PROSPECTUS SUPPLEMENT

(To prospectus dated March 29, 2012)

\$38,750,000

7.00% Senior Notes due 2019

We are an internally-managed, non-diversified closed-end management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. Our investment objective is to maximize our portfolio total return by generating current income from our debt investments and capital appreciation from our equity-related investments.

We are offering \$38,750,000 in aggregate principal amount of 7.00% senior notes due 2019, or the Notes. The Notes offered hereby will be a further issuance of, rank equally in right of payment with, and form a single series for all purposes under the indenture including, without limitation, waivers, amendments, consents, redemptions and other offers to purchase and voting, with the \$43,000,000 aggregate principal amount of 7.00% senior notes due 2019 initially issued by us on April 17, 2012, or the Existing Notes. The Notes will mature on April 30, 2019. We will pay interest on the Notes on January 30, April 30, July 30 and October 30 of each year, beginning on July 30, 2012. We may redeem the Notes in whole or in part at any time or from time to time on or after April 30, 2015, at the redemption price set forth under Specific Terms of the Notes and the Offering Optional redemption in this prospectus supplement. The Notes will be issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

The Notes will be our direct senior unsecured obligations and rank *pari passu* with all outstanding and future unsecured unsubordinated indebtedness issued by Hercules Technology Growth Capital, Inc.

The Existing Notes are listed on the New York Stock Exchange, or the NYSE, and trade on the NYSE under the symbol HTGZ. We intend to list the Notes offered hereby on the NYSE under the same trading symbol. The Notes are expected to trade flat, which means that purchasers in the secondary market will not pay, and sellers will not receive, any accrued and unpaid interest on the Notes that is not reflected in the trading price.

An investment in the Notes involves risks that are described in the Supplementary Risk Factors section beginning on page S-14 in this prospectus supplement and the Risk Factors section beginning on page 16 of the accompanying prospectus.

This prospectus supplement and the accompanying prospectus contain important information you should know before investing in the Notes. Please read this prospectus supplement and the accompanying prospectus before investing and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission. This information is available free of charge by contacting us at 400 Hamilton Avenue, Suite 310, Palo Alto, California 94301, or by telephone by calling collect at (650) 289-3060 or on our website at www.herculestech.com. The SEC also maintains a website at www.sec.gov that contains such information. The information on the websites referred to herein is not incorporated by reference into this prospectus supplement or the accompanying prospectus.

	Per Note	Total
Public offering price ⁽¹⁾	100.00%	\$ 38,750,000
Sales load (underwriting discounts and commissions)	3.00%	\$ 1,162,500
Proceeds to us (before expenses) ⁽²⁾	97.00%	\$ 37,587,500

⁽¹⁾ Plus accrued interest from April 17, 2012 (as if the Notes offered hereby had been issued on such date).

⁽²⁾ Before deducting expenses payable by us related to this offering, estimated at \$475,000.

The underwriters may also purchase up to an additional \$5,812,500 total aggregate principal amount of Notes offered hereby, to cover overallocments, if any, within 30 days of the date of this prospectus supplement. If the underwriters exercise this option in full, the total public offering price, excluding accrued interest, will be \$44,562,500, the total sales load (underwriting discounts and commissions) paid by us will be \$1,336,875, and total proceeds, before expenses and excluding accrued interest, will be \$43,225,625.

THE NOTES ARE NOT DEPOSITS OR OTHER OBLIGATIONS OF A BANK AND ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENT AGENCY.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Delivery of the Notes in book-entry form only through The Depository Trust Company will be made on or about July 6, 2012.

Table of Contents**SPECIFIC TERMS OF THE NOTES AND THE OFFERING**

This prospectus supplement sets forth certain terms of the Notes that we are offering pursuant to this prospectus supplement and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. On April 17, 2012, we and U.S. Bank National Association, or the Trustee, entered into the first supplemental indenture, or the First Supplemental Indenture, to the indenture, or the Indenture, between us and the Trustee, dated March 6, 2012, relating to our issuance, offer and sale of \$43.0 million aggregate principal amount of 7.00% senior notes due 2019, the Existing Notes. We will issue the Notes offered hereby under the same First Supplemental Indenture. The Notes offered hereby will be a further issuance of, rank equally in right of payment with, and form a single series for all purposes under the Indenture, including, without limitation, waivers, amendments, consents, redemptions and other offers to purchase and voting, with the Existing Notes. Unless otherwise indicated, the Notes offered hereby and the Existing Notes are collectively referred to herein as the Notes. This section outlines the specific legal and financial terms of the Notes. You should read this section together with the more general description of the Notes in the accompanying prospectus under the heading Description of Our Debt Securities before investing in the Notes. Capitalized terms used in this prospectus supplement and not otherwise defined shall have the meanings ascribed to them in the accompanying prospectus or in the indenture governing the Notes.

Issuer	Hercules Technology Growth Capital, Inc.
Title of the securities	7.00% Senior Notes due 2019
Initial aggregate principal amount being offered	\$38,750,000
Overallotment option	The underwriters may also purchase from us up to an additional \$5,812,500 aggregate principal amount of Notes to cover overallotments, if any, within 30 days of the date of this prospectus supplement.
Initial public offering price	100.00% of the aggregate principal amount, plus accrued interest from April 17, 2012
Principal payable at maturity	100% of the aggregate principal amount; the principal amount of each Note will be payable on its stated maturity date at the office of the Paying Agent, Registrar and Transfer Agent for the Notes or at such other office in The City of New York as we may designate.
Type of Note	Fixed rate note
Listing	The Existing Notes are listed on the New York Stock Exchange, or the NYSE, and trade on the NYSE under the symbol HTGZ. We intend to list the Notes offered hereby on the NYSE under the same trading symbol.
Interest rate	7.00% per year
Day count basis	360-day year of twelve 30-day months
Original issue date	April 17, 2012
Stated maturity date	April 30, 2019
Date interest starts accruing	April 17, 2012
Interest payment dates	Each January 30, April 30, July 30 and October 30, commencing July 30, 2012. If an interest payment date falls on a non-business day, the applicable interest payment will be made on the next business day and no additional interest will accrue as a result of such delayed payment.

Table of Contents

Interest periods	The initial interest period will be the period from and including April 17, 2012, to, but excluding, the initial interest payment date, and the subsequent interest periods will be the periods from and including an interest payment date to, but excluding, the next interest payment date or the stated maturity date, as the case may be.
Regular record dates for interest	Each January 15, April 15, July 15 and October 15.
Specified currency	U.S. Dollars
Place of payment	New York City
Ranking of Notes	<p>The Notes will be our direct unsecured obligations and will rank:</p> <p style="padding-left: 40px;"><i>pari passu</i> with our other outstanding and future senior unsecured indebtedness, including without limitation, the \$75 million 6.00% Convertible Senior Notes due 2016 (the "Convertible Senior Notes");</p> <p style="padding-left: 40px;">senior to any of our future indebtedness that expressly provides it is subordinated to the Notes;</p> <p style="padding-left: 40px;">effectively subordinated to all our existing and future secured indebtedness (including indebtedness that is initially unsecured to which we subsequently grant security), to the extent of the value of the assets securing such indebtedness, including without limitation, borrowings under our credit facilities.</p> <p style="padding-left: 40px;">structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries, including without limitation, the indebtedness of Hercules Technology II, L.P. and Hercules Technology III, L.P. and borrowings under our revolving senior secured credit facility with Wells Fargo Capital Finance (the "Wells Facility").</p>
Denominations	We will issue the Notes in denominations of \$25 and integral multiples of \$25 in excess thereof.
Business day	Each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in New York City are authorized or required by law or executive order to close.
Optional redemption	The Notes may be redeemed in whole or in part at any time or from time to time at our option on or after April 30, 2015, upon not less than 30 days nor more than 60 days written notice by mail prior to the date fixed for redemption thereof, at a redemption price of 100% of the outstanding principal amount thereof plus accrued and unpaid interest payments otherwise payable for the then-current quarterly interest period accrued to but not including the date fixed for redemption.

Table of Contents

You may be prevented from exchanging or transferring the Notes when they are subject to redemption. In case any Notes are to be redeemed in part only, the redemption notice will provide that, upon surrender of such Note, you will receive, without a charge, a new Note or Notes of authorized denominations representing the principal amount of your remaining unredeemed Notes.

Any exercise of our option to redeem the Notes will be done in compliance with the Investment Company Act of 1940, as amended, and the rules, regulations and interpretations promulgated thereunder, which we collectively refer to as the 1940 Act, to the extent applicable.

If we redeem only some of the Notes, the Trustee or DTC, as applicable, will determine the method for selection of the particular Notes to be redeemed, in accordance with their standard operating procedures in accordance with the 1940 Act, to the extent applicable and in accordance with the rules of any national securities exchange or quotation system on which the Notes are listed. Unless we default in payment of the redemption price, on and after the date of redemption, interest will cease to accrue on the Notes called for redemption.

Under our credit facility with Union Bank, N.A. and Royal Bank of Canada (the Union Bank Facility), we currently would not be permitted to exercise our optional redemption right without the consent of the lenders.

Sinking fund

The Notes will not be subject to any sinking fund.

Repayment at option of Holders

Holder will not have the option to have the Notes repaid prior to the stated maturity date.

Defeasance and covenant defeasance

The Notes are subject to defeasance by us.

The Notes are subject to covenant defeasance by us.

Under the Union Bank Facility, we currently would be prohibited from defeasing the Notes or effecting covenant defeasance under the Notes without the consent of the lenders.

Form of Notes

The Notes will be represented by global securities that will be deposited and registered in the name of The Depository Trust Company, or DTC, or its nominee. Except in limited circumstances, you will not receive certificates for the Notes. Beneficial interests in the Notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the Notes through either DTC, if they are a participant, or indirectly through organizations which are participants in DTC.

Trustee, Paying Agent, Registrar and Transfer Agent

U.S. Bank National Association

Table of Contents

Other covenants

In addition to the covenants described in the prospectus attached to this prospectus supplement, the following covenants shall apply to the Notes:

We agree that for the period of time during which the Notes are outstanding, we will not violate Section 18(a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act or any successor provisions, whether or not we continue to be subject to such provisions of the 1940 Act, but giving effect, in either case, to any exemptive relief granted to us by the U.S. Securities and Exchange Commission (the SEC). These provisions generally prohibit us from making additional borrowings, including through the issuance of additional debt or the sale of additional debt securities, unless our asset coverage, as defined in the 1940 Act, equals at least 200% after such borrowings.

We agree that for the period of time during which the Notes are outstanding, we will not violate Section 18(a)(1)(B) as modified by Section 61(a)(1) of the 1940 Act or any successor provisions, giving effect to any exemptive relief granted to us by the SEC. These provisions generally prohibit us from declaring any cash dividend or distribution upon any class of our capital stock, or purchasing any such capital stock if our asset coverage, as defined in the 1940 Act, is below 200% at the time of the declaration of the dividend or distribution or the purchase and after deducting the amount of such dividend, distribution or purchase.

If, at any time, we are not subject to the reporting requirements of Sections 13 or 15(d) of the Securities Exchange Act of 1934 to file any periodic reports with the SEC, we agree to furnish to holders of the Notes and the Trustee, for the period of time during which the Notes are outstanding, our audited annual consolidated financial statements, within 90 days of our fiscal year end, and unaudited interim consolidated financial statements, within 45 days of our fiscal quarter end (other than our fourth fiscal quarter). All such financial statements will be prepared, in all material respects, in accordance with applicable United States generally accepted accounting principles.

Modifications to events of default

The following event of default, as described in the prospectus attached to this prospectus supplement:

We do not pay the principal of, or any premium on, a debt security of the series on its due date, and do not cure this default within 5 days.

with respect to the Notes has been revised to read as follows:

We do not pay the principal of, or any premium on, any Note on its due date.

Table of Contents

Global Clearance and Settlement Procedures

Interests in the Notes will trade in DTC's Same Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. None of the issuer, the Trustee or the paying agent will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Use of Proceeds

We estimate that the net proceeds we receive from the sale of the \$38.8 million aggregate principal amount of Notes in this offering will be approximately \$37.1 million (or approximately \$42.8 million if the underwriters fully exercise their overallotment option), excluding accrued interest, after deducting the underwriting discount of \$1.2 million (or approximately \$1.3 million if the underwriters fully exercise their overallotment option) payable by us and estimated offering expenses of approximately \$475,000 payable by us. We expect to use the net proceeds from this offering to fund investments in debt and equity securities in accordance with our investment objective and for other general corporate purposes.

Table of Contents

FORWARD-LOOKING STATEMENTS

The matters discussed in this prospectus supplement and the accompanying prospectus, as well as in future oral and written statements by management of Hercules Technology Growth Capital, that are forward-looking statements are based on current management expectations that involve substantial risks and uncertainties which could cause actual results to differ materially from the results expressed in, or implied by, these forward-looking statements. Forward-looking statements relate to future events or our future financial performance. We generally identify forward-looking statements by terminology such as may, will, should, expects, plans, anticipates, could, intends, target, project, believes, estimates, predicts, potential or continue or the negative of these terms or other similar words. Important assumptions include our ability to originate new investments, achieve certain margins and levels of profitability, the availability of additional capital, and the ability to maintain certain debt to asset ratios. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus should not be regarded as a representation by us that our plans or objectives will be achieved. The forward-looking statements contained in this prospectus supplement and the accompanying prospectus include statements as to:

our future operating results;

our business prospects and the prospects of our prospective portfolio companies;

the impact of investments that we expect to make;

the impact of a protracted decline in the liquidity of credit markets on our business;

our informal relationships with third parties including in the venture capital industry;

the expected market for venture capital investments and our addressable market;

the dependence of our future success on the general economy and its impact on the industries in which we invest;

our ability to access debt markets and equity markets;

the ability of our portfolio companies to achieve their objectives;

our expected financings and investments;

our regulatory structure and tax status;

our ability to operate as a business development company, a small business investment company and a regulated investment company, or RIC;

the adequacy of our cash resources and working capital;

the timing of cash flows, if any, from the operations of our portfolio companies;

the timing, form and amount of any dividend distributions;

the impact of fluctuations in interest rates on our business;

the valuation of any investments in portfolio companies, particularly those having no liquid trading market; and

our ability to recover unrealized losses.

For a discussion of factors that could cause our actual results to differ from forward-looking statements contained in this prospectus supplement and the accompanying prospectus, please see the discussion under **Supplemental Risk Factors** in this prospectus supplement and **Risk Factors** in the accompanying prospectus. You should not place undue reliance on these forward-looking statements. The forward-looking statements made in this prospectus relate only to events as of the date on which the statements are made and are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933.

Table of Contents

Industry and Market Data

This prospectus supplement and the accompanying prospectus contain third-party estimates and data regarding valuations of venture capital-backed companies. This data was reported by Dow Jones VentureSource, an independent venture capital industry research company which we refer to as VentureSource. VentureSource is commonly relied upon as an information source in the venture capital industry. Although we have not independently verified any such data, we believe that the industry information contained in such releases and data tables and included in this prospectus supplement and the accompanying prospectus is reliable.

We have compiled certain industry estimates presented in this prospectus supplement and the accompanying prospectus from internally generated information and data. While we believe our estimates are reliable, they have not been verified by any independent sources. The estimates are based on a number of assumptions, including increasing investment in venture capital and private equity-backed companies. Actual results may differ from projections and estimates, and this market may not grow at the rates projected, or at all. If this market fails to grow at projected rates, our business and the market price of our securities, including the Notes, could be materially adversely affected.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights some of the information in this prospectus supplement and may not contain all of the information that is important to you. For a more complete understanding of this offering, we encourage you to read this entire prospectus supplement and the accompanying prospectus and the documents that are referenced in this prospectus supplement and the accompanying prospectus, together with any accompanying supplements. In this prospectus supplement and the accompanying prospectus, unless the context otherwise requires, the Company, Hercules Technology Growth Capital, we, us and our refer to Hercules Technology Growth Capital, Inc. and our wholly-owned subsidiaries. On April 17, 2012, we and the Trustee entered into the First Supplemental Indenture to the Indenture, between us and the Trustee, dated March 6, 2012, relating to our issuance, offer and sale of the Existing Notes. We will issue the Notes offered hereby under the same First Supplemental Indenture. The Notes offered hereby will be a further issuance of, rank equally in right of payment with, and form a single series for all purposes with the Existing Notes. Unless otherwise indicated, the Notes offered hereby and the Existing Notes are collectively referred to herein as the Notes. The Notes offered hereby and the Existing Notes will be treated as a single series for all purposes under the Indenture including, without limitation, waivers, amendments, consents, redemptions and other offers to purchase and voting.

Our Company

We are a specialty finance company that provides debt and equity growth capital to technology-related companies at various stages of development from seed and emerging growth to expansion and established stages of development, which include select publicly listed companies and select lower middle market technology companies. Our investment objective is to maximize our portfolio total return by generating current income from our debt investments and capital appreciation from our equity-related investments. We are an internally-managed, non-diversified closed-end investment company that has elected to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act.

As of March 31, 2012, our total assets were approximately \$763.4 million, of which, our investments comprised \$694.5 million at fair value and \$695.4 million at cost. Our investments at fair value were comprised of our debt investments, warrant portfolio and equity investments valued at approximately \$614.6 million, \$32.0 million and \$47.9 million, respectively, or 88.5%, 4.6% and 6.9% of total investments, respectively. At March 31, 2012, total investments at value in foreign companies were approximately \$13.1 million or 1.7% of total assets. During the three month period ended March 31, 2012 we made debt and equity commitments to new and existing portfolio companies, including restructured loans, totaling \$101.3 million. Debt commitments for the quarter ended March 31, 2012 included commitments of approximately \$42.6 million to six new portfolio companies and \$46.8 million to five existing companies. Equity commitments for the quarter ended March 31, 2012 included commitments of approximately \$9.6 million to one new portfolio company and \$2.3 million to two existing portfolio companies. Since inception through March 31, 2012, we have made debt and equity commitments of approximately \$2.8 billion to our portfolio companies.

We also make investments in qualifying small businesses through two wholly-owned, small business investment company (SBIC) subsidiaries, Hercules Technology II, L.P. (HT II) and Hercules Technology III, L.P. (HT III). As SBICs, HT II and HT III are subject to a variety of regulations concerning, among other things, the size and nature of the companies in which they may invest and the structure of those investments. As of March 31, 2012, we held investments in HT II in 54 companies with a fair value of approximately \$188.1 million. HT II s portfolio companies accounted for approximately 27.1% of our total portfolio at March 31, 2012. As of March 31, 2012, we held investments in HT III in 25 companies with a fair value of approximately \$129.0 million. HT III s portfolio accounted for approximately 18.6% of our total portfolio at March 31, 2012.

We primarily finance privately-held companies backed by leading venture capital and private equity firms and also may finance certain select publicly-traded companies that lack access to public capital or are sensitive to

Table of Contents

equity ownership dilution. As of March 31, 2012, our proprietary SQL-based database system included over 27,500 technology-related companies and approximately 7,000 venture capital, private equity sponsors/investors, as well as various other industry contacts. Our principal executive office is located in Silicon Valley, and we have additional offices in Boston, MA, Boulder, CO and McLean, VA. Our goal is to be the leading structured debt financing provider of choice for venture capital and private equity backed technology-related companies requiring sophisticated and customized financing solutions. Our strategy is to evaluate and invest in a broad range of technology-related companies including, clean technology, life science and select lower middle market technology companies and to offer a full suite of growth capital products up and down the capital structure. We invest primarily in structured debt with warrants and, to a lesser extent, in senior debt and equity investments. We use the term "structured debt with warrants" to refer to any debt investment, such as a senior or subordinated secured loan, that is coupled with an equity component, including warrants, options or rights to purchase common or preferred stock. Our structured debt with warrants investments will typically be secured by select or all of the assets of the portfolio company.

We focus our investments in companies active in technology industry sub-sectors characterized by products or services that require advanced technologies, including, but not limited to, computer software and hardware, networking systems, semiconductors, semiconductor capital equipment, information technology infrastructure or services, Internet consumer and business services, telecommunications, telecommunications equipment, renewable or alternative energy, media and life science. Within the life science sub-sector, we generally focus on medical devices, bio-pharmaceutical, drug discovery, drug delivery, health care services and information systems companies. Within the clean technology sub-sector, we focus on sustainable and renewable energy technologies and energy efficiency and monitoring technologies. We refer to all of these companies as "technology-related" companies and intend, under normal circumstances, to invest at least 80% of the value of our assets in such businesses.

Our investment objective is to maximize our portfolio total return by generating current income from our debt investments and capital appreciation from our equity-related investments. Our primary business objectives are to increase our net income, net operating income and net asset value by investing in structured debt with warrants and equity of venture capital and private equity backed technology-related companies with attractive current yields and the potential for equity appreciation and realized gains. Our structured debt investments typically include warrants or other equity interests, giving us the potential to realize equity-like returns on a portion of our investments. Our equity ownership in our portfolio companies may represent a controlling interest. In some cases, we receive the right to make additional equity investments in our portfolio companies including the right to convert some portion of our debt into equity in connection with future equity financing rounds. Capital that we provide directly to venture capital and private equity backed technology-related companies is generally used for growth and general working capital purposes as well as in select cases for acquisitions or recapitalizations.

Our portfolio is comprised of, and we anticipate that our portfolio will continue to be comprised of, investments in technology-related companies at various stages of development. Consistent with regulatory requirements, we invest primarily in United States based companies and to a lesser extent in foreign companies. See "Regulation Qualifying Assets" in the accompanying prospectus. Our investing emphasis has been primarily on private companies following or in connection with a subsequent institutional round of equity financing, which we refer to as expansion-stage companies and private companies in their later rounds of financing and certain public companies, which we refer to as established stage companies and lower middle market companies. We have also historically focused our investment activities in private companies following or in connection with the first institutional round of financing, which we refer to as emerging-growth companies.

As of March 31, 2012, our investment professionals, including Manuel A. Henriquez, our co-founder, Chairman, President and Chief Executive Officer, are currently comprised of 29 professionals who have, on

Table of Contents

average, more than 15 years of experience in venture capital, structured finance, commercial lending or acquisition finance with the types of technology-related companies that we are targeting. We believe that we can leverage the experience and relationships of our management team to successfully identify attractive investment opportunities, underwrite prospective portfolio companies and structure customized financing solutions.

Our Market Opportunity

We believe that technology-related companies compete in one of the largest and most rapidly growing sectors of the U.S. economy and that continued growth is supported by ongoing innovation and performance improvements in technology products as well as the adoption of technology across virtually all industries in response to competitive pressures. We believe that an attractive market opportunity exists for a specialty finance company focused primarily on investments in structured debt with warrants in technology-related companies for the following reasons:

Technology-related companies have generally been underserved by traditional lending sources;

Unfulfilled demand exists for structured debt financing to technology-related companies as the number of lenders has declined due to the recent financial market turmoil; and

Structured debt with warrants products are less dilutive and complement equity financing from venture capital and private equity funds.

Technology-Related Companies are Underserved by Traditional Lenders. We believe many viable technology-related companies backed by financial sponsors have been unable to obtain sufficient growth financing from traditional lenders, including financial services companies such as commercial banks and finance companies, because traditional lenders have continued to consolidate and have adopted a more risk-averse approach to lending. More importantly, we believe traditional lenders are typically unable to underwrite the risk associated with financial sponsor-backed emerging-growth or expansion-stage companies effectively.

The unique cash flow characteristics of many technology-related companies include significant research and development expenditures and high projected revenue growth thus often making such companies difficult to evaluate from a credit perspective. In addition, the balance sheets of emerging-growth and expansion-stage companies often include a disproportionately large amount of intellectual property assets, which can be difficult to value. Finally, the speed of innovation in technology and rapid shifts in consumer demand and market share add to the difficulty in evaluating technology-related companies.

Due to the difficulties described above, we believe traditional lenders are generally refraining from entering the structured mezzanine marketplace, instead preferring the risk-reward profile of asset based lending. Traditional lenders generally do not have flexible product offerings that meet the needs of technology-related companies. The financing products offered by traditional lenders typically impose on borrowers many restrictive covenants and conditions, including limiting cash outflows and requiring a significant depository relationship to facilitate rapid liquidation.

Unfulfilled Demand for Structured Debt Financing to Technology-Related Companies. Private debt capital in the form of structured debt financing from specialty finance companies continues to be an important source of funding for technology-related companies. We believe that the level of demand for structured debt financing is a function of the level of annual venture equity investment activity. In the first three months of 2012, venture capital-backed companies received, in approximately 717 transactions, equity financing in an aggregate amount of approximately \$6.3 billion, as reported by Dow Jones VentureSource. In addition, overall, the median round size during the three month periods ended March 31, 2012 was approximately \$4.0 million. We believe the number of venture-backed companies receiving financing provides us an opportunity to provide debt financing to

Table of Contents

these companies. Overall, seed- and first-round deals made up 44% of the deal flow in the three months ended March 31, 2012 and later-stage deals made up roughly 54% of the deal activity in the quarter.

We believe that demand for structured debt financing is currently underserved, in part because of the credit market collapse in 2008 and the resulting exit of debt capital providers to technology-related companies. The venture capital market for the technology-related companies in which we invest has been active and is continuing to show signs of increased investment activity. Therefore, to the extent we have capital available, we believe this is an opportune time to be active in the structured lending market for technology-related companies.

Structured Debt with Warrants Products Complement Equity Financing From Venture Capital and Private Equity Funds. We believe that technology-related companies and their financial sponsors will continue to view structured debt securities as an attractive source of capital because it augments the capital provided by venture capital and private equity funds. We believe that our structured debt with warrants product provides access to growth capital that otherwise may only be available through incremental investments by existing equity investors. As such, we provide portfolio companies and their financial sponsors with an opportunity to diversify their capital sources. Generally, we believe technology-related companies at all stage of development target a portion of their capital to be debt in an attempt to achieve a higher valuation through internal growth. In addition, because financial sponsor-backed companies have potentially reached a more mature stage prior to reaching a liquidity event, we believe our investments provide the debt capital needed to grow or recapitalize companies during the extended period prior to liquidity events.

Our Business Strategy

Our strategy to achieve our investment objective includes the following key elements:

Leverage the Experience and Industry Relationships of Our Management Team and Investment Professionals. We have assembled a team of experienced investment professionals with extensive experience as venture capitalists, commercial lenders, and originators of structured debt and equity investments in technology-related companies. Our investment professionals have, on average, more than 15 years of experience as equity investors in, and/or lenders to, technology-related companies.

Mitigate Risk of Principal Loss and Build a Portfolio of Equity-Related Securities. We expect that our investments have the potential to produce attractive risk adjusted returns through current income, in the form of interest and fee income, as well as capital appreciation from equity-related securities. We believe that we can mitigate the risk of loss on our debt investments through the combination of loan principal amortization, cash interest payments, relatively short maturities, security interests in the assets of our portfolio companies, and, on select investments, covenants requiring prospective portfolio companies to have certain amounts of available cash and the continued support from a venture capital or private equity firm at the time we make our investment.

Provide Customized Financing Complementary to Financial Sponsors' Capital. We offer a broad range of investment structures and possess expertise and experience to effectively structure and price investments in technology-related companies. Unlike many of our competitors that only invest in companies that fit a specific set of investment parameters, we have the flexibility to structure our investments to suit the particular needs of our portfolio companies. We offer customized financing solutions ranging from senior debt to equity capital, with a focus on structured debt with warrants.

Invest at Various Stages of Development. We provide growth capital to technology-related companies at all stages of development, from emerging-growth companies, to expansion-stage companies, including select publicly listed companies and select lower middle market companies and established-stage companies.

Table of Contents

Benefit from Our Efficient Organizational Structure. We believe that the perpetual nature of our corporate structure enables us to be a long-term partner for our portfolio companies in contrast to traditional mezzanine and investment funds, which typically have a limited life. In addition, because of our access to the equity markets, we believe that we may benefit from a lower cost of capital than that available to private investment funds.

Deal Sourcing Through Our Proprietary Database. We have developed a proprietary and comprehensive structured query language-based (SQL) database system to track various aspects of our investment process including sourcing, originations, transaction monitoring and post-investment performance. As of March 31, 2012, our proprietary SQL-based database system included over 27,500 technology-related companies and over 7,000 venture capital, private equity sponsors/investors, as well as various other industry contacts. This proprietary SQL system allows us to maintain, cultivate and grow our industry relationships while providing us with comprehensive details on companies in the technology-related industries and their financial sponsors.

Recent Developments

New Investments Since March 31, 2012

As of June 11, 2012, we have originated commitments of over \$100.0 million to new and existing portfolio companies, including over \$36.0 million in commitments to existing portfolio companies. See Management's Discussion and Analysis of Financial Condition and Results of Operations in this prospectus supplement for more information relating to our commitments. Our new investments included:
