ITT EDUCATIONAL SERVICES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2012

(Dollars in thousands, except per share data and unless otherwise stated)

1. The Company and Basis of Presentation

We are a leading proprietary provider of postsecondary degree programs in the United States based on revenue and student enrollment. As of March 31, 2012, we were offering master, bachelor and associate degree programs to approximately 71,000 students at ITT Technical Institute and Daniel Webster College locations. In addition, we offered one or more of our online programs to students who are located in 48 states. As of March 31, 2012, we had 148 college locations (including 145 campuses and three learning sites) in 39 states. All of our college locations are authorized by the applicable education authorities of the states in which they operate and are accredited by an accrediting commission recognized by the U.S. Department of Education (ED). We have provided career-oriented education programs since 1969 under the ITT Technical Institute name and since June 2009 under the Daniel Webster College name. Our corporate headquarters are located in Carmel, Indiana.

The accompanying unaudited condensed consolidated financial statements include our wholly-owned subsidiaries accounts and have been prepared in accordance with generally accepted accounting principles in the United States of America for interim periods and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC). Certain information and footnote disclosures, including significant accounting policies, normally included in a complete presentation of financial statements prepared in accordance with those principles, rules and regulations have been omitted. The Condensed Consolidated Balance Sheet as of December 31, 2011 was derived from audited financial statements but, as presented in this report, may not include all disclosures required by accounting principles generally accepted in the United States. Arrangements where we may have a variable interest in another party are evaluated in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC or Codification) 810, Consolidation (ASC 810), to determine whether we would be required to include the financial results of the other party in our consolidated financial statements. Based on our most recent evaluation, we were not required to include the financial results of any variable interest entity in our condensed consolidated financial statements. See Note 8 Variable Interests, for additional discussion of our variable interests.

In the opinion of our management, the financial statements contain all adjustments necessary to fairly state our financial condition and results of operations. The interim financial information should be read in conjunction with the audited consolidated financial statements and notes thereto contained in our Annual Report on Form 10-K as filed with the SEC for the year ended December 31, 2011.

2. New Accounting Guidance

In December 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-12, which is included in the Codification under ASC 220, Comprehensive Income (ASC 220). This update defers the effective date of ASU No. 2011-05 for changes that relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. None of the other requirements in ASU 2011-05 are affected by this update. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

Also in December 2011, the FASB issued ASU No. 2011-11, which is included in the Codification under ASC 210, Balance Sheet (ASC 210). This update provides for enhanced disclosures to help users of financial statements evaluate the effect or potential effect of netting arrangements on an entity s financial position. This guidance is effective for interim and annual reporting periods beginning January 1, 2013. We have not yet determined the effect that the adoption of this guidance will have on our condensed consolidated financial statements.

In September 2011, the FASB issued ASU No. 2011-08, which is included in the Codification under ASC 350, Intangibles Goodwill and Other (ASC 350). This update allows an entity to assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, which is included in the Codification under ASC 220. This update requires total comprehensive income, the components of net income and the components of other comprehensive income to be presented either in a single continuous statement or in two separate but consecutive statements. This guidance became effective for our interim and annual reporting periods

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

beginning January 1, 2012. Prior to January 1, 2012, we presented total Comprehensive income and the components of Other comprehensive income in our Condensed Consolidated Statements of Shareholders' Equity. After December 31, 2011, we present total Comprehensive income and the components of Other comprehensive income in our Condensed Consolidated Statements of Comprehensive Income.

In May 2011, the FASB issued ASU No. 2011-04, which is included in the Codification under ASC 820, Fair Value Measurements (ASC 820). This update provides guidance and clarification about the application of existing fair value measurements and disclosure requirements. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

- 7 -

Table of Contents**3. Fair Value**

Fair value for financial reporting is defined as the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date. The fair value measurement of our financial assets utilized assumptions categorized as observable inputs under the accounting guidance. Observable inputs are assumptions based on independent market data sources.

The following table sets forth information regarding the fair value measurement of our financial assets as of March 31, 2012:

Description	As of March 31, 2012	Fair Value Measurements at Reporting Date Using		
		(Level 1) Quoted Prices in Active Markets for Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs
Cash equivalents:				
Money market funds	\$175,769	\$175,769	\$0	\$0
Short-term investments:				
U.S. Treasury obligations	80,445	80,445	0	0
Government agency obligations	17,022	0	17,022	0
Corporate obligations	17,339	0	17,339	0
Other assets:				
Money market fund	8,619	8,619	0	0
	\$299,194	\$264,833	\$34,361	\$0

We used quoted prices in active markets for identical assets as of the measurement date to value our financial assets that were categorized as Level 1. For assets that were categorized as Level 2, we used:

- quoted prices for similar assets in active markets;
- quoted prices for identical or similar assets in markets that were not active or in which little public information had been released;
- inputs other than quoted prices that were observable for the assets; or
- inputs that were principally derived from or corroborated by observable market data by correlation or other means.

The carrying amounts for cash and cash equivalents, restricted cash, accounts receivable, accounts payable, other current liabilities and deferred revenue approximate fair value because of the immediate or short-term maturity of these financial instruments. Investments classified as available-for-sale are recorded at their market value.

The fair value of the notes receivable included in Other assets on our Condensed Consolidated Balance Sheet as of March 31, 2012 is estimated by discounting the future cash flows using current rates for similar arrangements. As of March 31, 2012, each of the carrying value and the estimated fair value of these financial instruments was approximately \$19,000.

The fair value of our long-term debt is estimated by discounting the future cash flows using current rates for similar loans with similar characteristics and remaining maturities. As of March 31, 2012, each of the carrying value and the estimated fair value of our long-term debt was approximately \$175,000.

4. Equity Compensation

The stock-based compensation expense and related income tax benefit recognized in our Condensed Consolidated Statements of Income in the periods indicated were as follows:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

Three Months Ended

March 31,

2012 2011

Stock-based compensation expense	\$4,483	\$3,914
----------------------------------	---------	---------

Income tax (benefit)	(\$1,726)	(\$1,507)
----------------------	-----------	-----------

We did not capitalize any stock-based compensation cost in the three months ended March 31, 2012 or 2011.

As of March 31, 2012, we estimated that pre-tax compensation expense for unvested stock-based compensation grants in the amount of approximately \$33,900 net of estimated forfeitures, will be recognized in future periods. This expense will be recognized over the remaining service period applicable to the grantees which, on a weighted-average basis, is approximately 2.4 years.

- 8 -

Table of Contents

The stock options granted, forfeited, exercised and expired in the period indicated were as follows:

	# of Shares	Three Months Ended March 31, 2012			
		Weighted Average Exercise Price	Aggregate Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value ⁽¹⁾
Outstanding at beginning of period	1,765,881	\$79.24	\$139,922		
Granted	156,500	\$75.16	11,763		
Forfeited	0	\$0	0		
Exercised	(104,054)	\$44.86	(4,668)		
Expired	(1,734)	\$17.25	(30)		
Outstanding at end of period	1,816,593	\$80.91	\$146,987	3.7	\$11,047
Exercisable at end of period	1,452,086	\$80.10	\$116,310	3.1	\$11,047

- (1) The aggregate intrinsic value of the stock options was calculated by identifying those stock options that had a lower exercise price than the closing market price of our common stock on March 30, 2012 and multiplying the difference between the closing market price of our common stock and the exercise price of each of those stock options by the number of shares subject to those stock options that were outstanding or exercisable, as applicable.

The following table sets forth information regarding the stock options granted and exercised in the periods indicated:

	Three Months Ended March 31,	
	2012	2011
Shares subject to stock options granted	156,500	159,500
Weighted average grant date fair value per share	\$31.36	\$28.90
Shares subject to stock options exercised	104,054	60,530
Intrinsic value of stock options exercised	\$2,489	\$911
Proceeds received from stock options exercised	\$4,668	\$3,028
Tax benefits realized from stock options exercised	\$864	\$351

The intrinsic value of a stock option is the difference between the fair market value of the stock and the option exercise price.

The fair value of each stock option grant was estimated on the date of grant using the following assumptions:

	Three Months Ended March 31,	
	2012	2011
Risk-free interest rates	0.7%	1.8%
Expected lives (in years)	4.5	4.7
Volatility	51%	48%
Dividend yield	None	None

The following table sets forth the number of restricted stock units (RSUs) that were granted, forfeited and vested in the period indicated:

	Three Months Ended March 31, 2012	Weighted Average Grant Date Fair Value
	# of RSUs	Fair Value
Unvested at beginning of period	314,006	\$79.44
Granted	257,694	\$75.12
Forfeited	(5,191)	\$76.56
Vested	(90,149)	\$81.12
Unvested at end of period	476,360	\$76.81

In the three months ended March 31, 2012:

48,935 RSUs vested and were settled in cash for \$3,073; and
41,214 RSUs vested and were settled in shares of our common stock having a fair market value of \$2,754.

Table of Contents**5. Stock Repurchases**

As of March 31, 2012, 3,699,525 shares remained available for repurchase under the share repurchase program (the Repurchase Program) authorized by our Board of Directors. The terms of the Repurchase Program provide that we may repurchase shares of our common stock, from time to time depending on market conditions and other considerations, in the open market or through privately negotiated transactions in accordance with Rule 10b-18 of the Securities Exchange Act of 1934, as amended (the Exchange Act). Unless earlier terminated by our Board of Directors, the Repurchase Program will expire when we repurchase all shares authorized for repurchase thereunder.

The following table sets forth information regarding the shares of our common stock that we repurchased in the periods indicated:

	Three Months Ended	
	March 31,	
	2012	2011
Number of shares	2,097,200	2,000,000
Total cost	\$ 146,657	\$ 139,097
Average cost per share	\$ 69.93	\$ 69.55

From April 1, 2012 through April 17, 2012, we repurchased 928,500 outstanding shares of our common stock pursuant to our existing repurchase authorization at a total cost of \$61,261 or at an average cost per share of \$65.98.

6. Debt

We were a party to a Second Amended and Restated Credit Agreement dated as of January 11, 2010, as amended (the Prior Credit Agreement), to borrow up to \$150,000 under two revolving credit facilities: one in the maximum principal amount of \$50,000; and the other in the maximum principal amount of \$100,000. The borrowings under each credit facility could have been secured or unsecured at our election, provided that we had not defaulted under the Prior Credit Agreement.

Borrowings under the Prior Credit Agreement bore interest, at our option, at the London Interbank Offered Rate (LIBOR) plus an applicable margin or at an alternative base rate, as defined under the Prior Credit Agreement. We paid a facility fee equal to 0.25% per annum on the daily amount of the commitment (whether used or unused) under the Prior Credit Agreement.

On March 21, 2012, we entered into a credit agreement (the New Credit Agreement) that provides for a \$325,000 senior revolving credit facility (the Revolver). The New Credit Agreement also provides that we may seek additional revolving commitments or term loan commitments in an aggregate principal amount not to exceed \$125,000. The lenders under the New Credit Agreement are not under any obligation to provide any such additional revolving commitments or term loan commitments. The New Credit Agreement has a maturity date of March 21, 2015.

A portion of the borrowings under the Revolver were used to prepay the entire outstanding indebtedness under the Prior Credit Agreement. The Prior Credit Agreement was also terminated on March 21, 2012. In addition to the prepayment of the outstanding indebtedness under the Prior Credit Agreement, borrowings under the New Credit Agreement will be used for general corporate purposes.

Borrowings under the New Credit Agreement bear interest, at our option, at LIBOR plus an applicable margin or at an alternative base rate, as defined under the New Credit Agreement, plus an applicable margin. The applicable margin for borrowings under the Revolver is determined based on the ratio of our total Indebtedness (as defined in the New Credit Agreement) to EBITDA (as defined in the New Credit Agreement) (the Leverage Ratio) as of the end of each fiscal quarter. We also pay a commitment fee on the amount of the unutilized commitments under the New Credit Agreement. The amount of the commitment fee is determined based on the Leverage Ratio as of the end of each fiscal quarter.

The New Credit Agreement contains, among other things, covenants, representations and warranties and events of default customary for credit facilities. The New Credit Agreement is secured by a pledge of the equity interests of our subsidiaries and is guaranteed by one of our subsidiaries. We are required to maintain compliance with a maximum Leverage Ratio, a minimum interest coverage ratio, a minimum liquidity amount and several ratios related to the ED s regulations. We were in compliance with those requirements as of March 31, 2012.

As of March 31, 2012, the borrowings under the New Credit Agreement totaled \$175,000 and bore interest at a rate of 2.50% per annum. The effective interest rate on our borrowings was approximately 1.40% per annum for the three months ended March 31, 2012 and approximately 1.50% per annum for the three months ended March 31, 2011. The commitment fee under the New Credit Agreement was 0.35% as of March 31, 2012.

Table of Contents

The following table sets forth the interest expense (including the facility fee and commitment fee) that we recognized on our borrowings under the New Credit Agreement and under the Prior Credit Agreement in the periods indicated:

Three Months Ended March 31,	
2012	2011
\$547	\$557

7. Investments

Our available-for-sale investments were classified as short-term investments on our March 31, 2012, December 31, 2011 and March 31, 2011 Condensed Consolidated Balance Sheets. The following table sets forth the aggregate fair value, amortized cost basis and the net unrealized gains and losses included in accumulated other comprehensive income (loss) of our available-for-sale investments as of the dates indicated:

	March 31, 2012		Net Unrealized Gains (Losses)	As of: December 31, 2011			March 31, 2011		Net Unrealized Gains (Losses)
	Aggregate Fair Value	Amortized Cost		Aggregate Fair Value	Amortized Cost	Net Unrealized Gains (Losses)	Aggregate Fair Value	Amortized Cost	
Available-for-Sale Investments:									
Government obligations	\$80,445	\$80,446	(\$1)	\$100,517	\$100,480	\$37	\$100,658	\$100,691	(\$33)
Government agency obligations	17,022	17,022	0	31,351	31,354	(3)	33,172	33,187	(15)
Corporate obligations	17,339	17,340	(1)	16,620	16,633	(13)	13,437	13,441	(4)
	\$114,806	\$114,808	(\$2)	\$148,488	\$148,467	\$21	\$147,267	\$147,319	(\$52)

We also held a certificate of deposit with a total principal value of \$5,345 as of March 31, 2011. This investment was included in Short-term investments on our Condensed Consolidated Balance Sheet as of March 31, 2011. We did not hold a certificate of deposit as of March 31, 2012 or December 31, 2011. We had \$114,806 of debt securities classified as available-for-sale as of March 31, 2012, and all of those debt securities had contractual maturities within one year.

The following table sets forth the unrealized gains and losses on available-for-sale investments that were included in other comprehensive income (loss) in the periods indicated:

	Three Months Ended March 31,	
	2012	2011
Unrealized gains	\$0	\$0
Unrealized losses	(\$23)	(\$133)

The following table sets forth the components of investment income included in Interest income in our Condensed Consolidated Statements of Income in the periods indicated:

Three Months Ended March 31,

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

	2012	2011
Interest income on investments	\$141	\$155
Realized net gains on the sale of investments	14	145
	\$155	\$300

8. Variable Interests

On January 20, 2010, we entered into agreements with unrelated third parties to establish the PEAKS Private Student Loan Program (PEAKS Program), which is a private education loan program for our students. Under the PEAKS Program, an unaffiliated lender originated private education loans to our eligible students and, subsequently, sold those loans to an unaffiliated trust that purchased, owns and collects private education loans (PEAKS Trust). The PEAKS Trust issued senior debt in the aggregate principal amount of \$300,000 (PEAKS Senior Debt) to investors. The lender disbursed the proceeds of the private education loans to us for application to the students' account balances with us that represented their unpaid education costs. We transferred a portion of the amount of each private education loan disbursed to us under the PEAKS Program to the PEAKS Trust in exchange for a subordinated note issued by the PEAKS Trust (Subordinated Note). No new private education loans were or will be originated under the PEAKS Program after July 2011, but immaterial amounts related to loans originated prior to that date were disbursed by the lender through March 2012.

Table of Contents

The Subordinated Note is non-interest bearing and has been recorded net of an unamortized discount based on an imputed interest rate of 9.0% in Other assets on our Condensed Consolidated Balance Sheets. The discount is amortized and recognized in Interest income on our Condensed Consolidated Statements of Income over the term of the Subordinated Note, which is expected to be approximately 15 years. The face value of the Subordinated Note as of March 31, 2012 was approximately \$75,400.

The PEAKS Trust utilized the proceeds from the issuance of the PEAKS Senior Debt and the Subordinated Note to purchase the private education loans made by the lender to our students. The assets of the PEAKS Trust (which include, among other assets, the private education loans owned by the PEAKS Trust) serve as collateral for, and are intended to be the principal source of, the repayment of the PEAKS Senior Debt and the Subordinated Note. The PEAKS Trust is required to maintain assets having an aggregate value that exceeds the outstanding balance of the PEAKS Senior Debt. As of March 31, 2012, the value of the assets of the PEAKS Trust satisfied this requirement. We guarantee payment of the principal, interest and certain call premiums owed on the PEAKS Senior Debt, and the administrative fees and expenses of the PEAKS Trust (PEAKS Guarantee). See Note 11 Contingencies, for further discussion of the PEAKS Guarantee.

We did not explicitly or implicitly provide any financial or other support to the PEAKS Trust during the three months ended March 31, 2012 or 2011 that we were not contractually required to provide, and we do not intend to provide any such support to the PEAKS Trust in the foreseeable future, other than what we are contractually required to provide.

The PEAKS Trust is a variable interest entity as defined under ASC 810. We held variable interests in the PEAKS Trust as of March 31, 2012 as a result of the Subordinated Note and PEAKS Guarantee. To determine whether we were the primary beneficiary of the PEAKS Trust, we:

- assessed the risks that the PEAKS Trust was designed to create and pass through to its variable interest holders;
- identified the variable interests in the PEAKS Trust;
- identified the other variable interest holders and their involvement in the activities of the PEAKS Trust;
- identified the activities that most significantly impact the PEAKS Trust's economic performance;
- determined whether we have the power to direct those activities; and
- determined whether we have the right to receive the benefits from, or the obligation to absorb the losses of, the PEAKS Trust that could potentially be significant to the PEAKS Trust.

We determined that the activities of the PEAKS Trust that most significantly impact the economic performance of the PEAKS Trust involve:

- establishing the underwriting criteria of, and the interest rates and fees charged on, the private education loans acquired by the PEAKS Trust; and
- the servicing (which includes the collection) of the private education loans owned by the PEAKS Trust.

To make that determination, we analyzed various possible scenarios of student loan portfolio performance to evaluate the potential economic impact on the PEAKS Trust. In our analysis, we made what we believe are conservative assumptions based on historical data for the following key variables:

- the composition of the credit profiles of the borrowers;
- the interest rates and fees charged on the loans;
- the default rates and the timing of defaults associated with similar types of loans; and
- the prepayment and the speed of repayment associated with similar types of loans.

Based on our analysis, we concluded that we are not the primary beneficiary of the PEAKS Trust, because we do not have the power to direct the activities that most significantly impact the economic performance of the PEAKS Trust. As a result, we are not required under ASC 810 to include the financial results of the PEAKS Trust in our condensed consolidated financial statements for the three months ended March 31, 2012. Our conclusion that we are not the primary beneficiary of the PEAKS Trust did not change from the prior reporting period. Therefore, there was no effect on our condensed consolidated financial statements.

On February 20, 2009, we entered into agreements with an unaffiliated entity (the 2009 Entity) to create a program that makes private education loans available to our students to help pay the students' cost of education that student financial aid from federal, state and other sources do not cover (the 2009 Loan Program). Under the 2009 Loan Program, an unaffiliated lender originated private education loans to our eligible students and, subsequently, sells those loans to the 2009 Entity. The 2009 Entity purchases the private education loans from the lender utilizing funds

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

received from its owners in exchange for participation interests in the private education loans acquired by the 2009 Entity. The lender disburses the proceeds of the private education loans to us for application to the students' account balances with us that represent their unpaid education costs. No new private education loans were or will be originated under the 2009 Loan Program after December 31, 2011, but immaterial amounts related to loans originated prior to that date will be disbursed by the lender and purchased by the 2009 Entity through approximately June 2012.

In connection with the 2009 Loan Program, we entered into a risk sharing agreement (the 2009 RSA) with the 2009 Entity. Under the 2009 RSA, we guarantee the repayment of any private education loans that are charged off above a certain percentage of the private education loans made under the 2009 Loan Program, based on the annual dollar volume. See Note 11 Contingencies, for further discussion of the 2009 RSA.

- 12 -

Table of Contents

In addition, we have made advances to the 2009 Entity under a revolving promissory note (the Revolving Note). We did not make any advances in the three months ended March 31, 2012 or 2011 to the 2009 Entity under the Revolving Note that we were not contractually required to make. Substantially all of the assets of the 2009 Entity serve as collateral for the Revolving Note. The Revolving Note bears interest, is subject to customary terms and conditions and may be repaid at any time without penalty prior to its 2026 maturity date.

The advances under the Revolving Note were primarily used by the 2009 Entity to purchase additional private education loans under the 2009 Loan Program that otherwise may not have been originated. We have no immediate plans to significantly increase the amount of advances that we make to the 2009 Entity under the Revolving Note, but we may decide to do so in the foreseeable future.

The 2009 Entity is a variable interest entity as defined under ASC 810. We held variable interests in the 2009 Entity as of March 31, 2012 as a result of the Revolving Note and 2009 RSA. To determine whether we were the primary beneficiary of the 2009 Entity, we:

- assessed the risks that the 2009 Entity was designed to create and pass through to its variable interest holders;
- identified the variable interests in the 2009 Entity;
- identified the other variable interest holders and their involvement in the activities of the 2009 Entity;
- identified the activities that most significantly impact the 2009 Entity's economic performance;
- determined whether we have the power to direct those activities; and
- determined whether we have the right to receive the benefits from, or the obligation to absorb the losses of, the 2009

Entity that could potentially be significant to the 2009 Entity.

To identify the activities of the 2009 Entity that most significantly impact the economic performance of the 2009 Entity, we analyzed various possible scenarios of private education loan portfolio performance. In our analysis, we made what we believe are conservative assumptions based on historical data for the following key variables:

- the composition of the credit profiles of the borrowers;
- the interest rates and fees charged on the loans;
- the default rates and the timing of defaults associated with similar types of loans; and
- the prepayment and the speed of repayment associated with similar types of loans.

We determined that the activities of the 2009 Entity that most significantly impact its economic performance involve:

- establishing the underwriting criteria of, and the interest rates and fees charged on, the private education loans acquired by the 2009 Entity; and
- the servicing (which includes the collection) of the private education loans owned by the 2009 Entity.

Based on our analysis, we concluded that we are not the primary beneficiary of the 2009 Entity, because we do not direct those activities. As a result, we are not required under ASC 810 to include the financial results of the 2009 Entity in our condensed consolidated financial statements for the three months ended March 31, 2012. Our conclusion that we are not the primary beneficiary of the 2009 Entity did not change from the prior reporting period. Therefore, there was no effect on our condensed consolidated financial statements.

The carrying value of the Subordinated Note and the Revolving Note as of March 31, 2012 was approximately \$19,000 and is included in Other assets on our Condensed Consolidated Balance Sheet.

9. Earnings Per Common Share

Earnings per common share for all periods have been calculated in conformity with ASC 260, Earnings Per Share. This data is based on historical net income and the weighted average number of shares of our common stock outstanding during each period as set forth in the following table:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

	Three Months Ended	
	March 31,	
	2012	2011
	(In thousands)	
Shares:		
Weighted average number of shares of common stock outstanding	25,420	29,085
Shares assumed issued (less shares assumed purchased for treasury) for stock-based compensation	216	227
Outstanding shares for diluted earnings per share calculation	25,636	29,312

- 13 -

Table of Contents

A total of 1,534,603 shares at March 31, 2012 and 1,122,931 shares at March 31, 2011 were excluded from the calculation of our diluted earnings per common share because the effect was anti-dilutive.

10. Employee Pension Benefits

The following table sets forth the components of net periodic pension benefit of the ESI Pension Plan and ESI Excess Pension Plan for the periods indicated:

	Three Months Ended March 31,	
	2012	2011
Interest cost	\$530	\$598
Expected return on assets	(1,147)	(1,147)
Recognized net actuarial loss	695	476
Amortization of prior service (credit)	(388)	(346)
Net periodic pension (benefit)	(\$310)	(\$419)

The benefit accruals under the ESI Pension Plan and ESI Excess Pension Plan were frozen effective March 31, 2006. As a result, no service cost has been included in the net periodic pension benefit.

We did not make any contributions to the ESI Pension Plan or the ESI Excess Pension Plan in the three months ended March 31, 2012 or 2011. We do not expect to make any contributions to the ESI Pension Plan or the ESI Excess Pension Plan in 2012.

11. Contingencies

As part of our normal operations, one of our insurers issues surety bonds for us that are required by various education authorities that regulate us. We are obligated to reimburse our insurer for any of those surety bonds that are paid by the insurer. As of March 31, 2012, the total face amount of those surety bonds was approximately \$33,000.

We are also subject to various claims and contingencies, including those related to litigation, business transactions, guarantee arrangements and employee-related matters, among others. We record a liability for those claims and contingencies, if it is probable that a loss will result and the amount of the loss can be reasonably estimated. Although we believe that our estimates related to any claims and contingencies are reasonable, we cannot make any assurances with regard to the accuracy of our estimates, and actual results could differ materially. As of March 31, 2012, our recorded liability for these claims and contingencies was approximately \$37,500 and is primarily included in Other liabilities on our Condensed Consolidated Balance Sheet. The substantial majority of this amount pertains to our guarantee arrangements.

We also considered whether additional losses for claims and contingencies were reasonably possible, could be estimated and might be material to our financial condition, results of operations or cash flows. With respect to our guarantee arrangements under the PEAKS Guarantee and the 2009 RSA and the risk sharing agreement that we entered into in 2007 (the 2007 RSA and, collectively with the PEAKS Guarantee and the 2009 RSA, the RSAs), we believe that it is reasonably possible that we may incur losses in an estimated range of \$20,000 less than to \$20,000 greater than the recorded liability for those contingencies. As with any estimate, as facts and circumstances change, the recorded liability and estimated range of reasonably possible losses could change significantly. With respect to legal proceedings, we determined that we cannot provide an estimate of the possible losses, or the range of possible losses, in excess of the amount, if any, accrued, for various reasons, including but not limited to some or all of the following:

- there are significant factual issues to be resolved;
- there are novel or unsettled legal issues presented;
- the proceedings are in the early stages;
- there is uncertainty as to the likelihood of a class being certified or decertified or the ultimate size and scope of the class;
- there is uncertainty as to the outcome of pending appeals or motions; and

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

in many cases, the plaintiffs have not specified damages in their complaint or in court filings.

Litigation. We are subject to various litigation in the ordinary course of our business. We cannot assure you of the ultimate outcome of any litigation involving us. Although we believe that our estimates related to any litigation are reasonable, deviations from our estimates could produce a materially different result. Any litigation alleging violations of education or consumer protection laws and/or regulations, misrepresentation, fraud or deceptive practices may also subject our affected campuses to additional regulatory scrutiny. The following is a description of pending litigation that falls outside the scope of litigation incidental to the ordinary course of our business.

On November 3, 2010, a complaint in a securities class action lawsuit was filed against us and two of our current executive officers in the United States District Court for the Southern District of New York under the following caption: Operating Engineers Construction Industry and Miscellaneous Pension Fund, Individually and On Behalf of All Others Similarly Situated v. ITT Educational Services, Inc., et al. (the Securities Litigation). On January 21, 2011, the court named the Wyoming Retirement

Table of Contents

System as the lead plaintiff in the Securities Litigation. On April 1, 2011, an amended complaint was filed in the Securities Litigation under the following caption: *In re ITT Educational Services, Inc. Securities and Shareholder Derivative Litigation*. The amended complaint alleges, among other things, that:

the defendants violated Section 10(b) and 20(a) of the Exchange Act and Rule 10b-5 promulgated thereunder by creating and implementing a systemically predatory business model that operated as a fraud or deceit on purchasers of our common stock during the class period by misrepresenting our financials and future business prospects;
the defendants' misrepresentations and material omissions caused our common stock to trade at artificially inflated prices throughout the class period; and
the market's expectations were ultimately corrected on August 13, 2010 when the ED published the loan repayment rate of our students under a formula contained in proposed regulations published by the ED on July 26, 2010.

The putative class period in this action is from October 23, 2008 through August 13, 2010. The plaintiff seeks, among other things, the designation of this action as a class action, and an award of unspecified compensatory damages, interest, costs, expenses, attorneys' fees and expert fees. On March 30, 2012, all of the securities class action claims alleged in the Securities Litigation were dismissed. All of the defendants intend to defend themselves vigorously against the allegations made in the complaint.

On November 12, 2010, a complaint in a shareholder derivative lawsuit was filed against three of our current executive officers and all of our current Directors in the United States District Court for the Southern District of New York under the following caption: *Antonio Cosing, Derivatively and On Behalf of ITT Educational Services, Inc. v. Kevin M. Modany, et al.* (the Cosing Lawsuit). The complaint alleges, among other things, that from October 23, 2008 through August 13, 2010, the defendants breached their fiduciary duties to us, abused their ability to control and influence us, grossly mismanaged us, caused us to waste corporate assets and were unjustly enriched, by making false and misleading statements and engaging in fraudulent business practices. The complaint seeks, among other things, unspecified damages, equitable and/or injunctive relief, restitution, disgorgement of profits, benefits and other compensation, an order directing us to reform our corporate governance and internal procedures, costs, disbursements and attorneys' fees. All of the individual defendants intend to defend themselves vigorously against the allegations in the complaint. On December 14, 2010, the Cosing Lawsuit was consolidated into the Securities Litigation.

On November 22, 2010, another complaint in a shareholder derivative lawsuit was filed against seven of our current and former officers and all of our current Directors in the United States District Court for the Southern District of Indiana under the following caption: *Roger B. Orensteen, derivatively on behalf of ITT Educational Services, Inc. v. Kevin M. Modany, et al.* The complaint alleges, among other things, that, from January 2008 through August 2010, the defendants violated Sections 10(b) and 20(a) of the Exchange Act, breached their fiduciary duties to us, abused their ability to control and influence us, grossly mismanaged us, caused us to waste corporate assets and were unjustly enriched, by making false and misleading statements and engaging in fraudulent business practices. The complaint seeks, among other things, unspecified damages, restitution, disgorgement of profits, benefits and other compensation, an order directing us to reform our corporate governance and internal procedures, costs, disbursements and attorneys' fees. All of the individual defendants intend to defend themselves vigorously against the allegations in the complaint.

On December 3, 2010, another complaint in a shareholder derivative lawsuit was filed against two of our current executive officers and all of our current Directors in the United States District Court for the Southern District of New York under the following caption: *J. Kent Gregory, derivatively on behalf of ITT Educational Services, Inc. v. Kevin M. Modany, et al.* (the Gregory Lawsuit). The complaint alleges, among other things, that the defendants breached their fiduciary duties to us, were unjustly enriched by us and misappropriated information about us, by making false and misleading statements and engaging in fraudulent business practices. The complaint seeks, among other things, unspecified damages, restitution, disgorgement of profits, benefits and other compensation, an order directing us to reform our corporate governance and internal procedures, costs, disbursements and attorneys' fees. All of the individual defendants intend to defend themselves vigorously against the allegations in the complaint. The Gregory Lawsuit was consolidated into the Cosing Lawsuit on December 13, 2010 and further consolidated into the Securities Litigation on December 14, 2010.

There can be no assurance that the ultimate outcome of these or other actions (including other actions under federal or state securities laws) will not have a material adverse effect on our financial condition, results of operations or cash flows.

Guarantees. We entered into the PEAKS Guarantee in connection with the PEAKS Program. Under the PEAKS Guarantee, we guarantee payment of the principal, interest and certain call premiums owed on the PEAKS Senior Debt, and the administrative fees and expenses of the PEAKS Trust. The PEAKS Senior Debt bears interest at a variable rate based on the LIBOR plus an applicable margin and matures in January 2020. The PEAKS Guarantee agreement contains, among other things, representations and warranties and events of default customary for guarantees. In addition, under the PEAKS Program, some or all of the holders of the PEAKS Senior Debt could require us to purchase their PEAKS Senior Debt in certain limited circumstances that pertain to our continued eligibility to participate in the federal student financial aid

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

programs under Title IV (the Title IV Programs) of the Higher Education Act of 1965, as amended (the HEA). We believe that the likelihood of those limited circumstances occurring is remote. Our guarantee and purchase obligations under the PEAKS Program remain in effect until the PEAKS Senior Debt and the PEAKS Trust s fees and expenses are paid in full. At such time, we will be entitled to repayment of the amount of any payments made under the PEAKS Guarantee to the extent that funds are remaining in the PEAKS Trust.

- 15 -

Table of Contents

The maximum future payments that we could be required to make under the PEAKS Guarantee include:

up to \$290,000 in principal of PEAKS Senior Debt, which was the approximate outstanding principal balance of the PEAKS Senior Debt as of March 31, 2012;
accrued interest on the PEAKS Senior Debt;
certain call premiums associated with the PEAKS Senior Debt; and
the fees and expenses of the PEAKS Trust.

We are not able to estimate the undiscounted maximum potential amount of future payments that we could be required to make under the PEAKS Guarantee, because those payments will be affected by:

the repayment performance of the private education loans made under the PEAKS Program, the proceeds from which will be used to repay the PEAKS Senior Debt and to pay the fees and expenses of the PEAKS Trust;
the fact that those loans will consist of a large number of loans of individually immaterial amounts;
the fact that the interest rate on the PEAKS Senior Debt is a variable rate based on the LIBOR plus a margin;
whether certain call premiums will be payable in connection with the PEAKS Senior Debt; and
the amount of fees and expenses of the PEAKS Trust, much of which is based on the principal balance of the private education loans held by the PEAKS Trust.

No new private education loans were or will be originated under the PEAKS Program after July 2011, but immaterial amounts related to loans originated prior to that date were disbursed by the lender through March 2012.

We entered into the 2009 RSA in connection with the 2009 Loan Program. Under the 2009 RSA, we guarantee the repayment of the principal amount (including capitalized origination fees) and accrued interest payable on any private education loans that are charged off above a certain percentage of the private education loans made under the 2009 Loan Program, based on the annual dollar volume. The total initial principal amount of private education loans that the 2009 Entity purchased under the 2009 Loan Program was approximately \$141,000. No new private education loans were or will be originated under the 2009 Loan Program after December 31, 2011, but immaterial amounts related to loans originated prior to that date will be disbursed and purchased through approximately June 2012. Our obligations under the 2009 RSA will remain in effect until all private education loans made under the 2009 Loan Program are paid in full or charged off. The standard repayment term for a private education loan made under the 2009 Loan Program is ten years, with repayment generally beginning six months after a student graduates or three months after a student withdraws or is terminated from his or her program of study.

Pursuant to the 2009 RSA, we are required to maintain collateral to secure our guarantee obligation in an amount equal to a percentage of the outstanding balance of private education loans disbursed to our students under the 2009 Loan Program. As of March 31, 2012, the total collateral maintained in a restricted bank account was not material. This amount is included in Other assets on our Condensed Consolidated Balance Sheet as of March 31, 2012. The 2009 RSA also requires that we comply with certain covenants, including that we maintain certain financial ratios which are measured on a quarterly basis. We were in compliance with these covenants as of March 31, 2012.

We entered into the 2007 RSA with a different lender for certain private education loans that were made to our students in 2007 and early 2008. We guarantee the repayment of any private education loans that the lender charges off above a certain percentage of the total dollar volume of private education loans made under the 2007 RSA. We will have the right to pursue repayment from the borrowers for those charged off private education loans under the 2007 RSA that we pay to the lender pursuant to our guarantee obligation. The 2007 RSA was terminated effective February 22, 2008, such that no private education loans have been or will be made under the 2007 RSA after that date. Based on information that we have received to date from the lender, we believe that the total original principal amount of private education loans made under the 2007 RSA, net of amounts refunded under those loans, was approximately \$180,000. Our obligations under the 2007 RSA will remain in effect until all private education loans under the agreement are paid in full or charged off by the lender. The standard repayment term for a private education loan made under the 2007 RSA is ten years, with repayment generally beginning six months after a student graduates, withdraws or is terminated from his or her program of study.

As of March 31, 2012, we had made guarantee payments that were not material under the RSAs. At the end of each reporting period, we assess whether we should recognize a contingent liability related to our guarantees under the RSAs and, if so, in what amount. Our recorded liability for the obligations related to the guarantee arrangements under the RSAs is included in Other liabilities on our Condensed Consolidated Balance Sheets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

All statements, trend analyses and other information contained in this report that are not historical facts are forward-looking statements within the meaning of the safe harbor provision of the Private Securities Litigation Reform Act of 1995 and as defined in Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Exchange Act. Forward-looking

Table of Contents

statements are made based on our management's current expectations and beliefs concerning future developments and their potential effects on us. You can identify those statements by the use of words such as *could, should, would, may, will, project, believe, anticipate, expect, plan, estimate, forecast, potential, intend, continue and contemplate*, as well as similar words and expressions. Forward-looking statements involve risks and uncertainties and do not guarantee future performance. We cannot assure you that future developments affecting us will be those anticipated by our management. Among the factors that could cause actual results to differ materially from those expressed in our forward-looking statements are the following:

changes in federal and state governmental laws and regulations with respect to education and accreditation standards, or the interpretation or enforcement of those laws and regulations, including, but not limited to, the level of government funding for, and our eligibility to participate in, student financial aid programs utilized by our students;
business conditions and growth in the postsecondary education industry and in the general economy;
our failure to comply with the extensive education laws and regulations and accreditation standards that we are subject to;
effects of any change in our ownership resulting in a change in control, including, but not limited to, the consequences of such changes on the accreditation and federal and state regulation of our campuses;
our ability to implement our growth strategies;
our failure to maintain or renew required federal or state authorizations or accreditations of our campuses or programs of study;
receptivity of students and employers to our existing program offerings and new curricula;
loss of access by our students to lenders for education loans;
our ability to collect internally funded financing from our students;
our exposure under our guarantees related to private student loan programs; and
our ability to successfully defend litigation and other claims brought against us.

Readers are also directed to other risks and uncertainties discussed in other documents we file with the SEC, including, without limitation, those discussed in Item 1A. *Risk Factors* of our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 filed with the SEC and in Part II, Item 1A. *Risk Factors* of this Quarterly Report on Form 10-Q. We undertake no obligation to update or revise any forward-looking information, whether as a result of new information, future developments or otherwise.

Overview

You should keep in mind the following points as you read this report:

References in this document to *we, us, our* and ITT/ESI refer to ITT Educational Services, Inc. and its subsidiaries. The terms *ITT Technical Institute* or *Daniel Webster College* (in singular or plural form) refer to an individual school or campus owned and operated by ITT/ESI, including its learning sites, if any. The term *institution* (in singular or plural form) means a main campus and its additional locations, branch campuses and/or learning sites, if any.

This management's discussion and analysis of financial condition and results of operations should be read in conjunction with the same titled section contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 filed with the SEC for discussion of, among other matters, the following items:

cash receipts from financial aid programs;
nature of capital additions;
seasonality of revenue;
components of income statement captions;
federal regulations regarding:
 timing of receipt of funds from the Title IV Programs;
 percentage of applicable revenue that may be derived from the Title IV Programs;
 return of Title IV Program funds for withdrawn students; and
 default rates;
private loan programs;
investments; and
repurchase of shares of our common stock.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

This management's discussion and analysis of financial condition and results of operations is based on our condensed consolidated financial statements, which have been prepared in conformity with generally accepted accounting principles in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets, liabilities, revenue, expenses, and contingent assets and liabilities. Actual results may differ from those estimates and judgments under different assumptions or conditions.

- 17 -

Table of Contents

In this management's discussion and analysis of financial condition and results of operations, when we discuss factors that contributed to a change in our financial condition or results of operations, we disclose the primary factors that materially contributed to that change.

Background

We are a leading proprietary provider of postsecondary degree programs in the United States based on revenue and student enrollment. As of March 31, 2012, we were offering master, bachelor and associate degree programs to approximately 71,000 students. As of March 31, 2012, we had 148 college locations (including 145 campuses and three learning sites) in 39 states. In addition, we offered one or more of our online programs to students who are located in 48 states. All of our college locations are authorized by the applicable education authorities of the states in which they operate, and are accredited by an accrediting commission recognized by the ED. We design our education programs, after consultation with employers and other constituents, to help graduates prepare for careers in various fields involving their areas of study. We have provided career-oriented education programs since 1969 under the ITT Technical Institute name and since June 2009 under the Daniel Webster College name.

In the first quarter of 2012, we began operations at four new ITT Technical Institute campuses. We plan to begin operations at four to six new locations during the remainder of 2012. Our strategy is to pursue multiple opportunities for growth. We are implementing a growth strategy designed to:

- improve the academic outcomes of our students;
- increase the value proposition of our education programs for our students; and
- increase access to high-quality, career-based education.

We intend to pursue this strategy by:

- increasing student enrollment in existing programs at existing campuses;
- increasing the number and types of program and other educational offerings that are delivered in residence and/or online;
- increasing our students' engagement in their programs of study;
- enhancing the relevancy of our educational offerings;
- assessing student achievement and learning;
- improving the flexibility and convenience of how our institutions deliver their educational offerings;
- increasing our students' access to financial aid;
- helping our graduates obtain entry-level employment involving their fields of study at higher starting annual salaries;
- operating new campuses across the United States and new institutions in international markets;
- adding learning sites to existing campuses; and
- investing in other education-related opportunities.

Critical Accounting Policies and Estimates

The preparation of our condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amount of assets, liabilities, revenue, expenses, and contingent assets and liabilities. Actual results may differ from those estimates and judgments under different assumptions or conditions. We have discussed the critical accounting policies that we believe affect our more significant estimates and judgments used in the preparation of our consolidated financial statements in the Management's Discussion and Analysis of Financial Condition and Results of the Operations Critical Accounting Policies and Estimates section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 filed with the SEC. There have been no material changes to those critical accounting policies or the underlying accounting estimates or judgments.

New Accounting Guidance

In December 2011, the FASB issued ASU No. 2011-12, which is included in the Codification under ASC 220. This update defers the effective date of ASU No. 2011-05 for changes that relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. None of the other requirements in ASU 2011-05 are affected by this update. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

Also in December 2011, the FASB issued ASU No. 2011-11, which is included in the Codification under ASC 210. This update provides for enhanced disclosures to help users of financial statements evaluate the effect or potential effect of netting arrangements on an entity's financial position. This guidance is effective for interim and annual reporting periods beginning January 1, 2013. We have not yet determined the effect that the adoption of this guidance will have on our condensed consolidated financial statements.

In September 2011, the FASB issued ASU No. 2011-08, which is included in the Codification under ASC 350. This update allows an entity to assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, which is included in the Codification under ASC 220. This update requires total comprehensive income, the components of net income and the components of other comprehensive income to be

Table of Contents

presented either in a single continuous statement or in two separate but consecutive statements. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. Prior to January 1, 2012, we presented total Comprehensive income and the components of Other comprehensive income in our Condensed Consolidated Statement of Shareholders' Equity. After December 31, 2011, we present total Comprehensive income and the components of Other comprehensive income in our Condensed Consolidated Statements of Comprehensive Income.

In May 2011, the FASB issued ASU 2011-04, which is included in the Codification under ASC 820. This update provides guidance and clarification about the application of existing fair value measurements and disclosure requirements. This guidance became effective for our interim and annual reporting periods beginning January 1, 2012. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

Results of Operations

The following table sets forth the percentage relationship of certain statement of income data to revenue for the periods indicated:

	Three Months Ended	
	March 31,	
	2012	2011
Revenue	100.0%	100.0%
Cost of educational services	39.5%	36.0%
Student services and administrative expenses	31.1%	27.3%
Operating income	29.4%	36.7%
Interest income, net	0.1%	0.1%
Income before provision for income taxes	29.5%	36.8%

The following table sets forth our total student enrollment as of the dates indicated:

	2012		2011	
	Total	(Decrease)	Total	(Decrease)
Total Student	Student	To	Student	To
Enrollment as of:	Enrollment	Prior Year	Enrollment	Prior Year
March 31	71,123	(15.4%)	84,030	(0.6%)
June 30	Not applicable	Not applicable	78,743	(7.0%)
September 30	Not applicable	Not applicable	79,219	(10.0%)
December 31	Not applicable	Not applicable	73,255	(13.5%)

Total student enrollment includes all new and continuing students. A continuing student is any student who, in the academic term being measured, is enrolled in a program of study at one of our campuses and was enrolled in the same program at any of our campuses at the end of the immediately preceding academic term. A new student is any student who, in the academic term being measured, enrolls in and begins attending any program of study at one of our campuses:

- for the first time at that campus;
- after graduating in a prior academic term from a different program of study at that campus; or
- after having withdrawn or been terminated from a program of study at that campus.

The following table sets forth our new student enrollment in the periods indicated:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

New Student Enrollment in the Three Months Ended:	2012		2011	
	New Student Enrollment	(Decrease) To Prior Year	New Student Enrollment	(Decrease) To Prior Year
March 31	18,067	(17.0%)	21,761	(5.6%)
June 30	Not applicable	Not applicable	17,351	(19.9%)
September 30	Not applicable	Not applicable	22,909	(14.1%)
December 31	Not applicable	Not applicable	15,125	(14.7%)
Total for the year	Not applicable	Not applicable	77,146	(13.4%)

We believe that the 17.0% decrease in new student enrollment in the three months ended March 31, 2012 compared to the three months ended March 31, 2011 was primarily due to changes that we made to program offerings at select campuses which resulted in a more significant decline in new student enrollment in the criminal justice and drafting and design programs of study compared to our other curricula. We believe, based on leading enrollment metrics, that new student enrollment in the second half of 2012 could increase compared to the second half of 2011, but there can be no assurance thereof due to the volatile enrollment environment.

At the vast majority of our campuses, we generally organize the academic schedule for programs of study offered on the basis of four 12-week academic quarters in a calendar year. The academic quarters typically begin in early March, mid-June, early September and late November or early December. To measure the persistence of our students, the number of continuing students in any academic term is divided by the total student enrollment in the immediately preceding academic term.

Table of Contents

The following table sets forth the rates of our students' persistence as of the dates indicated:

Year	Student Persistence as of:			
	March 31	June 30	September 30	December 31
2010	76.1%	74.5%	72.4%	76.1%
2011	73.5%	73.1%	71.5%	73.4%
2012	72.4%	Not applicable	Not applicable	Not applicable

The decrease in student persistence as of March 31, 2012 compared to March 31, 2011 was primarily due to a higher number of students who graduated at the end of the academic period that began in December 2011 compared to the end of the same academic period in the prior year.

Three Months Ended March 31, 2012 Compared with Three Months Ended March 31, 2011. Revenue decreased \$41.4 million, or 10.8%, to \$341.8 million in the three months ended March 31, 2012 compared to \$383.2 million in the three months ended March 31, 2011. The primary factors that contributed to this decrease included, in order of significance:

- a 13.5% decrease in total student enrollment as of December 31, 2011 compared to December 31, 2010;
- a 15.4% decrease in total student enrollment as of March 31, 2012 compared to March 31, 2011; and
- an increase in the amount of institutional scholarships and other awards that we granted to our students in the three months ended March 31, 2012 compared to the same prior year period.

The decrease in revenue was partially offset by a lesser impact of the private education loan programs, which expired in 2011, on our revenue recognition in the three months ended March 31, 2012 compared to the same prior year period.

The primary factors that contributed to the decrease in total student enrollment as of December 31, 2011 compared to December 31, 2010 included, in order of significance:

- the 14.7% decrease in new student enrollment in the three months ended December 31, 2011 compared to the same prior year period; and
- an increase in the number of students who graduated in the three months ended December 31, 2011 compared to the same prior year period.

The primary factors that contributed to the decrease in total student enrollment as of March 31, 2012 compared to March 31, 2011 included, in order of significance:

- the 17.0% decrease in new student enrollment in the three months ended March 31, 2012 and the 14.7% decrease in new student enrollment in the three months ended December 31, 2011 compared to the same prior year periods; and
- an increase in the number of students who graduated in the three months ended March 31, 2012 compared to the same prior year period.

Cost of educational services decreased \$3.0 million, or 2.2%, to \$134.9 million in the three months ended March 31, 2012 compared to \$137.9 million in the three months ended March 31, 2011. The primary factors that contributed to this decrease included, in order of significance:

- a decrease in legal expenses; and
- a decrease in compensation and benefit costs.

Cost of educational services as a percentage of revenue increased 350 basis points to 39.5% in the three months ended March 31, 2012 compared to 36.0% in the three months ended March 31, 2011. The primary factor that contributed to this increase was a decline in revenue, which was partially offset by decreases in legal expenses and compensation and benefit costs.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

Student services and administrative expenses increased \$1.7 million, or 1.6%, to \$106.3 million in the three months ended March 31, 2012 compared to \$104.6 million in the three months ended March 31, 2011. The principal causes of this increase were increases in the amount of bad debt expense and media advertising expense, which were partially offset by a decrease in compensation and benefit costs.

Student services and administrative expenses increased to 31.1% of revenue in the three months ended March 31, 2012 compared to 27.3% of revenue in the three months ended March 31, 2011. The principal causes of this increase were the decline in revenue and increases in bad debt expense and media advertising expense, which were partially offset by a decrease in compensation and benefit costs. Bad debt expense as a percentage of revenue increased to 4.6% in the three months ended March 31, 2012 compared to 3.3% in the three months ended March 31, 2011, primarily as a result of an increase in the amount of internal student financing that we provided to our students in the three months ended March 31, 2012 compared to the three months ended March 31, 2011. The increase in the amount of internal student financing was primarily due to the decline in the amount of private education loans available to our students in the three months ended March 31, 2012 as a result of the expiration in 2011 of the two private education loan programs that provided the vast majority of private education loans to our students in 2011.

- 20 -

Table of Contents

Operating income decreased \$40.1 million, or 28.5%, to \$100.6 million in the three months ended March 31, 2012 compared to \$140.7 million in the three months ended March 31, 2011, as a result of the impact of the factors discussed above in connection with revenue, cost of educational services, and student services and administrative expenses. Our operating margin decreased to 29.4% in the three months ended March 31, 2012 compared to 36.7% in the three months ended March 31, 2011, as a result of the impact of the factors discussed above.

Interest income decreased \$0.2 million, or 18.4%, to \$0.7 million in the three months ended March 31, 2012 compared to \$0.8 million in the three months ended March 31, 2011, primarily due to lower investment returns. Interest expense was \$0.6 million in the three months ended March 31, 2012 and March 31, 2011.

Our combined federal and state effective income tax rate was 39.4% in the three months ended March 31, 2012 and 2011.

Financial Condition, Liquidity and Capital Resources

Cash and cash equivalents were \$178.5 million as of March 31, 2012 compared to \$229.0 million as of December 31, 2011 and \$187.9 million as of March 31, 2011. We also had short-term investments of \$114.8 million as of March 31, 2012 compared to \$148.5 million as of December 31, 2011 and \$152.6 million as of March 31, 2011. In total, our cash and cash equivalents and short-term investments were \$293.3 million as of March 31, 2012 compared to \$377.5 million as of December 31, 2011 and \$340.5 million as of March 31, 2011. Cash and cash equivalents and short-term investments as of March 31, 2012 decreased \$84.2 million compared to December 31, 2011 and \$47.3 million compared to March 31, 2011, primarily due to repurchases of our common stock, which was partially offset by cash generated from operations and an increase in borrowings.

We are required to recognize the funded status of our defined benefit postretirement plans on our balance sheet. We recorded an asset of \$5.3 million for the ESI Pension Plan, a non-contributory defined benefit pension plan commonly referred to as a cash balance plan, and a liability of \$0.3 million for the ESI Excess Pension Plan, a nonqualified, unfunded retirement plan, on our Condensed Consolidated Balance Sheet as of March 31, 2012.

We do not expect to make any contributions to the ESI Pension Plan or the ESI Excess Pension Plan in 2012. In 2011, we did not make any contributions to either the ESI Pension Plan or ESI Excess Pension Plan.

Operations. Cash flows from operating activities decreased \$144.8 million to \$37.4 million in the three months ended March 31, 2012 compared to \$182.1 million in the three months ended March 31, 2011, primarily due to lower student enrollments and a decrease in the amount of funds received from private education loans made to our students by third-party lenders.

Accounts receivable less allowance for doubtful accounts was \$54.4 million as of March 31, 2012 compared to \$59.8 million as of March 31, 2011. Days sales outstanding increased 0.5 days to 14.5 days at March 31, 2012 compared to 14.0 days at March 31, 2011. Our accounts receivable balance decreased as of March 31, 2012, primarily due to lower student enrollments and an increase in the amount of scholarships and other awards provided to our students. The amount of scholarships and other awards provided to our students increased 10.7% to \$20.7 million in the three months ended March 31, 2012 compared to \$18.7 million in the three months ended March 31, 2011. The decrease in our accounts receivable balance was partially offset by a decrease in the amount of funds received from private education loans made to our students by third-party lenders.

Investing. In the three months ended March 31, 2012, we spent \$0.1 million to renovate, expand and construct buildings at four of our locations, compared to \$0.5 million for similar expenditures at eight of our locations in the three months ended March 31, 2011.

Capital expenditures, excluding facility and land purchases and facility construction, totaled \$4.5 million in the three months ended March 31, 2012 compared to \$4.7 million in the three months ended March 31, 2011. These expenditures consisted primarily of classroom and laboratory equipment (such as computers and electronic equipment), classroom and office furniture, software and leasehold improvements.

We plan to continue to upgrade and expand our current facilities and equipment in 2012. Cash generated from operations is expected to be sufficient to fund our capital expenditure requirements.

Financing. We were a party to the Prior Credit Agreement which provided that we could borrow up to \$150.0 million under two revolving credit facilities: one in the maximum principal amount of \$50.0 million; and the other in the maximum principal amount of \$100.0 million. We could borrow under each credit facility on either a secured or unsecured basis at our election, provided that we were not in default under the Prior Credit Agreement.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

Borrowings under the Prior Credit Agreement bore interest, at our option, at the LIBOR plus an applicable margin or at an alternative base rate as defined under the Prior Credit Agreement. We paid a facility fee equal to 0.25% per annum on the daily amount of the commitment (whether used or unused) under the Prior Credit Agreement.

On March 21, 2012, we entered into the New Credit Agreement that provides for a Revolver in the amount of \$325.0 million. The New Credit Agreement also provides that we may seek additional revolving commitments or term loan commitments in an aggregate principal amount not to exceed \$125.0 million. The lenders under the New Credit Agreement are not under any obligation to provide any such additional revolving commitments or term loan commitments. The New Credit Agreement has a maturity date of March 21, 2015.

- 21 -

Table of Contents

A portion of the borrowings under of the Revolver were used to prepay the entire outstanding indebtedness under the Prior Credit Agreement. The Prior Credit Agreement was also terminated on March 21, 2012. In addition to the prepayment of the outstanding indebtedness under the Prior Credit Agreement, borrowings under the New Credit Agreement will be used for general corporate purposes.

Borrowings under the New Credit Agreement bear interest, at our option, at LIBOR plus an applicable margin or at an alternative base rate, as defined under the New Credit Agreement, plus an applicable margin. The applicable margin for borrowings under the Revolver is determined based on the Leverage Ratio as of the end of each fiscal quarter. We also pay a commitment fee on the amount of the unutilized commitments under the New Credit Agreement. The amount of the commitment fee is determined based on the Leverage Ratio as of the end of each fiscal quarter.

The New Credit Agreement contains, among other things, covenants, representations and warranties and events of default customary for credit facilities. The New Credit Agreement is secured by a pledge of the equity interests of our subsidiaries and is guaranteed by one of our subsidiaries. We are required to maintain compliance with a maximum Leverage Ratio, a minimum interest coverage ratio, a minimum liquidity amount and several ratios related to the ED's regulations. We were in compliance with those requirements as of March 31, 2012.

As of March 31, 2012, the borrowings under the New Credit Agreement totaled \$175.0 million and bore interest at a rate of 2.50% per annum. The effective interest rate on our borrowings was approximately 1.40% per annum for the three months ended March 31, 2012 and approximately 1.50% per annum for the three months ended March 31, 2011. The commitment fee under the New Credit Agreement was 0.35% as of March 31, 2012.

Our Board of Directors has authorized us to repurchase shares of our common stock in the open market or through privately negotiated transactions in accordance with Rule 10b-18 of the Exchange Act under the Repurchase Program. The following table sets forth information regarding our share repurchase activity in the periods indicated:

	Three Months Ended	
	March 31,	
	2012	2011
Number of shares repurchased	2,097,200	2,000,000
Total cost of shares repurchased (in millions)	\$146.7	\$139.1
Average cost per share	\$69.93	\$69.55

Approximately 3.7 million shares remained available for repurchase under the Repurchase Program as of March 31, 2012. From April 1, 2012 through April 17, 2012, we repurchased 928,500 outstanding shares of our common stock pursuant to our existing repurchase authorization at a total cost of \$61.3 million or at an average cost per share of \$65.98. As a result, approximately 2.8 million shares remained available for repurchase under the Repurchase Program as of April 17, 2012. On April 23, 2012, our Board of Directors authorized us to repurchase an additional 5.0 million shares of our common stock pursuant to our existing repurchase authorization. Pursuant to the Board's stock repurchase authorization, we plan to repurchase additional shares of our common stock from time to time in the future depending on market conditions and other considerations.

We believe that cash generated from operations and our investments will be adequate to satisfy our working capital, loan repayment and capital expenditure requirements for the foreseeable future. We also believe that any reduction in cash and cash equivalents or investments that may result from their use to provide student financing, purchase facilities, construct facilities, repay loans or repurchase shares of our common stock will not have a material adverse effect on our expansion plans, planned capital expenditures, ability to meet any applicable regulatory financial responsibility standards or ability to conduct normal operations.

Contractual Obligations

The following table sets forth our specified contractual obligations as of March 31, 2012:

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

	(In thousands)				
Operating lease obligations	\$168,087	\$48,354	\$78,732	\$32,684	\$8,317
Long-term debt, including scheduled interest payments	\$189,779	\$4,849	\$184,930	\$0	\$0
Total	\$357,866	\$53,203	\$263,662	\$32,684	\$8,317

The long-term debt represents the Revolver under the New Credit Agreement and assumes that the \$175.0 million outstanding balance under the Revolver as of March 31, 2012 will be outstanding at all times through the date of maturity. The amounts shown include the principal payments that will be due upon maturity as well as interest payments and commitment fees. Interest payments and commitment fees have been calculated based on their scheduled payment dates using the interest rate charged on our borrowings and the rate charged on unutilized commitments as of March 31, 2012.

Table of Contents

Off-Balance Sheet Arrangements

As of March 31, 2012, we leased our non-owned facilities under operating lease agreements. A majority of the operating leases contain renewal options that can be exercised after the initial lease term. Renewal options are generally for periods of one to five years. All operating leases will expire over the next 12 years and management believes that:

- those leases will be renewed or replaced by other leases in the normal course of business;
- we may purchase the facilities represented by those leases; or
- we may purchase or build other replacement facilities.

There are no material restrictions imposed by the lease agreements, and we have not entered into any significant guarantees related to the leases. We are required to make additional payments under the terms of certain operating leases for taxes, insurance and other operating expenses incurred during the operating lease period.

As part of our normal course of operations, one of our insurers issues surety bonds for us that are required by various education authorities that regulate us. We are obligated to reimburse our insurer for any of those surety bonds that are paid by the insurer. As of March 31, 2012, the total face amount of those surety bonds was approximately \$33.0 million.

On January 20, 2010, we entered into agreements with unrelated parties to establish the PEAKS Program. Under the PEAKS Program, an unaffiliated lender originated private education loans to our eligible students and, subsequently, sold those loans to the PEAKS Trust. The PEAKS Trust issued PEAKS Senior Debt in the aggregate principal amount of \$300.0 million to investors. The assets of the PEAKS Trust (which include, among other assets, the student loans held by the PEAKS Trust) serve as collateral for, and are intended to be the principal source of, the repayment of the PEAKS Senior Debt. The PEAKS Trust is required to maintain assets having an aggregate value that exceeds the outstanding balance of the PEAKS Senior Debt. As of March 31, 2012, the value of the assets of the PEAKS Trust satisfied this requirement. The PEAKS Senior Debt bears interest at a variable rate based on the LIBOR plus a margin and matures in January 2020. As of March 31, 2012, the outstanding principal balance of the PEAKS Senior Debt was approximately \$290.0 million.

In connection with the PEAKS Program, the lender disbursed the proceeds of the private education loans to us for application to the students account balances with us that represent their unpaid education costs. We transferred to the PEAKS Trust a portion of the amount of each private student loan disbursed to us under the PEAKS Program, in exchange for a Subordinated Note. The Subordinated Note does not bear interest, and principal is due on the Subordinated Note following the repayment of the PEAKS Senior Debt, the payment of fees and expenses of the PEAKS Trust and the reimbursement of the amount of any payments made by us under the PEAKS Guarantee. The PEAKS Trust utilized the proceeds from the issuance of the PEAKS Senior Debt and the Subordinated Note to purchase the student loans from the lender.

Under the PEAKS Guarantee, we guarantee payment of the principal, interest and certain call premiums owed on the PEAKS Senior Debt, and the administrative fees and expenses of the PEAKS Trust. The PEAKS Guarantee contains, among other things, representations and warranties and events of default customary for guarantees. In addition, under the PEAKS Program, some or all of the holders of the PEAKS Senior Debt could require us to purchase their PEAKS Senior Debt in certain limited circumstances that pertain to our continued eligibility to participate in the Title IV Programs. We believe that the likelihood of those limited circumstances occurring is remote. Our guarantee and purchase obligations under the PEAKS Program remain in effect until the PEAKS Senior Debt and the PEAKS Trust's fees and expenses are paid in full. At such time, we will be entitled to repayment of the amount of any payments made under our guarantee and payment of the Subordinated Note, in each case only to the extent of available funds remaining in the PEAKS Trust.

We entered into the PEAKS Program to offer our students another source of private education loans that they could use to help pay their education costs owed to us and to supplement the limited amount of private education loans available to our students under other private education loans programs, including the 2009 Loan Program. Under the PEAKS Program, our students had access to a greater amount of private education loans, which resulted in a reduction in the amount of internal financing that we provided to our students. No new private education loans were or will be originated under the PEAKS Program after July 2011, but immaterial amounts related to loans originated prior to that date were disbursed by the lender through March 2012.

On February 20, 2009, we entered into the 2009 Loan Program. In connection with the 2009 Loan Program, we entered into the 2009 RSA. Under the 2009 RSA, we guarantee the repayment of the principal amount (including capitalized origination fees) and accrued interest payable on any private education loans that are charged off above a certain percentage of the private education loans made under the 2009 Loan Program, based on the annual dollar volume. The total initial principal amount of private education loans that the 2009 Entity purchased under the 2009 Loan Program was approximately \$141.0 million. No new private education loans were or will be made under the 2009 Loan Program

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

after December 31, 2011, but immaterial amounts related to loans originated prior to that date will be disbursed by the lender and purchased by the 2009 Entity through approximately June 2012. Our obligations under the 2009 RSA will remain in effect until all private education loans made under the 2009 Loan Program are paid in full or charged off. The standard repayment term for a private education loan made under the 2009 Loan Program is ten years, with repayment generally beginning six months after a student graduates or three months after a student withdraws or is terminated from his or her program of study.

- 23 -

Table of Contents

Pursuant to the 2009 RSA, we are required to maintain collateral to secure our guarantee obligation in an amount equal to a percentage of the outstanding balance of private education loans disbursed to our students under the 2009 Loan Program. As of March 31, 2012, the total collateral maintained in a restricted bank account was not material. The 2009 RSA also requires that we comply with certain covenants, including that we maintain certain financial ratios which are measured on a quarterly basis. We were in compliance with these covenants as of March 31, 2012.

In addition, beginning in the second quarter of 2009, we have made advances to the 2009 Entity under the Revolving Note. We made the advances, which bear interest, so that the 2009 Entity could use those funds primarily to provide additional funding for the private education loans, instead of retaining the funds ourselves and providing internal student financing, which is non-interest bearing. The Revolving Note bears interest at a rate based on the prime rate plus an applicable margin. Substantially all of the assets of the third party serve as collateral for the Revolving Note. The Revolving Note is subject to customary terms and conditions and may be repaid at any time without penalty prior to its 2026 maturity date.

We also are a party to the 2007 RSA with a different lender for certain private education loans that were made to our students in 2007 and early 2008. We guarantee the repayment of any private education loans that the lender charges off above a certain percentage of the total dollar volume of private education loans made under the 2007 RSA. We will have the right to pursue repayment from the borrowers for those charged off private education loans under the 2007 RSA that we pay to the lender pursuant to our guarantee obligation. The 2007 RSA was terminated effective February 22, 2008, such that no private education loans have been or will be made under the 2007 RSA after that date. Based on information that we have received to date from the lender, we believe that the total original principal amount of private education loans made under the 2007 RSA, net of amounts refunded under those loans, was approximately \$180.0 million. Our obligations under the 2007 RSA will remain in effect until all private education loans under the agreement are paid in full or charged off by the lender. The standard repayment term for a private education loan made under the 2007 RSA is ten years, with repayment generally beginning six months after a student graduates, withdraws or is terminated from his or her program of study.

As of March 31, 2012, we had made guarantee payments that were not material under the RSAs. See Notes 8 and 11 of the Notes to Condensed Consolidated Financial Statements for further discussion of the PEAKS Program, the 2009 RSA and the 2007 RSA.

At the end of each reporting period, we assess whether we should recognize a contingent liability related to the various claims and contingencies that we are subject to, including those related to litigation, business transactions, guarantee arrangements and employee-related matters, among others. We record a liability for those claims and contingencies if it is probable that a loss will result and the amount of the loss can be reasonably estimated. Although we believe that our estimates related to any claims and contingencies are reasonable, we cannot make any assurances with regard to the accuracy of our estimates, and actual results could differ materially. As of March 31, 2012, our recorded liability for these claims and contingencies was approximately \$37.5 million and is primarily included in Other liabilities on our Condensed Consolidated Balance Sheet. The substantial majority of this amount pertains to our guarantee arrangements under the RSAs.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

In the normal course of our business, we are subject to fluctuations in interest rates that could impact the return on our investments and the cost of our financing activities. Our primary interest rate risk exposure results from changes in short-term interest rates and the LIBOR.

Our investments consist primarily of government and government agency obligations and marketable debt securities. We estimate that the market risk associated with these investments can best be measured by a potential decrease in the fair value of these investments from a hypothetical 10% increase in interest rates. If such a hypothetical increase in rates were to occur, the reduction in the market value of our portfolio of marketable securities would not be material.

Changes in the LIBOR would affect the borrowing costs associated with our revolving credit facilities. We estimate that the market risk can best be measured by a hypothetical 100 basis point increase in the LIBOR. If such a hypothetical increase in the LIBOR were to occur, the effect on our results from operations and cash flow would not have been material for the three months ended March 31, 2012.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

We are responsible for establishing and maintaining disclosure controls and procedures (DCP) that are designed to ensure that information required to be disclosed by us in the reports filed by us under the Exchange Act is: (a) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and (b) accumulated and communicated to our management, including our principal

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

executive and principal financial officers, to allow timely decisions regarding required disclosures. In designing and evaluating our DCP, we recognize that any controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving the desired control objectives, and that our management's duties require it to make its best judgment regarding the design of our DCP. As of the end of our first fiscal quarter of 2012, we conducted an evaluation, under the supervision (and with the participation) of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our DCP pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our DCP were effective at the reasonable assurance level as of March 31, 2012.

Table of Contents

(b) Changes in Internal Control Over Financial Reporting.

There were no changes in our internal control over financial reporting that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject to various claims and contingencies in the ordinary course of our business, including those related to litigation, business transactions, employee-related matters and taxes, among others. We cannot assure you of the ultimate outcome of any litigation involving us. Any litigation alleging violations of education or consumer protection laws and/or regulations, misrepresentation, fraud or deceptive practices may also subject our affected campuses to additional regulatory scrutiny.

On November 3, 2010, a complaint in a securities class action lawsuit was filed against us and two of our current executive officers in the United States District Court for the Southern District of New York under the following caption: *Operating Engineers Construction Industry and Miscellaneous Pension Fund, Individually and On Behalf of All Others Similarly Situated v. ITT Educational Services, Inc., et al.* (the Securities Litigation). On January 21, 2011, the court named the Wyoming Retirement System as the lead plaintiff in the Securities Litigation. On April 1, 2011, an amended complaint was filed in the Securities Litigation under the following caption: *In re ITT Educational Services, Inc. Securities and Shareholder Derivative Litigation*. The amended complaint alleges, among other things, that:

the defendants violated Section 10(b) and 20(a) of the Exchange Act and Rule 10b-5 promulgated thereunder by creating and implementing a systemically predatory business model that operated as a fraud or deceit on purchasers of our common stock during the class period by misrepresenting our financials and future business prospects;

the defendants' misrepresentations and material omissions caused our common stock to trade at artificially inflated prices throughout the class period; and

the market's expectations were ultimately corrected on August 13, 2010 when the ED published the loan repayment rate of our students under a formula contained in proposed regulations published by the ED on July 26, 2010.

The putative class period in this action is from October 23, 2008 through August 13, 2010. The plaintiff seeks, among other things, the designation of this action as a class action, and an award of unspecified compensatory damages, interest, costs, expenses, attorneys' fees and expert fees. On March 30, 2012, all of the securities class action claims alleged in the Securities Litigation were dismissed. All of the defendants intend to defend themselves vigorously against the allegations made in the complaint.

On November 12, 2010, a complaint in a shareholder derivative lawsuit was filed against three of our current executive officers and all of our current Directors in the United States District Court for the Southern District of New York under the following caption: *Antonio Cosing, Derivatively and On Behalf of ITT Educational Services, Inc. v. Kevin M. Modany, et al.* (the Cosing Lawsuit). The complaint alleges, among other things, that from October 23, 2008 through August 13, 2010, the defendants breached their fiduciary duties to us, abused their ability to control and influence us, grossly mismanaged us, caused us to waste corporate assets and were unjustly enriched, by:

causing us to encourage our students to lie on their financial aid applications;

causing us to lie to our students concerning the costs, quality, value and duration of their programs of study, their job prospects and income expectations upon graduation, and the availability of student financial aid;

causing us to issue a series of materially false and misleading statements regarding our financial results; and

causing or allowing us to lack the requisite internal controls.

The complaint seeks:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

unspecified damages;
extraordinary equitable and/or injunctive relief, including attaching, impounding, imposing a constructive trust on or otherwise restricting the proceeds of, the defendants' assets;
restitution;
disgorgement of profits, benefits and other compensation received by the individual defendants;
an order directing us to take all necessary actions to reform and improve our corporate governance and internal procedures;
and
costs and disbursements, including attorneys', accountants' and experts' fees, costs and expenses.

All of the individual defendants intend to defend themselves vigorously against the allegations in the complaint. On December 14, 2010, the Cosing Lawsuit was consolidated into the Securities Litigation.

- 25 -

Table of Contents

On November 22, 2010, another complaint in a shareholder derivative lawsuit was filed against seven of our current and former officers and all of our current Directors in the United States District Court for the Southern District of Indiana under the following caption: *Roger B. Orensteen, derivatively on behalf of ITT Educational Services, Inc. v. Kevin M. Modany, et al.* The complaint alleges, among other things, that, from January 2008 through August 2010, the defendants violated Sections 10(b) and 20(a) of the Exchange Act, breached their fiduciary duties to us, abused their ability to control and influence us, grossly mismanaged us, caused us to waste corporate assets and were unjustly enriched, by:

- employing devices, schemes and artifices to defraud;
- making untrue statements of material facts, or omitting material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading;
- engaging in acts, practices and a course of business that operated as a fraud or deceit upon the plaintiff or others similarly situated in connection with their purchase of our common stock;
- selling shares of our stock while in possession of material adverse, non-public information;
- causing us to repurchase shares of our stock at artificially inflated prices;
- reviewing and approving false financial statements with respect to us and ineffective internal control over our financial reporting;
- receiving compensation based on artificially inflated financial results and other performance metrics; and
- subjecting us to hundreds of millions of dollars of liability.

The complaint seeks:

- unspecified damages;
- an order directing us to take all necessary actions to reform and improve our corporate governance and internal procedures;
- restitution;
- disgorgements of profits, benefits and other compensation received by the individual defendants; and
- costs and disbursements, including attorneys' fees, accountants' and experts' fees, costs and expenses.

All of the individual defendants intend to defend themselves vigorously against the allegations in the complaint.

On December 3, 2010, another complaint in a shareholder derivative lawsuit was filed against two of our current executive officers and all of our current Directors in the United States District Court for the Southern District of New York under the following caption: *J. Kent Gregory, derivatively on behalf of ITT Educational Services, Inc. v. Kevin M. Modany, et al.* (the Gregory Lawsuit). The complaint alleges, among other things, that the defendants breached their fiduciary duties to us, were unjustly enriched by us and misappropriated information about us, by:

- knowingly, recklessly or negligently signing or approving the issuance of false annual and quarterly financial statements about us that misrepresented and failed to disclose material information about our growth prospects, tuition costs and student loan repayment rates;
- receiving compensation from us that was tied to our performance during times when they knew or should have known that our financial results and performance were artificially inflated; and
- selling our stock when they knew that our financial results were overstated.

The complaint seeks:

- unspecified damages;
- an order directing us to take all necessary actions to reform and improve our corporate governance and internal procedures;
- restitution;
- disgorgement of profits, benefits and other compensation received by the individual defendants; and
- costs and disbursements, including reasonable attorneys' fees, accountants' and experts' fees, costs and expenses.

All of the individual defendants intend to defend themselves vigorously against the allegations in the complaint. The Gregory Lawsuit was consolidated into the Cosing Lawsuit on December 13, 2010 and further consolidated into the Securities Litigation on December 14, 2010.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

Although the derivative actions are brought nominally on behalf of us, we expect to incur defense costs and other expenses in connection with the derivative lawsuits. There can be no assurance that the ultimate outcome of these or other actions (including other actions under federal or state securities laws) will not have a material adverse effect on our financial condition, results of operations or cash flows.

The current and former officers named in one or more of the securities class action and shareholder derivative lawsuits described above include: Jeffrey R. Cooper, Clark D. Elwood, Nina F. Esbin, Eugene W. Feichtner, Daniel M. Fitzpatrick, Kevin M. Modany and Martin Van Buren.

Certain of our current and former officers and Directors are or may become a party in certain of the actions described above. Our By-laws and Restated Certificate of Incorporation obligate us to indemnify our officers and Directors to the fullest extent

Table of Contents

permitted by Delaware law, provided that their conduct complied with certain requirements. We are obligated to advance defense costs to our officers and Directors, subject to the individual's obligation to repay such amount if it is ultimately determined that the individual was not entitled to indemnification. In addition, our indemnity obligation can, under certain circumstances, include indemnifiable judgments, penalties, fines and amounts paid in settlement in connection with those actions.

Item 1A. Risk Factors.

You should carefully consider the risks and uncertainties we describe in this Report and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 before deciding to invest in, or retain, shares of our common stock. These are not the only risks and uncertainties that we face. Additional risks and uncertainties that we do not currently know about, we currently believe are immaterial or we have not predicted may also harm our business operations or adversely affect us. If any of these risks or uncertainties actually occurs, our business, financial condition, results of operations, cash flows or stock price could be materially adversely affected. Except as set forth below, there have been no material changes from the risk factors discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

One or more of our institutions may lose its eligibility to participate in Title IV Programs, if its federal student loan cohort default rates are too high. Under the HEA, an institution may lose its eligibility to participate in some or all Title IV Programs, if the rates at which the institution's students default on their federal student loans exceed specified percentages. The ED calculates these rates for each institution on an annual basis, based on the number of students who have defaulted, not the dollar amount of such defaults. Each institution that participated in the Federal Family Education Loan (FFEL) program and/or William D. Ford Federal Direct Loan (FDL) program receives a FFEL/FDL cohort default rate for each federal fiscal year (FFY) based on defaulted FFEL and FDL program loans. A FFY is October 1 through September 30. Currently, the ED calculates an institution's annual cohort default rate as the rate at which borrowers scheduled to begin repayment on their loans in one FFY default on those loans by the end of the next FFY (Two-Year CDR). Beginning with the calculation of institutions' cohort default rates for FFY 2009, which are expected to be calculated and published by the ED in 2012, the period for which students' defaults will be included in an institution's cohort default rate will be extended by one year, so that the formula will be the rate at which borrowers scheduled to begin repayment on their loans in one FFY default on those loans by the end of the second succeeding FFY (Three-Year CDR).

Currently, if an institution's Two-Year CDR is:

25% or greater for three consecutive FFYs, the institution loses eligibility to participate in the FDL and Pell programs for the remainder of the FFY in which the ED determines that the institution has lost its eligibility and for the two subsequent FFYs; or greater than 40% for one FFY, the institution loses eligibility to participate in the FDL programs for the remainder of the FFY in which the ED determines that the institution has lost its eligibility and for the two subsequent FFYs.

None of our institutions had a Two-Year CDR of 25% or greater for any of the three most recent FFYs for which official or preliminary Two-Year CDRs have been issued by the ED.

The following table sets forth the average of our institutions' Two-Year CDRs for the FFYs indicated:

FFY	Two-Year CDR Average
2010 (a)	16.7%
2009 (b)	22.3%
2008	12.2%
2007	11.5%

- (a) The most recent FFY for which the ED has issued preliminary Two-Year CDRs.
- (b) The most recent FFY for which the ED has published official Two-Year CDRs.

We believe that the increase in the Two-Year CDR average for FFYs 2010 and 2009 compared to the Two-Year CDR average for FFYs 2008 and 2007 was primarily due to the servicing on the FFEL program loans that were purchased by the ED from the lenders (the Purchased Loans). The Purchased Loans were initially serviced by the FFEL program lenders that made those loans, until the Purchased Loans were sold to the ED. Upon receipt of the Purchased Loans, the ED transferred the servicing of those loans to the servicer of the FDL program loans. Shortly thereafter, the ED replaced the servicer of the FDL program loans with four different servicers, and servicing of the Purchased Loans was

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-Q

distributed among the new servicers of the FDL program loans. We believe that the changes in the servicers of the Purchased Loans had a negative impact on the servicing of those loans, which could have resulted in a higher Two-Year CDR average with respect to those loans. Our institutions' Two-Year CDR average for FFYs 2010 and 2009 with respect to the FFEL program loans that were not sold by the FFEL program lenders to the ED (the Retained Loans) was approximately the same as our institutions' Two-Year CDR average for FFY 2008. We believe that this is primarily due to the absence of any disruption in the servicing of the Retained Loans.

We appealed the ITT Technical Institute institutions' official Two-Year CDRs for FFY 2009 on the basis that the Purchased Loans were improperly serviced. We have not yet received the ED's determination with respect to our appeals, but we believe that the average of our ITT Technical Institute institutions' official Two-Year CDRs for FFY 2009 should be lowered by the ED to

Table of Contents

between 13.8% and 19.0%, based on the loan servicing information on the Purchased Loans included in the Two-Year CDRs for FFY 2009 that we obtained from the servicers of those loans. Based on this same information, we believe that the Purchased Loans included in the Two-Year CDRs for FFYs 2010, 2011 and, possibly, 2012 may also have been improperly serviced. As a result, we intend to appeal the ITT Technical Institute institutions' official Two-Year CDRs for FFYs 2010, 2011 and, possibly, 2012 on the basis that the Purchased Loans were improperly serviced.

Beginning with the official Three-Year CDRs for FFY 2009 (which we believe will be published by the ED in September 2012), the cohort default rate for three consecutive FFYs that triggers loss of eligibility to participate in FDL and Pell programs increases from 25% to 30%. We believe that our institutions' Three-Year CDRs will likely be higher than our institutions' Two-Year CDRs, because of longer repayment and default histories, among other factors. The ITT Technical Institute institutions' preliminary average Three-Year CDR for FFY 2009 was 34.2%, and we believe that the ITT Technical Institute institutions' Three-Year CDRs could exceed 30% for FFY 2010, in each case primarily due to the servicing on the Purchased Loans, as discussed above.

Since the same Purchased Loans are included in both the Two- and Three-Year CDRs for FFY 2009, we intend to appeal the ITT Technical Institute institutions' official Three-Year CDRs for FFY 2009 on the basis that those Purchased Loans were improperly serviced, unless the ED removes the improperly serviced Purchased Loans from the calculation of those rates as a result of our appeal of the ITT Technical Institute institutions' official Two-Year CDRs for FFY 2009 discussed above. Similarly and for the same reason that we intend to appeal the Two-Year CDRs for FFYs 2010, 2011 and, possibly, 2012, as discussed above, we intend to appeal the ITT Technical Institute institutions' Three-Year CDRs for FFYs 2010, 2011 and, possibly, 2012.

The ED may place an institution on provisional certification status, if the institution's official:

Two-Year CDR is 25% or greater in any of the three most recent FFYs; or
beginning in 2014, Three-Year CDR is 30% or greater for at least two of the three most recent FFYs.

The ED may more closely review an institution that is provisionally certified, if it applies for approval to open a new location or offer a new program of study that requires approval, or makes some other significant change affecting its eligibility. Provisional certification does not otherwise limit an institution's participation in Title IV Programs.

An institution can appeal its loss of eligibility due to high Three-Year CDRs. During the pendency of any such appeal, the institution remains eligible to participate in the FDL and Pell programs. If an institution continues its participation in the FDL programs during the pendency of any such appeal and the appeal is unsuccessful, the institution must pay the ED the amount of interest, special allowance, reinsurance and any related payments paid by the ED (or which the ED is obligated to pay) with respect to the FDL program loans made to the institution's students or their parents that would not have been made if the institution had not continued its participation (the Direct Costs). If a substantial number of our campuses were subject to losing their eligibility to participate in the FDL and Pell programs because of our institutions' Three-Year CDRs, the potential amount of the Direct Costs for which we would be liable if our appeals were unsuccessful would prevent us from continuing some or all of the affected campuses' participation in the FDL program during the pendency of those appeals, which would have a material adverse effect on our financial condition, results of operations and cash flows.

Current and future economic conditions in the United States could also adversely affect our institutions' Two-Year CDRs and Three-Year CDRs. Increases in interest rates, declines in individuals' incomes, and job losses for our students and graduates or their parents have contributed to, and could continue to contribute to, higher default rates on student loans.

The servicing and collection efforts of student loan servicers help to control our institutions' Two-Year CDRs and Three-Year CDRs. We supplement their efforts by attempting to contact students to advise them of their responsibilities and any deferment, forbearance or alternative repayment plans for which they may qualify.

If any of our institutions lost its eligibility to participate in FDL and Pell programs and we could not arrange for alternative financing sources for the students attending the campuses in that institution, we would probably have to close those campuses, which could have a material adverse effect on our financial condition, results of operations and cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets forth information regarding purchases made by us of shares of our common stock on a monthly basis in the three months ended March 31, 2012:

Table of Contents**Issuer Purchases of Equity Securities**

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
January 1, 2012 through January 31, 2012	0	\$	0	5,796,725
February 1, 2012 through February 29, 2012	1,478,700	\$71.45	1,478,700	4,318,025
March 1, 2012 through March 31, 2012	618,500	\$66.29	618,500	3,699,525
Total	2,097,200	\$69.93	2,097,200	

- (1) The shares that remained available for repurchase under the Repurchase Program were 3,699,525 as of March 31, 2012. Our Board of Directors has authorized us to repurchase the following number of shares of our common stock pursuant to the Repurchase Program:

Number of Shares	Board Authorization Date
2,000,000	April 1999
2,000,000	April 2000
5,000,000	October 2002
5,000,000	April 2006
5,000,000	April 2007
5,000,000	January 2010
5,000,000	October 2010
5,000,000	July 2011
5,000,000	April 2012

The terms of the Repurchase Program provide that we may repurchase shares of our common stock, from time to time depending on market conditions and other considerations, in the open market or through privately negotiated transactions in accordance with Rule 10b-18 of the Exchange Act. Unless earlier terminated by our Board of Directors, the Repurchase Program will expire when we repurchase all shares authorized for repurchase thereunder.

Item 6. Exhibits.

A list of exhibits required to be filed as part of this report is set forth in the Index to Exhibits, which immediately precedes the exhibits, and is incorporated herein by reference.
