TJX COMPANIES INC /DE/  
Form 10-K  
April 02, 2013

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-K

Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the fiscal year ended February 2, 2013

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number 1-4908

The TJX Companies, Inc.

(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of incorporation or organization)  
770 Cochituate Road  
Framingham, Massachusetts  
(Address of principal executive offices)

04-2207613  
(IRS Employer Identification No.)  
01701  
(Zip Code)

Registrant's telephone number, including area code (508) 390-1000

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange
Common Stock, par value \$1.00 per share	on which registered
Securities registered pursuant to Section 12(g) of the Act: NONE	New York Stock Exchange

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. YES  NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. YES  NO

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES  NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES  NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

## Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer  Accelerated Filer  Non-Accelerated Filer  Smaller Reporting Company   
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES  NO

The aggregate market value of the voting common stock held by non-affiliates of the registrant on July 28, 2012 was \$32,702,582,804 based on the closing sale price as reported on the New York Stock Exchange.

There were 723,902,001 shares of the registrant's common stock, \$1.00 par value, outstanding as of February 2, 2013.

### DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Proxy Statement to be filed with the Securities and Exchange Commission in connection with the Annual Meeting of Stockholders to be held on June 11, 2013 (Part III).

**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This Form 10-K and our 2012 Annual Report to Shareholders contain forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995, including some of the statements in this Form 10-K under Item 1,

Business, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Item 8, Financial Statements and Supplementary Data, and in our 2012 Annual Report to Shareholders under our letter to shareholders and our performance graphs.

Forward-looking statements are inherently subject to risks, uncertainties and potentially inaccurate assumptions. Such statements give our current expectations or forecasts of future events; they do not relate strictly to historical or current facts. We have generally identified such statements by using words indicative of the future such as anticipate, believe, could, estimate, expect, forecast, intend, looking forward, plan, potential, project, should, target, will and would or any variations of these words or other words with similar meanings. All statements address activities, events or developments that we intend, expect or believe may occur in the future are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or Exchange Act. These forward-looking statements may relate to such matters as our future actions, future performance or results of current and anticipated sales, expenses, interest rates, foreign exchange rates and results and the outcome of contingencies such as legal proceedings.

We cannot guarantee that the results and other expectations expressed, anticipated or implied in any forward-looking statement will be realized. The risks set forth under Item 1A of this Form 10-K describe major risks to our business. A variety of factors including these risks could cause our actual results and other expectations to differ materially from the anticipated results or other expectations expressed, anticipated or implied in our forward-looking statements. Should known or unknown risks materialize, or should our underlying assumptions prove inaccurate, actual results could differ materially from past results and those anticipated, estimated or projected in the forward-looking statements. You should bear this in mind as you consider forward-looking statements.

Our forward-looking statements speak only as of the dates on which they are made, and we do not undertake any obligation to update any forward-looking statement, whether to reflect new information, future events or otherwise. You are advised, however, to consult any further disclosures we may make in our future reports to the Securities and Exchange Commission (SEC), on our website, or otherwise.

## PART I

### ITEM 1. Business

#### BUSINESS OVERVIEW

The TJX Companies, Inc. (TJX) is the leading off-price apparel and home fashions retailer in the United States and worldwide. Our over 3,000 stores offer a rapidly changing assortment of quality, fashionable, brand-name and designer merchandise at prices generally 20% to 60% below department and specialty store regular prices, every day.

Our stores are known for our value proposition of brand, fashion, quality and price and offer a treasure hunt shopping experience through the rapid turn of inventories relative to traditional retailers. Our goal is to create a sense of excitement and urgency for our customers and encourage frequent customer visits. We reach a broad range of customers across many income levels and other demographic groups with our value proposition. Our strategies and operating platforms are synergistic across all of our retail chains. As a result, we are able to leverage our expertise throughout our business, sharing information, best practices, initiatives and new ideas, and developing talent across our Company. We also leverage the substantial buying power of our businesses in our global relationships with vendors.

*Our Businesses.* We operate our business in four major divisions: Marmaxx and HomeGoods, both in the U.S., TJX Canada and TJX Europe.

#### MARMAXX:

Our T.J. Maxx and Marshalls chains in the United States (referred to together as The Marmaxx Group or Marmaxx) are collectively the largest off-price retailer in the United States with a total of 1,940 stores. We founded T.J. Maxx in 1976 and acquired Marshalls in 1995. Both chains sell family apparel (including footwear and accessories), home fashions (including home basics, accent furniture, lamps, rugs, wall décor, decorative accessories and giftware) and other merchandise. We primarily differentiate T.J. Maxx and Marshalls through different product assortment (including an expanded assortment of fine jewelry and accessories and a designer section called The Runway at T.J. Maxx and a full line of footwear, a broader men's offering and a juniors' department called The Cube at Marshalls) and in-store initiatives. This differentiated shopping experience at T.J. Maxx and Marshalls encourages our customers to shop both chains. We intend to launch, in a small, controlled mode, a T.J. Maxx website in fiscal 2014.

#### HOMEGOODS:

Our HomeGoods chain, introduced in 1992, is the leading off-price retailer of home fashions in the U.S. Through its 415 stores, HomeGoods offers a broad array of home basics, giftware, accent furniture, lamps, rugs, wall décor, decorative accessories from around the world, seasonal and other merchandise.

#### TJX CANADA:

Our TJX Canada division operates the Winners, Marshalls and HomeSense chains in Canada. Acquired in 1990, Winners is the leading off-price apparel and home fashions retailer in Canada. The merchandise offering at its 222 stores across Canada is comparable to T.J. Maxx. We opened our HomeSense chain in 2001, bringing the home fashions off-price concept to Canada. HomeSense has 88 stores with a merchandise mix of home fashions similar to HomeGoods. We brought Marshalls to Canada in fiscal 2012 and operate 14 Marshalls stores in Canada. Like Marshalls in the U.S., our Canadian Marshalls stores offer an expanded footwear department and The Cube juniors' department, differentiating them from Winners stores.

#### TJX EUROPE:

Our TJX Europe division operates the T.K. Maxx and HomeSense chains in Europe. Launched in 1994, T.K. Maxx introduced off-price to Europe and remains Europe's only major off-price retailer of apparel and home

fashions. With 343 stores, T.K. Maxx operates in the U.K., Ireland, Germany and Poland. Through its stores and, for the U.K, an online website, T.K. Maxx offers a merchandise mix similar to T.J. Maxx, Marshalls and Winners. We brought the off-price home fashions concept to Europe, opening HomeSense in the U.K. in 2008. Its 24 stores in the U.K. offer a merchandise mix of home fashions similar to that of HomeGoods in the U.S. and HomeSense in Canada.

In December 2012, we acquired Sierra Trading Post, an off-price on-line retailer of apparel and home fashions, which we are maintaining as a separate banner.

**Flexible Business Model.** Our flexible off-price business model, including our opportunistic buying, inventory management, logistics and store layouts, is designed to deliver our customers a compelling value proposition of fashionable quality brand-name and designer merchandise at excellent values. Our buying and inventory management strategies give us flexibility to adjust our merchandise assortments more frequently than traditional retailers, and the design and operation of our stores and distribution centers support this flexibility. Our merchants have more visibility into consumer, fashion and market trends and pricing when we buy closer to need, which can help us buy smarter and reduce our markdown exposure. Our selling floor space is flexible, without walls between departments and largely free of permanent fixtures, so we can easily expand and contract departments to accommodate the merchandise we purchase. Our logistics and distribution operations are designed to support our buying strategies and to facilitate quick, efficient and differentiated delivery of merchandise to our stores, with a goal of getting the right merchandise to the right stores at the right times.

**Opportunistic Buying.** As an off-price retailer, our buying practices, which we refer to as opportunistic buying, differentiate us from traditional retailers. Our overall opportunistic buying strategy is to acquire merchandise on an ongoing basis that will enable us to offer a desirable and rapidly changing mix of branded, designer and other quality merchandise in our stores at prices below regular prices for comparable merchandise at department and specialty stores. We seek out and select from the broad range of opportunities in the marketplace to achieve this end. Our buying organization, which numbers over 800 individuals in 13 buying offices in ten countries, executes this opportunistic buying strategy in a variety of ways, depending on market conditions and other factors.

We take advantage of opportunities to acquire merchandise at substantial discounts that regularly arise from the production and flow of inventory in the apparel and home fashions marketplace, which include, among others, order cancellations, manufacturer overruns, closeouts and special production. Our buying strategies are intentionally flexible to allow us to react to frequently changing opportunities and trends in the market and to adjust how and what we source as well as when we source it. Our goal is to operate with lean inventory levels compared to conventional retailers to give us the flexibility to seek out and to take advantage of these opportunities as they arise. In contrast to traditional retailers, which typically order goods far in advance of the time the product appears on the selling floor, our merchants are in the marketplace frequently looking for opportunities to buy merchandise. We buy much of our merchandise for the current or immediately upcoming selling season. We also buy some merchandise, which we refer to as packaway, with the intention of storing it for sale in future selling seasons. We generally make these packaway purchases in response to opportunities in the marketplace to buy merchandise that we believe has the right combination of brand, fashion, quality and price to supplement the product we expect to be available to purchase later for those future seasons. We also develop some merchandise, which we refer to as private label, that is produced for us under in-house and licensed brands. We generally acquire this type of merchandise to supplement the depth of or fill gaps in our expected merchandise assortment.

Our expansive vendor universe is in excess of 16,000, consists primarily of manufacturers along with retailers and others, and provides us substantial and diversified access to merchandise. We have not experienced difficulty in obtaining sufficient quality merchandise for our business in either favorable or difficult retail environments and expect this will continue as we continue to grow. We believe a number of factors make us an attractive outlet for the vendor community and provide us excellent access on an ongoing basis to leading branded merchandise. We are typically willing to purchase less-than-full assortments of items, styles and sizes as well as quantities ranging from small to very large; we are able to disperse merchandise across our

geographically diverse network of stores and to target specific markets; we pay promptly; and we generally do not ask for typical retail concessions (such as advertising, promotional and markdown allowances), delivery concessions (such as drop shipments to stores or delayed deliveries) or return privileges. We provide vendors an outlet with financial strength and an excellent credit rating.

**Inventory Management.** We offer our customers a rapidly changing selection of merchandise to create a treasure hunt experience in our stores and spur customer visits. To achieve this, we seek to turn the inventory in our stores rapidly, regularly offering fresh selections of apparel and home fashions at excellent values. Our specialized inventory planning, purchasing, monitoring and markdown systems, coupled with distribution center storage, processing, handling and shipping systems, enable us to tailor the merchandise in our stores to local preferences and demographics, achieve rapid in-store inventory turnover on a vast array of products and generally sell within the period we planned. We make pricing and markdown decisions and store inventory replenishment determinations centrally, using information provided by specialized computer systems designed to move inventory through our stores in a timely and disciplined manner. Over the past several years, we have been investing in our supply chain with the goal of continuing to operate with low inventory levels, to ship more efficiently and quickly and to more precisely and effectively allocate merchandise to each store.

**Pricing.** Our mission is to offer quality, fashionable, brand-name and designer merchandise in our stores with retail prices that are generally 20% to 60% below department and specialty store regular retail prices, every day. We do not generally engage in promotional pricing activity such as sales or coupons. We have generally been able to react to price fluctuations in the wholesale market to maintain our pricing gap relative to prices offered by traditional retailers as well as our merchandise margins through various economic cycles.

**Low Cost Operations.** We operate with a low cost structure compared to many traditional retailers. We focus aggressively on expenses throughout our business. Our advertising is generally focused on our banners rather than individual products, including at times promoting all banners in each division together, which contributes to our advertising budget as a percentage of sales remaining low compared to many traditional retailers. We design our stores to provide a pleasant, convenient shopping environment but, relative to other retailers, do not spend heavily on store fixtures. Additionally, our distribution network is designed to run cost effectively.

**Customer Service/Shopping Experience.** We are in the process of renovating and upgrading stores across our banners to enhance our customers shopping experience and help drive sales. Although we offer a self-service format, we train our store associates to provide friendly and helpful customer service and seek to staff our stores to deliver a positive shopping experience. We typically offer customer-friendly return policies. We accept a variety of payment methods including cash, credit cards and debit cards, and offer TJX-branded credit cards in the U.S. through a bank, but do not own the customer receivables.

**Distribution.** We operate distribution centers encompassing approximately 11 million square feet in five countries. These centers are large, highly automated and built to suit our specific, off-price business model. We ship substantially all of our merchandise to our stores through these distribution centers as well as warehouses and shipping centers operated by third parties. We shipped approximately 2.0 billion units to our stores during fiscal 2013.

Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

**Store Growth.** Expansion of our business through the addition of new stores continues to be an important part of our growth strategy. The following table provides information on the store growth of our four divisions in the last two fiscal years, our growth estimates for fiscal 2014 and our estimates of the store growth potential of the current chains in these divisions in their current geographies:

	Approximate Average Store Size (square feet)	Number of Stores at Year End			Estimated Store Growth Potential
		Fiscal 2012	Fiscal 2013	Fiscal 2014 (estimated)	
<b>Marmaxx</b>					
T.J. Maxx	29,000	983	1,036		
Marshalls	31,000	884	904		
		1,867	1,940	2,015	2,400-2,600
<b>HomeGoods</b>	25,000	374	415	445	750-825
<b>TJX Canada</b>					
Winners	29,000	216	222		240
HomeSense	24,000	86	88		90
Marshalls	32,000	6	14		90-100
		308	324	344	420-430
<b>TJX Europe</b>					
T.K. Maxx	32,000	332	343		650-725 <sup>(1)</sup>
HomeSense	21,000	24	24		100-150 <sup>(2)</sup>
		356	367	392	750-875
<b>TJX Total</b>		2,905	3,050 <sup>(3)</sup>	3,200 <sup>(3)</sup>	4,320-4,730

(1) Includes U.K., Ireland, Germany and Poland only

(2) Includes U.K. and Ireland only

(3) Included in the fiscal 2013 and estimated fiscal 2014 TJX Total are four Sierra Trading Post stores.

Some of our HomeGoods and Canadian HomeSense stores are co-located with one of our apparel stores in a superstore format. We count each of the stores in the superstore format as a separate store.

**Revenue Information.** The percentages of our consolidated revenues by geography for the last three fiscal years are as follows:

	Fiscal 2011	Fiscal 2012	Fiscal 2013
<b>United States</b>			
Northeast	26%	24%	24%
Midwest	14	13	13
South (including Puerto Rico)	24	25	25
West	13	14	14
	77%	76%	76%
Canada	12%	12%	11%
Europe	11%	12%	13%
Total	100%	100%	100%

The percentages of our consolidated revenues by major product category for the last three fiscal years are as follows:

	Fiscal 2011	Fiscal 2012	Fiscal 2013
Clothing including footwear	61%	60%	59%
Home fashions	26%	27%	28%
Jewelry and accessories	13%	13%	13%
Total	100%	100%	100%

**A.J. Wright Consolidation.** In the first quarter of fiscal 2012, we completed the consolidation of A.J. Wright, our former off-price chain targeting lower middle income customers, converting 90 of the A.J. Wright stores to

T.J. Maxx, Marshalls or HomeGoods banners and closing A.J.Wright's remaining 72 stores, two distribution centers and home office. We continue to serve the customer demographic previously targeted by A.J. Wright through our other U.S. banners.

**Segment Overview.** We operate four main business segments: Marmaxx, HomeGoods, TJX Canada and TJX Europe. Marmaxx operates our T.J. Maxx and Marshalls chains in the United States. HomeGoods operates our HomeGoods chain in the U.S. TJX Canada operates our Winners, HomeSense and Marshalls chains in Canada. TJX Europe operates our T.K. Maxx and HomeSense chains in Europe. A.J. Wright ceased to be a segment following its consolidation. Sierra Trading Post is reported as part of the Marmaxx segment. Each of our segments has its own management, administrative, buying and merchandising organization and distribution network. More detailed information about our segments, including financial information for each of the last three fiscal years, can be found in Note G to the consolidated financial statements.

**Store Locations.** Our major chains operated stores in the following locations at the end of fiscal 2013:

**United States:**

	T.J. Maxx	Marshalls	HomeGoods
Alabama	20	4	3
Arizona	11	14	9
Arkansas	10	1	2
California	98	126	45
Colorado	15	7	5
Connecticut	26	24	11

Wyoming	1		
Total Stores	1,036	904	415

Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

Store counts above include the T.J. Maxx, Marshalls or HomeGoods portion of a superstore. Additionally, TJX operates four Sierra Trading Post stores, 1 in Idaho, 1 in Nevada and 2 in Wyoming.

**Canada:**

	Winners	HomeSense	Marshalls
Alberta	28	10	
British Columbia	29	16	
Manitoba	6	1	
New Brunswick	3	2	
Newfoundland	2	1	
Nova Scotia	8	2	
Ontario	101	41	14
Prince Edward Island	1		
Quebec	40	13	
Saskatchewan	4	2	
Total Stores	222	88	14

Store counts above include the Winners or HomeSense portion of a superstore.

**Europe:**

	T.K. Maxx	HomeSense
United Kingdom	252	24
Republic of Ireland	16	
Germany	57	
Poland	18	
Total Stores	343	24

**Competition.** The retail apparel and home fashion business is highly competitive. We compete on the basis of factors including merchandise fashion, quality, brand-name, price, selection and freshness; in-store service and shopping experience; reputation and store location. We compete with local, regional, national and international department, specialty, off-price, discount, warehouse and outlet stores as well as other retailers that sell apparel, home fashions and other merchandise that we sell, whether in stores, through catalogues, on-line or other media.

**Employees.** At February 2, 2013, we had approximately 179,000 employees, many of whom work less than 40 hours per week. In addition, we hire temporary employees, particularly during the peak back-to-school and holiday seasons.

**Trademarks.** We have the right to use our principal trademarks and service marks, which are T.J. Maxx, Marshalls, HomeGoods, Winners, HomeSense, T.K. Maxx and Sierra Trading Post, in relevant countries. Our rights in these trademarks and service marks endure for as long as they are used.

**Seasonality.** Our business is subject to seasonal influences. In the second half of the year, which includes the back-to-school and year-end holiday seasons, we generally realize higher levels of sales and income.

**SEC Filings and Certifications.** Copies of our annual reports on Form 10-K, proxy statements, quarterly reports on Form 10-Q and current reports on Form 8-K filed with or furnished to the SEC, and any amendments to those documents, are available free of charge on our website, [www.tjx.com](http://www.tjx.com), under SEC Filings, as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. They are also available free of charge from TJX Global Communications, 770 Cochituate Road, Framingham, Massachusetts 01701. The public can read and copy materials at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549 and obtain information on the operation of the reference room by calling the SEC at 1-800-SEC-0330. The SEC maintains a website containing all reports, proxies, information statements, and all other information regarding issuers that file electronically (<http://www.sec.gov>).

Information appearing on [www.tjx.com](http://www.tjx.com) is not a part of, and is not incorporated by reference in, this Form 10-K.

Fiscal 2011 means the fiscal year ended January 29, 2011, fiscal 2012 means the fiscal year ended January 28, 2012, fiscal 2013 means the fiscal year ended February 2, 2013 and fiscal 2014 means the fiscal year ending February 1, 2014. Unless otherwise indicated, all store information in this Item 1 is as of February 2, 2013, and references to store square footage are to gross square feet. Unless otherwise stated or the context otherwise requires, references in this Form 10-K to TJX and we, refer to The TJX Companies, Inc. and its subsidiaries.

#### **ITEM 1A. Risk Factors**

The statements in this section describe the major risks to our business and should be considered carefully, in connection with all of the other information set forth in this annual report on Form 10-K. The risks that follow, individually or in the aggregate, are those that we think could cause our actual results to differ materially from those stated or implied in forward-looking statements.

*Failure to execute our opportunistic buying strategy and inventory management could adversely affect our business.*

While our opportunistic buying strategy and our goals of operating with lean inventory levels and frequent inventory turns are key elements of our off-price business, they subject us to risks related to the pricing, quantity, nature and timing of inventory flowing to our stores. Our merchants are in the marketplace frequently, as much of our merchandise is purchased for the current or immediately upcoming season. Our opportunistic buying places considerable discretion in our merchants. They react to frequently changing opportunities and trends in the market, assess the desirability and value of merchandise and generally make determinations of how and what we source as well as when we source it. If we do not obtain the right fresh, desirable merchandise at the right times, quantities and prices, it could adversely affect traffic to our stores as well as our sales and margins.

We base our purchases of inventory, in part, on our sales forecasts. If our sales forecasts do not match customer demand, we may experience higher inventory levels and need to take markdowns on excess or slow-moving inventory, leading to decreased profit margins, or we may have insufficient inventory to meet customer demand, leading to lost sales, either of which could adversely affect our financial performance.

If we are unable to generally purchase inventory at prices sufficiently below prices paid by conventional retailers to allow us to maintain our overall pricing differential to regular department and specialty stores, our ability to attract customers and sustain our margins may be adversely affected. We may not achieve this at various times or in some divisions or geographies, which could adversely affect our results or those of one of our segments.

We must also properly execute our inventory management strategy of delivering the right product to the right stores at the right time. We need to appropriately allocate merchandise among our stores, timely and efficiently distribute inventory to stores, maintain an appropriate mix and level of inventory in each store, appropriately change the allocation of floor space of stores among product categories to respond to customer demand and effectively manage pricing and markdowns. There is no assurance we will be able to do so.

In addition to our own execution, we may need to react to factors affecting inventory flow that are outside our control, such as extreme weather and natural disasters or other changes in conditions affecting our vendors and others in our supply chain, such as political instability, labor issues, including strikes or threats of strikes, or increasing cost of regulations. If we are not able to adjust appropriately to such factors, our merchandise distribution may be affected. Failure to execute our opportunistic inventory buying and inventory management well could adversely affect our performance and our relationship with our customers.

*Failure to continue to expand our operations successfully or to manage our substantial size and scale effectively could adversely affect our financial results.*

Our revenue growth is dependent, among other things, on our ability to continue to expand through successfully opening new stores. Successful store growth requires us to lease appropriate real estate on

attractive terms in each of the locations where we seek to open stores. Our ability to do so depends, among other things, on availability and selection of appropriate sites in appropriate geographies; competition for sites; factors affecting costs such as real estate, construction and development costs, as well as costs and availability of capital; and variations in or changes to zoning or other land use regulations. If we cannot lease appropriate sites on attractive terms, it could limit our ability to successfully grow in various markets or adversely affect the economics of new stores in various markets. Further, we may encounter difficulties in attracting customers when we enter new markets for a variety of reasons, including customers' lack of familiarity with our brands or our lack of familiarity with local customer preferences or cultural differences. New stores may not achieve the same sales or profit levels as our existing stores, and new and existing stores in a market may adversely affect each other's sales and profitability.

Further, our substantial size imposes demands on maintaining appropriate internal resources and third party providers to support our business effectively and expansion places increased demands on management and the administrative, merchandising, store operations, distribution, compliance and other organizations in our businesses, and we may not efficiently manage our business or successfully manage our growth. In addition, under our business model, some aspects of the businesses and operations of our chains in the U.S., Canada and Europe are conducted with relative autonomy. The large size and scale of our operations, our multiple chains in the U.S., Canada and Europe and the autonomy afforded to the chains increase the risk that our systems and practices will not be implemented appropriately throughout our company and that information may not be appropriately shared across our operations, which risks may increase as we continue to grow, particularly in different countries. If business information is not shared effectively, or if we are otherwise unable to manage our growth effectively, we may operate with decreased operational efficiency, may need to reduce our rate of expansion of one or more operations or otherwise curtail growth in one or more markets, which may adversely affect our success in executing our business goals and adversely impact our sales and results.

*Failure to identify customer trends and preferences to meet customer demand could negatively impact our performance.*

Because our success depends on our ability to meet customer demand, we work to follow customer trends and preferences on an ongoing basis and to offer inventory that meets those trends and preferences. However, identifying consumer trends and preferences and successfully meeting customer demand across our diverse merchandise categories and in the many markets in the United States, Canada and Europe in which we do business on a timely basis is challenging. Although our business model allows us greater flexibility than many traditional retailers to meet consumer preferences and trends and to expand and contract merchandise categories in response to consumers' changing tastes, we may not successfully do so, which could adversely affect our results.

*Our future performance is dependent upon our ability to continue to expand within our existing markets and to extend our off-price model in new product lines, and geographic regions and businesses.*

Our growth strategy is to continue to successfully expand the number of stores in our existing markets, to continue to successfully expand our existing chains to new markets and geographies and, as appropriate, to successfully develop or acquire new businesses, including our planned expansion into e-commerce, all of which entail significant risk. There are significant risks associated with both our ability to continue to successfully extend our current business and to enter new businesses, including managing the implementation of this growth effectively. If any aspect of our expansion strategy does not achieve the success we expect in whole or in part, we may be required to increase our investment, slow our planned growth or close stores or operations and our growth and financial performance could be adversely affected.

*If we fail to successfully implement our marketing, advertising and promotional programs, or if our competitors are more effective with their programs than we are, our revenue may be adversely affected.*

Although we use marketing, advertising and promotional programs to attract customers to our stores through various media including television, social media, database marketing, print and direct marketing, some of our competitors expend more for their programs than we do, or use different approaches than we do, which

may provide them with a competitive advantage. Our marketing, advertising and promotional programs may not be effective or could require increased expenditures, which could have a material adverse effect on our revenue and results of operations. We may need to adjust our marketing, advertising and promotional programs effectively as internet-based and other digital or mobile communication channels rapidly evolve, and there is no assurance that we will successfully do so.

*We operate in highly competitive markets, and we may not be able to compete effectively.*

The retail apparel and home fashion business is highly competitive. We compete with local, regional, national and international retailers that sell apparel, home fashions and other merchandise we sell, including in stores, through catalogues or other media or over the internet. Some of our competitors are larger than we are or have more experience in selling certain product lines than we do. New competitors frequently enter the market, and existing competitors enter or increase their presence in the markets in which we operate, expand their merchandise offerings or change their pricing methods, all of which increase competition for customers. We compete on the basis of fashion, quality, price, value, merchandise selection and freshness, brand-name recognition, service, reputation and store location. Our competitiveness is highly dependent on our effective execution of our off-price model of offering the customer a fresh, rapidly changing and attractive mix of merchandise delivering value. The demand for our merchandise is also influenced by our advertising, marketing and promotional activities, the name recognition and reputation of our chains and the location of and service offered in our stores. If we fail to compete effectively, our sales and results of operations could be adversely affected.

*Failure to attract, train and retain quality associates in appropriate numbers, including management, buying, sales, distribution center and other personnel, and increased costs from our existing or expanding labor force, could adversely affect our performance.*

Our performance depends on recruiting, developing, training and retaining quality sales, systems, distribution center and other associates in large numbers as well as experienced buying and management personnel.

Many of our associates are in entry level or part-time positions with historically high rates of turnover. Availability and skill of associates may differ across markets in which we do business and in new markets we enter, and our ability to meet our labor needs while controlling labor costs, including costs of retirement, health and other employee benefits, is subject to external factors such as unemployment levels, prevailing wage rates, minimum wage legislation, changing demographics, economic conditions, health care legislation, health and other insurance costs and governmental labor and employment and employee benefits requirements. The nature of the workforce in the retail industry also subjects us to the risk of immigration law violations, which risk has increased in recent years. Certain associates in our distribution centers are members of unions and therefore subject us to the risk of labor actions of various kinds as well as risks and potential expenses associated with multiemployer plans, including from potential withdrawal liability and potential insolvency of other participating employers, and other associates are members of works councils, which may subject us to additional actions or expense. In addition, any failure of third-parties that perform services on our behalf to comply with immigration, employment or other laws could damage our reputation or disrupt our ability to obtain needed labor. In the event of increasing wage rates in a market, failure to increase our wages competitively could result in a decline in the quality of our workforce, causing our customer service to suffer, while increasing our wages could cause our earnings to decrease.

Because of the distinctive nature of our off-price model, we must provide significant internal training and development for key associates, including within our buying organization. Similar to other retailers, we face challenges in securing and retaining sufficient talent in management and other key areas for many reasons, including competition in the retail industry generally and for talent in various geographic markets. If we do not continue to attract qualified individuals, train them in our business model, support their development and retain them, our performance could be adversely affected or our growth could be limited.

*Global economic conditions may adversely affect our financial performance.*

During the economic recession, global financial markets experienced extreme volatility, disruption and credit contraction, which adversely affected global economic conditions. Renewed financial turmoil in the financial and credit markets or other changes in economic conditions could adversely affect sources of liquidity available to us or our costs of capital and could adversely affect plan asset values and investment performance, increasing our pension liabilities, expenses and funding requirements with respect to company-sponsored and multiemployer pension plans. Economic conditions, both on a global level and in particular markets, including unemployment, decreased disposable income and actual and perceived wealth, energy and health care costs, interest and tax rates and policies, weakness in the housing market, volatility in capital markets, decreased credit availability, inflation and deflation, as well as political or other factors beyond our control such as threats or possibilities of war, terrorism, global or national unrest, actual or threatened epidemics, and political instability also have significant effects on consumer confidence and spending. Consumer spending, in turn, affects retail sales. These conditions and factors could adversely affect discretionary consumer spending and, although we believe our flexible off-price model helps us respond, they may adversely affect our sales, cash flows and results of operations and performance.

*Compromises of our data security could materially harm our reputation and business.*

In the ordinary course of our business, we collect and store certain personal information from individuals, such as our customers and associates, and we process customer payment card and check information.

We suffered an unauthorized intrusion or intrusions (such intrusion or intrusions, collectively, the Computer Intrusion ) into portions of our computer system that process and store information related to customer transactions, discovered late in 2006, in which we believe customer data were stolen. We have taken steps designed to further strengthen the security of our computer system and protocols and have instituted an ongoing program with respect to data security, consistent with a consent order with the Federal Trade Commission, to assess the ongoing effectiveness of our information security program and to maintain and enhance our program as appropriate. Nevertheless, there can be no assurance that we will not suffer a future data compromise, that unauthorized parties will not gain access to personal information, or that any such data compromise or access will be discovered in a timely way.

We rely on commercially available systems, software, tools and monitoring to provide security for processing, transmission and storage of confidential information. Further, the systems currently used for transmission and approval of payment card transactions, and the technology utilized in payment cards themselves, all of which can put payment card data at risk, are determined and controlled by the payment card industry, not by us. This is also true for check information and approval. Computer hackers may attempt to penetrate our computer system and, if successful, misappropriate personal information, payment card or check information or confidential business information of our company. In addition, our associates, contractors or third parties with whom we do business or to whom we outsource business operations may attempt to circumvent our security measures in order to misappropriate such information, and may purposefully or inadvertently cause a breach involving such information. Advances in computer and software capabilities and encryption technology, new tools and other developments may increase the risk of such a breach.

Compromise of our data security or of third parties with whom we do business, failure to prevent or mitigate the loss of personal or business information and delays in detecting any such compromise or loss could disrupt our operations, damage our reputation and customers' willingness to shop in our stores, violate applicable laws, regulations, orders and agreements, and subject us to additional costs and liabilities which could be material.

*Failure to operate information systems and implement new technologies effectively could disrupt our business or reduce our sales or profitability.*

We rely extensively on various information systems, data centers and software applications to manage many aspects of our business, including to process and record transactions in our stores, to enable effective communication systems, to plan and track inventory flow, to manage logistics and to generate performance and financial reports. We are dependent on the integrity, security and consistent operations of these systems and

related back-up systems. Our computer systems and the third party systems we rely on are subject to damage or interruption from power outages; computer and telecommunications failures; computer viruses; security breaches; cyber-attacks; catastrophic events such as fires, floods, earthquakes, tornadoes, hurricanes; acts of war or terrorism and usage errors by our associates or contractors. Although we seek to maintain our systems effectively and to successfully address the risk of compromises of the integrity, security and consistent operations of our systems, we may not be successful in doing so. Compromises, interruptions or shutdowns of our systems, including those managed by third parties, could lead to delays in our business operations and, if significant or extreme, affect our results of operations.

We modify, update, and replace our systems and infrastructure from time to time, including adding new data centers, replacing or updating legacy programs, converting to global systems, integrating new service providers, such as for cloud computing technologies, adding additional functionality, such as for the development of our e-commerce business, and adding new systems when we acquire new businesses. We also modify and change our procedures for, and add and change vendors who assist us with, designing, implementing and maintaining our systems and infrastructure. Although we believe we are diligent in selecting systems, vendors and procedures to enable us to maintain the integrity of our systems and infrastructure when we modify them, there are inherent risks associated with managing and changing systems, infrastructure and relationships and with acquisitions, including accurately capturing and maintaining data, realizing the expected benefit of the change and potentially disrupting the operation of the systems as the changes are implemented. Additionally, potential issues associated with implementing technology initiatives and the time and resources required to optimize the benefits of new systems could reduce the efficiency of our operations in the short term.

The efficient operation and successful growth of our business depends upon these information systems, including our ability to operate and maintain them effectively and to select and implement appropriate new technologies, systems, controls, data centers and adequate disaster recovery systems successfully. The failure of our information systems and the third party systems we rely on to perform as designed, or our failure to implement and operate them effectively, could disrupt our business or subject us to liability and thereby harm our profitability.

*As our business is subject to seasonal influences, a decrease in sales or margins during the second half of the year could have a disproportionately adverse affect on our operating results.*

Our business is subject to seasonal influences; we generally realize higher levels of sales and income in the second half of the year, which includes the back-to-school and year-end holiday seasons. Any decrease in sales or margins during this period could have a disproportionately adverse effect on our results of operations.

*Adverse or unseasonable weather in the markets in which our stores operate or our distribution centers are located could adversely affect our operating results.*

Both adverse and unseasonable weather, such as storms, severe cold or heat or unseasonable temperatures, affect customers' buying patterns and willingness to shop certain categories or at all, and accordingly, can adversely affect the demand for the merchandise in our stores, particularly in apparel and seasonal merchandise. Weather can also affect our ability to transport merchandise to our stores from our distribution and shipping centers or elsewhere in our supply chain. As a result, adverse or unseasonable weather in our markets could adversely affect our sales, increase markdowns and adversely affect our operating results.

*Our results may be adversely affected by serious disruptions or catastrophic events.*

Unforeseen public health issues, such as pandemics and epidemics, as well as natural disasters, such as hurricanes, tornadoes, floods, earthquakes and other extreme weather and climate conditions, in any of our markets could disrupt our operations or the operations of one or more of our vendors or of our supply chain or could severely damage or destroy one or more of our stores or distribution facilities located in the affected areas. Day-to-day operations, particularly our ability to receive products from our vendors or transport products to our stores could be adversely affected, or we could be required to close stores or distribution centers in the affected areas or in areas served by affected distribution centers for a short or extended period of time. As a result, our business could be adversely affected.

*Damage to our corporate reputation or those of our banners could adversely affect our sales and operating results.*

We believe that building the brand reputation of our retail banners is an important part of our marketing efforts, and we expend resources building relationships with our customers through social media and other advertising and promotional activities. Our reputation is based, in part, on perceptions of subjective qualities, so incidents involving us or our merchandise, that erode trust or confidence could adversely affect our reputation and our business, particularly if the incidents result in significant adverse publicity or governmental inquiry. Similarly, information posted about us, our banners and the merchandise we sell, including our private label brands, on social media platforms and similar venues, including blogs, websites, and other forums for internet-based communications that allow individuals access to a broad audience of consumers and other interested persons, may adversely affect our reputation and brand, even if the information is inaccurate. The reputation of our company and our retail banners may be damaged by adverse events at the corporate level or by adverse events at our other banners. Damage to the reputation of our company and our banners could result in declines in customer loyalty and sales, affect our vendor relationships, development opportunities and associate retention and otherwise adversely affect our business.

*Issues with merchandise quality or safety could damage our reputation, sales and financial results.*

Various governmental authorities in the jurisdictions where we do business regulate the quality and safety of the merchandise we sell to consumers. Regulations and standards in this area, including those related to the U.S. Consumer Product Safety Improvement Act of 2008, state regulations like California's Proposition 65, and similar legislation in other countries in which we operate, impose restrictions and requirements on the merchandise we sell in our stores and through e-commerce and change from time to time. Also, new federal, state, provincial or local regulations in the U.S. and other countries that may affect our business are contemplated and enacted with some regularity. If we are unable to comply with regulatory requirements on a timely basis or at all or to adequately monitor new regulations that may apply to existing or new merchandise categories or in new geographies, significant fines or penalties could be incurred or we could have to curtail some aspects of our sales or operations, which could have a material adverse effect on our financial results. We rely on our vendors to provide quality merchandise that complies with applicable product safety laws and other applicable laws, but they may not comply with their obligations to do so. Although our arrangements with our vendors frequently provide for indemnification for product liabilities, the vendors may fail to honor those obligations to an extent we consider sufficient or at all. Issues with the quality and safety of merchandise, particularly with food, bath and body and children's products, or issues with the genuineness of merchandise, regardless of our fault, or customer concerns about such issues, could cause damage to our reputation and could result in lost sales, uninsured product liability claims or losses, merchandise recalls and increased costs, and regulatory, civil or criminal fines or penalties, any of which could have a material adverse effect on our financial results.

*Our expanding international operations may expose us to risks inherent in operating in new countries.*

We have a significant retail presence in Canada and Europe and have established buying offices around the world, and our goal is to continue to expand our operations into other international markets in the future. It can be costly and complex to establish, develop and maintain international operations and promote business in new international jurisdictions, which may differ significantly from the U.S. and other countries in which we currently operate. In addition to facing risks similar to our U.S. and current international operations, such as with regulations such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act, we face additional risks inherent in operating in new countries, such as understanding the retail climate and trends, local customs and competitive conditions; and complying with new laws, rules and regulations; developing the appropriate infrastructure for local operations; as well as financial risks including currency exchange fluctuations and adverse tax consequences or limitations on the repatriation and investment of funds outside of the country where earned, which could have an adverse impact on our operations or profitability. Complying with applicable laws and our own internal policies may require us to spend additional time and resources to implement new procedures and financial controls, conduct audits, train associates and third parties on our compliance methods or take other actions, which could adversely impact our operations.

*We are subject to risks associated with importing merchandise from other countries.*

Many of the products sold in our stores are sourced by our vendors and, to a lesser extent, by us, in many countries outside of the country where the stores are located, particularly southeastern Asia. Where we are the importer of record, we may be subject to regulatory or other requirements similar to those imposed upon the manufacturer of such products. We are subject to the various risks of importing merchandise from other countries and purchasing product made in other countries, such as:

potential disruptions in manufacturing, logistics and supply;

changes in duties, tariffs, quotas and voluntary export restrictions on imported merchandise;

strikes, threats of strikes and other events affecting delivery;

consumer perceptions of the safety of imported merchandise;

product compliance with laws and regulations of the destination country;

product liability claims from customers or penalties from government agencies relating to products that are recalled, defective or otherwise noncompliant or alleged to be harmful;

concerns about human rights, working conditions and other labor rights and conditions in countries where merchandise is produced, and changing labor, environmental and other laws in these countries;

compliance with laws and regulations concerning ethical business practices, such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act;

exposure for product warranty and intellectual property issues; and

economic, political or other problems in countries from or through which merchandise is imported.

Political or financial instability, trade restrictions, tariffs, currency exchange rates, labor conditions, transport capacity and costs, systems issues, problems in third party distribution and warehousing and other interruptions of the supply chain, compliance with laws and regulations and other factors relating to international trade and imported merchandise beyond our control could affect the availability and the price of our inventory. Furthermore, although we have implemented policies and procedures designed to facilitate compliance with laws and regulations relating to operating in non-U.S. jurisdictions and importing merchandise, there can be no assurance that contractors, agents, vendors or other third parties with whom we do business will not violate such laws and regulations or our policies, which could subject us to liability and could adversely affect our operations or operating results.

*Our results may be adversely affected by reduced availability or increases in the price of oil or other fuels, raw materials and other commodities.*

Energy and fuel costs have fluctuated dramatically and had significant cost increases in the past, particularly the price of oil and gasoline. An increase in the price of oil increases our transportation costs for distribution, utility costs for our retail stores and costs to purchase our products from suppliers. Although we have implemented a hedging strategy designed to manage a portion of our transportation costs, that strategy may not be effective or sufficient and increases in oil and gasoline prices could adversely affect consumer spending and demand for our products and

## Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

increase our operating costs, which could have an adverse effect on our performance. Increased regulation related to environmental costs, including cap and trade or other emissions management systems could also adversely affect our costs of doing business, including utility costs, transportation and logistics.

Similarly, other commodity prices can fluctuate dramatically, such as the cost of cotton and synthetic fabrics, which at times have risen significantly. Such increases can increase the cost of merchandise, which could adversely affect our performance through potentially reduced consumer demand or reduced margins.

*Fluctuations in currency exchange rates may lead to lower revenues and earnings.*

Sales made by our stores outside the United States are denominated in the currency of the country in which the store is located, and changes in currency exchange rates affect the translation of the sales and earnings of these businesses into U.S. dollars for financial reporting purposes. Because of this, movements in currency

exchange rates have had and are expected to continue to have a significant impact on our consolidated and segment results from time to time. Changes in currency exchange rates can also increase the cost of inventory purchases that are denominated in a currency other than the local currency of the business buying the merchandise. When these changes occur suddenly, it can be difficult for us to adjust retail prices accordingly, and gross margin can be adversely affected. A significant amount of merchandise we offer for sale is made in China, and accordingly, a revaluation of the Chinese currency, or increased market flexibility in the exchange rate for that currency, increasing its value relative to the U.S. dollar or currencies in which our stores are located, could be significant.

Additionally, we routinely enter into inventory-related hedging instruments to mitigate the impact of currency exchange rates on merchandise margins of merchandise purchases by our divisions denominated in currencies other than their local currencies. In accordance with GAAP, we evaluate the fair value of these hedging instruments and make mark-to-market adjustments at the end of each accounting period. These adjustments are of a much greater magnitude when there is significant volatility in currency exchange rates and may have a significant impact on our earnings.

Although we implement foreign currency hedging and risk management strategies to reduce our exposure to fluctuations in earnings and cash flows associated with changes in currency exchange rates, we expect that currency exchange rate fluctuations could have a material adverse effect on our sales and results of operations from time to time. In addition, fluctuations in currency exchange rates may have a greater impact on our earnings and operating results if a counterparty to one of our hedging arrangements fails to perform.

*Our quarterly operating results fluctuate and may fall short of prior periods, our projections or the expectations of securities analysts or investors, which could adversely affect our stock price.*

Our operating results have fluctuated from quarter to quarter at points in the past, and they may continue to do so in the future. If we fail to increase our results over prior periods, to achieve our projected results or goals or to meet the expectations of securities analysts or investors, our share price may decline, and the decrease in the stock price may be disproportionate to the shortfall in our financial performance. Results may be affected by factors we can control, such as the execution of our off-price buying, including selection, pricing and mix of merchandise; inventory management including flow, pricing markon and markdowns; and management of our growth, but also may be affected by some factors that are not within our control, including actions of competitors, weather conditions, economic conditions, consumer confidence, seasonality, and cost increases due, for example, to government regulation and increased healthcare and benefits costs. Most of our operating expenses, such as rent expense and associate salaries, do not vary directly with the amount of our sales and are difficult to adjust in the short term. As a result, if sales in a particular quarter are below our expectations for that quarter, we generally are not able to proportionately reduce operating expenses for that quarter, resulting in a disproportionate effect on our net income for the quarter. We maintain a forecasting process that seeks to project sales and align expenses. If we do not control costs or appropriately adjust costs to actual results, or if actual results differ significantly from our forecast, our financial performance could be adversely affected. In addition, if we do not repurchase the number of shares we contemplated pursuant to our stock repurchase programs, our earnings per share may be adversely affected.

*If we engage in mergers or acquisitions or investments in new businesses, or divest, close or consolidate any of our current businesses, our business will be subject to additional risks.*

We may acquire new businesses (as in our recent acquisition of Sierra Trading Post), invest in or enter into joint ventures with other businesses, develop new businesses internally and divest, close or consolidate businesses. Acquisition, investment or divestiture activities may divert attention of management from operating the existing businesses, and we may not effectively evaluate target companies or investments or assess the risks, benefits and cost of buying, investing in or closing businesses or of the integration of acquired businesses, all of which can be difficult, time-consuming and dilutive. Acquisitions, investments, closings and divestitures may not meet our performance and other expectations or may expose us to unexpected or greater-than-expected costs, liabilities and risks. Divestitures, closings and consolidations also involve risks, such as

significant costs and obligations of closure, including exposure on leases, owned real estate and other contractual, employment, pension and severance obligations, and potential liabilities that may arise under law as a result of the disposition or the subsequent failure of an acquirer. Failure to execute on mergers, acquisitions, investments, divestitures, closings and consolidations in a satisfactory manner could adversely affect our future results of operations and financial condition.

*Failure to comply with existing laws, regulations and orders or changes in existing laws and regulations could negatively affect our business operations and financial performance.*

We are subject to federal, state, provincial and local laws, rules and regulations in the United States and other countries, any of which may change from time to time, as well as orders and assurances. These legal, regulatory and administrative requirements collectively affect multiple aspects of our business, from cost of health care and retirement benefits, workforce management, logistics, marketing, import/export, sourcing and manufacturing, data protection and others. If we fail to comply with these laws, rules, regulations and orders, we may be subject to fines or other penalties, which could materially adversely affect our operations and our financial results and condition. Further, applicable accounting principles and interpretations may change from time to time, and the changes could have material effects on our reported financial results and condition.

We must also comply with new and changing laws and regulations. New legislative and regulatory initiatives and reforms in jurisdictions where we do business could increase our costs of compliance or of doing business and could adversely affect our operating results, including those involving:

labor and employment and employment benefits, including regarding labor unions and works councils;

consumer protection and financial regulations;

data protection and privacy;

climate change, energy and waste;

internet, including e-commerce, electronic communications and privacy; and

protection of third party intellectual property rights.

*Our results may be materially adversely affected by the outcomes of litigation, legal proceedings and other legal matters.*

We are involved, or may in the future become involved, in legal proceedings, regulatory reviews and audits. These may involve inquiries, investigations, law suits and other proceedings by local, provincial, state and federal governmental entities (in the United States and other countries) and private plaintiffs, including with respect to tax, escheat, whistleblower claims, employment and employee benefits including classification, employment rights, discrimination, wage and hour and retaliation, securities, disclosure, real estate, tort, consumer protection, product safety, advertising, and intellectual property. There continue to be a number of employment-related lawsuits, including class actions, in the United States, and we are subject to these types of suits. We cannot predict the results of legal and regulatory proceedings with certainty, and actual results may differ from any reserves we establish estimating the probable outcome. Regardless of merit or outcome, litigation can be both time-consuming and disruptive to our operations and may cause significant expense and diversion of management attention. Legal and regulatory proceedings and investigations could expose us to significant defense costs, fines, penalties and liability to private parties and governmental entities for monetary recoveries and other amounts and attorneys' fees and/or require us to change aspects of our operations, any of which could have a material adverse effect on our business and results of operations.

*Tax matters could adversely affect our results of operations and financial condition.*

We are subject to income taxes in the United States and numerous foreign jurisdictions. Our effective income tax rate and future tax liability could be adversely affected by numerous factors including the results of tax audits and examinations, income before taxes being lower than

anticipated in countries with lower statutory income tax rates and higher than anticipated in countries with higher statutory income tax rates, changes in income tax rates, changes in transfer pricing, changes in the valuation of deferred tax assets and liabilities,

changes in applicable tax legislation, regulations and treaties, exposure to additional tax liabilities, including interest and penalties, and changes in accounting principles and interpretations relating to tax matters, any of which could adversely impact our results of operations and financial condition in future periods. Significant judgment is required in evaluating and estimating our worldwide provision and accruals for taxes, and actual results may differ from our estimations.

We are subject to the continuous examination of our tax returns and reports by federal, state, provincial and local tax authorities in the U.S. and foreign countries, and the examining authorities may challenge positions we take. We are engaged in various proceedings with such authorities and in court with respect to assessments, claims, deficiencies and refunds. We regularly assess the likely outcomes of these proceedings to determine the adequacy and appropriateness of our provision for income taxes, and increase and decrease our provision as a result of these assessments. However, the developments in and actual results of proceedings or the result of rulings by or settlements with tax authorities and courts or due to changes in facts, law or legal interpretations, expiration of applicable statutes of limitations or other resolutions of tax positions could differ from the amounts we have accrued for such proceedings in either a positive or a negative manner, which could materially affect our effective income tax rate in a given financial period, the amount of taxes we are required to pay and our results of operations.

In addition, we are subject to tax audits and examinations for payroll, value added, sales-based and other taxes relating to our businesses.

*Our real estate leases generally obligate us for long periods, which subjects us to financial risks.*

We lease virtually all of our store locations, generally for an initial terms of ten years, with options to renew the term, and either own or lease for long periods our primary distribution centers and administrative offices. Accordingly, we are subject to the risks associated with leasing and owning real estate, which can adversely affect our results as, for example, was the case in the closure of various of our former operations. While we have the right to terminate some of our leases under specified conditions, including by making specified payments, we may not be able to terminate a particular lease if or when we would like to do so. If we decide to close stores, we are generally required to continue to perform obligations under the applicable leases, which generally includes, among other things, paying rent and operating expenses for the balance of the lease term, or paying to exercise rights to terminate, and the performance of any of these obligations may be expensive. When we assign leases or sublease space to third parties, we can remain liable on the lease obligations if the assignee or sublessee does not perform. In addition, when the lease term for the stores in our ongoing operations expire, we may be unable to negotiate renewals, either on commercially acceptable terms or at all, which could cause us to close stores or to relocate stores within a market on less favorable terms.

*We depend upon strong cash flows from our operations to supply capital to fund our operations, growth, stock repurchases and dividends and interest and debt repayment.*

Our business depends upon our operations to continue to generate strong cash flow to supply capital to support our general operating activities, to fund our growth and our return to stockholders through our stock repurchase programs and dividends, and to pay our interest and debt repayments. Our inability to continue to generate sufficient cash flows to support these activities, to repatriate cash from our international operations in a manner that is cost effective could adversely affect our growth plans and financial performance including our earnings per share. We borrow on occasion to finance our activities and if financing were not available to us in adequate amounts and on appropriate terms when needed, it could also adversely affect our financial performance.

**ITEM 1B. Unresolved Staff Comments**

None.

**ITEM 2. Properties**

We lease virtually all of our over 3,000 store locations, generally for 10-year terms with options to extend the lease term for one or more 5-year periods. We have the right to terminate some of these leases before the expiration date under specified circumstances and some with specified payments.

## Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

The following is a summary of our primary owned and leased distribution centers and primary administrative office locations as of February 2, 2013. Square footage information for the distribution centers represents total ground cover of the facility. Square footage information for office space represents total space occupied.

### Distribution Centers

Marmaxx T.J. Maxx	Worcester, Massachusetts	494,000 s.f. owned
	Evansville, Indiana	989,000 s.f. owned
	Las Vegas, Nevada	713,000 s.f. shared with Marshalls owned
	Charlotte, North Carolina	595,000 s.f. owned
	Pittston Township, Pennsylvania	1,017,000 s.f. owned
	Marshalls	Tolleson, Arizona
HomeGoods	Decatur, Georgia	780,000 s.f. owned
	Woburn, Massachusetts	472,000 s.f. leased
	Bridgewater, Virginia	562,000 s.f. leased
	Philadelphia, Pennsylvania	1,001,000 s.f. leased
TJX Canada	Brampton, Ontario	506,000 s.f. leased
	Mississauga, Ontario	679,000 s.f. leased
TJX Europe	Wakefield, England	176,000 s.f. leased
	Stoke, England	261,000 s.f. leased
	Walsall, England	277,000 s.f. leased
	Bergheim, Germany	322,000 s.f. leased
	Wroclaw, Poland	303,000 s.f. leased

### Office Space

Corporate, Marmaxx, HomeGoods	Framingham and Westboro, Massachusetts	1,290,000 s.f. leased/owned in several buildings
TJX Canada	Mississauga, Ontario	198,000 s.f. leased
TJX Europe	Watford, England	81,000 s.f. leased
	Dusseldorf, Germany	21,000 s.f. leased

In addition to the office space listed above, TJX acquired approximately 700,000 square feet of office space in Marlborough, Massachusetts during fiscal 2013, which when ready for use is expected to replace some of the leased space in Framingham and Westboro, Massachusetts.

Sierra Trading Post, acquired in December 2012, is located in Cheyenne, Wyoming and owns a 60,000 square foot home office facility and a 223,000 square foot fulfillment center.

### **ITEM 3. Legal Proceedings**

TJX is subject to certain legal proceedings and claims that arise from time to time in the ordinary course of our business. In addition, TJX is a defendant in several lawsuits filed in federal and state courts brought as putative class or collective actions on behalf of various groups of current and former salaried and hourly associates in the U.S. The lawsuits allege violations of the Fair Labor Standards Act and of state wage and hour and other labor statutes, including alleged misclassification of positions as exempt from overtime, alleged entitlement to additional wages for alleged off-the-clock work by hourly employees and alleged failure to pay all wages due upon termination. The lawsuits seek unspecified monetary damages, injunctive relief and attorneys' fees. TJX is vigorously defending these claims. These lawsuits include *Ebo v. The TJX Companies, et al.*, Superior Court of CA, Los Angeles County Superior Court, BC380575, November 13, 2007 and *Ahmed v. T.J. Maxx Corp. et al.*, U.S. District Court, Eastern District of New York, 10-CV-03609, August 5, 2010. Case No 4:12 cv 558, May 17, 2012.

**ITEM 4. Mine Safety Disclosures**

Not applicable.

## PART II

### ITEM 5. Market for the Registrant's Common Equity, Related Security Holder Matters and Issuer Purchases of Equity Securities

On February 2, 2012, we effected a two-for-one stock split in the form of a stock dividend to shareholders of record as of January 17, 2012. All share and per share information has been retroactively adjusted to reflect the stock split.

#### Price Range of Common Stock

Our common stock is listed on the New York Stock Exchange (Symbol: TJX). The quarterly high and low sale prices for our common stock for fiscal 2013 and fiscal 2012 are as follows:

Quarter	Fiscal 2013		Fiscal 2012	
	High	Low	High	Low
First	\$ 42.56	\$ 33.41	\$ 27.00	\$ 23.48
Second	\$ 45.39	\$ 39.46	\$ 28.39	\$ 24.60
Third	\$ 46.67	\$ 40.38	\$ 30.64	\$ 25.07
Fourth	\$ 45.64	\$ 40.08	\$ 34.22	\$ 28.60

The approximate number of common shareholders at February 2, 2013 was 107,800.

Our Board of Directors declared four quarterly dividends of \$0.115 per share for fiscal 2013 and \$0.095 per share for fiscal 2012. While our dividend policy is subject to periodic review by our Board of Directors, we are currently planning to pay a \$0.145 per share quarterly dividend in fiscal 2014, subject to declaration and approval by our Board of Directors, and currently intend to continue to pay comparable dividends in the future.

#### Information on Share Repurchases

The number of shares of common stock repurchased by TJX during the fourth quarter of fiscal 2013 and the average price paid per share are as follows:

	Total Number of Shares Repurchased <sup>(1)</sup>	Average Price Paid Per Share <sup>(2)</sup>	Total Number of Shares Purchased as Part of Publicly Announced Plan or Program <sup>(3)</sup>	Maximum Number (or Approximate Dollar Value) of Shares that May Yet be Purchased Under the Plans or Programs
	(a)	(b)	(c)	(d)
October 28, 2012 through November 24, 2012	2,239,417	\$ 41.98	2,239,417	\$ 1,180,719,276
November 25, 2012 through December 29, 2012	2,974,339	\$ 43.03	2,974,339	\$ 1,052,719,350
December 30, 2012 through February 2, 2013	2,885,100	\$ 44.37	2,885,100	\$ 924,719,463
Total:	8,098,856		8,098,856	

(1) Repurchased under publicly announced stock repurchase programs.

(2) Includes commissions for the shares repurchased under stock repurchase programs.

## Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

(3) During the first quarter of fiscal 2013, we completed a \$1 billion stock repurchase program announced in February 2011 and initiated a \$2 billion stock repurchase program announced in February 2012. Under this new program, we repurchased a total of 24.7 million shares of common stock (including 8.1 million in shares in the fourth quarter) at a cost of \$1.1 billion in fiscal 2013. Additionally, in February 2013, we announced our 14<sup>th</sup> stock repurchase program for an additional \$1.5 billion.

(1) Fiscal 2011, fiscal 2010 and fiscal 2009 have been restated to reflect the two-for-one stock split effected in February 2012.

(2) Includes long-term debt, exclusive of current installments and capital lease obligation, less portion due within one year.

(3) Total capitalization includes shareholders' equity, short-term debt, long-term debt and capital lease obligation, including current maturities.

(4) As a result of the consolidation of the A.J. Wright chain, all A.J. Wright stores ceased operations by the end of February 2011.

**ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The discussion that follows relates to our 53-week fiscal year ended February 2, 2013 (fiscal 2013) and our 52-week fiscal years ended January 28, 2012 (fiscal 2012) and January 29, 2011 (fiscal 2011).

**OVERVIEW**

The TJX Companies, Inc. is the largest off-price retailer of apparel and home fashions in the U.S. and worldwide. Our over 3,000 stores offer a rapidly changing assortment of quality, fashionable, brand-name and designer apparel, home fashions and other merchandise at prices generally 20% to 60% below department and specialty store regular prices, every day. We operate our business in four divisions: Marmaxx (which operates T.J. Maxx and Marshalls) and HomeGoods, both in the United States; TJX Canada (which operates Winners, HomeSense and Marshalls in Canada); and TJX Europe (which operates T.K. Maxx and HomeSense in Europe).

Fiscal 2013 was another record year for us. Highlights of our financial performance for fiscal 2013 include the following:

In fiscal 2013, we posted strong gains in same store sales, net sales and earnings per share on top of significant increases in the last two fiscal years.

Net sales increased to \$25.9 billion for fiscal 2013, up 12% over fiscal 2012. The 53<sup>rd</sup> week in fiscal 2013 increased net sales by 2%.

Same store sales, on a 52-week basis, increased 7% in fiscal 2013 over increases of 4% in each of the previous two years. The fiscal 2013 increase was driven by an increase in customer traffic as we continued to grow our customer base.

Earnings per share for fiscal 2013 were \$2.55 per diluted share, up 32% compared to \$1.93 per diluted share in fiscal 2012, or up 28% compared to fiscal 2012 adjusted\* diluted earnings per share of \$1.99. The 53<sup>rd</sup> week added approximately \$0.08 per share to fiscal 2013 earnings.

All of our divisions exceeded our expectations in fiscal 2013, posting strong same store sales increases and increases in segment profits.

\* Adjusted measures exclude certain items affecting comparability. See Adjusted Financial Measures below.

In fiscal 2013, we continued to drive the growth of our divisions.

At February 2, 2013, the number of stores in operation was up 5% and selling square footage was up 4% over the end of fiscal 2012. We expect to end fiscal 2014 with 3,200 stores, which would represent a 5% increase in our consolidated store base and a 4% increase in our selling square footage.

All of our divisions posted strong same store sales increases, driven by increases in customer traffic. New T.J. Maxx and Marshalls stores performed well as we expanded into more rural markets as well as major cities. The Marshalls chain in Canada also has performed well and TJX Europe regained its momentum with a very strong 10% same store sales increase.

## Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

We invested in e-commerce. In December, 2012, we purchased Sierra Trading Post, an off-price internet retailer. We expect to launch our T.J. Maxx website in a small, controlled mode in the second half of fiscal 2014.

We continued our focus on operating with lean inventories, driving rapid merchandise turns and controlling expenses.

Our fiscal 2013 pre-tax margin (the ratio of pre-tax income to net sales) was 11.9%, a 1.5 percentage point increase compared to fiscal 2012, and a 1.2 percentage point increase from an adjusted 10.7% for fiscal 2012. The 53<sup>rd</sup> week benefited the fiscal 2013 pre-tax margin by approximately 0.2 percentage points.

Our cost of sales ratio for fiscal 2013 improved 1.1 percentage points to 71.6% compared to fiscal 2012 and improved 1.0 percentage points compared to an adjusted basis for fiscal 2012. The improvements over last year were primarily due to improved merchandise margins and buying and occupancy expense leverage.

Our selling, general and administrative expense ratio for fiscal 2013 decreased 0.4 percentage points from 16.8% in fiscal 2012 to 16.4%. On an adjusted basis, this ratio decreased 0.1 percentage points from an adjusted 16.5% in fiscal 2012.

Our consolidated average per store inventories, including inventory on hand at our distribution centers, but excluding our internet based business Sierra Trading Post, were down 6% at the end of fiscal 2013.

We continued to use cash to return value to our shareholders.

During fiscal 2013, we repurchased 30.6 million shares of our common stock for \$1.3 billion. Earnings per share reflect the benefit of the stock repurchase program. In February 2013, our Board of Directors authorized our 14<sup>th</sup> stock repurchase program for an additional \$1.5 billion. We expect to repurchase approximately \$1.3 to \$1.4 billion of our stock in fiscal 2014.

We paid quarterly dividends of \$0.115 per share for fiscal 2013. We expect to pay quarterly dividends for fiscal 2014 of \$0.145 per share, or an annual dividend of \$0.58 per share, which would represent a 26% increase over the prior year, subject to the declaration and approval of our Board of Directors.

The following is a discussion of our consolidated operating results, followed by a discussion of our segment operating results.

**Net sales:** Consolidated net sales for fiscal 2013 totaled \$25.9 billion, a 12% increase over \$23.2 billion in fiscal 2012. The increase reflected a 7% increase from same store sales, a 3% increase from new stores and a 2% increase from the impact of the 53<sup>rd</sup> week in the fiscal 2013 calendar. Foreign currency exchange rates had an immaterial impact on fiscal 2013 net sales. Consolidated net sales for fiscal 2012 totaled \$23.2 billion, a 6% increase over \$21.9 billion in fiscal 2011. The increase reflected a 5% increase from new stores, a 4% increase from same store sales and a 1% increase from foreign currency exchange rates, offset in part by a 4% decrease due to the elimination of sales from stores operating under the A.J. Wright banner. (The fiscal 2012 sales from the converted A.J. Wright stores are included in new store sales.)

Same store sales increases in the U.S. for fiscal 2013 were driven by an increase in customer traffic, and to a lesser extent an increase in the value of the average transaction. Sales of both apparel and home fashions were equally strong. Geographically, same store sales increases in the U.S. were strong throughout most regions with Florida and the Southwest performing above the consolidated average and virtually all other regions close to the consolidated average. Our foreign segments both posted same store sales increases, with TJX Europe above the consolidated average and TJX Canada below the consolidated average.

Same store sales increases in the U.S. for fiscal 2012 reflected an increase in both the value of the average transaction and an increase in customer traffic. Same store sales of our home, dresses, men's, shoes and accessories categories were particularly strong. Geographically, same store sales increases in the U.S. were strong throughout most regions, with Florida and the Southwest performing above the consolidated average and the Midwest trailing the consolidated average. For the full fiscal year 2012, the same store sales increase for TJX Europe was well below the consolidated average, and same store sales at TJX Canada decreased from the prior year, but both Europe and Canada posted strong same store sales gains in the fourth quarter of fiscal 2012.

We define same store sales to be sales of those stores that have been in operation for all or a portion of two consecutive fiscal years, or in other words, stores that are starting their third fiscal year of operation. We classify a store as a new store until it meets the same store sales criteria. We determine which stores are included in the same store sales calculation at the beginning of a fiscal year and the classification remains constant throughout that year, unless a store is closed. We calculate same store sales results by comparing the current and prior year weekly periods that are most closely aligned. Relocated stores and stores that have increased in size are generally classified in the same way as the original store, and we believe that the impact of these stores on the consolidated same store percentage is immaterial. Same store sales of our foreign segments are calculated on a

Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

constant currency basis, meaning we translate the current year's same store sales of our foreign segments at the same exchange rates used in the prior year. This removes the effect of changes in currency exchange rates, which we believe is a more accurate measure of segment operating performance. We define customer traffic to be the number of transactions in stores included in the same store sales calculation.

The following table sets forth our consolidated operating results from continuing operations as a percentage of net sales on an as reported and as adjusted basis:

	Percentage of Net Sales					
	Percentage of Net Sales Fiscal Year		Fiscal Year		Percentage of Net Sales Fiscal Year	
	2013		2012		2011	
	As reported	As reported	As adjusted*	As reported	As adjusted*	
Net sales	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%
Cost of sales, including buying and occupancy costs	71.6	72.7	72.6	73.1	72.9	
Selling, general and administrative expenses	16.4	16.8	16.5	16.9	16.3	
Provision (credit) for Computer Intrusion related expenses				(0.1)		
Interest expense, net	0.1	0.2	0.2	0.2	0.2	
Income from continuing operations before provision for income taxes**	11.9%	10.4%	10.7%	9.9%	10.6%	
Diluted earnings per share-continuing operations	\$ 2.55	\$ 1.93	\$ 1.99	\$ 1.65	\$ 1.75	

\* See Adjusted Financial Measures below.

\*\* Figures may not foot due to rounding.

**Impact of foreign currency exchange rates:** Our operating results are affected by foreign currency exchange rates as a result of changes in the value of the U.S. dollar in relation to other currencies. Two ways in which foreign currency exchange rates affect our reported results are as follows:

*Translation of foreign operating results into U.S. dollars:* In our financial statements we translate the operations of TJX Canada and TJX Europe from local currencies into U.S. dollars using currency rates in effect at different points in time. Significant changes in foreign exchange rates between comparable prior periods can result in meaningful variations in consolidated net sales, net income and earnings per share growth as well as the net sales and operating results of these segments. Currency translation generally does not affect operating margins, or affects them only slightly, as sales and expenses of the foreign operations are translated at essentially the same rates within a given period.

*Inventory hedges:* We routinely enter into inventory-related hedging instruments to mitigate the impact of foreign currency exchange rates on merchandise margins when our divisions, principally in Europe and Canada, purchase goods in currencies other than their local currencies. As we have not elected hedge accounting for these instruments as defined by generally accepted accounting principles (GAAP), we record a mark-to-market gain or loss on the hedging instruments in our results of operations at the end of each reporting period. In subsequent periods, the income statement impact of the mark-to-market adjustment is effectively offset when the inventory being hedged is sold. While these effects occur every reporting period, they are of much greater magnitude when there are sudden and significant changes in currency exchange rates during a short period of time. The mark-to-market adjustment on these hedges does not affect net sales, but it does affect the cost of sales, operating margins and earnings we report.

**Cost of sales, including buying and occupancy costs:** Cost of sales, including buying and occupancy costs, as a percentage of net sales was 71.6% in fiscal 2013, 72.7% in fiscal 2012 and 73.1% in fiscal 2011. The 1.1 percentage point improvement in this ratio for fiscal 2013 was primarily due to improved merchandise margins, driven by lower markdowns, as well as expense leverage on the strong same store sales increase. In addition, the 53<sup>rd</sup> week in fiscal 2013 benefitted this expense ratio by approximately 0.2 percentage points.

The improvement in this ratio for fiscal 2012 was due to expense leverage on buying and occupancy costs (particularly at Marmaxx and HomeGoods), partially offset by a decrease in merchandise margins at TJX Europe and TJX Canada.

**Selling, general and administrative expenses:** Selling, general and administrative expenses as a percentage of net sales were 16.4% in fiscal 2013, 16.8% in fiscal 2012 and 16.9% in fiscal 2011. On an adjusted basis, this ratio was 16.5% in fiscal 2012 and 16.3% in fiscal 2011. The improvement in this ratio for fiscal 2013 was primarily due to expense leverage on strong same store sales, partially offset by contributions to the TJX Foundation and by expenses related to two third quarter items: a non-cash charge for the cumulative impact of a correction to our pension accrual for prior years and a non-operating charge due to the adjustment in our reserve for former operations relating to closed stores.

The increase in the adjusted selling, general and administrative expense ratio in fiscal 2012 compared to fiscal 2011 was driven by increased general corporate expenses, primarily investment in new systems, talent and e-commerce, costs associated with a voluntary retirement program and fourth quarter charges and write-offs at TJX Canada and TJX Europe (see segment discussions below), offset in part by expense leverage on strong same store sales, particularly at HomeGoods.

**Interest expense, net:** The components of interest expense, net for the last three fiscal years are summarized below:

Dollars in thousands	February 2, 2013	Fiscal Year Ended January 28, 2012	January 29, 2011
Interest expense	\$ 48,582	\$ 49,276	\$ 49,014
Capitalized interest	(7,750)	(2,593)	
Interest (income)	(11,657)	(11,035)	(9,877)
Interest expense, net	\$ 29,175	\$ 35,648	\$ 39,137

Gross interest expense has remained fairly constant over the last three fiscal years. The reduction in our net interest expense position in both fiscal 2013 and in fiscal 2012 was due to capitalized interest on major capital projects that have not yet been placed in service.

**Income taxes:** Our effective annual income tax rate was 38.0% in fiscal 2013, 38.0% in fiscal 2012 and 38.1% in fiscal 2011. TJX's effective rate remained constant for fiscal 2013 as compared to fiscal 2012. The fiscal 2013 effective tax rate benefitted from an increase in foreign earnings, which are taxed at lower rates, but this benefit was offset by the absence of the benefit in fiscal 2012 due to a net reduction in federal and state tax reserves. The decrease in the effective income tax rate for fiscal 2012 as compared to fiscal 2011 is primarily attributable to a reduction in the fiscal 2012 tax reserves related to the favorable resolution of U.S. Federal tax audits, partially offset by an increase in state and U.S. Federal tax reserves, for a net decrease in the provision.

**Income from continuing operations and diluted earnings per share from continuing operations:** Income from continuing operations was \$1.9 billion in fiscal 2013, a 27% increase over \$1.5 billion in fiscal 2012, which in turn was a 12% increase over \$1.3 billion in fiscal 2011. Diluted earnings per share were \$2.55 in fiscal 2013, \$1.93 in fiscal 2012 and \$1.65 in fiscal 2011.

Fiscal 2013 diluted earnings per share included an approximate \$0.08 per share benefit due to the impact of the 53<sup>rd</sup> week in the fiscal 2013 calendar. Adjusted diluted earnings per share were \$1.99 for fiscal 2012 and \$1.75 for fiscal 2011 (see Adjusted Financial Measures).

Foreign currency exchange rates also affected the comparability of our results. Foreign currency exchange rates had an immaterial impact on earnings per share in fiscal 2013 compared to fiscal 2012 but benefitted fiscal 2012 earnings per share by \$0.01 per share compared with a \$0.01 per share negative impact in fiscal 2011.

In addition, our weighted average diluted shares outstanding affect the comparability of earnings per share. Our stock repurchases benefit our earnings per share. We repurchased 30.6 million shares of our stock at a cost of \$1.3 billion in fiscal 2013, 49.7 million shares of our stock at a cost of \$1.4 billion in fiscal 2012, and 55.1 million shares at a cost of \$1.2 billion in fiscal 2011.

**Discontinued operations and net income:** In fiscal 2011, we had a net gain from discontinued operations reflecting an after-tax benefit of \$3.6 million (which did not impact diluted earnings per share) as a result of a \$6 million pre-tax reduction of the estimated cost of settling lease-related obligations of former businesses. Net income, which includes the impact of these discontinued operations, was \$1.9 billion, or \$2.55 per share, for fiscal 2013, \$1.5 billion, or \$1.93 per share, for fiscal 2012, and \$1.3 billion, or \$1.65 per share, for fiscal 2011.

**Adjusted Financial Measures:** In addition to presenting financial results in conformity with GAAP, we are also presenting certain measures on an adjusted basis. We adjusted them to exclude:

from the fiscal 2012 results, costs related to the A.J. Wright consolidation incurred in fiscal 2012, including closing costs, additional operating losses related to the A.J. Wright stores closed in fiscal 2012 and the costs incurred by the Marmaxx and HomeGoods segments to convert former A.J. Wright stores to their banners and hold grand re-opening events for these stores, and

from the fiscal 2011 results, costs related to the A.J. Wright consolidation incurred in fiscal 2011 (which included a majority of the costs related to closing the A.J. Wright business and the operating loss of the A.J. Wright segment for the fourth quarter of fiscal 2011), and the benefit of a reduction to the provision for the Computer Intrusion which occurred over four years ago.

These adjusted financial results are non-GAAP financial measures. We believe that the presentation of adjusted financial results provides additional information on comparisons between periods including underlying trends of our business by excluding these items that affect overall comparability. We use these adjusted measures in making financial, operating and planning decisions and in evaluating our performance, and our Board of Directors uses them in assessing our business and making compensation decisions. Non-GAAP financial measures should be considered in addition to, and not as an alternative for, our reported results prepared in accordance with GAAP.

Reconciliations of each of the adjusted financial measures to the financial measures in accordance with GAAP for fiscal 2012 and fiscal 2011 are provided below.

	Fiscal year 2012			Fiscal year 2012

\* Figures may not cross-foot due to rounding.

Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

(1) Sales of A.J. Wright stores prior to closing (\$9 million).

(2) Cost of sales, including buying and occupancy costs of A.J. Wright prior to closing (\$15 million) and applicable conversion costs of A.J. Wright stores converted to Marmaxx and HomeGoods banners (\$1 million).

## Edgar Filing: TJX COMPANIES INC /DE/ - Form 10-K

(3) Operating costs of A.J. Wright prior to closing and costs to close A.J. Wright stores not converted to other banners (\$44 million) and applicable conversion and grand re-opening costs for A.J. Wright stores converted to Marmaxx and HomeGoods banners (\$19 million).

(4) Impact on earnings per share of operating loss and closing costs of A.J. Wright stores (\$0.04 per share) and conversion and grand re-opening costs at Marmaxx and HomeGoods (\$0.02 per share). 2012 effective tax rate used in computation.

(5) Sales associated with A.J. Wright prior to closing (\$279 million).

(6) Cost of sales, including and buying and occupancy costs associated with closing A.J. Wright stores, distribution centers and home office (\$242 million).

(7) Operating costs of A.J. Wright prior to closing and costs to close A.J. Wright stores not being converted to other banners (\$177 million).

(8) Reduction of the provision for Computer Intrusion related costs, primarily as a result of insurance proceeds and adjustments to our remaining reserve (\$12 million).

(9) Impact on earnings per share of operating losses and closing costs of A.J. Wright stores (\$0.11 per share) and impact on earnings per share of the reduction to the provision for Computer Intrusion related costs (\$0.01 per share). 2011 effective tax rate used in computation.

The costs to convert A.J. Wright stores to other banners and to hold grand re-openings affected our Marmaxx and HomeGoods segments in fiscal 2012. A reconciliation of adjusted segment margin, a non-GAAP financial measure, to segment margin as reported in accordance with GAAP for each of these segments is as follows:

	Fiscal 2012			Fiscal 2012		Fiscal 2011	
	As reported		Adjustments	As adjusted		As reported	
	U.S.\$ in Millions	% of Net Sales		U.S.\$ in Millions*	% of Net Sales	U.S.\$ in Millions	% of Net Sales
Marmaxx segment profit	\$ 2,073	13.5%	\$ 17 <sup>(1)</sup>	\$ 2,090	13.6%	\$ 1,876	13.3%
HomeGoods segment profit	\$ 234	10.4%	\$ 3 <sup>(2)</sup>	\$ 238	10.6%	\$ 187	9.5%

\* Figures may not cross-foot due to rounding.

(1) Conversion costs and grand re-opening costs for A.J. Wright stores converted to a T.J. Maxx or Marshalls store.

(2) Conversion costs and grand re-opening costs for A.J. Wright stores converted to a HomeGoods store.

**Segment information:** We operate four main business segments. Marmaxx (T.J. Maxx and Marshalls) and HomeGoods both operate stores in the United States. Our TJX Canada segment operates our stores in Canada (Winners, HomeSense and Marshalls), and our TJX Europe segment operates our stores in Europe (T.K. Maxx and HomeSense). (A.J. Wright ceased to be a segment following its consolidation.) Late in fiscal 2013 we acquired Sierra Trading Post (STP), an off-price internet retailer. The results of STP are not material and have been included with our Marmaxx segment. We evaluate the performance of our segments based on segment profit or loss, which we define as pre-tax income or loss before general corporate expense and interest expense. Segment profit or loss, as we define the term, may not be comparable to similarly titled measures used by other entities. The terms segment margin or segment profit margin are used to describe segment profit or loss as a percentage of net sales. These measures of performance should not be considered an alternative to net income or cash flows from operating activities as an indicator of our performance or as a measure of liquidity.

Presented below is selected financial information related to our business segments:

U.S. Segments:

**Marmaxx**

Dollars in millions	February 2, 2013	Fiscal Year Ended	
		January 28, 2012	January 29, 2011
Net sales	\$ 17,011.4	\$ 15,367.5	\$ 14,092.2
Segment profit	\$ 2,486.3	\$ 2,073.4	\$ 1,876.0
Segment profit as a percentage of net sales	14.6%	13.5%	13.3%
Adjusted segment profit as a percentage of net sales*	n/a	13.6%	n/a
Percent increase in same store sales	6%	5%	4%
Stores in operation at end of period			
T.J. Maxx	1,036	983	923
Marshalls	904	884	830
Total Marmaxx	1,940	1,867	1,753
Selling square footage at end of period (in thousands)			
T.J. Maxx	23,894	22,894	21,611
Marshalls	22,380	22,042	20,912
Total Marmaxx	46,274	44,936	42,523

\* See Adjusted Financial Measures above.

At February 2, 2013, STP operated 4 stores with a selling square footage of 83,000.

Net sales at Marmaxx increased 11% in fiscal 2013 as compared to fiscal 2012. Same store sales for Marmaxx were up 6% in fiscal 2013, on top of a 5% increase in the prior year. Same store sales growth at Marmaxx for fiscal 2013 was driven by an increase in customer traffic, with both apparel and home fashions posting solid same store sales gains. Geographically, same store sales were strong throughout the country.

Same store sales growth at Marmaxx for fiscal 2012 was driven by a balanced increase in the value of the average transaction and an increase in customer traffic. The categories that posted particularly strong same store sales increases in fiscal 2012 were dresses, men's, shoes and accessories. Geographically, same store sales increases were strong throughout the country, with Florida and the Southwest the strongest and the Midwest below the chain average.

Segment margin was up 1.1 percentage points to 14.6% for fiscal 2013 compared to 13.5% for fiscal 2012. This increase was primarily due to a 0.6 percentage point improvement in merchandise margin, largely due to lower markdowns. The fiscal 2013 segment margin also benefitted from expense leverage (particularly occupancy costs, which improved by 0.4 percentage points) on strong same store sales growth and the 53<sup>rd</sup> week which lifted the fiscal 2013 segment margin by approximately 0.2 percentage points.

Segment margin was up 0.2 percentage points to 13.5% for fiscal 2012 compared to 13.3% for fiscal 2011, primarily due to expense leverage (particularly occupancy costs, which improved by 0.3 percentage points) on strong same store sales growth. This improvement was offset in part by slightly lower merchandise margins and the store conversion and grand re-opening costs of former A.J. Wright stores converted to T.J. Maxx or Marshalls. Adjusted segment profit margin, which excludes the A.J. Wright conversion costs, increased 0.3 percentage points to 13.6% for fiscal 2012.

We believe our ongoing store remodel program has benefited our sales in this segment. As a result of the remodel program and our new store openings, approximately 75% of T.J. Maxx and Marshall's stores were in the new prototype at the end of fiscal 2013.

In fiscal 2014, we expect to open approximately 75 new Marmaxx stores (net of closings) and increase selling square footage by approximately 3%.

**HomeGoods**

Dollars in millions	February 2, 2013	Fiscal Year Ended	
		January 28, 2012	January 29, 2011
Net sales	\$ 2,657.1	\$ 2,244.0	\$ 1,958.0
Segment profit	\$ 324.6	\$ 234.4	\$ 186.5
Segment profit as a percentage of net sales	12.2%	10.4%	9.5%
Adjusted segment profit as a percentage of net sales*	n/a	10.6%	n/a
Percent increase in same store sales	7%	6%	6%
Stores in operation at end of period	415	374	336
Selling square footage at end of period (in thousands)	8,210	7,391	6,619

\* See Adjusted Financial Measures above.

HomeGoods net sales increased 18% in fiscal 2013 compared to fiscal 2012, on top of a 15% increase in fiscal 2012 when compared to fiscal 2011. Same store sales increased 7% in fiscal 2013, on top of a same store sales increase of 6% in fiscal 2012. Same store sales growth was driven by an increase in customer traffic and, to a lesser extent, an increase in the value of the average transaction in both years. Segment profit margin for fiscal 2013 was 12.2%, up from 10.4% for fiscal 2012. The increase was driven by expense leverage on the 7% same store sales increase, particularly occupancy and administrative costs, and an increase in merchandise margins. Segment profit margin for fiscal 2012 was 10.4% up from 9.5% for fiscal 2011. The increase was due to expense leverage on the same store sales increase and an increase in merchandise margins (primarily due to lower markdowns), partially offset by the conversion and grand re-opening costs of former A.J. Wright stores converted to HomeGoods. Adjusted segment profit margin for fiscal 2012 (which excludes the A.J. Wright conversion costs) increased 1.1 percentage points to 10.6%.

In fiscal 2014, we plan a net increase of approximately 30 HomeGoods stores and plan to increase selling square footage by approximately 7%.

**A.J. Wright**

We completed the consolidation of the A.J. Wright division in the first quarter of fiscal 2012, closing the remaining stores not being converted to other banners. These closing costs (primarily lease-related obligations) and A.J. Wright operating losses totaled \$49.3 million and were reported as an A.J. Wright segment loss in the first quarter of fiscal 2012.

In fiscal 2011 A.J. Wright had a segment loss of \$130.0 million on net sales of \$888.4 million. A majority of the costs related to the closing of A.J. Wright were recorded in the fourth quarter of fiscal 2011. The fiscal 2011 segment loss includes a fourth quarter loss of \$140.6 million.

Due to the anticipated migration of A.J. Wright customers to our other U.S. segments, A.J. Wright was not treated as a discontinued operation for financial reporting purposes.

International Segments:**TJX Canada**

U.S. Dollars in millions	February 2, 2013	Fiscal Year Ended	
		January 28, 2012	January 29, 2011
Net sales	\$ 2,926.0	\$ 2,680.1	\$ 2,510.2
Segment profit	\$ 414.9	\$ 348.0	\$ 352.0
Segment profit as a percentage of net sales	14.2%	13.0%	14.0%
Percent increase (decrease) in same store sales	5%	(1)%	4%
Stores in operation at end of period			
Winners	222	216	215
HomeSense	88	86	82
Marshalls	14	6	
Total	324	308	297
Selling square footage at end of period (in thousands)			
Winners	5,115	5,008	4,966
HomeSense	1,698	1,670	1,594
Marshalls	363	162	
Total	7,176	6,840	6,560

Net sales for TJX Canada increased 9% in fiscal 2013 as compared to fiscal 2012. Currency translation negatively impacted sales growth by 1 percentage point in fiscal 2013, as compared to the same period last year. Same store sales increased 5% in fiscal 2013 compared to a decrease of 1% in fiscal 2012.

Segment profit for fiscal 2013 increased to \$414.9 million, and segment profit margin increased 1.2 percentage points to 14.2%. The improvement in segment margin was driven by increased merchandise margin, largely due to lower markdowns. This increase in segment margin was partially offset by increased incentive compensation accruals in fiscal 2013 as compared to fiscal 2012. Foreign currency translation and the mark-to-market adjustment on inventory related hedges did not have a significant impact on fiscal 2013 segment profit and segment margin.

Net sales for TJX Canada increased 7% in fiscal 2012 as compared to fiscal 2011. Currency translation benefitted fiscal 2012 sales growth by approximately 4 percentage points, as compared to the same period in fiscal 2011. Same store sales decreased 1% in fiscal 2012 compared to an increase of 4% in fiscal 2011 largely due to execution issues in women's and, to a lesser extent, children's categories.

Segment profit for fiscal 2012 decreased to \$348.0 million, due to weak sales volume in the first three quarters (mitigated in part by strong inventory and expense management) and, to a lesser extent, a fourth quarter charge of \$6 million for the closure of our StyleSense stores. These decreases in segment profit more than offset a \$10 million benefit from foreign currency translation and a \$4 million benefit from mark-to-market adjustment on inventory-related hedges. The decrease in segment margin for fiscal 2012 as compared to fiscal 2011 was due to expense deleverage and lower merchandise margins, which more than offset the favorable change in the mark-to-market adjustment of our inventory-related hedges.

We expect to add a net of approximately 20 stores in Canada in fiscal 2014 and plan to increase selling square footage by approximately 6%.

### TJX Europe

U.S. Dollars in millions	February 2, 2013	Fiscal Year Ended	
		January 28, 2012	January 29, 2011
Net sales	\$ 3,283.9	\$ 2,890.7	\$ 2,493.5
Segment profit	\$ 215.7	\$ 68.7	\$ 75.8
Segment profit as a percentage of net sales	6.6%	2.4%	3.0%
Percent increase (decrease) in same store sales	10%	2%	(3)%
Stores in operation at end of period			
T.K. Maxx	343	332	307
HomeSense	24	24	24
Total	367	356	331
Selling square footage at end of period (in thousands)			
T.K. Maxx	7,830	7,588	7,052
HomeSense	411	402	402
Total	8,241	7,990	7,454

Net sales for TJX Europe increased 14% in fiscal 2013 to \$3.3 billion compared to \$2.9 billion in fiscal 2012. Currency translation negatively impacted fiscal 2013 sales growth by 2 percentage points. Fiscal 2013 same store sales increased 10% compared to an increase of 2% in fiscal 2012.

Segment profit more than tripled to \$215.7 million for fiscal 2013, and segment profit margin increased to 6.6%. The improvements we saw in the fourth quarter of fiscal 2012 in this segment's performance as we slowed growth and re-focused on off-price fundamentals continued throughout fiscal 2013. More than half of the improvement in segment margin came from improved merchandise margins, which was virtually all due to lower markdowns. Segment profit and segment margin for fiscal 2013 as compared to 2012, benefitted from the absence of the fiscal 2012 charges for closing an office facility and the write-off of certain technology systems and other adjustments. The impact of foreign currency translation and the mark-to-market adjustment on inventory-related hedges was immaterial for fiscal 2013.

Net sales for TJX Europe increased 16% in fiscal 2012 to \$2.9 billion compared to \$2.5 billion in fiscal 2011. Currency translation benefited fiscal 2012 sales growth by 4 percentage points. Same store sales were up 2% in fiscal 2012 compared to a decrease of 3% in fiscal 2011. TJX Europe ended fiscal 2012 by posting a fourth quarter same store sales increase of 10%.

Segment profit decreased to \$68.7 million for fiscal 2012, and segment profit margin decreased to 2.4%. For fiscal 2012, the impact of foreign currency translation and the mark-to-market adjustment on inventory-related hedges was immaterial. Our fiscal 2012 results reflect aggressive markdowns, primarily taken in the first quarter to clear inventory and adjust our merchandise mix and the charges and write-offs referenced above. Despite these fourth quarter charges, segment profit for the fourth quarter of fiscal 2012 nearly doubled reflecting the effects of the changes we made to address the execution issues that adversely affected fiscal 2011 and earlier parts of fiscal 2012.

We expect to add approximately 25 net stores in Europe in fiscal 2014 and plan to increase selling square footage by approximately 6%.

**General Corporate Expense:**

Dollars in millions	Fiscal Year Ended		
	February 2, 2013	January 28, 2012	January 29, 2011
General corporate expense	\$ 335.0	\$ 228.3	\$ 168.7

General corporate expense for segment reporting purposes represents those costs not specifically related to the operations of our business segments and is included in selling, general and administrative expenses. The increase in general corporate expense for fiscal 2013 includes contributions to the TJX Foundation, an adjustment to our reserve for former operations and the acquisition costs of Sierra Trading Post. These items account for \$56 million of the increase in general corporate expense. In addition, general corporate expense for fiscal 2013 includes increased incentive compensation accruals under our performance-based plans, additional investments in systems and technology and additional costs related to the expansion of our home office facilities.

The increase in general corporate expense for fiscal 2012 was primarily due to our investments in systems and technology, talent and associate training expenses, costs related to our e-commerce initiative and costs related to a fourth quarter voluntary retirement program and an executive separation agreement. Collectively, these items accounted for approximately \$40 million of the increase in general corporate expenses for fiscal 2012.

Liquidity and Capital Resources

**Operating activities:** Net cash provided by operating activities was \$3,046 million in fiscal 2013, \$1,916 million in fiscal 2012 and \$1,976 million in fiscal 2011. The cash generated from operating activities in each of these fiscal years was largely due to operating earnings.

Operating cash flows for fiscal 2013 increased \$1,130 million compared to fiscal 2012. Net income plus the non-cash impact of depreciation and impairment charges provided cash of \$2,427 million in fiscal 2013 compared to \$1,995 million in fiscal 2012, an increase of \$432 million. The change in merchandise inventory, net of the related change in accounts payable, resulted in a source of cash of \$239 million in fiscal 2013, compared to a use of cash of \$224 million in fiscal 2012. This change was attributable to faster inventory turns and a reduction in consolidated inventories on a per-store basis, including the distribution centers, which was down 6% at the end of fiscal 2013 as compared to fiscal 2012 (excluding Sierra Trading Post). The increase in accrued expenses and other liabilities favorably impacted cash by \$269 million in fiscal 2013 versus \$14 million in fiscal 2012, which was primarily driven by an increase in accrued incentive compensation and accrued pension. Additionally, operating cash flows increased by \$48 million year-over-year due to the change in deferred income tax provision and income taxes payable which was largely offset by a reduction in operating cash flows of \$47 million due to an increase in accounts receivable and prepaid expenses. The increase in prepaid expenses was primarily due to the timing of rental payments.

Operating cash flows for fiscal 2012 decreased \$60 million compared to fiscal 2011. Net income plus the non-cash impact of depreciation and impairment charges provided cash of \$1,995 million in fiscal 2012 compared to \$1,897 million in fiscal 2011, an increase of \$98 million. The change in merchandise inventory, net of the related change in accounts payable, resulted in a use of cash of \$224 million in fiscal 2012, compared to \$48 million in fiscal 2011. The increase in inventory was in our distribution centers, primarily due to higher pack-away inventory as we continued to take advantage of market opportunities. The average inventory in our stores at the end of fiscal 2012 was below fiscal 2011 levels. The additional cash outlay for the net change in inventory and accounts payable is due to the timing of payments. The impact of the changes in all other assets and liabilities, which reduced operating cash flows by \$77 million year-over-year, was more than offset by the favorable impact on cash flows of \$94 million due to a higher deferred income tax provision.

We have a reserve for the remaining future obligations of operations we have closed, sold or otherwise disposed of including, among others, Bob's Stores and A.J. Wright. The majority of these obligations relate to

real estate leases associated with these operations. The reserve balance was \$45.2 million at February 2, 2013 and \$45.4 million at January 28, 2012. The cash flows required to satisfy obligations of former operations are classified as a reduction in cash provided by operating activities. See Note C to the consolidated financial statements for more information.

Investing activities: Our cash flows for investing activities include capital expenditures for the last three fiscal years as set forth in the table below:

In millions	February 2, 2013	Fiscal Year Ended	
		January 28, 2012	January 29, 2011
New stores	\$ 170.7	\$ 211.6	\$ 196.3
Store renovations and improvements	282.7	319.8	301.0
Office and distribution centers	524.8	271.9	209.8
Capital expenditures	\$ 978.2	\$ 803.3	\$ 707.1

We expect that we will spend approximately \$925 million to \$950 million on capital expenditures in fiscal 2014, including approximately \$444 million for our offices and distribution centers (including buying and merchandising systems and information systems) to support growth, \$316 million for store renovations and \$190 million for new stores. We plan to fund these expenditures through internally generated funds.

We also purchased short-term investments that had initial maturities in excess of 90 days which, per our policy, are not classified as cash on the balance sheets presented. In fiscal 2013, we purchased \$356 million of such short-term investments, compared to \$152 million in fiscal 2012. Additionally, \$213 million of such short-term investments were sold or matured during fiscal 2013 compared to \$133 million last year.

Investing activities for fiscal 2013 also included the net cash paid in December 2012 for the acquisition of STP, an off-price internet retailer. The purchase price, net of cash acquired was \$190 million which is subject to customary post-closing adjustments. See Note B to the consolidated financial statements for more information.

Financing activities: Cash flows from financing activities resulted in net cash outflows of \$1,476 million in fiscal 2013; \$1,336 million in fiscal 2012 and \$1,224 million in fiscal 2011.

Under our stock repurchase programs, we spent \$1,300 million to repurchase 30.6 million shares of our stock in fiscal 2013, \$1,370 million to repurchase 49.7 million shares in fiscal 2012 and \$1,201 million to repurchase 55.1 million shares in fiscal 2011. See Note D to the consolidated financial statements for more information. In February 2013, our Board of Directors authorized an additional repurchase program authorizing the repurchase of up to an additional \$1.5 billion of TJX stock. We currently plan to repurchase approximately \$1.3 billion to \$1.4 billion of stock under our stock repurchase programs in fiscal 2014. We determine the timing and amount of repurchases based on our assessment of various factors including excess cash flow, liquidity, economic and market conditions, our assessment of prospects for our business, legal requirements and other factors. The timing and amount of these purchases may change.

We declared quarterly dividends on our common stock which totaled \$0.46 per share in fiscal 2013, \$0.38 per share in fiscal 2012 and \$0.30 per share in fiscal 2011. Cash payments for dividends on our common stock totaled \$324 million in fiscal 2013, \$275 million in fiscal 2012 and \$229 million in fiscal 2011. We also received proceeds from the exercise of employee stock options of \$134 million in fiscal 2013, \$219 million in fiscal 2012 and \$176 million in fiscal 2011.

We traditionally have funded our working capital requirements, including for seasonal merchandise, primarily through cash generated from operations, supplemented, as needed, by short-term bank borrowings and the issuance of commercial paper. We believe our existing cash and cash equivalents, internally generated funds and our credit facilities, described in Note J to the consolidated financial statements, are more than adequate to meet our operating needs over the next fiscal year.

**Contractual obligations:** As of February 2, 2013, we had known contractual obligations (including current installments) under long-term debt arrangements, operating leases for property and equipment and purchase obligations as follows (in thousands):

Tabular Disclosure of Contractual Obligations	Total	Payments Due by Period			
		Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Long-term debt obligations <sup>(1)</sup>	\$ 1,007,838	\$ 42,863	\$ 485,725	\$ 52,125	\$ 427,125
Operating lease commitments <sup>(2)</sup>	6,719,214	1,185,379	2,080,098	1,487,253	1,966,484
Purchase obligations <sup>(3)</sup>	2,956,330	2,823,533	119,250	13,495	52
Total Obligations	\$ 10,683,382	\$ 4,051,775	\$ 2,685,073	\$ 1,552,873	\$ 2,393,661

(1) Includes estimated interest costs.

(2) Reflects minimum rent. Does not include costs for insurance, real estate taxes, other operating expenses and, in some cases, rentals based on a percentage of sales; these items totaled approximately one-third of the total minimum rent for fiscal 2013. Does not include leases reflected in our reserve for former operations.

(3) Includes estimated obligations under purchase orders for merchandise and under agreements for capital items, products and services used in our business, including executive employment and other agreements. Excludes agreements that can be cancelled without penalty.

We also have long-term liabilities for which it is not reasonably possible for us to predict when they may be paid which include \$395.3 million for employee compensation and benefits and \$257.2 million for uncertain tax positions.

#### Critical Accounting Policies

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States (GAAP) which require us to make certain estimates and judgments that impact our reported results. These judgments and estimates are based on historical experience and other factors which we continually review and believe are reasonable. We consider our most critical accounting policies, involving management estimates and judgments, to be those relating to the areas described below.

**Inventory valuation:** We use the retail method for valuing inventory, which results in a weighted average cost. Under the retail method, the cost value of inventory and gross margins are determined by calculating a cost-to-retail ratio and applying it to the retail value of inventory. This method is widely used in the retail industry, and we believe the retail method results in a more conservative inventory valuation than other inventory accounting methods. It involves management estimates with regard to markdowns and inventory shrinkage. Under the retail method, permanent markdowns are reflected in inventory valuation when the price of an item is reduced. Typically, a significant area of judgment in the retail method is the amount and timing of permanent markdowns. However, as a normal business practice, we have a specific policy as to when and how markdowns are to be taken, greatly reducing management's discretion and the need for management estimates as to markdowns. Inventory shrinkage requires estimating a shrinkage rate for interim periods, but we take a full physical inventory near the fiscal year end to determine shrinkage at year end. Thus, actual and estimated amounts of shrinkage may differ in quarterly results, but the difference is typically not a significant factor in full year results. We do not generally enter into arrangements with vendors that provide for rebates and allowances that could ultimately affect the value of inventory.

**Impairment of long-lived assets:** We evaluate the recoverability of the carrying value of our long-lived assets at least annually and whenever events or circumstances occur that would indicate that the carrying amounts of those assets are not recoverable. Significant judgment is involved in projecting the cash flows of individual stores, as well as of our business units, which involve a number of factors including historical trends, recent performance and general economic assumptions. If we determine that an impairment of long-lived assets has occurred, we record an impairment charge equal to the excess of the carrying value of those assets over the estimated fair value of the assets.

**Retirement obligations:** Retirement costs are accrued over the service life of an employee and represent, in the aggregate, obligations that will ultimately be settled far in the future and are therefore subject to estimates.

We are required to make assumptions regarding variables, such as the discount rate for valuing pension obligations and the long-term rate of return assumed to be earned on pension assets, both of which impact the net periodic pension cost for the period. The discount rate, which we determine annually based on market interest rates, and our estimated long-term rate of return, which can differ considerably from actual returns, can have a significant impact on the annual cost of retirement benefits and the funded status of our qualified pension plan. When the discount rate, market performance of our plan assets, changes in tax or other benefits laws and regulations, or other factors have a negative impact on the funded status of our plan, our required contributions may increase. We also consider these factors in determining the amount of voluntary contributions we may make to the plan in excess of mandatory funding requirements. In fiscal 2013 we funded our qualified pension plan with a voluntary contribution of \$75 million.

**Share-based compensation:** In accordance with GAAP, we estimate the fair value of stock awards issued to employees and directors under our stock incentive plan. The fair value of the awards is amortized as share-based compensation over the vesting periods during which the recipients are required to provide service. We use the Black-Scholes option pricing model for determining the fair value of stock options granted, which requires management to make significant judgments and estimates such as participant activity and market results. The use of different assumptions and estimates could have a material impact on the estimated fair value of stock option grants and the related compensation cost.

**Reserves for uncertain tax positions:** Like many large corporations, our income and other tax returns and reports are regularly audited by federal, state and local tax authorities in the United States and in foreign jurisdictions where we operate and such authorities may challenge positions we take. We are engaged in various administrative and judicial proceedings in multiple jurisdictions with respect to assessments, claims, deficiencies and refunds and other tax matters, which proceedings are in various stages of negotiation, assessment, examination, litigation and settlement. The outcomes of these proceedings are uncertain. In accordance with GAAP, we evaluate our uncertain tax positions based on our understanding of the facts, circumstances and information available at the reporting date, and we accrue for exposure when we believe that it is more likely than not, based on the technical merits, that the positions we have taken will not be sustained. However, in the next twelve months and in future periods, the amounts we accrue for uncertain tax positions from time to time or ultimately pay, as the result of the final resolutions of examinations, judicial or administrative proceedings, changes in facts, law, or legal interpretations, expirations of applicable statute of limitations or other resolutions of, or changes in, tax positions may differ either positively or negatively from the amounts we have accrued, and may result in reductions to or additions to accruals, refund claims or payments for periods not currently under examination or for which no claims have been made. Final resolutions of our tax positions or changes in accruals for uncertain tax positions could result in additional tax expense or benefit and could have a material impact on our results of operations of the period in which an examination or proceeding is resolved or in the period in which a changed outcome becomes probable and reasonably estimable.

**Reserves for former operations:** As discussed in Note C to the consolidated financial statements and elsewhere in the Management's Discussion and Analysis, we have reserves for probable losses arising for future obligations of former operations, primarily real estate leases. We must make estimates and assumptions about the costs and expenses we will incur in connection with the future obligations of our former operations. The leases relating to A.J. Wright and other former operations are long-term obligations, and the estimated cost to us involves numerous estimates and assumptions including when and on what terms we will assign the leases, or sublease the leased properties, whether and for how long we remain obligated with respect to particular leases, the extent to which assignees or subtenants will fulfill our financial and other obligations under the leases, how particular obligations may ultimately be settled and what mitigating factors, including indemnification, may exist to any liability we may have. We develop these assumptions based on past experience and evaluation of various potential outcomes and the circumstances surrounding each situation and location. Actual results may differ from our current estimates, and we may decrease or increase the amount of our reserves to adjust for future developments relating to the underlying assumptions and other factors, although we do not expect any such differences to be material to our results of operations.

**Loss contingencies:** Certain conditions may exist as of the date the financial statements are issued that may result in a loss to us but will not be resolved until one or more future events occur or fail to occur. Our

management, with the assistance of our legal counsel, assesses such contingent liabilities. Such assessments inherently involve the exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against us or claims that may result in such proceedings, our legal counsel assists us in evaluating the perceived merits of any legal proceedings or claims as well as the perceived merits of the relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be reasonably estimated, we will accrue for the estimated liability in the financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be reasonably estimated, we will disclose the nature of the contingent liability, together with an estimate of the range of the possible loss or a statement that such loss is not reasonably estimable.

#### Recent Accounting Pronouncements

See Note A to our consolidated financial statements included in this annual report for recently issued accounting standards, including the expected dates of adoption and estimated effects on our consolidated financial statements.

#### **ITEM 7A. Quantitative and Qualitative Disclosure about Market Risk**

TJX is exposed to market risks in the ordinary course of business, some potential market risks are discussed below:

##### Foreign Currency Exchange Risk

We are exposed to foreign currency exchange rate risk on the translation of our foreign operations into the U.S. dollar and on purchases of goods in currencies that are not the local currencies of stores where the goods are sold and on intercompany debt and interest payable between our domestic and international operations. As more fully described in Note E to our consolidated financial statements, we use derivative financial instruments to hedge a portion of certain merchandise purchase commitments, primarily at our international operations, and intercompany transactions with our international operations. We enter into derivative contracts only for the purpose of hedging the underlying economic exposure. We utilize currency forward and swap contracts, designed to offset the gains or losses on the underlying exposures. The contracts are executed with banks we believe are creditworthy and are denominated in currencies of major industrial countries. We have performed a sensitivity analysis assuming a hypothetical 10% adverse movement in foreign currency exchange rates applied to the hedging contracts and the underlying exposures described above as well as the translation of our foreign operations into our reporting currency. As of February 2, 2013, the analysis indicated that such an adverse movement would not have a material effect on our consolidated financial position but could have reduced our pre-tax income for fiscal 2013 by approximately \$65 million.

##### Equity Price Risk

The assets of our qualified pension plan, a large portion of which are equity securities, are subject to the risks and uncertainties of the financial markets. We invest the pension assets in a manner that attempts to minimize and control our exposure to market uncertainties. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. A significant decline in the financial markets could adversely affect the value of our pension plan assets and the funded status of our pension plan, resulting in increased contributions to the plan.

We do not enter into derivatives for speculative or trading purposes.

#### **ITEM 8. Financial Statements and Supplementary Data**

The information required by this item may be found on pages F-1 through F-31 of this Annual Report on Form 10-K.

---

**ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

Not applicable.

**ITEM 9A. Controls and Procedures**

(a) Evaluation of Disclosure Controls and Procedures

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report pursuant to Rules 13a-15 and 15d-15 of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at a reasonable assurance level in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosures. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of implementing controls and procedures.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter of fiscal 2013 identified in connection with our Chief Executive Officer's and Chief Financial Officer's evaluation that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

(c) Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act as a process designed by, or under the supervision of, our principal executive and principal financial officers, or persons performing similar functions, and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP and includes those policies and procedures that:

Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of TJX;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of TJX are being made only in accordance with authorizations of management and directors of TJX; and

Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of TJX's assets that could have a material effect on the financial statements.

Our internal control system is designed to provide reasonable assurance to our management and Board of Directors regarding the preparation and fair presentation of published financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems designed to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial

reporting as of February 2, 2013 based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ( COSO ). Based on that evaluation, management concluded that its internal control over financial reporting was effective as of February 2, 2013.

(d) Attestation Report of the Independent Registered Public Accounting Firm

PricewaterhouseCoopers LLP, the independent registered public accounting firm that audited and reported on our consolidated financial statements contained herein, has audited the effectiveness of our internal control over financial reporting as of February 2, 2013, and has issued an attestation report on the effectiveness of our internal control over financial reporting included herein.

**ITEM 9B. Other Information**

Not applicable.

## PART III

### ITEM 10. Directors, Executive Officers and Corporate Governance

#### Executive Officers of the Registrant

The following are the executive officers of TJX as of April 2, 2013:

Name	Age	Office and Employment During Last Five Years

Nan Stutz	55	Senior Executive Vice President, Group President, since February 2011. Group President from 2010 to 2011. President, HomeGoods from 2007 to 2010, Executive Vice President, Merchandise and Marketing from 2006 to 2007 and Senior Vice President, Merchandise and Marketing from 2005 to 2006. Various merchandising positions with TJX since 1990.

The executive officers hold office until the next annual meeting of the Board in June 2013 and until their successors are elected and qualified.

TJX will file with the Securities and Exchange Commission a definitive proxy statement no later than 120 days after the close of its fiscal year ended February 2, 2013 (Proxy Statement). The information required by this Item and not given in this Item will appear under the headings Election of Directors and Corporate

Governance, including in Board Committees and Meetings , Audit Committee Report and Section 16(a) Beneficial Ownership Reporting Compliance in our Proxy Statement, which sections are incorporated in this item by reference.

TJX has a Code of Ethics for TJX Executives governing its Chairman, Chief Executive Officer, President, Chief Financial Officer, Principal Accounting Officer and other senior operating, financial and legal executives. The Code of Ethics for TJX Executives is designed to ensure integrity in its financial reports and public disclosures. TJX also has a Code of Conduct and Business Ethics for Directors which promotes honest and ethical conduct, compliance with applicable laws, rules and regulations and the avoidance of conflicts of interest. Both of these codes of conduct are published at [www.tjx.com](http://www.tjx.com). We intend to disclose any future amendments to, or waivers from, the Code of Ethics for TJX Executives or the Code of Business Conduct and Ethics for Directors within four business days of the waiver or amendment through a website posting or by filing a Current Report on Form 8-K with the Securities and Exchange Commission.

**ITEM 11. Executive Compensation**

The information required by this Item will appear under the headings Executive Compensation and Director Compensation in our Proxy Statement, which sections are incorporated in this item by reference.

**ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**

The information required by this Item will appear under the headings Equity Compensation Plan Information and Beneficial Ownership in our Proxy Statement, which sections are incorporated in this item by reference.

**ITEM 13. Certain Relationships and Related Transactions, and Director Independence**

The information required by this Item will appear under the heading Corporate Governance, including in Transactions with Related Persons and Board Independence, in our Proxy Statement, which section is incorporated in this item by reference.

**ITEM 14. Principal Accountant Fees and Services**

The information required by this Item will appear under the heading Audit Committee Report in our Proxy Statement, which section is incorporated in this item by reference.

## PART IV

### ITEM 15. Exhibits, Financial Statement Schedules

#### (a) Financial Statement Schedules

For a list of the consolidated financial information included herein, see Index to the Consolidated Financial Statements on page F-1.

#### Schedule II Valuation and Qualifying Accounts

In thousands	Balance Beginning of Period	Amounts Charged to Net Income	Write-Offs Against Reserve	Balance End of Period
<b>Sales Return Reserve:</b>				
Fiscal Year Ended February 2, 2013	<b>\$ 22,348</b>	<b>\$ 1,603,462</b>	<b>\$ 1,589,192</b>	<b>\$ 36,618</b>
Fiscal Year Ended January 28, 2012	\$ 17,151	\$ 1,387,956
