Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of

Marathon Petroleum Thrift Plan

We have audited the accompanying statement of net assets available for benefits of the Marathon Petroleum Thrift Plan (the Plan) as of December 31, 2011, and the related statement of changes in net assets available for benefits for the period from July 1, 2011 (Date of Inception) to December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011, and the changes in net assets available for benefits for the period from July 1, 2011 (Date of Inception) to December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Thrift Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following brief description of the Marathon Petroleum Thrift Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description or the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution thrift savings plan. The Plan covers substantially all regular and casual employees of (1) Marathon Petroleum Company LP (the Company), which is a wholly owned subsidiary of Marathon Petroleum Corporation, and (2) employees participating in the Retirement Plan of the Company, (excluding employees of Speedway LLC, which is a separate wholly owned subsidiary of Marathon Petroleum Corporation). In order to participate in the Plan, employees must have one year of vesting service and be 21 years of age or older. An eligible employee may participate in the Plan by making contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was created effective July 1, 2011 contingent upon the issuance of a favorable determination letter from the Internal Revenue Service as discussed in Note 10, as a spin-off of the Marathon Oil Company Thrift Plan. As a part of the spin-off agreement, the Marathon Oil Company Thrift Plan provided a transfer of assets to the Plan representing the account balances of the participants transferring to the Plan. This transfer into the Plan is shown in the Statement of Changes in Net Assets Available for Benefits.

Contributions

Participants may elect to make contributions from 1 percent to a maximum of 18 percent of their gross pay consisting of after-tax contributions, or 1 percent to a maximum of 25 percent of their gross pay consisting of pre-tax contributions, Roth 401(k) contributions, or a combination of both. In addition, catch-up contributions and Roth 401(k) catch-up contributions are allowed under the Plan, which allow for additional contributions for participants who have attained age 50 before the close of the Plan year as permitted under the Internal Revenue Code (the Code). An active participant may make any combination of after-tax, pre-tax, and Roth 401(k) payroll contributions provided that the participant does not exceed the maximums permitted under the Code or the limits set forth in the Plan document.

The contributions of highly compensated employees are subject to additional limitations pursuant to the provisions of Code Sections 401(k) and 401(m). Compensation of a participant taken into account under the Plan is limited to \$245,000 for 2011, as provided in Code Section 401(a)(17).

Participants may also make rollover contributions or direct-plan transfer contributions of qualified distributions from the qualified plans of the Company, its subsidiaries, its affiliates, and any other qualified plans or individual retirement accounts (IRA) upon specific authorization and subject to such terms and conditions as set forth by the Plan administrator.

Table of Contents

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

To the extent that the Company had accumulated earnings and profits, the Company matched on a dollar for dollar basis each participant's after-tax, Roth 401(k), or pre-tax contributions to the Plan up to an aggregate of 7 percent of each participant's gross pay during the period July 1, 2011 through December 31, 2011.

Valuation of Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings (losses) based on the participant's relative investment holdings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully and immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in the Company contributions, plus actual earnings thereon, upon the earliest of the following: upon retirement under the Retirement Plan of the Company as then in effect; at death; after three years of service with the Company or a participating employer; upon attainment of age 65; or upon the termination or partial termination of the Plan.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are collateralized by the balance in the participant's account and bear interest rates that currently range from 3.25 percent to 9.50 percent, determined in accordance with Plan provisions and include loans transferred in from the Marathon Oil Company Thrift Plan. Principal and interest is paid ratably through payroll deductions for active employees and through automatic electronic loan repayments for participants not receiving pay and retirees.

Payment of Benefits

On termination of service, unless a participant elects otherwise or as required by the Code, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In general, the participant alternatively may elect to defer the commencement of benefits until a date no later than the April 1 immediately following the calendar year in which such participant attains age 70-1/2. In accordance with the provisions of the Code, mandatory distributions greater than \$1,000 require automatic rollover to an IRA for participants who fail to make an active election otherwise available under the Plan. A retired member or a spouse beneficiary member may withdraw, during any year, all or any portion of the remaining balance in his or her account, provided that no withdrawal of less than \$500 be made, unless it constitutes the entire remaining balance. Such withdrawals are limited to a maximum of four in a Plan year. An installment settlement option is available to retired participants, active participants (currently employed) who are at least age 70-1/2 and spouse beneficiary participants. A participant may elect to receive his or her benefit on an installment basis with a minimum of three annual installments and the maximum number of annual installments equal to the remaining actuarial life expectancy of the participant at the time of commencement of benefits. Each participant shall designate a beneficiary or beneficiaries to receive his or her Plan benefit upon the participant's death. Active participants or participants with accounts in suspense are eligible to withdraw a portion of their after-tax, rollover or vested Company matching amounts subject to the provisions of the Plan.

Table of Contents

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

Forfeitures

Non-vested participants whose services with the Company have been terminated will forfeit their entire Company-matching contribution and earnings thereon when either of the following takes place: (1) they remove their participant contributions from the Plan, or (2) they do not regain employment within five years of termination. Company contributions and earnings thereon are eligible for reinstatement, should a member be rehired prior to the limitation indicated under the Plan. Total forfeitures of zero dollars for the period July 1, 2011 to December 31, 2011 were used to reduce employer matching contributions made to the Plan. As of December 31, 2011, forfeited non-vested accounts totaled \$17,054.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of the funds which are made available through the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Table of Contents

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2011. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Administration of Plan Assets

All costs, expenses, and fees incurred in administering the Plan, to the extent not paid by the Company, are incurred by the participants. Fees or charges for investment management services are not paid by the Company but are borne by the participants electing such services. Any taxes applicable to the participants' account are charged or credited to the participants' account by Fidelity Management Trust Company (Fidelity), or the Trustee).

The Stable Value Fund (the Fund) is managed by Fidelity Management Trust Company (FMTC) pursuant to a trust agreement. Any fees charged by FMTC are deducted from the interest earned by Plan members in the Fund. The total amount of fees charged for 2011 in connection with the Fund was \$378,035.

3. Accounting Standards Update

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU requirement is, for Level 3 fair value measurements, to disclose quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivities of the measurements. The guidance is effective for interim and annual periods beginning after December 15, 2011. Because the Plan does not have Level 3 activity, we do not expect the adoption of this ASU to have a material impact on the Plan's financial statements.

4. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. There are three approaches for measuring the fair value of assets and liabilities: the market approach, the income approach and the cost approach, each of which includes multiple valuation techniques. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities. These inputs have the highest priority;

Table of Contents

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

Level 2 inputs consist of observable market-based inputs or unobservable inputs that are corroborated by market data, and are either directly or indirectly observable as of the measurements date;

Level 3 inputs are unobservable inputs that are not corroborated by market data and may be used with internally developed methodologies that result in management's best estimate of fair value. These inputs have the lowest priority.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following provides a description of the valuation techniques employed for each major plan asset category at December 31, 2011.

Interest-bearing cash Interest-bearing cash includes cash on deposit and investments in money market mutual funds that invests mainly in short-term instruments and cash, both of which are valued using a market approach and are considered Level 1 in the fair value hierarchy. The money market mutual funds are valued at the net asset value (NAV) of shares held.

Common stock Investments in common stocks are valued using a market approach at the closing price reported in an active market and is therefore considered Level 1.

Mutual funds Investments in mutual funds are valued using a market approach at the NAV of shares held. The NAV is generally based on prices from a public exchange, which is normally the principal market on which a significant portion of the underlying investments are traded, and is considered Level 1.

Common Collective Trusts (CCTs) Investment in CCTs are valued using a market approach at the NAV of units held, but investment opportunities in such funds are limited to institutional investors on behalf of defined contribution plans. A significant portion of the underlying investments are mainly publicly traded. This investment is considered Level 2.

The majority of the CCTs are Pyramis Core Lifecycle (2000, 2005, 2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045, and 2050) Commingled Pools. These pools seek active return until the pool's targeted retirement year. Thereafter, the pool's objective will be capital preservation. These pools invest in a diversified portfolio of equity, fixed income, and/or short-term products. The underlying pools may use futures, options, swaps, and exchange traded funds to remain fully invested, while being able to respond to participant cash flows and to take advantage of changes in interest rates and other factors affecting value. Each pool's target asset allocation percentages will become more conservative over time by reducing allocation to equity and increasing allocations to fixed income and /or short-term products. Each pool's retirement date target allocation will be approximately 50 percent equity index, 40 percent fixed income index and 10 percent short term. There are no redemption restrictions on these CCTs.

Table of Contents**Marathon Petroleum****Thrift Plan****Notes to Financial Statements****December 31, 2011**

The remaining CCT is the Fidelity US Equity Index Fund. The fund's objective is to seek a return that corresponds to the total return performance of common stock publicly traded in the United States. Under normal conditions, 90 percent of the fund will be invested in securities of companies which compose the S&P 500 Index. The remaining portion of the fund's assets may be in stock index futures and options and collective investment vehicles or shares of investment companies that are managed by the Trustee or its affiliates. There are currently no redemption restrictions on this CCT.

Synthetic Investment Contracts (SICs) A fund which primarily invests in several investment contracts issued by insurance companies and other approved financial institutions, and other short-term investments. The Fund is valued using a market and cost approach as described in Note 6. This investment with exception of cash and equivalent investments is considered Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2011			Total
	Level 1	Level 2	Level 3	
Mutual funds:

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

5. Investments

The following presents individual investments that represent 5 percent or more of the Plan's net assets available for benefits at:

	December 31, 2011
Interest-Bearing Cash-Fidelity Institutional Cash Portfolios	\$ 85,038,543
Natixis Financial Products Wrapper Contract 1706-01*	97,904,386
State Street Bank & Trust Company Boston 111013*	97,912,200
Marathon Oil Corporation Common Stock	87,669,543
Marathon Petroleum Company Common Stock	88,826,627
Chase Manhattan Bank Wrapper Contract MARAPETRO-7-11*	132,555,301

* SICs are investments included in the Fund comprised of underlying assets and wrapper contracts (used as liquidity guarantees).

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$105,763,042 as follows:

Mutual funds	\$ (76,819,621)
Common/Collective Trusts	(6,505,915)
MOC Common stock	(8,872,998)
MPC Common stock	(13,564,508)
	\$ (105,763,042)

6. Stable Value Fund

The Fund's investment objective is to seek the preservation of capital and to provide a level of interest income that is consistent with capital preservation. The Fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions (wrapper contracts), fixed income securities, and cash equivalents (e.g., money market funds). The Fund comprised approximately 23 percent of total Plan investments at December 31, 2011.

Table of Contents**Marathon Petroleum****Thrift Plan****Notes to Financial Statements****December 31, 2011**

At December 31, 2011 the Plan held SICs of \$313,036,026 recorded at contract value. A SIC is comprised of two components, an underlying asset and a wrapper contract. The wrapper contract guarantees the SICs value. The underlying asset is valued at representative quoted market prices. Contract value represents contributions made to the fund, plus earnings, less withdrawals and transfers from the Fund and administrative expenses. Ordinarily, participants may direct the withdrawal or transfer of all or a portion of their investment in the fund at contract value. The fair values of the SICs held within the Fund are determined based on the market values of the contracts underlying securities plus any accrued income.

The following presents the fair value, adjustment to contract value, and the major credit rating of each individual wrap contract held within the Fund at December 31, 2011:

December 31, 2011	Fair Value	Adjustment to Contract Value	S&P* Credit Rating
Natixis Financial Products Wrapper Contract 1706-01	\$ 97,904,386	\$ (4,572,401)	A+
State Street Bank & Trust Boston Wrapper Contract 111013	97,912,200	(4,572,766)	AA-
Chase Manhattan Bank Wrapper Contract MARAPETRO-7-11	132,555,301	(6,190,694)	A+
	\$ 328,371,887	\$ (15,335,861)	

* Standard and Poors

Wrap contracts are fair valued using a replacement cost methodology. If the fee to replace a particular wrap contract is the same as the current fee, the value of the wrap contract is zero. If the fee is different, a calculation is performed using the revised fee (i.e., the fair value of the wrap is equal to the present value of the difference between the current fee and the replacement fee).

The remaining assets of \$86,574,610 held by the Fund at December 31, 2011 are invested in cash equivalents, for which the stated cost approximates fair value.

The Fund's average yield for 2011 was 2.15 percent. The Fund's crediting rate at December 31, 2011 was 2.19 percent. Wrap contracts use a crediting rate formula to convert market value changes in the underlying assets into income distributions in order to minimize the difference between the market value and contract value of the underlying assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the current market value at the current yield to maturity for a period equal to the duration of the wrapped assets. The crediting rate may be affected by many factors, including purchases and redemptions by participants, but the precise impact depends on whether the market value of the underlying assets is higher or lower than the contract value of those assets. Crediting rates are typically reset, if needed, on a monthly basis. The wrap contracts provide a guarantee that the crediting rate will not fall below zero percent.

Table of Contents

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

A wrap issuer may terminate a wrap contract at any time. In the event that the market value of the Fund's covered assets is below its contract value at the time of such termination, FMTC may elect to keep the wrap contract in place until such time as the market value of the Fund's covered assets is equal to its contract value (normally an amount of time roughly equal to the duration of the underlying assets at notification date). A wrap issuer may also terminate a wrap contract if FMTC's investment management authority over the Fund is limited or terminated as well as if the certain terms of the wrap contract fail to be met. In addition, wrap contracts limit the ability of the Fund to transact at contract value upon the occurrence of certain events (including but not limited to, the complete or partial termination of the plan, group layoffs, early retirement programs, the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Code). However, the Plan administrator believes the occurrence of these types of events is not probable at this time.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2011:

Net assets available per the financial statements	\$ 1,418,855,359
Adjustment from fair value to contract for fully benefit-responsive investment contracts	15,335,861
Net assets available for benefits per the Form 5500	\$ 1,434,191,220

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the period from July 1, 2011 to December 31, 2011:

	2011
Increase in net assets available for benefits per the financial statements	\$ 1,418,855,359
Adjustment from fair value to contract value for benefit-responsive investment contracts	
Current year adjustment	15,335,861
Increase in net assets available for benefits per Form 5500	\$ 1,434,191,220

Table of Contents

Marathon Petroleum

Thrift Plan

Notes to Financial Statements

December 31, 2011

8. Party-in-Interest Transactions

Transactions involving shares of Marathon Petroleum Corporation common stock are performed by the trustee on the open market, unless otherwise directed by the Company, in which case, shares may be bought or sold directly from Marathon Petroleum Corporation. During 2011, all shares of Marathon Petroleum Corporation stock were purchased on the open market.

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

9. Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

10. Tax Status

The Plan was established effective as of July 1, 2011 in connection with the spin-off of the Company's corporate parent, Marathon Petroleum Corporation, from its former parent company, Marathon Oil Corporation. The Plan was established as a mirror plan of the plan sponsored by Marathon Oil Corporation which covered the Company's employees prior to the spin-off. With respect to the prior plan from which the Plan was mirrored, the Internal Revenue Service (IRS) had determined by letter dated May 7, 2003, that the prior plan met the requirements of Code Section 401(a), and was therefore a qualified plan not subject to tax under present income tax law. The Plan has not yet received its own determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and is therefore a tax qualified plan. It is the intent of the sponsor Company to seek an IRS determination letter on the Plan within its current IRS prescribed determination letter cycle.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Thrift Plan

Notes to Financial Statements

December 31, 2011

11. Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

** A SIC is comprised of two components, an underlying asset and a wrapper contract. The underlying assets are valued at representative quoted market prices. The wrapper contracts are valued by using replacement cost methodology. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. The wrapper contract guarantees the SIC contract value.

*** Pages 22 thru 31 list the fair value of each underlying investment of the SICs.
