Proposals

1. Election of Directors

The following information about the business background of each person nominated by the Board has been furnished to the Company by the nominees for director. In connection with the purchase by the Company of Moore Wallace Incorporated (Moore Wallace), Messrs. Pope and Riordan were appointed to the board effective February 27, 2004. In the following descriptions, director service includes service as a director of the Company, Moore Wallace, Moore Corporation Limited (Moore) and Wallace Computer Services, Inc. Each director will serve until the next annual meeting of stockholders or until a successor is elected and qualified, or until such director's earlier resignation, removal, or death.

The names of the nominees, along with their present positions, their principal occupations, current directorships held with other public corporations, as well as directorships during the past five years, their ages and the year first elected as a director, are set forth below. Certain individual qualifications, experiences and skills of our directors that contribute to the Board's effectiveness as a whole are also described below.

Thomas J. Quinlan III

Chief executive officer and president of the Company since April 2007; group president, Global Services of the Company from October 2006 to April 2007; chief financial officer of the Company from April 2006 to October 2007; executive vice president, operations of the Company from February 2004 to October 2006; various capacities at Moore Wallace (and its predecessor, Moore) that included: executive vice president-business integration from May 2003 to February 2004; executive vice president-office of the chief executive from January 2003 until May 2003; and executive vice president and treasurer from December 2000 until December 2002.

Qualifications: Mr. Quinlan's day-to-day leadership as chief executive officer of the Company, as well as his many years of experience in the printing industry in both finance and operations, provides him with deep knowledge of the Company's operations and industry and gives him unique insights into the Company's challenges and opportunities.

The Board recommends that stockholders vote for each of our nominees. Only directors that receive a majority of the votes cast FOR their election will be elected. In the event that an incumbent director is not reelected, the Company's *Principles of Corporate Governance* require that director to promptly tender his or her resignation. The Board will accept this resignation unless it determines that the best interests of the Company and its stockholders would not be best served by doing so.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

If any nominee does not stand for election, proxies voting for that nominee may be voted for a substitute nominee selected by the Board. The Board may also choose to reduce the number of directors to be elected at the meeting.

In 2012, the Board met 9 times. Each director of the Company during 2012 attended at least 75% of the total number of meetings of the Board and those committees of which the director was a member during the period he or she served as a director.

2013 NOTICE OF MEETING AND PROXY STATEMENT

Proposals (continued)**2. Advisory Vote to Approve Executive Compensation**

As required by Section 14A of the Securities Exchange Act of 1934 (the Exchange Act), the Company is presenting a proposal that gives stockholders the opportunity to cast an advisory (non-binding) vote on our executive compensation for named executive officers by voting for or against it. At our 2011 and 2012 Annual Meetings, our stockholders voted to approve (on a non-binding basis) our executive compensation. In addition, at the 2011 Annual Meeting, stockholders were asked to vote on whether the say-on-pay vote should be held annually, every two years or every three years. Our stockholders indicated a preference for holding such a vote on an annual basis. Our Board determined, as a result of such vote on the frequency of the advisory (non-binding) vote to approve our executive compensation, that we will hold an advisory (non-binding) vote to approve our executive compensation every year.

As disclosed in the *Compensation Discussion and Analysis* beginning on page 19, the Company believes that its executive compensation program is reasonable, competitive and strongly focused on pay-for-performance principles. The goals of the Company's executive compensation program are:

- Establish target compensation levels that are competitive within the industries and the markets in which we compete for executive talent;
- Structure compensation so that our executives share in the Company's short- and long-term successes and challenges by varying compensation from target levels based upon business performance;
- Link pay to performance by making a substantial percentage of total executive compensation variable, or at risk, through annual incentive compensation and the granting of long-term incentive awards;
- Base a substantial portion of the Chief Executive Officer's and top two operating executives' long-term incentive award on performance measures while maintaining a meaningful portion that vests over time and is therefore focused on the retention of our top talent; and
- Align a significant portion of executive pay with stockholder interests through equity awards and stock ownership requirements.

Consistent with these goals and as disclosed in the *Compensation Discussion and Analysis*, the Human Resources Committee has developed and approved an executive compensation philosophy to provide a framework for the Company's executive compensation program featuring the following policies and practices:

Base salary is the smallest component of the compensation package and is set for each executive based on his or her level of responsibility in the organization and individual skills, performance and experience.

A short-term incentive program consisting of an annual cash bonus plan that rewards achievement of specific pre-set financial goals and individual performance targets.

A long-term incentive program that is predominantly equity based thereby ensuring alignment with the interests of stockholders.

Overall compensation levels targeted at the market median with a range of opportunity to reward strong performance and withhold rewards when objectives are not achieved.

Stock ownership requirements for executives to strengthen further the alignment of executives and stockholders (and the stock holdings for all of executive officers currently exceed their respective guidelines).

Compensation targets and levels are reviewed against other industrial companies of similar or larger size and scope, since we are significantly larger than all of our direct competitors and our markets for talent are necessarily broader.

Minimal perquisites representing less than .05% of the total compensation package.

No option repricing or option grants below market, and no tax gross-ups on any benefits or perquisites.

The Company has adopted a policy that limits the ability to enter into a future severance arrangement with an executive officer that provides for benefits in an amount that exceeds 2.99 times the executive officer's then current base salary and target bonus, unless such future severance arrangement receives stockholder approval.

To strengthen further the Company's pay-for-performance orientation, performance share units (PSUs) were again granted in 2012 to the CEO and top two operating executives, tied to the Company's performance over the next three years (2012-2014) based on cumulative calculated cash flow.

The Company targets total compensation at the 50th percentile of peer group compensation and in addition, supplements peer group data with market survey data from the Mercer Executive Survey and the Towers Watson CDB General Industry Executive Compensation Survey but will increase or decrease based on company and individual performance.

The Company does not pay or accrue dividends on PSUs or restricted share units (RSUs).

This proposal gives our stockholders the opportunity to express their views on the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement. For the reasons discussed above, we are asking our stockholders to indicate their support for our named executive officer compensation by voting **FOR** the following resolution at the 2013 Annual Meeting:

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

RESOLVED: that the Company's stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission,

including the *Compensation Discussion and Analysis*, the *2012 Summary Compensation Table* and the other related tables and disclosures in this proxy statement.

The say-on-pay vote is an advisory vote only, and therefore it will not bind the Company or our Board of Directors. However, the Board of Directors and the Human Resources Committee will consider the voting results as appropriate when making future decisions regarding executive compensation.

The affirmative vote of the holders of a majority of the shares of the Company's common stock present in person or by proxy at the 2013 Annual Meeting and entitled to vote on the advisory resolution on executive compensation is required to approve the proposal.

The Board of Directors recommends that the stockholders vote FOR the approval of the advisory resolution relating to the compensation of our named executive officers as disclosed in this proxy statement.

3. Ratification of Independent Registered Public Accounting Firm

Proposal 3 is the ratification of the Audit Committee's appointment of Deloitte & Touche LLP as the independent registered public accounting firm to audit the financial statements of the Company for fiscal year 2013. In the event the stockholders fail to ratify the appointment, the Audit Committee will reconsider this appointment. The Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the Company's and its stockholders' best interests. Representatives of Deloitte & Touche LLP will be present at the meeting. They will be available to respond to your questions and may make a statement if they desire.

The affirmative vote of the holders of a majority of the shares of the Company's common stock present in person or by proxy at the 2013 Annual Meeting and entitled to vote on the ratification of the appointment of Deloitte & Touche LLP as independent registered public accounting firm for 2013 is required to approve the proposal.

The Board of Directors and the Audit Committee recommend that the stockholders vote FOR the ratification of the appointment of Deloitte & Touche LLP as independent registered public accounting firm for 2013.

Questions and Answers

About How to Vote Your Proxy

Below are instructions on how to vote, as well as information on your rights as a stockholder as they relate to voting. Some of the instructions vary depending on how your stock is held. It is important to follow the instructions that apply to your situation.

Q. Who can vote?

A. You are entitled to one vote on each proposal for each share of the Company's common stock that you own as of the record date, April 4, 2013.

Q. What is the difference between holding shares as a shareholder of record and a street name holder?

A. If your shares are registered directly in your name through Computershare, the Company's transfer agent, you are considered a shareholder of record. If your shares are held in a brokerage account or bank, you are considered a street name holder.

Q. How do I vote if shares are registered in my name (as shareholder of record) or I am a participant in the RR Donnelley Savings Plan?

A. By Mail: Sign, date and return the enclosed proxy card in the postage paid envelope provided. Your voting instructions must be received by May 23, 2013.

By Telephone or Internet: Call the toll-free number listed on your proxy card or log on to the website listed on your proxy card or scan the QR code on your proxy card and follow the simple instructions provided.

The telephone and Internet voting procedures are designed to allow you to vote your shares and to confirm that your instructions have been properly recorded consistent with applicable law. Please see your proxy card for specific instructions. Stockholders who wish to vote over the Internet should be aware that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, and that there may be some risk a stockholder's vote might not be properly recorded or counted because of an unanticipated electronic malfunction.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

Voting by telephone and the Internet will be closed at 1:00 a.m. Chicago time on the date of the 2013 Annual Meeting, except for shares you vote as a participant in the RR Donnelley Savings Plan.

If you are a participant in the RR Donnelley Savings Plan, any proxy you submit, vote by telephone or over the Internet will be counted as representing those shares in the plan as well as any other shares you may own, as long as the shares are all registered in the same name.

If you are a participant in the RR Donnelley Savings Plan, and you hold units in the RR Donnelley Stock Fund or the TRASOP Fund as of the record date, you have the right to direct The Bank

of New York Mellon as the trustee of the RR Donnelley Savings Plan Master Trust to vote the shares of common stock of the Company represented by those units. Your exercise of this voting right is subject to confidentiality procedures which do not allow your vote to be disclosed to the Company, its affiliates and their employees. If you do not vote these shares, the trustee will vote them, and any unallocated shares held in the Trust, to the extent permitted by law, in the same proportion as those shares in the Trust for which the trustee receives timely voting instructions.

To allow sufficient time for tabulating the vote of these shares, your proxy voting instructions must be received by noon Chicago time on May 20, 2013, or they will be treated as not being voted by you.

Q. How do I vote if my shares are held in street name?

A. You should give instructions to your broker on how to vote your shares. If you do not provide voting instructions to your broker, your broker has discretion to vote those shares on matters that are routine. However, a broker cannot vote shares on non-routine matters without your instructions. This is referred to as a broker non-vote.

The proposal on say-on-pay and the election of directors are considered non-routine matters. Accordingly, your broker will not have the discretion to vote shares as to which you have not provided voting instructions with respect to either of these matters. Ratification of the appointment of the independent registered public accounting firm is considered a routine matter, so there will not be any broker non-votes with respect to that proposal.

Q. Can I vote my shares in person at the Annual Meeting?

A. If you plan to attend the meeting and vote in person your instructions depend on how your shares are held:

Shares registered in your name check the appropriate box on the enclosed proxy card and bring either the admission ticket attached to the proxy card or evidence of your stock ownership with you to the meeting.

Shares registered in the name of your broker or other nominee ask your broker to provide you with a broker's proxy card in your name (which will allow you to vote your shares in person at the meeting) and bring evidence of your stock ownership from your broker with you to the meeting.

Remember that attendance at the meeting will be limited to stockholders as of the record date with an admission ticket or evidence of their share ownership and guests of the Company.

Questions and Answers About How to Vote Your Proxy (continued)

Q. Can I revoke my proxy or change my vote after I have voted?

A. If your shares are registered in your name, you may revoke your proxy at any time before it is exercised. There are several ways you can do this:

- By delivering a written notice of revocation to the Secretary of the Company;
- By executing and delivering another proxy that bears a later date;
- By voting by telephone at a later time;
- By voting over the Internet at a later time; or
- By voting in person at the meeting.

If your shares are held in street name, you must contact your broker to revoke your proxy.

Q. How are votes counted?

A. In tallying the results of the voting, the Company will count all properly executed and unrevoked proxies that have been received in time for the 2013 Annual Meeting. To hold a meeting of stockholders, a quorum of the shares (which is a majority of the shares outstanding and entitled to vote) is required to be represented either in person or by proxy at the meeting. Abstentions and broker non-votes are counted in determining whether a quorum is present for the meeting.

Q. What are my options when voting for directors?

A. When voting to elect directors, you have three options:

- Vote FOR a nominee;
- Vote AGAINST a nominee; or
- ABSTAIN from voting on a nominee.

In the election of directors, each nominee will be elected by the vote of the majority of votes cast. A majority of votes cast means that the number of votes cast FOR a nominee's election must exceed the number of shares voted AGAINST such nominee. Each nominee receiving a majority of votes cast FOR his or her election will be elected. If you elect to ABSTAIN with respect to a nominee for director, the abstention will not impact the election of such nominee.

Election of directors is considered a non-routine matter. Accordingly, broker non-votes will not count as a vote FOR or AGAINST a nominee's election and will not impact the election of such nominee. In tabulating the voting results for the election of directors, only FOR and AGAINST votes are counted.

Q. What are my options when voting on any other proposals?

A. When voting on any other proposal, you have three options:

Vote FOR a given proposal;
Vote AGAINST a given proposal; or
ABSTAIN from voting on a given proposal.

Each of these matters requires the affirmative vote of a majority of the shares present at the meeting and entitled to vote on the proposal. If you indicate on your proxy card that you wish to ABSTAIN from voting on a proposal, your shares will not be voted on that proposal. Abstentions are not counted in determining the number of shares voted for or against any proposal, but will be counted as present and entitled to vote on the proposal. Accordingly, an abstention will have the effect of a vote against the proposal.

Broker non-votes are not counted in determining the number of shares voted for or against any proposal and will not be counted as present and entitled to vote on any proposal.

Q. How will my shares be voted if I return my proxy card with no votes marked?

A. If you return your proxy card with no votes marked, your shares will be voted as follows:

FOR the election of all nominees for director;
FOR the proposal on advisory vote on executive compensation; and
FOR the ratification of the Company's independent registered public accounting firm.

Q. How are proxies solicited and what is the cost?

A. The Company actively solicits proxy participation. In addition to this notice by mail, the Company encourages banks, brokers and other custodian nominees and fiduciaries to supply proxy materials to stockholders, and reimburses them for their expenses. However, the Company does not reimburse its own employees for soliciting proxies. The Company has hired Morrow & Co., LLC, 470 West Ave., Stamford, CT 06902, to help solicit proxies, and has agreed to pay it \$7,500 plus out-of-pocket expenses for this service. All costs of this solicitation will be borne by the Company.

Q. How many shares of stock were outstanding on record date?

A. As of the record date, there were 181,394,661 shares of common stock outstanding. This does not include 61,563,697 shares held in the Company's treasury. Each outstanding share is entitled to one vote on each proposal.

Company Information

The Board's Committees and Their Functions

The Board has three standing committees. The members of those committees and the committees' responsibilities are described below. Each committee operates under a written charter that is reviewed annually and is posted on the Company's web site at the following address: www.rrdonnelley.com. A print copy of each charter is available upon request.

Audit Committee assists the Board in its oversight of (1) the integrity of the Company's financial statements, (2) the qualifications and independence of the Company's independent registered public accounting firm, and (3) the performance of the Company's internal auditing department and the independent registered public accounting firm.

The committee selects, compensates, evaluates and, when appropriate, replaces the Company's independent registered public accounting firm. Pursuant to its charter, the Audit Committee is authorized to obtain advice and assistance from internal or external legal, accounting or other advisors and to retain third-party consultants, and has the authority to engage independent auditors for special audits, reviews and other procedures.

As required by its charter, each member of the Audit Committee is independent of the Company, as such term is defined for purposes of the Nasdaq Stock Market listing rules and the federal securities laws. The Board has determined that each of John C. Pope, chairman of the committee during 2012, Susan M. Cameron, Lee A. Chaden and Richard K. Palmer is an audit committee financial expert as such term is defined under the federal securities laws and the Nasdaq Stock Market listing rules.

The members of the Audit Committee are Ms. Cameron and Messrs. Chaden, Palmer, Pope and Riordan. The committee met 10 times in 2012.

Governance, Responsibility & Technology Committee (1) makes recommendations to the Board regarding nominees for election to the Board and recommends policies governing matters affecting the board, (2) develops and implements governance principles for the Company and the Board, (3) conducts the regular review of the performance of the Board, its committees and its members, (4) oversees the Company's responsibilities to its employees and to the environment, (5) reviews the Company's technology initiatives and (6) recommends director compensation to the Board.

As required by its charter, each member of the Governance, Responsibility & Technology Committee is independent of the Company, as such term is defined for purposes of the Nasdaq Stock Market listing rules and the federal securities laws.

Pursuant to its charter, the Governance, Responsibility & Technology Committee is authorized to obtain advice and assistance from outside advisors and to retain third-party consultants and has the sole authority to approve the terms and conditions under which it engages director search firms.

The members of the Governance, Responsibility & Technology Committee are Ms. Hamilton and Messrs. Crandall and Sockwell. The committee met 5 times in 2012.

Human Resources Committee (1) establishes the Company's overall compensation strategy, (2) establishes the compensation of the Company's chief executive officer, other senior officers and key management employees and (3) adopts amendments to, and approves terminations of, the Company's employee benefit plans.

As required by its charter, each member of the Human Resources Committee is independent of the Company, as such term is defined for purposes of the Nasdaq Stock Market listing rules and the federal securities laws.

Pursuant to its charter, the Human Resources Committee is authorized to obtain advice and assistance from internal or external legal or other advisors and has the sole authority to engage counsel, experts or consultants in matters related to the compensation of the chief executive officer and other executive officers of the Company (with sole authority to approve any such firm's fees and other retention terms). In February 2008, the Human Resources Committee adopted a policy providing that any outside compensation consulting firm used by the Human Resources Committee in connection with the determination of executive officer compensation must be independent of the Company. The independence determination must be made annually and the Human Resources Committee must review

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

and approve, in advance, any engagement of such consultant by the Company for any services other than providing advice to the Committee regarding executive officer compensation. Such policy is now a part of the committee's charter. The Human Resources Committee has engaged Mercer as its executive compensation consultant to provide objective analysis, advice and recommendations in connection with the Human Resources Committee's decision-making process. While Mercer provides limited additional services to the Company, these services have been approved by the Human Resources Committee and the Human Resources Committee has determined that the limited nature and type of these services do not give rise to any conflict of interest.

Management, including the Company's executive officers, develops preliminary recommendations regarding compensation matters with respect to the executive officers other than the chief executive officer for Committee review. The Human Resources Committee then reviews

management's preliminary recommendations and makes final compensation decisions.

The Human Resources Committee, with the assistance of Mercer, has reviewed and evaluated the Company's executive and employee compensation practices and has concluded, based on this review, that any risks associated with such practices are not likely to have a material adverse effect on the Company. This determination took into account the balance of cash and equity payouts, the balance of annual and long-term incentives, use of reasonably attainable performance targets, the payouts to be received at various levels of performance, avoidance of uncapped rewards, multi-year vesting for equity awards, use of stock ownership requirements for senior management, and a rigorous auditing, monitoring and enforcement environment. See *Compensation Discussion and Analysis* beginning on page 19 of this proxy statement for further information regarding executive compensation decisions.

The members of the Human Resources Committee are Ms. Cameron and Messrs. Johnson and Riordan. The committee met 7 times in 2012.

Policy on Attendance at Stockholder Meetings

Directors are expected to attend in person regularly scheduled meetings of stockholders, except when circumstances prevent such attendance. When such circumstances exist and in the judgment of the Chairman it is deemed critical that all directors participate, or in the case of special stockholder meetings, directors may participate by telephone or other electronic means and will be deemed present at such meetings if they can both hear and be heard. All current members of the Board who were members at the time attended the Company's 2012 Annual Meeting in person.

Corporate Governance**Governance Highlights**

The Company has a practice of engaging in dialogue with our major stockholders about various corporate governance topics. Insights we have gained from these discussions over the years have been helpful to the Board and its committees as they consider and adopt policies and other governance initiatives. In recent years the Company has undertaken a number of governance initiatives including:

- Expiration of the shareholders rights plan (poison pill)
- Elimination of classified board
- Elimination of plurality voting
- Elimination of super majority voting
- Amendment of bylaws to allow 10% or greater stockholders to call a special meeting
- Adoption of a policy regarding the independence of compensation consultants (which is now a part of the Human Resources Committee charter)
- Adoption of a severance policy (further described on page 25 of this proxy statement)
- Adoption of Political Activities Disclosure Policy
- Split leadership Non-executive Chairman and Chief Executive Officer
- All independent directors except for the CEO
- Director retirement age of 72
- Board compensation heavily weighted toward equity

Principles of Corporate Governance

The Board has adopted a set of *Principles of Corporate Governance* to provide guidelines for the Company and the Board to ensure effective corporate governance. The *Principles of Corporate Governance* cover topics including, but not limited to, director qualification standards, Board and committee composition, director access to management and independent advisors, director orientation and continuing education, director retirement age, succession planning and the annual evaluations of the Board and its committees.

The Governance, Responsibility & Technology Committee is responsible for overseeing and reviewing the *Principles of Corporate Governance* and recommending to the Board any changes to those principles. The full text of the *Principles of Corporate Governance* is available through the Corporate Governance link on the Investors page of the Company's web site at the following address: www.rrdonnelley.com and a print copy is available upon request.

Code of Ethics

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

The Company maintains a *Principles of Ethical Business Conduct* and the policies referred to therein which are applicable to all directors and employees of the Company. In addition, the Company has adopted a *Code of Ethics* that applies to the chief executive officer and senior financial officers. The *Principles of Ethical Business Conduct* and the *Code of Ethics* cover all areas of professional conduct, including, but not limited to, conflicts of interest, disclosure obligations, insider trading and confidential information, as well as compliance with all laws, rules and regulations applicable to our business. The Company encourages all employees, officers and directors to promptly report any violations of any of the Company's policies. In the event that an amendment to, or a waiver from, a provision of the *Code of Ethics* is necessary, the Company intends to post such information on its web site. The full text of each of the *Principles of Ethical Business Conduct* and our *Code of Ethics* is available through the Corporate Governance link on the Investors page of the Company's web site at the following address: www.rrdonnelley.com and a print copy is available upon request.

Independence of Directors

The Company's *Principles of Corporate Governance* provide that the Board must be composed of a majority of independent directors. No director qualifies as independent unless the Board affirmatively determines that the director has no relationship which, in the opinion

Company Information (continued)

of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board has determined that Messrs. Chaden, Crandall, Johnson, Palmer, Pope, Riordan, Sockwell and Wolf and Ms. Cameron and Hamilton are independent in accordance with Nasdaq Stock Market requirements. The Board took into account all relevant facts and circumstances in making this determination.

Executive Sessions

The Company's independent directors meet regularly in executive sessions without management. Executive sessions are led by Stephen M. Wolf, the chairman of the Board. An executive session is held in conjunction with each regularly scheduled Board meeting. Each committee of the Board also meets in executive session without management in conjunction with each regularly scheduled committee meeting.

Board Leadership

The Board has determined that having an independent director serve as chairman of the Board is in the best interest of stockholders at this time. The structure ensures a greater role for the independent directors in the oversight of the Company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the work of the Board. No single leadership model is right for all companies and at all times, however, the Board conducts an annual evaluation in order to determine whether it and its committees are functioning effectively and recognizes that, depending on the circumstances, other leadership models might be appropriate. Accordingly, the Board periodically reviews its leadership structure.

Board's Role in Risk Oversight

The Board is actively involved in oversight of risks inherent in the operation of the Company's businesses and the implementation of its strategic plan. The Board performs this oversight role by using several different levels of review. In connection with its reviews of the operations of the Company's business units and corporate functions, the Board addresses the primary risks associated with those units and functions. In addition, the Board reviews the key risks associated with the Company's strategic plan annually and periodically throughout the year as part of its consideration of the strategic direction of the Company.

The Board has delegated to the Audit Committee oversight of the Company's risk management process. Among its duties, the Audit Committee reviews with management (a) Company policies with respect to risk assessment and management of risks that may be material to the Company, (b) the Company's system of disclosure controls and system of internal controls over financial reporting, and (c) the Company's compliance with legal and regulatory requirements.

Each of the other Board committees also oversees the management of Company risks that fall within the committee's areas of responsibility. In performing this function, each committee has full access to management, as well as the ability to engage advisors, and each commit-

tee reports back to the full Board. The Audit Committee oversees risks related to the Company's financial statements, the financial reporting process, other financial matters, certain compliance issues and accounting and legal matters. The Audit Committee, along with the Governance, Responsibility & Technology Committee, is also responsible for reviewing certain major legislative and regulatory developments that could materially impact the Company's contingent liabilities and risks. The Governance, Responsibility & Technology Committee also oversees risks related to the Company's governance structure and processes, related person transactions, certain compliance issues and Board and committee structure to ensure appropriate oversight of risk. The Human Resources Committee considers risks related to the attraction and retention of key management and employees and risks relating to the design of compensation programs and arrangements, as well as developmental and succession planning for possible successors to the position of chief executive officer and planning for other key senior management positions.

Nomination of Directors

It is the policy of the Governance, Responsibility & Technology Committee to consider candidates for director recommended by stockholders. In order to recommend a candidate, stockholders must submit the individual's name and qualifications in writing to the committee (in care of the Secretary at the Company's principal executive offices at 111 South Wacker Drive, Chicago, Illinois 60606) and otherwise in accordance with the procedures outlined under *Submitting Stockholder Proposals and Nominations for 2014 Annual Meeting* on page 47 of this proxy statement. The committee evaluates candidates recommended for director by stockholders in the same way that it evaluates any other candidate.

In addition to nominees recommended by stockholders, the committee also considers candidates recommended by management and members of the Board.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

In identifying and evaluating nominees for director, the committee takes into account the applicable requirements for directors under the Securities Exchange Act of 1934, as amended, and the listing rules of the Nasdaq Stock Market. In addition, the committee considers other criteria as it deems appropriate and which may vary over time depending on the Board's needs, including certain core competencies and other criteria such as the personal and professional qualities, experience and education of the nominees, as well as the mix of skills and experience on the Board prior to and after the addition of the nominees. Although not part of any formal policy, the goal of the committee is a balanced and diverse Board, with members whose skills, viewpoint, background and experience complement each other and, together, contribute to the Board's effectiveness as a whole.

The Governance, Responsibility & Technology Committee from time to time has engaged third-party search firms to identify candidates for director, and has used search firms to do preliminary interviews and

background and reference reviews of prospective candidates. Mr. Palmer was identified as a candidate for director by one of our directors. A third-party search firm assisted with the interview process and the Governance, Responsibility & Technology Committee thereafter recommended Mr. Palmer to the Board as a nominee.

Communications with the Board of Directors

The Board has established procedures for stockholders and other interested parties to communicate with the Board. A stockholder or other interested party may contact the Board by writing to the chairman of the Governance, Responsibility & Technology Committee or the other non-management members of the Board to their attention at the Company's principal executive offices at 111 South Wacker Drive, Chicago, Illinois 60606. Any stockholder must include the number

of shares of the Company's common stock he or she holds and any interested party must detail his or her relationship with the Company in any communication to the Board. Communications received in writing are distributed to the chairman of the Governance, Responsibility & Technology Committee or non-management directors of the Board as a group, as appropriate, unless such communications are considered, in the reasonable judgment of the Company's Secretary, improper for submission to the intended recipient(s). Examples of communications that would be considered improper for submission, include, without limitation, customer complaints, solicitations, communications that do not relate directly or indirectly to the Company or the Company's business or communications that relate to improper or irrelevant topics.

Compensation Discussion & Analysis

Program Summary and 2012 Financial Highlights

The executive compensation program at RR Donnelley is designed to strike an appropriate balance between rewarding our executives for strong performance, ensuring long-term Company success, balancing stockholder interests and encouraging our executive talent to remain with the Company. Key features of the program include:

Pay-For-Performance

Base Salary Smallest component of the compensation package; set for each executive based on level of responsibility in the organization and individual skills, performance and experience

Short-Term Incentive Program Annual cash bonus plan; designated as the Managing by Objective (MBO) Plan that rewards achievement of specific pre-set financial goals and individual performance targets

Long-Term Incentive Program Predominantly equity based program thereby ensuring alignment with stockholders; includes long-term cash incentive awards granted in 2012

Overall compensation levels targeted at the market median with a range of opportunity to reward strong performance and withhold rewards when objectives are not achieved

Stock ownership requirements for executives to strengthen further the alignment of executives and stockholders (and the stock holdings for all of our executive officers currently exceed their respective guidelines)

Compensation targets and levels are reviewed against other industrial companies of similar or larger size and scope, since we are significantly larger than all of our direct competitors and our markets for talent are necessarily broader

Compensation Components

Listed below is the compensation package breakout for the executives, defined as:

Mr. Quinlan, the Chief Executive Officer (CEO)

Messrs. Paloian and Knotts, the Operating Executives

Ms. Bettman, Mr. Coxhead and Mr. Leib, the Staff Executives and

Together, the CEO, Operating Executives and Staff Executives are the NEOs

	CEO	Operating Executives	Staff Executives
Base Salary	15%	16%	29%
Short-Term Incentive Compensation	22%	24%	39%
Long-Term Incentive Compensation	63%	60%	32%

A short-term incentive program that requires the achievement of a meaningful financial threshold (non-GAAP EPS in 2012) before any incentives are paid
Performance share units (PSUs) that require the achievement of a meaningful financial threshold (Cumulative Calculated Cash Flow for 2012-2014) before any shares are earned

Minimal perquisites representing less than .05% of the total compensation package

Good Compensation Practices

The Company has adopted a policy that limits the ability to enter into a future severance arrangement with an Executive Officer that provides for benefits in an amount that exceeds 2.99 times the Executive Officer's then current base salary and target bonus, unless such future severance arrangement receives stockholder approval

To strengthen further the Company's pay for performance orientation, PSUs were again granted in 2012; for 2012-2014, the PSUs are tied to the Company's performance over a three-year period based on Cumulative Calculated Cash Flow

The Company's equity plans do not permit option repricing or option grants below market and we do not provide tax gross-ups on any benefits or perquisites
The Company targets total compensation at the 50th percentile of peer group compensation, but will increase or decrease based on company and individual performance. Additionally, the Company supplements peer group data with market survey data from the Mercer Executive Survey and the Towers Watson

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

The Company does not pay or accrue dividends on PSUs or RSUs

Operating Highlights

Despite a challenging economic and operating environment in 2012, RR Donnelley produced solid operating results:

Generated free cash flow of \$486 million

Reduced debt by \$222 million

Successful acquisition and integration of EDGAR Online, Express Postal Options International, Meisel Photographic Corporation and Pre-Sort Solutions

The HR Committee, in reviewing 2012 results, made the determination that year to date performance did not merit the receipt of MBO bonus awards. As a result, and consistent with our pay for performance philosophy, no bonuses were paid under the MBO plan to any employee, including the CEO and the other NEOs.

2012 Say-on-Pay Vote

The Company received an 84.7% vote in support of its executive compensation program in the 2012 Say-on-Pay advisory vote (the Advisory Vote). During the course of 2012, the Company continued its practice of engaging with its major shareholders about various

corporate governance topics including executive compensation. Meetings were held with institutional investors representing, at that time, over 30% of our outstanding shares, to gather additional feedback on our compensation programs.

Overall, the feedback received, along with the results of the Advisory Vote, were taken into consideration by the Human Resources Committee in the review and administration of our program throughout the year. Among the actions that occurred:

Consistent with our strong pay-for-performance culture, no bonuses were awarded from our MBO Plan
Only one of our NEOs received a base pay increase in 2012; our CEO's last salary increase was in 2008
The proportion of Performance Share Units granted to the CEO, as a percent of his total long-term incentive package, increased and, when combined with option grants, his long-term incentive package is over 72% performance-based
Overall, we believe the 2012 compensation decisions and the overall executive compensation program are tailored to our business strategies, align pay with performance, and are consistent with the priorities of our major investors.

Overview

RR Donnelley is a global provider of integrated communications. As the leader in our industry, the following are key considerations for our executive compensation strategy:

RR Donnelley operates on a global scale which is more extensive and complex than any other company in the printing industry. We will continue to strive to gain scale and to add new capabilities and technologies in the coming years, further distancing the Company from the rest of the industry. Achieving these goals requires a highly talented and motivated executive team. Also, given our prominence in the industry, many of our executives are potential candidates for senior leadership roles at other companies both in and outside our industry. Our overall executive compensation program is designed to be competitive with industrial companies with revenues close to those of RR Donnelley.

Guiding Principles

RR Donnelley's executive compensation programs have been designed to provide a total compensation package that will enable the Company to attract, retain and motivate executives who are capable of discharging responsibilities in a Company larger than its present size, thus ensuring leadership continuity for a Company of our size and complexity.

In designing our executive compensation program, we are guided by five principles:

Establish target compensation levels that are competitive within the industries and the markets in which we compete for executive talent;
Structure compensation so that our executives share in RR Donnelley's short and long term successes and challenges by varying compensation from target levels based upon business performance;
Link pay-to-performance by making a substantial percentage of total executive compensation variable, or at risk, through annual incentive compensation and the granting of long-term incentive awards;
Base a substantial portion of the CEO and Operating Executives' long term incentive award on performance measures while maintaining a meaningful portion that vests over time and is therefore focused on the retention of our top talent; and
Align a significant portion of executive pay with stockholder interests through equity awards and stock ownership requirements.

The key components of our compensation program for executive officers are:

Component	Rationale	Determining Factors
Base Salary	Compensate for roles and responsibilities	Level of responsibility
	Stable compensation element	Individual skills, experience and performance
		Market data
Short-term incentive program	Annual cash bonus plan known as the MBO Plan	For 2012, non-GAAP Earnings Per Share (EPS) was the financial goal for the MBO plan and the only goal for the CEO and Operating Executives
	Reward achievement of specific, pre-set annual financial results and individual performance	EPS and individual performance goals were set for the Staff Executives
	Awards subject to a maximum payout which ranges from 0% to 125% of target	
Long-term incentive program	Link awards to Company performance and increases linkage to stockholder value	Performance Based
	Aids with retention	PSUs tied to financial measures
		PSU awards can pay out at a range from 0% to 100% of target with no shares earned for performance below 75% of target
		Time Vesting
		Stock options
		Restricted stock units
Other benefits	Provide basic, competitive benefits including:	Level in the organization
	Broad-based benefits	
	Select supplemental benefits	

Minimal perquisites

The Committee annually reviews our executive compensation program to determine how well actual compensation targets and levels meet our overall philosophy and executive compensation in our targeted market. The primary focus of this process is on industrial companies of similar or larger size and scope (target market) rather than companies in our industry, since we are significantly larger than all of our direct competitors and our talent needs are necessarily broader.

Our programs are overseen by the Committee. The role of the Committee, as well as the role of management and the Committee s

outside advisor, is described later.

For 2012, the Company used a peer group of 18 industrial companies, as classified by *Fortune* , with median revenues close to \$10 billion, similar to RR Donnelley; all the peer companies have revenues between 0.5x and 2.0x those of RR Donnelley. These companies were:

Air Products & Chemicals	Huntsman	Parker Hannifin
Ashland	Masco	Praxair
Crown Holdings	Navistar	Reynolds American
Danaher	Nucor	Texas Instruments
Genuine Parts	Oshkosh	Thermo Fisher Scientific
Heinz	Paccar	US Steel

Compensation Discussion & Analysis (continued)

We recognize that RRD revenue can vary year over year due to numerous factors and therefore our comparison companies may shift from year to year in order to utilize companies with revenues that are generally close to that of RR Donnelley. Market value can also vary significantly year-over-year, and our market value is currently at the low end of the group.

Based on its assessment of these data elements, each year the Committee determines whether the overall executive compensation program is consistent with our business strategy and objectives and promotes RR Donnelley's compensation philosophy. In general, compensation levels for our NEOs are targeted at the 50th percentile of the peer group. In addition, for comparison purposes, peer group data are supplemented with market survey data from the Mercer Executive Survey and the Towers Watson CDB General Industry Executive Compensation Survey. This 50th percentile targeted level provides a total competitive anchor point for our program. Actual

compensation levels can vary significantly up or down from targeted levels based on the performance of both the Company and the individual.

The compensation program for our NEOs and other key executives is primarily focused on incentive compensation. In addition, the heaviest weighting is on long-term incentive compensation. The average mix of fixed versus variable and/or equity compensation at target for our NEOs is as follows:

2012 Total Compensation Mix

Table of Contents

2013 NOTICE OF MEETING AND PROXY STATEMENT

Compensation Discussion & Analysis (continued)

The guiding principles and structure of our program are applied consistently to all NEOs. Any differences in compensation levels that exist among our NEOs are primarily due to differences in market practices for similar positions, the responsibility, scope and complexity of the NEO's role in the Company, factors related to a newly hired or promoted NEO and/or the performance of individual NEOs.

Base Salary

Base salary is designed to compensate our NEOs for their roles and responsibilities and, in addition, provide a stable and fixed level of compensation. The Company has agreements with each NEO that provide a minimum base salary. These initial base salaries were set considering:

- 1) each executive's role and responsibilities at the time he or she joined the Company or the agreements were negotiated,
- 2) the skills and future potential of the individual with the Company and
- 3) salary levels for similar positions in our target market.

Annually, the Committee reviews the base salaries of each NEO. Adjustments are made based on individual performance, changes in roles and responsibilities, external market data and peer group data for similar positions. Salaries are targeted at the 50th percentile of similar positions in the target market and peer group.

In general, base salary is the smallest component of the overall compensation package, assuming that the Company is achieving or exceeding targeted performance levels for its incentive programs. On average, it currently represents less than 20% of the total compensation package for our NEOs. This is consistent with our philosophy to have a higher weighting of variable compensation versus fixed compensation. After consideration of all the above factors including market practices, as well as expected economic conditions, the Committee decided to make no changes to base salary for any NEOs in 2012, other than Ms. Bettman. Ms. Bettman was given a \$25,000 increase to bring her base salary more in line with market survey comparables.

Short-Term Incentive Program

We provide annual incentive awards under our Management by Objective Plan (MBO Plan) in the form of cash. These short-term cash incentives are designed to reward the achievement of specific, pre-set financial goals and individual performance targets measured over the fiscal year for which that compensation is paid. MBO targets for the NEOs are 150% of base salary except for Mr. Coxhead who has an MBO target of 100%. On average, and assuming performance is on target, as shown on page 22, these awards currently represent between 22% and 24% of the total compensation package for the CEO and Operating Executives and approximately 39% of the total compensation package for the Staff Executives.

The MBO Plan for 2012 was structured so that it begins to fund at 10% for every 1% above 90% achievement of the corporate financial target and scales up to a maximum payout of 125% of the MBO target if company performance reaches 110% achievement of the corporate financial target. In 2012, Company-wide performance was measured using non-GAAP earnings per share. The target level of non-GAAP earnings per share for 2012 was set at \$1.96 and therefore the minimum performance threshold was non-GAAP EPS of \$1.76. This performance level was set by the Committee at the beginning of the year after thorough discussion with management regarding the Company's planned performance, and was intended to be a challenging goal.

The actual individual awards to the CEO and Operating Executives are based 100% on the achievement of the corporate financial target. Awards to the Staff Executives are based not only on performance against the corporate financial target as described above, but also on each executive's performance against specific individual objectives. These specific individual objectives were reviewed and approved by the CEO, and can vary from year-to-year depending upon key business objectives and areas of emphasis for each executive.

If the performance target or targets for the year are achieved, each executive may receive a bonus up to the maximum amount established by the MBO plan and each NEO's individual target. The CEO has a discussion with the Committee on the payouts for the Staff and Operating Executives, including a discussion on performance against individual objectives. Final bonus determinations for these executives are based on the Committee's overall view of each NEO's performance against their individual targets.

Given the vagaries of the marketplace and the possibility of unforeseen developments, the Committee has discretionary authority to adjust awards and performance targets, prior to the end of the plan year, to reflect actual performance in light of such developments but never in excess of the maximum bonus amount established by the Committee. No adjustments to MBO plan financial performance targets may be made after the end of the plan year.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

The print and related services industry continues to face difficult economic challenges. Technological changes, electronic substitution, postal costs, advertising and consumer spending as well as volatility, sustainability and consolidation related to raw materials all impact the Company's overall operating results.

Prior to year end 2012, the HR Committee, following management's recommendation, made the determination that year to date performance did not merit the receipt of MBO bonus awards. Thus, no bonuses were paid.

Long-Term Incentive Program

Overview

Our long-term incentive program is used to link Company performance and stockholder value to the total compensation for our NEOs. Long-term awards are key components of our ability to attract and retain our NEOs. The annualized value of the awards to our NEOs is intended to be a substantial component of their overall compensation package. On average, these awards currently represent approximately 60% to 63% of the total compensation package for the CEO and Operating Executives and approximately 32% of the total compensation package for the Staff Executives, consistent with our emphasis on linking executive pay to stockholder value.

Components of the Long-Term Incentive Program:

Stock Options:

Granted with an exercise price not less than the market price of the Company's common stock on the grant date
Option re-pricing is expressly prohibited by our stockholder-approved plan
Generally vest over a period of four years with 25% becoming exercisable on each anniversary of the grant date as long as the recipient is still employed by the Company on the date of vesting, and generally expire after ten years
Only have value if there is an appreciation in stock price during the option exercise period

Performance Share Units:

Based on the achievement of pre-set financial targets generally over a period of three years
Awards may be in cash, shares or a combination
Granted only to the CEO and Operating Executives
Do not accrue dividends on unvested units

Restricted Stock Units (RSUs):

Equivalent in value to one share of the Company's common stock and are settled in stock if the recipient is still employed by the Company on the date of vesting
Generally vest in equal amounts over four years
Strong retention value
Do not accrue dividends on unvested units

Deferred Cash:

Typically cliff vest in two or four years
Strong retention value
Granted only to Operating Executives

With the introduction of Deferred Cash for the Operating Executives, the Committee revised the mix of long-term incentive awards for the Operating Executives as follows:

2012 LTI Award Mix

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

	Stock			Deferred
	Options	PSUs	RSUs	Cash
NEOs				
CEO (Quinlan)	25%	47%	28%	
Operating Executives				
Paloian	8%	22%	41%	29%
Knotts	8%	22%	43%	27%
Staff Executives (Bettman, Leib, Coxhead)			100%	

Specific Program for 2012

Our stockholder-approved incentive plans allow for the Committee to grant performance share units, restricted stock, restricted stock units and stock options to any eligible employee. In addition, the Plan permits delegation of the Committee's authority to grant equity to employees other than NEOs in certain circumstances and the Committee has delegated such authority to the CEO over a small number of stock option awards to non-executive officers.

For 2012, the Committee had a series of discussions regarding the most appropriate way to motivate and retain its top operating executives in light of continuing economic uncertainty. The Committee felt it was important that the Company's senior operating team have a continued focus on producing strong operating results while facing ongoing difficult economic conditions.

The Committee also believed it was important to continue to use equity vehicles to provide alignment with stockholders and thought it

was important to emphasize further long-term performance by moving to the use of performance share units for the CEO and the Operating Executives. The PSUs will be earned based on the Company's performance for fiscal years 2012-2014 relative to specific levels of Cumulative Cash Flow, defined as adjusted EBITDA less capital expenditures plus or minus the change in controllable working capital over this three-year period. Adjusted EBITDA is defined as non-GAAP net earnings before interest, taxes, depreciation and amortization, excluding 1) pension and other postretirement benefits expense, 2) stock-based compensation expense and 3) LIFO inventory provisions or benefits. Controllable working capital is defined as accounts receivable plus inventories less accounts payable.

The PSUs have a minimum target that must be achieved in order for any PSUs to vest and be paid out. The maximum payout that can be received is the target of 100%. The target was intended to be challenging but yet achievable.

Compensation Discussion & Analysis (continued)

Consistent with our current philosophy, no changes were made to the 2012 program for the CEO or the Staff Executives. The total value of the awards to each NEO was determined by using both market survey and peer group data. Overall, the Committee believes that this mix of awards will serve to focus attention on building stockholder value over the long-term, driving future business results, and helping to retain the executives.

Benefits

Our benefit programs are established based upon an assessment of competitive market factors and a determination of what is needed to retain high-caliber executives. RR Donnelley's primary benefits for executives include participation in the Company's broad-based plans at the same costs as other employees. These plans include: retirement plans, savings plans, the Company's health and dental plans and various insurance plans, including disability and life insurance.

RR Donnelley also provides certain executives, including the NEOs, the following benefits:

Supplemental Retirement and Savings: The Company provides supplemental retirement and savings plans to eligible executives described under *Pension Benefits* beginning on page 34 of this proxy statement. These supplemental plans take into account compensation levels limited by current tax laws, and are similar to programs found at many of the companies we compete with for talent. This benefit is available to all highly paid executives including our NEOs. Approximately 743 (active and inactive) employees are covered by these plans. RR Donnelley froze the Pension Plans as of December 31, 2011. Therefore, no additional benefits will accrue under these plans or the related Supplemental Retirement Plans.

Supplemental Insurance: Additional life and disability insurance is provided for NEOs, enhancing the value of the overall compensation program. The premium cost for these additional benefits is included as income for the NEO and there is no tax gross up on this benefit.

Deferred Compensation Plan: The Company provides executives the opportunity to defer receiving income and therefore defer taxation on that income, until either a number of years chosen by the executive or termination of employment. Deferral programs are very common in the marketplace and add to the attractiveness of our overall compensation program. The Company's deferred compensation plan is described under *Nonqualified Deferred Compensation* beginning on page 35 of this proxy statement.

Financial Counseling: The Company pays for financial counseling services, to a maximum of \$12,000 per year, to provide the NEOs with access to an independent financial advisor of their choice. The cost of these services, if utilized, is included as income for the NEO and there is no tax gross up on this benefit.

Automobile Program: NEOs are provided with a monthly automobile allowance. This benefit provides eligible executives with an opportunity to use their car for both business and personal use in an efficient manner.

Company Airplane: The Company has two fractional ownership interests in private planes. No personal airplane travel occurred in 2012.

Stock Ownership Guidelines

The Committee has established stock ownership guidelines at the SVP level and above in the Company. These guidelines are designed to encourage our executives to have a meaningful equity ownership in the Company, and thereby link their interests with those of our stockholders. These stock ownership guidelines provide that, within three years of becoming an executive, each executive must own (by way of shares owned outright, shares owned through our 401(k) plans and shares of unvested restricted stock and unvested restricted stock units, but not including unexercised stock options or performance share units) shares of our common stock with a value of either one times their base salary, three times their base salary for the Operating and Staff Executives, or five times base salary for the CEO. In the event an executive officer does not achieve or make progress toward the required stock ownership level, depending upon the circumstance, the Committee has the discretion to take appropriate action. As of March 2013, all of the NEOs have met and exceeded their ownership guidelines.

Post-Termination Benefits

The Committee believes that severance benefits and change of control benefits are necessary in order to attract and retain the caliber and quality of executives that RR Donnelley needs in its most senior positions. These benefits are particularly important in an industry undergoing consolidation, providing for continuity of senior management and helping executives focus on results and strategic initiatives. The levels of payments and benefits available upon termination were set to be comparable to those in our previously mentioned peer group.

Each of our NEOs, including our CEO, has an agreement that provides for severance payments and benefits if termination occurs without cause or if the executive leaves for good reason. There is also additional compensation provided for the CEO and Operating Executives in circumstances following such termination after a Change in Control, as defined in the agreements. Payment of such compensation however, does require a double trigger in order to payout.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

The Company has adopted a policy that limits the ability to enter into a future severance arrangement with an executive officer that provides for benefits in an amount that exceeds 2.99 times the executive officer's then current base salary and target bonus, unless such future severance arrangement receives stockholder approval.

Additional information regarding the severance and change in control payments, including a definition of key terms and a quantification of

benefits that would have been received by our NEOs had termination occurred on December 31, 2012, is found under *Potential Payments upon Termination or Change in Control* beginning on page 36 of this proxy statement.

Tax Deductibility Policy

The Committee considers the deductibility of compensation for federal income tax purposes in the design of RR Donnelley's programs. While we generally seek to ensure the deductibility of the incentive compensation paid to our NEOs, the Committee intends to retain the flexibility necessary to provide cash and equity compensation in line with competitive practice, our compensation philosophy, and the best interests of our stockholders even if these amounts are not fully tax deductible.

Operation of the Human Resources Committee

The Human Resources Committee of the Board oversees the development and administration of our compensation and benefits policies and programs. The Committee establishes and monitors the overall compensation strategy to ensure that executive compensation supports the Company's business objectives. In carrying out its responsibilities, the Committee, with assistance from its consultant, Mercer, reviews and determines the compensation (including salary, annual incentive, long-term incentives and other benefits) of the Company's executive officers, including all NEOs.

For a more complete description of the responsibilities of the Human Resources Committee, see *The Board's Committees and Their Functions* beginning on page 13 of this proxy statement, and the charter of the Human Resources Committee posted on RR Donnelley's website at www.rrdonnelley.com.

Role of Compensation Consultant

The Human Resources Committee retained Mercer as its outside compensation consultant to advise the Committee on executive compensation matters. During 2012, Mercer regularly attended Committee meetings, and reported directly to the Committee on matters relating to compensation for the executive officers.

During 2012, the Committee requested that Mercer:

- Conduct an analysis of compensation for our NEOs and assess how target and actual compensation aligned with the Company's philosophy and objectives;
- Review the design of the Company's short-term cash incentive program;
- Develop recommendations for the Committee on the size and structure of long-term incentive awards for our executive officers;
- Assist in our request to stockholders for additional shares for our equity plan;
- Provide perspectives on the overall compensation package for the CEO;
- Assist the Committee in the review of this proxy statement and CD&A;
- Assist the Committee in the review of tally sheets; and
- Provide the Committee ongoing advice and counsel on market compensation trends and legislative and regulatory changes and their impact on RR Donnelley's executive compensation programs.

Role of Company Management

RR Donnelley management, including the CEO, develops preliminary recommendations regarding compensation matters with respect to all NEOs and provides these recommendations to the Committee, which makes the final decisions, with advice from Mercer, as appropriate. The management team is responsible for the administration of the compensation programs once Committee decisions are finalized.

Human Resources Committee Report

The Human Resources Committee of the Board of Directors of R.R. Donnelley & Sons Company oversees R.R. Donnelley & Sons Company's compensation program on behalf of the Board. In fulfilling its oversight responsibilities, the Human Resources Committee reviewed and discussed with management the Compensation Discussion and Analysis set forth in this proxy statement.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

In reliance on the review and discussions referred to above, the Human Resources Committee recommended to the Board that the Compensation Discussion and Analysis be incorporated in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012, and the Company's proxy statement to be filed in connection with the Company's 2013 Annual Meeting of Stockholders.

Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For further information on these awards, see the *Outstanding Equity Awards at Fiscal Year-End* table beginning on page 32 of this proxy statement.
- 4 The amounts shown in this column constitute payments made under our MBO Plan, which is a subplan of the 2004 PIP. At the outset of each year, the Human Resources Committee sets performance criteria that are used to determine whether and to what extent the NEOs will receive payments under the MBO Plan. See *Compensation Discussion and Analysis* beginning on page 19 of this proxy statement. For 2012, the Human Resources Committee made the determination that year to date performance did not merit the receipt of MBO bonus awards. Thus, no bonuses were paid for 2012.
- 5 The amounts shown in this column include the aggregate of the increase in actuarial values of each of the named executive officer's benefits under our Pension Plans and Supplemental Pension Plans.
- 6 Amounts in this column include matching contributions of \$6,000 made by the Company on behalf of each of the NEOs to the 401(k) Savings Plan pursuant to the terms of the plan. Mr. Quinlan's amount also includes interest of \$7,462 (calculated at the prime interest rate) that was contributed by the Company in 2012 to Mr. Quinlan's related 401(k) Supplemental Executive Retirement Plan-B account.

- In each case, the amount actually earned by each NEO was \$0, as reported as Non-Equity Incentive Plan Compensation in the 2012 Summary Compensation Table.
- Consists of performance stock units awarded under the 2004 PIP. Each PSU is equivalent to one share of the Company's common stock on the date of grant. The PSUs are earned for achieving specified calculated cash flow targets over a three-year performance period beginning January 1, 2012 and ending December 31, 2014. The minimum target must be reached in order for the holder to be entitled to receive any PSUs. From 50% to up to 100% of the number of PSUs granted may be earned depending upon performance versus specified target levels. After the performance period, the earned PSUs will be paid in stock or cash at the discretion of the Human Resources Committee. If paid in cash, the cash value for each PSU will be equal to the fair market value of one share of the Company's common stock on the payment date. If employment is terminated by the Company without cause or by the NEO for good reason (each as defined in the NEO's employment agreement), the PSUs will vest and be payable, if at all, on the same terms and conditions that would have applied had such NEO's employment not been terminated (i.e., performance measured on December 31, 2014). If employment terminates by reason of death or disability, 50% of any unvested PSUs will vest and become payable, assuming the attainment of target performance or, if greater, based on actual performance through the date of death or determination of disability. In the event of a change in control (as defined in the 2004 PIP), all of the PSUs will vest and be payable at mid-performance (75%) or, if greater, based on actual performance through the Acceleration Date (as defined in the 2004 PIP).
- Consists of restricted stock units awarded under the 2004 PIP. The awards vest one-fourth on each of the first through fourth anniversaries of the grant date. If employment terminates by reason of death or disability, the unvested portion of the RSUs shall become fully vested. If employment terminates by reason of

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

- retirement, the unvested portion of the RSUs shall continue to vest as granted (one-fourth on each anniversary of the grant date). If employment terminates other than for death, disability or retirement, the unvested portion of the RSUs will be forfeited. NEO employment agreements provide for accelerated vesting of equity awards under certain circumstances. See *Potential Payments Upon Termination or Change in Control* beginning on page 36 of this proxy statement.
- 4 Consists of stock options awarded under the 2004 PIP. The awards vest one-fourth on each of the first through fourth anniversaries of the grant date and expire on the tenth anniversary of the grant date. If employment terminates by reason of death or disability, the unvested portion of the option shall become fully vested and be exercisable for a one-year period from the date of disability or death. If employment terminates by reason of retirement, the unvested portion of the option shall continue to vest as granted (one-fourth on each anniversary of the grant date) and be exercisable for a five-year period from the date of retirement. If employment terminates other than for death, disability or retirement, the unvested portion of the option will be forfeited and the vested portion shall be exercisable for a 90-day period from the date of termination. In the event of a change in control (as defined in the 2004 PIP), the option will fully vest and be exercisable until the expiration date. NEO employment agreements provide for accelerated vesting of equity awards under certain circumstances. See *Potential Payments Upon Termination or Change in Control* beginning on page 36 of this proxy statement.
- 5 Grant date fair value with respect to the restricted stock units and performance stock units is determined in accordance with ASC Topic 718. Grant date fair value with respect to the options is determined using the Black-Scholes-Merton option pricing model to in accordance with ASC Topic 718. See Note 17 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the relevant assumptions used in calculating grant date fair value pursuant to ASC Topic 718. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions.

2013 NOTICE OF MEETING AND PROXY STATEMENT

Executive Compensation (continued)**Narrative to Summary Compensation Table and Grants of Plan-Based Awards Table****Employment Agreements**

During 2012, all of the NEOs were employed pursuant to agreements with the Company. Each employment agreement sets forth, among other things, the NEO's minimum base salary, bonus opportunities, entitlement to participate in our benefit plans, equity awards and provisions with respect to certain payments and other benefits upon termination of employment under certain circumstances (such as without Cause or leaving employment for Good Reason, as defined in the agreements) or, in certain agreements, after a change in control of the Company. Please see *Potential Payments Upon Termination or Change in Control* beginning on page 36 of this proxy statement for a description of such provisions.

The minimum base salary set forth in each NEO's employment agreement is: Mr. Quinlan, \$1,000,000; Ms. Bettman, \$400,000; Mr. Coxhead, \$300,000; Mr. Knotts, \$550,000; Mr. Leib, \$500,000 and Mr. Paloian, \$700,000.

The employment agreements also set forth each NEO's target bonus as a percentage of such NEO's base salary. The target bonus for each NEO is 150%, except for Mr. Coxhead whose target bonus is 100%.

The employment agreements of the NEOs provide that such NEO will be entitled to participate in the Company's compensation and benefit programs that are available to all management employees and that such NEO, with the exception of Mr. Coxhead, will also be eligible to participate in certain executive-only benefit plans.

Awards

The Committee granted stock options to three of its NEOs in 2012 under the 2004 PIP, with a grant date of March 2, 2012. The options vest in equal proportions over four years on the anniversary of the grant date, with an exercise price equal to the fair market value on the grant date. Mr. Quinlan received 356,000, Mr. Knotts received 58,000 and Mr. Paloian received 67,000 stock options.

The Committee granted performance stock units to three of its NEOs in 2012 under the 2004 PIP. The performance stock units are earned

for achieving specified calculated cash flow targets over a three-year performance period beginning January 1, 2012 and ending December 31, 2014. The minimum target must be reached in order for the holder to be entitled to receive any performance stock units and from 50% to up to 100% of the number of performance stock units granted may be earned depending upon performance versus specified target levels. After the performance period, the earned performance stock units will be paid in stock or cash at the discretion of the Human Resources Committee. If paid in cash, the cash value for each performance stock unit will be equal to the fair market value of one share of the Company's common stock on the payment date. The performance stock unit awards have no dividend or voting rights. Mr. Quinlan received 152,000, Mr. Knotts received 38,000 and Mr. Paloian received 43,000 performance stock units.

The Committee granted restricted stock units to all of its NEOs in 2012 under the 2004 PIP. The restricted stock units vest in equal proportions over four years on the anniversary of the grant date. The restricted stock units have no dividend or voting rights. All restricted stock units are payable in shares of common stock of the Company upon vesting. Mr. Quinlan received 91,000, Ms. Bettman received 40,000, Mr. Coxhead received 25,000, Mr. Knotts received 74,000, Mr. Leib received 40,000 and Mr. Paloian received 78,000 restricted stock units with a grant date of March 2, 2012.

In 2012, the Committee established annual corporate financial targets under the MBO Plan based on non-GAAP earnings per share. Payment of the potential bonuses of the NEOs is only considered once 90% of the corporate financial target for the fiscal year is reached and payment then scales up to a maximum payout of 125% of the MBO target if Company performance exceeds the corporate financial target. For Mr. Quinlan, Mr. Knotts and Mr. Paloian, the corporate financial target is the only goal to be met. For all other NEOs, once the corporate financial target is met, the actual individual awards are based on performance against business unit performance goals and/or individual objectives. For 2012, the Human Resources Committee, prior to year end, made the determination that year to date performance did not merit the receipt of MBO bonus awards. Thus, no bonuses were paid for 2012.

Executive Compensation (continued)

Salary and Bonus in Proportion to Total Compensation

Assuming target performance with respect to long-term incentive awards, Mr. Quinlan, Mr. Knotts and Mr. Paloian generally received less than 40% of their total compensation in the form of base salary and cash incentive awards under the MBO Plan, while Ms. Bettman, Mr. Coxhead and Mr. Leib received approximately 70% of their total compensation in the form of base salary and cash incentive awards under the MBO Plan. As noted in *Compensation Discussion and Analysis* beginning on page 19 of this proxy statement, we believe that

a substantial portion of each NEO's compensation should be in the form of equity awards. Our Human Resources Committee believes that our current compensation program gives our NEOs a substantial alignment with stockholders, while also permitting the Committee to incentivize the NEOs to pursue specific short and long-term performance goals. Please see the *Compensation Discussion and Analysis* section of this proxy statement for a description of the objectives of our compensation program and overall compensation philosophy.

3 Assumes a closing price per share of \$8.99 on December 31, 2012.

4 Represents PSUs that were granted on (1) February 28, 2011 assuming threshold performance achievement and (2) March 2, 2012, assuming target performance achievement. Each PSU is equivalent to one share of the Company's common stock on the date of grant. The PSUs are earned for achieving specified calculated cash flow targets over a three-year performance periods beginning (1) January 1, 2011 and ending December 31, 2013 and (2) January 1, 2012 and ending December 31, 2014, respectively. The minimum target must be reached in order for the holder to be entitled to receive any PSUs. From 50% to up to 100% of the number of PSUs granted may be earned depending upon performance versus specified target levels. After the performance period, the earned PSUs will be paid in stock or cash at the discretion of the Human Resources Committee. If paid in cash, the cash value for each PSU will be equal to the fair market value of one share of the Company's common stock on the payment date. If employment is terminated by the Company without cause or by the NEO for good reason (each as defined in the NEO's employment agreement), the PSUs will vest and be payable, if at all, on the same terms and conditions that would have applied had such NEO's employment not been terminated (i.e., performance measured on December 31, 2013 or December 31, 2014). If employment terminates by reason of death or disability, 50% of any unvested PSUs will vest and become payable, assuming the attainment of target performance or, if greater, based on actual performance through the date of death or determination of disability. In the event of a change in control (as defined in the 2004 PIP), all of the PSUs will vest and be payable at mid-performance (75%) or, if greater, based on actual performance through the Acceleration Date (as defined in the 2004 PIP).

5 Assumes threshold performance achievement (50% payout of the PSUs granted) for the 2011 PSUs and target performance achievement (100% payout of the PSUs granted) for the 2012 PSUs and a price per share of \$8.99 on December 31, 2012.

Table of Contents**2013 NOTICE OF MEETING AND PROXY STATEMENT****Executive Compensation** (continued)**Pension Benefits**

Under the Retirement Benefit Plan of RR Donnelley & Sons Company and the Retirement Income Plan of Moore Wallace North America, Inc., (collectively referred to as the Qualified Retirement Plans), effective as of January 1, 2005 eligible employees begin accruing retirement benefits of 0.7% of covered compensation each year. Employees of RR Donnelley & Sons Company who met certain requirements and whose age and service points as of December 31, 2004 equaled 55 to 64 points accrued an additional 0.25% of covered compensation and those with 65 or more points accrued an additional 0.50% of covered compensation. Prior to January 1, 2005, employees of RR Donnelley participated in one of two defined benefit programs with higher accrual rates. The defined benefit plan for Moore Wallace employees had been frozen as of December 31, 2000, with no benefit accrual until the plan was reactivated as of January 1, 2005. Compensation covered by the Qualified Retirement Plans generally includes salary and annual cash bonus awards. The amount of annual earnings that may be considered in calculating benefits under the pension plan is limited by law. The Qualified Retirement Plans are funded entirely by the Company with contributions made to trust funds from which the benefits of participants are paid. Generally, the Company froze benefit accruals under all of its U.S. pension plans as of December 31, 2011. Beginning January 1, 2012, participants ceased earning additional benefits under the Qualified Retirement Plans and no new participants will enter these plans.

The U.S. Internal Revenue Code places limitations on pensions that can be accrued under federal income tax qualified plans. To the

extent an employee's pension would have accrued under one of the Qualified Retirement Plans if it were not for such limitations, the additional benefits are accrued under the RR Donnelley Unfunded Supplemental Pension Plan (referred to as the SERP). On December 31, 2012, approximately 743 individuals are covered by the SERP as active employees or terminated employees with vested benefits, and in 2012 approximately 122 individuals received payments from the SERP. The SERP is unfunded and provides for payments to be made out of the Company's general assets. Because the Company froze the U.S. pension plans as of December 31, 2011, no additional benefits will accrue such plans or the related SERP.

Some participants have a pre-2005 cash balance or pension equity benefit with respect to which they can elect to receive a lump sum amount upon termination. Other pre-2005 participants and all participants who first began participating in one of the Qualified Retirement Plans on or after January 1, 2005, will receive a career average plan benefit. Under the career average plan benefit, benefits are paid monthly after retirement for the life of the participant or, if the participant is married or chooses an optional benefit form, generally in an actuarially reduced amount for the life of the participant and surviving spouse or other named survivor.

See Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the relevant assumptions used in calculating the present value of the current accrued benefit with respect to each NEO under the Qualified Retirement Plans and the SERP set forth in the table below.

2013 NOTICE OF MEETING AND PROXY STATEMENT

Executive Compensation (continued)**Nonqualified Deferred Compensation**

The 2012 Nonqualified Deferred Compensation table presents amounts deferred under our Deferred Compensation Plan. Participants may defer up to 50% of base salary and 100% of annual incentive bonus payments under the Deferred Compensation Plan. Deferred amounts are credited with earnings or losses based on the rate of return of mutual funds selected by the executive, which the executive may change at any time. We do not make contributions to participants' accounts under the Deferred Compensation Plan. Distributions generally are paid in a lump sum distribution upon the six-month anniversary of the termination of the NEO's employment with the Company unless the NEO elects that a distribution be made three years after a deferral under certain circumstances.

The table also presents amounts deferred under our Supplemental Executive Retirement Plan (SERP-B). Under the SERP-B, participants could defer a portion of their regular earnings substantially equal to the difference between the amount that, in the absence of legislation limiting additions to our Savings Plan, would have been allocated to an employee's account as before-tax and matching contributions, minus the deferral amount actually allocated under the Savings Plan. Deferred amounts earn interest at the prime rate and such interest is paid by the Company. Distributions are paid in a lump sum distribution upon the six-month anniversary of the termination of the participant's employment with our Company. The SERP-B was frozen in 2004 and no additional amounts may be contributed by NEOs.

2013 NOTICE OF MEETING AND PROXY STATEMENT

Potential Payments Upon Termination or Change in Control

As noted under *Compensation Discussion and Analysis – Post-Termination Benefits* on page 25 of this proxy statement, we have entered into employment agreements with each of our NEOs that provide for payments and other benefits in connection with the officer's termination for a qualifying event or circumstance and, in some agreements, for enhanced payments in connection with such termination after a Change in Control (as defined in the applicable agreement). A description of the terms with respect to each of these types of terminations follows.

Termination other than after a Change in Control

The employment agreements for each NEO provide for payments of certain benefits, as described below, upon the termination of the employment of an NEO. The NEO's rights upon a termination of his or her employment depend upon the circumstances of the termination. Central to an understanding of the rights of each NEO under the employment agreements is an understanding of the definitions of *Cause* and *Good Reason* that are used in those agreements. For purposes of the employment agreements:

We have *Cause* to terminate the NEO if the NEO has engaged in any of a list of specified activities, including refusing to substantially perform duties consistent with the scope and nature of his or her position or refusal or failure to attempt in good faith to follow the written direction of the chief executive officer, chief operating officer, chief financial officer or the Board, as applicable, committing an act materially injurious (monetarily or otherwise) to us or our subsidiaries, commission of a felony or other actions specified in the definition.

The NEO is said to have *Good Reason* to terminate his or her employment (and thereby gain access to the benefits described below) if we assign the NEO duties that represent a material diminution of his or her duties or responsibilities, reduce the NEO's compensation, generally require that the NEO's principal office be located other than in or around Chicago, Illinois or, in the case of Mr. Quinlan and Mr. Paloian, New York, New York, or materially breach the employment agreement. Mr. Coxhead's employment agreement does not provide for rights upon his termination for *Good Reason*.

The employment agreements for the NEOs require, as a precondition to the receipt of these payments, that the NEO sign a standard form of release in which he or she waives all claims that he or she might have against us and certain associated individuals and entities. The employment agreements also include noncompete and nonsolicit provisions that would apply for a period of one to two years, as set forth in such NEO's agreement, following the NEO's termination of employment.

The benefits to be provided to the NEO in each of those situations are described in the tables below, which assume that the termination had taken place on December 31, 2012.

Termination after a Change in Control

The NEOs other than Mr. Coxhead and Mr. Leib are entitled to certain tax gross-ups upon a termination after a Change in Control (as defined in such NEOs employment agreement).

As with the severance provisions described above, the rights to which the NEO's are entitled under the Change in Control provisions upon a termination of employment are dependent on the circumstances of the termination. The definitions of *Cause* and *Good Reason* are the same in this termination scenario as in a termination other than after a Change in Control.

Payment Obligations Under Employment Agreements upon Termination of Employment of NEO

The following tables set forth our payment obligations under the employment agreements under the circumstances specified upon a termination of the employment of our NEOs. The tables do not include payments or benefits that do not discriminate in scope, terms or operation in favor of the NEOs and are generally available to all salaried employees, or pension or deferred compensation payments that are discussed in *Pension Benefits* and *Nonqualified Deferred Compensation* beginning on page 34 of this proxy statement.

Unless otherwise noted, the descriptions of the payments below are applicable to all of the tables relating to potential payments upon termination or change in control.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

Disability or Death All NEOs are entitled to pension benefits upon death or disability according to the terms of the pension plan. The employment agreements provide that in the event of disability or death, in addition to payments under the Company's disability benefits plan or life insurance program, as applicable and each as available to all salaried employees, each NEO other than Mr. Coxhead is entitled to benefits paid under a supplemental disability insurance policy or supplemental life insurance policy, as applicable, maintained by the Company for the NEO's benefit. Pursuant to the terms of the Company's MBO Plan, each NEO is also entitled to his or her pro-rated annual bonus for the year in which the disability or death occurs, payable at the same time as and to the extent that all other annual bonuses are paid. Additionally, all unvested equity awards held by each NEO will immediately vest upon disability or death pursuant to the terms of the applicable award agreements.

2013 NOTICE OF MEETING AND PROXY STATEMENT

Potential Payments Upon Termination or Change in Control (continued)

Equity Acceleration Pursuant to the terms of their employment agreements, each NEO other than Mr. Coxhead is entitled to immediate vesting of all outstanding equity awards in the event of any termination initiated by the NEO for Good Reason or termination initiated by the Company without Cause. Each NEO is generally entitled to immediate vesting of all outstanding equity awards upon a Change in Control (as defined in the 2004 PIP) under the terms of the 2004 PIP, and may be entitled to a gross up payment, as described below. Pursuant to the terms of the employment agreements of Mr. Quinlan, Mr. Knotts and Mr. Paloian, however, PSUs will vest and become payable in accordance with the terms of the applicable award agreements in the event of any termination initiated by the NEO for Good Reason or termination initiated by the Company without Cause or upon a Change in Control. For all NEOs, all unvested equity awards are forfeited in the event of resignation other than for Good Reason or termination with Cause. Treatment of equity upon death or disability is discussed above in Disability or Death.

Value of accelerated restricted stock units is the fair market value on the date of termination. Value of accelerated PSUs is the fair market value on the date of determination. Value of accelerated options is determined by subtracting the exercise price from the fair market value on the date of termination. For purposes of the tables, fair market value is the closing price on December 31, 2012 of \$8.99.

Health Care Benefits The employment agreements generally provide that, after resignation for Good Reason or termination without Cause, the Company will continue providing medical, dental, and vision coverage to the NEO that the NEO was eligible to receive immediately prior to such termination until the end date of an enumerated period following the NEO's date of termination. For Messrs. Quinlan, Knotts and Paloian this period is 24 months after such resignation or termination before a Change in Control, and the last day of the second calendar year following the calendar year in which such termination occurs after a Change in Control and for Ms. Bettman, Mr. Coxhead and Mr. Leib this period is 18 months after such resignation or termination (either before or after a Change in Control). In the event of resignation other than for Good Reason or termination with Cause, the NEO is entitled to the same benefits as all other employees would be entitled to after termination. Benefits payable upon disability or death are described above in Disability or Death.

280G Tax Gross-Up Upon a Change in Control of the Company, an NEO may be subject to certain excise taxes under Section 4999 of the Internal Revenue Code with respect to payments that are treated as excess parachute payments under Section 280G. The Company has agreed to reimburse the applicable NEO for all excise taxes that are imposed on the NEO under Section 4999 and any income and excise taxes that are payable by the NEO as a result of any reimbursements for such excise taxes. In the event, however, it is determined that the NEO is entitled to a reimbursement payment for such excise taxes, but that the Change in Control payments would not be subject to the excise tax if such payments were reduced by an amount that is less than 10% of the portion of the payments that would be treated as excess parachute payments under Section 280G, then the amounts payable to the NEO under the Change in Control agreement will be reduced to the maximum amount that could be paid to the NEO without giving rise to the excise tax. The calculation of the gross-up amount is based upon a Section 4999 excise tax rate of 20%, a 35% federal income tax rate, the applicable state tax rate, and a 1.45% medicare tax rate. For purposes of the Section 280G calculation, it has been assumed that no amounts will be treated as reasonable compensation and no value will be attributed to the NEO's restrictive covenants.

On December 27, 2012, the Company announced that Mr. Paloian would no longer serve as the Company's Chief Operating Officer effective as of December 31, 2012. Mr. Paloian will remain an employee of the Company until May 31, 2013. At such time, under his employment agreement Mr. Paloian will be entitled to separation payments totaling \$3,625,000, a lump sum payment of \$171,326 in lieu of benefits for 24 months, a lump sum payment of \$750,000 in lieu of his 2012 Deferred Cash award and all unvested equity will fully vest. Mr. Paloian's PSUs will vest and be payable, if at all, on the same terms and conditions that would have applied had Mr. Paloian's employment not ended (i.e., performance measured on December 31, 2013 and 2014).

The tables assume that termination and any Change in Control took place on December 31, 2012.

1 Mr. Quinlan is entitled to 2x base salary and 2x target annual bonus as if all targets and objectives had been met, paid over the applicable severance period.

2 Mr. Quinlan is entitled to 3x base salary and 3x target annual bonus as if all targets and objectives had been met, paid over the applicable severance period. Pursuant to the terms of his employment agreement, Mr. Quinlan is also entitled to his pro-rated annual bonus for the year in which the termination after a change in control occurs, payable at the same time as and to the extent that all other annual bonuses are paid. This bonus is not reflected in this table as, assuming a termination date of December 31, Mr. Quinlan would have been entitled to this bonus pursuant to the terms of the MBO Plan under which the annual bonus is paid (which provides for payment of the bonus to any participant who is on the payroll of the Company as of December 31) which are the same terms generally available to all salaried employees who participate in the plan. Also included as bonus is a \$75,000 lump sum payment to which Mr. Quinlan is entitled pursuant to the terms of his employment agreement.

3 Mr. Quinlan is entitled to the same 60% of base salary until age 65 with a maximum \$10,000 per month that is generally available to all salaried employees upon disability.

4 Pursuant to the terms of the Company's MBO Plan, Mr. Quinlan is entitled to his pro-rated annual bonus for the year in which the disability or death occurs, payable at the same time as and to the extent that all other annual bonuses are paid which are the same terms generally available to all salaried employees who participate in the plan.

5 Assumes price per share of \$8.99 on December 31, 2012.

6 All unvested equity awards held by Mr. Quinlan will immediately vest upon disability or death pursuant to the terms of the applicable award agreements.

7 Upon this type of termination, the PSUs would vest and be payable, if at all, on the same terms and conditions that would have applied had Mr. Quinlan's employment not been terminated (i.e., performance measured on December 31, 2013 and 2014).

8 Per the terms of the PSU award agreements, upon the acceleration date associated with a Change in Control, the PSUs granted in 2011 would vest and become payable at 75% of target performance and the PSUs granted in 2012 would vest and become payable at 70% of target performance. The table assumes that a Change in Control and termination without cause each occur on December 31, 2012 and vesting and payment of the PSUs in connection with such events.

9 Upon death or disability, 50% of the PSUs granted in each of 2011 and 2012 vest and become payable at target performance (100%).

10 Except as disclosed, Mr. Quinlan receives the same benefits that are generally available to all salaried employees upon disability or death.

11

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

Represents benefits payable under a supplemental life insurance policy maintained by the Company for the benefit of Mr. Quinlan in excess of the amount generally available to all salaried employees.

12 Represents benefits payable under a supplemental disability insurance policy maintained by the Company for the benefit of Mr. Quinlan in excess of the amount generally available to all salaried employees.

13 Under this scenario Mr. Quinlan is not subject to the excise tax and no gross-up would be made.

- Mr. Paloian is entitled to 2x base salary and 2x target annual bonus as if all targets and objectives had been met, paid over the applicable severance period.
- Mr. Paloian is entitled to 3x base salary and 3x target annual bonus as if all targets and objectives had been met, paid over the applicable severance period. Mr. Paloian is also entitled to his pro-rated annual bonus for the year in which the termination occurs, payable at the same time as and to the extent that all other annual bonuses are paid. This bonus is not reflected in this table as, assuming a termination date of December 31, Mr. Paloian would have been entitled to this bonus pursuant to the terms of the MBO Plan under which the annual bonus is paid (which provides for payment of the bonus to any participant who is on the payroll of the Company as of December 31) which are the same terms generally available to all salaried employees who participate in the plan. Also included as bonus is a \$75,000 lump sum payment to which Mr. Paloian is entitled pursuant to the terms of his employment agreement. Pursuant to the terms of his employment agreement if it is determined that Mr. Paloian is entitled to a 280G gross-up payment, but that payments under this scenario would not be subject to a 280G excise tax if the payments were reduced by an amount that is less than 10% of the portion of the payments that would be treated as parachute payments, then the amounts payable to Mr. Paloian will be reduced to the maximum amount that could be paid to him without giving rise to the excise tax, and no 280G gross-up payment will be made. Base salary and bonus amounts in this column reflect such a reduction by an aggregate amount of \$193,054.
- Mr. Paloian is entitled to the same 60% of base salary until age 65 with a maximum \$10,000 per month that is generally available to all salaried employees upon disability.
- Pursuant to the terms of the Company's MBO Plan, Mr. Paloian is entitled to his pro-rated annual bonus for the year in which the disability or death occurs, payable at the same time as and to the extent that all other annual bonuses are paid which are the same terms generally available to all salaried employees who participate in the plan.
- A pro-rated portion of a deferred cash award (the 2010 Deferred Cash Award) awarded under the 2004 PIP in March 2009 and vesting on the fourth anniversary of the grant date and a pro-rated portion of and a deferred cash award (the 2012 Deferred Cash Award) awarded under the 2004 PIP, and vesting 50% on July 1, 2014 and 50% on July 1, 2015, each would vest and become payable pursuant to the terms of the applicable award.
- Assuming a Change in Control on December 31, 2012, the 2010 Deferred Cash Award and the 2012 Deferred Cash Award would each fully vest and become payable.
- Upon death or disability, the 2010 Deferred Cash Award and the 2012 Deferred Cash Award would each fully vest and become payable
- Assumes price per share of \$8.99 on December 31, 2012.
- All unvested equity awards held by Mr. Paloian will immediately vest upon disability or death pursuant to the terms of the applicable award agreements.
- Upon this type of termination, the PSUs would vest and be payable, if at all, on the same terms and conditions that would have applied had Mr. Paloian's employment not been terminated (i.e., performance measured on December 31, 2013 and 2014).
- Per the terms of the PSU award agreements, upon the acceleration date associated with a Change in Control, the PSUs granted in 2011 would vest and become payable at 75% of target performance and the PSUs granted in 2012 would vest and become payable at 70% of target performance. - 12 Upon death or disability, 50% of the PSUs granted in each of 2011 and 2012 vest and become payable at target performance (100%).
 - 13 Except as disclosed, Mr. Paloian receives the same benefits that are generally available to all salaried employees upon death or disability.
 - 14 Represents benefits payable under a supplemental life insurance policy maintained by the Company for the benefit of Mr. Paloian in excess of the amount generally available to all salaried employees.

Director Compensation

Equity-Based Compensation

Each non-employee director receives a \$5,000 cash meeting fee for each meeting of the board attended in person or telephonically as well as an annual retainer fee paid in restricted stock units as set forth below. Director restricted stock units granted after January 2009 vest in equal portions over three years from the date of grant with the opportunity to defer vesting of any tranche of restricted stock units until termination of service on the Board. Awards granted between January 2008 and January 2009 vest in equal portions over three years from the date of grant and were amended in May 2009 to provide the opportunity to defer vesting of any tranche of such restricted stock units until termination of service on the Board. For awards granted prior to January 2008, one-third of the restricted stock units vest on the third anniversary of the grant date, and the remaining two-thirds of the restricted stock units vest upon termination of the holder's service on the Board; the holder could also elect to defer delivery of the initial one-third of the restricted stock units until termination of service on the Board. In the event of termination of service on the Board prior to a vesting date, all restricted stock units will vest. All awards granted prior to December 31, 2007 are payable in shares of common stock or cash. In 2009, the option to have awards paid in cash was removed for awards granted in 2008 and future years. Dividend equivalents on the awards are deferred (credited with interest quarterly at the same rate as five-year U.S. government bonds) and paid out in cash with the corresponding restricted stock units. Each director receives annually a restricted stock unit grant, the fair market value of which is \$220,000, as a base retainer for serving as a director. A director will also receive, as applicable, the following annual awards of a restricted stock unit grant with a fair market value of:

- \$35,000, for serving as the chairman of the audit committee;
- \$20,000, for serving as chairman of any other committee;
- \$20,000, for serving as a member of the audit committee other than the chairman; or
- \$150,000, for serving as chairman of the board of directors.

Fair market value is defined as the closing price of the Company's stock on the date of grant.

Pension

Under the Wallace Computer Services Directors Pension Plan, Messrs. Pope and Riordan will receive quarterly payments of \$6,250 starting at the later of age 60 or termination of service on the board and continuing until the balance in such director's pension account has been paid out. As of December 31, 2012, Messrs. Pope and Riordan had a balance of \$175,000 and \$41,688, respectively. No other director will receive payments under this plan.

Indemnification Agreements

The Company is party to indemnification agreements with each of its directors that requires the Company to indemnify the directors to the fullest extent permitted by Delaware law. The Company's certificate of incorporation also requires the Company to indemnify both the directors and officers to the fullest extent permitted by Delaware law.

Benefits

Non-employee directors may also elect to participate in the Company's medical benefit plans. Any director who so elects pays the full cost of participation as if such director were a retiree of the Company.

- The amounts shown in this column constitute restricted stock units granted under the Company's 2012 Performance Incentive Plan (the 2012 PIP) awarded as payment of non-employee director annual retainer and fees for serving as chairperson of the board or committees calculated as set forth above under *Equity-Based Compensation*. Grant date fair value with respect to the restricted stock units is determined in accordance with ASC Topic 718. See Note 17 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the relevant assumptions used in calculating grant date fair value pursuant to ASC Topic 718. As of December 31, 2012, each director had outstanding the following aggregate number of restricted stock units: Ms. Cameron, 35,980; Mr. Chaden, 35,980; Mr. Crandall, 25,393; Ms. Hamilton, 56,566; Mr. Johnson, 58,643; Mr. Pope, 57,946; Mr. Riordan 92,328; Mr. Sockwell, 84,925 and Mr. Wolf, 149,642.
- No annual stock option grants or non-stock incentive plan compensation payments were made as compensation for director services in 2012 or are contemplated under our current compensation structure.
- As of December 31, 2012, the following directors had outstanding the following numbers of outstanding options to purchase shares of Common Stock: Ms. Hamilton, 4,282; Mr. Johnson, 4,282; Mr. Sockwell, 4,282 and Mr. Wolf, 4,282.
- Includes interest accrued on dividend equivalents on restricted stock awards credited to each directors' account.
- Mr. Palmer joined the Board of Directors effective January 9, 2013.
- Includes dividends on phantom shares under the Company's Policy on Retirement Benefits, Phantom Stock Grants and Stock Options for Directors, credited as additional phantom shares, in the following amounts: Ms. Hamilton, \$9,622; Mr. Johnson, \$11,561; Mr. Sockwell, \$7,975 and Mr. Wolf, \$9,830. As of December 31, 2012, the following directors had outstanding the following aggregate numbers of phantom shares: Ms. Hamilton, 9,838 phantom shares; Mr. Johnson, 11,820 phantom shares; Mr. Sockwell, 8,154 phantom shares and Mr. Wolf, 10,050 phantom shares. The phantom shares are fully vested.
- Includes dividends paid and interest accrued on amounts held in the directors' account under the Wallace Corporation Director Compensation Plan pursuant to which the directors retainer fees were credited as shares of stock in Company maintained accounts, similar to phantom stock, in the following amounts: Mr. Pope, \$20,034 and Mr. Riordan, \$7,603. Dividends paid and interest accrued on these shares are accrued and credited as additional shares on December 31

Certain Transactions

The Company has a written policy relating to approval or ratification of all transactions involving an amount in excess of \$120,000 in which the Company is a participant and in which a related person has or will have a direct or indirect material interest, including without limitation any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships, subject to certain enumerated exclusions. Under the policy, such related person transactions must be approved or ratified by (i) the committee or (ii) if the committee determines that the approval or ratification of such transaction should be considered by all of the disinterested members of the board, such disinterested members of the board by a majority vote. Related persons include any of our directors or certain executive officers, certain of our shareholders and their immediate family members.

In considering whether to approve or ratify any related person transaction, the committee or such disinterested directors, as applicable,

may consider all factors that they deem relevant to the transaction, including, but not limited to, the size of the transaction and the amount payable to or receivable from a related person, the nature of the interest of the related person in the transaction, whether the transaction may involve a conflict of interest; and whether the transaction involves the provision of goods or services to the Company that are available from unaffiliated third parties and, if so, whether the transaction is on terms and made under circumstances that are at least as favorable to the Company as would be available in comparable transactions with or involving unaffiliated third parties.

To identify related person transactions, at least once a year all directors and executive officers of the Company are required to complete questionnaires seeking, among other things, disclosure with respect to such transactions of which such director or executive officer may be aware. In addition, each executive officer of the Company is required to advise the Chairman of the committee of any related person transaction of which he or she becomes aware.

Section 16(a) Beneficial Ownership

Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than ten percent of the common stock of the Company, to file with the Securities and Exchange Commission reports of ownership of company securities and changes in reported ownership. Officers, directors and greater than ten percent shareholders are required by SEC rules to furnish the Company with copies of all Section 16(a) reports they file.

Based solely on a review of the copies of such forms furnished to the Company, or written representations from the reporting persons that no Form 5 was required, the Company believes that during 2012 all Section 16(a) filing requirements applicable to its officers, directors, and greater than ten percent beneficial owners were complied with.

2013 NOTICE OF MEETING AND PROXY STATEMENT

Report of the Audit Committee

The Audit Committee has reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2012. The Audit Committee has discussed with the Company's independent registered public accounting firm, which is responsible for expressing an opinion on the conformity of the Company's audited financial statements with generally accepted accounting principles, the matters required to be discussed by PCAOB AU 380 (Communications with Audit Committees), including its judgments as to the quality of the Company's financial reporting. The Audit Committee has received from the independent registered public accounting firm written disclosures and a letter as required by applicable requirements of the Public Company Accounting Oversight Board and discussed with the independent registered public accounting firm its independence from management and the Company. In considering the independence of the Company's independent registered public accounting firm, the Audit Committee took into consideration the amount and nature of the fees paid to the firm for non-audit services, as described below.

During the course of the fiscal year ended December 31, 2012, management completed the documentation, testing and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations.

In reliance on the review and discussions described above, the Audit Committee recommended to the Board of Directors that the year-end audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for filing with the Securities and Exchange Commission.

The Company's Independent Registered Public Accounting Firm

Fees

Audit Fees Deloitte & Touche LLP (Deloitte) was the Company's independent registered public accounting firm for the years ended December 31, 2012 and 2011. Total fees paid to Deloitte for audit services rendered during 2012 and 2011 were \$8,333,000 and \$9,286,000, respectively.

Audit-Related Fees Total fees paid to Deloitte for audit-related services rendered during 2012 and 2011 were \$146,000 and \$5,000, respectively, primarily related to acquisition diligence services in 2012 and international attest services in 2011.

Edgar Filing: RR Donnelley & Sons Co - Form DEF 14A

Tax Fees Total fees paid to Deloitte for tax services rendered during 2012 and 2011 were \$86,000 and \$51,000, respectively, primarily related to international tax compliance in both years.

All Other Fees No other fees were paid to Deloitte for any other services rendered during 2012 and 2011.

Audit Committee Pre-Approval Policy The Audit Committee has policies and procedures that require the approval by the Audit Committee of all services performed by, and as necessary, fees paid to,

the Company's independent registered public accounting firm. The Audit Committee approves the proposed services, including the scope of services contemplated and the related fees, associated with the current year audit. In addition, Audit Committee pre-approval is also required for those engagements that may arise during the course of the year that are outside the scope of the initial services and fees pre-approved by the Audit Committee. The Audit Committee pre-approves, up to an aggregate dollar amount and individual dollar amount per engagement, certain permitted non-audit services anticipated to be provided by the Company's independent registered public accounting firm. In the event permitted non-audit service amounts exceed the thresholds established by the pre-approval policy, the Audit Committee must specifically approve such excess amounts. The Audit Committee chairman has the authority to approve any services outside the specific pre-approved non-audit services and must report any such approval at the next meeting of the Audit Committee.

Pursuant to the Sarbanes-Oxley Act of 2002, the fees and services provided as noted above were authorized and approved by the Audit Committee in compliance with the pre-approval policies and procedures described herein.

Submitting Stockholder Proposals and Nominations for 2013 Annual Meeting

Any proposals that stockholders wish to present at the 2014 Annual Meeting must be received by December 16, 2013 in order to be considered for inclusion in the Company's proxy materials. The 2014 Annual Meeting is currently scheduled to be held on May 22, 2014.

A stockholder wishing to nominate a candidate for election to the Board, or make a proposal at the 2014 Annual Meeting that will not be considered for inclusion in the Company's proxy materials, is required to give appropriate written notice to the Secretary of the Company, which must be received by the Company between 60 to 90

days before the meeting. If notice or public announcement of the meeting date comes less than 75 days before the meeting, stockholders are allowed to submit a notice of nomination or proposal within ten days after the meeting date is announced.

A nomination or proposal that does not supply adequate information about the nominee or proposal and the stockholder making the nomination or proposal will be disregarded. All proposals or nominations should be addressed to: Secretary, R.R. Donnelley & Sons Company, 111 South Wacker Drive, Chicago, Illinois 60606-4301.

Discretionary Voting of Proxies on Other Matters

The Company's management does not currently intend to bring any proposals to the 2013 Annual Meeting other than the election of directors, the advisory vote to approve executive compensation and ratification of the auditors and does not expect any stockholder proposals. If new proposals requiring a vote of the stockholders are brought before the meeting in a proper manner, the persons named

in the accompanying proxy card intend to vote the shares represented by them in accordance with their best judgment.
