*President & CEO*

Dear Shareholder:

Municipal bond performance rose during the six-month period ended March 31, 2012. As the U.S. economy improved, investors shifted away from the perceived safety of U.S. Treasury bonds into higher-yielding debt instruments. This resulted in municipals outperforming comparable U.S. Treasury bonds along most of the interest rate curve ( the yield curve ). The issuance and demand for new municipal securities was strong.

**Six-Month Period in Review through March 31, 2012**

For the six-month period ended March 31, 2012:

PIMCO Municipal Income Fund III rose 11.72% on net asset value ( NAV ) and 14.07% on market price.

PIMCO California Municipal Income Fund III increased 12.06% on NAV and 13.30% on market price.

PIMCO New York Municipal Income Fund III advanced 8.04% on NAV and 10.49% on market price.

In contrast, the Barclays Capital Municipal Bond Index increased a tax-advantaged 3.91% during the reporting period. The broad taxable bond market, represented by the Barclays Capital U.S. Aggregate Bond Index, rose 1.43%.

As the fiscal period began, U.S. gross domestic product ( GDP ), the value of goods and services produced in the country, the broadest measure of economic activity and the principal indicator of economic performance, was growing at a 1.8% annual rate. This increased to 3.0% between October and December 2011. Although GDP data for January to March 2012 has yet to be released, Federal Reserve Chairman Ben Bernanke has indicated that the U.S. economy continued to expand during the period. This improvement was reflected by, among other things, growing consumer confidence, a surge in auto sales and a steady drop in the unemployment rate, which fell to 8.2% from 9.0% during the six-month reporting period.

Underlying concerns regarding the fiscal health of municipal issuers abated somewhat as state tax revenues increased. In the aggregate, however, state coffers remain 7% below pre-recession levels, according to the Center on Budget and Policy Priorities (the Center ). In addition, for fiscal 2013 (beginning July 1, 2012), states are facing, or in some cases have already closed, budget gaps of approximately \$49 billion, according to

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

the Center. This suggests further spending reductions and, in certain instances, tax increases at the state and local level. Unlike the federal government, states, with the exception of Vermont, are required to balance their budgets.

2 PIMCO Municipal Income Funds III Semi-Annual Report 3.31.12

**Table of Contents**

**The Road Ahead**

Front and center in the upcoming presidential election year is the debate over federal taxes and spending. Tax reductions signed into law by President Bush and extended by President Obama are due to expire on December 31, 2012. The 2% payroll tax cut is set to expire on that date, as well as a variety of other revenue enhancements such as limitations on certain personal and business deductions are being discussed. It is not possible to predict what changes, if any, will be implemented in the wake of the November election. It is not unreasonable to believe that fiscal pressures at the federal, state and local level will be with us for years to come. This is likely to bode well for municipal bond investors due to their tax advantages.

For specific information on the Funds and their performance, please review the following pages. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or call the Funds' shareholder servicing agent at (800) 254-5197. In addition, a wide range of information and resources is available on our website, [www.allianzinvestors.com/closedendfunds](http://www.allianzinvestors.com/closedendfunds).

Together with Allianz Global Investors Fund Management LLC, the Funds' investment manager, and Pacific Investment Management Company LLC (PIMCO), the Funds' sub-adviser, we thank you for investing with us.

We remain dedicated to serving your investment needs.

Sincerely,

Hans W. Kertess

### **PIMCO Municipal Income Funds III Fund Insights**

March 31, 2012 (unaudited)

For the six months ended March 31, 2012, PIMCO Municipal Income Fund III returned 11.72% on net asset value ( NAV ) and 14.07% on market price.

For the six months ended March 31, 2012, PIMCO California Municipal Income Fund III returned 12.06% on NAV and 13.30% on market price.

For the six months ended March 31, 2012, PIMCO New York Municipal Income Fund III returned 8.04% on NAV and 10.49% on market price.

The municipal bond market generated solid results during the six-month reporting period ended March 31, 2012. The overall municipal market, as measured by the Barclays Capital Municipal Bond Index (the Index ), posted positive returns during the first five months of the period. This was driven by strengthening municipal fundamentals, including higher tax revenues, as well as relatively modest new issuance. In addition, investor demand was generally strong as investors sought higher incremental yield in the low interest rate environment. The municipal market experienced a slight setback in March, as issuers were incentivized to come to market at historic low yields, adding upward pressure to municipal yields. All told, during the six-month period the Index returned 3.91%.

During the reporting period, a shorter duration than that of the benchmark detracted from all three Funds performance, as municipal yields declined during the six-month period. A steepening yield curve bias was also negative for results, as the municipal curve flattened during the reporting period.

PIMCO Municipal Income Fund III and PIMCO California Municipal Income Fund III had overweight exposures to the tobacco and healthcare sectors. This was beneficial for results as these sectors outperformed the benchmark. PIMCO New York Municipal Income Fund III was also rewarded for having an overweighting to healthcare, as well as benefiting from an overweight position to the strong performing corporate-backed sector.

The Funds benefited from having a preference for revenue bonds versus general obligation bonds. This contributed to results as revenue bonds outperformed their general obligation bond counterparts during the reporting period.

PIMCO Municipal Income Fund III s overweighting to water and sewer detracted from results, as this sector underperformed the benchmark. PIMCO California Municipal Income Fund III and PIMCO New York Municipal Income Fund III had overweight positions to the electric utility sector. This adversely affected performance as this sector underperformed compared with the benchmark.

**Moody's Rating**

(as a % of total investments)

(1) **Past performance is no guarantee of future results.** Total return is calculated by determining the percentage change in NAV or market price (as applicable) in the specified period. The calculation assumes that all income dividends and capital gain distributions, if any, have been reinvested. Total return does not reflect broker commissions or sales charges in connection with the purchase or sale of Fund shares. Total return for a period of less than one year is not annualized. Total return for a period of more than one year represents the average annual total return.

Performance at market price will differ from results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Funds, market conditions, supply and demand for the Funds' shares, or changes in the Funds' dividends.

An investment in the Funds involves risk, including the loss of principal. Total return, market price, market price yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one time public offering and, once issued, shares of closed-end funds are traded in the open market through a stock exchange. NAV is equal to total assets attributable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

(2) Market Price Yield is determined by dividing the annualized current monthly dividend per common share (comprised of net investment income) by the market price per common share at March 31, 2012.

(3) Represents Floating Rate Notes Issued in tender option bond transactions and Preferred Shares (collectively Leverage ) that are outstanding, as a percentage of total managed assets. Total managed assets refer to total assets (including assets attributable to Leverage) minus accrued liabilities (other than liabilities representing Leverage).

**PIMCO Municipal Income Funds III Notes to Schedules of Investments**

March 31, 2012 (unaudited) (continued)

- (a) Private Placement Restricted as to resale and may not have a readily available market. Securities with an aggregate value of \$18,039,497 and \$7,418,998, representing 3.3% and 2.0% of total investments in Municipal III and California Municipal III, respectively.
- (b) Pre-refunded bonds are collateralized by U.S. Government or other eligible securities which are held in escrow and used to pay principal and interest and retire the bonds at the earliest refunding date (payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate).
- (c) 144A Exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (d) Inverse Floater The interest rate shown bears an inverse relationship to the interest rate on another security or the value of an index. The interest rate disclosed reflects the rate in effect on March 31, 2012.
- (e) Variable Rate Notes Instruments whose interest rates change on specified date (such as a coupon date or interest payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). The interest rate disclosed reflects the rate in effect on March 31, 2012.
- (f) Residual Interest Bonds held in Trust Securities represent underlying bonds transferred to a separate securitization trust established in a tender option bond transaction in which each Fund acquired the residual interest certificates. These securities serve as collateral in a financing transaction.
- (g) In default.
- (h) Rates reflect the effective yields at purchase date.

**Glossary:**

AGC	-	insured by Assured Guaranty Corp.

**PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**1. Organization and Significant Accounting Policies**

PIMCO Municipal Income Fund III ( *Municipal III* ), PIMCO California Municipal Income Fund III ( *California Municipal III* ) and PIMCO New York Municipal Income Fund III ( *New York Municipal III* ), each a *Fund* and collectively referred to as the *Funds* or *PIMCO Municipal Income Funds III* , were organized as Massachusetts business trusts on August 20, 2002. Prior to commencing operations on October 31, 2002, the Funds had no operations other than matters relating to their organization and registration as non-diversified, closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended. Allianz Global Investors Fund Management LLC (the *Investment Manager* ) serves as the Funds' investment manager and is an indirect, wholly-owned subsidiary of Allianz Asset Management of America L.P. ( *AAM* ), formerly Allianz Global Investors of America L.P. prior to December 31, 2011. AAM is an indirect, wholly-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has authorized an unlimited amount of common shares with \$0.00001 par value.

Under normal market conditions, *Municipal III* invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. Under normal market conditions, *California Municipal III* invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. Under normal market conditions, *New York Municipal III* invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. There can be no assurance that the Funds will meet their stated objectives. The Funds will generally seek to avoid investing in bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in each Fund's financial statements. Actual results could differ from those estimates.

In the normal course of business, the Funds enter into contracts that contain a variety of representations that provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred.

In May 2011, the Financial Accounting Standards Board ( *FASB* ) issued an Accounting Standards Update ( *ASU* ) to develop common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with Generally Accepted Accounting Principles ( *GAAP* ) and International Financial Reporting Standards ( *IFRSs* ). FASB concluded that the amendments in this ASU will improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRSs. The ASU is effective prospectively for interim or annual periods beginning on or after December 15, 2011. The Funds' management is evaluating the implications of this change.

In December 2011, the FASB issued ASU No. 2011-11, *Disclosures About Offsetting Assets and Liabilities*, which requires enhanced disclosures that will enable users to evaluate the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain financial instruments and derivative instruments. The amendments are effective for fiscal years beginning on or after January 1, 2013. The Funds are currently evaluating the effect that the guidance may have on their financial statements.

The following is a summary of significant accounting policies consistently followed by the Funds:

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

### (a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services.

Portfolio securities and other financial instruments for which market quotations are not readily available, or for which a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Trustees, or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Funds' investments are valued daily using prices supplied by an independent pricing service.

---

**Table of Contents**

**PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**1. Organization and Significant Accounting Policies (continued)**

or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the mean between the last quoted bid and ask price. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange-traded futures are valued at the price determined by the relevant exchange. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and these differences could be material to the Funds' financial statements. Each Fund's net asset value (NAV) is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open for business.

**(b) Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (*i.e.* the exit price) in an orderly transaction between market participants. The three levels of the fair value hierarchy are described below:

- Level 1 quoted prices in active markets for identical investments that the Funds have the ability to access
- Level 2 valuations based on other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.) or quotes from inactive exchanges
- Level 3 valuations based on significant unobservable inputs (including each Funds' own assumptions in determining the fair value of investments)

An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation techniques used.

The valuation techniques used by the Funds to measure fair value during the six months ended March 31, 2012 maximized the use of observable inputs and minimized the use of unobservable inputs.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following are certain inputs and techniques that the Funds generally use to evaluate how to classify each major category of assets and liabilities for Level 2 and Level 3, in accordance with GAAP.

**Municipal Bonds & Notes and Variable Rate Notes** Municipal bonds and notes and variable rate notes, are valued by independent pricing services based on pricing models that take into account, among other factors, information received from market makers and broker-dealers, current trades, bid-want lists, offerings, market movements, the callability of the bond, state of issuance, benchmark yield curves, and bond or note insurance. To the extent that these inputs are observable, the values of municipal bonds and notes and variable rate notes are categorized as Level 2. To the extent that these inputs are unobservable, the values

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

are categorized as Level 3.

U.S. Treasury Obligations U.S. Treasury obligations are valued by independent pricing services based on pricing models that evaluate the mean between the most recently quoted bid and ask price. The models also take into consideration data received from active market makers and broker-dealers, yield curves, and the spread over comparable U.S. Treasury issues. The spreads change daily in response to market conditions and are generally obtained from the new issue market and broker-dealer sources. To the extent that these inputs are observable, the values of U.S. Treasury obligations are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

**Table of Contents****PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**1. Organization and Significant Accounting Policies (continued)**

The Funds' policy is to recognize transfers between levels at the end of the reporting period.

A summary of the inputs used at March 31, 2012 in valuing each Fund's assets and liabilities is listed below (refer to the Schedules of Investments and Note 5(a) for more detailed information on Investments in Securities and Other Financial Instruments):

Municipal III:

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value at 3/31/12
<b>Investments in Securities - Assets</b>				
Municipal Bonds & Notes		\$ 534,712,703		\$ 534,712,703
Variable Rate Notes		15,758,248		15,758,248
<b>Total Investments</b>		\$ 550,470,951		\$ 550,470,951

California Municipal III:

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value at 3/31/12
<b>Investments in Securities - Assets</b>				
California Municipal Bonds & Notes		\$ 353,918,438		\$ 353,918,438
Other Municipal Bonds & Notes		13,148,773		13,148,773
California Variable Rate Notes		1,308,760		1,308,760
<b>Total Investments in Securities - Assets</b>		\$ 368,375,971		\$ 368,375,971

\*

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

Other financial instruments are derivatives not reflected in the Schedules of Investments, such as futures contracts, which are valued at the unrealized appreciation (depreciation) of the instrument.

There were no significant transfers between Levels 1 and 2 during the six months ended March 31, 2012.

**30** PIMCO Municipal Income Funds III Semi-Annual Report 3.31.12

**Table of Contents**

**PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**1. Organization and Significant Accounting Policies (continued)**

A roll forward of fair value measurements using significant unobservable inputs (Level 3) for Municipal III for the six months ended March 31, 2012, was as follows:

	Beginning Balance 9/30/11	Purchases	Sales	Accrued Discounts (Premiums)	Net Realized Gain (Loss)	Net Change in Unrealized Appreciation/ Depreciation	Transfers into Level 3	Transfers out of Level 3**	Ending Balance 3/31/12
<b>Investments in Securities</b>	<b>Assets</b>								
Municipal Bonds & Notes:									
California	\$ 2,313,600		\$ (205,000)			\$ 172,649		\$ (2,281,249)	

\*\* Transferred out of Level 3 into Level 2 because sufficient observable inputs were available.

Net realized gain (loss) and net change in unrealized appreciation/depreciation are reflected on the Statements of Operations.

**(c) Investment Transactions and Investment Income**

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on an identified cost basis. Interest income adjusted for the accretion of discount and amortization of premium is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized, respectively, to interest income over the lives of the respective securities.

**(d) Federal Income Taxes**

The Funds intend to distribute all of their taxable income and to comply with the other requirements of Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

Accounting for uncertainty in income taxes establishes for all entities, including pass-through entities such as the Funds, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Funds' management has determined that its evaluation has resulted in no material impact to the Funds' financial statements at March 31, 2012. The Funds' federal tax returns for the prior three years remain subject to examination by the Internal Revenue Service.

**(e) Dividends and Distributions - Common Shares**

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. The Funds record dividends and distributions to their respective shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment. Temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions to shareholders from return of capital.

### **(f) Inverse Floating Rate Transactions    Residual Interest Municipal Bonds ( RIBs ) / Residual Interest Tax Exempt Bonds ( RITEs )**

The Funds invest in RIBs and RITEs ( Inverse Floaters ), whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. In inverse floating rate transactions, the Funds sell a fixed rate municipal bond ( Fixed Rate Bond ) to a broker who places the Fixed Rate Bond in a special purpose trust ( Trust ) from which floating rate bonds ( Floating Rate Notes ) and Inverse Floaters are issued. The Funds simultaneously or within a short period of time, purchase the Inverse Floaters from the broker. The Inverse Floaters held by the Funds provide the

## **Table of Contents**

### **PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

#### **1. Organization and Significant Accounting Policies (continued)**

Funds with the right to: (1) cause the holders of the Floating Rate Notes to tender their notes at par, and (2) cause the broker to transfer the Fixed-Rate Bond held by the Trust to the Funds, thereby collapsing the Trust. The Funds account for the transaction described above as a secured borrowing by including the Fixed Rate Bond in their Schedules of Investments, and account for the Floating Rate Notes as a liability under the caption Payable for floating rate notes issued in the Funds Statements of Assets and Liabilities. The Floating Rate Notes have interest rates that generally reset weekly and their holders have the option to tender their notes to the broker for redemption at par at each reset date.

The Funds may also invest in Inverse Floaters without transferring a fixed rate municipal bond into a special purpose trust, which are not accounted for as secured borrowings. The Funds may also invest in Inverse Floaters for the purpose of increasing leverage.

The Inverse Floaters are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process typically every 7 to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term rates result in lower income for the long-term component and vice versa. The longer-term bonds may be more volatile and less liquid than other municipal bonds of comparable maturity. Investments in Inverse Floaters typically will involve greater risk than in an investment in Fixed Rate Bonds.

The Funds' restrictions on borrowings do not apply to the secured borrowings deemed to have occurred for accounting purposes. Inverse Floaters held by the Funds are exempt from registration under Rule 144A of the Securities Act of 1933.

In addition to general market risks, the Funds' investments in Inverse Floaters may involve greater risk and volatility than an investment in a fixed rate bond, and the value of Inverse Floaters may decrease significantly when market interest rates increase. Inverse Floaters have varying degrees of liquidity, and the market for these securities may be volatile. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, Inverse Floaters typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. Trusts in which Inverse Floaters may be held could be terminated due to market, credit or other events beyond the Funds' control, which could require the Funds to reduce leverage and dispose of portfolio investments at inopportune times and prices.

#### **(g) Custody Credits on Cash Balances**

The Funds benefit from an expense offset arrangement with their custodian bank, whereby uninvested cash balances earn credits that reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income-producing securities, they would have generated income for the Funds. Cash overdraft charges, if any, are included in custodian and accounting agent fees.

#### **(h) Interest Expense**

Interest expense relates to the Funds' participation in floating rate notes held by third parties in conjunction with Inverse Floater transactions.

## 2. Principal Risks

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to, among other things, changes in the market (market risk) or failure of the other party to a transaction to perform (counterparty risk). The Funds are also exposed to other risks such as, but not limited to, interest rate, credit and leverage risks.

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds are likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile

## **Table of Contents**

### **PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

#### **2. Principal Risks (continued)**

than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income security's market price to interest rate (*i.e.* yield) movements.

Variable and floating rate securities generally are less sensitive to interest rate changes but may decline in value if their interest rates do not rise as much, or as quickly, as interest rates in general. Conversely, floating rate securities will not generally increase in value if interest rates decline. Inverse floating rate securities may decrease in value if interest rates increase. Inverse floating rate securities may also exhibit greater price volatility than a fixed rate obligation with similar credit quality. When the Funds hold variable or floating rate securities, a decrease (or, in the case of inverse floating rate securities, an increase) in market interest rates will adversely affect the income received from such securities and the NAV of the Funds' shares.

The Funds are exposed to credit risk, which is the risk of losing money if the issuer or guarantor of a fixed income security is unable or unwilling, or is perceived (whether by market participants, rating agencies, pricing services or otherwise) as unable or unwilling, to make timely principal and/or interest payments, or to otherwise honor its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.

The market values of securities may decline due to general market conditions (market risk) which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment. They may also decline due to factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities and equity-related investments generally have greater market price volatility than fixed income securities.

The Funds are exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. The potential loss to the Funds could exceed the value of the financial assets recorded in the Funds' financial statements. Financial assets, which potentially expose the Funds to counterparty risk, consist principally of cash due from counterparties and investments. The Funds' sub-adviser, Pacific Investment Management Company LLC (the Sub-Adviser), an affiliate of the Investment Manager, seeks to minimize the Funds' counterparty risk by performing reviews of each counterparty and by minimizing concentration of counterparty risk by undertaking transactions with multiple customers and counterparties on recognized and reputable exchanges. Delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

The Funds are exposed to risks associated with leverage. Leverage may cause the value of the Funds' shares to be more volatile than if the Funds did not use leverage. This is because leverage tends to exaggerate the effect of any increase or decrease in the value of the Funds' portfolio securities. The Funds engage in transactions or purchase instruments that give rise to forms of leverage. In addition, to the extent the Funds employ leverage, interest costs may not be recovered by any appreciation of the securities purchased with the leverage proceeds and could exceed the Funds' investment returns, resulting in greater losses.

The Funds are party to International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreements) with select counterparties that govern transactions, over-the-counter derivatives and foreign exchange contracts entered into by the Funds and those counterparties. The ISDA Master Agreements contain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements of the Funds.

### 3. Financial Derivative Instruments

Disclosure about derivatives and hedging activities requires qualitative disclosure regarding objectives and strategies for using derivatives, quantitative disclosure about fair value amounts of gains and losses on derivatives, and disclosure about credit-risk-related contingent features in derivative agreements. The disclosure requirements distinguish between derivatives, which are accounted for as hedges, and those that do not qualify for such accounting. Although the Funds

3.31.12 PIMCO Municipal Income Funds III Semi-Annual Report

33

**Table of Contents**

**PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**3. Financial Derivative Instruments (continued)**

sometimes use derivatives for hedging purposes, the Funds reflect derivatives at fair value and recognize changes in fair value through the Funds' Statements of Operations, and such derivatives do not qualify for hedge accounting treatment.

**(a) Futures Contracts**

The Funds use futures contracts to manage their exposure to the securities markets or movements in interest rates and currency values. A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Upon entering into such a contract, the Funds are required to pledge to the broker an amount of cash or securities equal to the minimum initial margin requirements of the exchange. Pursuant to the contracts, the Funds agree to receive from or pay to the broker an amount of cash or securities equal to the daily fluctuation in the value of the contracts. Such receipts or payments are known as variation margin and are recorded by the Funds as unrealized appreciation or depreciation. When the contracts are closed, the Funds record a realized gain or loss equal to the difference between the value of the contracts at the time they were opened and the value at the time they were closed. Any unrealized appreciation or depreciation recorded is simultaneously reversed. The use of futures transactions involves various risks, including the risk of an imperfect correlation in the movements in the price of futures contracts, interest rates and underlying hedging assets, and the possible inability or unwillingness of counterparties to meet the terms of their contracts.

**(b) Swap Agreements**

Swap agreements are bilaterally negotiated agreements between the Funds and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals. Swap agreements are privately negotiated in the over-the-counter market (OTC swaps) and may be executed in a multilateral or other trade facility platform, such as a registered commodities exchange (centrally cleared swaps). The Funds enter into credit default, cross-currency, interest rate, total return, variance and other forms of swap agreements in order to manage their exposure to credit, currency and interest rate risk. In connection with these agreements, securities may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

OTC swap payments received or made at the beginning of the measurement period are reflected as such on the Funds' Statements of Assets and Liabilities and represent payments made or received upon entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and prevailing market conditions (credit spreads, currency exchange rates, interest rates, and other relevant factors). These upfront payments are recorded as realized gains or losses on the Funds' Statements of Operations upon termination or maturity of the swap. A liquidation payment received or made at the termination of the swap is recorded as realized gain or loss on the Funds' Statements of Operations. Net periodic payments received or paid by the Funds are included as part of realized gains or losses on the Funds' Statements of Operations. Changes in market value, if any, are reflected as a component of net changes in unrealized appreciation/depreciation on the Funds' Statements of Operations. Daily changes in valuation of centrally cleared swaps, if any, are recorded as a receivable or payable for variation margin on centrally cleared swaps on the Funds' Statements of Assets and Liabilities.

Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of the amounts recognized on the Funds' Statements of Assets and Liabilities. Such risks include the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there may be unfavorable changes in interest rates.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

Interest Rate Swap Agreements Interest rate swap agreements involve the exchange by the Funds with a counterparty of their respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments, with respect to the notional amount of principal. Certain forms of interest rate swap agreements may include: (i) interest rate caps, under which, in return for a premium, one party agrees to make payments to the other to the extent that interest rates exceed a specified rate, or cap, (ii) interest rate floors, under which, in return for a premium, one party agrees to make payments to the other to the extent that interest rates fall below a specified rate, or floor, (iii) interest rate collars, under which a party sells a cap and purchases a floor or vice versa in an attempt to protect itself

**3. Financial Derivative Instruments** (continued)

against interest rate movements exceeding given minimum or maximum levels, (iv) callable interest rate swaps, under which the counterparty may terminate the swap transaction in whole at zero cost by a predetermined date and time prior to the maturity date, (v) spreadlocks, which allow the interest rate swap users to lock in the forward differential (or spread) between the interest rate swap rate and a specified benchmark, or (vi) basis swaps, under which two parties can exchange variable interest rates based on different money markets.

The following is a summary of the fair valuation of the Funds' derivatives categorized by risk exposure.

The effect of derivatives on the Statements of Assets and Liabilities at March 31, 2012:

California Municipal III:

<sup>(1)</sup> Number of contracts<sup>(2)</sup> Notional amount (in thousands)**4. Investment Manager/Sub-Adviser**

Each Fund has an Investment Management Agreement (each an Agreement) with the Investment Manager. Subject to the supervision of the Funds' Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, each Fund's investment activities, business affairs and administrative matters. Pursuant to each Agreement, the Investment Manager receives an annual fee, payable monthly, at an annual rate of 0.65% of each Fund's average daily net assets inclusive of net assets attributable to any Preferred Shares that were outstanding. The Investment Manager has voluntarily agreed to waive a portion of its fee for each Fund at the annual rate of 0.05% of each Fund's average daily net assets inclusive of net assets attributable to any Preferred Shares that were outstanding, for the period from July 1, 2011 through June 30, 2012. For the six months ended March 31, 2012, each Fund paid investment management fees at an annualized effective rate of 0.60% of each Fund's average daily net assets inclusive of net assets attributable to any Preferred Shares that were outstanding.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

The Investment Manager has retained the Sub-Adviser to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser is responsible for making all of the Funds' investment decisions. The Investment Manager, and not the Funds, pays a portion of the fees it receives as Investment Manager to the Sub-Adviser in return for its services.

**Table of Contents****PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**5. Investments in Securities**

For the six months ended March 31, 2012, purchases and sales of investments, other than short-term securities, were as follows:

	Municipal III	California Municipal III	New York Municipal III
Purchases	\$ 118,087,308	\$ 19,297,345	\$ 12,760,813
Sales	120,357,082	19,204,569	11,383,606

(a) Futures contracts outstanding at March 31, 2012:

California Municipal III:

	Type	Contracts	Market Value (000s)	Expiration Date	Unrealized Depreciation
Short:	30-Year U.S. Treasury Bond Futures	(30)	\$ (4,133)	6/20/12	\$ (57,213)

New York Municipal III:

	Type	Contracts	Market Value (000s)	Expiration Date	Unrealized Depreciation
Short:	30-Year U.S. Treasury Bond Futures	(10)	\$ (1,378)	6/20/12	\$ (19,071)

At March 31, 2012, California Municipal III and New York Municipal III pledged cash collateral of \$84,000, and \$28,000, respectively, for futures contracts.

(b) Floating Rate Notes for the six months ended March 31, 2012:

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

The weighted average daily balance of Floating Rate Notes outstanding during the six months ended March 31, 2012 for Municipal III, California Municipal III and New York Municipal III was \$41,799,500, \$40,288,688 and \$8,932,500 at a weighted average interest rate, including fees, of 0.86%, 0.70% and 0.69%, respectively.

### 6. Income Tax Information

Under the recently enacted Regulated Investment Company Modernization Act of 2010, the Funds will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010, for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term capital losses.

At March 31, 2012, the aggregate cost basis and net unrealized appreciation of investments for federal income tax purposes were as follows:

	Federal Tax Cost Basis	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation
Municipal III	\$ 479,997,942	\$ 45,975,365	\$ 7,726,525	\$ 38,248,840
California Municipal III	294,940,992	35,806,386	2,766,986	33,039,400
New York Municipal III	74,902,871	6,834,112	243,419	6,590,693

Differences between book and tax cost were attributable to inverse floater transactions.

**Table of Contents****PIMCO Municipal Income Funds III Notes to Financial Statements**

March 31, 2012 (unaudited)

**7. Auction-Rate Preferred Shares**

Municipal III has 1,512 shares of Preferred Shares Series A, 1,512 shares of Preferred Shares Series B, 1,512 shares of Preferred Shares Series C, 1,512 shares of Preferred Shares Series D and 1,512 shares of Preferred Shares Series E outstanding, each with a liquidation preference of \$25,000 per share plus any accumulated, unpaid dividends.

California Municipal III has 2,500 shares of Preferred Shares Series A and 2,500 shares of Preferred Shares Series B outstanding, each with a liquidation preference of \$25,000 per share plus any accumulated, unpaid dividends.

New York Municipal III has 1,280 shares of Preferred Shares Series A outstanding, with a liquidation preference of \$25,000 per share plus any accumulated, unpaid dividends.

Dividends are accumulated daily at an annual rate (typically re-set every seven days) through auction procedures (or through default procedures in the event of failed auctions). Distributions of net realized capital gains, if any, are paid annually.

For the six months ended March 31, 2012, the annualized dividend rates for each Fund ranged from:

	High	Low	At March 31, 2012
Municipal III:			
Series A	0.364%	0.107%	0.259%
Series B	0.274%	0.107%	0.274%
Series C	0.331%	0.107%	0.274%
Series D	0.364%	0.107%	0.274%
Series E	0.274%	0.107%	0.244%
California Municipal III:			
Series A	0.274%	0.107%	0.274%
Series B	0.364%	0.107%	0.274%
New York Municipal III:			
Series A	0.364%	0.107%	0.259%

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring or paying any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation preference plus any accumulated, unpaid dividends.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

Preferred shareholders, who are entitled to one vote per share, generally vote together with the common shareholders but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

Since mid-February 2008, holders of auction-rate preferred shares ( ARPS ) issued by the Funds have been directly impacted by an unprecedented lack of liquidity, which has similarly affected ARPS holders in many of the nation's closed-end funds. Since then, regularly scheduled auctions for ARPS issued by the Funds have consistently failed because of insufficient demand (bids to buy shares) to meet the supply (shares offered for sale) at each auction. In a failed auction, ARPS holders cannot sell all, and may not be able to sell any, of their shares tendered for sale. While repeated auction failures have affected the liquidity for ARPS, they do not constitute a default or automatically alter the credit quality of the ARPS, and the ARPS holders have continued to receive dividends at the defined maximum rate equal to the higher of the 30-day AA Composite Commercial Paper Rate multiplied by 110% or the Taxable Equivalent of the Short-Term Municipal Obligations Rate-defined as 90% of the quotient of (A) the per annum rate expressed on an interest equivalent basis equal to the Kenny S&P 30-day High Grade Index divided by (B) 1.00 minus the Marginal Tax Rate (expressed as a decimal) multiplied by 110% (which is a function of short-term interest rates and typically higher than the rate that would have otherwise been set through a successful auction). If the Funds' ARPS auctions continue to fail and the maximum rate payable on the ARPS rises as a result of changes in short-term interest rates, returns for the Funds' common shareholders could be adversely affected.

**8. Subsequent Events**

On April 2, 2012, the following dividends were declared to common shareholders payable May 1, 2012 to shareholders of record on April 12, 2012:

Municipal III	\$0.07 per common share
California Municipal III	\$0.06 per common share
New York Municipal III	\$0.0525 per common share

On May 1, 2012, the following dividends were declared to common shareholders payable June 1, 2012 to shareholders of record on May 11, 2012:

Municipal III	\$0.07 per common share
California Municipal III	\$0.06 per common share
New York Municipal III	\$0.0525 per common share

There were no other subsequent events that require recognition or disclosure. In preparing these financial statements, the Funds management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

- (1) Total investment return is calculated assuming a purchase of a common share at the market price on the first day and a sale of a common share at the market price on the last day of each period reported. Dividends are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges in connection with the purchase or sale of Fund shares. Total investment return for a period of less than one year is not annualized.
- (2) Calculated on the basis of income and expenses applicable to both common and preferred shares relative to the average net assets of common shareholders.
- (3) Inclusive of expenses offset by custody credits earned on cash balances at the custodian bank. (See Note 1(g) in Notes to Financial Statements).
- (4) Interest expense relates to the liability for floating rate notes issued in connection with Inverse Floater transactions and/or participation in reverse repurchase agreement transactions.
- (5) During the periods indicated above, the Investment Manager waived a portion of its fee. The effect of such waiver relative to the average net assets of common shareholders was 0.08% (annualized), 0.02%, 0.01%, 0.10%, 0.17% and 0.24%, for the six months ended March 31, 2012 and the years ended September 30, 2011, September 30, 2010, September 30, 2009, September 30, 2008 and September 30, 2007, respectively.

### **PIMCO Municipal Income Funds III**

#### **A Note Regarding Matters Relating to the Trustees Consideration of the Investment Management & Portfolio Management Agreements (unaudited)**

Reference is made to the section of the Funds September 30, 2011 Annual Report (the September Annual Report ) entitled Matters Relating to the Trustees Consideration of the Investment Management & Portfolio Management Agreements, which discussed the material factors and conclusions that formed the basis for the Boards approval, at their June 14-15, 2011 in-person meetings (the June 2011 contract review meeting ), of the continuance of the Funds Management Agreements with the Investment Manager (the Advisory Agreements ) and Portfolio Management Agreements between the Investment Manager and the Sub-Adviser (the Sub-Advisory Agreements ) for a one-year period commencing July 1, 2011.

Subsequent to the date of the June 2011 contract review meeting, it was discovered that there were certain inaccuracies in the information provided to the Boards by Morningstar Associates LLC ( Morningstar ) with respect to the performance and/or expense figures shown for the Funds and their related rankings among peer group funds. In consultation with the Investment Manager, Morningstar produced a revised version of the information correcting the identified inaccuracies, which was provided to the Trustees for their consideration at a meeting held on December 13-14, 2011.

In considering the revised information, the Trustees noted, among other differences, that the following information from the revised Morningstar materials differed from information summarized in the September Annual Report as having been considered by the Trustees at the June 2011 contract review meeting:

#### **Municipal III:**

The Fund actually ranked sixth, rather than ninth, out of thirteen funds in the expense peer group for total net expense ratio based on common share assets and leveraged assets combined.

With respect to Fund performance (based on net asset value), the Fund outperformed its benchmark and actually ranked tenth, rather than eleventh, out of twelve funds for the one-year period ended February 28, 2011.

#### **California Municipal III:**

The Fund actually ranked fifth, rather than ninth, out of twelve funds in the expense peer group for total net expense ratio based on common share and leveraged assets combined. The Fund actually ranked eighth, rather than sixth out of twelve funds in actual management fees.

With respect to Fund performance (based on net asset value), the Fund actually ranked seventh, rather than ninth, out of twelve funds for the one-year ended period ended February 28, 2011.

#### **New York Municipal III:**

The Fund actually ranked eleventh, rather than seventh, out of eleven funds in the expense peer group for total net expense ratio based on common share and leveraged assets combined. The Fund actually ranked fifth, rather than seventh, out of eleven funds in actual management fees.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND III - Form N-CSRS

With respect to Fund performance (based on net asset value), the Fund actually ranked eighth, rather than ninth, out of eleven funds for the one-year ended February 28, 2011.

After considering the revised Morningstar information and taking into account the other information and factors considered as part of the June 2011 contract review meeting, the Trustees, including the non-interested Trustees, determined at their December 2011 meeting that the revised Morningstar information, if it had been considered at the time of the June 2011 contract review meeting, would not have changed their determination to approve the continuance of the Funds Advisory Agreements and Sub-Advisory Agreements for a one-year period commencing July 1, 2011, as specified in the September Annual Report.
