CORVEX AND RELATED SEND LETTER TO COMMONWEALTH REIT SHAREHOLDERS

CALLING FOR AN END TO VALUE DESTRUCTION

Urgent Need to Remove Entire Commonwealth Board Now and Stop Accelerating Campaign to

Disenfranchise Shareholders

Vote the WHITE Consent Card Today

NEW YORK, April 18, 2013 Corvex Management LP (Corvex) and Related Fund Management, LLC (Related), whose separately managed investment funds collectively own approximately 9.2% of the outstanding common shares of Commonwealth REIT (NYSE:CWH), today sent a letter to CWH shareholders, urging them to vote the WHITE consent card and remove the entire Board of Commonwealth before it can take any additional action to destroy shareholder value.

Corvex and Related have also published an investor presentation detailing their plan for driving value and restoring shareholder wealth at Commonwealth and outlining the latest actions of CWH's Board that they firmly believe have destroyed shareholder value. The presentation is available at www.shareholdersforcommonwealth.com.

Shareholders are urged to sign, date and return the WHITE consent card today. You may also be able to vote online by following the instructions on the voting materials you will be receiving. They also encourage all shareholders to call today D.F. King & Co., Inc., their proxy solicitor, at 1-800-714-3313 so they can ensure you receive their materials and they can assist you in voting your shares.

The text of the letter to CWH shareholders is as follows:

IMMEDIATE CHANGE IS NEEDED TO STOP THE CONTINUED VALUE DESTRUCTION

AT COMMONWEALTH

OUR CONSENT SOLICITATION WILL SERVE AS A REFERENDUM ON THE CURRENT

BOARD AND MANAGEMENT TEAM AND IS THE ONLY WAY TO EFFECT REAL CHANGE

SIGN, DATE AND RETURN THE WHITE CONSENT CARD TODAY!

Dear Fellow Shareholders:

We are two of the largest shareholders of Commonwealth REIT with a combined ownership of 9.2%, and are seeking written consents from shareholders to immediately remove all members of Commonwealth's board of trustees. Commonwealth is managed by Reit Management & Research LLC (RMR), which is owned by Barry Portnoy and his son Adam. The Portnoys, along with their hand-picked trustees, have in our view managed Commonwealth in a way which has enriched themselves rather than representing the interests of shareholders. **If we do not act NOW to remove the entire board, management will continue its unrestrained and accelerating campaign of value destruction, and shareholders will be forced to endure many more years of mismanagement.**

We made a substantial investment in Commonwealth earlier this year after conducting an exhaustive property-by-property study of Commonwealth and its assets under the lead of Related Fund Management, an affiliate of Related Companies – one of the most respected

Edgar Filing: Commonwealth REIT - Form DFAN14A

privately-owned real estate firms in the world with over \$15 billion of real estate assets and a 40 year history.

Based on Related's extensive due diligence and expert analysis, and with the assistance of highly qualified external consultants, we recognized that Commonwealth's real estate assets trade at a substantial discount to fair value due to a misalignment of incentives between RMR and shareholders, and what in our view is plain mismanagement by the Portnoys and the trustees. Specifically, the flawed RMR structure reduces the Company's cash flow, impairs Commonwealth's valuation multiple (40%+ discount to peers historically), destroys investor confidence, and has resulted in a track record of underperformance. In fact, Commonwealth is one of the few remaining externally managed equity REITs in the public markets. Green Street Advisors, a leading real estate and REIT research firm, refers to this structure as a "dinosaur" that stands out like a sore thumb.¹ We firmly believe this external manager structure must be removed and replaced with an internal management team that is truly focused on creating value for **ALL** shareholders.

Since announcing our ownership stake in late February, we have sought to effect change, and have consistently remained open to multiple options to create value for all shareholders. However, it is clear to us that the current board of trustees and management are solely beholden to the Portnoys, do not recognize or ignore the inherent conflicts of interest that the external manager structure creates, and will not act in a way that seeks to enhance value for all shareholders.

In fact, in response to our efforts, Commonwealth has shown that it will stop at nothing to silence us and other shareholders. Within the past seven weeks alone Commonwealth's management and board have: completed a massively dilutive equity offering at a 48% discount to book value; amended the governing documents of Commonwealth twice in an attempt to eliminate long-standing shareholder rights; announced the possibility of selling Commonwealth's controlling stake in Select Income REIT at a discount; secretly lobbied the Maryland legislature in an attempt to introduce amendments that would have eliminated shareholder democracy; and, most recently, purported to completely eliminate shareholder rights to remove trustees without cause—an effort that in our and our lawyers' view is invalid under Maryland law. If any shareholders had doubts as to where the trustees' allegiances lie, these actions have made clear it is to the Portnoys and not shareholders.

Given the accelerating pace of Commonwealth's value-destroying activities, we are left with no alternative but to seek to immediately remove this board. **The only way for shareholders to effect meaningful change is through our consent solicitation**. Any other strategy would take years to make a difference as a result of the various entrenching devices built into Commonwealth's governing documents.

MISMANAGEMENT OF COMMONWEALTH BY THE CURRENT BOARD AND MANAGEMENT TEAM HAS RESULTED IN SEVERE UNDERPERFORMANCE

It is our firm view that the Portnoys' collective actions have led to Commonwealth significantly underperforming its peers on almost all key metrics, including:

Worst shareholder returns—Commonwealth's stock price has performed 28%, 31%, and 30% worse than peers over the last 1 year, 3 years, and 5 years, respectively.² Over the same 1 year, 3

¹ The Portnoy REITs—What It Means to be Uninvestable, Green Street Advisors, March 1, 2013. Permission was neither sought nor obtained to include quoted language.

² Commonwealth's peers include Piedmont Office Realty Trust Inc. (PDM), Highwoods Properties Inc. (HIW), Mack-Cali Realty Corp. (CLI), Brandywine Realty Trust (BDN) and Parkway Properties Inc. (PKY). Returns calculated through January 15, 2013, the day prior to when Corvex and Related began purchasing stock.

year, and 5 year time periods, Commonwealth's total return performance, which is calculated based on stock price performance and dividends, is 26%, 26%, and 22% below peers, respectively.

Massive discount to peers Commonwealth's share price was trading at a nearly 40% discount to its peers on an unlevered capitalization rate basis immediately prior to the public announcement of our ownership stake on February 26, 2013. Commonwealth has also traded at a 40%+ discount to peers on a price/FFO basis over the last 1 year and 3 years, respectively.

Mismanagement of operations Commonwealth has consistently delivered negative growth in both FFO/share (-5% 2010-2012 CAGR) and CAD/share (-23% 2010-2012 CAGR) and is among the bottom performers of peers on both metrics.

THE PORTNOYS AND THEIR TRUSTEES HAVE ENGAGED IN AN ACCELERATING

CAMPAIGN TO DISENFRANCHISE SHAREHOLDERS

AND DESTROY VALUE

Since we first called for change seven weeks ago, the Portnoys, aided by their trustees, have executed a self-serving campaign aimed at advancing their own financial interests, at the expense of shareholder rights and value. This campaign has included:

Completing a Highly Dilutive Equity Offering: This past March, the board completed a dilutive equity offering at a time when Commonwealth's shares were trading at a 48% discount to book value as of December 31, 2012, in order to repay debt trading at prices ranging from 102% to 111% of par. The offering increased Commonwealth's share count by 41% and **diluted its NAV by over \$6 per share.**

Disenfranchising Amendments to Governance Documents: Just last month, following the announcement of our investment in Commonwealth, the board has unilaterally decided to make various amendments to Commonwealth's bylaws that, on their face, sought to effectively eliminate shareholders' right to act by written consent. As previously stated, such amendments conflict with the Commonwealth charter and Maryland law and therefore we believe they are invalid as a matter of law.

Eleventh-Hour Lobbying Efforts to Change the Law: Not satisfied, earlier this month the Portnoys hired a team of political consultants likely paid for by YOU, as CWH shareholders to secretly lobby the Maryland legislature in a failed attempt to adopt an eleventh-hour amendment to a pending bill that would have deprived shareholders of their right to act by written consent to remove the board without cause.

Bylaw Amendment to Try to Eliminate Shareholders' Right to Remove Trustees Without Cause: Having failed to change the law in Maryland through their lobbying efforts, the Portnoys and their trustees have recently announced an additional unilateral amendment to Commonwealth's bylaws that purports to eliminate the right shareholders have had since 1986 to remove trustees without cause. They have done this through a novel interpretation of the Maryland corporate statute which flies in the face of 14 years of public disclosures by Commonwealth. It is our and our lawyers' view that such amendment is invalid.

Proposed Sale of the Company's 56% Controlling Interest in Select Income REIT (SIR): On March 25, 2013, the board announced that it was contemplating selling Commonwealth's 56% controlling equity interest in SIR in an underwritten offering, which we anticipate would be

completed at a discount to market price and would effectively transfer control away from Commonwealth while allowing RMR to continue extracting fees from SIR. In our view, any sale of shares constituting a control position in SIR, however, should reflect a control premium free of the existing restrictive management contract, not a discount.

We must act now. If shareholders don't act now to remove the entire board, we will be subject to at least three more years of Portnoy mismanagement the minimum time needed to replace a simple majority of Commonwealth's super-charged staggered board. WE MUST ACT BEFORE THE PORTNOYS AND THEIR TRUSTEES TAKE ANY ADDITIONAL ACTION TO DESTROY SHAREHOLDER VALUE.

SIGN, DATE AND RETURN OUR WHITE CONSENT AND TAKE THE FIRST STEP TO

ELECT A NEW BOARD OF INDEPENDENT AND HIGHLY QUALIFIED TRUSTEES

Once the current trustees are removed, Commonwealth is required to promptly call a special meeting for shareholders to elect new trustees. We will engage in an active dialogue with all shareholders to identify a truly independent slate of highly qualified nominees focused on real estate industry veterans with pristine credentials who are prepared to work for the interests of ALL shareholders, not just the Portnoys.

Upon removal of the current board, we are prepared to leverage our substantial resources and real estate expertise to benefit all shareholders. CBRE, the world's largest commercial real estate services firm, has agreed to provide interim property management and leasing services to the Commonwealth portfolio as long as necessary to ensure a smooth change of guard to a new independent and properly functioning board elected by shareholders. Additionally, Jim Lozier, a well-respected real estate executive with more than 20 years of experience and co-founder and former CEO of Archon Group L.P., a subsidiary of Goldman Sachs and a diversified international real estate services and advisory company, has agreed to serve as interim CEO until a new board is appointed. During Jim's tenure at Archon, the company grew from 320 employees to 8,500 employees managing 36,000 assets with a gross value of approximately \$59 billion. As interim CEO, Jim will focus on transition of management services, continuity of financial reporting and building out a permanent management team. We have also already engaged Deutsche Bank Securities Inc. as financial advisor and we expect to work with Deutsche Bank Securities Inc. on any required financing in connection with our effort. Make no mistake, we will be prepared to move immediately with a more professional and aligned real estate team from the moment shareholders regain control from the Portnoys.

CORVEX AND RELATED HAVE A PLAN FOR

DRIVING VALUE AND RESTORING SHAREHOLDER WEALTH

We are proposing Commonwealth take the following simple, yet decisive actions:

Internalize Management Structure, and transition to having its own management team instead of relying on the conflicted, overpaid services of RMR or another external manager. We note that RMR has received over **\$336 million just in the last five years from Commonwealth**, while managing at least 5 other entities in the Portnoy Empire and engaging in over \$2 billion of related party transactions at Commonwealth alone. **During the same period Commonwealth has seen its stock decline by over 49% and cut its dividend by 70%.**

Adopt Corporate Governance Best Practices, amending Commonwealth's existing charter and bylaws to improve them and conform to ISS and Glass Lewis best practices, increasing rights for all shareholders Commonwealth's board should no longer be insulated by a classified board, a poison pill with a slow hand provision and other entrenchment devices.

Cease Affiliate Transactions With, Or Managed By, RMR, which we believe are resulting in the transfer of enormous value to RMR and the Portnoys at YOUR expense.

Cease all acquisition and development activity until Commonwealth's stock price exceeds its NAV, and use excess cash flow to buy back Commonwealth's undervalued shares until its stock price exceeds NAV

Manage Commonwealth in ways which maximize long-term shareholder value, not fees paid to RMR.

As a sign of our commitment to Commonwealth, and to offer an alternative path to unlock value, we delivered to the board a bona fide offer to acquire up to 100% of the outstanding shares for \$24.50 in cash. We also encouraged the Company to welcome any additional offers from other potential bidders in excess of \$24.50 per share in cash. We are focused on liberating Commonwealth from the Portnoys any way we can, and believe an acquisition with an option for existing shareholders to retain their equity is one way to achieve this goal. We very much believe there is higher value that can be unlocked if Commonwealth were run by the proper internal management team. As such, we are open to the idea of allowing fellow shareholders to retain their equity in order to share significant upside potential of Commonwealth under qualified management. So far the board of trustees, despite having received our firm offer at a premium of 55% to the share price on the day before we announced our position, has refused to engage in any good faith negotiations with us regarding this option, and has instead rejected our offer in favor of a so-called strategic plan which has led to a 45% stock price decline in the last two years.

Signing, dating and returning the **WHITE** consent card will send a firm and unequivocal message to the board that the time has come for them to be held accountable to shareholders. **THIS PROCESS PRESENTS A CLEAR PATH FOR ALL SHAREHOLDERS TO EFFECT CHANGE NOW AND PARTICIPATE IN ELECTING REPLACEMENT TRUSTEES WITHOUT THE OVERSIGHT OF A SELF-INTERESTED BOARD.**

We are encouraged by the support we have received over the past weeks from many shareholders from large institutional holders, who have publicly stated their support for what we stand for, to small retail holders, who have seen their IRA accounts diminish in value as a result of the Portnoys' mismanagement. Now is the time for all of us to act.

We note that, unless the entire board is **removed**, **any remaining trustees will have the ability to fill vacancies created by the removal of individual trustees.** **YOUR CONSENT IS CRITICAL.**

Executive Summary
Immediate Change is Needed
Outdated structure creates inherent conflicts of interest between shareholders and external manager Reit Management and Research, LLC (RMR), which is owned by Barry Portnoy and his son Adam, the two Managing Trustees of CWH

RMR receives fees based on gross historical cost basis of real estate, incentivizing growth through acquisitions regardless of returns to CWH shareholders

CWH paid out \$395 million in fees to RMR during 2007-2012 (nearly 30% of CWH's market

Executive Summary

Shareholder Referendum: Path

Path: action by written consent requiring 2/3 vote to remove entire board of trustees

We filed definitive consent solicitation materials with the SEC on April 10, 2013

We delivered to CWH formal shareholder demands to fix a record date to determine shareholders entitled to act by written consent on April 12, 2013

In

We and our lawyers believe CWH's recent bylaw amendments, which would effectively eliminate shareholder rights to remove trustees without cause, are invalid and a desperate attempt to disenfranchise shareholders (see pg. 39 and

41
for
details)

With a successful 2/3 vote, shareholders can remove current trustees, elect new trustees at a special meeting, terminate RMR's management agreement, and unlock significant value for all shareholders

Act
now:
the
future
of
the
Company
is
in

We believe removing CWH's entire board of trustees immediately is in the best long-term interests of all shareholders, and the only near-term means for shareholders to effect change

In our view, NAV represents current fair market value (if current trustees are removed) based on bottom-up property-by-property valuation analysis led by Related, one of the most prominent privately-owned real estate firms in the U.S.

Key changes from previous valuation include CWH's massively dilutive equity offering (followed by dilutive debt tender at a premium), sale of CWH's minority stake in GOV, and additional market input

We believe CWH could trade at a stock price of \$44 or higher at 12/31/14 through internalization of management, operational turnaround, improved capital allocation, and multiple expansion

Executive Summary

Gigantic Conflicts of Interest

The externally managed REIT structure creates conflicts of interest that are so severe, we don't believe we can quantify the share price discount an investor should require to buy any of these companies. As a result, we have long deemed the Portnoy REITs to be uninvestable.

For most externally advised REITs, the fee paid to the advisor is predicated on the company's size

not on its success (or lack thereof). Therein lies the conflict of interest. The advisor carries a strong incentive to constantly sell common stock in order to raise funds for acquisitions. The price at which the equity is raised matters little to the advisor making the REIT bigger and increasing the advisory fee is a primary objective.

History of Underperformance

No Management Credibility

Management appears to lack an understanding of their own finances given a 50% cut in the dividend one quarter after dismissing the question

CWH appears to have now discontinued Q&A on all of its conference calls

Yeah.

I'm

glad

you

asked
that,
John,
because
it's
something
that
a
lot
of
investors
have
asked
us
about,
and
it's
the
security
of
the
dividend.
Right
now,
we
acknowledge
that
it
certainly
appears
that
the
market
is
expecting
a
dividend
cut.
We
disclosed
our
CAD
payout
ratio
as
a
104%.
That
is
above

100%,
it's
not
much
above
100%.
We
think
we
can
maintain
this
dividend
for
the
foreseeable
future.
If
the
payout
ratio
were
to
balloon
up,
well
above
104%,
well
above
100%,
and
be
there
for
quite
some
time,
I
think
we'd
have
to
seriously
consider
reducing
the
dividend.
But
right

now,
there's
no
intention
from
management
or
the
Board,
to
do
anything
with
the
dividend.
Now
that
might
change
as
circumstances
change.
But
today,
we
have
no
intention
of
changing
the
dividend.
And
I
have
to
tell
you,
it
is

at
times
it
is
perplexing
to
us,
because
we

look
at
our
numbers
and
say
we
can
afford
the
dividend,
and
the
dividend
doesn't
look
like
it
should
be
at
risk.
Yet
the
stock
price
seems
to
indicate
that
everybody
else
doesn't
see
that.
They
think
that
we're
going
to

that
there
should
be
a
dividend
cut.
Maybe

they
are
anticipating
something
years
from
now,
or
a
long
time
from
now.
But
I
don't

it
is

sometimes
it's
as
perplexing
to
us
as
to
maybe
you,
John,
but
that's
our
thoughts
on
it.

And
then
the
last
question,
the
obvious
question,
as
you
are
bouncing
around

\$18,
\$19
a
share,
high
10s
on
the
dividend,
clearly
when
you're
at
that
level,
people
are
either
anticipating
a
diminution
or
a
decline
in
share
value
and/or
a
dividend
adjustment.
And
it
seems
to
me
that
if
the
stocks
price
can't
get
back
up
into
the
low
to
mid

20's,
a
dividend
cut
would
be
the
prudent
thing
to
do.
In
fact,
if
you
cut
the
dividend
down
to
\$1.20
you'd
still
have
one
of
the
highest
dividends
in
the
office
industrial
REIT
space.
So
what's
your
thought
process
on
all
that?

External Manager RMR Causes Concern

We recommend investors avoid the shares of CWH at this time due to the uncertainty generated by the spinoff of SIR and the continuous decline in per share values. SIR is the second spinoff since 2009 and a recent one, GOV, did not seem to benefit the share holders. It appears that SIR, which carried little debt and all of the highest margin properties from CWH to its own portfolio, may become an acquisition vehicle. The manager

seems
to
be
making
decisions
which
are
beneficial
to
the
management

compensation for growing the portfolio but not as much for improving share value.

Scorched Earth Policies Require Action Now

These value destructive actions include:

A massively dilutive equity offering done 48% below book value to repay debt trading above par

Two separate bylaw amendments that in our view are invalid and seek to disenfranchise shareholders by effectively eliminating their ability to act by written consent to remove

trustees without cause

A failed attempt to secretly change Maryland law to make it impossible for shareholders to remove trustees without cause

A contemplated sale of CWH's 56% controlling interest in SIR at a potential discount to the market price rather than a control premium (which would also allow RMR to continue extracting fees from SIR)

If any shareholders had doubts as to where the trustees' allegiances lie, these actions have made clear it is with the Portnoys and not shareholders. Since our first call for change seven weeks ago, the Portnoys and their hand-picked trustees have used Company funds in a self-serving campaign aimed at, in our view, advancing their own financial interests and entrenchment. If shareholders don't act now to remove the entire board, we will be subject to at least three more years of mismanagement, the minimum time needed to replace a simple majority of CWH's super-charged staggered Board. If less than the entire board is removed, vacancies will be filled by the remaining

trustees and no change will be effected

Dilutive Equity Offering

Despite protests from some of its largest shareholders, a bona fide offer for \$27.00 per share, and in our view no need to issue equity, on March 5, 2013 CWH sold 34.5 million shares at \$19.00

Transaction increased CWH's share count by 41% and diluted CWH's NAV by over \$6 per share

Why did CWH sell its \$240 million minority stake in GOV only after issuing new CWH shares

at a 48% discount to book value?

Perhaps recognizing its actions were indefensible, trustees insulated themselves from questioning and ignored shareholder demands to stop offering

Canceled investor lunch and did not hold Q&A on roadshow call

CWH's use of proceeds for the equity offering, at a massive discount, was to repay debt trading at prices ranging from 102% to 111% of par

Remarkably, CWH did not have any upcoming maturities or liquidity issues associated with this debt or any debt

We believe recently completed equity offering serves as clear example of poor management, skewed incentives, and terrible capital allocation

The CWH board, controlled by external manager RMR, is in the unique position of acting in the best interest of RMR rather than as a fiduciary to the CWH Shareholders.

If RMR prevails, we believe the end result is the instantaneous resumption of CWH shares trading at a significant discount to NAV - we believe a \$15/sh price...

March 1 Bylaw Amendment

On Friday, March 1, 2013, CWH announced its bylaws had been amended to clarify that a shareholder seeking to take action to remove one or more Trustees must comply with the same bylaw requirements as a shareholder making a nomination of an individual for election to the Board.

(3% / 3 year requirement)

Clarification

is actually an attempt to re-craft bylaws in order to effectively eliminate a shareholder right (action by written consent to remove trustees) granted in CWH s Declaration of Trust since 1986

The Declaration of Trust can only be changed through a shareholder vote, explaining why trustees are attempting to use the bylaws in this backdoor manner
The Declaration of Trust supersedes the bylaws, and bylaws cannot be used to remove a right granted in the Declaration of Trust

Amateurish word games suggest to us that trustees are terrified of facing their own shareholders, and have looked to throw up any obstacle or delay tactic they can

We are litigating this matter in Maryland Court and have a hearing scheduled for May 3rd

Failed Maryland House Bill Amendment

Proposed amendment would have opened door to make it impossible to remove trustees without cause in many Maryland companies (regardless of voting threshold), even if shareholders had explicit right to do so in a company's charter

Similar to March 1st bylaw amendment, CWH couched proposed amendment as a clarification

We believe notion that amendment was a clarification is absurd, as existing Maryland law

expressly contemplates removal of staggered board without cause when provided for in a company's charter

as
is
unequivocally
done
in
CWH's
Declaration
of
Trust

CWH used deceptive letters (which were later withdrawn) from a conflicted attorney in an attempt to mislead Maryland senators into believing amendment had broad legal support and was ministerial,

when
in
fact
it

In fact, CWH recently sought to amend Section 3-803 to clarify

Section 3-803 could eliminate shareholders right to remove trustees without cause. The
Maryland legislature did not approve the proposed amendment. Various senators noted
during hearing that CWH's proposed amendment represented a substantive change in the
law, not a clarification
CWH's novel interpretation of Section 3-803 conflicts with 14 years of public filings by CWH,
which not once mention the potential effects of opting into Section 3-803, notwithstanding
extensive disclosure of Maryland law applicable to shareholder rights, and CWH's continuous
reminder to shareholders that trustees can be removed without cause by a two-thirds vote
CWH's latest bylaw amendment conflicts with 14 years of their own public

A Dinosaur

As the REIT industry grew rapidly during the 90s, the externally advised model became a dinosaur. The IPO wave of the 90s brought forth companies with top-notch managers/employees whose financial interests were strongly aligned with those of shareholders.

While

the

Refuting the Portnoys

Spurious Claims

CWH Has a Strategic Plan

Existing trustees claim to have a strategic plan

Unfortunately, in our view the so-called strategic plan consists largely of capital recycling, without any path to actual value creation for shareholders

Creates

the

appearance
of
activity,
but
does
not
actually
result
in
any
progress

Only figures associated with strategic plan reference volume of activity, and make no mention of shareholder returns or value creation

Strategic
plan
continues
management s
historical
practice
of

buy
high,
sell
low

capital
allocation

The two key elements
of the so-called strategic plan are:

Strategic Plan

Says:

We Believe Strategic Plan

Actually Means:

Improving Commonwealth's Financial
Condition and Liquidity

Sell equity at a massive discount to repay debt
trading at a premium, to give the appearance of
changing capital structure (i.e. buy high, sell low)

Continued Repositioning of

Commonwealth's Property Portfolio

Sell vacant suburban properties at a massive
discount and recycle proceeds to acquire fully
occupied CBD properties at premium valuations
(i.e. buy high, sell low)

48

Refuting the Portnoys

Spurious Claims

CWH Will be Unable to Continue Normal Operations

The Portnoys have tried to paint a bleak picture of CWH upon removal of themselves

and

their

conflicted

trustees

truth

Upon removal of the current board, we are committed to put at the immediate disposal of CWH and all its shareholders all of our considerable resources, including highly qualified property and financial managers

Jim Lozier, former CEO and co-founder of the Archon Group L.P., has agreed to a potential interim CEO position

CBRE, the world's largest commercial real estate services firm, has agreed to provide interim property management services and leasing services to the

CWH

necessary

Spurious Claims

Change of Control

under Credit Agreement, Other Agreements

In connection with their scare tactics, current trustees have also emphasized

risk that a termination of RMR's agreements could lead to a change of

control

under CWH's credit agreements and other agreements

We, along with our financial advisor Deutsche Bank, have analyzed the Company's credit

agreements

Deutsche Bank has already given us highly confident letters for necessary refinancings which may arise under a change of control, positioning CWH for a smooth transition

50

Refuting the Portnoys

Spurious Claims

Current Trustees and RMR Acting in Best Interests
of CWH

Existing trustees claim they and RMR are acting in the best interests of CWH
Based on what track record and what evidence?

Why would trustees acting in the best interests of shareholders pursue and even upsize
an unnecessary, massively dilutive equity offering?

Why would trustees acting in the best interests of shareholders attempt to pass bylaw amendments to disenfranchise shareholders?

Why would trustees acting in the best interests of shareholders attempt to secretly pass a new Maryland law making it impossible to remove them?

Why would trustees acting in the best interests of shareholders make plans to potentially sell CWH s controlling stake in SIR at a discount to market rather than a premium?

Potential Interim CEO

Mr. Lozier served as co-founder and CEO of the Archon Group L.P., a subsidiary of Goldman Sachs, from its formation in 1996 until 2012

Archon is an international real estate services and advisory company based in Dallas, TX

During Mr. Lozier's tenure at Archon, the company grew from 320 employees to 8,500 employees managing 36,000 assets with a gross value of approximately \$59 billion

Archon underwrote, acquired and asset managed real estate and real estate debt for Goldman Sachs with a concentration in office, multi-family and limited service hospitality

Prior to the formation of Archon, Mr. Lozier was an employee of the J.E. Robert Company and had been

Mr. Lozier could serve as interim CEO until the new board decides to hire a permanent CEO. As

interim CEO, he would focus on transition of management services, continuity of financial

reporting, and building out a permanent management team

Related/Corvex have identified a potential interim CEO, Jim Lozier, to help

Valuation Summary

(1)

Includes value of SIR stake as of April 17, 2013.

(2)

Stabilized NOI of \$547 million.

(3)

Wholly-owned LQA GAAP NOI of \$487.3 million per CWH 4Q12 Supplemental.

(4)

Wholly-owned square feet per Company filings and Related / Corvex analysis.

(1)

With the removal of current trustees, we estimate an NAV per share of \$35 today (4/17/13) based on bottom-up property-by-property analysis, and a target stock price of \$44 or higher at 12/31/14

We believe NAV can be thought of as fair market value of the current portfolio, before benefit from any other value enhancing actions (which we believe are plentiful)

Valuation was led by Related, one of the most well respected real estate developers, operators, and investors in the U.S. with a 40 year history and a portfolio of over \$15 billion of real estate operating assets today

We believe CWH could trade at a stock price of \$44 or higher at 12/31/14 through internalization of management, operational turnaround, improved capital allocation, and multiple expansion

vacancy and cap rate trends as
well as market research reports

Related performed site visits,
met with local brokers and had

review underwriting assumptions

Related used Gross Asset Value
(GAV) and Cap Rate Valuation
methodologies to determine NAV per
share.

Underwriting Methodology (continued)
The
most
extensive
property
level
detail
that

CWH provides is a Schedule 3 (accumulated depreciation schedule) produced at the end of every fiscal year. This report does not show the assets names or addresses and is merely a list of properties identified by an ID number. The following represents our underwriting methodology:

1. Associate each property ID in the Schedule 3 with an address, name and portfolio where appropriate
2. Remove any SIR spin-off properties (76 total) based on Schedule 1.1 of Form 8-K dated

3/31/12

3.

Account for any acquisitions and dispositions during 2012 and 2013

4.

Perform extended due diligence on 367 properties

Represents 90% of the portfolio's total SF

Represents 90% of the portfolio's total cost basis

5.

Extrapolate results to the rest of the portfolio

6.

Analyze market rental, vacancy and cap rate trends and meet with brokers, research comparable transactions and perform site visits to further improve property level assumptions

7.

Determine CWH's NAV per share based on gross asset value (GAV) and cap rate methodologies

We believe GAV is a more appropriate indicator of valuation because of the nature of CWH's portfolio

Additionally, RMR is entitled to an incentive fee equal to 15% of the product of (i)
weighted average fully diluted shares outstanding and (ii) the excess of FFO per share
over FFO per share in the preceding fiscal year
No incentive paid in recent years given continued FFO per share declines
Property management agreement

Provides for fees equal to 3.0% of gross collected rents, and construction supervision
fees equal to 5.0% of construction costs
CWH is managed under two agreements with RMR (terminable by Company
with 60 days notice), which generate steady fees based on gross historical cost
basis and gross rents
