WHITING PETROLEUM CORPORATION
NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To Be Held May 7, 2013

Dear Stockholder:

The annual meeting of stockholders of Whiting Petroleum Corporation will be held on Tuesday, May 7, 2013, at 10:00 a.m., Mountain Time, in the Grand Ballroom located in the Grand Hyatt Denver, at 1750 Welton Street, Denver, Colorado 80202, for the following purposes:

to elect two directors to hold office until the 2016 annual meeting of stockholders and until their successors are duly elected and qualified;

to approve the Whiting Petroleum Corporation 2013 Equity Incentive Plan;

to approve, by advisory vote, the compensation of our named executive officers as disclosed in the accompanying proxy statement;

to ratify the appointment of Deloitte & Touche LLP as the independent registered public accounting firm for 2013; and

to consider and act upon such other business as may properly come before the meeting or any adjournment or postponement thereof. The close of business on March 12, 2013 has been fixed as the record date for the determination of stockholders entitled to notice of, and to vote at, the annual meeting and any adjournment or postponement thereof.

Your vote is important no matter how large or small your holdings may be. To assure your representation at the annual meeting, please vote your shares over the Internet or via the toll-free telephone number as instructed in the Notice of Internet Availability of Proxy Materials. You also may request a printed proxy card to submit your vote by mail. You will not receive a printed copy of the proxy materials unless you request them as instructed in the Notice of Internet Availability of Proxy Materials.

For directions to the annual meeting, please write Bruce R. DeBoer, Corporate Secretary, Whiting Petroleum Corporation, 1700 Broadway, Suite 2300, Denver, Colorado 80290-2300 or call (303) 837-1661.

PROXY STATEMENT

For

ANNUAL MEETING OF STOCKHOLDERS

To Be Held May 7, 2013

The Board of Directors (the *Board*) of Whiting Petroleum Corporation is soliciting proxies for use at the annual meeting of stockholders to be held on Tuesday, May 7, 2013, at 10:00 a.m., Mountain Time, in the Grand Ballroom located in the Grand Hyatt Denver, at 1750 Welton Street, Denver, Colorado 80202, and any adjournment or postponement thereof (the *Annual Meeting*) for the purposes set forth in the attached Notice of Annual Meeting of Stockholders.

On or before March 25, 2013, we mailed to you and our other stockholders a Notice of Internet Availability of Proxy Materials containing instructions on how to access this proxy statement and our annual report on the Internet and to vote your shares over the Internet or by telephone. You will not receive a printed copy of the proxy materials unless you request them. If you would like to receive a printed copy of our proxy materials, including a printed proxy card on which you may submit your vote by mail, then you should follow the instructions for obtaining a printed copy of our proxy materials contained in the Notice of Internet Availability of Proxy Materials.

Submitting your proxy over the Internet, by telephone or by executing and returning a printed proxy card will not affect a stockholder's right to attend the Annual Meeting and to vote in person. Presence at the Annual Meeting of a stockholder who has submitted a proxy does not in itself revoke a proxy. Any stockholder giving a proxy may revoke it at any time before it is exercised by giving notice thereof to us in writing or in open meeting.

If you submit your proxy over the Internet or by telephone, or you request a printed proxy card and properly execute and return the proxy card by mail, then the persons named as proxies will vote the shares represented by your proxy according to your instructions. If you request a printed proxy card, and properly execute and return the proxy card by mail, but do not mark voting instructions on the proxy card, then the persons named as proxies will vote FOR the two nominees for election as directors referred to in this proxy statement, FOR approval of the Whiting Petroleum Corporation 2013 Equity Incentive Plan, FOR approval, on an advisory basis, of the compensation of our named executive officers as disclosed in this proxy statement, and FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2013 and in accordance with the judgment of the persons named as proxies in the enclosed form of proxy on such other business or matters which may properly come before the Annual Meeting. Other than the election of two directors, the approval of the Whiting Petroleum Corporation 2013 Equity Incentive Plan, the advisory vote on the compensation of our named executive officers as disclosed in this proxy statement and the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2013, the Board has no knowledge of any other matters to be presented for action by the stockholders at the Annual Meeting. However, if any other business or matters properly shall come before the Annual Meeting, then the persons named as proxies in the form of proxy will vote the shares represented by each proxy in accordance with their judgment on such matters.

Only holders of record of our common stock at the close of business on March 12, 2013 are entitled to vote at the Annual Meeting. On that date, 119,389,608 shares of our common stock were issued and entitled to vote, each of which is entitled to one vote per share.

ELECTION OF DIRECTORS

Our certificate of incorporation and by-laws provide that our directors are divided into three classes, with staggered terms of three years each. At the Annual Meeting, the stockholders will elect two directors to hold office until the 2016 annual meeting of stockholders and until their successors are duly elected and qualified. Shares of our common stock represented by executed but unmarked proxies will be voted in favor of the election as directors of the persons named as nominees in this proxy statement; provided that, if you hold shares of our common stock through a broker-dealer, bank nominee, custodian or other securities intermediary, the intermediary will not vote those shares for the election of any nominee for director unless you give the intermediary specific voting instructions on a timely basis directing the intermediary to vote for such nominee. The Board has no reason to believe that the listed nominees will be unable or unwilling to serve as directors if elected. However, in the event that any nominee should be unable to serve or for good cause will not serve, the shares represented by proxies received will be voted for another nominee selected by the Board. Each director will be elected by a plurality of the votes cast at the Annual Meeting (assuming a quorum is present), subject to our Majority Voting Policy. Consequently, any shares not voted at the Annual Meeting, whether due to abstentions, broker non-votes or otherwise, will have no impact on the election of the directors.

Pursuant to our Majority Voting Policy, in the absence of a contested election, any nominee for director who receives a greater number of votes withheld from his or her election than votes for such election must promptly tender his or her resignation to the Chairman of the Board. The Nominating and Governance Committee of our Board (or, under certain circumstances, another committee appointed by the Board) will promptly consider that resignation and will recommend to the Board whether to accept the tendered resignation or reject it based on all relevant factors. The Board must then act on that recommendation no later than 90 days following the date of an Annual Meeting of Stockholders. Within four days of the Board's decision, we must disclose the decision in a Current Report on Form 8-K filed with the Securities and Exchange Commission that includes a full explanation of the process by which the decision was reached and, if applicable, the reasons for rejecting the resignation. The Majority Voting Policy is available in Appendix C to our Corporate Governance Guidelines on our website at www.whiting.com.

The following sets forth certain information, as of March 12, 2013, about the Board's nominees for election at the Annual Meeting and each director whose term will continue after the Annual Meeting, including an account of their specific business experience; the names of publicly held and certain other corporations of which they also are, or have been within the past five years, directors; and a discussion of their specific experience, qualifications, attributes or skills that led to the conclusion that they should serve as directors. Thomas P. Briggs has been a director of Whiting Petroleum Corporation since 2006 and his term as a director will expire at the Annual Meeting.

Nominees for Election at the Annual Meeting for Terms to Expire at the 2016 Annual Meeting

Thomas L. Aller, 64, has been a director of Whiting Petroleum Corporation since 2003. Mr. Aller, who serves as Senior Vice President of Operations Support for Alliant Energy Corporation effective January 13, 2013, has served as Senior Vice President Energy Resource Development of Alliant Energy Corporation since January 2009 and President of Interstate Power and Light Company since 2004. Prior to that, he served as President of Alliant Energy Investments, Inc. since 1998 and interim Executive Vice President Energy Delivery of Alliant Energy Corporation since 2003 and Senior Vice President Energy Delivery of Alliant Energy Corporation since 2004. From 1993 to 1998, he served as Vice President of IES Investments. He received his Bachelor's Degree in political science from Creighton University and his Master's Degree in municipal administration from the University of Iowa. Mr. Aller's particular experience with our company, including from 1997 through 2003 when he served as a director of our company's operating subsidiary prior to our initial public stock offering, and his business acumen and experience in the energy sector led to the conclusion that he should serve as a director.

Michael B. Walen, 64, is a nominee to become a director of Whiting Petroleum Corporation at the Annual Meeting. Mr. Walen was the Senior Vice President Chief Operating Officer of Cabot Oil and Gas Corporation from January 2001 until May 2010 and served in other management and exploration positions prior to that time. He has 39 years of exploration and management experience with independent oil and gas companies including PetroCorp Inc., Patrick Petroleum Co., TXO Production Co. and Tenneco Oil Company. Mr. Walen has also been a director of Vitruvian Exploration since 2010. Mr. Walen holds a Bachelor's Degree in Geology from Central Washington University and a Master's Degree in Geology from Western Washington University. Mr. Walen's geological training, technical expertise and industry experience (particularly in shale plays), including managing operations, engineering, reserves, land and geology, led to the conclusion that he should serve as a director. Mr. Walen was recommended to our Nominating and Governance Committee by a member of the committee.

The Board recommends the foregoing nominees for election as directors for terms expiring at the 2016 Annual Meeting and urges each stockholder to vote FOR such nominees.

Directors Continuing in Office

Terms expiring at the 2014 Annual Meeting

D. Sherwin Artus, 75, has been a director of Whiting Petroleum Corporation since 2006. Mr. Artus joined Whiting Oil and Gas Corporation in January 1989 as Vice President of Operations and became Executive Vice President and Chief Operating Officer in July 1999. In January 2000, he was appointed President and Chief Executive Officer. Mr. Artus became Senior Vice President in January 2002 (upon the appointment of Mr. Volker as President and Chief Executive Officer) and retired from the Company in April 2006. Prior to joining Whiting, he was employed by Shell Oil Company in various engineering research and management positions. From 1974-1977, he was employed by Wainoco Oil and Gas Company as Production Manager. He was a co-founder and later became President of Solar Petroleum Corporation, an independent oil and gas producing company. He has over 51 years of experience in the oil and natural gas business. Mr. Artus holds a Bachelor's Degree in Geological Engineering and a Master's Degree in Mining Engineering from the South Dakota School of Mines and Technology. He is a registered Professional Engineer in Colorado, Wyoming, Montana and North Dakota. Mr. Artus is a member, and a past officer, of the Society of Professional Well Log Analysts and is a member of the Society of Petroleum Engineers. Mr. Artus's technical expertise and vast industry experience coupled with his management experience with our company and intimate knowledge of our company culture led to the conclusion that he should serve as a director.

Philip E. Doty, 69, has been a director of Whiting Petroleum Corporation since 2010. Mr. Doty is a certified public accountant. Since 2007, Mr. Doty has been counsel to Ehrhardt Keefe Steiner & Hottman PC, the largest Colorado-based accounting and consulting firm, where he previously was a partner from 2002 to 2007. From 1967 to 2000 he worked at Arthur Andersen and Co., where he was a partner since 1978 and served as an audit partner and head of the Denver office oil and gas practice until his retirement in 2000. He is a graduate of Drake University with a Bachelor's degree in accounting. Mr. Doty's 41 years of experience as a certified public accountant and his expertise in oil and gas financial reporting and accounting led to the conclusion he should serve as a director.

Terms expiring at the 2015 Annual Meeting

James J. Volker, 66, who serves as Chairman of the Board and Chief Executive Officer, has been a director of Whiting Petroleum Corporation since 2003 and a director of Whiting Oil and Gas Corporation since 2002. He joined Whiting Oil and Gas Corporation in August 1983 as Vice President of Corporate Development and served in that position through April 1993. In March 1993, he became a contract consultant to Whiting Oil and Gas Corporation and served in that capacity until August 2000, at which time he became Executive Vice President and Chief Operating Officer. Mr. Volker was appointed President and Chief Executive Officer of Whiting Oil and Gas Corporation in January 2002. Effective January 1, 2011, Mr. Volker has served as our Chief Executive

Officer. Mr. Volker was co-founder, Vice President and later President of Energy Management Corporation from 1971 through 1982. He has over 40 years of experience in the oil and natural gas industry. Mr. Volker has a degree in finance from the University of Denver, an MBA from the University of Colorado and has completed H. K. VanPoolen and Associates' course of study in reservoir engineering. Mr. Volker's status as our chief executive officer who applies his considerable industry experience and management qualifications and serves as a valuable resource for the other directors as to all operational and administrative aspects of our company led to the conclusion that he should serve as a director.

William N. Hahne, 61, has been a director since 2007. Mr. Hahne was Chief Operating Officer of Petrohawk Energy Corporation from July 2006 until October 2007. Mr. Hahne served at KCS Energy, Inc. as President, Chief Operating Officer and Director from April 2003 to July 2006, and as Executive Vice President and Chief Operating Officer from April 1998 to April 2003. He is a graduate of Oklahoma University with a BS in petroleum engineering and has 37 years of extensive technical and management experience with independent oil and gas companies including Unocal, Union Texas Petroleum Corporation, NERCO, The Louisiana Land and Exploration Company (LL&E) and Burlington Resources, Inc. He is an expert in oil and gas reserve estimating, having served as chairman for the Society of Petroleum Engineers Oil and Gas Reserve Committee. Mr. Hahne's experience in budgeting, planning and implementing effective exploration, drilling, acquisition and development programs, expertise in horizontal drilling and shale development and knowledge of oil and gas regulation, litigation and government reporting led to the conclusion that he should serve as a director.

Allan R. Larson, 75, has been a director of Whiting Petroleum Corporation since January 1, 2011. He has more than 47 years' experience in oil and gas exploration and development, primarily in the Rocky Mountains and the Midcontinent regions. For 26 years he has operated Larson Petroleum, LLC, a geological consulting company. His previous affiliations include Jade Drilling Company, Belleview Capital Corporation, Mesa Petroleum Company and Amoco Production Company. Dr. Larson earned a PhD in Geology at the University of California, Los Angeles. He earned his M.S. in Geology from UCLA and his BS degree in Geology at Pennsylvania State University. He is a member of the American Association of Petroleum Geologists, the Rocky Mountain Association of Geologists, the Wyoming Geological Association, the Montana Geologic Society and the Utah Geologic Association. Dr. Larson's geological training, technical expertise and industry experience in evaluating exploration prospects and conducting drilling and production operations within our company's core operating areas led to the conclusion that he should serve as a director.

BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines that are available on our website at www.whiting.com.

Code of Business Conduct and Ethics

The Board has adopted the Whiting Petroleum Corporation Code of Business Conduct and Ethics that applies to our directors and employees, the full text of which is available on our website at www.whiting.com. Each of our directors and employees annually confirms in writing that he or she has reviewed and will fully comply with the Code of Business Conduct and Ethics.

Transactions with Related Persons

We had no transactions during 2011, and none are currently proposed, in which we were a participant and in which any related person had a direct or indirect material interest. Our Board has adopted written policies and procedures regarding related person transactions. For purposes of these policies and procedures:

a "related person" means any of our directors, executive officers or nominees for director or any of their immediate family members; and

a related person transaction generally is a transaction (including any indebtedness or a guarantee of indebtedness) in which we were or are to be a participant and the amount involved exceeds \$120,000, and in which a related person had or will have a direct or indirect material interest.

Each of our executive officers, directors or nominees for director is required to disclose to the Nominating and Governance Committee certain information relating to related person transactions for review, approval or ratification by the Nominating and Governance Committee. Disclosure to the Nominating and Governance Committee should occur before, if possible, or as soon as practicable after the related person transaction is effected, but in any event as soon as practicable after the executive officer, director or nominee for director becomes aware of the related person transaction. The Nominating and Governance Committee's decision whether or not to approve or ratify a related person transaction is to be made in light of the Nominating and Governance Committee's determination that consummation of the transaction is not or was not contrary to our best interests. Any related person transaction must be disclosed to the full Board.

Independence of Directors

Of the seven directors currently serving on the Board, the Board has determined that each of Messrs. Aller, Artus, Briggs, Doty, Hahne and Larson has no material relationship with us and is independent under New York Stock Exchange listing standards. The Board has also determined that Mr. Walen has no material relationship with us and is independent under New York Stock Exchange listing standards. The Board has established categorical standards within our Corporate Governance Guidelines to assist in making determinations of director independence. These categorical standards are available in Appendix B to our Corporate Governance Guidelines on our website at www.whiting.com. In making its determination of independence, the Board found that each of Messrs. Aller, Artus, Briggs, Doty, Hahne and Larson met these standards.

Board Committees

The Board has standing Audit, Compensation and Nominating and Governance Committees. The Board has adopted a formal written charter for each of these committees that is available on our website at www.whiting.com.

The table below provides the current composition of each standing committee of our Board:

Name	Nominating/		
	Audit	Compensation	Governance
Thomas L. Aller	X	X	
D. Sherwin Artus			X
Thomas P. Briggs	X	X	
Philip E. Doty	X		X
William N. Hahne		X	X
Allan R. Larson			X

The Audit Committee's primary duties and responsibilities are to assist the Board in monitoring the integrity of our financial statements, the independent registered public accounting firm's qualifications and independence, the performance of our internal audit function and independent registered public accounting firm and our compliance with legal and regulatory requirements. The Audit Committee is directly responsible for the appointment, retention, compensation, evaluation and termination of our independent registered public accounting firm and has the sole authority to approve all audit and permitted non-audit engagement fees and terms. The Audit Committee is presently comprised of Messrs. Doty (Chairperson), Aller and Briggs, each of whom is an independent director under New York Stock Exchange listing standards and Securities and Exchange Commission rules applicable to audit committee members. The Board has determined that Mr. Doty qualifies as an audit committee financial expert as defined by Securities and Exchange Commission rules. The Audit Committee held four meetings in 2012.

The Compensation Committee discharges the responsibilities of the Board with respect to our compensation programs and compensation of our executives and directors. The Compensation Committee has overall responsibility for determining the compensation of our chief executive officer, approving the compensation of our executive officers and reviewing director compensation. The Compensation Committee is also charged with administration of our Production Participation Plan and Equity Incentive Plan. The Compensation Committee is presently comprised of Messrs. Briggs (Chairperson), Aller and Hahne, and each of whom is an independent director under New York Stock Exchange listing standards, an outside director for purposes of Section 162(m) of the Internal Revenue Code and a non-employee director for purposes of Rule 16b-3 under the Exchange Act. The Compensation Committee held seven meetings in 2012. Additional information regarding the Compensation Committee and our processes and procedures for executive compensation, including, among other matters, our use of compensation consultants and the role of our executive officers in determining compensation, is provided below under Compensation Discussion and Analysis .

The principal functions of the Nominating and Governance Committee are to identify individuals qualified to become directors and recommend to the Board nominees for all directorships, identify directors qualified to serve on Board committees and recommend to the Board members for each committee, develop and recommend to the Board a set of corporate governance guidelines and otherwise take a leadership role in shaping our corporate governance. The Nominating and Governance Committee is also charged with administering our policies and procedures regarding any transactions with related persons. The Nominating and Governance Committee is presently comprised of Messrs. Hahne (Chairperson), Artus, Doty and Larson, each of whom is an independent director under New York Stock Exchange listing standards. The Nominating and Governance Committee held two meetings in 2012.

In identifying and evaluating nominees for director, the Nominating and Governance Committee seeks to ensure that the Board possesses, in the aggregate, the strategic, managerial and financial skills and experience necessary to fulfill its duties and to achieve its objectives, and seeks to ensure that the Board is comprised of directors who have broad and diverse backgrounds, possessing knowledge in areas that are of importance to us. In addition, the Nominating and Governance Committee believes it is important that at least one director have the requisite experience and expertise to be designated as an audit committee financial expert. The Nominating and Governance Committee looks at each nominee on a case-by-case basis regardless of who recommended the nominee. In looking at the qualifications of each candidate to determine if their election would further the goals described above, the Nominating and Governance Committee takes into account all factors it considers appropriate, which may include strength of character, mature judgment, career specialization, relevant technical skills or financial acumen, diversity of viewpoint and industry knowledge. At a minimum, each director nominee must have displayed the highest personal and professional ethics, integrity and values and sound business judgment. In addition, the Nominating and Governance Committee believes that the following minimum qualifications are necessary for a director nominee to possess to be recommended by the Committee to the Board:

Each director must be highly accomplished in his or her respective field, with superior credentials and recognition and broad experience at the administrative and/or policy-making level in business, government, education, technology or public interest.

Each director must have relevant expertise and experience, and be able to offer advice and guidance to the chief executive officer based on that expertise and experience.

Each director must be independent of any particular constituency, be able to represent all of our stockholders and be committed to enhancing long-term stockholder value.

Each director must have sufficient time available to devote to activities of the Board and to enhance his or her knowledge of our business.

The Nominating and Governance Committee will consider persons recommended by stockholders to become nominees for election as directors in accordance with the foregoing and other criteria set forth in our

Corporate Governance Guidelines and Nominating and Governance Committee Charter. Recommendations for consideration by the Nominating and Governance Committee should be sent to our Corporate Secretary in writing together with appropriate biographical information concerning each proposed nominee. Our By-Laws also set forth certain requirements for stockholders wishing to nominate director candidates directly for consideration by the stockholders. With respect to an election of directors to be held at an annual meeting, a stockholder must, among other things, give notice of an intent to make such a nomination to our Corporate Secretary in advance of the meeting in compliance with the terms and within the time period specified in the By-Laws. Pursuant to these requirements, a stockholder must give a written notice of intent to our Corporate Secretary no earlier than the 120th day and no later than the 90th day prior to the first anniversary of the preceding year's annual meeting of stockholders.

Compensation Committee Interlocks and Insider Participation

During 2012, Messrs. Aller, Briggs and Hahne served on the Compensation Committee of our Board. None of such persons has served as an employee or officer of ours. None of our executive officers serve as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving as a member of our Board or Compensation Committee.

Board Leadership Structure and Role in Risk Oversight

The position of board chairman is filled by our chief executive officer. We believe this combined leadership structure is appropriate for our company because our chairman and chief executive officer (i) conveys a singular, cohesive message to our stockholders, employees, industry partners and the investment community and (ii) eliminates any ambiguity as to who is accountable for company performance. Our directors and management team engage frequently and directly in the flow of information and ideas and we believe our combined leadership structure facilitates the quality, quantity and timeliness of the information flow and communication.

A presiding director is designated to preside over each executive session of the non-management directors at Board meetings. The presiding director is the chair of the Nominating and Governance Committee.

One of the responsibilities of our Board is to review and evaluate the process in place to assess the major risks facing our company and periodically review management's assessment of the major risks as well as options for their mitigation. Our Board leadership structure and our practice of a high degree of interaction between our directors and members of senior management facilitates this oversight function. The information flow and communication between our Board and senior management regarding long-term strategic planning and short term operational reporting includes matters of material risk inherent in our business of exploration for and production of oil and gas. Also, our Audit Committee, among other duties, is charged with overseeing significant financial risk exposures and the steps management has taken to monitor, control and report such exposures and has compliance oversight responsibilities.

Communication with Directors

Stockholders and other interested parties may communicate with the full Board, non-management directors as a group or individual directors, including the presiding director, by submitting such communications in writing to our Corporate Secretary at Whiting Petroleum Corporation, c/o the Board of Directors (or, at the stockholder's option, c/o a specific director or directors), 1700 Broadway, Suite 2300, Denver, Colorado 80290. Such communications will be delivered directly to the Board.

Meetings and Attendance

The Board held seventeen meetings in 2012. No director attended less than 90% of the total number of Board and committee meetings on which they served. Directors are expected to attend our annual meeting of stockholders each year and all of our directors serving at the time attended our 2012 annual meeting of stockholders.

Director Compensation

We use a combination of cash and equity incentive compensation to attract and retain qualified and experienced candidates to serve on the Board. In setting this compensation, our Compensation Committee considers the significant amount of time and energy expended and the skill-level required by our directors in fulfilling their duties. Our Compensation Committee grants restricted stock to our non-employee directors annually on the first of the month following the annual stockholders meeting (June 1 in 2011) to align the grants with directors' terms of office. Historically, grants of shares of restricted stock vested one-third each year over three years and, effective June 1, 2012, grants vest 100% on the first anniversary of the grant date. All grants of shares of restricted stock become fully vested upon a change in control of our company. We also reimburse expenses incurred by our non-employee directors to attend Board and Board committee meetings and to attend continuing education seminars, conferences and classes. Directors who are our employees receive no compensation for service as members of either the Board or Board committees. From January 1, 2012 through May 31, 2012, non-employee directors were compensated pursuant to the schedule as follows:

	Board Service	Audit	Committee Service Compensation	Nominating and Governance
Annual Retainer	\$ 45,000			
Restricted Stock (value)	\$ 115,000			
Committee Chair Annual Retainer		\$ 25,000	\$ 15,000	\$ 15,000
Committee Chair Restricted Stock (value)		\$ 25,000	\$ 15,000	\$ 15,000
Committee Member Annual Retainer		\$ 5,000	\$ 3,000	\$ 3,000
Meeting Fee	\$ 1,500	\$ 1,500	\$ 1,500	\$ 1,500

Effective June 1, 2012, non-employee directors were compensated pursuant to the schedule as follows:

	Board Service	Audit	Committee Service Compensation	Nominating and Governance
Annual Retainer	\$ 45,000			
Restricted Stock (value)	\$ 150,000			
Committee Chair Annual Retainer		\$ 25,000	\$ 15,000	\$ 15,000
Committee Chair Restricted Stock (value)		\$ 25,000	\$ 15,000	\$ 15,000
Committee Member Annual Retainer		\$ 7,500	\$ 5,000	\$ 5,000
Meeting Fee	\$ 1,500	\$ 1,500	\$ 1,500	\$ 1,500

In addition, we make medical and dental coverage available to directors and their spouses, but directors who elect to receive such coverage are charged a premium that is equal to the COBRA rates associated with our insurance plan. As such, we consider the ability to participate in this coverage to be non-compensatory.

The following table reports compensation earned by or paid to our non-employee directors during 2012.

Director Compensation

Name(1)	Fees Earned or Paid in Cash (\$)	Stock Awards \$(2)	Non-Equity Incentive Plan Compensation \$(3)	Total (\$)
Thomas L. Aller	97,625	150,055		247,680
D. Sherwin Artus	76,719	150,055		226,774

Philip E. Doty	108,667	175,044		283,711
William N. Hahne	103,167	165,024		268,191
Allan R. Larson	77,667	150,055		227,722

- (1) Mr. Volker, our Chief Executive Officer, is not included in this table as he is an employee of ours and receives no separate compensation for his services as a director. The compensation received by Mr. Volker as an employee is shown below under Executive Compensation Summary Compensation Table.
- (2) Reflects the full grant date fair value of restricted stock awards granted in 2012 calculated in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718. Assumptions used in the calculation of these amounts are included in note 8 to our audited financial statements for the fiscal year ended December 31, 2012 included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 28, 2013. In 2012, Messrs. Aller, Artus, Briggs, Doty, Hahne and Larson were respectively awarded 3,729, 3,729, 4,101, 4,350, 4,101 and 3,729 restricted shares of our common stock. The aggregate number of unvested restricted stock awards outstanding at the end of 2012 for Messrs. Aller, Artus, Briggs, Doty, Hahne and Larson were 5,845, 5,845, 6,493, 6,453, 6,493 and 5,185, respectively.
- (3) Mr. Artus receives payments under our Production Participation Plan not for director services but with respect to his vested plan interests relating to his prior employment with us from 1989 to 2006. For 2012, Mr. Artus was paid \$468,643 under the Production Participation Plan.

Stock Ownership Guidelines

Our Board has adopted stock ownership guidelines to further align the interests of our directors with the interests of our stockholders and to promote our commitment to sound corporate governance. Non-employee directors are required to hold shares of our common stock with a value equal to two times the amount of the annual retainer paid to outside directors for service on the Board (excluding additional committee retainers, if any). Non-employee directors are required to achieve the applicable level of ownership within two years of the later of the date these guidelines were adopted or the date the person first became a non-employee member of the Board. Shares that count towards satisfaction of the guidelines include: (i) shares owned outright by the director, and (ii) shares held in trust for the benefit of the director. Unexercised and/or unvested equity awards do not count towards satisfaction of the guidelines. The value of a share will be measured on January 1st of each year as the average month end closing price for the 12 months preceding the date of calculation. All of the non-employee directors currently own a sufficient number of shares of our common stock to satisfy the guidelines.

PRINCIPAL STOCKHOLDERS

Certain Beneficial Owners

The following table sets forth information regarding beneficial ownership by persons known to us to own more than 5% of our outstanding common stock as of March 12, 2013. The beneficial ownership information set forth below has been reported in filings made by the beneficial owners with the Securities and Exchange Commission.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership				Aggregate	Percent of Class

- (3) Includes 880 shares held by Mr. Briggs' s spouse. Mr. Briggs disclaims beneficial ownership of those 880 shares.
- (4) Includes 1,000 shares held by Mr. Doty' s spouse. Mr. Doty disclaims beneficial ownership of those 1,000 shares.
- (5) Includes 1,600 shares held by a Family Trust. Mr. Larson disclaims beneficial ownership of those 1,600 shares.

APPROVAL OF WHITING PETROLEUM CORPORATION 2013 EQUITY INCENTIVE PLAN

Summary of Proposal

Our Board is seeking stockholder approval of the Whiting Petroleum Corporation 2013 Equity Incentive Plan (the "Equity Plan"), including the authority to issue 5,300,000 shares of our common stock under the Equity Plan. A copy of the Equity Plan is attached to this proxy statement as Annex A.

As we describe in the Compensation Discussion and Analysis, long-term performance incentives, consisting of restricted stock and stock options, are important components of our overall compensation program. Awards of restricted stock and stock options encourage our executive officers to have an ownership mentality and align their interests with stockholder interests by having a continuing stake in the success of our company and the long-term value appreciation in our common stock. In particular, the performance-based restricted stock encourages our executive officers to continue performance that results in stock appreciation above rates experienced by our peer group and the stock options reward the option holders only to the extent that our common stock price appreciates above the grant date price.

Background and Effect on Prior Plan

We currently deliver our long-term performance incentives under our 2003 Equity Incentive Plan (the "Prior Plan"). As of December 31, 2012, there were 227,046 shares remaining under the Prior Plan. Our three-year average burn rate is approximately 0.62% when calculated by dividing the total number of stock options and full-value shares granted in any given year by the number of shares of common stock outstanding. The number of equity awards used in the burn rate calculation is not discounted by cancelled or forfeited options or shares acquired or retained by us. If stockholders approve the Equity Plan, in the future we intend to deliver our long-term performance incentives under the Equity Plan. Accordingly, the Prior Plan will terminate on the date of stockholder approval, and no new awards will be granted under the Prior Plan after its termination date. The Prior Plan will, however, continue to govern awards outstanding as of the date of its termination and such awards shall continue in force and effect until fully distributed or terminated pursuant to their terms.

Authorized Shares and Stock Price

Our certificate of incorporation authorizes the issuance of 300,000,000 shares of common stock. There were 119,389,608 shares of our common stock issued and outstanding as of March 12, 2013, and the market value of a share of our common stock as of that date was \$50.50.

Summary of the Terms of the Incentive Plan

The following is a summary of the material provisions of the Equity Plan. This summary is qualified in its entirety by reference to the full and complete text of the Equity Plan. Any inconsistencies between this summary and the text of the Equity Plan will be governed by the text of the Equity Plan.

Purpose

The purpose of the Equity Plan is to promote our best interests and the best interests of our stockholders by providing our key employees and non-employee directors with an opportunity to acquire a proprietary interest in our company, receive monetary payments based on the value of our shares or receive other incentive compensation. The Equity Plan is intended to promote continuity of management and to provide increased incentive and personal interest in the welfare of our company by those key employees who are primarily responsible for shaping and carrying out our long-range plans and securing our continued growth and financial success. In addition, by encouraging stock ownership by directors who are not our employees or employees of our affiliates, we seek to attract and retain on the Board persons of exceptional competence and to provide further incentive to serve as a director of our company.

Administration and Eligibility

The Equity Plan is required to be administered by a committee of the Board consisting of not less than two directors, each of whom will be a non-employee director within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934 and an outside director within the meaning of Section 162(m) of the Code. The Compensation Committee has been designated as the current administrator of the Equity Plan, which we refer to in this section as the Committee. Among other functions, the Committee has the authority to select key employees and non-employee directors of our company and its affiliates to be participants under the Equity Plan; to determine the types of awards to be granted to participants and the number of shares covered by or the amount of cash to be earned pursuant to such awards; to set the terms and conditions of such awards; to determine whether, to what extent and when awards may be settled in cash or shares; to determine whether, to what extent and when cash, shares and other awards may be deferred; and to establish, amend or waive rules for the administration of the Equity Plan.

Any of our or our affiliates key employees, including executive officers or employee-directors, are eligible to be granted awards by the Committee under the Equity Plan. Key employees are defined as any of our or our affiliates officers or other key employees who are responsible for or contribute to the management, growth or profitability of our business or the business of our affiliates, as determined by the Committee. As of December 31, 2012, approximately 829 employees were eligible to participate in the Equity Plan. Our non-employee directors are also eligible to participate in the Equity Plan.

Awards Under the Equity Plan; Available Shares

The Equity Plan authorizes the Committee to grant to key employees:

stock options, which may be either incentive stock options meeting the requirements of Section 422 of the Code or non-qualified stock options;

stock appreciation rights;

restricted stock;

restricted stock units;

performance shares and performance units; and

annual incentive awards and long-term incentive awards.

The Committee may grant non-qualified stock options, stock appreciation rights, restricted stock and restricted stock units to non-employee directors.

If stockholders approve the Equity Plan, 5,300,000 shares of our common stock will be available for issuance under awards granted under the Equity Plan. All of the shares may be issued pursuant to the exercise of incentive stock options. If (1) an award lapses, expires, terminates or is cancelled without the issuance of shares

under, or the payment of other compensation with respect to shares covered by, the award, (2) it is determined during or at the conclusion of the term of an award that all or some portion of the shares with respect to which the award was granted will not be issuable, or that other compensation with respect to the shares covered by the award will not be payable, on the basis that the conditions for such issuance will not be satisfied, (3) shares are forfeited under an award or (4) shares are issued under any award and we subsequently reacquire them pursuant to rights reserved upon the issuance of the shares, then the shares will be recredited to the Equity Plan's reserve and may again be used for new awards under the Equity Plan, but shares recredited to the Equity Plan's reserve pursuant to clause (4) may not be issued pursuant to incentive stock options. However, in no event may the following shares be recredited to reserve: shares tendered in payment of the exercise price of an option; shares withheld to satisfy federal, state or local tax withholding obligations; and shares purchased by us using proceeds from option exercises.

If, after the termination date of the Prior Plan, any shares subject to awards granted under the Prior Plan would again become available for new grants under the terms of the plan if such plan were still in effect (taking into account such plan's provisions concerning termination or expiration), then those shares will be available for the purpose of granting awards under the Equity Plan, thereby increasing the number of shares available for issuance under the Equity Plan. Any such shares will not be available for future awards under the terms of the Prior Plan.

Any shares delivered pursuant to an award may be either authorized and unissued shares of common stock or treasury shares.

Terms of Awards

Performance Goals

The Committee may make any of the awards under the Equity Plan subject to achievement of performance goals and has the discretion to choose among the selected performance goals. Under the terms of the Equity Plan, the Committee may select from the following performance goals:

return on equity,

return on investment,

return on net assets,

return on revenues,

operating income,

performance value added,

pre-tax profits,

net income,

net earnings per share,

working capital as a percent of net sales,

net cash provided by operating activities,

market price per share of common stock,

market price per share of common stock in comparison with peers,

total stockholder return,

cash flow or cash flow per share,

reserve value or reserve value per share,

net asset value or net asset value per share,

production volumes,

reserve addition, and

finding and development costs.

As to each performance goal, the relevant measurement of performance will be computed in accordance with generally accepted accounting principles, if applicable, unless otherwise determined by the Committee at the time of granting the award. The Committee may, at the time of establishing the performance goal or at the time of measuring performance, exclude the effects of excluded items specified in the Equity Plan; provided that with respect to any award intended to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986 (the Code), such exclusions shall be made only to the extent consistent with Section 162(m) of the Code. The Committee may also provide for other adjustments to performance goals in the award agreement or plan document evidencing any award at the time the award is granted, except that, with respect to any award intended to qualify as performance-based compensation under Section 162(m) of the Code, such adjustment may be made only to the extent consistent with Section 162(m) of the Code. Where applicable, the performance goals may be expressed, without limitation, in terms of attaining a specified level of the particular criterion or the attainment of an increase or decrease (expressed as absolute numbers, averages and/or percentages) in the particular criterion or achievement in relation to a peer group or other index. The performance goals may include a threshold level of performance below which no payment will be made (or no vesting will occur), levels of performance at which specified payments will be paid (or specified vesting will occur), and a maximum level of performance above which no additional payment will be made (or at which full vesting will occur).

Options

The Committee may grant non-qualified stock options to non-employee directors and non-qualified stock options and incentive stock options to key employees, provided that no individual key employee may be granted, during any calendar year, options to purchase in excess of 600,000 shares of common stock under the Equity Plan (subject to adjustment as described below). The Committee will determine the exercise price per share of common stock subject to options granted under the Equity Plan, provided that the exercise price may not be less than 100% of the fair market value of a share of common stock on the date of grant. The term of any option granted under the Equity Plan will be determined by the Committee, provided that the term of any option may not exceed ten years from the date of its grant. Options granted under the Equity Plan will become exercisable in the manner, at the times and in the amounts determined by the Committee. Participants may exercise options by payment in full of the exercise price, at the discretion of the Committee, in cash or by tendering shares of common stock or other consideration having a fair market value on the date of exercise equal to the option exercise price. All incentive stock options granted under the Equity Plan must comply with Section 422 of the Code.

Stock Appreciation Rights

The Committee may grant stock appreciation rights to key employees and non-employee directors, provided that no individual key employee may be granted, during any calendar year, stock appreciation rights under the Equity Plan with respect to more than 600,000 shares of common stock (subject to adjustment as described below). A stock appreciation right granted under the Equity Plan will confer on the holder a right to receive, upon exercise of the stock appreciation right, the excess of the fair market value of one share of common stock on the date of exercise over the grant price of the stock appreciation right as specified by the Committee. The grant price of a stock appreciation right under the Equity Plan may not be less than 100% of the fair market value of a share of common stock on the date of grant. At the time of grant, the Committee will determine the term of any stock appreciation right granted under the Equity Plan, provided that the term may not exceed ten years from the date of grant. The Committee will also determine the price, term, methods of exercise, methods of settlement (including whether the holder of a stock appreciation right will be paid in cash, shares of common stock or other consideration), and any other terms and conditions of any stock appreciation right granted under the Equity Plan.

Restricted Stock

The Committee may grant shares of restricted stock to key employees and non-employee directors, provided that no key employee may be granted, during any calendar year, more than 300,000 shares of restricted stock (subject to adjustment as described below). Shares of restricted stock granted to key employees and non-employee directors under the Equity Plan will be subject to such restrictions as the Committee may impose, including any limitation on the right to vote the shares or receive dividends on the shares. The restrictions imposed on the shares may lapse separately or in combination at the times and in the amounts as the Committee determines. Except as otherwise determined by the Committee, upon termination of a key employee's employment or a non-employee director's service for any reason during the applicable restriction period, all shares of restricted stock still subject to restriction will be forfeited by the key employee or non-employee director.

Restricted Stock Units

The Committee may grant restricted stock units to key employees and non-employee directors, provided that no key employee, during any calendar year, may be granted more than 300,000 restricted stock units (subject to adjustment as described below). Restricted stock units granted to key employees and non-employee directors under the Equity Plan will be subject to such restrictions as the Committee may impose, which restrictions may lapse separately or in combination at the times and in the amounts as the Committee determines. Except as otherwise determined by the Committee, upon termination of a key employee's employment or a non-employee director's service for any reason during the applicable restriction period, all unvested restricted stock units will be forfeited by the key employee or non-employee director.

Performance Shares and Performance Units

The Committee may grant performance shares and/or performance units to key employees, provided that no key employee may receive, during any calendar year, more than 300,000 performance shares, more than 300,000 performance units the value of which is based on the fair market value of a share of our common stock, or performance units the value of which is not based on the fair market value of a share of our common stock that would pay more than \$3,000,000, under the Equity Plan (subject to adjustment as described below). The Committee will determine and/or select the applicable performance period, the performance goals (and the performance levels related to these goals) to be achieved during any performance period, the proportion of payments, if any, to be made for performance between the minimum and full performance level for any performance goal and, if applicable, the relative percentage weighting given to each of the selected performance goals, the restrictions applicable to shares of restricted stock or restricted stock units received upon payment of performance shares or performance units if payment is made in such manner, and any other terms, conditions and rights relating to the grant of performance shares or performance units.

Following completion of the applicable performance period, payment on performance shares and/or performance units granted to and earned by key employees will be made in shares of common stock (which, at the discretion of the Committee, may be shares of restricted stock), cash or restricted stock units with an aggregate fair market value equal to the value of the earned performance shares and/or performance units at the close of the applicable performance period. Key employees will have no voting rights with respect to the performance shares or the shares underlying performance units held by them during the applicable performance period.

Annual and Long-Term Incentive Awards

The Committee may grant annual or long-term incentive awards to key employees, provided that no key employee may receive, during any calendar year, an annual incentive award that would pay more than \$3,000,000 or a long-term incentive award that would pay more than \$6,000,000 under the Equity Plan. The Committee determines all terms and conditions of such awards, including the performance goals, performance

period, potential amount payable and timing of payment; but the Committee must require that payment of at least a portion of the amount subject to the award is contingent on the achievement of one or more performance goals during a specified period and the performance period relate to a period of one fiscal year of our company (except where the award is made to a newly hired or promoted individual) for an annual incentive award and a period of more than one fiscal year of our company for a long-term incentive award. Annual and long-term incentive awards are payable in cash.

Adjustments and Change in Control Provisions

If (i) we are involved in a merger or other transaction in which shares of our common stock are changed or exchanged; (ii) we subdivide or combine the shares of our common stock or we declare a dividend payable in shares of our common stock, other securities or other property; (iii) we effect a cash dividend the amount of which, on a per share basis, exceeds 10% of the fair market value of a share of our common stock at the time the dividend is declared, or we effect any other dividend or other distribution on our common stock in the form of cash, or a repurchase of shares of our common stock, that the Board determines is special or extraordinary in nature or that is in connection with a transaction that we characterize publicly as a recapitalization or reorganization involving the shares of our common stock; or (iv) any other event occurs that, in the judgment of the Committee, necessitates an adjustment to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Equity Plan, then the Committee will adjust as applicable (a) the number and type of shares of our common stock subject to the Equity Plan, and which may after the event be made the subject of awards; (b) the number and type of shares of our common stock subject to outstanding awards; (c) the grant, purchase, or exercise price with respect to any award; and (d) to the extent such discretion does not cause an award that is intended to qualify as performance-based compensation under Section 162(m) of the Code to lose its status as such, the performance goals of an award.

If the Committee deems appropriate, it may provide for a cash payment to the holder of an outstanding award in exchange for cancellation of some or all of the award (without the consent of the holder of the award) effective at such time as the Committee specifies (which may be the time such transaction or event is effective) or in lieu of any or all of the foregoing adjustments; except that no adjustment will be made with respect to awards of incentive stock options to the extent that such adjustment would cause the Equity Plan to violate Section 422(b) of the Code; and the number of shares of common stock subject to any award payable or denominated in shares of our common stock will always be a whole number. In the event of any reorganization, merger, consolidation, combination or other similar corporate transaction or event, the Committee may substitute, on an equitable basis as the Committee determines, for each share then subject to an award and the shares subject to the Equity Plan (if the Equity Plan will continue in effect), the number and kind of shares of stock, other securities, cash or other property to which holders of shares are or will be entitled in respect of each share pursuant to the transaction. In the case of a stock dividend (other than a stock dividend declared in lieu of an ordinary cash dividend) or subdivision or combination of the shares of our common stock (including a reverse stock split), if no action is taken by the Committee, adjustments that are proportionate will automatically occur as of the date of the stock dividend or subdivision or combination.

In order to preserve a participant's rights under an award in the event of a change in control, the Committee in its discretion may, at the time an award is granted or at anytime thereafter, take one or more of the following actions with respect to a change in control: (i) provide for the acceleration of any time period relating to the award or the exercise of the award in connection with a change in control; (ii) provide for the cancellation of the award upon or immediately prior to the change in control in exchange for an amount of cash or other property equal to the value of the award or the value that could have been received upon the exercise of the award had the award then been vested and/or exercisable; (iii) adjust the terms of the award in the manner determined by the Committee to be appropriate to reflect the change in control; (iv) cause the award to be assumed, or new right substituted therefor, by another entity; or (v) make such other provision as the Committee may consider equitable and in the best interests of our company in connection with a change in control.

For purposes of the Equity Plan, a change in control is defined in the restricted stock agreements to mean:

any person, with certain exceptions, is or becomes the beneficial owner of our securities representing at least 20% of the combined voting power of our outstanding voting securities;

one-third or more of the members of our Board who were directors on the grant date for the restricted stock, and any successor of those directors who is recommended by a majority of such directors, are not continuing directors;

any consolidation or merger is consummated in which we are not the surviving corporation or pursuant in which our common stock is converted into cash, with certain exceptions, or we sell substantially all of our assets; or

our company is liquidated or dissolved.

Limits on Transferability

Except as otherwise provided by the Committee, no award granted under the Equity Plan (other than an award of restricted stock on which the restrictions have lapsed or an award of restricted stock units which have vested) may be assigned, sold, transferred or encumbered by any participant, otherwise than by will, by designation of a beneficiary, or by the laws of descent and distribution. Except as otherwise provided by the Committee, each award will be exercisable during the participant's lifetime only by such participant or, if permissible under applicable law, by the participant's guardian or legal representative.

Dividend Equivalents

In addition to awards granted under the Equity Plan, the Committee may grant dividend equivalents to key employees and non-employee directors, entitling the participants to receive cash equal to cash dividends paid with respect to a specified number of shares of common stock. Dividend equivalents may only be granted in connection with full value awards granted to key employees or non-employee directors under the Equity Plan. For this purpose, a full-value award includes restricted stock, restricted stock units, performance shares, performance units (valued in relation to a share) and any other similar award under which the value of the award is measured as a full value of a share, rather than the increase in the value of a share.

No Repricing or Backdating of Options or Stock Appreciation Rights

Except for certain adjustments discussed above, neither the Committee nor any other person may decrease the exercise or grant price for any outstanding option or stock appreciation right after the date of grant, cancel an outstanding option or stock appreciation right in exchange for cash or other awards (other than cash or other awards with a value equal to the excess of the fair market value of the shares subject to such option or stock appreciation right at the time of cancellation over the exercise or grant price for such shares) or allow a participant to surrender an outstanding option or stock appreciation right as consideration for the grant of a new option or stock appreciation right with a lower exercise price. In addition, the Committee may not make a grant of an option or stock appreciation right with a grant date that is effective prior to the date the Committee takes action to approve such award.

Amendment and Termination

Except as otherwise provided in the Equity Plan, the Board or the Committee may amend, alter, suspend, discontinue, or terminate the Equity Plan. Approval by the Board will be required for any such action to the extent we determine such approval is required by: (i) prior action of the Board, (ii) applicable corporate law, or (iii) any other applicable law. Stockholder approval of any amendment of the Equity Plan will also be obtained to the extent we determine such approval is required by: (i) Section 16 of the Securities and Exchange Act of 1934, (ii) the Code, (iii) the listing requirements of any principal securities exchange or market on which the shares are

then traded, or (iv) any other applicable law. Stockholder approval is also required for any of the following Equity Plan amendments: (i) an amendment to materially increase any number of shares or limits specified in the Equity Plan (except as contemplated by the adjustment provisions of the Equity Plan), (ii) an amendment to expand the group of individuals that may become participants, or (iii) an amendment that would diminish the protections afforded by the anti-repricing and anti-backdating provisions of the Equity Plan or that would materially change the minimum vesting and performance requirements of an award as required in the Equity Plan.

Termination of the Equity Plan will not affect the rights of participants with respect to awards previously granted to them, and all unexpired awards will continue in force and effect after termination of the Equity Plan except as they may lapse or be terminated by their own terms and conditions.

The Committee may modify, amend or cancel any award, or waive any restrictions or conditions applicable to any award or the exercise of the award, under the Equity Plan, except that any modification or amendment that materially diminishes the rights of a participant and any cancellation of an award is effective only if agreed to by the participant or any other person with an interest in the award. The Committee need not, however, obtain consent for the adjustment or cancellation under the circumstances described in the preceding paragraph or for the modification of an award to the extent it deems necessary to comply with any applicable law, the listing requirements of any principal securities exchange or market on which the shares of our common stock are then traded, or to preserve favorable accounting or tax treatment of any award for our company. Notwithstanding the foregoing, unless determined otherwise by the Committee, any such amendment must be made in a manner that will enable an award intended to be exempt from Section 409A of the Code to continue to be so exempt, or to enable an award intended to comply with Section 409A to continue to so comply.

Recoupment

Any awards granted under the Equity Plan, and any shares issued or cash paid pursuant to an award, will be subject to (i) any recoupment, clawback, equity holding, stock ownership or similar policies adopted by us from time to time (to the extent contemplated by such policies) and (ii) any recoupment, clawback, equity holding, stock ownership or similar requirements made applicable by law, regulation or listing standards to us from time to time (to the extent contemplated by such requirements).

Withholding

Not later than the date as of which tax withholding is first required with respect to any award under the Equity Plan, a key employee will be required to pay to the company, or make arrangements satisfactory to the company regarding the payment of, any federal, state, local or foreign taxes required by law to be withheld with respect to such amount. Unless otherwise determined by the Committee, withholding obligations arising with respect to awards under the Equity Plan may be settled with shares of common stock (other than shares of restricted stock), including shares that are part of, or are received upon exercise of, the award that gives rise to the withholding requirement. Our obligations under the Equity Plan are conditional on such payment or arrangements, and we and any affiliate will, to the extent permitted by law, have the right to deduct any taxes from any payment otherwise due to the key employee. The Committee may establish such procedures as it deems appropriate for the settling of withholding obligations with shares of common stock.

Certain Federal Income Tax Consequences

The following summarizes certain federal income tax consequences relating to the Equity Plan. The summary is based upon the laws and regulations in effect as of the date of this proxy statement and does not purport to be a complete statement of the law in this area. Furthermore, the discussion below does not address the tax consequences of the receipt or exercise of awards under foreign, state or local tax laws, and such tax laws may not correspond to the federal income tax treatment described herein. The exact federal income tax treatment

of transactions under the Equity Plan will vary depending upon the specific facts and circumstances involved and participants are advised to consult their personal tax advisors with regard to all consequences arising from the grant or exercise of awards and the disposition of any acquired shares.

Stock Options

The grant of a stock option under the Equity Plan will create no income tax consequences to us or to the recipient. A participant who is granted a non-qualified stock option will generally recognize ordinary compensation income at the time of exercise in an amount equal to the excess of the fair market value of the common stock at such time over the exercise price. We will generally be entitled to a deduction in the same amount and at the same time as the participant recognizes ordinary income. Upon the participant's subsequent disposition of the shares of common stock received with respect to such stock option, the participant will recognize a capital gain or loss (long-term or short-term, depending on the holding period) to the extent the amount realized from the sale differs from the tax basis (i.e., the fair market value of the common stock on the exercise date).

In general, a participant will recognize no income or gain as a result of the exercise of an incentive stock option, except that the alternative minimum tax may apply. Except as described below, the participant will recognize a long-term capital gain or loss on the disposition of the common stock acquired pursuant to the exercise of an incentive stock option and we will not be allowed a deduction. If the participant fails to hold the shares of common stock acquired pursuant to the exercise of an incentive stock option for at least two years from the grant date of the incentive stock option and one year from the exercise date, then the participant will recognize ordinary compensation income at the time of the disposition equal to the lesser of the gain realized on the disposition and the excess of the fair market value of the shares of common stock on the exercise date over the exercise price. We will generally be entitled to a deduction in the same amount and at the same time as the participant recognizes ordinary income. Any additional gain realized by the participant over the fair market value at the time of exercise will be treated as a capital gain.

Stock Appreciation Rights

The grant of a stock appreciation right under the Equity Plan will create no income tax consequences to us or to the recipient. A participant who is granted a stock appreciation right will generally recognize ordinary compensation income at the time of exercise in an amount equal to the excess of the fair market value of the common stock at such time over the grant price. We will generally be entitled to a deduction in the same amount and at the same time as the participant recognizes ordinary income. If the stock appreciation right is settled in shares of our common stock, upon the participant's subsequent disposition of such shares, the participant will recognize a capital gain or loss (long-term or short-term, depending on the holding period) to the extent the amount realized from the sale differs from the tax basis (i.e., the fair market value of the common stock on the exercise date).

Restricted Stock

Generally, a participant will not recognize income and we will not be entitled to a deduction at the time an award of restricted stock is made under the Equity Plan, unless the participant makes the election described below. A participant who has not made such an election will recognize ordinary income at the time the restrictions on the stock lapse in an amount equal to the fair market value of the restricted stock at such time. We will generally be entitled to a corresponding deduction in the same amount and at the same time as the participant recognizes income. Any otherwise taxable disposition of the restricted stock after the time the restrictions lapse will result in a capital gain or loss to the extent the amount realized from the sale differs from the tax basis (i.e., the fair market value of the common stock on the date the restrictions lapse). Dividends paid in cash and received by a participant prior to the time the restrictions lapse will constitute ordinary income to the participant in the year paid and we will generally be entitled to a corresponding deduction for such dividends. Any dividends paid in stock will be treated as an award of additional restricted stock subject to the tax treatment described herein.

A participant may, within 30 days after the date of the award of restricted stock, elect to recognize ordinary income as of the date of the award in an amount equal to the fair market value of such restricted stock on the date of the award (less the amount, if any, the participant paid for such restricted stock). If the participant makes such an election, then we will generally be entitled to a corresponding deduction in the same amount and at the same time as the participant recognizes income. If the participant makes the election, then any cash dividends the participant receives with respect to the restricted stock will be treated as dividend income to the participant in the year of payment and will not be deductible by us. Any otherwise taxable disposition of the restricted stock (other than by forfeiture) will result in a capital gain or loss. If the participant who has made an election subsequently forfeits the restricted stock, then the participant will not be entitled to claim a credit for the tax previously paid. In addition, we would then be required to include as ordinary income the amount of any deduction we originally claimed with respect to such shares.

Restricted Stock Units

A participant will not recognize income and we will not be entitled to a deduction at the time an award of a restricted stock unit is made under the Equity Plan. Upon the participant's receipt of shares (or cash) at the end of the restriction period, the participant will recognize ordinary income equal to the amount of cash and/or the fair market value of the shares received, and we will be entitled to a corresponding deduction in the same amount and at the same time. If the restricted stock units are settled in whole or in part in shares, upon the participant's subsequent disposition of the shares the participant will recognize a capital gain or loss (long-term or short-term, depending on the holding period) to the extent the amount realized upon disposition differs from the shares' tax basis (i.e., the fair market value of the shares on the date the participant received the shares).

Performance Shares

The grant of performance shares will create no income tax consequences for us or the participant. Upon the participant's receipt of shares at the end of the applicable performance period, the participant will recognize ordinary income equal to the fair market value of the shares received, except that if the participant receives shares of restricted stock in payment of performance shares, recognition of income may be deferred in accordance with the rules applicable to restricted stock as described above. In addition, the participant will recognize ordinary compensation income equal to the dividend equivalents paid on performance shares prior to or at the end of the performance period. We will generally be entitled to a deduction in the same amount and at the same time as the participant recognizes income. Upon the participant's subsequent disposition of the shares, the participant will recognize a capital gain or loss (long-term or short-term depending on the holding period) to the extent the amount realized from the disposition differs from the shares' tax basis (i.e., the fair market value of the shares on the date the participant received the shares).

Performance Units

The grant of a performance unit will create no income tax consequences to us or the participant. Upon the participant's receipt of cash and/or shares at the end of the applicable performance period, the participant will recognize ordinary income equal to the amount of cash and/or the fair market value of the shares received, and we will be entitled to a corresponding deduction in the same amount and at the same time. If performance units are settled in whole or in part in shares, upon the participant's subsequent disposition of the shares the participant will recognize a capital gain or loss (long-term or short-term, depending on the holding period) to the extent the amount realized upon disposition differs from the shares' tax basis (i.e., the fair market value of the shares on the date the participant received the shares).

Annual and Long-Term Incentive Awards

A participant who is paid an incentive award will recognize ordinary income equal to the amount of cash paid, and we will be entitled to a corresponding income tax deduction.

Dividend Equivalent Units

A participant who is paid a dividend equivalent with respect to an award will recognize ordinary income equal to the value of cash or common stock paid, and we will be entitled to a corresponding deduction in the same amount and at the same time.

Section 162(m) Limit on Deductibility of Compensation

Section 162(m) of the Code limits the deduction we can take for compensation we pay to our Chief Executive Officer and our three other highest paid officers other than our Chief Financial Officer (determined as of the end of each year) to \$1 million per year per individual. However, performance-based compensation that meets the requirements of Section 162(m) does not have to be included as part of the \$1 million limit, and the Equity Plan includes terms intended to enable us to make awards that qualify as performance-based compensation. We reserve the right, however, to make awards that do not comply with Section 162(m) of the Code.

Code Section 409A

Awards under the Equity Plan may constitute, or provide for, a deferral of compensation under Section 409A of the Code. If such awards do not comply with the requirements of Section 409A, holders of the awards may be taxed earlier than would otherwise be the case (e.g., at the time of vesting instead of the time of payment) and may be subject to an additional 20% penalty tax and, potentially, interest and penalties. We have sought to structure the Equity Plan and awards under the Equity Plan to comply with Section 409A and the Department of Treasury regulations and other interpretive guidance that may be issued pursuant to Section 409A. To the extent that we determine that any award granted under the Equity Plan is subject to Section 409A, the award agreement evidencing such award will generally incorporate the terms and conditions required by Section 409A. The Equity Plan also incorporates the provisions of Section 409A by reference to the extent necessary for any award subject to Section 409A to comply with Section 409A. The Equity Plan and any applicable awards may be modified to exempt the awards from Section 409A or comply with the requirements of Section 409A.

Other Considerations

Awards that are granted, accelerated or enhanced upon the occurrence of a change of control may give rise, in whole or in part, to excess parachute payments within the meaning of Section 280G of the Code to the extent that such payments, when aggregated with other payments subject to Section 280G, exceed the limitations contained in that provision. Such excess parachute payments are not deductible by us and are subject to an excise tax of 20% payable by the participant.

Future Plan Benefits

Our Committee annually determines the benefits or amounts that will be received by or allocated to key employees and periodically reviews the director compensation schedule to determine the benefits or amounts to be received by or allocated to our directors. Accordingly, such benefits and amounts in the future are not currently determinable.

Equity Compensation Plan Information

The following table sets forth information with respect to compensation plans under which equity securities of Whiting Petroleum Corporation are authorized for issuance as of December 31, 2012.

Plan Category	(a) Number of Securities to be Issued upon Exercise of Outstanding Options, Warrants and Rights	(b) Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	(c) Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
Equity compensation plans approved by shareholders(1)	422,694	\$ 28.79	1,178,072(2)
Equity compensation plans not approved by shareholders			
Total	422,694	\$ 28.79	1,178,072(2)

(1) Includes only the Whiting Petroleum Corporation 2003 Equity Incentive Plan.

(2) Excludes 951,026 shares of restricted common stock previously issued for which the restrictions have not lapsed. Accordingly, as of December 31, 2012, there were only 227,046 shares remaining under the Whiting Petroleum Corporation 2003 Equity Incentive Plan. If Stockholders approve the Whiting Petroleum Corporation 2013 Equity Incentive Plan at the Annual Meeting, then the Whiting Petroleum Corporation 2003 Equity Incentive Plan will terminate on the date of stockholder approval and no new awards will be granted under the Whiting Petroleum Corporation 2003 Equity Incentive Plan after its termination date.

Required Vote

The affirmative vote of the holders of a majority of the shares having voting power present in person or represented by proxy at the Annual Meeting (assuming a quorum is present) is required for approval of the Equity Plan. Consequently, broker non-votes will have no effect on the approval of the Equity Plan, but abstentions will act as a vote against approval of the Equity Plan. In the event the Equity Plan is not approved by our stockholders at the Annual Meeting, the Prior Plan will remain in full force and effect.

The Board recommends a vote FOR the approval of the Whiting Petroleum Corporation 2013 Equity Incentive Plan.

COMPENSATION DISCUSSION AND ANALYSIS**Objectives of Compensation Program**

We recognize the importance of maintaining sound principles for the development and administration of our compensation program. Our compensation program is designed to advance the following core principles:

support our business strategy of achieving meaningful growth in free cash flow, production of oil and natural gas and proved reserves of oil and natural gas; and

Edgar Filing: WHITING PETROLEUM CORP - Form DEF 14A

increase long-term value appreciation in our common stock.

In advancing these principles, the objectives of our compensation program, including the compensation of our named executive officers, are to attract and retain highly qualified and experienced employees, motivate them to achieve and advance, and reward them for outstanding performance. Our Compensation Committee

evaluates the performance of our named executive officers based on a selection of six performance factors enumerated below and various modifying factors, which our Compensation Committee considers as the most important measurements of the performance for our company (see Role of our Compensation Committee, Named Executive Officers and Compensation Consultants).

What Compensation Program Is Designed to Reward, Recognize and Encourage

We have designed our compensation program to provide rewards for individual performance and corporate results and to encourage an ownership mentality among our executives and other key employees.

Elements of Compensation/Why We Chose Each/How Each Relates to Objectives

The Compensation Committee focuses on the total compensation of the named executive officers, but also approves the amounts of all individual components of total compensation, including equity awards and Production Participation Plan awards for all executive officers consistent with its responsibility for oversight of the 2003 Equity Incentive Plan, the 2013 Equity Incentive Plan (if approved by stockholders at the Annual Meeting) and the Production Participation Plan. The principal elements of compensation for our named executive officers are:

long-term performance incentives in the Equity Incentive Plan;

short-term and long-term performance incentives in the Production Participation Plan;

base salaries; and

401(k) retirement savings plan and other benefits.

In assessing total compensation, our objective is to be competitive with industry compensation while considering individual and company performance. Peer group and industry survey data provided by our compensation consultant is considered in setting and evaluating compensation, but since the data is usually not current, it is not the only consideration. The Compensation Committee's objective is that total executive compensation be competitive with peer group compensation for like positions if company and individual performance meet predetermined standards. Subject to overall company performance, the Compensation Committee believes that compensation within the 50th-75th percentile of its peer group of companies is competitive. The companies comprising our peer group are identified below under Role of Our Compensation Committee, Named Executive Officers and Compensation Consultants. All references to peer groups in this Compensation Discussion and Analysis are to these companies.

Production Participation Plan

All employees, including our named executive officers, participate in our Production Participation Plan. This is a relatively unique plan, which we chose because it combines performance-based elements related to maximizing oil and gas production and prices and to minimizing lease operating expenses, and annual bonuses in one plan. The Production Participation Plan gives each of our employees a direct participation in the results of our acquisition of, successful exploration for and development of proved reserves. Production of those reserves provides shared benefits to stockholders and employees. Achieving the best economic results from acquisition, exploration, development, and production is a complimentary goal for both us and our employees.

Each year, our Compensation Committee allocates to the Production Participation Plan (but does not legally convey) an interest in production income (defined as gross revenues less taxes (other than income taxes), royalties and direct lease operating expenses) from oil and natural gas wells acquired or developed during the year. The amount of the interest is in the discretion of the Compensation Committee, and has historically ranged from 2% to 5% of the production income. The Compensation Committee also allocates the interests held by the Production Participation Plan among individual plan participants in its discretion. Once allocated to plan

participants, the interests are fixed as to that plan year. While employed, each employee is paid annually in cash his or her full interest in applicable current production income. The Production Participation Plan provides for continued post-employment participation through permanent vesting in the future production income of the Production Participation Plan at the rate of 20% per year as to every plan year. Also, employees fully vest in all plan years at the age of 62 or upon death or disability, and full vesting is accelerated in the event we voluntarily terminate the Production Participation Plan or in the event of a change in control of our company. This provides important retention incentives to all employees and a long-term, career orientation. Upon termination of employment, employees retain their vested interests in the Production Participation Plan. For plan years prior to 2004, forfeitures of unvested interests due to termination of employment are re-allocated among other plan participants. For plan years after 2003, forfeitures revert to our company.

We have a Production Participation Plan Credit Service Agreement with our Chief Executive Officer, Mr. Volker, the purpose of which is to provide credit to him under the Production Participation Plan for services he rendered to us as a consultant from March 1993 to August 2000 as if he would have been a participant in the Production Participation Plan during such time period. We entered into this arrangement with Mr. Volker to induce him to become an officer of our company. We also have a Production Participation Plan Supplemental Agreement with our Vice President, Reservoir Engineering/Acquisitions, Mr. Lang, the purpose of which is to provide him an annual cash payment in addition to his Production Participation Plan participant entitlement to ensure that he receives a total payment equal to the average of the Production Participation Plan payments to our Chief Financial Officer and Senior Vice President/Chief Operating Officer. We entered into this arrangement with Mr. Lang to retain his services as an officer of our company. The Production Participation Plan Supplemental Agreement also provides that upon a change in control of our company or a voluntary termination of the Production Participation Plan, we will make a cash payment to Mr. Lang to ensure that his distribution is equal to the average of the Production Participation Plan distributions to our Chief Financial Officer and Senior Vice President/Chief Operating Officer. Both of these agreements were negotiated with Messrs. Volker and Lang at the time of their employment with us to give recognition to their prior experience in the oil and gas industry in addition to the individual purposes described above. See note 2 to the Summary Compensation Table and Potential Payments Upon Termination or Change of Control Production Participation Plan .

Annual Production Participation Plan distributions will increase or decrease depending upon the quantities of oil and natural gas we produce, prices we realize and direct production costs we incur. As a result, these distributions are directly linked to our corporate operating performance.

2003 Equity Incentive Plan

Our 2003 Equity Incentive Plan provides long-term equity-based incentive compensation to our directors, named executive officers and other key employees. Although the Equity Incentive Plan provides for the grant of several forms of equity-based awards, including restricted stock, stock options, and stock appreciation rights, we have limited our awards to restricted stock and stock options. Our Compensation Committee formulates our restricted stock and stock option awards on an annual basis in conjunction with other compensation decisions at its January or February meeting.

In 2012, we made grants of restricted stock to our named executive officers that will vest based on achieving a performance objective. In 2012, that objective was the performance (whether positive or negative) of the price per share of the company's common stock for the period from December 31, 2011 to each of the fiscal year ends preceding the first three anniversaries of the grant date, exceeds the performance (whether positive or negative) of the average price per share of common stock of the peer group of companies described in the report of the Compensation Committee's independent compensation consultant and identified below under Role of Our Compensation Committee, Named Executive Officers and Compensation Consultants. Performance for this purpose is measured by the percentage change in the value of our common stock per share as compared to the average percentage change of the values per share of the peer companies.

In 2012, we awarded stock options to our named executive officers. Such stock options vest in equal annual increments over three years from the date of grant contingent on continued employment through the applicable vesting date. The stock options have a ten year term and the exercise price is the fair market value of a share of common stock on the date of grant.

Awards of restricted stock and stock options encourage our executive officers to have an ownership mentality and align their interests with stockholder interests by having a continuing stake in the success of our company and the long-term value appreciation in our common stock. In particular, the performance-based restricted stock encourages our executive officers to continue performance that results in stock appreciation above rates experienced by our peer group.

Base Salaries

We maintain base salaries for our executive officers to recognize their qualifications, experience and responsibilities as well as their unique value and historical contributions to us. The Compensation Committee reviews, evaluates and sets the base salaries for the named executive officers. Base salaries continue to be important in attracting and retaining executive officers and other employees and in motivating them to aspire to and accept enlarged responsibilities and opportunities for advancement. We do not consider base salaries part of executives performance-based compensation because the amounts of the salaries are fixed, but, in setting the amount of individual executive officers' base salaries, the Compensation Committee does consider the individuals' performance as measured by individual performance appraisals prepared by the chief executive officer and reviewed with each executive officer and by the Compensation Committee for named executive officers other than the chief executive officer and performance evaluations conducted by the Compensation Committee in the case of the chief executive officer. Consistent with most of our peer companies, base salaries represent less than 20% of total compensation for our named executive officers.

401(k) Plan

We maintain a 401(k) retirement savings plan for all salaried employees including our executive officers. Historically, the Compensation Committee has made an annual determination as to the company matching contribution to the 401(k) plan, and has matched 100% of the first 7.5% of compensation contributed by our participating employees including our executive officers. Commencing January 1, 2012, the Compensation Committee determined that such company matching contribution will be made on a per-pay-period basis. These matching contributions vest to participants in equal increments over the first five years of employment.

Other Benefits

We provide all employees on an equal basis with medical, dental, vision, life and disability insurance coverage. We also provide customary vacation and paid holidays to all employees, including the named executive officers. We limit the perquisites that we make available to our named executive officers to only a few negligible benefits (totaling less than \$10,000 in cost for each named executive officer in 2012) that are not available to all our employees.

How We Chose Amounts for Each Element

Our Compensation Committee monitors our executive compensation elements, both individually and collectively, based primarily on judgments as to what is appropriate under our circumstances as well as individual circumstances. We believe that awards to our executive officers under our Production Participation Plan and Equity Incentive Plan should be aligned with the interests of our stockholders and we therefore have sought to structure the awards to reward performance. Compensation of executives in similar positions to our executive officers in our peer group of companies is reviewed and considered by the Compensation Committee but not targeted. We allocate a significant percentage of total compensation to incentives in support of the core principles mentioned above. There is no pre-established policy or target for allocation between cash and non-cash or between short-term and long-term incentive compensation.

Performance Factors

The Compensation Committee has developed, and the Board has ratified, six performance factors and a group of modifying factors which have become the basis for evaluating the total compensation of our executive officers. Although we may choose to modify the performance factors in the future, we believe that these six performance factors are currently the most important measurements of the overall performance of our company and its executive officers. In arriving at the 2012 awards under the Production Participation Plan and the Equity Incentive Plan, the Compensation Committee evaluated each of the following six performance factors for 2011:

Net asset value per share (on an estimated basis including proved, probable and possible reserves discounted at 15%, and using prior year commodity prices)

Annual stock price appreciation compared to that of the average of the changes in the common stock prices of the peer group of companies identified below under Role of Our Compensation Committee, Named Executive Officers and Compensation Consultants

Production change per share

Finding and development costs

Adjusted earnings per share

Discretionary cash flow per share

The modifying factors also to be considered are:

Acquisitions

Increase in acreage inventory

Additions to probable and possible reserves

Other financial factors

Overall strengthening of our balance sheet

For 2012, we believe that the 2011 results measured for these performance factors were better than our peers and had an impact on the Compensation Committee's evaluation of total compensation, however, we purposely avoided a formulaic approach in order to retain maximum flexibility and judgment. We considered the following results:

Estimated net asset value per share remained essentially the same as 2010

Edgar Filing: WHITING PETROLEUM CORP - Form DEF 14A

While stock price declined approximately 20% compared to 2010, over a three-year period it had increased 179% compared to an average of 79% for our peer group of companies

Production per share increased 5% over 2010

Finding and development costs were \$25.65/boe compared to \$10.95/boe for 2010, but still very competitive

Adjusted earnings per share increased by 44% over 2010

Discretionary cash flow per share increased 30% over 2010

In addition, in 2011 we initiated the process of the initial public offering of Whiting USA Trust II, increased proved reserves 13.4%, acquired substantial Williston Basin acreage at highly competitive prices, negotiated new oil and gas hedges and contracts, and recovered from extreme adverse weather conditions in North Dakota which severely impacted production in the first half of the year.

While we allocate a significant percentage of total compensation to incentives in support of the performance factors mentioned above, there is no pre-established policy or target for allocation between cash and non-cash or between short-term and long-term incentive compensation.

Production Participation Plan

Benefits received by our executive officers are derived during three important stages of the Production Participation Plan – award, vesting and annual payment – each with different factors ultimately driving amounts paid. Awards are made based on evaluations of company, team and individual performance. As previously discussed, annual awards time-vest over five years unless our executives reach age 62 at which time they become fully vested. Executives who resign or are terminated forfeit their unvested interests in the Production Participation Plan. Because each year adds future production income to the plan, Production Participation Plan benefits accumulate and payments received by executives during and after employment are significantly influenced by each executive’s length of service. In addition, because annual payments have a direct relationship to annual production income, the amounts are significantly influenced by oil and gas prices and the effectiveness with which we produce our oil and gas reserves.

Production Participation Plan awards in total and individual awards to our executives are at the discretion of our Compensation Committee. Historically, the annual Production Participation Plan award has ranged from a 2% to 5% interest in production income from oil and natural gas wells acquired or developed in that year. For plan year 2012, the Compensation Committee set the total Production Participation Plan award at 2.3% after consideration of the year’s drilling and activity level, of which 62.3% was allocated to our non-officer employees and 37.7% was allocated to our officer group (14.32% going to our named executive officers with 5.28% to Mr. Volker and 2.26% to each of the other four named executive officers).

The portion of the 2012 award allocated to non-officer employees was increased by approximately 3.35% (from 58.95% to 62.3%) over the portion allocated for 2011 in reflection of the contribution of all employees to the company’s success.

In establishing the total award and the executive participation therein, as discussed below, the Compensation Committee has purposely avoided a formulaic approach in order to retain maximum flexibility and judgment as to what it considers appropriate in the circumstances.

Regarding the allocation of the remaining 37.7% of the 2012 award to our officer group (including the 14.32% to our named executive officers), the Compensation Committee considered the performance factors enumerated above and determined the allocation as follows:

The officers were divided into three groups based on an evaluation of their job responsibilities and individual performance during 2012. The three groups were (1) the chief executive officer, (2) the senior executives and top performers (including the other named executive officers) and (3) the remaining executives.

The award level for each group is established based on relative job responsibilities and performance. Each person within each group received the same award. We intend this approach to reinforce the team concept within the executive group.

The Compensation Committee periodically reviews, for the total Production Participation Plan and for each named executive officer’s interest in the Production Participation Plan, the estimated present value of both vested and unvested benefits. In its review, the Compensation Committee also compares the increases in our long-term commitments under the Production Participation Plan with the growth in our stockholders’ equity and growth in our market capitalization (aggregate market value of our common stock), but retains full discretion to increase our long-term commitments under the Production Participation Plan even if there is no growth (or a decline) in our stockholders’ equity or market capitalization if it believes such an increase is in the best long-term interests of our company and our stockholders.

Restricted Stock Awards

The Compensation Committee believes that equity ownership is an important element of compensation to the named executive officers and other members of our management team, and believes that over time more of

executive compensation should be equity-based rather than cash-based so as to better align executive compensation with stockholder return. Consistent with this belief, we have systematically increased the named executive officers' ownership in our common stock. Our Compensation Committee makes grants of restricted stock each year at its January or February meeting. In 2012, Messrs. Volker, Stevens, Brown, Williams and Lang were awarded 121,392, 50,934, 63,837, 38,541, and 21,903 shares of restricted stock, respectively. The vesting of the restricted stock is 100% performance-based and the restricted stock will vest if the performance (whether positive or negative) of the price per share of the company's common stock for the period from December 31, 2011 to each of the fiscal year ends preceding the first three anniversaries of the grant date exceeds the performance (whether positive or negative) of the average price per share of common stock of the peer group of companies identified by the Compensation Committee. See *Role of Our Compensation Committee, Named Executive Officers and Compensation Consultants* below for a listing of the peer group of companies. In establishing this performance objective, the Compensation Committee aligned this portion of executive compensation directly with stockholder return relative to our peer company group. To the extent all or a portion of the awards are not earned at the end of the three years, the portion of the awards not earned will be forfeited.

In making the 2012 awards, the Compensation Committee considered, in addition to the performance and other factors discussed above:

Total compensation awards for each employee compared to the same executive positions in a peer group of other companies, and

Equity-based awards of a peer group of other companies.

Stock Options

The Compensation Committee philosophy regarding stock options is similar to that stated above for restricted stock awards and similar performance and other factors were considered in making the 2012 stock option awards. Equity ownership aligns executive compensation with stockholder return and stock options reward the executive officers only to the extent that our common stock price appreciates above the grant date price. Our Compensation Committee made grants of stock options to certain of our named executive officers at its January 2012 meeting. Messrs. Volker, Stevens, Brown, Williams and Lang were awarded 18,352, 5,540, 9,695, 4,848, and 0 options to acquire an equal number of our common stock, respectively. Such options vest in equal annual increments over three years from the date of grant. The stock options have a ten year term and the exercise price for the stock options is the fair market value of a share of common stock on the date of grant which was \$51.22. The Compensation Committee will consider whether stock options best align the management with Corporate goals on a year to year basis.

Base Salaries

Our Compensation Committee considers executive officer base salary levels annually as part of our performance appraisal process and establishes new salary levels effective as of the first of each year. The Compensation Committee normally establishes the appropriate base salary for Mr. Volker, our chief executive officer, and the other named executive officers. For 2012, the Compensation Committee approved salary increases for the named executive officers which averaged 20%. In establishing or approving executive officer base salaries, the Compensation Committee considers, in addition to the performance and other factors discussed previously, the following:

Company growth.

Individual responsibilities and performance compared to individual goals included in the annual performance appraisals of each named executive officer which were prepared by the chief executive officer and reviewed with the named executive officers and by the Compensation Committee for named executive officers other than the chief executive officer and performance evaluations conducted by the Compensation Committee in the case of the chief executive officer.

Successful implementation of budgeted programs and policies.

Competition for executive talent among oil and gas companies.

Base salaries provided to executives in similar positions in our peer group.

Chief Executive Officer Compensation Factors

Additional factors considered in establishing the Production Participation Plan allocation, restricted stock and stock option awards and salary compensation to our chief executive officer, Mr. Volker, in amounts greater than the other named executive officers included:

The magnitude of his responsibilities and the dedication and effectiveness with which he discharges them.

His skill in guiding our acquisition, exploration, development and production efforts.

His effectiveness in managing relationships with our executives, employees and directors and external relationships with bankers, investment bankers, analysts and others.

His strategic vision for our future, and his ability to plan and direct the implementation of that vision.

His effective leadership of the Company.

Mr. Volker is paid at a level of approximately two to three times the level of each of our other named executive officers. His higher levels of compensation in each of our elements of executive compensation reflect his higher levels of overall responsibility for the combined activities of our company compared to the other members of the executive team.

Changes in Compensation Program in 2013

At its meeting in January 2013, the Compensation Committee reviewed the company's performance factor results for fiscal 2012 as part of its process of establishing compensation for 2013. Based on the six performance factors, company performance in 2012 again exceeded peer results. In addition, the Compensation Committee believes that there were additional accomplishments beyond the six performance factors where the company showed strong improvement in 2012. However, as a result of the overall level of performance in 2012, the total compensation increases made in 2013 are less than those that were made in 2012.

Role of Our Compensation Committee, Named Executive Officers and Compensation Consultants

Our Compensation Committee, which has overall responsibility for executive compensation, monitors our director and executive officer compensation and benefit plans, policies and programs to insure that they are consistent with our compensation philosophy and corporate governance guidelines. Subject to the approval of the independent directors of the Board, the Compensation Committee makes annual Production Participation Plan and equity awards to our named executive officers.

Although the Compensation Committee uses survey and peer group compensation information in monitoring compensation, the Compensation Committee recognizes that available data is not current at the time it makes compensation decisions. For example, the 2012 Production Participation Plan award was made in January of 2013 when our preliminary 2012 operating results became available. Survey and peer company information was available only for 2011. Restricted stock awards for 2012 were established in January of 2013. At that time, survey and peer company information was available only for 2011.

When 2011 compensation data became available in 2012, the Compensation Committee reviewed comparisons of our 2011 executive compensation (by component and in total) with that of a peer group of ten companies and with industry compensation survey results. The companies that comprised our peer group for

purposes of the 2012 compensation analysis were Bill Barrett Corporation, Cabot Oil and Gas Corporation, Cimarex Energy Co., Comstock Resources, Continental Resources, Denbury Resources, Inc., Forest Oil Corporation, Newfield Exploration Company, Range Resources Corporation, and SM Energy Company. The Compensation Committee selected this group of companies due to the similarity of their operations to ours and their size. Specifically, the peer companies are all independent (meaning in general that they do no refining or retail marketing of crude oil and natural gas) oil and gas exploration and development companies operating (with limited exceptions) only in the United States and primarily in onshore areas. The Compensation Committee reviews the peer group annually to assure that the companies in the group are appropriately comparable to our company.

The Compensation Committee has concluded such comparisons are of limited usefulness, principally because of the uniqueness of our Production Participation Plan and because the compensation data from the peer companies is generally out of date. However, where possible we have attempted to get more updated data from our compensation consultant, and in general, our Compensation Committee believes that our executive compensation is competitive with our peers.

To help ensure that our executive compensation program is competitive and is consistent with our compensation philosophy and corporate governance guidelines and that our plan awards provide rewards for accomplishment, not for expectation, our Compensation Committee does the following:

Maintains a Compensation Committee comprised of independent directors who are seasoned executives having experience in the oil and gas industry and in establishing and monitoring executive compensation programs, plans and awards.

Independently performs analytical reviews of our annual performance using the performance and modifying factors described above.

Annually participates in, subscribes to and reviews industry-wide compensation and benefits surveys to gauge the adequacy of our programs.

From time to time but not necessarily annually, directly engages an independent executive compensation and benefits consultant to assess the competitiveness of our overall executive compensation program, and provide specific research in areas being reviewed by our Compensation Committee. This consultant reports directly to the Compensation Committee when engaged and does not determine, but may, when asked, make recommendations as to the amount or form of director or officer compensation.

Subscribes to and reviews various published resources with respect to executive compensation practices and issues.

Annually reviews the performance of our chief executive officer, and determines his plan awards and base salary.

Annually reviews the performance of our other named executive officers and other key employees with assistance from our chief executive officer and approves their plan awards and base salaries.

Holds executive sessions (without management present) at every Compensation Committee meeting.

The members of the Compensation Committee also communicate frequently with each other informally between meetings.

During 2012, the Compensation Committee directly engaged Longnecker & Associates (*Longnecker*) to advise it with respect to executive officer compensation. Specifically, Longnecker provided the Compensation Committee with an executive compensation review including information comparing its benchmarking of compensation for our named executive officers to that of our peer companies and other compensation surveys. Subsequent to Longnecker's initial engagement, and following the publication of SEC rules and New York Stock

Exchange listing standards regarding the independence of compensation committee advisors, the Committee reviewed the independence of Longnecker and the individual representatives of Longnecker who served as the Compensation Committee's consultants in light of the new requirements, considering the following specific factors: (i) other services provided to us by Longnecker; (ii) fees paid by us to Longnecker as a percentage of Longnecker's total revenue; (iii) policies and procedures maintained by Longnecker that are designed to prevent a conflict of interest; (iv) any business or personal relationships between the individual representatives of Longnecker who advised the Compensation Committee and any member of the Compensation Committee; (v) any shares of company common stock owned by the individual representatives; and (vi) any business or personal relationships between our executive officers and Longnecker or the individual representatives. For the year ended December 31, 2012, we paid Longnecker approximately \$24,500 for executive compensation consulting for the Compensation Committee. Longnecker provided no other services to our company. The Compensation Committee concluded, based on the evaluation described above, that the services performed by Longnecker did not raise a conflict of interest or impair Longnecker's ability to provide independent advice to the Compensation Committee regarding executive compensation matters. The Compensation Committee's conclusion was based on the fact that Longnecker provided no other services to us, the small percentage of Longnecker's revenues represented by the fees paid by us and the absence of any conflicting relationships between the individual representatives of Longnecker who provided advice to the Compensation Committee or Longnecker, on the one hand, and members of the Compensation Committee or our executive officers, on the other.

Typically, our chief executive officer makes compensation recommendations to the Compensation Committee with respect to the executive officers that report to him. Such officers are not present at the time of these deliberations. The Compensation Committee determines the compensation of our chief executive officer with limited input from him and he is not present at the time of that deliberation. The Compensation Committee, in its discretion, may accept, modify or reject any such recommendations.

2012 Say on Pay Vote

In May 2012 (after the 2012 executive compensation actions described in this Compensation Discussion and Analysis had taken place), we held an advisory stockholder vote on the compensation of our named executive officers at our annual stockholders' meeting, and, consistent with the recommendation of the Board, our stockholders approved our executive compensation, with more than 95% of votes cast in favor. Consistent with this strong vote of stockholder approval, we have not undertaken any material changes to our executive compensation programs in response to the outcome of the vote. In keeping with the recommendation of the Board, our stockholders also expressed a preference that future advisory stockholder votes on the compensation of our named executive officers be held on an annual basis and, as previously disclosed, the Board determined to hold an advisory vote on the compensation of the named executive officers every year until the next required advisory vote on the frequency of future advisory votes.

Termination and Change in Control Arrangements

Other than as described below, we do not have any employment contracts, severance agreements or severance plans in effect with respect to any of our named executive officers. We also do not provide pension arrangements, post-termination health coverage or deferred compensation plans for them. Furthermore, in the event of a change in control of our company:

Unvested interests in the Production Participation Plan automatically vest.

The Production Participation Plan terminates and all interests are liquidated in a lump sum distribution.

Unvested shares of restricted stock and stock options automatically vest.

Unvested company matching contributions to the 401(k) Plan automatically vest.

Due to this vesting, our executive officers may be deemed to receive compensation which is subject to a federal 20% excise tax in addition to ordinary income tax, and the payments subject to the excise tax may be nondeductible to us. Our Compensation Committee has decided that the benefits granted to our executive officers should not be diminished in value due to such excise tax as a result of a change in control of our company. Accordingly, the company has entered into agreements with each of our executive officers providing that, if a change in control of the company occurs and any payments to each executive officer are subject to the 20% excise tax, the company will pay the executive the amount necessary to offset the 20% excise tax and any additional taxes on this payment. However, these agreements also provide that, if the executive would not be subject to such excise tax if the total payments to the executive were reduced by an amount up to \$50,000, then the amounts payable to the executive under the Production Participation Plan will be reduced so that the total payments do not exceed the maximum amount that could be paid to the executive without giving rise to such excise tax.

These change in control benefits are included in the underlying plan and grant documents as to vesting and in separate agreements as to excise taxes. We believe that they are essential elements of our executive compensation package and assist us in recruiting and retaining talented individuals. These change in control provisions are also intended to help ensure that our executives remain with us in the event of a potential change in control of our company and that our executives are not disadvantaged by a change in control of our company. See **Executive Compensation Potential Payments upon Termination or Change in Control** for a quantification of these benefits.

Stock Ownership Guidelines

Our Board has adopted stock ownership guidelines to further align the interests of our named executive officers with the interests of our stockholders and to promote our commitment to sound corporate governance. The stock ownership guidelines for our named executive officers are determined as a multiple of the officer's base salary. Our chief executive officer is required to hold shares of our common stock with a value equal to at least three times his annual base salary. Each of the other named executive officers are required to hold shares of our common stock with a value equal to one and one-half times his annual base salary. Named executive officers are required to achieve the applicable level of ownership within three years of the later of the date these guidelines were adopted or the date the person was initially designated a named executive officer. Shares that count towards satisfaction of the guidelines include: (i) shares owned outright by the officer, and (ii) shares held in trust for the benefit of the officer. Unexercised and/or unvested equity awards do not count towards satisfaction of the guidelines. The value of a share will be measured on January 1st of each year as the average month end closing price for the 12 months preceding the date of calculation. All of the named executive officers currently own a sufficient number of shares of our common stock to satisfy the guidelines.

Accounting and Tax Treatment of Compensation

We account for our restricted stock and stock options grants in accordance with the requirements of FASB ASC Topic 718 which requires us to estimate and record an expense over the service or vesting period of the award. The Compensation Committee considers these requirements when determining annual grants of equity awards.

Section 162(m) of the Internal Revenue Code limits our income tax deduction for compensation paid to each of the named executive officers to \$1 million, subject to several exceptions. Although our Compensation Committee considers the impact of Section 162(m) when developing and implementing our executive compensation program, we believe that it is important to preserve flexibility in designing compensation programs in order to retain and motivate superior executive talent. Accordingly, we have not adopted a policy that all compensation must qualify as deductible under Section 162(m).

Section 409A of the Internal Revenue Code provides, among other things, rules for when compensation may be deferred and when, if deferred, it may be paid. We have reviewed and amended our compensation plans and agreements with the intention that they be compliant with Section 409A.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the above Compensation Discussion and Analysis with management and, based on such review and discussion, has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into the company's Annual Report on Form 10-K.

EXECUTIVE COMPENSATION

Summary Compensation Information

The following table sets forth information concerning the compensation earned in respect of the 2010, 2011 and 2012 fiscal years by our chief executive officer, our chief financial officer and each of our three other most highly compensated executive officers whose total cash compensation exceeded \$100,000. The persons named in the table are sometimes referred to in this proxy statement as the named executive officers.

- (1) Reflects the full grant date fair value of restricted stock and stock option awards granted in 2010, 2011 and 2012 calculated in accordance with FASB ASC Topic 718. Assumptions used in the calculation of these amounts are included in note 8 to our audited financial statements for the fiscal year ended December 31, 2012 included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 28, 2013. See Grants of Plan-Based Awards Table and Disclosure Regarding Summary Compensation Table and Grants of Plan-Based Awards Table for more information regarding awards of restricted stock and stock options.
- (2) Reflects the dollar amount we paid under our Production Participation Plan with respect to proceeds from sales of interests in proved reserves in 2011 and 2012 as well as our production income from oil and natural gas wells during each of 2010, 2011 and 2012 attributable to all plan years in which each named executive officer has an allocated interest under the Production Participation Plan. See Disclosure Regarding Summary Compensation Table and Grants of Plan-Based Awards Table for more information regarding awards under our Production Participation Plan. For awards made with respect to the 2010 plan year only, Mr. Volker received \$273,462 and Messrs. Stevens, Brown, Williams and Lang each received \$117,198. For awards made with respect to the 2011 plan year only, Mr. Volker received \$195,554 and Messrs. Stevens, Brown, Williams and Lang each received \$84,519. For awards made with respect to the 2012 plan year only, Mr. Volker received \$277,944 and Messrs. Stevens, Brown, Williams and Lang each received \$118,969. Also reflects payments in 2010, 2011 and 2012 in the amounts of \$19,694, \$16,833, and \$45,787, respectively, to Mr. Volker pursuant to his Production Participation Plan Credit Service Agreement, which is calculated as if he would have participated in our Production Participation Plan during the time period he was a consultant to us from March 1993 to August 2000, and payments in 2010, 2011 and 2012 in the amounts of \$27,776, \$30,498, and \$40,687, respectively, to Mr. Lang pursuant to his Production

- Participation Plan Supplemental Payment Agreement, which is equal to the difference between the average of the Production Participation Plan payments to our Chief Financial Officer and Senior Vice President and the Production Participation Plan payment to Mr. Lang. See Compensation Discussion and Analysis Elements of Compensation/Why We Chose Each/How Each Relates to Objectives.
- (3) Reflects long term disability, accidental death and dismemberment and life insurance premiums paid by us for Messrs. Volker, Stevens, Brown, Williams and Lang in the amounts of \$3,112, \$2,574, \$2,712, \$2,373 and \$2,373, respectively, for 2010 and in the amounts of \$2,289, \$2,910, \$3,112, \$2,645 and \$2,746, respectively, for 2011 and in the amounts of \$2,289, \$3,112, \$3,112, \$2,877 and \$2,910, respectively, for 2012. These amounts also include matching contributions by us under our 401(k) Employee Savings Plan to each of Messrs. Stevens, Brown, Williams and Lang in the amount of \$16,500 in 2010 and 2011 and in the amount of \$17,000 in 2012.
- (4) We limit the perquisites that we make available to our executive officers, who are entitled to few benefits that are not otherwise available to all our employees, and no such perquisites are included in this table. The aggregate amount of such personal benefits for each named executive officer in each year reflected in the table did not exceed \$10,000.

- (1) These amounts are estimates of the potential long term benefit of the 2012 plan year grant of an award under our Production Participation Plan to each of the named executive officers. We have estimated the production income stream from the proved developed oil and gas reserves attributable to the properties comprising the 2012 award based upon NYMEX forward strip pricing at year end 2012 (adjusted for area price differentials actually received), assuming that the officer remains employed for five years so that the 2012 grant fully vests and completing a present value calculation using a discount rate of 12%. The grant date indicated is January 7, 2013, which is the date our Compensation Committee determined the Production Participation Plan award for plan year 2012, although the amounts presented in this column are based upon reserve estimates as of the end of the plan year on December 31, 2012. These numbers are indicative based on the assumptions used in this calculation. The actual value may increase or decrease over time depending on prices realized and operating expenses incurred as well as on the quantities and rates of production from the underlying oil and gas reserves. See Disclosure Regarding Summary Compensation Table and Grants of Plan-Based Awards Table for more information regarding awards under our Production Participation Plan.

- (2) These amounts are the number of restricted shares of our common stock or the number of shares underlying stock options granted to each of the named executive officers in 2012 under our 2003 Equity Incentive Plan. See Disclosure Regarding Summary Compensation Table and Grants of Plan-Based Awards Table for more information regarding awards of restricted stock and stock options.
- (3) Reflects the grant date fair value of the restricted stock or stock options award calculated in accordance with FASB ASC Topic 718. Disclosure Regarding Summary Compensation Table and Grants of Plan-Based Awards Table

Production Participation Plan

Award

Each year, our Compensation Committee allocates to the Production Participation Plan on a discretionary basis (but does not legally convey) an interest in production income from oil and natural gas wells acquired or developed during the year. Once allocated to plan participants, the interests are fixed as to that plan year and each employee is entitled to annual payments and vesting in respect of such fixed interests as described below.

Annual Payment

As to all plan years in which he or she is a participant, each employee is paid annually in cash his or her full allocated interest in production income while employed. The annual payment is made in February of each year. The payments to each of the named executive officers for 2012 are shown in the Summary Compensation Table. As the company receives higher or lower production income from the sales of oil and natural gas or higher or lower proceeds from sales of interests in properties assigned to the plan, the amounts paid increase or decrease.

Vesting

In addition to the annual payments, the Production Participation Plan provides the opportunity for continued post-employment participation because the awarded portion of the Production Participation Plan permanently vests to each employee at the rate of 20% per year as to each plan year. Upon voluntary termination of employment or termination without cause, employees retain their vested interests in the Production Participation Plan accrued as of the time of termination and forfeit their unvested interests. (Employees terminated for cause forfeit all interests in the plan, whether vested or unvested.) For plan years prior to 2004, forfeitures of interests due to termination of employment are re-allocated among other plan participants. For plan years after 2003, forfeitures revert to us. Also, employees fully vest in all plan years at the age of 62 or upon death or disability. Mr. Volker attained the age of 62 during 2008 and is fully vested. Mr. Lang attained the age of 62 during February 2012 and is fully vested. Full vesting is accelerated in the event we voluntarily terminate the Production Participation Plan or in the event of a change in control of our company. See Potential Payments Upon Termination or Change in Control Production Participation Plan for a description of the terms of the Production Participation Plan triggered upon a termination of employment, death or disability or a termination of the Production Participation Plan or a change in control of our company and a listing of the dollar impact on each of the named executive officers of each of these events. The total value of a participant's interest in the Production Participation Plan generally increases as he or she participates in more plan years, but such value is subject to declines caused by the distribution of annual payments and changes in production and reserves as well as oil and gas prices and will also be impacted by the degree of vesting of such participant's interest in the plan as the result of the termination event as described above.

Restricted Stock

All shares of restricted stock we granted through December 31, 2006 under our 2003 Equity Incentive Plan vested in equal annual increments over three years from the date of grant. The vesting of all shares of restricted

stock granted to executive officers of the company since the end of 2006 has been performance-based. The shares of restricted stock granted in 2010, 2011 and 2012 to the named executive officers (and other executive officers) were set to vest one-third on each of the first three anniversaries of the grant date if the performance (whether positive or negative) of the price per share of common stock of the company for the period from December 31, 2009, 2010 and 2011, respectively, to each of the fiscal year ends preceding the first three anniversaries of the grant date, exceeds the performance (whether positive or negative) of the average price per share of common stock of a peer group of companies, for the same period. Performance for this purpose is measured by the percentage change in the value of our common stock per share as compared average to the percentage change of the values per share of the peer companies. If the specified increase threshold or level of stock price performance is met at any of such fiscal year ends, then more than one year can vest in a given year but not to exceed a maximum of one-third of the total shares granted for every year of service that has been completed. One-third of the shares granted in 2010 and 2012 vested in January 2013. None of the shares granted in 2011 have vested due to the fact that the performance criteria measured at the end of the first and second anniversaries were not satisfied. To the extent all or a portion of the awards are not earned at the end of the three years, the portion of the awards not earned will be forfeited. Dividends are payable on shares of unvested restricted stock; however, we historically have not paid any cash dividends and do not anticipate paying any cash dividend on our common stock in the foreseeable future. See Potential Payments Upon Termination or Change in Control Restricted Stock Agreements for a description of the terms of the restricted stock triggered upon a change in control of our company.

Stock Options

All options to acquire shares of common stock we granted in 2010, 2011 and 2012 under our 2003 Equity Incentive Plan vest in equal annual increments over three years from the date of grant. The stock options have a ten year term and the exercise price for the stock options is the fair market value of a share of common stock on the date of grant which was \$34.31 for the 2010 grant, \$60.285 for the 2011 grant and \$51.22 for the 2012 grant. See Potential Payments Upon Termination or Change in Control Stock Option Agreements for a description of the terms of the stock options triggered upon a change in control of our company.

Potential Payments Upon Termination or Change in Control

The following tables disclose potential payments and benefits under our compensation benefit plans and agreements to which the named executive officers in each situation in the tables below assuming that the termination of employment and/or change in control of our company occurred at December 31, 2012, the last business day of our fiscal year, and that our common stock was valued at the closing market price as of that date of \$43.37. The actual amount of payments and benefits can only be determined at the time of such a termination or change in control, and therefore the actual amounts would vary from the estimated amounts in the tables below. In addition, the amount of payments and benefits that named executive officers would actually receive may be materially less than the estimated amounts in the tables below because all such amounts in the tables below are on a pre-tax basis.

Descriptions of the circumstances that would trigger payments or benefits to the named executive officers, how such payments and benefits are determined under the circumstances, material conditions and obligations applicable to the receipt of payments or benefits and other material factors regarding such plans and agreements, as well as other material assumptions we have made in calculating the estimated compensation, follow these tables.
