**Item 2.02 Results of Operations and Financial Condition.**

As announced in November 2011, MetLife, Inc. ( MetLife ) reorganized its business from a U.S. Business and International structure into three broad geographic regions to better reflect its global reach. As a result, in the first quarter of 2012, MetLife reorganized into six segments, reflecting these broad geographic regions: Retail; Group, Voluntary & Worksite Benefits; Corporate Benefit Funding; and Latin America (collectively, The Americas ); Asia; and Europe, the Middle East and Africa ( EMEA ). As anticipated, in the third quarter of 2012, MetLife, Inc. ( MetLife ) continued to realign certain products and businesses among its existing segments to better conform to the way it manages and assesses its business (the Realignment ). The changes made in the Realignment are as follows:

The Group, Voluntary & Worksite Benefits segment is now organized into two businesses: a) Group and b) Voluntary & Worksite. The Group, Voluntary & Worksite Benefits segment had previously included the Group, Non-Medical Health and Property & Casualty businesses.

The products that were previously reported in the former Non-Medical Health business are now divided between the Group and Voluntary & Worksite businesses as follows:

**Group**

dental insurance;

group short- and long-term disability insurance; and

accidental death & dismemberment insurance coverages.

**Voluntary & Worksite**

long-term care;

pre-paid legal plans; and

critical illness insurance.

Also, individual disability income, previously reported in the former Non-Medical Health business, is now reported in Life & Other business (formerly the Life business) in the Retail segment;

The products that were previously reported in the former Property & Casualty business are now reported in the Life & Other business in the Retail segment or the Voluntary & Worksite business in the Group, Voluntary & Worksite segment, based on such products distribution channels; and

The businesses in South Asia and India are now reported in the Asia segment. They were previously reported in the EMEA segment.
