cannot predict the various market conditions affecting real estate investments that will exist at any particular time in the future. In addition, the Code generally imposes a 100% tax on gain recognized by REITs upon the disposition of assets if the assets are held primarily for sale in the ordinary course of business, rather than for investment, which may cause us to forego or defer sales of properties that otherwise would be attractive from a pre-tax perspective. As a result of such tax laws and the uncertainty of market conditions, our ability to promptly make changes to our portfolio as necessary to respond to economic and other conditions may be limited, and we cannot provide any assurance that we will be able to sell such properties at a profit, or at all. Accordingly, our ability to access capital through dispositions may be limited which could limit our ability to acquire properties strategically and pay down indebtedness and would limit our ability to make distributions to our shareholders.

In addition, certain of our leases contain provisions giving the tenant a right to purchase the property, which can take the form of a fixed price purchase option, a fair market value purchase option, a put option, a right of first refusal or a right of first offer. When acquiring a property in the future, we may also agree to restrictions that prohibit the sale of that property for period of time or impose other restrictions, such as a limitation on the amount of debt that can be placed or repaid on that property. These provisions may restrict our ability to sell a property at opportune times

or on favorable terms and, as a result, may adversely impact our cash flows and results of operations.

23

Furthermore, we may be required to expend funds to correct defects or to make improvements before a property can be sold. We cannot assure our shareholders that we will have funds available to correct such defects or to make such improvements and, therefore, we may be unable to sell the asset or may have to sell it at a reduced cost.

Joint venture investments could be adversely affected by our lack of sole decision-making authority, our reliance on co-venturers financial condition and disputes between us and our co-venturers.

We have made and may continue to make investments in joint ventures or other partnership arrangements between us and our joint venture partners. As o
