**Item 8.01 Other Events.**

*The Company Receives Notice of Allowance for Second Patent Covering ZYCLARA® (Imiquimod) Cream, 3.75%*

On September 18, 2012, Medicis Pharmaceutical Corporation (the Company) received a Notice of Allowance issued by the United States Patent and Trademark Office (the USPTO) for the Company's United States patent application directed to the use of ZYCLARA® (Imiquimod) Cream, 3.75% for the treatment of actinic keratosis. The patent application is U.S. Application No. 13/182,433, entitled Method of Treating Actinic Keratosis with 3.75% Imiquimod Cream (the 433 Application). As previously reported, in August 2012 the Company voluntarily filed a Request for Continued Examination with the USPTO for the 433 Application that has allowed the USPTO to consider Paragraph IV Patent Certification letters received by the Company from Actavis Mid Atlantic LLC (Actavis) relating to the 433 Application and the Company's U.S. Patent No. 8,236,816 (the 816 Patent), which was issued on August 7, 2012 and is also directed to the use of ZYCLARA® Cream, 3.75% for the treatment of actinic keratosis. The Company has filed suit against Actavis in the U.S. District Court for the District of Delaware alleging infringement by Actavis of one or more claims of the 816 Patent. The Company anticipates that a patent will issue pursuant to the 433 Application prior to the expiration of the Company's regulatory exclusivity for ZYCLARA® Cream, 3.75% for the treatment of actinic keratosis in March 2013.

All statements included that address activities, events or developments that the Company expects, believes or anticipates will or may occur in the future are forward-looking statements. These statements, including those related to the timing with respect to the issuance of a patent under the 433 Application, are based on certain assumptions made by the Company based on its experience and perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances. No assurances can be given, however, that these activities, events or developments will occur or that such results will be achieved. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of the Company. Forward-looking statements represent the judgment of Company management as of the date of this Current Report on Form 8-K, and the Company disclaims any intent or obligation to update any forward-looking statements contained herein, which speak as of the date hereof. Among other things, there can be no assurance that the issuance of the Notice of Allowance for the 433 Application will result in the final issuance of a patent underlying such Notice of Allowance, as well as no assurance as to the timing of the final issuance of such patent.
